

SacCT

Use Categories to Organize Grade Center Columns

HOW TO GUIDE

CALIFORNIA STATE UNIVERSITY, SACRAMENTO

OVERVIEW

The Categories feature in the SacCT grade center provides you the option of placing related columns into specific sets. These categories can then be used in a calculated column such as Weighted, Average, Min/Max and Total columns, to make selecting the items to be calculated easier. For example, categories are required when you need to drop a low or high score from a group of items students have completed.

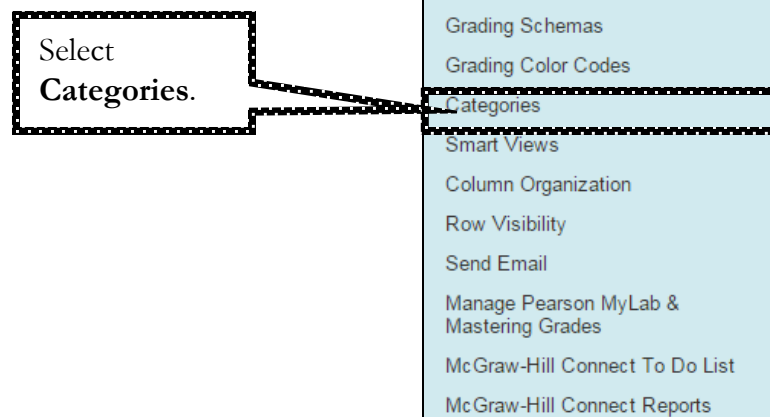

Items to be covered in this handout include: Creating New Categories, How to Place a New Column into a New Category, and How to Place an Existing Column into a Category.

CREATING NEW CATEGORIES

By default a course contains several categories already, which include Assignment, Discussion, Survey, and Test. These categories are automatically assigned to grade center columns for items created using the assignments, discussions, surveys, and tests tools. However, you can choose to create your own categories as well.

Creating new categories allows you to group columns into specific sets. For example, you may have a set of quizzes or assignments you would like to place into a custom category.

step 1. From the Full Grade Center hover over the **Manage** tab and select **Categories**.

step 2. Click the Create Category tab.

Categories

A Grade Center Category is a classification of Grade Center Columns. Categories are used to organize and view Grade Center data and can be used when creating Calculated Columns to perform operations on all Grade Columns in a Category. The Grade Center has nine default Categories: Assignment, Blog, Discussion, Journal, SafeAssignment, Self and Peer, Survey, and Test that cannot be removed or edited. [More Help](#)

Create Category

Click the **Create Category** tab.

Repeat the steps above to create additional categories as needed. Once you have created the Category(ies), you can now start organizing grade center columns into a specific Category.

HOW TO PLACE A NEW COLUMN INTO A CATEGORY

When you create a new column in the grade center you have the option to place it into a category.

step 1. From the Grade Center, click **Create Column**.

The screenshot shows the 'Grade Center : Full Grade Center' interface. A callout box points to the 'Create Column' button in the top navigation bar. The interface includes a table with columns for 'Last Name', 'First Name', 'Username', 'Total', 'Assignment # 2', 'SAMPLE: Orien', and 'Assignment # 1'. The table contains three rows of student data.

Last Name	First Name	Username	Total	Assignment # 2	SAMPLE: Orien	Assignment # 1
Dog	Goofy	wcttest2	4	--	✓	10.00
Duck	Donald	wcttest1	53	10.00	--	9.00
Ho_PreviewUser	Vivian	atcs-04_previewuse	9	--	--	--

step 2. In the Column name field, type in a Column Name.

step 3. From the Category section, click the drop-down menu and select the designated category.

step 4. Enter the points possible.

step 5. Click **Submit**.

HOW TO PLACE AN EXISTING COLUMN INTO A CATEGORY

There are two options for placing existing columns into categories:

1. Edit each grade center column individually and select the desired category
2. Edit multiple columns at once, from the Column Organization page

Edit Columns Individually

You may have not placed some of your grade center columns into categories when you first created them. In these cases you can go into the Grade Center and edit each column category individually.

- step 1.* Go to the designated column. Hover over the title of the column, and select the down arrow.
- step 2.* Click **Edit Column Information**.

Grade Center : Full Grade Center

When screen reader mode is on, the Grade Center data appears in a simplified grid inline, making it easier to navigate using the keyboard. To enter a grade, access a **Grade Details**. When screen reader mode is off, you can type a grade directly in the cell. To enter a grade: click the cell, type the grade value, and press the Enter key to submit. [More Help](#)
