Justification for course proposal:

We are proposing to change the prerequisites. The course is currently part of the post-baccalaureate Dietetic Internship curriculum and is now a required course in the newly approved MS in Nutrition and Food set to begin enrollment in fall 2023. No other course changes are being proposed.

Change prerequisite from:

Admission into Dietetic Internship program or instructor permission

to:

Admission into NUFD graduate program, Dietetic Internship program, or instructor permission.

We also have a minor update to the ELOs to have measurable verbs from Bloom's Taxonomy.

Course Description: (Not to exceed 80 words and language should conform to catalog copy.)

The course will examine the implementation of nutrition care for population groups across the lifespan. Explore assessment and evaluation methodologies of community based food and nutrition programs. Nutrition policy development and evaluation based on community needs and resources to address health disparities. Learn advanced nutrition education intervention techniques applying behavioral models and theories.
