Bachelor of Arts

Briefly describe the program proposal (new or change) and provide a justification:

Liberal Studies majors complete an extensive, interdisciplinary core curriculum. In addition to satisfying the interdisciplinary core curriculum, students are required to complete additional coursework that is focused on an area of study in the form of a concentration or a minor. A concentration requires 12 units of coursework as defined in the concentration curriculum.

Over time, the course content and course pre-requisites associated with courses in mathematics and statistics have evolved over time. These curricular changes have affected the ability of Liberal Studies majors to complete the Mathematics concentration as currently written in the catalog. Specifically, course prerequisites were added to the courses listed, course content has evolved, and new courses have been created since the original concentration was drafted. These changes increased the effective units required to complete the Mathematics concentration as it currently appears in the catalog.

In consultation with the Mathematics faculty and the Liberal Studies Council, we are proposing changes to the Mathematics concentration in Liberal Studies to address the aforementioned curricular changes. There are changes to neither the units in the concentration (12 units), nor to units to degree for Liberal Studies majors. Formal consultation is noted minutes from the Liberal Studies Council meeting (October 23, 2019), which includes a faculty representative from Mathematics.

The change to the Mathematics concentration in the BA in Liberal Studies is designed to achieve three objectives:

- 1) The courses currently listed under the Mathematics concentration have changed significantly since the inception of the BA in Liberal Studies (Mathematics). Currently, the required courses listed have prerequisites that are not part of the BA in Liberal Studies. The new proposed courses include prerequisites already completed as part of the core BA in Liberal Studies requirements.
- 2) The proposed courses better align with helping students make progress toward an Introductory Subject Matter Authorization in Mathematics.
- 3) The proposed concentration is more flexible for students. For example, students wishing to take a sequence of calculus courses are still able to do so, but are not required to do so.

Objectives of the degree program:

BA Degree

University Learning Goals

Undergraduate Learning Goals:

Competence in the disciplines
Knowledge of human cultures and the physical and natural world
Integrative learning
Personal and social responsibility
Intellectual and practical skills

Will this program be required as part of a teaching credential program, a single subject, or multiple subject waiver program (e.g., Liberal Studies, Biology) or other school personnel preparation program (e.g., School of Nursing)?

Yes

For the Council for the Preparation of School Personnel (to be filled out with assistance of your department chair):

Does this program change impact your department's currently written Program Standards Document?

No

Common Standards: In what way does this course or program change impact the currently written Common Standards document? Please include any suggested language changes.

No effect on Common Standards document. This change affects the concentration only, not the core curriculum in Liberal Studies.

Is this change in response to program or unit assessment activities?

No

Will this program introduce any new or changes to program assessments?

No

Do these changes impact the Smart Planner roadmap?

No

Catalog Description:**Units required for Major: 100-103****Total units required for BA: 120****Program Description**

The Liberal Studies program is an interdisciplinary major, which encompasses a wide variety of areas of knowledge in a multidisciplinary curriculum. The program provides a broad academic program that encourages academic excellence, diversity, community, and collaboration. There are two tracks in the Liberal Studies Program: Pre-Credential and General.

•The Pre-Credential program is a multidisciplinary major designed for students who intend to become K-8 or special education teachers in California, and it has been approved by the California Commission on Teacher Credentialing. Its purpose is to provide beginning teachers with a strong grounding in the wide ranging subject matter that will be needed to be effective teachers. The core section is comprised of courses in reading, language and literature, mathematics, natural science, history and social sciences, visual and performing arts, physical education, human development, and health. The Pre-Credential program requires a 12-unit concentration.

•The General program is designed for students who are interested in a multidisciplinary major, but who do not necessarily plan to become teachers. The Liberal Studies major is an excellent preparation for careers in government service, public administration, business, management, community service, counseling, law, librarianship, public health, as well as professional or graduate school. This major requires students to include a minor.

The Liberal Studies major is a complex program requiring early and continuing contact with an adviser. Students meet with an adviser at least once each semester to provide a hands-on approach to learning. Students must complete 120 units and meet the University foreign language requirement in order to earn a Bachelor of Arts degree. Students are urged to obtain advice as early as possible to avoid delays in the completion of these requirements. The Liberal Studies program director and faculty and staff advisers are located in Lassen Hall 2008, (916) 278-6342.

Admission Requirements: Course prerequisites and other criteria for admission of students to the degree major program, and for their continuation in it.

Minimum Grade Requirement

A minimum grade of 'C-' is required in all courses applied to the Liberal Studies major.

Requirements for Concentrations (Pre-Credential Program)

All concentrations require a minimum of 12 units, 3 of which may overlap with the core course requirements (except for concentration in multicultural studies). Students who wish to complete requirements for a supplementary authorization in any CCTC-approved discipline, which allows them to teach the subject matter typically taught in grades K-9, should see an adviser for important information.

Requirements for the General Program

Students who are following the General Liberal Studies program will complete a minor instead of a concentration. Please talk to an adviser for more information.

As defined by policy <http://www.csus.edu/umannual/acadaff/fsm00010.htm>, a change in units constitutes a substantive change to the program. If your changes constitute a substantive change, please refer back to the 'Program Change Type' field above to ensure that 'Substantive' is selected.

Program Requirements: (If new courses are being created as part of a new program, it will be useful to propose courses first.)

- ¹ The Core Requirements for the General program are similar to the Core Requirements for the Pre-Credential program except there are a number of substitutions that can be made. Please see an adviser for more information.
- ² Course also satisfies General Education (GE)/Graduation Requirement.
- ³ Course to meet critical thinking requirement. See adviser for specific options.
- ⁴ Students who complete a mathematics concentration may substitute MATH 30, MATH 31, and MATH 35 for the above requirements. In addition, there are other ways of completing a concentration in mathematics. For further information on a concentration in mathematics, please consult the mathematics adviser in Liberal Studies.

Concentration in Mathematics

Code	Title	Units
MATH 107C	Elementary Mathematics and the Learning Process	3
STAT 1	Introduction to Statistics	3
Two additional courses in Mathematics (MATH) or Statistics (STAT) selected with a Liberal Studies major advisor, excluding MATH 10 and MATH 12.		6
Total Units		12

Note: MATH 1 may be counted toward the mathematics concentration. The courses given above are one path for completing a mathematics concentration. There are other ways of completing a mathematics concentration - please consult a major advisor in Liberal Studies for more information.

¹ To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (<http://catalog.csus.edu/colleges/academic-affairs/general-education/>).

Note: There is no way to list all possible overlaps so please consult with a professional adviser. The Academic Advising Center can be visited online (<http://www.csus.edu/acad/>), by phone (916) 278-1000, or email (advising@csus.edu).
