Justification for course proposal:

Bachelor of Science Career Technical Studies is undergoing major curriculum revisions to be more inclusive and relevant to educators and career professionals. This course is being redesigned to be more focused on the workforce development aspect of the program. This course would help better serve our students by offering practical applications using workforce development competencies and educational theoretical frameworks for research and professional development implications by providing content related to digital and emerging technologies and pathways to adapt to variations of technologies used in schools and workforce. These topics are central to the content of EDUC 113.

Course Description: (Not to exceed 80 words and language should conform to catalog copy.)

Develop professional competencies in digital and emerging technologies, defined by the National Association of Colleges and Employers (NACE) taskforce. Cultivate a keen awareness about digital technologies when blending fundamental ethical principles and foresight to make quality decisions. Identify and implement effective pathways to learn and ethically adapt emerging technologies strategically. Solve problems effectively to attain sustainable goals.
