**Justification for course proposal:**

Course title is being changed to comply with new definitions in clinical education from the American Council of Academic Physical Therapy that specifically recommends to only use the term "internship" to apply to those clinical education experiences that provide recompense to participants in accordance with federal labor laws under the Fair Labor Standards Act. Students in this course are not paid or compensated for their patient care, and hence the course title is being changed to 1) more accurately reflect the terms of the contractual agreement(s) between the hospitals and clinics and CSUS, and 2) in order to avoid the perception that the student clinical experience for this course falls under the jurisdiction of federal labor laws.

The course description is changed to be more accurate and to reflect that there is no "clinical education series" defined in the DPT curriculum.

**Course Description: (Not to exceed 80 words and language should conform to catalog copy.)**

The second full-time clinical education experience in the Doctor of Physical therapy (DPT) program curriculum totals 12 weeks of clinical education in an assigned clinical setting under the direct supervision of a licensed physical therapist. Students improve and refine patient management skills and abilities developed during their first seven semesters.
