Building Bridges Through Zone Management
Why build bridges?
Proactive Maintenance

We serve the students best with clean, functional and well-lit classrooms.

• Conducted classroom condition assessments of over 300 rooms in 28 buildings

• Identified 200 classrooms that needed a facelift

- Keys/ access control

Customer Service: 278-6242
Facilities Services has launched its new customer-friendly work facilitation process: the Zone Manager Program. The program aims to improve communication and efficiency between facilities management and the departments they support. Zone Managers are trained to assist in managing facility needs and resolving issues more promptly.

For more information and to access the Zone Manager Program, visit the Facilities Management homepage or contact the Facilities Services Building.
