Title of the Program:

BS in Biological Science (Biomedical Sciences)

Designation: (degree terminology)

Bachelor of Science

Briefly describe the program proposal (new or change) and provide a justification:

The Department has voted to discontinue the pre-major.

Objectives of the degree program:

To prepare students for careers in fields related to medicine.

University Learning Goals**Undergraduate Learning Goals:**

Competence in the disciplines
 Integrative learning
 Intellectual and practical skills

Will this program be required as part of a teaching credential program, a single subject, or multiple subject waiver program (e.g., Liberal Studies, Biology) or other school personnel preparation program (e.g., School of Nursing)?

No

Do these changes impact the Smart Planner roadmap?

No

Catalog Description:**Units required for Major: 73-85, includes units of study in chosen concentration (see below).****Total units required for BS: 120****Program Description**

The concentration in Biomedical Sciences is designed to prepare students for graduate study in the anatomical and physiological sciences or for health professional training (Medical, Veterinary, Physical Therapy, Nursing, Pharmacy, or other health professions).

Note:

- CHEM 24 and CHEM 124 are required instead of CHEM 20 for the Biomedical Sciences Concentration.
- Additional units may be required to meet the Sacramento State foreign language requirement.

As defined by policy <http://www.csus.edu/umannual/acadaff/fsm00010.htm>, a change in units constitutes a substantive change to the program. If your changes constitute a substantive change, please refer back to the "Program Change Type" field above to ensure that "Substantive" is selected.

Program Requirements: (If new courses are being created as part of a new program, it will be useful to propose courses first.)
