To Members of the Campus Community:

In light of the fires Thursday afternoon inside Mariposa and Mendocino halls, and outside Eureka Hall, the Office of Public Affairs would like to remind you that Sacramento State has access to a wide variety of emergency notification tools, including emails, digital signage, an outdoor speaker system, the University homepage and social media.

In cases like Thursday’s contained fires, an “Urgent Message” will be emailed to all campus community members, and updates posted on the University’s homepage as well as on its Facebook and Twitter sites.

When there is a major, more imminent threat to public safety, such as a shooting, terrorist attack or situation involving hazardous materials, a brief text message will be sent to cell phones and the SacLink email accounts of all students, faculty and staff via the Emergency Notification System, or ENS. The texts will be supplemented by postings on the University’s homepage, Facebook and Twitter.

Remember that ENS is a voluntary program. To receive alerts, go to www.csus.edu/ens and log in with your SacLink ID and password. For more information, go to http://www.csus.edu/ens/FAQ.html.

Please note that the threshold for when the University activates the ENS system is under review by a campuswide Crisis Communications Working Group. We will keep you posted on any changes.

Sincerely,
Phil Garcia
Vice President of Public Affairs and Advocacy
