Campus Forums, Spring 2015

Process/Faculty Forums

Working in groups of 4-5, Faculty Senators were asked the following questions:

- At the time of graduation, what should Sacramento State students know?
- What distinguishes a Sac State undergraduate degree from a graduate degree? What are the connections between our undergraduate and graduate degrees?
- What, if anything, distinguishes a Sac State student experience from that of students from other universities?
- When thinking about the Sacramento State degree and the student experience… What do you believe we value here at Sacramento State? What are the top three things you value? How are these values manifested?

Process/Student Forums

Students were asked the following questions*:*

- Why did you attend Sacramento State? Has the university met your expectations so far?
- Do you believe your Sac State experience differs from other universities? How would you describe you Sac State experience?
- What do you think it means to receive a college degree? What do you think you will be prepared to do once you graduate?
- Have you ever thought about going to graduate school?

The questions were asked aloud, and in addition, at the end of the meeting, the facilitator asked the students to share one word that summed up their experience.
