2021-2022 Catalog

This program has been elevated to a stand-alone degree, BS in Nutrition and Food in compliance with EO 1071. The remaining concentration in Family and Consumer Sciences is out of compliance with EO 1071, and per that order, should be discontinued.

The discontinuation of this program will not have any future fiscal or programmatic effects on other academic units' programs. The elevated major has taken the place of this concentration and the programmatic impacts of that have already been realized.

Consultation occurred with affected units in the Form B process of elevating the curriculum to a stand-alone degree, BS in Nutrition and Food.

Currently enrolled students have the option between the two majors: BS in Nutrition and Food, or BS in Family and Consumer Sciences concentration in Nutrition and Food. We have mitigated any impact on the number of units a student completes in the new major through course substitutions based on catalog rights.

All resources available to support the Family and Consumer Sciences concentration in Nutrition and Food have been shifted to the BS in Nutrition and Food
