Program Change Type:

Substantive

Title of the Program:

BA in Philosophy (Science, Reason and Values)

Designation: (degree terminology)

Bachelor of Arts

Briefly describe the program proposal (new or change) and provide a justification:

All Philosophy concentrations are being revised for the following reasons: (1) To achieve greater uniformity across the concentrations in core subject and total unit requirements; (2) to respond to a recent program review suggestion to create a required entry level Philosophical Methods (PHIL 89) course that will both prepare majors for advanced study and serve as an entry level assessment vehicle in conjunction with our Senior Seminar (PHIL 189). (3) To better prepare majors for advanced study by creating uniform prerequisites to upper division core courses. This concentration is also undergoing a name change and the content of the concentration is being modified to bring it more into alignment with the Department's identity as Sacramento State's center of research and instruction in ethics and values.

Objectives of the degree program:

To provide a strong foundation in philosophy for majors, stressing clear, rigorous, impartial and systematic thought.

To provide students the opportunity to develop the analytical tools needed to study the philosophical problems that arise in the context of scientific inquiry.

University Learning Goals

Undergraduate Learning Goals:

Competence in the disciplines

Will this program be required as part of a teaching credential program, a single subject, or multiple subject waiver program (e.g., Liberal Studies, Biology) or other school personnel preparation program (e.g., School of Nursing)?

Briefly describe the change:

Changes reflect name change for the concentration, change of units, new courses and new prerequisites.

Catalog Description:

Units required for Major: 42

Total units required for BA: 120

Program Description

The concentration in Science, Reason and Values is designed for students who are interested in the philosophical, rational and moral foundations of science and its applications. This concentration provides an excellent double major opportunity for science students interested in broadening and deepening their understanding of the normative elements of their chosen field. It is also a good choice for philosophy students who are interested in graduate study in the philosophy of science.

The concentration focuses on providing students with a deep understanding of the nature of scientific rationality. Topics include scientific explanation, the nature of scientific evidence, the process of confirming and revising our theories and beliefs, the problem of decision under conditions of uncertainty, and the scientific study of social phenomena. The philosophy of science also explores traditional philosophical questions as they arise in the context of scientific inquiry. Some of these are: Do we really know that the theoretical entities of science exist? What is the difference between science and pseudo-science? Do different sciences give us fundamentally different ways of understanding the world? Is science converging on truth or will it always undergo revolutionary changes that reject widely accepted theories of the past? Does scientific inquiry have intrinsic value or are there questions that scientists should not ask?

Note: Philosophy majors must fulfill the GE Writing Intensive "supervenient requirement" with courses **in the major, only**.

Admission Requirements: Course prerequisites and other criteria for admission of students to the degree major program, and for their continuation in it.

None

As defined by policy <http://www.csus.edu/umannual/acadaff/fsm00010.htm>, a change in units constitutes a substantive change to the program. If your changes constitute a substantive change, please refer back to the "Program Change Type" field above to ensure that "Substantive" is selected.

Program Requirements: (If new courses are being created as part of a new program, it will be useful to propose courses first.)

¹ To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (<http://catalog.csus.edu/colleges/academic-affairs/general-education/>).

Note: There is no way to list all possible overlaps so please consult with a professional advisor. The Academic Advising Center can be visited online (<http://www.csus.edu/acad/>), by phone (916) 278-1000, or email (advising@csus.edu).

² Department offers students a "select from the following" option:

- If student chooses to take PHIL 4, they will meet Area A3.
- If student chooses to take PHIL 2, PHIL 6, or PHIL 26, they will meet Area C2.

³ Required in Major; also satisfies GE.

⁴ Department offers students a "select from the following" option:

- If student chooses to take PHIL 102, PHIL 112, PHIL 115, PHIL 117, PHIL 122, PHIL 131, PHIL 136, PHIL 145A, or PHIL 145B, they will meet upper division Area C.
- If student chooses to take PHIL 101, PHIL 103, PHIL 104, or PHIL 105, they will meet upper division Area D.
