## Provide reasons for the program suspension.

With changes to credential requirements program is no longer able to meet those requirements. In addition, sustainability of the program is not feasible.

Indicate any programmatic or fiscal impact suspension of the program will have on other academic units' programs.

None. Students who would have been part of this program can just complete the single subject credential program after their BA in math. This was a joint program with College of Education and they are aware of and support the deletion.

Describe the consultation that has occurred with affected units.

Deidre Sessoms in College of Education.
Explain provisions to ensure currently enrollment students have a reasonable opportunity to complete the program.

Students can complete the BA in Math and single subject credential as separate programs.
Indicate what resources will be freed up or shifted to other programs as the result of the program suspension.

Program has not been running for the past several years, so no new shift in resources will occur.

Units required for Major and Credential: 90

## Program Description

Teaching credential candidates must complete the Professional Education Program in addition to other requirements for a teaching credential. Consult the Department credential advisor for details. You may also obtain information about the Professional Education Program from the Teacher Preparation and Credentials Office, Eureka Hall 216, (916) 278-6403.
Students in the Integrated Mathematics Major/Single Subject Credential Program (also called the Blended Program in Mathematics) begin their pedagogical studies while they are completing the mathematics courses required for the Bachelor's degree in Mathematics. The mathematics requirements include all of the courses required for the subject matter program in mathematics (see above), and MATH 198. Students who are interested in being admitted to the Blended Program in Mathematics must plan ahead, and must see their advisor as soon as possible.
Note: Due to continuing policy changes, it is important to consult a credential advisor for current details.
Admission Requirements: Course prerequisites and other criteria for admission of students to the degree major program, and for their continuation in it.

## Admission Requirements

Admission requirements for the Blended Program include junior class standing with a minimum overall GPA of 2.67, a grade of "C-" or better in MATH 108, passing the Writing Placement for Juniors Exam (WPJ), spending and documenting at least 45 hours observing classes, tutoring, or teaching in a variety of settings in grades 7-12, taking all three sections of the California Basic Education Skills Test (CBEST), and submitting an application packet to the Department of Mathematics and Statistics. A completed application packet includes:

- an application form;
- an essay outlining reasons for entering a career in teaching;
- two letters of recommendation;
- two sets of transcripts from each college or university attended, other than Sacramento State; and
- one complete Sacramento State transcript.

The application packet may be submitted during the semester in which the requirements for admission are being completed, so the application may be submitted during the semester in which enrollment in MATH 108 occurs.

## Prerequisite/Corequisite Requirements

There are three courses which are prerequisites or corequisites to the Blended Program and students are encouraged to take these courses prior to formal admission:

| Code | Title | Units | 3 |
| :--- | :--- | ---: | ---: |
| EDUC 170 | Introduction to Bilingual Education: Policies, Principles, Programs, and Practices | 2 |  |
| EDUC 100A | Educating Students with Disabilities in Inclusive Settings | 2 |  |
| EDUC 100B | Educating Students with Disabilities in Inclusive Settings Lab | 1 |  |
| HLSC 136 | Course HLSC 136 Not Found | 2 |  |

## Program Requirements: (If new courses are being created as part of a new program, it will be useful to propose courses first.) <br> Program Requirements

1 To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (http://catalog.csus.edu/colleges/academic-affairs/general-education/).
Note: There is no way to list all possible overlaps so please consult with a professional advisor. The Academic Advising Center can be visited online (http://www.csus.edu/acad/), by phone (916) 278-1000, or email (advising@csus.edu).
2 Required in Major; also satisfies GE.
