

EEE 268: TELECOMMUNICATION NETWORKS

In Workflow

1. EEE Committee Chair (pheedley@csus.edu)
2. EEE Chair (mahyar.zarghami@csus.edu)
3. ECS College Committee Chair (mohammed.eltayeb@csus.edu)
4. ECS Dean (arad@csus.edu)
5. Academic Services (catalog@csus.edu)
6. Senate Curriculum Subcommittee Chair (curriculum@csus.edu)
7. Dean of Undergraduate (james.german@csus.edu; celena.showers@csus.edu)
8. Dean of Graduate (cnewsome@skymail.csus.edu)
9. Catalog Editor (torsetj@csus.edu)
10. Registrar's Office (w lindsey@csus.edu)
11. PeopleSoft (PeopleSoft@csus.edu)

Approval Path

1. Sat, 13 Nov 2021 02:27:05 GMT
Perry Heedley (pheedley): Approved for EEE Committee Chair
2. Fri, 19 Nov 2021 22:30:08 GMT
Mahyar Zarghami (mahyar.zarghami): Approved for EEE Chair
3. Fri, 03 Dec 2021 18:40:28 GMT
Mohammed Eltayeb (mohammed.eltayeb): Approved for ECS College Committee Chair
4. Sat, 04 Dec 2021 00:37:31 GMT
Behnam Arad (arad): Approved for ECS Dean

New Course Proposal

Date Submitted: Fri, 12 Nov 2021 21:59:13 GMT

Viewing: EEE 268 : Telecommunication Networks

Last edit: Fri, 19 Nov 2021 23:13:17 GMT

Changes proposed by: Mohammed Eltayeb (219702627)

Contact(s):

Catalog Title:

Telecommunication Networks

Class Schedule Title:

Telecommunication Networks

Academic Group: (College)

ECS - Engineering & Computer Science

Academic Organization: (Department)

Electrical and Electronic Engineering

Will this course be offered through the College of Continuing Education (CCE)?

No

Catalog Year Effective:

Fall 2022 (2022/2023 Catalog)

Subject Area: (prefix)

EEE - Electrical and Electronic Engineering

Catalog Number: (course number)

268

Course ID: (For administrative use only.)

TBD

Units:

3

Is the primary purpose of this change to update the term typically offered or the enforcement of prerequisites at registration?

No

In what term(s) will this course typically be offered?

Spring term only

Does this course require a room for its final exam?

Yes, final exam requires a room

Does this course replace an existing experimental course?

No

This course complies with the credit hour policy:

Yes

Justification for course proposal:

This course provides an introduction to current and next-generation Telecommunication networks with a focus on the physical layer. To cope with recent advances in communication networks and demand by local industry, new concepts like wireless LAN standards, medium access control, and ad-hoc networks are introduced. We currently lack a course that covers these concepts in the EEE department.

Course Description: (Not to exceed 80 words and language should conform to catalog copy.)

Introduction to modern communication networks, Data traffic, Multi-access channels, Multiplexing, Packet switching, Circuit switching, Datagrams, Protocols, Media access control, Resource allocation, SONET, Performance analysis, Local area networks, Ethernet, Polling systems, Ad-hoc wireless networks.

Are one or more field trips required with this course?

No

Fee Course?

No

Is this course designated as Service Learning?

No

Does this course require safety training?

No

Does this course require personal protective equipment (PPE)?

No

Does this course have prerequisites?

Yes

Prerequisite:

EEE 185 or instructor permission

Prerequisites Enforced at Registration?

No

Does this course have corequisites?

No

Graded:

Letter

Approval required for enrollment?

No Approval Required

Course Component(s) and Classification(s):

Seminar

Seminar Classification

CS#02 - Lecture/Discussion (K-factor=1WTU per unit)

Seminar Units

3

Is this a paired course?

No

Is this course crosslisted?

No

Can this course be repeated for credit?

No

Can the course be taken for credit more than once during the same term?

No

Description of the Expected Learning Outcomes: Describe outcomes using the following format: "Students will be able to: 1), 2), etc."

- 1) Explain the architecture of current and next-generation telecommunication networks.
- 2) Analyze techniques underlying modern physical and datalink layers in wireless communications.
- 3) Design and analyze medium access control and multiple access protocols for local area networks.
- 4) Select and analyze transmission and multiplexing techniques for local area networks.

Assessment Strategies: A description of the assessment strategies (e.g., portfolios, examinations, performances, pre-and post-tests, conferences with students, student papers) which will be used by the instructor to determine the extent to which students have achieved the learning outcomes noted above.

Student performance in this course will be evaluated on the basis of two exams (ELO 1-4), a project (ELO 3), and homework (ELO 1-4). The project will focus on identifying a research paper on advances in wireless network technology/protocols and making an oral presentation of the paper to the class.

For whom is this course being developed?

Majors in the Dept

Is this course required in a degree program (major, minor, graduate degree, certificate?)

No

Does the proposed change or addition cause a significant increase in the use of College or University resources (lab room, computer)?

No

Will there be any departments affected by this proposed course?

No

I/we as the author(s) of this course proposal agree to provide a new or updated accessibility checklist to the Dean's office prior to the semester when this course is taught utilizing the changes proposed here.

I/we agree

University Learning Goals**Graduate (Masters) Learning Goals:**

Critical thinking/analysis
 Communication
 Information literacy
 Disciplinary knowledge
 Research (optional)

Is this course required as part of a teaching credential program, a single subject, or multiple subject waiver program (e.g., Liberal Studies, Biology) or other school personnel preparation program (e.g., School of Nursing)?

No

Is this a Graduate Writing Intensive (GWI) course?

No
