- Evolution and historical foundations of American patterns of crime and violence, criminological theories, law enforcement structures and philosophies, the adult criminal justice system, and the juvenile system will be traced through three distinct historical periods: Colonial and Early American Roots, 1609-1814; Creating the American Criminal Justice System, 1815-1900; and Reforming the Criminal Justice System, 1900 to present.
- CRJ 257. The Nature Of Terrorism. 3 Units**
Prerequisite(s): CRJ 200, CRJ 201, CRJ 255 and CRJ 260
Term Typically Offered: Fall, Spring
- Theoretical approaches to the study of terrorism and analysis of terrorist theory and strategies. Topics include operational definitions of terrorism, typologies of terrorism, threat analysis of terrorism in the U.S., and responses of the criminal justice system to acts of hostage-taking, bombing, political murder, and narco-terrorism.
- CRJ 260. Management of Complex Justice Organizations. 3 Units**
Prerequisite(s): Classified graduate status.
Term Typically Offered: Fall, Spring
- Description, analysis, solution, and synthesis of contemporary management problems in criminal justice organizations; presentation and exemplary implementation of management concepts significant to criminal justice organizations; review of case studies for management problem recognition; and the study of operational systems.
- CRJ 262. Administration of Juvenile Justice. 3 Units**
Prerequisite(s): CRJ 200, CRJ 201, CRJ 255 and CRJ 260
Term Typically Offered: Fall, Spring
- Theoretical and empirical study of the cause and control of delinquent behavior. Assessment of policies and practices of agencies involved in juvenile justice including the impact of recent federal and state legislation.
- CRJ 266. Personnel Administration in Justice Organizations. 3 Units**
Prerequisite(s): CRJ 200, CRJ 201, CRJ 255 and CRJ 260
Term Typically Offered: Fall, Spring
- Provides an in depth understanding of the history, theories, laws, processes, issues and unique environment shaping contemporary personnel administration in a variety of criminal justice agencies.
- CRJ 267. Criminal Justice Issues in Collective Bargaining and Arbitration. 3 Units**
Prerequisite(s): Classified graduate status; CRJ 200, CRJ 255, CRJ 256 and CRJ 260; or chair permission
Term Typically Offered: Fall, Spring
- Designed to provide the criminal justice practitioner and administrator with an understanding of criminal justice labor-management relations and collective bargaining and difference resolution, along with conflict resolution practices as applied to inmate-custody and control situations.
- CRJ 289. Criminal Justice Systems of the Future. 3 Units**
Prerequisite(s): CRJ 200, CRJ 201, CRJ 255 and CRJ 260
Term Typically Offered: Fall, Spring
- Societal structures, definitions of deviance and criminal behavior, social problems related to criminality, the nature of systems for handling criminal and sanctions in future societies.
- CRJ 295. Internship. 3 Units**
Prerequisite(s): Classified graduate status
Term Typically Offered: Fall, Spring
- Supervised graduate student placement in selected criminal justice agencies with emphasis on research and evaluation project assignments. Credit/No Credit
- CRJ 296A. The Mentally Ill Individual in the Criminal Justice System. 3 Units**
Prerequisite(s): Graduate student status
Term Typically Offered: Fall, Spring
- A critical analysis of how mentally ill individuals interface with the criminal justice system, from first contacts with the police, to their entry into the jails, courts, prisons, and then reentry into the community via parole and probation. Current and historical topics about the mentally ill will be explored via an in-depth analysis of the current literature regarding the mentally ill in the criminal justice system, which will be reviewed and critiqued.
- CRJ 296K. Emergency Management. 3 Units**
Prerequisite(s): Graduate status; CRJ 200, CRJ 255, CRJ 256 and CRJ 260 or chair permission.
Term Typically Offered: Fall, Spring
- Introduction to the authority, organization, responsibilities, challenges, and issues related to emergency management in California and the U.S., examines the implications of citizen involvement in preparation for and management of natural and man-made disasters. Graduate students will consider impact of terrorism on democratic governance issues and potential future trends and issues.
- CRJ 299. Special Problems. 1 - 3 Units**
Prerequisite(s): CRJ 200, CRJ 201, CRJ 255 and CRJ 260
Term Typically Offered: Fall, Spring
- Individual projects or directed reading. Open only to students who are competent to carry on individual work. Credit/No Credit

CRJ 500. Culminating Experience.**3 Units****Prerequisite(s):** Advanced to candidacy.**Term Typically Offered:** Fall, Spring

Completion of a thesis or project approved for the Master's degree. A thesis requires an original contribution to knowledge in a traditional research format. A project is a significant undertaking of a pursuit appropriate to the profession. It must evidence originality and independent thinking, appropriate form and organization and a rationale.

CRJ 501. Culminating Experience: Thesis/Project Development. 3 Units**Prerequisite(s):** Advancement to candidacy.**Term Typically Offered:** Fall, Spring

Provides students with an opportunity to develop a foundation for their culminating experience. Students will complete the initial components of their project or thesis including the Statement of the Problem, Literature Review, and Human Subjects application. Students are expected to read assigned materials and engage in weekly discussions about their progress and experience with other students, the instructor, and their advisor (as needed).

Credit/No Credit

CRJ 502. Culminating Experience: Thesis or Project.**3 Units****Prerequisite(s):** Advanced to candidacy; satisfactory completion of CRJ 501.**Term Typically Offered:** Fall, Spring

Completion of a thesis or project approved for the Master's degree. A thesis requires an original contribution to knowledge in a traditional research format. A project is a significant undertaking of a pursuit appropriate to the profession. It must evidence originality and independent thinking, appropriate form and organization and a rationale.

Credit/No Credit

Dance (DNCE)

DNCE 1A. Jazz Dance Level IA.**2 Units****Term Typically Offered:** Fall, Spring

Theory and practice of basic beginning jazz techniques.

Note: May be repeated for up to 4 units of credit.**DNCE 1B. Jazz Dance Level IB.****2 Units****Term Typically Offered:** Fall, Spring

Continued theory and practice of beginning jazz techniques.

Note: Does not satisfy degree requirements for major, all students welcome. May be repeated for up to 4 units of credit.**DNCE 1C. Jazz Dance Level IC.****2 Units****Term Typically Offered:** Fall, Spring

Further theory and practice of beginning jazz techniques.

Note: May be repeated for up to 4 units of credit.**DNCE 2A. Contemporary Dance Level IA.****2 Units****Term Typically Offered:** Fall, Spring

Introduction to the history and techniques of the contemporary dance and modern dance tradition through basic dance principles and aesthetics including the introduction to contemporary movement to develop and improve strength, flexibility, balance, coordination and creative expression.

Note: Does not satisfy degree requirements for major, all students welcome.**DNCE 2B. Contemporary Dance Level IB.****2 Units****Term Typically Offered:** Fall, Spring

Continues the introduction of the history and techniques of contemporary dance and the modern dance tradition through deepened study of basic dance principles and aesthetics including the continued practice of contemporary movement to continue the development and improvement of strength, flexibility, balance, coordination and creative expression.

Note: Does not satisfy degree requirements for major, all students welcome.**DNCE 2C. Contemporary Dance Level IC.****2 Units****Term Typically Offered:** Fall, Spring

Further introduction to the history and techniques of the contemporary dance and modern dance tradition through further study of basic contemporary dance principles and aesthetics including the further practice of contemporary movement for the deepened development and improvement of strength, flexibility, balance, coordination and creative expression.

Note: Does not satisfy degree requirements for major, all students welcome.**DNCE 3A. Ballet Level IA.****2 Units****Term Typically Offered:** Fall, Spring

Introduction to the history and development of traditional ballet techniques. Students will study ballet principles and aesthetics and continue to learn basic ballet movement, vocabulary, and skills.

Note: Does not satisfy degree requirements for major, all students welcome.**DNCE 3B. Ballet Level IB.****2 Units****Term Typically Offered:** Fall, Spring

This course provides continued introduction to the history and development of traditional ballet techniques. Students will study ballet principles and aesthetics and continue to learn basic ballet movement, vocabulary, and skills.

Note: Does not satisfy degree requirements for major, all students welcome.**DNCE 3C. Ballet Level IC.****2 Units****Term Typically Offered:** Fall, Spring

This course provides a further introduction to the history and development of traditional ballet techniques. Students will expand upon their earlier study of ballet principles and aesthetics and continue to learn basic ballet movement, vocabulary, and skills.

Note: Does not satisfy degree requirements for major, all students welcome.

		DNCE 12A. Contemporary Dance Level IIA. Term Typically Offered: Fall, Spring	2 Units
		<p>Examination of theories of the contemporary dance and modern dance tradition that develops proficiency in performing intermediate level contemporary dance techniques from an intellectual and kinesthetic understanding. Instructor with dance faculty representatives will audition students during first week of class for proper placement. Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.</p>	

DNCE 12B. Contemporary Dance Level IIB.**2 Units****Term Typically Offered:** Fall, Spring

Continued examination of theories of the contemporary dance and modern dance tradition that continues the proficiency in performing intermediate level contemporary dance techniques with a deepened intellectual and kinesthetic understanding. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 12C. Contemporary Dance Level IIC.**2 Units****Term Typically Offered:** Fall, Spring

Further examination of theories of the contemporary dance and modern dance tradition that further expand the proficiency in performing intermediate level contemporary dance techniques from a deeper intellectual and kinesthetic understanding. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 13A. Ballet Level IIA.**2 Units****Term Typically Offered:** Fall, Spring

Understand and demonstrate proficiency of Ballet movement and vocabulary including different styles while learning the importance of proper anatomical alignment, collaboration of foot and arm positions, and appreciation of classical musical accompaniment. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 13B. Ballet Level IIB.**2 Units****Term Typically Offered:** Fall, Spring

Continued understanding and deepened demonstration of proficiency of Ballet movement and vocabulary including different styles while learning the importance of proper anatomical alignment, collaboration of foot and arm positions, and appreciation of classical musical accompaniment. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 13C. Ballet Level IIC.**2 Units****Term Typically Offered:** Fall, Spring

Further understanding and expanded demonstration of proficiency of Ballet aesthetics through Ballet movement and vocabulary including different styles while learning the importance of proper anatomical alignment, collaboration of foot and arm positions, and appreciation of classical musical accompaniment. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 14A. Tap Dance Level IIA.**2 Units****Term Typically Offered:** Fall, Spring

Development and refinement of intermediate tap skills and vocabulary through the study of historical and current tap styles. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 14B. Tap Dance Level IIB.**2 Units****Term Typically Offered:** Fall, Spring

Continued development and refinement of intermediate tap skills and vocabulary through the deepened study of historical and current tap styles. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 14C. Tap Dance Level IIC.**2 Units****Term Typically Offered:** Fall, Spring

Further development and refinement of intermediate tap skills and vocabulary through the expanded study of historical and current tap styles. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 21. First Year Seminar: Becoming an Educated Person. 3 Units**General Education Area/Graduation Requirement:** Understanding Personal Development (E)**Term Typically Offered:** Fall, Spring

Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Students will have the opportunity to interact with fellow classmates and the seminar leader to build a community of academic support and personal support.

<p>DNCE 22. Music for Dance. 2 Units Prerequisite(s): DNCE 1A or DNCE 1B or DNCE 1C or DNCE 2A or DNCE 2B or DNCE 2C or instructor permission. - DNCE 120. Dance Composition I.** **2 Units**
Prerequisite(s): DNCE 118 or instructor approval
Term Typically Offered: Fall only
- An exploration of the principle elements and processes utilized in the choreographic process.
Note: Satisfies degree requirements, all students welcome
- DNCE 122. Dance Composition II.** **2 Units**
Prerequisite(s): DNCE 120 or Instructor permission.
Term Typically Offered: Fall, Spring
- An in-depth exploration of the concepts, approaches, and processes used to further develop a stylistic approach to Dance Composition.
Note: Satisfies degree requirements, all students welcome.
- DNCE 130. Appreciation and History of Dance.** **3 Units**
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
- Survey in the appreciation and history of dance and the relationship of dance to the fine and liberal arts in Western Civilization. Emphasis upon the history of ballet; American modes of expression: modern and jazz forms.
Note: Non-activity.
- DNCE 131. Dance Cultures Of America.** **3 Units**
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), Arts (Area C1)
Term Typically Offered: Fall, Spring
- Survey course in the appreciation and understanding of dance cultures in America. The relationship of dance to the identity and expression of different cultural groups in the U.S. will be examined. Jazz, modern, and ballet from a multicultural perspective will be the focus of the class.
Note: Non-activity.
- DNCE 132. African-Caribbean Dance.** **3 Units**
General Education Area/Graduation Requirement: Arts (Area C1), Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring
- Introduction to the rich dance cultures of the Caribbean. Students will learn the different dances of Haiti, Cuba, Jamaica and Trinidad as they relate to their function in secular and religious culture, including the study of the Dunham Dance Technique.
Note: May be repeated for up to 6 units of credit.
- DNCE 142. Dance Science and Somatics.** **3 Units**
Prerequisite(s): Upper division standing, or instructor permission.
Term Typically Offered: Fall, Spring
- The study of skeletal structure, joint and muscle function, and the mechanics of movement geared specifically for dancers and movement practitioners. Incorporated into the course will be the study of embodied awareness practices - Somatics. The structural and energetic connections of the body will be explored within a context of both ease and efficiency of movement as well as creative expression.
Note: May be repeated for up to 6 units of credit. Satisfies degree requirement, all students welcome.
- DNCE 143. University Dance Company.** **1 Unit**
Prerequisite(s): THEA 121 and either DNCE 11A, 11B, 11C, 12A, 12B, 12C, 13A, 13B, 13C, 111A, 111B, 111C, 112A, 112B, 112C, 113A, 113B, 113C, or 132.
Term Typically Offered: Fall, Spring
- Participation in the University Dance Company includes pre-professional dance conditioning and performance skill acquisition. Fulfills requirement for Dance Major and elective for Dance Minor; all students welcome to audition.
Note: Admission by audition only, this course is approximately 30 hours of participation in mandatory weekly class.
- DNCE 150. Dance Theory and Criticism.** **3 Units**
Prerequisite(s): DNCE 122, DNCE 130, DNCE 131, instructor permission.
Term Typically Offered: Fall, Spring
- Exploration of the contemporary theories and philosophies of movement, specifically in the dance genres of modern and jazz.. Also explores personal aesthetics and how to look at dance from a critical writing and oral presentation perspective. The role of the audience as well as the critic will be assessed and students will learn to evaluate content of movement in relation to its intention, motivation, and delivery.
- DNCE 160. Creative Dance for Children.** **3 Units**
Term Typically Offered: Spring only
- Exploration of creative dance as it applies to young children; including exploration of non-locomotor and locomotor movement patterns through problem solving and guided discovery techniques.
- DNCE 190. Capstone Dance Project.** **2 Units**
Prerequisite(s): DNCE 150
Term Typically Offered: Fall, Spring
- Participation and creative research in the rehearsal, production, and performance of a public dance production. Students will synthesize all major course materials to individually create a new choreographic work and collaboratively produce the Senior Dance Concert as their capstone project. Fulfills requirements for Dance Major.
Note: Dance Majors Only or Instructor Permission.

Deaf Studies (DEAF)

DEAF 51. American Sign Language 1. **3 Units**
Term Typically Offered: Fall, Spring

Students will learn basic vocabulary and grammar of American Sign Language. Upon completion of this course, students will be able to exchange basic information about themselves and their families such as their names, where they live, and their interests. Through out-of-class readings, in-class discussions and demonstrations, and experiences within the deaf community, students are exposed to elements of the deaf culture and community.

Note: Taught in ASL without voice.

- DEAF 52. American Sign Language 2.** **3 Units**
Prerequisite(s): DEAF 51 or equivalent.
General Education Area/Graduation Requirement: Humanities (Area C2), Foreign Language Graduation Requirement
Term Typically Offered: Fall, Spring
- Students will continue to expand vocabulary and concepts acquired in DEAF 51. Expansion of conversational range includes talking about other people and activities, giving directions, and making requests. Students develop discourse skills appropriate for establishing connections with deaf acquaintances and handling a variety of interruptions. Through in-class discussions/demonstrations, course readings, and out-of-class field experience, students are exposed to elements of the deaf culture and community.
Note: Taught in ASL without voice.
- DEAF 53. American Sign Language 3.** **4 Units**
Prerequisite(s): EDS 52 or equivalent.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Fall, Spring
- Students will expand communicative repertoire developed in DEAF 52 to talk about people and places in a contextually-reduced framework. Students learn to describe places, objects, and events. Students develop basic narrative skills to tell about past events. Through in-class discussions/demonstrations, course readings, and out-of-class field experience, students are exposed to elements of the deaf community and culture.
Note: Taught in ASL without voice.
- DEAF 56. ASL Fingerspelling and Numbers.** **1 Unit**
Prerequisite(s): DEAF 52
Term Typically Offered: Fall, Spring
- Students will develop increased fluency in their expressive and receptive abilities in fingerspelling through in-class practice and viewing of videotaped narratives. Students will also reinforce their abilities to utilize ASL numbering systems for time, money, measurements, and game scores, amount others.
- DEAF 57. ASL Classifiers.** **2 Units**
Prerequisite(s): DEAF 53; may be taken concurrently
Term Typically Offered: Fall, Spring
- Students will develop increased understanding of the types and uses of classifiers in ASL and develop further abilities to utilize this component of ASL in their expressive and receptive signing abilities through in-class practice, viewing of videotaped narratives, and individual practice outside of class.
- DEAF 60. Introduction to Deaf Studies.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Course introduces students to topics central to the deaf and deaf community, including audiology, education, culture, and history. Utilizing readings, lectures and group discussion, students will learn about the anatomy and causes of deafness, early intervention and education of deaf children, communication strategies and their effectiveness, the deaf as a cultural group and deaf/hearing relationships. Upon course completion, students will understand deaf individuals and their community in a holistic perspective and apply this knowledge toward further studies into the deaf culture and community.
- DEAF 154. American Sign Language 4.** **4 Units**
Prerequisite(s): DEAF 53
Term Typically Offered: Fall, Spring
- Principles, methods and techniques of manual communication with deaf people using American Sign Language. Emphasis on the continuation of developing advanced manual communication skills with a focus on techniques for informing others of factual information and instruction about rules and methods for students who will work or interact with adult deaf persons. Continuation of the analysis of the culture of deafness with emphasis on participation in the community.
Note: Taught in ASL without voice.
- DEAF 155. American Sign Language 5.** **4 Units**
Prerequisite(s): DEAF 154 or instructor permission.
Term Typically Offered: Fall, Spring, Summer
- Students will build upon communicative skills developed in EDS 154 to develop and expand on their abilities to discuss parts of the body and health conditions, tell a personal narrative about themselves and moments in theirs and others' lives, as well as to retell and translate simple stories into ASL.
- DEAF 161. Deaf History.** **3 Units**
Prerequisite(s): DEAF 60, DEAF 154
Term Typically Offered: Fall, Spring
- An overview of the education of the deaf from prehistoric times to the present will be provided. Roots of current trends and events in deaf education will be explored, with projections for the future. Current issues such as mainstreaming, cochlear implants, communication modalities for instruction and others are discussed in both a historical context and from a deaf perspective.
- DEAF 162. Deaf Culture and Community.** **3 Units**
Prerequisite(s): DEAF 60, DEAF 154
Term Typically Offered: Fall, Spring
- Course introduces students to deaf people as a cultural and linguistic minority in America through coverage of sociolinguistic, anthropological, and historic issues in the development of deaf culture and community in America and worldwide. Utilizing readings, lectures and group discussion, topics will include: theories of culture; language use; cross-cultural interaction and intercultural processes, and deaf literature and art. Upon course completion, students will understand current and past educational, legal and medical policies and their impact on deaf and hard-of-hearing people.
- DEAF 163. ASL Literature.** **3 Units**
Prerequisite(s): DEAF 57, DEAF 60, DEAF 154, DEAF 161, DEAF 162, and DEAF 164.
Term Typically Offered: Fall, Spring
- Students will be exposed to a number of ASL stories on videotape, learn several different forms of ASL literature and develop their own stories and narratives in each format. They will understand the effects of genre, style, perspective, and other artistic techniques on ASL storytelling, and utilize similar techniques in their developed stories. Students may perform their stories for a general audience.

DEAF 164. Sign Language Structure and Usage. 3 Units
Prerequisite(s): DEAF 154 or instructor permission.
Term Typically Offered: Fall, Spring, Summer

Examines origins and linguistic structure of American Sign Language (ASL). Cross-linguistic comparisons with spoken and signed languages of other countries will be made. Students will learn aspects of ASL phonology, morphology and syntax. Sociolinguistic aspects of ASL usage in regard to gender, ethnicity, geographical region and educational status will be discussed. Conducted entirely in American Sign Language.

DEAF 165. Seminar: Current Issues in the Deaf -World. 3 Units
Prerequisite(s): DEAF 154 or instructor approval.
Term Typically Offered: Fall, Spring

This course will explore a specific theme of interest to faculty and students within the program, with course content changed each semester. Selected topics will touch upon issues of special concern and interest to the Deaf community such as genetics, multicultural issues, media representations of deafness, theatre and performance art, visual arts, and other subjects which may arise in the future. Course will consist of readings, discussion, independent research, and viewing of various media as appropriate.

Note: 1) May be repeated when different topic is offered with a different instructor of record 2) Course taught in ASL with No Voice.

DEAF 166. Experiences in the Deaf Community - Dynamics of Oppression and Building Allyship. 3 Units
Prerequisite(s): DEAF 155, DEAF 161, DEAF 162.
Term Typically Offered: Fall, Spring, Summer

This course links active participation in the Deaf community to the content of previous Deaf Studies courses. In particular this course examines how to be a good ally within the Deaf community in the midst of a context of power, privilege and difference. Following a Service Learning model, students will collaborate on various service projects contributing to the Deaf community. Field trip.

Note: Course taught in ASL with No Voice.

Field trip(s) may be required.

DEAF 199. Independent Study in Deaf Studies. 1 - 3 Units
Prerequisite(s): DEAF 154
Term Typically Offered: Fall, Spring

Individual projects designed especially for students capable of independent study.

Note: Departmental petition required.

Decision Sciences (DS)

DS 101. Data Analysis for Managers. 3 Units
Prerequisite(s): MATH 24, STAT 1; must be a business pre-major, business major (any concentration), or business minor, and have at least sophomore standing
Term Typically Offered: Fall, Spring

Second course in business statistics that focuses on the application of statistical methods to business problems. Emphases are placed on case studies, data analysis, model building techniques, statistical reasoning, and communications of statistical results. A statistical computer package will be used in the course.

DS 133. Multivariate Business Statistics. 3 Units
Prerequisite(s): DS 101.
Term Typically Offered: Fall, Spring

Data analysis involving multivariate statistical methods, including ANOVA, MANOVA, multivariate and logistic regression, discriminant analysis, cluster analysis, principle components analysis, and factor analysis, and facilitated through statistical software. Focus on problem solving in the business environment.

Design (DSGN)

DSGN 4. Design and Thinking. 3 Units
Term Typically Offered: Fall, Spring

An introduction to critical analysis of visual forms. This course introduces students to core principles of design by establishing and examining the framework around which visual forms are built and used in our society. Common ideas surrounding the logic of visual forms and the possibilities and limitations of their communicative range will be discussed.

DSGN 101. World Design and Visual Culture. 3 Units
Term Typically Offered: Fall only

A history of western and non-western design with an emphasis on how design influences, and is in turn influenced by, cultural, political, economic, and technologic forces. The course will look at design practice (architecture, urbanism, products, graphics, etc.) through two distinct lenses: one focusing on visual and physical qualities, the other on how design effects the lives of the many diverse groups that interact with the products of this practice.

Economics (ECON)

ECON 1A. Introduction to Macroeconomic Analysis. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Introductory inquiry into the workings and interrelationships of the aggregate economic system. The primary focus is on total production and its distribution, employment and price levels, and the forces influencing them. Other considerations are the roles of government, the monetary sector, and related areas.

ECON 1B. Introduction to Microeconomic Analysis. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Introductory microeconomic analysis of the workings of supply and demand in the determination of price, resource allocation, and distribution. Markets are analyzed as they affect economic efficiency and income distribution.

ECON 100A. Intermediate Macroeconomic Theory. 3 Units
Prerequisite(s): ECON 1A, ECON 1B, and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall, Spring

Analysis of the determinants of the aggregate level of output, income, employment and prices.

- ECON 100B. Intermediate Microeconomic Theory.** 3 Units
Prerequisite(s): ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall, Spring
 Analysis of household and firm behavior as the foundation of supply and demand.
- ECON 101. History of Economic Thought.** 3 Units
Prerequisite(s): ECON 1A, ECON 1B.
Term Typically Offered: Fall, Spring
 Analysis of the development of economic theory from the predecessors of Adam Smith through John Maynard Keynes. The contributions made to the discipline by its principal figures are compared and evaluated.
- ECON 104. Introduction to the United States Economy.** 3 Units
Term Typically Offered: Fall, Spring
 One semester survey of the principles of economics, basic methods of economic analysis, and their application to public policy and current events.
Note: Not open to students who have had ECON 1A or ECON 1B or those majoring in economics.
- ECON 110. Cost Benefit Analysis.** 3 Units
Prerequisite(s): ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall, Spring
 Examines the rationale for government provision of goods and services and presents cost-benefit analysis as a method to evaluate public participation in a market economy.
- ECON 112. European Economic History.** 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
 Analysis and evaluation of the economic forces and institutions shaping European economic development through the present period. Attention will be paid to the relationship between changes in the economic environment and attendant cultural, political, and ideological developments in the stages of tribalism, slavery, feudalism, capitalism, and socialism.
- ECON 113. Economic History of the United States.** 3 Units
Prerequisite(s): ECON 1A or ECON 104.
Term Typically Offered: Fall, Spring
 Consideration of the economic growth and development of the U.S. with emphasis on a theoretical analysis of the economic factors shaping the national destiny.
- ECON 114. The California Economy.** 3 Units
Prerequisite(s): ECON 1A and ECON 1B, or ECON 104.
Term Typically Offered: Fall only
 Examination of the process of the development of the State's economy as well as analysis of the various public economic issues that are of contemporary concern to Californians.
- ECON 120. Economics and Environmental Degradation.** 3 Units
Term Typically Offered: Fall, Spring
 Analyzes environmental issues as economic issues. Economics as both a cause and cure for environmental destruction.
- ECON 123. Resource Economics.** 3 Units
Prerequisite(s): ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall, Spring
 Analyzes the economic based problem of exhaustion in both renewable and non-renewable resources. Emphasis is given to the optimal use of these resources over time and the effects that various market and non-market factors have on their future availability.
- ECON 130. Public Finance.** 3 Units
Prerequisite(s): ECON 1A, ECON 1B, and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade; ECON 100B recommended.
Term Typically Offered: Fall, Spring
 Economic analysis of the public sector and its impact on the allocation of resources and the distribution of income. Emphasis given to the economics of government expenditure and taxation.
- ECON 132. State and Local Government Finance.** 3 Units
Prerequisite(s): ECON 1A, ECON 1B, and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall only
 Analysis of the economics of state and local government finance, with an emphasis on California's fiscal system.
- ECON 135. Money and Banking.** 3 Units
Prerequisite(s): ECON 1A and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall, Spring
 Examines the role of financial markets, the banking system, and the Federal Reserve System in the economy. Included are an introduction to present value and the behavior of interest rates, analysis of money creation, and evaluation of monetary policy.
- ECON 138. Monetary and Fiscal Policy.** 3 Units
Prerequisite(s): ECON 1A, STAT 1, and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade; ECON 100A and ECON 140 recommended.
Term Typically Offered: Spring only
 Analyzes the policies of central banks and fiscal authorities as they relate to the stability and growth of the macroeconomy. Examines the theoretical and empirical literature regarding the conduct of monetary and fiscal policy and applies the tools of economic analysis to understand macroeconomic policy debates.
- ECON 140. Quantitative Economic Analysis.** 3 Units
Prerequisite(s): ECON 1A, ECON 1B, STAT 1, and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall, Spring
 Examination of the basics of conducting quantitative economic analysis. Included are basic concepts and methods of data analysis and research. Students will examine economic data using spreadsheets, will develop presentation skills, and be introduced to career opportunities.
- ECON 141. Introduction to Econometrics.** 3 Units
Prerequisite(s): ECON 1A, ECON 1B, ECON 140, and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade; ECON 100A or ECON 100B recommended.
Term Typically Offered: Fall, Spring
 Covers the basics of regression analysis, estimation, and forecasting.

ECON 145. Economic Research Methods. 3 Units

Prerequisite(s): ECON 100A, ECON 100B, ECON 140 with a minimum "C" grade; GEAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.

Term Typically Offered: Fall, Spring

Covers the basics of conducting applied economic research: the selection of topic, literature survey, choice of research method, formulation of hypothesis, testing of hypothesis using empirical analysis, and summary and conclusions. Designed to enhance the students ability to integrate economic theory, quantitative research skills, and research.

ECON 150. Labor Economics. 3 Units

Prerequisite(s): ECON 1A, ECON 1B, and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.

Term Typically Offered: Spring only

Economic analysis of labor markets, with special reference to employment, wage determination, and the role of government.

ECON 152. Economics of Education. 3 Units

Prerequisite(s): ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.

Term Typically Offered: Fall only

Introduction to the various aspects of the economics of education. Applies the tools of economic analysis to education policy and problem solving. Topics include cost-benefit analysis of education, the signaling vs. human capital debate, race and gender issues in education, education production functions, and financing education at the elementary, secondary, and post-secondary levels. Emphasis placed on individual and social choice in education.

ECON 153. Health Economics. 3 Units

Prerequisite(s): ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.

Term Typically Offered: Fall only

Introduction to the field of health economics. Applies the tools of economics to the production of health and health care. Special emphasis on health care institutions, the role of industry, health care reform, and the role of government, in addition to the public provision of care to the disadvantaged.

ECON 160. Industrial Organization. 3 Units

Prerequisite(s): ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.

Term Typically Offered: Spring only

Analyzes firm decision-making in a variety of market settings. Topics include pricing and output decisions, entry and exit issues, marketing strategies, horizontal mergers, vertical integration, technological change, and U.S. antitrust policy.

ECON 161. Fundamentals of Game Theory. 3 Units

Prerequisite(s): ECON 1B, STAT 1, and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.

Term Typically Offered: Spring only

An analysis of strategic games with sequential or simultaneous moves under complete information and uncertainty. Discussion of theory and techniques is combined with examination of specific classes of games and their application to real-world examples such as markets, voting, auctions, and international relations

ECON 162. Energy Economics. 3 Units

Prerequisite(s): ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.

Term Typically Offered: Fall, Spring

Analyzes the structure, conduct, and consequences of domestic and international energy markets. Particular emphasis on regulated industries including petroleum, electrical, and other power sources. The economic impact on energy markets of emerging technology is examined.

ECON 170. Public Economics and Regulation. 3 Units

Prerequisite(s): ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.

Term Typically Offered: Spring only

Examination of government regulation of industry in the North American context: transportation, communication, energy, and other industries. Issues include deregulation, public ownership, pricing, and investment.

ECON 180. Urban Economics. 3 Units

Prerequisite(s): ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.

Term Typically Offered: Spring only

Economic analysis and appraisal of models of urban development. Includes consideration of the rise of cities, land use, unemployment, poverty, housing, urban renewal, transportation, and the local public sector.

ECON 181. Economics of Racism. 3 Units

General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D

Term Typically Offered: Spring only

Economic analysis of the origins and development of racism, focusing mainly on its impact in the U.S. Differing theoretical explanations surrounding racism will be compared and evaluated.

ECON 184. Women and the Economy. 3 Units

Term Typically Offered: Fall only

Investigation of the current economic status of women in the U.S., of past and present economic discrimination experienced by women in the labor market, of the historical reasons for that discrimination and of the means and methods of ending that discrimination.

ECON 186. Sports Economics. 3 Units

Prerequisite(s): ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.

Term Typically Offered: Fall, Spring

Applies the essential economic concepts and develops them with examples and applications from the sports industry. Covers basic economic concepts: economic principles, supply and demand, perfect competition, and monopoly behavior. It also applies these concepts to a variety of topics: the public finance of sports franchises, the costs/benefits of a sports franchise to a city, labor markets and labor relations, discrimination, and amateurism and college sports.

ECON 189. Economics at the Movies. 3 Units Term Typically Offered: Fall only	ECON 197A. Economics Exchange Mentee. 1 Unit Prerequisite(s): Instructor permission. Term Typically Offered: Fall, Spring
<p>Analysis of the use and treatment of economic theory and history in popular American films. Emphasis is placed on the topics of game theory, industrial organization, entrepreneurship, law and economics, labor economics, the stock market, and American economic history. The entertainment industry will also be examined from an economic perspective.</p>	<p>Provides opportunity for lower division students, transfer students, and newly declared majors to be mentored by more advanced upper division students or graduate students. The peer mentoring will help students meet academic deadlines, achieve academic success, become engaged in campus activities and get integrated into the Economics Department. Note: Units may not be applied towards unit requirement of the Economics major.</p>
ECON 190. International Trade. 3 Units Prerequisite(s): ECON 1A, ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade. Term Typically Offered: Fall, Spring	Credit/No Credit
<p>Analysis of the causes and results of trade among nations. Introduction to modern trade theory is combined with examination of trade instruments and policy analysis.</p>	ECON 197B. Economics Exchange Mentor. 1 - 3 Units Prerequisite(s): Upper division or graduate student standing and instructor permission. Term Typically Offered: Fall, Spring
ECON 192. International Finance. 3 Units Prerequisite(s): ECON 1A, ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade. Term Typically Offered: Fall, Spring	<p>Provides opportunity for advanced upper division students or graduate students to mentor lower division students. The peer mentoring will help students meet academic deadlines, achieve academic success, become engaged in campus activities and be integrated into the Economics Department. Note: Units may not be applied towards unit requirement of the Economics major; May be repeated for up to 3 units credit from ECON 197A & ECON 197B combined.</p>
<p>Critical examination of the theories and practices of financing trade among nations. International financial and monetary theories focus on how the world and financial system works, given globalization and international economic integration.</p>	Credit/No Credit
ECON 193. Development Economics. 3 Units Prerequisite(s): ECON 1A, ECON 1B, and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade. Term Typically Offered: Fall, Spring	ECON 198. Tutoring in Economics. 1 - 3 Units Term Typically Offered: Fall, Spring
<p>An analysis of the factors involved in the growth of economies. The focus is on the application of development economics and growth theory to the process of economic growth in developing countries. Particular attention is given to variables that explain growth, namely, technological progress, population growth, saving, trade, human capital and education, and the role of institutions.</p>	<p>Supervised tutorials at educational institutions including Sacramento State where and when appropriate arrangements can be made. Prior approval for tutoring must be obtained from the Economics Department. Emphasis is on the development of effectiveness in the teaching of economics. Credit/No Credit</p>
ECON 195. Economic Internship. 1 - 3 Units Term Typically Offered: Fall, Spring	ECON 199. Special Problems. 1 - 3 Units Term Typically Offered: Fall, Spring
<p>Supervised economic-related work experience, research, or teaching assistance to provide an opportunity for the student to apply principles and theories learned in the classroom to the "real world." Credit/No Credit</p>	<p>Individual projects or directed reading. Admission requires approval of the faculty sponsor and the Department Chair. Credit/No Credit</p>
ECON 196E. Behavioral and Experimental Economics. 3 Units Prerequisite(s): ECON 100B Term Typically Offered: Fall only	ECON 200A. Advanced Macroeconomic Theory. 3 Units Prerequisite(s): ECON 141 and ECON 200M. Term Typically Offered: Fall, Spring
<p>Introduction to the fields of behavioral and experimental economics. Applies tools of microeconomic theory to the decisions made by individuals. Special emphasis on the utility maximization hypothesis, decision making in the face of risk and uncertainty, intertemporal choice, other regarding preferences, game theory, and neuroeconomics.</p>	<p>Theories of the determinants of aggregate income, employment and prices. May be taken independently of ECON 200B.</p>
	ECON 200B. Advanced Microeconomic Theory. 3 Units Prerequisite(s): ECON 200M. Term Typically Offered: Fall, Spring
	<p>Theories of the consumer, producer, and market structure. May be taken independently of ECON 200A.</p>

- ECON 200C. Advanced Applied Economics.** **3 Units**
Prerequisite(s): ECON 200A, ECON 200B, and ECON 241.
Term Typically Offered: Fall, Spring
- Applies empirical analysis to topics in microeconomics and macroeconomics. Topics may include stationarity, vector autoregression, vector error correction models, calibration, fixed effects, instrumental variables, multinomial logit, and duration models. Students implement these models using econometric software. Students will write an empirical paper intended to become a prospectus for the master's thesis.
- ECON 200M. Mathematics for Economists.** **3 Units**
Prerequisite(s): ECON 100A, ECON 100B, MATH 26A.
Term Typically Offered: Fall, Spring
- Equips students with the mathematical techniques necessary for the study of economics and econometrics at the graduate level. Covers linear algebra, derivatives, comparative static analysis, optimization, integrals, and differential equations, with specific applications from economic and econometric theory.
- ECON 204. Business Economics.** **3 Units**
Term Typically Offered: Fall, Spring
- Intensive one-semester course covering both macroeconomics and microeconomics. Emphasis is on economic analysis and policy. Designed for graduate students who have not taken ECON 1A and ECON 1B or their equivalents.
- ECON 213. U.S. Economic Development in Historical Perspective.** **3 Units**
Prerequisite(s): Admission to MA program in Economics.
Term Typically Offered: Fall, Spring
- Introduction and analysis of American economic development from a historical perspective, focusing on the trajectory of American economic development from recent advances in theoretical and empirical economics literature. Cover topics on long-term economic growth, technological change, business cycles and fluctuations, financial markets, labor markets, and economic impacts of social change.
- ECON 230. Public Finance.** **3 Units**
Prerequisite(s): ECON 200B.
Term Typically Offered: Fall, Spring
- An analysis of the allocation and distribution effects of government expenditures and taxation.
- ECON 238. Monetary and Fiscal Policy.** **3 Units**
Prerequisite(s): ECON 200A.
Term Typically Offered: Fall, Spring
- Analyzes the policies of central bank and fiscal authorities as they relate to full employment and stability of the national economy.
- ECON 241. Applied Econometric Analysis.** **3 Units**
Prerequisite(s): ECON 141
Corequisite(s): ECON 200M
Term Typically Offered: Fall, Spring
- Applied econometric analysis with emphasis on the use of econometric techniques in economic research settings, expressing economic theory in the form of econometric models, data collection, estimation, and interpretation of results. Students work individually or as a team on a current research topic from various fields of economics preselected or approved by instructor.
- ECON 251. Urban Problems, Economics and Public Policy.** **3 Units**
Term Typically Offered: Fall, Spring
- Historical development, economics and possible policy solutions of the most pressing problems facing central cities and urban areas in the U.S. are presented. Problems discussed include poverty, crime, urban abandonment/suburban sprawl, edge cities, deteriorating infrastructures, and fiscal stress.
 Cross Listed: PPA 251; only one may be counted for credit.
- ECON 260. Industrial Organization and Performance.** **3 Units**
Prerequisite(s): Classified graduate status in Economics or instructor permission.
Term Typically Offered: Fall, Spring
- A modern analysis of industry structure, conduct, and performance. Emphasis is placed on the use of game theory to address firm behavior, including price and output decisions, entry and exit, horizontal mergers, technological change, and marketing issues.
- ECON 263. Food Economics.** **3 Units**
Prerequisite(s): Graduate standing or instructor permission.
Term Typically Offered: Fall, Spring
- Introduction to advanced economic theory and econometric methods applied to the economics of food with emphasis on food consumption and the complexity of individual food choices. Utilizing cost-benefit analyses and concepts like constrained utility maximization, household production, opportunity costs of time, and information search, implications for a global food system will be derived. We will apply learned concepts to health and environmental concerns by discussing the recent applied economics and policy evaluation literature.
- ECON 265. Cost Benefit Analysis.** **3 Units**
Term Typically Offered: Fall, Spring
- Examination of the theories, foundations, and philosophies of economic welfare. Specifically, the basic techniques of cost-benefit analysis will be presented and applied to various policy issues.
- ECON 290. International Trade.** **3 Units**
Prerequisite(s): Classified graduate status in Economics or instructor permission.
Term Typically Offered: Fall, Spring
- Analysis of modern trade theories, their empirical relevance, and the role of multinational firms in the evolution of international trade patterns. Discussion focuses on theoretical and empirical evaluation of trade policy instruments. Various trade agreements are also discussed in the context of economic integration and globalization. Attention is also given to foreign direct investment as a vehicle of globalization and the challenges it poses to both multinational firms and host countries.
- ECON 295. Economic Internship.** **1 - 3 Units**
Term Typically Offered: Fall, Spring
- Supervised work experience or research on economic topics in government, financial, business, charitable or other kinds of institutions to provide an opportunity for the student to apply principles and theories learned in the classroom to the "real world." Partial supervision may be supplied by persons in the institution under study.
 Credit/No Credit

ECON 298. Tutoring In Economics.**1 - 3 Units****Term Typically Offered:** Fall, Spring

Supervised tutorials at educational institutions including Sacramento State where and when appropriate arrangements can be made. Prior approval for tutoring must be obtained from the Economics Department. Emphasis is on the development of effectiveness in the teaching of economics.

Credit/No Credit

ECON 299. Special Problems.**1 - 3 Units****Term Typically Offered:** Fall, Spring

Individual projects or directed reading. Admission requires approval of the faculty sponsor and the Department Chair.

Credit/No Credit

ECON 500. Master's Thesis.**3 Units**

Prerequisite(s): Advanced to candidacy and chair permission of his/her thesis committee.

Term Typically Offered: Fall, Spring

Completion of a thesis approved for the Master's degree. Should be taken in final semester prior to the completion of all requirements for the degree.

Ed.D. in Educational Leadership (EDD)

EDD 600. Transformational Leadership.**3 Units**

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.

Term Typically Offered: Fall, Spring

Designed to engage students in understanding, implementing, and evaluating strategic leadership practices based on various theories, models, and approaches for achieving organizational transformation. Students will become skilled facilitators of the organizational transformation process by initiating, implementing, sustaining, and evaluating transformation/change efforts. Students will build a solid foundation through the integration of theory and practice in order to implement a planned change process in their home institution.

EDD 601. Organizational Leadership.**3 Units**

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.

Term Typically Offered: Fall, Spring

Builds and expands on candidates' knowledge of systems thinking, personal and organizational behaviors, and leadership approaches to the change process. Candidates will demonstrate ethical thinking and action in organizational settings by re-conceptualizing leadership roles and organizational structures. In coursework and related fieldwork components students will apply concepts and theories to improving their respective educational institutions. Among the interactive pedagogies used are: case studies, experiential exercises, dialogue and group activities.

EDD 602. Policy and Practice for Educational Leaders I.**3 Units**

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.

Term Typically Offered: Fall, Spring

Develops in students the skills for informed analysis of educational policy in order to positively influence the educational policy in the K-12 or community college setting. In addition to studying the historical perspectives pertaining to educational policy, practice, and reform, students will investigate the mission of public education. Students will also study governance and inter-governmental relations through contemporary policy development with particular reference to current law, local board policy, shared governance, and working with a variety of constituencies.

EDD 603. Policy and Practice for Educational Leaders II.**3 Units**

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.

Term Typically Offered: Fall, Spring

Designed to engage students in critical analyses of policy at the local, state, national, and international levels. Specific California and federal policy environment structures and processes will be examined. Students will learn about how public policy is generated, potential consequences, ethical dilemmas, social justice, and equity issues.

EDD 604. Introduction to Educational Research.**3 Units**

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program.

Term Typically Offered: Fall only

This course will introduce students to the uses of qualitative and quantitative data analysis by educational leaders for the purpose of improving student and organizational outcomes. In addition, the student will be introduced to qualitative, quantitative and mixed-methods research designs in preparation for conducting independent research and designing a doctoral dissertation. This course will also enable students to critically understand and critique various forms of data and apply it appropriately to a variety of educational issues.

EDD 605. Qualitative Research Methods.**3 Units**

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program.

Term Typically Offered: Spring only

This course is designed to provide doctoral students with instruction in qualitative research approaches as applied to questions of educational leadership and policy. The course will emphasize individual and group interviewing as techniques for qualitative study data collection as well as coding and analysis of qualitative data. This course is particularly useful for doctoral students who plan to conduct a qualitative or mixed method dissertation related to an educational leadership and/or policy topic.

EDD 606. Quantitative Research Methods.**3 Units**

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program.

Term Typically Offered: Fall only

This course will introduce educational leaders to concepts in quantitative research in preparation for conducting independent research. This course will enable students to critically understand, critique, and develop quantitative research methodology and apply it appropriately to various educational issues.

EDD 607. Community and Communication in Educational Leadership. 3 Units

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.

Term Typically Offered: Fall, Spring

Presents theories and frameworks concerning organizational, interpersonal, and cross-cultural communication in educational and community contexts. Includes developing written and verbal skills for specific contexts, including strategic planning, evaluation, presentations, formal and informal texts, technology, crisis management, and public relations. Through research and practical application, enhances communication skills needed for creating inclusive systems and positive results for all stakeholders.

EDD 608. Diversity and Equity in Complex Organizations. 3 Units

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.

Term Typically Offered: Fall, Spring

Designed to engage students in self introspection of awareness and advocacy in applying theoretical frameworks and research to promote equitable, excellence in schooling. Students will demonstrate the ability to develop cross-cultural relationships across multiple constituents for the purpose of improving students performance and promoting social justice. Students will develop the capacity to be courageous change agents in assuring academic excellence for all students.

EDD 609. Human Resource Management for Educational Leaders. 3 Units

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.

Term Typically Offered: Fall, Spring

Examines how to manage human resources effectively in the dynamic legal, social, and economic environment currently impacting educational institutions. Among the topics included are: formulation and implementation of human resource strategy, job analysis, methods of recruitment and selection, techniques for training and development, performance appraisal, compensation and benefits, and the evaluation of the effectiveness of human resource management frameworks and practices. Class participants will be expected to demonstrate understanding of Human Resource Management (HRM) competencies through assignments, exercises and case analyses.

EDD 610. Curriculum and Instruction Issues for Educational Leaders. 3 Units

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.

Term Typically Offered: Fall, Spring

Presents curriculum and instruction from a leadership perspective within the contexts of K-12 schools and community colleges. Students examine contemporary issues in school curriculum, including policy initiatives and reform efforts affecting curricular decision-making. Prepares students to analyze and design appropriate strategies for implementing and evaluating district and school curricula and to investigate the implications of curricula for educational programming. Students also learn specific foundations and procedures for professional development that have well-documented effects on student achievement.

EDD 611. Legal Issues for Educational Leaders. 2 Units

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.

Term Typically Offered: Fall, Spring

Examines key legal issues that govern daily and long-range decisions of educational leaders. Focuses on understanding California and federal codes, case law, policies, and significant precedent and will emphasize analysis of key legal concepts and application of law to major areas including finance, personnel, risk management, curriculum, student services, teacher rights, torts, students rights, and access. Examines trends in law and the initiation and influence of educational law to positively influence educational institutions.

EDD 612. Student Services in Education. 2 Units

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.

Term Typically Offered: Fall, Spring

Provides a comprehensive insight into the student services. It addresses both practical and theoretical perspectives intended to build a sense of vision and passion to transform the profession of student affairs and leadership. In particular, examines four distinct arenas: 1) historical and philosophical foundations of student affairs and leadership 2) management and organizational issues, 3) essential skills and professional development in building an equitable organization, and 4) the synthesis of practice and theory.

EDD 613. Finance and Budget for Educational Leaders. 2 Units

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.

Term Typically Offered: Fall, Spring

Analyzes two related topics with respect to public educational institutions: funding and internal budget management. Provides a state and national overview of the economics and finance of K-12 and higher education, including private and public benefits of education, methods of financing public education, and contemporary policy issues regarding school and college finances. Focuses on how educational leaders can most effectively manage resources to further the vision, goals, and philosophy of the organization.

EDD 614. Issues in Educational Leadership: Synthesis and Application. 3 Units

Prerequisite(s): Admission into the Ed.D. in Educational Program and instructor permission.

Term Typically Offered: Fall, Spring

This problem based seminar integrates the three themes of the program. Includes conducting a review of the literature that will later be integrated into the candidates' proposal. In addition, each student will study and select theoretical frame/s that supports their doctoral topic. Students will also work in teams formed by research interests. They will present findings to classmates in forums that they facilitate and they will critique each other's work.

EDD 615. Dissertation Proposal Seminar. 6 Units

Prerequisite(s): Passed Ed.D. Qualifying Examination and instructor permission.

Term Typically Offered: Fall, Spring

Provides faculty and peer guidance in preparation of material to develop the dissertation proposal. Students will be guided in the clarification of dissertation topic, familiarization with relevant literature, and the development of a sound methodology. Students will learn how to critically analyze and provide constructive criticism to key research components proposed by others. At the end students are expected to complete the first three chapters of their dissertation in anticipation of their dissertation defense.

EDD 616A. Dissertation I - Seminar. 3 Units

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.

Corequisite(s): EDD 616B.

Term Typically Offered: Fall, Spring

Each candidate will work with a dissertation advisor (dissertation committee chair) to conduct independent research leading to the completion of a dissertation. Twelve units of dissertation study will be required for completion of the program. This course provides a 3 unit seminar in support of the first phase of the dissertation.

Note: Students must have passed their qualifying examination and successfully defended their dissertation proposal.

Credit/No Credit

EDD 616B. Dissertation I - Research and Writing. 3 Units

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.

Corequisite(s): EDD 616A

Term Typically Offered: Fall, Spring

Each candidate will work with a dissertation advisor (dissertation committee chair) to conduct independent research leading to the completion of a dissertation. Twelve units of dissertation study will be required for completion of the program.

Note: Students must have passed their qualifying examination and successfully defended their dissertation proposal.

Credit/No Credit

EDD 617. Dissertation II. 6 Units

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and completion of EDD 616 and instructor permission.

Term Typically Offered: Fall, Spring

Each candidate will work with a dissertation advisor (dissertation committee chair) to conduct independent research leading to the completion of a dissertation. Twelve units of dissertation study will be required for completion of the program.

EDD 617A. Dissertation II - Seminar. 3 Units

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission. EDD 616A.

Corequisite(s): EDD 617B.

Term Typically Offered: Fall, Spring

Each candidate will work with a dissertation advisor (dissertation committee chair) to conduct independent research leading to the completion of a dissertation. Twelve units of dissertation study will be required for completion of the program. This course provides a 3 unit seminar in support of the second phase of the dissertation.

Note: Students must have passed their qualifying examination and successfully defended their dissertation proposal

Credit/No Credit

EDD 617B. Dissertation II - Research and Writing. 3 Units

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission. EDD 616B.

Corequisite(s): EDD 617A.

Term Typically Offered: Fall, Spring

Each candidate will work with a dissertation advisor (dissertation committee chair) to conduct independent research leading to the completion of a dissertation. Twelve units of dissertation study will be required for completion of the program.

Note: Students must have passed their qualifying examination and successfully defended their dissertation proposal.

Credit/No Credit

Education (ED)

ED 300B. Teaching Performance Assessment-Multiple Subject-Literacy. 1 Unit

Prerequisite(s): Candidate in good standing in a teacher preparation program.

Corequisite(s): EDBM 402B or EDTE 420B.

Term Typically Offered: Fall, Spring

Candidates in the Teacher Preparation Program must complete the Teaching Event for the Performance Assessment for California Teachers. The Teaching Event requires candidates to plan and teach an instructional sequence in their student teaching placement. They must also assess student learning during this lesson sequence and submit a videotape with material recorded during the lesson sequence. The Teaching Event is a summative assessment and one of several requirements that must be completed in order to receive a recommendation for a teaching credential.

Credit/No Credit

Education (EDUC)

EDUC 10. Critical Thinking and the Educated Person. 3 Units

General Education Area/Graduation Requirement: Critical Thinking (A3)

Term Typically Offered: Fall, Spring

Examines thinking process patterns and dispositions, for self, children, parents and educators. Familiarizes students with critical thinking, provides a systematic approach to its process and components. Students will learn about problem solving, decision-making, logical and creative thinking. The study of critical thinking will be supplemented with readings, discussions, and written assignments. Implements critical thinking applications used both in student's academic and personal lives.

EDUC 10H. Critical Thinking and the Educated Person: Honors. 3 Units**Prerequisite(s):** Open only to Honors students.**General Education Area/Graduation Requirement:** Critical Thinking (A3)**Term Typically Offered:** Fall, Spring

This introductory course will examine the thinking process patterns and dispositions for self, children, parents and educators. The purpose of this course is to familiarize students with critical thinking, and to provide a systematic approach to its process and components. Students will learn about problem solving, decision-making, logical and creative thinking. The study of critical thinking will be supplemented with readings, discussions, and written assignments. The course will implement critical thinking applications used both in student's academic and personal lives.

EDUC 18. Mathematical Practices Across Cultures. 3 Units**General Education Area/Graduation Requirement:** Math Concepts & Quantitative Reasoning (B4)**Term Typically Offered:** Fall, Spring

Introduction to diverse mathematical thought, action and practices across cultures. Mathematics will be seen from a diversity of contexts. Learners will consider how diverse contexts and traditions both reflect a culture's heritage and world view and influence the mathematics learned and used. Topics covered include: ethnomathematics, mathematical modeling, and cultural connections in relation to diverse forms of quantitative reasoning, problem solving, numbering, systems of organization, perceptions of time and space as experienced by diverse traditions and peoples.

EDUC 21. First Year Seminar: Becoming an Educated Person. 3 Units**General Education Area/Graduation Requirement:** Understanding Personal Development (E)**Term Typically Offered:** Fall, Spring

Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Students will have the opportunity to interact with fellow classmates and the seminar leader to build a community of academic support and personal support.

EDUC 99. Special Problems. 1 - 3 Units**Prerequisite(s):** Instructor permission.**Term Typically Offered:** Fall, Spring

Individual projects designed especially for lower division students capable of independent study. Focus is on issues and topics involving exceptional populations.

Note: may be repeated for up to 12 units of credit

Credit/No Credit

EDUC 100A. Educating Students with Disabilities in Inclusive Settings. 2 Units**Corequisite(s):** EDUC 100B.**Term Typically Offered:** Fall, Spring

This course provides an overview of current knowledge about individuals with disabilities within the context of inclusive educational and community-based settings, with substantial focus on the role of the educator in the education of students who have disabilities in diverse communities. Content includes historical factors, legislation, causes and characteristics, educational needs, educational strategies, including educational technologies, assessment, collaboration, and support services for individuals with disabilities ranging across mild, moderate, severe, and profound disability levels.

Note: Designed to meet the Special Education requirement for a clear multiple and single subject credential.**EDUC 100B. Educating Students with Disabilities in Inclusive Settings Lab. 1 Unit****Corequisite(s):** EDUC 100A.**Term Typically Offered:** Fall, Spring

Field-based 30 hour experience. Lab is a synthesis and application of EDUC 100A course content in educational setting for students who receive special education services. Students will verify multiple experiences across the age-span and in inclusive educational settings, agencies, and community environments.
Credit/No Credit

EDUC 101A. Consultation Strategies for Educators of Students with Disabilities. 2 Units**Corequisite(s):** EDUC 101B.**Term Typically Offered:** Fall, Spring

Basic skills for effective collaboration and teaming are practiced through simulations, reflective case study analyses, and interviews with families, paraprofessionals, and related service providers. Cultural, socioeconomic and organizational implications are analyzed.

EDUC 101B. Consultation Strategies for Educators of Students with Disabilities - Lab. 1 Unit**Corequisite(s):** EDUC 101A.**Term Typically Offered:** Fall, Spring

Field-based practice lab (30 hours). Lab will be a synthesis and application of course content (EDUC 101A) in the development of basic collaboration strategies for individuals with mild/moderate disabilities. Students are required to participate in class visitations, interviews, and other field assignments.
Credit/No Credit

EDUC 102. Characteristics and Management of Career Technical Education. 3 Units**Term Typically Offered:** Fall, Spring

Demonstrates how to design motivating instruction that builds self esteem, maintains on-task behavior, and promotes learning among students at different developmental levels and of varying abilities. Examines stages of development of the career technical education learner and methods of maintaining student discipline using strategies that are free of bias and promote learning among diverse students.

EDUC 103. Assessment and Instruction in Career Technical Education. 3 Units

Prerequisite(s): EDUC 102.

Term Typically Offered: Fall, Spring

Demonstrates how to develop performance criteria, continuously assess student performance levels, prepare lesson plans and units of instruction for use with individual, small group, and whole class delivery systems, keep accurate records of student achievement, and perform program evaluations.

EDUC 104. Teaching Diverse Learners in Career Technical Education. 3 Units

Term Typically Offered: Fall, Spring

Demonstrates how to encourage excellence among and design instruction for students from different gender, ethnic, religious, sexual orientation, language, and ability groups. Includes consideration of relevant law, sensitivity towards cultural heritages, principles of language acquisition, bias free instructional materials, and inclusionary programs. Examines the work of major education theorists and the research on effective teaching practices. Demonstrates the use of technology and computers in instruction.

EDUC 105. Advanced Instructional Design, Program Evaluation and Leadership in Career Technical Education. 3 Units

Term Typically Offered: Fall only

Demonstrates how to recruit, place and guide students, organize a program advisory committee, plan and manage a program budget, implement a plan for preventive maintenance, manage customer service, and reflect current professional association best practices. Examines local state, and federal structure of technical education. Demonstrates how to plan and prepare a complete course of instruction, including goals, lesson plans, materials, strategies, and assessment procedures, teaching critical thinking and problem solving skills. Develops and uses student and employer follow-up studies as a part of an evaluation plan that leads to program improvement.

EDUC 106. Instructional Supervision/Coordination I of Career Technical Education. 3 Units

Prerequisite(s): Students must be admitted to the BSCTS program

Term Typically Offered: Fall, Spring

Offers student participation in performance-based objectives program addressing the following major topics: Principles of supervision, supervision models, consultation and coordination skills, facilitation skills, curriculum management, and labor relations.

EDUC 107. Instructional Supervision/Coordination II of Career Technical Education. 3 Units

Prerequisite(s): Student must be admitted to the BSCTS program

Term Typically Offered: Fall, Spring

Offers student participation in a performance-based objectives program addressing the following major topics: School finance, grants and proposals, teacher observation models, staff development models, and total quality management practices.

EDUC 109. Career Guidance in Career Technical Education. 1 Unit

Prerequisite(s): Application for Review of Work Experience)

Term Typically Offered: Fall only

Examines the occupational history of students and assists them in gathering documentation to support their request to the CSU Reviewing Committee. Assists students in identifying goals for professional accomplishment.

Credit/No Credit

EDUC 110. Current Issues in Career Technical Education. 3 Units

Prerequisite(s): Student must be admitted to the BSCTS program

Term Typically Offered: Fall, Spring

Provides in-depth investigation of various problems and issues confronting the career technical educator in public and private sectors. The class will focus on the specific issues of adult career development and perspectives of work. These issues will be explored from both global and personal perspectives. Students will gain awareness and understanding in relation to their own individual career development, as well as the career development of those with whom they work or will work.

EDUC 111. Education for Career Technical Students with Special Needs. 3 Units

Term Typically Offered: Fall, Spring

Introduces concepts and practices of inclusion of special needs students as provided for under federal legislation and case law. Methods of adapting instruction and devising positive behavioral supports for students of diverse abilities are studied. Methods of assessing the progress of students with diverse abilities are examined.

EDUC 112. Legislation and Financing of Career Technical Education. 3 Units

Prerequisite(s): Student must be admitted to the BSCTS program

Term Typically Offered: Fall, Spring

Offers a historical review of legislation and financing of career technical education programs at the federal, state, and local levels, addressing community colleges, regional occupational programs, secondary schools, corrections, private post-secondary schools, private industry education and training.

EDUC 113. Introduction to Technology Based Teaching Strategies in Career Technical Education. 3 Units

Prerequisite(s): Student must be admitted to the BSCTS program

Term Typically Offered: Fall only

Examines the use of computers and their application in career technical instruction. Applications involving direct instruction, discovery learning, problem solving, assessment, practice and presentation are learned. Other technologies that support teaching and learning are studied and practiced. Issues involved in access to and use and control of computer based technologies in a democratic society are studied.

EDUC 114. Multicultural Career Technical Education for a Pluralistic Society. 3 Units**Prerequisite(s):** Student must be admitted to the BSCTS program**Term Typically Offered:** Fall, Spring

Examines cultural diversity and the historical and cultural traditions of the major cultural, ethnic, and linguistic groups in California. Methods of effective ways to include cultural traditions and community values in the instructional program are learned. Principles of second language acquisition, language teaching strategies, and curriculum adaptations for students whose second language is English are studied.

EDUC 115. Behavior Management and Total Quality Management in Career Technical Education Program. 3 Units**Prerequisite(s):** Student must be admitted to the BSCTS program**Term Typically Offered:** Fall only

Teaches students how to manage the classroom and learning behavior of career technical education students in various settings under various circumstances. Total Quality Management procedures for career technical education/training programs are studied.

EDUC 116. Special Problems in Career Technical Education. 1 - 3 Units**Prerequisite(s):** Student: must be admitted to the BSCTS program**Term Typically Offered:** Fall, Spring

Individualized study of various questions and problems within career/technical education determined collaboratively by the student and the instructor.

Credit/No Credit

EDUC 117. Field Experience in Career Technical Education. 1 - 6 Units**Prerequisite(s):** Student must be admitted to the BSCTS program**Term Typically Offered:** Fall, Spring

Individualized field experience designed collaboratively by the student and instructor.

Note: Department consent required

Credit/No Credit

EDUC 120. Literature For Children. 3 Units**Prerequisite(s):** Must have Junior or higher standing to enroll in this course**Term Typically Offered:** Fall, Spring

Historical and modern children's literature; standards of selection and acquaintance with the leading authors and illustrators; procedures and practices in methodology.

EDUC 121. Multicultural Children's Literature. 3 Units**Prerequisite(s):** GWAAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.**General Education Area/Graduation Requirement:** Race & Ethnicity Graduation Requirement (RE), Writing Intensive Graduation Requirement (WI), Humanities (Area C2)**Term Typically Offered:** Fall, Spring, Summer

Survey of historical and modern multicultural children's literature examining standards of selection and acquaintance with the leading authors, illustrators and book awards; procedures and practice in methodology. Focus on children's literature which represents the diversity in America and fosters an understanding of the cultural values, identity, and heritage of those populations.

EDUC 124A. Tutoring Children in Mathematics. 2 Units**Corequisite(s):** EDUC 124B.**Term Typically Offered:** Fall, Spring

Orientation to concept and practice of tutoring basic mathematics skills including developing conceptual understanding and the ability to scaffold instruction of addition, subtraction, multiplication and division of whole numbers, fractions, and decimals. After completing on-campus training, students are placed in nearby school districts. May be taken by all undergraduate students and is strongly recommended for students considering careers in education, criminal justice, psychology, and social work. It may also be used as an elective in the Blended Teacher Education Program.

Note: May be taken twice for credit.

Credit/No Credit

EDUC 124B. Tutoring Children in Mathematics: Practicum. 1 Unit**Corequisite(s):** EDUC 124A.**Term Typically Offered:** Fall, Spring

Practicum of tutoring basic mathematics skills and scaffolding instruction of addition, subtraction, multiplication and division of whole numbers, fractions, and decimals. After completing on-campus training, students are placed in nearby school districts. May be taken by all undergraduate students and is strongly recommended for students considering careers in education, criminal justice, psychology, and social work. It may also be used as an elective in the Blended Teacher Education Program.

Note: May be taken twice for credit.

Credit/No Credit

EDUC 125A. Tutoring Children in Reading. 2 Units**Corequisite(s):** EDUC 125B.**Term Typically Offered:** Fall, Spring

Orientation to concept and practice of tutoring basic reading skills including sight word recognition, word analysis skills, oral fluency, and comprehension. After completing on-campus training, students are placed in nearby school districts.

Note: Strongly recommended for students considering careers in education, criminal justice, psychology and social work. May be repeated once for credit. May also be used as an elective in the Blended Teacher Education Program.

Credit/No Credit

EDUC 125B. Tutoring Children in Reading Practicum. 1 Unit**Corequisite(s):** EDUC 125A**Term Typically Offered:** Fall, Spring

Field-based course provides a synthesis and application of course content learned in EDUC 125B. Students are placed in a primary level setting for at-risk students who read approximately two grade levels below their peers. The twice-weekly practicum focuses on comprehension questioning strategies, learning styles and differences, multicultural and ESL strategies, Reader's theater and poetry, and motivating students to achieve greater academic success.

Note: May be taken by all undergraduate students and must be taken concurrently with EDUC 125A.

Credit/No Credit

EDUC 126. Assisting the Elementary Classroom Teacher. 3 Units**Prerequisite(s):** EDUC 125A.**Term Typically Offered:** Fall, Spring

Directly connected to hands-on classroom experiences. Students will be intensively trained in workshops, and will work as teacher assistants in public schools (4 hours per week). Students will learn strategies for working with diverse groups of students at all grade levels; keep weekly tutoring logs; and write a case study on a student and present their findings to the class. Students will reflect on their own growth and development.

Note: May be repeated once for credit.

Credit/No Credit

EDUC 127A. Field Experience in After School STEM Programs. 2 Units**Corequisite(s):** EDUC 127B**Term Typically Offered:** Fall, Spring

Orientation to high quality Science, Technology, Engineering, and Mathematics (STEM) instruction. On-campus training includes skills to develop conceptual understanding and ability to scaffold instruction for elementary and middle school aged students in STEM after school programs. After completing on-campus training, students assist with instruction in nearby school STEM programs.

Note: May be taken twice for credit

Credit/No Credit

EDUC 127B. Field Experience in After School STEM Programs: Practicum. 1 Unit**Corequisite(s):** EDUC 127A**Term Typically Offered:** Fall, Spring

This course is designed to connect students with local public school partners in after school programs that support inquiry based STEM activities with K-8 children. After completing on-campus training, students then complete the practicum.

Note: May be taken twice for credit

Credit/No Credit

EDUC 128. Education and Communication in Korean Society. 3 Units**Term Typically Offered:** Fall, Spring

This course is designed to explore various dimensions of the education and the communication in Korea. It will focus on (a) the Korean educational philosophy, system, and practices of all levels -preschool to higher education; (b) the Korean language in a variety of communicative contexts; and (c) how education and communication shape and interface. The similarities and differences in education and communication between South Korea and the United States will be also investigated.

EDUC 130A. Typical & Atypical Developmental Characteristics and Outcomes for Young Children with Disabilities. 2 Units**Prerequisite(s):** CHDV 30 or approved equivalent.**Corequisite(s):** EDUC 130B.**Term Typically Offered:** Fall, Spring

Examination of disabilities and risk factors and their influence on developmental competencies and outcomes for infants, toddlers, and young children. Content will include typical developmental patterns of young children, atypical development due to prenatal, perinatal and early childhood developmental risk factors including low incidence disabilities, and an introduction to interventions in a range of community settings to address the unique needs of these children and their families. Lecture.

EDUC 130B. Typical & Atypical Development Characteristics and Outcomes for Young Children with Disabilities Lab. 1 Unit**Prerequisite(s):** CHDV 30 or approved equivalent.**Corequisite(s):** EDUC 130A.**Term Typically Offered:** Fall, Spring

Field-based practice lab (30 hours). Lab will be a synthesis and application of lecture/discussion course content in home based, center based, and community settings serving infants, toddlers, and young children with disabilities and their families.

Credit/No Credit

EDUC 131A. Introduction to Family Centered Service Delivery In Early Childhood Special Education. 2 Units**Prerequisite(s):** EDUC 130A and EDUC 130B or its equivalent.**Corequisite(s):** EDUC 131B.**Term Typically Offered:** Fall, Spring

Designed to enable participants to gain knowledge and develop skills necessary to provide culturally responsive, family-centered approaches to assessment and intervention for infants and young children with disabilities. Focus will be on the historical, theoretical, and philosophical bases for family-centered service delivery, including an emphasis on understanding family systems and family life stages, respect for cultural diversity, the IFSP process, collaborative parent-professional relationships, parent advocacy, and transition planning. Lecture.

EDUC 131B. Introduction to Family Centered Service Delivery in Early Childhood Special Education Laboratory. 1 Unit**Prerequisite(s):** EDUC 130A and EDUC 130B or its equivalent.**Corequisite(s):** EDUC 131A.**Term Typically Offered:** Fall, Spring

Field-based practice lab (30 hours). Lab will be a synthesis and application of lecture course content (EDUC 131A) in home-based , center-based and/or community settings serving infants and young children with disabilities and their families.

Credit/No Credit

EDUC 155. Introduction to Counseling. 3 Units**Term Typically Offered:** Fall, Spring

Introduction to the profession of counseling, including differences between professional counseling and other professions, counseling theories, consultation skills and an introduction to basic counseling skills. Lecture three hours.

Note: Open to unclassified students on a space available basis. Required prerequisite for the Master of Science in Counseling and requirement for the Counseling minor, not included in 200-series 60 unit program for master's degree. Instructor approval required.

EDUC 156. Power, Privilege and Self Identity in Counseling. 3 Units**Term Typically Offered:** Fall, Spring

Focuses on understanding how one's values, attitudes, belief systems impact perception of differences related to race, ethnicity, culture, etc. Experiential activities promote self awareness while developing capacity in becoming a culturally responsive/skilled counselor. Historical processes that created inter and intra group constructs are explored.

Note: Open to unclassified students on a space available basis. Required corequisite for the Master of Science in Counseling and requirement for the Counseling Minor, not included in 200-series 60 unit master's degree. Instructor approval required.

EDUC 157. Child and Family Psychopathology. 3 Units

Prerequisite(s): Students minoring in counseling must take CHDV 30 or CHDV 35 or PSYC 2.

Term Typically Offered: Fall, Spring

Examines the etiology of development and mental health issues in children, youth and caregivers, including genetic and socio-cultural factors. The classification and treatment of abnormal behavior within family contexts will also be explored. Recommended for human services majors such as child development, education, psychology, counseling, social work and criminal justice.

EDUC 160. Urban Education. 3 Units

Prerequisite(s): GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE), Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

Designed to enhance students' knowledge of urban schooling, especially related to dynamics of race, class, and culture. Along with a Service Learning component in urban schools, provides analysis of the following: historical, socioeconomic, and political factors influencing urban education; the distribution of opportunity in cities and their schools; and effective instructional organizational practices that close the achievement gap, including the development of positive school cultures and the use of community services and resources.

EDUC 165. Sex Role Stereotyping in American Education. 3 Units

Prerequisite(s): GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D, Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

This course is designed to introduce students to the educational programs and practices resulting from societal sex role and racial stereotyping. It analyzes the specific effects of sex and race inequalities in the total school setting.

EDUC 168. Foundational Issues for a Multicultural, Pluralistic Society, B. 3 Units

Prerequisite(s): Admission and enrollment in BMED multiple subject credential program; EDBM 117.

Corequisite(s): EDBM 402B.

Term Typically Offered: Fall, Spring

Critical examination of the socio-political relationship between California's public schools and its major population subgroups (as defined by culture, gender, social class, language, race/ethnicity, and ability). Candidates critically reflect on the philosophy and practices of schooling in relation to students' culture, family and community; analyze institutional and instructional practices for educational equity; and develop alternative instructional activities based on the principles of multicultural education and English language learning in a democratic society. Lectures, discussions, small group work, simulations, field tasks.

EDUC 170. Bilingual Education: Introduction to Educating English Learners. 3 Units

Term Typically Offered: Fall, Spring

Introductory study of important themes regarding the education of English Learners. Covers the history of bilingual education; relevant legal mandates and court rulings; first and second language acquisition; linguistic development; theory and practice of effective programs; and beginning methods, materials and strategies responsive to the students' primary language and assessed levels of English proficiency. A fieldwork component involving the tutoring of an English Learner is required.

Note: EDUC 170 is a prerequisite for EDMS 272, EDBM 279.

EDUC 171. Bilingualism in the Classroom. 3 Units

Term Typically Offered: Fall, Spring

Provides an overview of the language factors that impact first and second language acquisitions in the K-12 classrooms and will provide opportunities through which they will build a palette of strategies that can be utilized to enhance language development within the realms of listening, speaking, reading, writing, and thinking. A combination of theory and practice will provide the base as students read, discuss, listen to lectures, view videos, conduct in class and field-based tasks, and synthesize their thoughts in writing.

EDUC 172. Introduction to Hmong Literacy. 3 Units

Prerequisite(s): Fluent in Hmong
Term Typically Offered: Fall, Spring

This course covers fundamental literacy components of the Hmong language. It examines the historical development and maintenance of the Hmong oral and written language and related issues based on lectures, class discussions, group work, writing assignments, and a research paper. It fulfills one of the requirements for teaching credential students pursuing the Bilingual Cross Cultural Authorization (BCLAD).

EDUC 173. Hmong History and Culture. 3 Units

Term Typically Offered: Fall, Spring

This course covers history of the Hmong dated 5,000 years ago to the present. It examines Hmong history and culture as it evolves through living in various Asian countries and in the United States through lectures, class discussions, group work, writing assignments, and a research paper.

EDUC 175. Pedagogy and Academic Language Skills in Spanish for Bilingual Educators. 3 Units

Prerequisite(s): Spanish fluency/literacy required.

Term Typically Offered: Fall only

This course is designed to provide participants background and foundational knowledge in Standard Spanish language use, language varieties in Spanish, issues of power and language in our society, academic language use, and bilingual methods. Participants will examine theoretical and practical issues in bilingual language use in society and in the classroom. Participants will learn and apply bilingual teaching methods, will analyze children's bilingual language use, and also will evaluate Spanish medium texts and trade books.

EDUC 194. Cooperative Education Experience.**3 Units****Prerequisite(s):** Approval of Department Chair.**Term Typically Offered:** Fall, Spring

Cooperative Education (Co-op) relates academic theory to professional practice by providing paid work experience in the student's major field of study and academic credit. Students receive employment in school districts, state and community agencies, companies, and other appropriate settings. Requires attendance at weekly meetings, preparation of application packet, completion of field study assignment and a written final report.

Note: Units may not be used to meet course work requirements.

Credit/No Credit

EDUC 199. Special Problems.**1 - 3 Units****Term Typically Offered:** Fall, Spring

Individual projects designed especially for students capable of independent study. Admission by written approval of the instructor with whom the student will be working and Department Chair.

Credit/No Credit

Education - Bilingual/Multicultural (EDBM)

EDBM 128. Foundations for Multicultural Secondary Education, B.**3 Units****Prerequisite(s):** Admission to Single Subject Credential Program; Successful completion of EDBM 127.**Corequisite(s):** EDBM 400B.**Term Typically Offered:** Fall, Spring

Critical examination of the socio-political relationship between California's public schools and its major population subgroups (as defined by culture, gender, social class, language, race/ethnicity, and ability). Candidates critically reflect on the philosophy and practices of schooling in relation to students' culture, family and community; analyze institutional and instructional practices for educational equity; and develop alternative instructional activities based on the principles of multicultural education and English language learning in a democratic society. Lectures, discussions, small group work, simulations, and field tasks.

EDBM 205. Education for a Democratic, Pluralistic Society.**3 Units****Term Typically Offered:** Fall, Spring

Advanced study of social, cultural, historical, philosophical and psychological issues related to the teaching and learning of culturally and linguistically diverse students. In-depth consideration of the implications of theories and research related to the history of educational reform, the history and culture of the teaching profession, the nature of learning for linguistically and culturally diverse students, the relationship between schooling and democratic society, and the barriers to all of the above.

EDBM 220. Multicultural Curriculum, Advocacy, and Community.**3 Units****Term Typically Offered:** Fall, Spring

This seminar is a philosophical and pedagogical exploration of the historic, legal and sociocultural foundations of American education with emphasis on issues of power, identity, representation, and change. It examines how history, political and economic agendas, and discrimination shape schooling access and curriculum practices; and, considers ways to transform education to strengthen student-family-community-school involvement. This course is applied in that it mandates that students develop an action research plan for implementing or strengthening student-family-community-school involvement in schools and/or community settings.

EDBM 228. The Academic and Social Value of Ethnic Studies.**3 Units****Term Typically Offered:** Fall, Spring

Introduces Ethnic Studies history, research, policy, and classroom practice. The primary focus is on Ethnic Studies education in grades 9-12. Readings for this course include current research on the academic and social value of particular approaches to teaching Ethnic Studies; new and developing California school district policy; recent California laws and resolutions regarding the establishment of Ethnic Studies as a high school graduation requirement; and Memorandums of Decision from Federal Court cases related to Ethnic Studies.

EDBM 235. Research Seminar on Bilingualism and Language Varieties in Education.**3 Units****Prerequisite(s):** Instructor permission.**Term Typically Offered:** Fall, Spring

Designed for graduate students who already have some preparation in the area of Bilingualism and language varieties as they relate to the schools. Uses a seminar format to explore the latest research in the areas of first and second language acquisition of bilinguals, acquisition of standard and nonstandard dialects, and related sociolinguistic issues. Special attention will be given to research about language varieties used in the U.S. (Black English, Chicano English, Chicano Spanish, Hawaiian English and so on.)

EDBM 245. Advocacy, Change and Community.**3 Units****Term Typically Offered:** Fall, Spring

Focus on learning theories behind and the methods for creating social change. Development of skills needed to differentiate social problems from their symptoms, and to coalesce key community members and agencies toward effecting social change. Additional study of strategies needed to assess the success of change efforts, and how to learn from challenges.

EDBM 250. Education Research. ✎**3 Units****Prerequisite(s):** Graduate status.**Term Typically Offered:** Fall, Spring

Studies qualitative and quantitative methods in the development of reliable knowledge in the field of education. Includes identification and formulation of research problems, research designs and presentation of reports representative of different research strategies. Provides support for students' culminating projects/thesis.

EDBM 265. Thesis/Project Writing.**3 Units****Prerequisite(s):** EDBM 250 or equivalent, advanced to candidacy.**Term Typically Offered:** Fall, Spring

Seminar to focus on the process of completing the required culminating experience including refining the research problem, completing the literature review, finalizing and implementing the research design, and completing required university protocol (e.g., Human Subjects Review and format requirements).

Note: May be taken twice for credit.

Credit/No Credit

EDBM 299. Special Problems.**1 - 3 Units****Term Typically Offered:** Fall, Spring

Individual projects at graduate level especially for students capable of independent study. Admission by written approval of the instructor with whom the student will be working and Department Chair.

Credit/No Credit

EDBM 342. Fundamentals for the Secondary Multilingual, Multicultural Classroom.**2 Units****Prerequisite(s):** Admission to Single Subject Credential Program.**Term Typically Offered:** Fall, Spring

Introduces the relationship between elements of teaching, instructional organization, and classroom management to effectively teach in culturally and linguistically diverse secondary classrooms. Focus is grounded in a Social Reconstructionist approach. Emphasis includes students' development as a teacher specific, teaching strategies for culturally and linguistically diverse students, curriculum development, and theories and practices for establishing and maintaining an effective learning environment in multicultural/multilingual classrooms. Provides an introduction to E-Portfolio development, integration of technology, and familiarization of content standards.

EDBM 401. Observation and Participation in Multilingual/Multicultural Schools.**2 Units****Prerequisite(s):** Admission to Teacher Preparation Program.**Term Typically Offered:** Fall, Spring

Teacher candidates will observe and participate as teaching assistants in public school classrooms with high enrollments of students from culturally and linguistically diverse backgrounds.

Credit/No Credit

EDBM 565. MA Thesis/Project.**3 Units**

Prerequisite(s): EDBM 250, advanced to candidacy, and completion of the Thesis/Project Petition and Advisor Reservation Form and the approval by the Department's Graduate Coordinator one semester prior to registration of this course.

Term Typically Offered: Fall, Spring

Completion of a thesis or project approved for the Master's Degree.

Note: May be taken twice for credit.

Education - Counselor Education (EDC)

EDC 210. Multicultural/Ethnic Counseling.**3 Units****Term Typically Offered:** Fall, Spring

Exploration of ethnic and cultural differences to develop or expand awareness, techniques, skills, theories, concepts, and to acquire information necessary to counsel effectively with clients of various ethnic/cultural groups. Students examine their own attitudes, behaviors, perceptions, and biases, and are encouraged to develop their own multicultural approach to counseling. Lecture/discussion three hours.

EDC 212. Gender Roles in Counseling.**3 Units****Term Typically Offered:** Fall, Spring

An overview of the individual and societal parameters of gender roles and sexism in self-identity, sexual behavior, health, mental health, relationships, values, abuse, violence, etc. Attitudes, research, prevention, assessment and treatment methods are addressed. Meets Board of Behavioral Science requirements in human sexuality and domestic violence.

EDC 214. Dynamics of Human Development.**3 Units****Term Typically Offered:** Fall, Spring

Overview of theories and research pertaining to the dynamics of human development, including cultural, biological, social, and psychological factors. Particular emphasis will be placed on the relationship of these factors to the field of counseling. Lecture three hours.

EDC 216. Counseling Theory.**3 Units****Corequisite(s):** EDC 280.**Term Typically Offered:** Fall, Spring

Examination of ten counseling philosophies, with emphasis on knowledge and practice. Requires the refinement of one's own counseling orientation. Designed to provide students with a foundation in the basic philosophy and practice of contemporary theories of counseling/psychotherapy. The requirements support three components of multiple measures of learning and outcomes: 1) personal growth, 2) counseling skills building utilizing multiple approaches, 3) professional development.

EDC 218. Assessment In Counseling.**3 Units****Term Typically Offered:** Fall, Spring

Intended to acquaint the prospective counselor with an array of assessment instruments and appraisal techniques. Includes practical experience with tests as well as foundations of test development. Lecture three hours.

EDC 219. Group Processes in Counseling.**3 Units****Prerequisite(s):** EDC 216 and EDC 280.**Term Typically Offered:** Fall, Spring

Group process theory and procedures, including group counseling and guidance. Participation in a group experience is required. Lecture, discussion, three hours.

Note: May be repeated for credit.

EDC 220. The Spiritual Dimension in Counseling and Psychotherapy.**3 Units****Prerequisite(s):** EDUC 155, EDUC 156, EDC 216, EDC 280; or instructor permission.**Term Typically Offered:** Fall, Spring

Investigation into concerns and issues, modes, and methodologies surrounding exploration of the spiritual dimension in the counseling/therapy relationship. Experiential activities are included.

EDC 222. Clinical Stress Reduction.**3 Units****Term Typically Offered:** Fall, Spring

Major concepts, theories, and approaches to effective stress reduction. Includes stress level assessment, planning and implementation of a stress reduction program. Practice of beneficial stress reduction techniques and application in clinical practice.

Note: Open to unclassified students with instructor permission.**EDC 230. Law and Ethics for Marriage, Family, and Child Counseling.****3 Units****Prerequisite(s):** EDUC 155, EDUC 156, EDC 216, EDC 280 or instructor permission.**Term Typically Offered:** Fall, Spring

Legal and ethical considerations in the practice of marriage, family, and child counseling. Current laws, responsibilities, restrictions, rights and privileges, licensing regulations, and ethical standards of major professional groups. Child abuse assessment and reporting requirements. Organization, administration, and management of independent practice. Lecture three hours.

EDC 231. Diagnosis and Treatment Planning.**3 Units****Prerequisite(s):** EDC 216, EDC 218, EDC 280; classified student in the Counselor Education Program.**Term Typically Offered:** Fall, Spring

Advanced discussion of psychopathology with emphasis on differential diagnosis, use of DSM IV, and development of treatment plans. Use of mental status exam and structured interview schedules. Major diagnostic categories covered include schizophrenia, mood disorders, anxiety disorders, and personality disorders. Completion of case reports and understanding of clinical materials using diagnosis and treatment plans will be emphasized from a diversity perspective. Lecture three hours.

EDC 232. Family Violence.**3 Units****Prerequisite(s):** EDC 212, EDC 230, EDC 234; or instructor permission.**Term Typically Offered:** Fall, Spring

Violence in the family includes spouse abuse, child abuse, incest, and sexual abuse. Myths about these areas will be replaced by empirically-based facts. There will be an emphasis on effective treatment methods; research findings on family violence, including etiology and family patterns; overlap with alcohol and other drugs, and maintenance factors. Students will gain techniques and skills in interviewing, assessment, and counseling when violence is a presenting issue.

EDC 233. Substance Abuse and Addiction.**3 Units****Prerequisite(s):** EDC 231.**Term Typically Offered:** Fall, Spring

Provides an overview of substance abuse, addiction and co-occurring disorders with emphasis on psychoactive drugs including alcohol. Material will focus on the following areas: identification, evaluation, treatment and prevention of substance abuse and addiction, family, friends and coworker issues, legal and medical aspects of substance abuse, populations at risk, the role of support persons, support systems, and community resources.

EDC 234. Seminar: Marriage and Family Counseling.**3 Units****Prerequisite(s):** EDC 214, EDC 216, EDC 280; classified student in the Counselor Education Program.**Corequisite(s):** For MFCC Specialization: EDC 476.**Term Typically Offered:** Fall, Spring

Introduction to the basic concepts and principles of family therapy. Provides and lays the foundation on which all theories/schools of family therapy are based and covers the basic theories of family therapy. Issues include evaluation of families, diagnosis in a family context, interviewing strategies, redefining problems in a family systems context, and treatment principles. Lecture three hours.

Note: May substitute PSYC 225 with consent of faculty advisor prior to registration.**EDC 238. Professional Issues in Marriage Couple and Family Counseling.****2 Units****Prerequisite(s):** EDC 210, EDC 216, EDC 234, EDC 280 and acceptance into the Counselor Education Program.**Term Typically Offered:** Fall, Spring

This course will provide MFCF students an advanced overview of current evidence-based practices, intervention techniques, and treatment strategies for diverse populations. This class will challenge students to conceptualize through diverse therapeutic lenses. Students will develop a deeper understanding of MFT theory and how to apply theory to practice. Topics may include domestic violence, death and dying, chemical dependency, patients with HIV or AIDS, relational trauma, the foster care system, infidelity in marriage and couples counseling, and caring for caregivers.

EDC 239. Foundations in Rehabilitation Counseling.**3 Units****Term Typically Offered:** Fall, Spring

Introduction to the field of rehabilitation counseling. Students will learn about the foundations of rehabilitation counseling through lecture, discussion, observations of community facilities, and classroom activities. Students will spend 40 hours over the course of the semester volunteering with a rehabilitation agency. Field trip(s).

Note: Open to unclassified graduate students on a space available basis.

Field trip(s) may be required.

EDC 240A. Psychological, Social and Medical Aspects of Disability, A. 3 Units

Prerequisite(s): Approval as a candidate for the MS degree in Counseling.
Term Typically Offered: Fall, Spring

Psychological, social, and medical aspects of various congenital, hereditary, and trauma-induced disabilities are studied in-depth, particularly their relationship to vocational adjustment. The etiology, treatment, prognosis, and limitations caused by various disabling medical conditions are covered as well as such factors as depression, denial and dependency as they occur or are related to these disabling conditions. Emphasis is also given to the concepts of motivation, self-concept, and personal and societal attitudes toward disability.

EDC 240B. Psychological, Social and Medical Aspects of Disability, B. 3 Units

Term Typically Offered: Fall, Spring

This is a two-part course. Both EDC 240A and EDC 240B are required. EDC 240A is not a prerequisite for 240B.

EDC 241. Developmental Stages and Art Therapy Techniques. 3 Units

Prerequisite(s): EDUC 155 and EDUC 156.
Term Typically Offered: Fall, Spring

In-depth study of normal stages of development in art with special emphasis on the developmental stages as both diagnostic indicators and aids in devising art therapy treatment. Includes hands-on experience with a variety of art therapy techniques and discussion of their applicability to different client populations. Purchase of some basic art supplies is required. Lecture, discussion, three hours.

EDC 242. Play and Art in Therapy with Children. 3 Units

Prerequisite(s): EDC 216, EDC 280, classified student in the School Counseling Specialization. Other Counselor Education students may be permitted to enroll when space is available.
Term Typically Offered: Fall, Spring

Explores the ways children use fantasy, play, and art as means for communication, growth and healing. Emphasis is placed on clinical skills, therapeutic limit setting, counseling theory and developmentally appropriate interventions. Purchase of some basic art supplies is required.

EDC 244. Trauma and Crisis Counseling. 3 Units

This course provides opportunities for both theory and skill development by examining crisis and trauma counseling, including crisis theory; multidisciplinary responses to crises, emergencies, or disasters; cognitive, affective, behavioral, and neurological effects associated with trauma; brief, intermediate and long-term approaches; assessment strategies for clients in crisis and principles of intervention for individuals with mental or emotional disorders during times of crisis, emergency, or disaster.

EDC 250. Education Research. 3 Units

Prerequisite(s): Graduate status.
Term Typically Offered: Fall, Spring

Studies qualitative and quantitative methods in the development of reliable knowledge in the field of education. Includes identification and formulation of research problems, research designs and presentation of reports representative of different research strategies. Classified students are encouraged to take this course early in their graduate programs.

EDC 252. Legal and Ethical Issues in Professional Counseling. 3 Units
Term Typically Offered: Fall, Spring

Designed to provide students with basic knowledge and skills necessary to be legally and ethically competent in practice of counseling. Examines ethical and legal considerations pursuant to practice of counseling. Topics to be covered are ethics (CAMFT, AAMFT, ACA, ASCA, NCDA) related to counseling practice in private and public sectors, as well as laws regarding mandatory child and elder abuse assessment and reporting, confidentiality, privilege, liability, marriage, family, child and school ethics and law. Required for graduation with a degree in Counseling.

EDC 254. Counseling and Psychotropic Medicine. 3 Units

Prerequisite(s): EDC 231
Term Typically Offered: Fall, Spring

Provides an introduction to psychopharmacology; the biological bases of behavior; basic classifications, indications, and contraindications of commonly prescribed psychopharmacological medications; and effective approaches to collaborating with clients, their families and other professionals so that appropriate referrals can be made for medication evaluations and so that the side effects of those medications can be identified. Meets the BBS licensure requirements for Professional Clinical Counselors and Marriage and Family Therapists.

EDC 260. Career Development. 3 Units

Term Typically Offered: Fall, Spring

Provides a basic introduction to career development and career counseling. Identification and assessment of issues common in career counseling settings are examined. Group and individual models of career development and counseling in schools, community agencies or private industry are also investigated and discussed. Lecture three hours.

EDC 261. Seminar in Counseling: Job Placement. 3 Units

Term Typically Offered: Fall, Spring

Analyzes and practice of job-seeking skills, employer information base, and job placement of the handicapped.

EDC 262. Career Counseling Process. 3 Units

Prerequisite(s): EDC 260; classified student in the Counselor Education Program.
Term Typically Offered: Fall, Spring

On-going learning of the processes needed to deliver career counseling services to a variety of clientele. Students will extend their theoretical knowledge base and will more clearly focus on the relationship between a person's life and the process of career development. Elements to be studied in more depth include career development theory, assessment techniques and strategies, goal setting, decision making, and integration of multicultural aspects and strategies. A practical experience in administering and interpreting selected test instruments extensively used in career counseling will be included. Lecture three hours; practical experience one hour.

EDC 263. Case Practices in Rehabilitation Counseling. 3 Units

Prerequisite(s): Classification as a graduate student in the M.S. Counseling program or instructor approval.

Term Typically Offered: Fall, Spring

This course provides an in -depth review and study of the rehabilitation process. This course will address effective rehabilitation counseling interventions and documentation. This course is oriented to the methods used in obtaining relevant self-reported, measured, or demonstrated client information that will have direct impact on the individual;s rehabilitation process. Students will formulate Formulation of individual rehabilitation plans as a joint client-counselor process. Rehabilitation case records will be used to foster understanding of the client and their problems.

EDC 264. Seminar in Counseling: Career Systems Development. 3 Units

Prerequisite(s): EDC 260; classified student in the Counselor Education Program.

Term Typically Offered: Fall, Spring

Specific emphasis is at the implementation level, with students learning the necessary skills for implementing, maintaining, and stimulating career development in schools, community agencies or private industry. Lecture three hours.

EDC 266. Seminar in Counseling: Career Program Development. 3 Units

Prerequisite(s): EDC 260; classified student in the Counselor Education Program.

Term Typically Offered: Fall, Spring

Specific emphasis is at the program development level, with students learning the necessary components for developing a career counseling program in schools, community agencies, or private industry. Lecture three hours.

EDC 268. Career and Job Search. 3 Units

Prerequisite(s): EDC 260 or instructor permission.

Term Typically Offered: Fall, Spring

Work is undergoing change with the advent of new technologies, an increasingly diverse workforce, and corporate restructuring. These conditions have led to more frequent occupational shifts and the loss of previously secure jobs, self-reliance replacing loyalty in relations between employers and employees, and fragmented careers becoming more common as family responsibilities and work opportunities became increasingly interwoven. Examines traditional and emerging approaches for assisting clients in a changing and evolving job market.

EDC 270. Organization and Administration of School Counseling Programs. 3 Units

Term Typically Offered: Fall, Spring

Principles and practices necessary to plan, initiate, administer, and evaluate school counseling programs, including related laws. Lecture, discussion three hours.

EDC 272. Counseling Children and Youth. 3 Units

Prerequisite(s): EDC 216, EDC 280, classified student in Counselor Education Program. School specialization: EDC 242.

Corequisite(s): School Counseling Specialization: EDC 475.

Term Typically Offered: Fall, Spring

Provides students with a theoretical foundation and working knowledge of contemporary issues and interventions for children and youth. A variety of presenting problems and treatment strategies are explored.

EDC 274. Guidance and Consultation in School Counseling. 3 Units

Prerequisite(s): EDC 216, EDC 280, EDC 270; classified student in the Counselor Education Program.

Term Typically Offered: Fall, Spring

Presents a variety of topics and strategies related to the school counselor's role in implementing guidance curricula in the school. Explores models of consultation, change strategies, human relations skills, and ethical considerations. Emphasis is on the developmental nature of school counseling programming, the need for school counseling to support the larger instructional mission of the school, the role of the counselor as a change agent and the multiplicity of skills needed for successful guidance and consultation.

EDC 280. Practicum in Communication. 2 Units

Corequisite(s): EDC 216.

Term Typically Offered: Fall, Spring

Supervised practice in the basic styles of communication, verbal and nonverbal, with additional focus on the particular skills of selected theories. Lecture one hour; laboratory two hours.

Note: Recommended to be taken within the first 6 units of study in the Counselor Education Program.

Credit/No Credit

EDC 282. Practicum in Group Counseling. 2 Units

Prerequisite(s): EDC 219; classified student in the Counselor Education Program.

Term Typically Offered: Fall, Spring

Supervised practice in leadership of group counseling. Lecture one hour; laboratory three hours.

Credit/No Credit

EDC 294. Cooperative Education Experience. 3 Units

Prerequisite(s): Open only to upper division and graduate students; consent of Department Chair.

Term Typically Offered: Fall, Spring

Cooperative Education (Co-op) relates academic theory to professional practice by providing paid work experience in the student's major field of study and academic credit. Students receive supervised employment in school districts, state and community agencies, companies, and other appropriate settings. Requires attendance at weekly meetings, preparation of application packet, completion of field study assignment, and a written final report.

Note: Units may not be used to meet course work requirements. May be repeated once for credit.

Credit/No Credit

EDC 296P. Current Issues in Counseling: Meditation. 1 Unit

Term Typically Offered: Fall, Spring

An introductory experimental class in meditation which provides a basic foundation of basic meditative theories, the experience of meditative practices, and a basic knowledge of meditative techniques of benefit both personally and with clients. Research has demonstrated that meditation is helpful in a number of stress-related conditions and recent research indicates it is often more effective than psychotherapy in treatment of some problems.

Note: Instructor approval required. May be taken twice for credit.

Credit/No Credit

EDC 299. Special Problems.**1 - 3 Units****Term Typically Offered:** Fall, Spring

Individual projects at graduate level designed especially for students capable of independent study.

Note: Admission by approval of the instructor with whom the student will be working directly and the Department Chair.

Credit/No Credit

EDC 475. Practicum In Counseling.**3 Units**

Prerequisite(s): Prerequisites for all specializations: EDC 210, EDC 214, EDC 216, EDC 280. Additional prerequisites by specialization: Career - EDC 212+, EDC 218, EDC 219+, EDC 260, EDC 262+; Community - EDC 201, EDC 212+, EDC 218, EDC 219; MFCC - EDC 212, EDC 218+, EDC 219, EDC 234, EDC 252+, EDC 476; School - EDC 252+, EDC 270.

Corequisite(s): By specialization: School - EDC 272.

Term Typically Offered: Fall, Spring

Supervised counseling practice in agency and/or school settings. Emphasis on application of counseling theories and the integration of one's own counseling philosophy into practical applications. Basic requirements: 100 clock hours with at least 40 client contact hours, 1 hour per week of individual/triadic supervision, and one and half hours per week of group supervision.

Note: Department petition is required the semester prior to enrollment.

Credit/No Credit

EDC 476. Practicum in Marriage, Family and Child Counseling.**1 Unit**

Prerequisite(s): EDC 216, EDC 280, classified student in the Counselor Education Program.

Corequisite(s): EDC 234.

Term Typically Offered: Fall, Spring

Structured observation and supervised practice in marriage, family, and child counseling. Application of material learned in EDC 234. Emphasis on establishing relationships and interviewing techniques with multiple clients, assessment techniques, setting goals, and learning to think systemically. Laboratory two hours.

Credit/No Credit

EDC 480. Field Study In Counseling.**2 - 6 Units**

Prerequisite(s): EDC 475 and all of its prerequisites. Additional prerequisites by specialization: MFCC - completion of required courses except culminating requirement.

Corequisite(s): By specialization: School - EDC 272.

Term Typically Offered: Fall, Spring

Supervised counseling and field experiences arranged in community-based settings such as schools, colleges and/or agencies. One hundred clock hours of experience required for each unit of credit for a total of six hundred clock hours (or 6 units). Weekly supervision is provided throughout the field experience: one hour per week of individual/triadic supervision and one and half hours per week of group supervision.

Note: Department petition and approval of faculty advisor is required the semester prior to enrollment.

Credit/No Credit

EDC 500. Master's Culminating Experience.**1 Unit**

Prerequisite(s): Advanced to candidacy for the master's degree and enrollment in the last semester of course work; Classified student in the Counselor Education Program; Department petition required the semester prior to enrollment.

Term Typically Offered: Fall, Spring

Focuses on reviewing and synthesizing of student's knowledge of theory, and practice. A review and examination of previous learning will be included.

Note: Taken in preparation for the comprehensive examination.

Credit/No Credit

EDC 551. Master's Project - Counseling - Plan B.**3 Units**

Prerequisite(s): Advanced to candidacy. All course requirements in Counselor Education and EDC 505.

Term Typically Offered: Fall, Spring

Completion of a project approved for the Master's degree.

Note: Department petition is required the semester prior to enrollment.

Education - Curriculum and Instruction (EDCI)

EDCI 227. Transforming Curriculum in K-12.**3 Units****Term Typically Offered:** Fall, Spring

This course will explore the ways in which K-12 schools are influenced by the economic, social and political environment. It will examine how educators can respond to the conditions and issues that exist, and in particular, how the individual teacher's study and practice is shaped by and can transform public education.

EDCI 251. Power in Education.**3 Units****Term Typically Offered:** Fall, Spring

Advanced study of critical pedagogy as a vision for shifting the power in education through a consideration of the sociocultural and sociopolitical issues in schooling. Course readings focus on the experiences of students in schools; school organization; and relationships between communities and schools. The emphasis is on American public school systems through an exploration of educational inequities, from theoretical and practical viewpoints.

Education - Graduate Professional Studies in Education (EDGR)

EDGR 210. Contemporary Issues in Education: Curriculum and Social Emotional Well Being of Students.**3 Units****Term Typically Offered:** Fall, Spring

This course examines contemporary issues in education, with special attention to the social, cultural, political, economic, and institutional dynamics of educational processes and the impacts on students, schools, and communities. Fulfilling the mission of the Masters programs and the College of Education vision, the course focuses on preparing students to become social change agents in schools and communities. Topics covered will fit into the two threads of (a) curriculum and (b) social emotional well-being of students.

EDGR 211. Contemporary Issues in Education: Context of Schooling and Leadership. 3 Units**Term Typically Offered:** Fall, Spring

This course examines contemporary issues in education, with special attention to the social, cultural, political, economic, and institutional dynamics of educational processes and the impacts on students, schools, and communities. Fulfilling the mission of the Masters programs and the College of Education vision, the course focuses on preparing students to become social change agents in schools and communities. Topics covered will fit into the two threads of (a) context of schooling and (b) leadership.

EDGR 220. Issues in New Literacies throughout the Lifespan. 3 Units
Term Typically Offered: Fall, Spring

This course examines contemporary issues in literacy. The course introduces students to pedagogies and politics of new literacies within a variety of contexts: academic, new literacy studies, technology literacy, cultural, family, community, and workplace literacy. From a frame of literacy/illiteracy, students examine its connections with economic, political, social, occupational, education, governmental, and cultural change. Students will study how literacy programs are organized and implemented, examine research on the rationale for literacy, including the connection between literacy and healthy, livelihoods, empowerment, community development and cognitive skills.

EDGR 260. Writing and Research Across the Disciplines. 3 Units**Prerequisite(s):** Admission to graduate program in the College of Education or instructor permission**Term Typically Offered:** Fall, Spring

Orientation to graduate study design to introduce students to research within their field of study and across disciplines in the College of Education. Overview of qualitative and quantitative methods and basic statistical concepts. Focus on writing to communicate evidence-based knowledge in a professional manner using APA style. Includes research presentations, active discussion, critical reading, and analytical writing with some activities.

Note: This course serves as a foundation for further study and must be taken prior to 250. This course satisfies the GWI requirement.**EDGR 287A. Seminar in Culminating Experience Exploration and Design.** 1 Unit**Term Typically Offered:** Fall only

Explore and identify potential Culminating Experience project topics in instructional design and/or educational technology trends and issues through surveys of published research, discussions, and presentations with peers and professionals. Compare and contrast existing literature and research, identify trends, recognize real-world best practices, and explore underlying factors contributing or relating to your Culminating Experience topic of interest.

Credit/No Credit

EDGR 287B. Seminar in Culminating Experience Development and Proposal. 2 Units**Prerequisite(s):** EDGR 287A**Term Typically Offered:** Spring only

Discuss, develop and propose a Culminating Experience project in instructional design and/or educational technology based on prior exploration and identification of topics and issues. Develop program ePortfolio.

Credit/No Credit

Education - Multiple Subject (EDMS)

EDMS 272. Methods for Teaching Second Language Learners, Multiple Subject (ELD and SDAIE). 3 Units**Prerequisite(s):** EDUC 170**Term Typically Offered:** Fall, Spring

Focus on teaching candidates the methods, techniques and strategies needed to make content accessible for second language learners. Candidates will learn to use the state ELD standards to create ELD lessons and SDAIE lessons within multicultural framework. Candidates will also learn how to interpret and implement formative and summative assessments. Lecture, demonstration, modeling, group work, discussions, field experience.

EDMS 299. Special Problems: Multiple Subject. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects for Multiple Subject credential candidates at graduate/credential level especially for students capable of independent study. Admission by written approval of the instructor with whom the student will be working and the Department Chair.

Note: This course may be repeated for up to 9 units of credit.

Credit/No Credit

EDMS 300. Teaching Performance Assessment-Multiple Subjects-Mathematics. 1 Unit**Corequisite(s):** EDMS 434B or EDMS 430B or EDSP 420B**Term Typically Offered:** Fall, Spring

Candidates in the Teacher Preparation Program must complete the Teaching Event for the Performance Assessment for California Teachers. The Teaching Event requires candidates to plan and teach an instructional sequence in their student teaching placement. They must also assess student learning during this lesson sequence and submit a videotape with material recorded during the lesson sequence. The Teaching Event is a summative assessment and one of several requirements that must be completed in order to receive a recommendation for a teaching credential.

Credit/No Credit

EDMS 310C. Pedagogy C: Classroom Instruction and Positive Management for Diverse Classrooms. 1 Unit**Prerequisite(s):** Admission to Multiple Subject Credential Program.

Successful completion of EDMS 310B.

Term Typically Offered: Fall, Spring

Reinforces the cycle of teaching: lesson planning, implementing, reflection and application at a deeper developmental level. Intensive support for classroom management and discipline; disruptive behaviors; problem-solving communication with district administrators, parents at community level as child advocates. Emphasis on differentiating instruction to individual needs of diverse learners. Scaffolding to support growth and developmental stages of the learning-to-teach process and professional responsibilities. Infusion of e-portfolio development and the integration of technology.

Credit/No Credit

EDMS 314. Mathematics Curriculum and Instruction for the Diverse K-8 Classroom. 3 Units**Term Typically Offered:** Fall, Spring

Focusing on a "meaning approach" to mathematics which prepares candidates to teach mathematics content standards for California public schools to all students, including English Learners and special needs; to use analytical and critical thinking skills in mathematics; and to infuse mathematics topics, themes, and concepts into other subject areas.

Discussion, field visits, microteaching, demonstrations, presentations, and technological applications for mathematics will be included.

EDMS 315. History-Social Science Curriculum and Instruction for the Diverse K-8 Classroom. 3 Units**Term Typically Offered:** Fall, Spring

Prepares teacher candidates in multiple subjects to teach the history-social science content standards for California public schools to all students, including English Learners and special needs; to use analytical and critical thinking skills in history and social science; and to integrate history-social science topics, themes, and concepts with other subject areas. Pedagogical topics include the use of timelines, maps, artifacts, case studies, simulations, literature, art, multiple perspectives, SDAIE, cooperative projects, and research activities.

EDMS 316. Science Curriculum and Instruction for the Diverse K-8 Classroom. 3 Units**Term Typically Offered:** Fall, Spring

Knowledge of basic principles and strategies related to science education, incorporating an expanded treatment of science pedagogy, manipulatives, technological supports, accommodations, adaptive instructional techniques, and other strategies specially suited to the instruction of diverse student populations.

EDMS 317. Visual and Performing Arts Methods for the Diverse K-8 Classroom. 1 Unit**Prerequisite(s):** Admission to Multiple Subject Teacher Credential Program.**Term Typically Offered:** Fall, Spring

Prepares candidates in multiple subjects to teach the visual and performing arts content standards for California public schools to all students, including English Learners, and special needs students, through interrelated activities with involvement in specific teaching strategies which are effective in achieving the goals of developing artistic perception and creative expression, understanding the cultural and historical origins of the arts, making informed judgments about the arts, and understanding the arts connections and relationships across curriculum.

EDMS 319A. Language and Literacy I for the Diverse K-8 Classroom. 3 Units**Term Typically Offered:** Fall, Spring

Develops understandings, attitudes, and competencies needed for effective instruction of language and literacy for mainstream populations, English Learners, and students with special needs. Instructional strategies for teaching concepts about print, phonemic awareness, phonics, fluency, vocabulary, and comprehension of narrative/expository texts. Instructional planning aligned with current content standards, and other content and preparation standards as appropriate. Assessment strategies that inform planning and instruction. Special emphasis on literacy instruction in bilingual and multilingual settings. Lecture and discussion, includes a field experience component.

EDMS 319B. Language and Literacy II for the Diverse K-8 Classroom. 3 Units**Prerequisite(s):** EDMS 319A**Term Typically Offered:** Fall, Spring

Extends understandings, attitudes, and competencies needed for effective instruction of language and literacy for mainstream populations, English Learners, and students with special needs. Instructional strategies for teaching narrative/expository text and spelling. Instructional planning aligned with current content standards, and other content and preparation standards as appropriate. Assessment strategies that inform planning and instruction. Special emphasis on literacy instruction in bilingual and multilingual settings. Lecture and discussion, includes a field experience component.

EDMS 330A. Educational Technology Lab I. 1 Unit**Prerequisite(s):** Admission to Multiple Subject Credential Program.**Term Typically Offered:** Fall only

Educational technology lab course will prepare the candidates use technology for three areas: coursework in the teaching credential program, enhancing teaching and learning and eportfolio development. Students are introduced to an array of digital technologies for teaching relevant for K-12 student learning. Among the topics include digital literacy, copyright, fair use, Internet safety, Creative Commons, presentation tools, ISTE standards, technology and Teaching Performance Expectations, presentation tools, interactive whiteboards, and many others. The focus is on students learning about technology use in teaching and learning in K-12 schools. Candidates are prepared to use technology in the Teaching Credential Program and for the development of an electronic portfolio.

Credit/No Credit

EDMS 330B. Educational Technology Lab II.**1 Unit****Prerequisite(s):** EDMS 330A**Term Typically Offered:** Spring only

In this course, candidates will learn to create, use, and manage appropriate and relevant educational technological processes and resources. The candidates will deepen their knowledge of technology in the K-12 public school environment and apply their understanding to improve student engagement and student learning outcomes. The candidates will also learn to use technology associated with the Teaching Credential Program and finalize their electronic portfolio for the program.
Credit/No Credit

EDMS 332. Assessment Center Laboratory for Multiple Subject Candidates.**2 Units****Corequisite(s):** EDMS 430B or EDMS 434B or EDSP 420B**Term Typically Offered:** Fall, Spring

Individualized support to guide multiple subject candidates through the process of completing and submitting the culminating (PACT) Teaching Event and completion of their electronic portfolio. The signature assignments, formative PACT assessments and summative PACT Teaching Event represent a working electronic portfolio embedded throughout the credential program, and the summative component will be polished and formally submitted at the conclusion of the EDMS 332 laboratory course.
Credit/No Credit

EDMS 334A. Principles of Teaching in a diverse K - 8 classroom - A.**2 Units****Prerequisite(s):** Admission to the Multiple Subject Teacher Credential Program**Corequisite(s):** EDMS 334B**Term Typically Offered:** Fall, Spring

This is the first course in a two-course series. Candidates learn foundational knowledge necessary to execute the Plan-Instruct-Assess-Reflect cycle of mindful teaching. Introduction to the theoretical foundations of teaching (learning theory, human development theory, multicultural education, inclusive and differentiated education, assessment frameworks, and models of teaching and curriculum planning), the history of public education in the U.S., and effective strategies and practices for educating all learners to rigorous outcomes, especially those who are English learners or who have special needs.

EDMS 334B. Principles of Teaching in a diverse K-8 classroom - B.**4 Units****Prerequisite(s):** Admission to the Multiple Subject Teacher Credential Program**Corequisite(s):** EDMS 334A**Term Typically Offered:** Fall, Spring

This is the second course in a two course series. Candidates translate theories, concepts and frameworks presented in Principles of Teaching A into strategies and practices for instruction, assessment, and curriculum development in the K-8 classroom. Candidates will create activities, develop lesson and unit plans, and engage in simulations, peer teaching, and workshops.

EDMS 335A. Advanced Principles of Teaching in a diverse K-8 classroom - A.**1 Unit****Prerequisite(s):** EDMS 334A and EDMS 334B**Corequisite(s):** EDMS 335B**Term Typically Offered:** Fall, Spring

This course is the first in a two-course series. It deepens candidates' knowledge of theories and practices necessary to execute the Plan-Instruct-Assess-Reflect cycle of mindful teaching for diverse students. Candidates will expand their understandings of how theoretical frameworks for teaching (learning theory, human development theory, multicultural education, inclusive and differentiated education, assessment frameworks, and models of teaching and curriculum planning) are applied in varied public school classrooms and contexts.

EDMS 335B. Advanced Principles of Teaching in a diverse K-8 classroom - B.**2 Units****Prerequisite(s):** EDMS 334A and EDMS 334B**Corequisite(s):** EDMS 335A**Term Typically Offered:** Fall, Spring

In this course, candidates translate theories, concepts and frameworks presented in Advanced Principles of Teaching A into strategies and practices for instruction, assessment, and curriculum development in the K-8 classroom. Candidates will create activities, develop lesson and unit plans that integrate and apply various theories and frameworks for instruction. Candidates will design, lead and engage in simulations, peer teaching, and workshops. Workshop and discussion.

EDMS 401. Observation and Participation in Elementary Schools.**2 Units****Prerequisite(s):** Admission to Teacher Preparation Program**Term Typically Offered:** Fall, Spring

Observations in classes in several situations and grade levels; service as an assistant in at least one classroom. Visits to community agencies which serve the school population.
Credit/No Credit

EDMS 420A. Field Experience: Multiple Subject.**4 Units****Prerequisite(s):** Admission to Teacher Preparation Program.**Term Typically Offered:** Fall, Spring

Two semesters of student teaching multiple subjects in public school classrooms providing experiences at two grade levels and with different cultural groups. Intensive, realistic experiences with continuous and varied responsibilities. This first semester student teaching with integrated methods course work requires half-day participation.

Experiences in classroom teaching and participation in many of the out-of-class duties of a teacher.
Credit/No Credit

EDMS 420B. Student Teaching: Multiple Subject.**10 Units****Prerequisite(s):** Admission to Teacher Preparation Program.**Term Typically Offered:** Fall, Spring

Second semester student teaching with integrated methods course work requires full-day participation of the student. Emphasis on classroom teaching and further experience with community services.
Credit/No Credit

EDMS 430A. Student Teaching I Basic.**5 Units**

Prerequisite(s): Admission to Teacher Preparation Program
Term Typically Offered: Fall, Spring

One semester of teaching multiple subjects in a public school setting with diverse learners. This first semester of student teaching is completed concurrently with integrated coursework.
 Credit/No Credit

EDMS 430B. Student Teaching II: Basic.**7 Units**

Prerequisite(s): Admission to Teacher Preparation Program
Term Typically Offered: Fall, Spring

One semester of teaching multiple subjects in a public school setting with diverse learners. This second semester of student teaching is completed concurrently with integrated coursework and focuses primarily on planning, implementing, and assessing instruction for whole classes of students.
 Credit/No Credit

EDMS 434A. Field Experience for Elementary Teachers.**2 Units**

Prerequisite(s): Admission to the Multiple Subject Credential program
Term Typically Offered: Fall, Spring

Candidates complete field experience in public school classrooms concurrently with integrated coursework. Field experiences focus primarily on observing model lessons and activities and on collaborative planning, implementing and assessing instruction for small groups of students.
 Credit/No Credit

EDMS 434B. Student Teaching for Elementary Teachers.**4 Units**

Prerequisite(s): EDMS 434A

Term Typically Offered: Fall, Spring

One semester of teaching multiple subjects in a public school setting with diverse learners. This final semester of student teaching is completed concurrently with integrated coursework and focuses primarily on planning, implementing and assessing instruction for whole classes of students.
 Credit/No Credit

Education - Special Education (EDSP)

EDSP 119. Legal and Social Foundations of Special Education.**3 Units**

Term Typically Offered: Fall, Spring

Course provides analysis and practical application of social, legal, and ethical practices in the field of special education. Provides candidates with an overview of state and federal laws and regulations, current case law, and up-to-date mandates from No Child Left Behind. Competencies needed to develop individualized programming for children with disabilities (IEP and IFSP), verification criteria, parent's rights, IEP development and implementation, goal and objective development, placement procedures and IEP monitoring will be emphasized.

EDSP 201. Developing Collaborative Partnerships with Families, Professionals, and Communities.**3 Units**

Prerequisite(s): Admittance to the Education Specialist Credential Program: Early Childhood Special Education.

Term Typically Offered: Fall only

Overview of the historical, philosophical, theoretical/empirical, and legal bases for family centered, relationship based special education services. Emphasis is on developing cross-cultural competence and a strengths-based, student centered approach to empowering families and advocating for students with disabilities. Students will develop skills required to build and maintain collaborative relationships through effective communication and teaming with families, students, professional colleagues, and community members. These skills will be applied in the context of school family-community partnerships, professional partnerships, person-centered planning/future planning, and IFSP/IEP development.

EDSP 205. Methods in Access and Inclusion in the Core Curriculum: Mod/Severe Disabilities.**3 Units**

Prerequisite(s): EDSP 209, EDSP 216/216B, or advisor approval.

Term Typically Offered: Fall, Spring

Focus will be on the following four areas: 1) unit design, varied and modified outcomes, and evaluation of student skills; 2) instructional implementation strategies, including modeling, demonstration, direct and indirect, discovery, and cognitive/meta-cognitive strategies; 3) varied instructional formats and groupings, including cooperative learning, peer-mediated instruction, peer tutoring, and peer coaching; and 4) adaptations and accommodations which will enhance success for the full range of students with disabilities within the general education curriculum.

EDSP 206. Collaborative Program Planning with Families, Professionals, and Communities.**3 Units**

Prerequisite(s): Admittance to Mild/Moderate or Moderate/Severe Credential program or advisor approval

Term Typically Offered: Fall, Spring

Students will develop skills in the areas of: family collaboration; school and community collaboration in the context of IEP development and school partnerships; cross-cultural competence; communication; person-centered planning/future planning, partnering with families; transdisciplinary teaming to develop the IEP and the ITP; and facilitating social relationships and friendships as part of the school experience.

EDSP 207. Secondary/Post-Secondary Methods and Transition Planning: Moderate/Severe Disabilities.**3 Units**

Prerequisite(s): EDSP 119, EDSP 206, EDSP 413, or advisor approval.

Term Typically Offered: Fall, Spring

Students will develop knowledge and skills related to strategies for collaboration and inclusion with general education faculty members in the middle and high school environment. Students will develop skills in community-based instruction transition planning, in addition to designing outcomes and supports within the general education curriculum. Students will also gain knowledge and skills related to vocational and supported employment, and preparation for work after high school, and how to facilitate a successful transition to post-secondary education, supported living, and supported employment.

EDSP 208. Evidenced-based Assessment and Instruction: Mod/Severe Disabilities. 3 Units**Prerequisite(s):** EDSP 119, EDSP 230/230B, EDSP 235 advisor approval.**Corequisite(s):** EDSP 414**Term Typically Offered:** Fall, Spring

Students will be provided with a strong basis in ecological and functional assessment in inclusive school and community environments. Students will develop the ability to: a) set up performance analyses within natural environments; b) map out cognitive initiation vs. performance, and the communication requirements of various settings; c) conduct baselines within general education classrooms, the school, and the community, and develop resulting IEP goals and objectives; and, d) write effective and systematic instructional programs to teach a wide variety of skills across natural environments.

EDSP 209. Developing Augmentative & Alternative Communication Systems: Assessment and Intervention. 3 Units**Prerequisite(s):** EDSP 119, EDSP 206, EDSP 235 or advisor approval.**Term Typically Offered:** Fall, Spring

Participants will learn: a) how to assess communicating behavior from nonsymbolic to symbolic and unintentional to sophisticated in students with disabilities; b) to work with audiologists and ophthalmologists to assess sensory functioning related to communication; c) to develop communication system intervention plans, both low and high tech; and d) how to implement instruction across multiple environments and with multiple partners. In addition, students will learn strategies for facilitating interactions between students with and without disabilities, teaching others to utilize adapted communication systems, and collaboration with varied professionals.

EDSP 210. Assessment and Evaluation in Early Childhood Special Education. 3 Units**Prerequisite(s):** Admittance to the Education Specialist Credential Program: Early Childhood Special Education**Term Typically Offered:** Fall only

Quality practices in early childhood assessment using a range of culturally appropriate tools and techniques, parent-professional-collaboration, transdisciplinary team assessment, assessment reporting and translating results into intervention planning. Participants will demonstrate skills in planning, carrying out and reporting results of assessments/evaluations for eligibility determination, program planning, and monitoring ongoing progress for infants, young children and their families.

EDSP 211. Curriculum, Intervention Strategies, and Environments in ECSE I: Infants & Toddlers. 3 Units**Prerequisite(s):** Admittance to the Education Specialist Credential Program: Early Childhood Special Education**Term Typically Offered:** Spring only

Designed to develop the skills necessary to design and implement developmentally appropriate curriculum and intervention strategies for infants and toddlers with disabilities in a range of learning environments including home, center-based and community programs.

EDSP 212. Curriculum, Intervention Strategies, and Environments in ECSE II: Preschool. 3 Units**Prerequisite(s):** Admittance to the Education Specialist Credential Program: Early Childhood Special Education**Term Typically Offered:** Fall only

Designed to develop the skills necessary to design and implementation developmentally appropriate curriculum and intervention strategies for young children with disabilities in a range of learning environments including home, center-based and community programs. Lecture.

EDSP 216. Understanding the Implications of Developmental Diversity in Children. 3 Units**Term Typically Offered:** Fall only

Using a critical disability theory perspective, examines early development of young children across developmental areas. Explores: 1) atypical development due to prenatal, perinatal, and early childhood developmental risk factors; 2) childhood development theories and how they support educators' understanding of children, families and developmentally appropriate practices; 3) service delivery models and key transitions; and 4) implications of developmental disabilities across the lifespan.

EDSP 218. Instructional Strategies: Low Incidence Disabilities. 3 Units**Prerequisite(s):** EDSP 205, EDSP 208, EDSP 414 or advisor approval**Corequisite(s):** EDSP 236, EDSP 415 or EDSP 421 or advisor approval**Term Typically Offered:** Fall, Spring

Students will learn advanced methods of assessment and instruction for students with moderate to severe and profound disabilities, and multiple disabilities. Students will learn to design assessments and work with transdisciplinary team members to write an integrated assessment report, and present the report. Students will develop IEPs/ITPs based on the transdisciplinary information, write instructional programs using research-based methods, and design methods for monitoring progress using ongoing instructional data.

EDSP 220. Language and Literacy in Inclusive Classrooms I. 3 Units**Term Typically Offered:** Fall, Spring

This course provides candidates with the evidence based principles and systematic and explicit techniques to develop phonological awareness, phonics, concepts about print, oral and written language, and word recognition strategies. Candidates will learn techniques specific to assessing a student in reading and applying the information to assist the student with reading difficulties. Accommodations and modifications for students with mild, moderate, and severe disabilities will be emphasized.

EDSP 221. Language and Literacy in Inclusive Classrooms II. 3 Units**Prerequisite(s):** EDSP 220**Term Typically Offered:** Fall, Spring

Course provides candidates with evidence based principles, systematic and explicit techniques, procedures in reading fluency, comprehension, and vocabulary development. Candidates will learn literal and higher level comprehension strategies that assist students in understanding narrative and expository text. Candidates will receive instruction on the principles, techniques, and procedures for teaching spelling, handwriting, and critical study skills. Accommodations and modifications for students with mild, moderate and severe disabilities will be emphasized.

EDSP 225A. Assessment and Evaluation for Students with Mild/Moderate Disabilities. 2 Units

Prerequisite(s): Admittance to Mild/Moderate/Severe Credential program or permission of respective special education coordinator.

Corequisite(s): EDSP 225B

Term Typically Offered: Fall, Spring

Candidates examine relationships between assessment, curriculum, and instruction through application of a variety of formal and informal assessments and curricula. Candidates administer and interpret norm-referenced, criterion-referenced, and curriculum-based instruments that assess academic achievement, social behavior, and emotional functioning. Candidates learn basic principles and strategies related to using and communicating results of a variety of assessment and evaluation approaches. Authentic assessment strategies, specifically designed to support and inform instruction, will be emphasized.

EDSP 225B. Assessment and Evaluation for Students with Mild/Moderate Disabilities Lab. 1 Unit

Corequisite(s): EDSP 225A

Term Typically Offered: Fall, Spring

Field-based practice lab (30 hours). Lab will be a synthesis and application of course content (EDSP 225A) in a setting serving students with mild/moderate disabilities.

Credit/No Credit

EDSP 229. Curriculum and Instruction Strategies for Students with Mild/Moderate Disabilities. 3 Units

Prerequisite(s): Admittance to Mild/Moderate, Moderate/Severe, Multiple Subjects, and Single Subject Credential programs or permission of respective special education advisors.

Term Typically Offered: Fall, Spring

Methods for designing and implementing instruction for students with mild/moderate disabilities. Topics include typical/atypical human development, resilience and protective factors, evidenced-based instructional strategies, designing and managing environments and materials, differentiated instruction, collaborative teaming to design and evaluate integrated services, technology (including assistive technology) to support access to general education curriculum, implementation of UDL, modifications and adaptations of state standards, components of IDEA and their implication for a multidisciplinary approach developing IEPs for special needs students included in general education classrooms.

EDSP 229B. Curriculum and Instruction Strategies for Students with Mild/Moderate Disabilities Lab. 1 Unit

Corequisite(s): EDSP 229

Term Typically Offered: Fall, Spring

Field-based practice lab (30 hours). Lab will be a synthesis and application of course content (EDSP 229) in a setting for students with mild/moderate disabilities who receive special education services.

Students will verify multiple experiences across the age-span and in inclusive settings, agencies, and other natural environments.

Credit/No Credit

EDSP 230. Positive Behavior Supports for Students with Mild, Moderate, and Severe Behavioral Challenges. 3 Units

Term Typically Offered: Fall, Spring

Comprehensive study and application of intervention strategies that enhance the quality of life for students with mild/moderate disabilities. Students will learn (a) how to design learning environments that prevent and reduce problem behaviors, (b) learn how to identify and assess problem behavior using functional behavioral assessment methods, (c) learn how to design and implement positive behavioral support interventions which are in compliance with federal IDEA law, and (d) apply behavioral procedures on a systemic, school wide basis.

EDSP 230B. Positive Behavior Supports for Students with Mild, Moderate, and Severe Behavioral Challenges Lab. 1 Unit

Prerequisite(s): Admittance into Mild/Moderate or Moderate/Severe Credential program, APE program, or permission of respective special education coordinator.

Corequisite(s): EDSP 230

Term Typically Offered: Fall, Spring

Comprehensive study and application of intervention strategies that enhance the quality of life for students with mild/moderate disabilities. Students will learn (a) how to design learning environments that prevent and reduce problem behaviors, (b) learn how to identify and assess problem behavior using functional behavioral methods, (c) learn how to design and implement positive behavioral support interventions which are in compliance with federal IDEA law, and (d) apply behavioral procedures on a systemic, school wide basis.

EDSP 232. Effective Communication and Collaborative Partnerships. 2 Units

Term Typically Offered: Fall, Spring

The content provided in this course is directed toward the preparation of pre-service and/or intern teachers of students with mild/moderate disabilities. To facilitate positive and inclusive environments, the course provides instruction in effective communication, collaboration, and consultation with individuals with disabilities and their family, primary caregivers, general/special education teachers, related service personnel, administrators, the business community and public/non-public agencies. Candidates will also be supported in the development of a Preliminary Mild/Moderate Education Specialist Portfolio.

EDSP 233. Final Student Teaching Seminar: Mild/Moderate. 1 Unit

Prerequisite(s): EDSP 232

Corequisite(s): EDSP 472 or EDSP 473

Term Typically Offered: Fall, Spring

Designed to allow the special education candidate teacher/intern to focus upon two overall issues pertaining to their specific needs: problems and resolutions particular and general to their teaching assignment and culminating portfolio development.

Credit/No Credit

EDSP 234. Directed Fieldwork Seminar: Early Childhood Special Education. 1 Unit

Prerequisite(s): Admittance to the Education Specialist Credential Program: Early Childhood Special Education
Corequisite(s): EDSP 474 or EDSP 475 or EDSP 476 or EDSP 477
Term Typically Offered: Fall, Spring, Summer

Designed to allow the ECSE teacher candidate to focus on two overall issues: Problems and resolutions particular and general to their teaching assignment, and the development and/or refining of a preliminary Level I Performance Portfolio.

Note: May be repeated for up to 2 units of credit.

Credit/No Credit

EDSP 235. Field Seminar in Program and Instruction: Mod/Severe Disabilities. 2 Units

Prerequisite(s): Admittance into Mild/Moderate or Moderate/Severe Credential program or advisor approval
Term Typically Offered: Fall, Spring

This field seminar will provide group discussion as well as direct instructional guidance in classrooms and schools in which students in the Moderate/Severe Specialist Credential or Autism Spectrum Disorders Added Authorization (ASDAA) are conducting their assignments.

EDSP 236. Student Teaching Seminar: Moderate/Severe Disabilities. 1 Unit

Prerequisite(s): EDSP 208 and EDSP 414
Corequisite(s): EDSP 218, EDSP 415 or EDSP 421 or advisor approval
Term Typically Offered: Fall, Spring

This seminar accompanies the final Student Teaching II experience. Students will meet for two hours, eight times, during the semester to discuss their experiences and problem solve any questions or challenges related to their Student Teaching II requirements. Since this is the advanced experience, it is expected that the seminar will be primarily focused on professional issues related to the collaborative implementation of effective programs for students with moderate/severe disabilities. At each meeting there will be topics for discussion generated by the professor, but also time for collaborative problem solving around specific students and program issues in the student teaching settings.
 Credit/No Credit

EDSP 237. Transition Strategies for Students with Mild/Moderate Disabilities. 3 Units

Term Typically Offered: Fall, Spring

Candidates will examine legal mandates specific to transition planning and implementation, and evaluate transitional life experiences for students with mild/moderate disabilities across the lifespan. Candidates will explore and implement social skills, and career and vocational program planning for secondary students with Mild/Moderate disabilities. Planning will include the student, community services, and other community resources such as parents and various professionals that will lead to increased student learning with career goals and objectives to support their transition to post-school settings.

EDSP 237B. Transition Strategies for Students with Mild/Moderate Disabilities Lab. 1 Unit

Corequisite(s): EDSP 237.
Term Typically Offered: Fall, Spring

Field-based practice lab (30 hours). Lab will be a synthesis and application of course content (EDSP 237) in inclusive setting for students with mild/moderate disabilities.

Credit/No Credit

EDSP 250. Education Research. 3 Units

Prerequisite(s): Advancement to Candidacy for Special Education concentration; passing WPG exam for all other concentrations.
Term Typically Offered: Fall, Spring

Studies qualitative and quantitative methods in the development of reliable knowledge in the field of education. Includes identification and formulation of research problems, research designs and presentation of reports representative of different research strategies. Classified students are encouraged to take this course early in their graduation programs.

EDSP 251. Education in a Democratic, Pluralistic Society. 3 Units

Prerequisite(s): Passing WPG exam
Term Typically Offered: Fall, Spring

Advanced study of social and psychological issues which need to be considered in education relating to the client, the educator, the community and society. Addresses implications of theories of learning, assessment, individual differences and social/political influences.

EDSP 276A. Education of Students with Emotional and Behavioral Disorders. 2 Units

Prerequisite(s): Admittance into Mild/Moderate or Moderate/Severe Credential or M.A. in Education programs and EDSP 230 or equivalent
Corequisite(s): EDSP 276B
Term Typically Offered: Fall, Spring

Concentrate on the assessment, characteristics, interventions and classroom strategies, which uniquely address the educational needs of students with emotional and behavioral disorders. Students will review current laws, policies and selected literature specific to students identified as EBD and their families. Strategies to create and promote collaborative partnerships with parents, mental health representatives and/or other service providers will be presented.

EDSP 276B. Education of Students with Emotional and Behavioral Disorders - Lab. 1 Unit

Prerequisite(s): Admittance into Mild/Moderate or Moderate/Severe Credential or M.A. in Education programs and EDSP 230 or equivalent
Corequisite(s): EDSP 276A
Term Typically Offered: Fall, Spring

Field-based practice lab (30 hours). Lab will be a synthesis and application of course content (EDSP 276A) in serving students with emotional and behavioral disorders. Students are required to participate in class visitations, agency visitations, and interviews.

EDSP 281. Critical Issues in Special Education Research and Practice. 6 Units

Prerequisite(s): Successful completion of Education Specialist Credential coursework and student teaching—Mild/Moderate Disabilities Credential, Moderate/Severe Disabilities Credential or Early Childhood Special Education Credential program

Term Typically Offered: Summer only

This course provides an introduction to Action Research in the field of special education. The overall goal is to improve teacher effectiveness in the classroom through research and develop teacher-researchers, producers and consumers of empirical knowledge. Students will develop research writing skills to understand problems of practice, critical issues, and policy in special education. The course is designed to facilitate connections between methodological paradigm and teaching practices related to doing action research and covers quantitative, qualitative, and mixed-methods research approaches.

EDSP 290. Seminar for Culminating Experiences. 3 Units

Prerequisite(s): Approval of Culminating Experience Proposal or instructor permission.

Seminar to focus on topics/elements/expectations to be included in the culminating experiences (thesis, project, or comprehensive exam). Successful completion of the course requires completion of Chapters 1 and 2 of the thesis/project and the beginning of Chapter 3 for the MA thesis/project option or an exam petition to be approved by the departmental exam committee, including annotated bibliographies and position papers on the focal topics for the MA comprehensive exam option.

EDSP 292. Teaching English Learners with Disabilities. 3 Units

Candidates will learn basic principles, strategies and procedures for teaching English Learners with disabilities. Compliance and legal issues related to English Learners identified with disabilities, including writing linguistically appropriate goals and objectives, and implementing culturally responsive strategies will be addressed. Systematic and explicit strategies for accommodating and modifying curricular materials for English Learners with disabilities in inclusive classrooms will be emphasized.

EDSP 292B. Teaching English Learners with Disabilities Lab. 1 Unit

Corequisite(s): EDSP 292

Term Typically Offered: Fall, Spring

Field-based practice lab will be a synthesis and application of course content (EDSP 292) in the implementation of culturally responsive, systematic and explicit strategies, and curricular material involved in teaching English Learners with disabilities in inclusive classrooms.
Credit/No Credit

EDSP 297. Current Issues in Special Education. 3 Units

Prerequisite(s): Passing WPG exam

Term Typically Offered: Fall, Spring

Examines current issues in special education through review of selected journal articles, presentations by guest lecturers and class discussion. Students will be required to write a series of brief position papers in professional style on selected topics.

EDSP 298. Master's Seminar in Special Education. 3 Units

Prerequisite(s): EDSP 297

Corequisite(s): EDSP 297

Term Typically Offered: Fall, Spring

Students choosing Program A for the M.A. in Education, Special Education option must register for the seminar during their final semester of study, prior to attempting the written comprehensive examination. In the seminar, students will study problems and issues associated with specialty areas as well as with the field of special education as a whole.

EDSP 299. Special Problems: Special Education. 1 - 3 Units

Term Typically Offered: Fall, Spring

Individual projects for Special Education credential candidates at graduate/credential level especially for students capable of independent study. Admission by written approval of the instructor with whom the student will be working and the Department Chair.

Note: This course may be repeated for up to 9 units of credit.

Credit/No Credit

EDSP 413. Field Experience I: Moderate/Severe Disabilities. 3 Units

Prerequisite(s): EDSP 235 or advisor approval

Term Typically Offered: Fall, Spring

Students will spend two days per week in a school where students with moderate/severe disabilities are included in general education classes and other school activities. They will be assigned both a general and special education cooperating teacher. These teachers will work with the University supervisor to make sure that the student is able to complete the assignments and required competencies. The University supervisor will observe and evaluate the practicum student at least four times during the semester. An evaluation will be completed at the end of the semester.
Credit/No Credit

EDSP 414. Field Experience II: Moderate/Severe. 3 Units

Prerequisite(s): EDSP 413 or equivalent

Term Typically Offered: Fall, Spring

The second phase of supervised field experience for specialist candidates in the Level I moderate/severe program or ASDAA program. Candidates spend 160-hours in a school setting with students who have moderate/severe disabilities. They will work directly with a qualified cooperating teacher and a University supervisor throughout a semester to complete assignments and required competencies. Assignment evaluation will be based on written and observational criteria. An evaluation will be completed at the midterm and at the end of the semester.
Credit/No Credit

EDSP 415. Student Teaching: Moderate/Severe. 5 Units

Prerequisite(s): EDSP 414

Corequisite(s): EDSP 236

Term Typically Offered: Fall, Spring

The culminating phase of field experience for specialist candidates in the Level I moderate/severe credential program. Candidates will spend 320-hours in a public school setting with students who have moderate/severe disabilities. They will work directly with a qualified mentor/cooperating teacher and a University supervisor throughout a semester to complete assignments and required competencies. Assignment evaluation will be based on written and observational criteria. An evaluation will be completed at the midterm and at the end of the semester.
Credit/No Credit

EDSP 420A. Multiple Subject Field Experience.**4 Units****Term Typically Offered:** Fall, Spring

Initial (Phase I) Multiple Subject credential student teaching, with integrated methods coursework, is a M-F, half-day fieldwork requirement. Effective Instruction and classroom management are the focus of the Initial Phase I student teaching experience. Candidates must meet the criteria for student teaching to be accepted to this course.

Note: This is a full semester student teaching experience.

Credit/No Credit

EDSP 420B. Multiple Subject Student Teaching.**5 Units****Term Typically Offered:** Fall, Spring

Final semester of a Multiple Subject credential student teaching with integrated methods coursework requires M-F, full-day participation of the student. Emphasis on classroom teaching and further experience with community services. Candidates must meet the criteria for student teaching to be accepted to this course.

Note: Approximately 300+ hours are required to meet competencies.

Credit/No Credit

EDSP 421. Intern Teaching: Moderate/Severe Disabilities.**5 Units****Prerequisite(s):** EDSP 414 and instructor approval**Corequisite(s):** EDSP 236**Term Typically Offered:** Fall, Spring

Intern teaching full day, M-F, for the semester in a host LEA/District providing services for students receiving moderate/severe special education services. Interns must meet CTC-mandated criteria and district must have an active Memorandum of Understanding with the university. Intern serves as a teacher of record and is employed by the district. Is supported by a university supervisor and an on-site mentor to make progress towards the program competencies and standards. An evaluation will be completed at the midpoint and end of the semester.

Credit/No Credit

EDSP 471. Initial Student Teaching: Mild/Moderate.**4 Units****Term Typically Offered:** Fall, Spring

Candidates will student teach half day/five days per week for the full semester in a setting that serves students with mild/moderate disabilities. Cooperating teachers will work with the University supervisor to support the candidate in completing required assignments and competencies. An evaluation will be completed at the mid point and end of the semester.

Note: Signature of credential candidates student's special education advisor is required on application for student teaching.

Credit/No Credit

EDSP 472. Student Teaching: Mild/Moderate.**5 Units****Prerequisite(s):** EDSP 471 or equivalent**Corequisite(s):** EDSP 233**Term Typically Offered:** Fall, Spring

Student teaching full day, M-F, for the semester in a cooperating LEA District providing services for students receiving mild/moderate special education. Cooperating teachers work with the University supervisor to support the candidate in completing the required assignments and competencies. An evaluation will be completed at the mid point and end of the semester. Variable units depending on instructor recommendation and individualized student and program considerations.

Note: Signature of credential candidates' special education advisor is required on application for student teaching.

Credit/No Credit

EDSP 473. Intern Teaching: Mild/Moderate Disabilities.**5 Units****Prerequisite(s):** All criteria related to recommendation for the intern credential and instructor approval**Corequisite(s):** EDSP 233**Term Typically Offered:** Fall, Spring

A credit/no credit directed internship in a district, county office of education or program serving students with mild/moderate disabilities. Candidates must meet the criteria for an internship to be accepted to this course. A University supervisor will support the candidate in completing all required competencies. An evaluation will be completed at mid point and end of the semester.

Note: Signature of credential candidates' special education advisor is required on application.

Credit/No Credit

EDSP 474. Directed Field Experience in ESCE: Infants/Toddlers.**3 Units****Prerequisite(s):** Admittance to the Education Specialist Credential Program: Early Childhood Special Education**Corequisite(s):** EDSP 234**Term Typically Offered:** Fall, Summer

Directed field experience in a cooperating school district, county office of education or appropriate privately operated program providing early intervention services for infants and toddlers and their families. Candidates must secure faculty approval by prior application for directed field experience.

Credit/No Credit

EDSP 475. Directed Field Experience in ECSE II: Preschool.**3 Units****Prerequisite(s):** Admittance to the Education Specialist Credential Program: Early Childhood Special Education**Corequisite(s):** EDS 234**Term Typically Offered:** Fall, Spring

Directed field experience in a cooperating school district or county office of education program providing special educational services for preschoolers and their families. Candidates must secure faculty approval by prior application for directed field experience.

Credit/No Credit

EDSP 476. Internship in ECSE: Infants & Toddlers. 10 Units

Prerequisite(s): Admittance to the Education Specialist Credential Program: Early Childhood Special Education

Corequisite(s): EDS 234

Term Typically Offered: Fall, Spring, Summer

Internship in a cooperating District or County Office of Education providing special educational services for infants and toddlers and their families. Candidates must meet the criteria for an internship in order to register. Students may enroll in EDSP 474, Directed Field Experience in ECSE I: Infants & Toddlers, as an alternative to EDSP 476. Ten units, approximately 320 field hours, are required to meet competencies. Credit/No Credit

EDSP 477. Internship in ECSE: Preschool. 10 Units

Prerequisite(s): Admittance to the Education Specialist Credential Program: Early Childhood Special Education

Corequisite(s): EDSP 234

Term Typically Offered: Fall, Spring

Internship in a cooperating District or County Office of Education providing special educational services for preschoolers and their families. Candidates must meet the criteria for an internship in order to register. Students may enroll in EDSP 475, Directed Field Experience in ECSE II: Preschool, as an alternative to EDSP 477. Ten units, approximately 320 field hours, are required to meet competencies. Credit/No Credit

EDSP 500. Master of Arts Thesis: Special Education. 3 Units

Prerequisite(s): Approval of Culminating Experience Proposal or instructor permission

Term Typically Offered: Fall, Spring

Completion of a thesis approved for the Master's degree.

EDSP 501. Master of Arts Project: Special Education. 3 Units

Prerequisite(s): Approval of Culminating Experience Proposal or instructor permission

Term Typically Offered: Fall, Spring

Completion of a project that integrates research with development of a product related to instruction of persons with disabilities.

Education - Single Subject (EDSS)

EDSS 279A. Method and Materials for Teaching Secondary English Learners, A. 1.5 Units

Prerequisite(s): EDUC 170; Admission to the Single Subject Credential program

Term Typically Offered: Fall, Spring

This course is the first of a two-course series. Introduces candidates to a repertoire of theory-based methods needed to facilitate and measure their own students' growth in English language development (ELD) as well as create learning environments which promote content area learning through the use of Specially Designed Academic Instruction in English (SDAIE). Candidates acquire knowledge and skills in methods of teaching a second language through readings, fieldwork, discussion, group interaction, lesson presentation, hands-on experience of methods, and materials exploration.

EDSS 279B. Methods and Materials for Teaching Secondary English Learners, B. 1.5 Units

Prerequisite(s): EDSS 279A

Term Typically Offered: Fall, Spring

Second course in a two-course series. Candidates expand their repertoire of theory-based methods to facilitate and measure their own students' growth in English language development (ELD) as well as create learning environments which promote content area learning through the use of Specially Designed Academic Instruction in English (SDAIE). Candidates deepen knowledge and skills related to methods of teaching a second language through readings, fieldwork, discussion, group interaction, lesson presentation, hands-on experience of methods, and materials exploration.

EDSS 279C. Method and Materials for Teaching Secondary English Learners, C. 1.5 Units

Prerequisite(s): EDUC 170; Admission to the Single Subject Credential Program.

The first of two-course series. Introduces candidates to theory-based methods to facilitate/measure their own students' growth in English language development and create learning environments which promote content area learning through Specially Designed Academic Instruction in English (SDAIE). Specific instruction given to develop skills in Linked Learning settings and learning activities therein. Candidates acquire knowledge/skills in methods of teaching a second language through readings, fieldwork, discussion, group interaction, lesson presentation, hands-on experience of methods, and materials exploration.

EDSS 279D. Method and Materials for Teaching Secondary English Learners, D. 1.5 Units

Prerequisite(s): EDSS 279C

Second in two-course series. Candidates expand repertoire of theory-based methods to facilitate/measure students' growth in English language development and create learning environments which promote content area learning through Specially Designed Academic Instruction in English (SDAIE). Specific instruction given to develop skills in Linked Learning settings and learning activities therein. Candidates deepen knowledge and skills related to methods of teaching a second language through readings, fieldwork, discussion, group interaction, lesson presentation, hands-on experience of methods, and materials exploration.

EDSS 299. Special Problems: Single Subject. 1 - 3 Units

Term Typically Offered: Fall, Spring

Individual projects for Single Subject credential candidates at graduate/credential level especially for students capable of independent study. Admission by written approval of the instructor with whom the student will be working and the Department Chair.
Note: This course may be repeated for up to 9 units of credit.

Credit/No Credit

EDSS 300. Teaching Performance Assessment-Single Subjects. 1 Unit**Corequisite(s):** EDTE 470B or EDSS 474B or EDTE 471A**Term Typically Offered:** Fall, Spring

Candidates in the Teacher Preparation Program must complete the Teaching Event for the Performance Assessment for California Teachers. The Teaching Event requires candidates to plan and teach an instructional sequence in their student teaching placement. They must also assess student learning during this lesson sequence and submit a videotape with material recorded during the lesson sequence. The Teaching Event is a summative assessment and one of several requirements that must be completed in order to receive a recommendation for a teaching credential.

Note: Corequisite can be waived if candidate is retaking EDSS 300

Credit/No Credit

EDSS 364A. Theoretical Foundations of Teaching in a Multicultural Democratic Society, Lecture. 1.5 Units**Prerequisite(s):** Admission to the Single Subject Credential program.**Corequisite(s):** EDSS 364B**Term Typically Offered:** Fall, Spring

An introduction to critical analysis of the purpose and process of public schooling. Examination of the sociopolitical contexts of public schools and society; educational theories, philosophies, notions of culture, community and educational practice. Engagement with sociocultural, historical and philosophical foundations of education, learning theories, theories of adolescent cognitive and social development. Modalities include lecture and discussions.

EDSS 364B. Theoretical Foundations of Teaching in a Multicultural Democratic Society, Workshop. 1.5 Units**Prerequisite(s):** Admission to the Single Subject Credential program**Corequisite(s):** EDSS 364A**Term Typically Offered:** Fall, Spring

An introduction to critical analysis of the purpose and process of public schooling. Examination of the sociopolitical contexts of public schools and society; educational theories, philosophies, notions of culture, community and educational practice. Exploration of sociocultural, historical and philosophical foundations of education. Initial application of strategies and approaches associated with learning theories, theories of adolescent cognitive and social development. Modalities include discussion, simulation and activities.

EDSS 364C. Advanced Theoretical Foundations of Teaching in a Multicultural Democratic Society, Lecture. 1.5 Units**Prerequisite(s):** Admission into the Single Subject Credential Program; EDSS 364A and EDSS 365B**Corequisite(s):** EDSS 364D**Term Typically Offered:** Fall, Spring

Further study of the purposes and processes of public schooling. Candidates develop a philosophy of education for teaching in a multicultural, multilingual, and democratic society through self-examination of dispositions related to gender, sexuality, race, social class, language, religion/spirituality and ability. Modalities include lecture and discussions.

EDSS 364D. Advanced Theoretical Foundations of Teaching in a Multicultural Democratic Society, Workshop. 1.5 Units**Prerequisite(s):** Admission into the Single Subject Credential Program; EDSS 364A and EDSS 364B**Corequisite(s):** EDSS 364C**Term Typically Offered:** Fall, Spring

Further study of the purposes and processes of public schooling. Candidates develop a philosophy of education for teaching in a multicultural, multilingual, and democratic society through self-examination of dispositions related to gender, sexuality, race, social class, language, religion/spirituality and ability. Modalities include discussions, small group tasks, group projects and simulations.

EDSS 364E. Theoretical Foundations of Teaching in a Multicultural Democratic Society, Workshop-Linked Learning. 1.5 Units**Prerequisite(s):** Admission to the Single Subject Credential program.**Corequisite(s):** EDTE 364A

Candidates explore sociocultural, historical and philosophical foundations of education with focus on context of Linked Learning and critical examination of traditional tracking and vocational education. Students will evaluate the extent to which programs aimed at Career Pathways and College Readiness depart from or replicate previous patterns and analyze historical/economic drivers that shape schooling. Initial application of strategies and approaches associated with Linked Learning theories, theories of adolescent cognitive and social development. Integration of Discussions, simulation, activities.

EDSS 364F. Theoretical Foundations of Teaching in a Multicultural Democratic Society, Workshop-Linked Learning. 1.5 Units**Prerequisite(s):** EDSS 364A and EDSS 364E**Corequisite(s):** EDSS 364C

Further study of purposes and processes of public schooling with a special focus on educational theory and practice in Linked Learning contexts. Candidates develop a philosophy of education for teaching in a multicultural, multilingual, and democratic society through self-examination of dispositions related to gender, sexuality, race, social class, language, religion/spirituality and ability. Modalities include discussions, small group tasks, group projects, simulations.

EDSS 365A. Fundamentals of Teaching, Lecture. 1.5 Units**Prerequisite(s):** Admission into Single Subject Teacher Preparation Program**Corequisite(s):** EDSS 365B**Term Typically Offered:** Fall, Spring

This course introduces the relationship between elements of teaching and instructional organization to effectively teach in culturally and linguistically diverse and inclusive secondary classrooms through the use of backwards design, Universal Design for Learning, and differentiated instruction. The focus will be grounded in a Social Justice/Multicultural paradigm. Emphasis will include students' development as a teacher, curriculum development, long and short-term planning, and specific theories for instructional practice. Lecture and Discussion.

EDSS 365B. Theoretical Foundations of Teaching in a Multicultural Democratic Society, Workshop. 1.5 Units**Prerequisite(s):** Admission into Single Subject Teacher Preparation Program**Corequisite(s):** EDSS 365A**Term Typically Offered:** Fall, Spring

This course introduces the relationship between elements of teaching and instructional organization to effectively teach in culturally and linguistically diverse and inclusive secondary classrooms through the use of backwards design, Universal Design for Learning, and differentiated instruction. The focus will be grounded in a Social Justice/Multicultural paradigm. Emphasis will be on application of theories and frameworks learned in EDSS 365A, with a focus on students' development as a teacher, curriculum development, long and short-term planning, and assessing student learning. Discussion, small group work and simulations.

EDSS 365C. Advanced Fundamentals of Teaching, Lecture. 1.5 Units**Prerequisite(s):** EDSS 365A and EDSS 365B**Corequisite(s):** EDSS 365D**Term Typically Offered:** Fall, Spring

Extends learning in EDSS 365A or EDSS 365B with deeper examination of the relationship between elements of teaching and instructional organization needed to effectively teach in culturally and linguistically diverse and inclusive secondary classrooms through the use of backward design, Universal Design for Learning, differentiated instruction and assessment. The focus will be grounded in a Social Justice/Multicultural paradigm. Emphasis will include students' development as teacher through exploration of curriculum development frameworks, long-and short-term planning approaches, specific theories for instructional practice and assessment. Lecture and discussion.

EDSS 365D. Advanced Fundamentals of Teaching, Workshop. 1.5 Units**Prerequisite(s):** EDSS 365A and EDSS 365B**Corequisite(s):** EDSS 365C**Term Typically Offered:** Fall, Spring

Extends learning in EDSS 365A, B and C by deepening knowledge about the relationship between elements of teaching and instructional organization. Focus on effective teaching for culturally and linguistically diverse and inclusive secondary classrooms through the use of backward design, Universal Design for Learning, differentiated instruction and assessment. Instructional framework will be grounded in a Social Justice/Multicultural paradigm. Emphasis will include students' development as a teacher including application of curriculum development theories, long-and short-term planning frameworks and specific theories for instructional practice and assessment. Discussion, small group work and simulations.

EDSS 365E. Fundamentals of Teaching, Workshop - Linked Learning. 1.5 Units**Prerequisite(s):** Admission to the Single Subject Teacher Preparation program**Corequisite(s):** EDTE 365A

This is the first course in a two course series; practice using instructional planning frameworks (e.g., backwards design, Universal Design for Learning, and differentiated instruction) and a Social Justice/Multicultural Education paradigm to design learning segments for culturally and linguistically diverse students. Emphasis on application of theories and frameworks learned in EDTE 365A, with a focus on Linked Learning curriculum development and integration, long- and short-term planning, and assessing student learning. Discussion, small group work, simulations.

EDSS 365F. Fundamentals of Teaching, Workshop - Linked Learning. 1.5 Units**Prerequisite(s):** EDSS 365A and EDSS 365E**Corequisite(s):** EDSS 365C

The second course in a two-course series. Deepens candidates' ability to apply frameworks for effective teaching of culturally and linguistically diverse students (e.g., inclusion strategies, backwards design, Universal Design for Learning, differentiated instruction and assessment). Continued emphasis on a Social Justice/Multicultural Education paradigm, and focus on candidates' development as a teacher. Application of Linked Learning curriculum development, long- and short-term planning frameworks, and specific theories for instructional practice and assessment. Discussion, small group work, simulations.

EDSS 366A. Single Subject Seminar, A. 3 Units**Prerequisite(s):** Acceptance into Single Subject Teacher Credential program**Corequisite(s):** EDSS 474A**Term Typically Offered:** Fall, Spring

First part of a 2-course sequence that provides structured opportunities for student teachers to discuss, analyze, and reflect upon data gathered from their field placements. Attention given to policies, school law, resources, strategies, routines, and activities that contribute to the productive management of the school and classroom as locations for student engagement and learning. Special emphasis will be on English Language Development and students with special needs. Course assignments and activities are integrated with other core courses. Credit/No Credit

EDSS 366B. Single Subject Seminar, B. 3 Units**Prerequisite(s):** EDSS 366A**Corequisite(s):** EDSS 474B or EDTE 471A/ EDTE 471B**Term Typically Offered:** Fall, Spring

Second part of a two-part sequence that provides opportunities for student teachers to discuss, analyze, reflect upon data gathered from field placements and to support completion of PACT teaching event. Attention given to policies, school law, resources, strategies, routines and activities that contribute to productive environments in school and classrooms as locations for student engagement and learning. Special emphasis will be on English Language Development and students with special needs. Course assignments and activities are integrated with other core courses. Credit/No Credit

<p>EDSS 366C. Single Subject Seminar, C. 3 Units Prerequisite(s): Admission to the Single Subject Credential program Corequisite(s): EDSS 474A First of two-course sequence. Provides structured opportunities for candidates to discuss, analyze, and reflect upon data gathered from field. Attention given to policies, school law, resources, strategies, routines, and activities that contribute to productive management of school and classroom as locations for student engagement/learning. Special emphasis on English Language Development, students with special needs, and specific management and implementation of Linked Learning activities (e.g. multidisciplinary integrated units of study). Course assignments/activities integrated with other core courses. Credit/No Credit</p>	<p>EDSS 373B. Educational Technology Lab II. 1 Unit Prerequisite(s): EDSS 373A Term Typically Offered: Fall only This course will offer support and instructions of facilitating and improving learning of a diverse student population by creating, using, and managing appropriate technological processes and resources. The candidates will learn applying and developing knowledge of technology in K-12 teaching and student learning. The candidates are prepared to use technology in the Teaching Credential Program and for the development of an electronic portfolio. Credit/No Credit</p>
<p>EDSS 366D. Single Subject Seminar, D. 3 Units Prerequisite(s): EDSS 366C Corequisite(s): EDSS 474B Second of two-course series. Provide structured opportunities for candidates to discuss, analyze, reflect upon data gathered from field; support completion of TPA. Further study of policies, school law, resources, strategies, routines, and activities needed for productive environments in classrooms as locations for student engagement/learning. Special emphasis on English Language Development, students with special needs, and specific management/implementation of Linked Learning activities (e.g. multidisciplinary integrated units of study). Course assignments/activities integrated with other core courses. Credit/No Credit</p>	<p>EDSS 373C. Educational Technology Lab - Linked Learning. 1 Unit Prerequisite(s): Admission to the Single Subject Credential program This course encompasses the knowledge, skills and dispositions needed to understand, describe and develop "technological, pedagogical content knowledge" for effective pedagogical practice in a technology enhanced learning environment. Instruction occurs through labs, online resource center and individualized support. Candidates develop a range of technology skills and knowledge needed for effective instruction in the Linked Learning classroom and provides technology resources associated with project-based learning and integrated curricular units. Credit/No Credit</p>
<p>EDSS 368. Inclusive Education in Secondary Schools. 1 Unit Prerequisite(s): Admission to the Single Subject Credential Program Term Typically Offered: Fall, Spring Candidates learn historical, theoretical, and practical information related to key issues facing secondary public schooling currently, including how to educate learners with special needs, differentiate instruction in the content areas, develop assessments that fairly and accurately measure student learning, and use universal design to structure classroom and school practices, processes and policies to maximize access to core content for all students, regardless of language or ability. Lecture and discussion.</p>	<p>EDSS 383A. Methods in English Education, A. 1.5 Units Prerequisite(s): Admission to the teacher preparation program Corequisite(s): EDSS 474A Term Typically Offered: Fall, Spring A critical course for English teaching preparation, educational experiences will promote understandings, attitudes and competencies necessary for effective instruction in English Language Arts and literacy in grades 7-12. Candidates acquire skills related to literacy assessment, text selection, and lesson/unit planning designed to meet the needs of all learners, including mainstream populations, English learners and students with special needs. Students are provided with opportunities to acquire skills, knowledge, practice, and experience planning for and teaching secondary English language arts and literacy. Lecture and discussion.</p>
<p>EDSS 373A. Educational Technology Lab I. 1 Unit Prerequisite(s): Admission to the Single Subject Credential Program. Term Typically Offered: Fall, Spring Educational technology lab course will prepare the candidates use technology for three areas: coursework in the teaching credential program, enhancing teaching and learning and eportfolio development. The candidates are introduced to an array of digital technologies for teaching relevant for K-12 student learning. The candidates are also prepared to use technology in the Teaching Credential Program and for the development of an electronic portfolio. Credit/No Credit</p>	<p>EDSS 383B. Methods in English Education, B. 1.5 Units Prerequisite(s): EDSS 383A Corequisite(s): EDSS 474B Term Typically Offered: Fall, Spring A critical course for English teaching preparation, educational experiences will promote understandings, attitudes and competencies necessary for effective instruction in English Language Arts and literacy in grades 7-12. Candidates acquire skills related to literacy assessment, text selection, and lesson/unit planning designed to meet the needs of all learners, including mainstream populations, English learners and students with special needs. Students are provided with opportunities to acquire skills, knowledge, practice, and experience planning for and teaching secondary English language arts and literacy. Lecture and discussion. Note: This course is the second in a two course series</p>

EDSS 384A. Instruction and Assessment of Academic Literacy, A. 1.5 Units

Prerequisite(s): Admission to the Single Subject Teacher Credential Program

Corequisite(s): EDSS 474A

Term Typically Offered: Fall, Spring

Introduction to foundational understandings, attitudes and competencies necessary for effective instruction of academic language and literacy in 7-12 content area classrooms. Candidates acquire skills related to literacy assessment, text selection, and lesson planning designed to meet the needs of all learners, including mainstream population, English learners and students with special needs. Candidates develop an awareness of what constitutes effective content literacy instruction and a beginning repertoire of strategies to help students meet the demands of content reading, writing and discussion. Lecture and discussion.

EDSS 384B. Instruction and Assessment of Academic Literacy, B. 1.5 Units

Prerequisite(s): EDSS 384A

Corequisite(s): EDSS 474B

Term Typically Offered: Fall, Spring

Second course in a two course series on understanding effective instruction of academic language and literacy in 7-12 content area classrooms. Candidates hone skills in literacy assessment, text selection, and lesson planning to meet the needs of all learners, including mainstream populations, English learners and students with special needs. Application of content literacy instruction (pre, during and post reading and writing strategies). Enhanced knowledge of strategies to support students' attainment of the demands of content reading, writing and discussion. Lecture, discussion.

EDSS 385A. Methods in World Language Education, A. 1.5 Units

Prerequisite(s): Admission into the Single Subject Teacher Credential Program

Corequisite(s): EDSS 474A

Term Typically Offered: Fall, Spring

This course is designed for candidates who are preparing to teach world languages in secondary school settings in California public schools. Candidates will learn about current theoretical bases for second-language acquisition and how such theories inform classrooms practice. Candidates have introductory opportunities to practice principles of learning from which teachers can draw as they make decisions about instruction. Lecture, discussion and simulation.

Cross Listed: WLL 385A; only one may be counted for credit.

EDSS 385B. Methods in World Language Education, B. 1.5 Units

Prerequisite(s): EDSS 385A or WLL 385A

Corequisite(s): EDSS 474B

Term Typically Offered: Fall, Spring

This course continues learning initiated in EDSS 385A and is designed for candidates who are preparing to teach world languages in secondary school settings in California public schools. Candidates will learn additional methodologies for planning and delivering instruction in world languages. Candidates will practice instructional strategies and will design lessons. Candidates will implement assessments that capture student learning of key world language outcomes, including oral language and written language development and reading fluency. Strategies for teaching cultural appreciation are also embedded. Lecture, discussion and simulation.

Cross Listed: WLL 385B; only one may be counted for credit.

EDSS 386A. Methods in Mathematics Education, A. 1.5 Units

Prerequisite(s): Admission to Single Subject Teacher Credential Program

Corequisite(s): EDSS 474A

Term Typically Offered: Fall, Spring

First part of a two-course sequence that provides instruction to organize instructional materials, techniques of presentation and methods of evaluation for secondary school mathematics. Articulated with student teaching and should be taken the same semester. Activities include discussions, presentations and demonstrations.

EDSS 386B. Methods in Mathematics Education, B. 1.5 Units

Prerequisite(s): EDSS 386A

Corequisite(s): EDSS 474B

Term Typically Offered: Fall, Spring

Second part of a two-course sequence that provides continuation of organization of instructional materials, techniques of presentation and methods of evaluation for secondary school mathematics. Articulated with student teaching and should be taken the same semester.

EDSS 387A. Methods in History/Social Science Education, A. 1.5 Units

Prerequisite(s): Admission into the Single Subject Teacher Credential Program

Corequisite(s): EDSS 474A

Term Typically Offered: Fall, Spring

First of a two-part field and lecture-based course which will prepare candidates to teach history-social science content and analysis skills to secondary students, particularly those who are culturally and linguistically diverse, have special needs, or are English learners. Focus on identifying and evaluating curricular resources and instructional strategies that emphasize the active use of critical thinking skills and the development of civic values for informed participation in a democratic society.

EDSS 387B. Methods in History/Social Science Education, B. 1.5 Units

Prerequisite(s): EDSS 387A

Corequisite(s): EDSS 474B

Term Typically Offered: Fall, Spring

Second of a two-part field and lecture-based course which will prepare candidates to teach history-social science content and analysis skills to secondary students, particularly those who are culturally and linguistically diverse, have special needs, or are English learners. Focus on implementing curriculum and instructional strategies and assessing student mastery of grade-level content and skills that are central to history-social science disciplines.

EDSS 388A. Methods in Science Education, A. 1.5 Units

Prerequisite(s): Admission to Single Subject Teacher Credential Program

Corequisite(s): EDSS 474A

Term Typically Offered: Fall, Spring

First part of a two-course sequence that provides introduction to organization of instructional materials, techniques of presentation, and methods of evaluation for secondary school science. Articulated with student teaching and should be taken the same semester. Activities include discussion, presentations and demonstrations.

EDSS 388B. Methods in Science Education, B. 1.5 Units**Prerequisite(s):** EDSS 388A**Corequisite(s):** EDSS 474B**Term Typically Offered:** Fall, Spring

Second part of a two-course sequence that provides introduction to organization of instructional materials, techniques of presentation, and methods of evaluation for secondary school science. Articulated with student teaching and should be taken the same semester. Activities include discussion, presentations and demonstrations.

EDSS 401. Observation and Participation in Secondary Classrooms. 2 Units**Prerequisite(s):** Admission to Teacher Preparation Program

Teacher candidates will observe and participate as teaching assistants in public school secondary classrooms.

Credit/No Credit

EDSS 440. Work-Based Learning Field Experience. 2 Units**Prerequisite(s):** Admission to the Single Subject Credential program

This fieldwork course focuses on the work-based learning core component of Linked Learning/Career Pathways. After an orientation to work-based learning, its function in Linked Learning/Career pathways, and how it can be integrated into core curriculum, candidates will experience a non-paid, one-week internship at a worksite associated with one of the 15 major CA industries. Candidates develop work-based knowledge and experiences to be applied when they create a subject-specific curricular unit incorporating their work-based learning. Fieldwork, discussion.

EDSS 470A. Field Experience: Secondary. 6 Units**Prerequisite(s):** Acceptance into the Sacramento State Single Subject Teaching Credential Program.**Term Typically Offered:** Fall, Spring

Provides candidates with field experiences of increasing complexity and responsibility as they engage in cycles of teaching. Public school assignment in a secondary school serving culturally and linguistically diverse community for one university semester with three periods of responsibility: English learner class, single subject content class, and an observation/consultation period. Observations and supervised teaching experiences will be systematic and structured.

Credit/No Credit

EDSS 470B. Student Teaching: Secondary. 12 Units**Term Typically Offered:** Fall, Spring

Provides candidates with field experiences of increasing complexity and responsibility as they engage in cycles of teaching. Experiences will be systematic and structured. Student teachers will be placed for the public school's semester at a school serving linguistically and culturally diverse students. Candidates become more independent with primary responsibility for cycle of teaching with equivalent of three periods supervised teaching and one consultation period.

Credit/No Credit

EDSS 471A. Elementary Physical Education Student Teaching. 5 Units**Prerequisite(s):** Acceptance into the Sacramento State Single Subject Teaching Credential Program.**Term Typically Offered:** Fall, Spring

The elementary physical education teacher will be placed in a setting where he/she is able to plan, implement, promote and assess a developmentally appropriate physical education program that meets the diverse needs, interests and abilities of elementary school children, K-6.

Credit/No Credit

EDSS 471B. Secondary Physical Education Student Teaching. 4 Units**Prerequisite(s):** The successful completion of EDTE 471A.**Term Typically Offered:** Fall, Spring

The secondary physical education student teacher will be placed in a setting where he/she is able to plan, implement, promote and assess a developmentally appropriate physical education program that meets the diverse needs, interests and abilities of secondary school children, 6-12.

Credit/No Credit

EDSS 474A. Field Experiences in Secondary Schools. 3 Units**Prerequisite(s):** Admission into the Single Subject Teaching Credential Program**Term Typically Offered:** Fall, Spring

Provides candidates with field experiences of increasing complexity and responsibility as they engage in cycles of teaching. Public school assignment in a secondary school serving culturally and linguistically diverse community for one university semester with three periods of responsibility: English learner class, single subject content class and an observation/consultation period. Observations and supervised teaching experiences will be systematic and structured.

Credit/No Credit

EDSS 474B. Student Teaching in Secondary Schools. 4 Units**Prerequisite(s):** EDSS 474A; all subject matter competence and basic skills requirements met, per CTC program standards**Term Typically Offered:** Fall, Spring

Candidates engage in student teaching, taking on tasks of increasing complexity and responsibility as they perform cycles of teaching. Student teaching will be systematic and structured. Student teachers will be placed for the public school's semester at a school serving linguistically and culturally diverse students. Candidates become more independent with primary responsibility for cycle of teaching with equivalent of three periods supervised teaching and one consultation period.

Credit/No Credit

Educational Leadership and Policy Studies (EDLP)

EDLP 200. Diversity and Equity in Educational Leadership. 3 Units**Term Typically Offered:** Fall, Spring

The primary objective of this course is to prepare future education administrators to lead for a just, equitable, and inclusive education in all educational environments.

EDLP 200A. Diversity and Equity in Educational Leadership. 3 Units**Term Typically Offered:** Fall, Spring

Primary objective is to provide a learning environment conducive to the development of knowledge, understanding and skills consistent with Multicultural Education and pluralistic philosophy. It will examine the advantages and complexities of a strategic approach to school and community relationships. Content will focus on public policy formation; community education role of culturally and linguistically diverse groups; current recommendations and emerging issues as they relate to the role of the school, family, and community in the ongoing debate of school reform.

EDLP 201. Foundations of Educational Leadership. 3 Units Term Typically Offered: Fall, Spring	EDLP 205A. Curriculum and Instructional Leadership in K-12 Schools. 3 Units
<p>An introduction to theory and practice of educational leadership at the local, state, and federal levels. Specifically, students will examine strategies and techniques to effectively lead schools and other educational settings in the 21st century.</p>	<p>Prerequisite(s): EDLP 201 Term Typically Offered: Fall, Spring</p>
EDLP 201A. Foundations of Educational Leadership. 3 Units Term Typically Offered: Fall, Spring	<p>Focuses on the significance of instructional leadership in the design and implementation of curriculum leading to high achievement for all students in K-12 schools. Particular attention will be given to current state and federal school accountability requirements, standards-based curriculum, the use of disaggregated student achievement data to design an instructional program appropriate to and effective for a diverse student population, and best research-based instructional practices.</p>
<p>Introduction to theory and practice of educational administration at the local, state, and federal levels including but not limited to the structure and function of administration, organizational behavior, interpersonal relationships, trends affecting contemporary practice, and the changing nature of school reform. Designed to encourage introspection and the reflective process to examine students' values, beliefs and needs. Students will examine strategies for integrating new information and experiences into their evolving professional knowledge base. Note: May be taken twice for credit (Adm Credential Interns).</p>	<p>EDLP 206A. Supervision and Leadership. 3 Units Prerequisite(s): Admission to the Educational Leadership Program and instructor permission. Term Typically Offered: Fall, Spring</p>
EDLP 202. School Law and Ethics of Educational Leadership. 3 Units Term Typically Offered: Fall, Spring	<p>Supervisory theory and technique, including assessment of educational innovations, supervision of teaching, development of strategies for in-service programming, and the roles of various groups and individuals in the improvement of instruction.</p>
<p>The study of school law and ethical decision making as it applies to school leadership including federal and state decisions affecting the educational setting.</p>	<p>EDLP 208A. School Leadership/Management. 3 Units Prerequisite(s): Admission to the Educational Leadership Program Term Typically Offered: Fall, Spring</p>
<p>EDLP 202A. Legal Basis of Education. 3 Units Prerequisite(s): Admission to the Educational Leadership Program and instructor permission. Term Typically Offered: Fall, Spring</p>	<p>Examination, synthesis, and application of contemporary leadership/management theory and processes at the site or unit level; consideration given to the expanding roles and current requirements in the administration of educational enterprises. Lecture three hours per week.</p>
<p>Study of school law as set forth in the common law, state, and federal constitutions, statutes, judicial decisions, and in the rules and regulations of state departments and local units of administration.</p>	<p>EDLP 209. Organizational Systems and Human Resources. 3 Units Term Typically Offered: Fall, Spring</p>
EDLP 203. Foundations of Educational Leadership. 3 Units Term Typically Offered: Fall, Spring	<p>Students will engage in examination, synthesis, and application of human resources and management practices necessary to effectively serve as school leader in P-12 educational setting.</p>
<p>School finance with focus on the State of California school system.</p>	<p>EDLP 209A. Human Resources and Supervision. 3 Units Term Typically Offered: Fall, Spring</p>
<p>EDLP 203A. Financial Resources Planning and Allocation. 3 Units Prerequisite(s): EDLP 201 Term Typically Offered: Fall, Spring</p>	<p>Examines human resources and personnel practices in educational organizations. Key themes and issues in personnel will be presented with broad assumptions regarding dominant practices and their application to establishing positive human relations.</p>
<p>School finance and business administration with focus on the California school system.</p>	<p>EDLP 221. Foundations in Higher Education Leadership. 3 Units Prerequisite(s): Admission to the Master of Education: Higher Education Leadership Option. Term Typically Offered: Fall, Spring</p>
<p>Instructional leadership that focuses on the diverse needs of students through the collection and analysis of data, state standards, accountability systems and culturally relevant pedagogy. Theory and practice will be explored on the best practice of supervisory techniques, classroom observation, and teacher improvement.</p>	<p>Analyzes higher education including its historical, political, philosophical and social aspects with emphasis upon the implications of crucial issues for leaders in higher education. An examination of the historical origins of contemporary practices and discourse and an analysis of the complex relationships between society and institutions of higher education: patterns of governance and coordination; diversity; overview of organizational and administrative structure; faculty; curriculum; student affairs, policy, and demographic trends.</p>

EDLP 222. Diversity in Higher Education. 3 Units

Prerequisite(s): Admission to the Master of Education: Higher Education Leadership Option.

Term Typically Offered: Fall, Spring

Engages participants in a process of inquiry and reflection through self-critique, peer critique, and the dialogical examination of our assumptions, ideas, and understandings that promote intellectual growth. Participants will examine and discuss the literature, research, and discourse concerning theory, policy, and practice about diversity and its relation to higher education.

EDLP 223. Advanced Seminar: Student Affairs Leadership. 3 Units

Prerequisite(s): Admission to the Master of Education: Higher Education Leadership Option.

Term Typically Offered: Fall, Spring

Administration of student services and student affairs in colleges and universities. Principles that guide professional practice and decision making will be explored, as will the roles and responsibilities of student affairs professionals. Students will have the opportunity to explore current and future issues and directions in student services.

EDLP 224. Advanced Seminar: Dynamics of Organizational Change. 3 Units

Term Typically Offered: Fall, Spring

Students will engage in examination, synthesis, and application of theories of change, organizational problem solving, planning and evaluation and change management. An exploration of administrative roles and responsibilities.

EDLP 225. Advanced Seminar: Ethical Decision Making. 3 Units

Prerequisite(s): Admission to the Master of Education: Higher Education Leadership Option.

Term Typically Offered: Fall, Spring

Links analysis with action through a survey of the ethical, legal, and professional issues facing the public or private education administrator. Underlying decision making is to understand the basic nature of the academic enterprise and apply social and moral values to the management of higher education and ethical decision making.

EDLP 226. Workforce Development Professional Competencies. 3 Units

Term Typically Offered: Fall, Spring

Explores the foundational and professional competencies of workforce education and development in the context of educational institutions, business and industry, government, NGOs, and economic development at the national and local/regional level. Introduces the field and practice of human resource development in the workplace.

EDLP 227. Leading the Way for Student Success: Student and Instructional Services. 3 Units

Term Typically Offered: Fall, Spring

Participants will explore changing demographics, accountability regarding statewide mandates, reporting regulations, and accreditation, new technology and other factors impacting California's community college student services programs and professionals. Gain an understanding of the philosophy and mission of student services initiatives and programs and student development theory. Examine the role of faculty as leaders in curriculum, instruction and assessment and student success. Understand the purposes and uses of research and technology to address student outcomes, teaching and learning, institutional effectiveness, and decision-making.

EDLP 228. Innovative Leadership: Strengthening Organizational Capacity. 3 Units

Term Typically Offered: Fall, Spring

California higher education leaders are presented with increased legislative and public pressure for accountability while in an era of chronic and disparate under-funding of the system. Understand the relationship between higher education finance and the overall fiscal operations of California's higher education systems.

EDLP 229. Adult Education and Learning. 3 Units

Term Typically Offered: Fall, Spring

Explores the historical and philosophical foundations of the field of adult education and learning. Contemporary applications of adult learning theories and practices are explored to provide a broad understanding of andragogy (the art and science of teaching adults) and how it relates to workforce development and other related fields (e.g., career and technical education, human resource development).

EDLP 230. Master of Arts Thesis/Project Seminar. 3 Units

Prerequisite(s): EDLP 250 and advancement to candidacy.

Term Typically Offered: Fall, Spring

This individualized seminar is designed to extend research knowledge, and provide direction in the use of library/professional education resources, as well as exposure to sample theses and projects using APA style. Reviews research methods and a review of the literature and provides instruction in the appropriate academic writing style and format for academic presentations.
Credit/No Credit

EDLP 250. Education Research. 3 Units

Prerequisite(s): Admission into the EDLP Program.

Term Typically Offered: Fall, Spring

Studies qualitative and quantitative methods in the development of reliable knowledge in the field of education. Includes identification and formulation of research problems, research designs and presentation of reports representative of different research strategies. Establishes and improves students' professional and academic writing skills in preparation for leadership duties. Classified students are encouraged to take this course early in their graduate programs.

Note: Graduate Writing Intensive (GWI) course.

EDLP 255. Field Experience Seminar. 3 Units

Prerequisite(s): Completion of 12 units including EDLP 200, EDLP 201, and either EDLP 205 or EDLP 206A for Preliminary Administrative Services Internship Credential students only.

Corequisite(s): EDLP 401 and/or EDLP 402 for Administrative Services Credential students only.

Term Typically Offered: Fall, Spring

Experience and practice in observation and analysis of school environment, including disaggregated student achievement data.

Note: Intern Students are allowed to take class twice and can take course concurrently with EDLP 401 and EDLP 402.

Credit/No Credit

EDLP 270. Advanced Seminar: Applied Leadership and Staff Teambuilding. 3 Units

Prerequisite(s): Graduate level status within the School of Education and instructor permission.

Term Typically Offered: Fall, Spring

Develop a comprehensive theoretical/conceptual framework from which to view current research surrounding Organizational Leadership and Staff Teambuilding. Special emphasis will be on providing students with experiential learning activities beyond the classroom and incorporate challenging outdoor components. Students will develop a resource portfolio relevant to their unique work situations.

EDLP 273. Advanced Seminar: Grants, Proposals and Systematic Planning. 3 Units

Term Typically Offered: Fall, Spring

Systematic planning theory and skills with particular attention to use of these skills in the development of grant proposals. Students will use funding agency regulations and guidelines relative to program development and implementation, and will develop a proposal which may be submitted to a funding agency.

Credit/No Credit

EDLP 277. Advanced Seminar: Assessment. 2 Units

Prerequisite(s): Admitted into the Professional Administrative Credential.

Term Typically Offered: Fall, Spring

Engage participants in a process of ongoing assessment of their administrative practice as school leaders. Such ongoing assessment uses multiple points of data, multiple sources of information, and multiple feedback sources such as colleagues and mentors.

Credit/No Credit

EDLP 286. Advanced Seminar: Supervision and Leadership. 3 Units

Prerequisite(s): Admission to the Educational Leadership Program, EDLP 206A, instructor permission.

Term Typically Offered: Fall, Spring

Through lecture and discussion, philosophical and practical problems of supervision of instruction will be explored. Current research on effective teaching, staff development, supervisory techniques, and theories of learning for both students and adults will be examined as a basis for sound supervision practices.

EDLP 292. Advanced Seminar: Current Topics in Educational Leadership and Policy Studies. 3 Units

Term Typically Offered: Fall, Spring

Selected current topics of concern to those involved with the administration of schools and other educational systems.

Credit/No Credit

EDLP 293. Induction Seminar. 2 Units

Term Typically Offered: Fall, Spring

Induction Seminar leads to the training experience of the Professional Administrative Services Credential candidate. Facilitates the interaction among candidate, district mentor, and university advisor, per standards of the Commission on Teaching Credentialing. Through guided practice, candidates are prompted and supported in developing an individualized induction plan. This induction plan includes mentoring, academic program at the university and non-campus components.

Credit/No Credit

EDLP 296A. Capstone Research Project. 3 Units

Prerequisite(s): Advancement to Candidacy

Each student conducts an individual project to fulfill the culminating experience graduation requirement. The course covers application of research in education to the professional practice of educational leadership, and integrates the accumulated knowledge, skills and strategies delivered in the program. This course is the culmination of the MA in Educational Leadership/Higher Education Leadership, leading to completion of the final project and the 4-semester degree.

Credit/No Credit

EDLP 296D. Leading with Technology in Institutions of Higher Education. 3 Units

Prerequisite(s): Admissions to the Master's of Education: Higher Education Leadership Option.

Term Typically Offered: Fall, Spring

Geared specifically to meet the needs of those leaders in higher education. Those new to technology or those who want to learn more about using technology to lead programs and institutions of high education. Participants will be provided with an array of appropriate educational technology resources to drive decision making practices. They will also learn various programs and software used to address enrollment management, admissions, records, fiscal matters, etc.

EDLP 299. Special Problems Educational Leadership. 1 - 4 Units

Term Typically Offered: Fall, Spring

Individual projects or directed reading.

Note: Departmental petition required. Professional Credential Students only may take up to 8 units.

Credit/No Credit

EDLP 299T. Special Problems - Educational Leadership. 3 Units

Term Typically Offered: Fall, Spring

Individual projects or directed reading - for students working on their culminating MA requirements.

Note: Departmental petition required.

Credit/No Credit

EDLP 401. Internship On-the-Job Experience. 8 Units

Term Typically Offered: Fall, Spring

First semester of the on-the-job internship experience. Interns are supervised in the administrative roles by sponsoring employing agency, as well as by university faculty. Limited to, and required of, internship candidates for the Preliminary Administrative Services Internship Credential.

Credit/No Credit

EDLP 402. Internship On-the-Job Experience. 8 Units

Term Typically Offered: Fall, Spring

Second semester of the on-the-job internship experience. Interns are supervised by sponsoring employing agency, as well as by university sponsors. Limited to, and required of, candidates for the Preliminary Administrative Services Internship Credential.

Credit/No Credit

EDLP 403. Internship On-the-Job Experience. 8 Units

Corequisite(s): EDLP 413.
Term Typically Offered: Fall, Spring

Third semester of the on-the-job experience for candidates who have not completed their credential requirements during the first year of internship. (Refer to EDLP 401.) Limited to, and required of, candidates for the Preliminary Administrative Services Internship Credential.
 Credit/No Credit

EDLP 404. Internship On-the-Job Experience. 8 Units

Corequisite(s): EDLP 414.
Term Typically Offered: Fall, Spring

Fourth semester of the on-the-job internship experience. (Refer to EDLP 403.)
 Credit/No Credit

EDLP 413. Supplemental Internship Experience. 6 Units

Corequisite(s): EDLP 403.
Term Typically Offered: Fall, Spring

Third semester of the supplemental internship experience. Provides first-hand visitations and experiences in various educational and community agencies at state, county, district, and local school levels; additional supervised experience for candidates; and seminar experiences in observation and analysis of school environments for candidates for the Preliminary Administrative Services Internship Credential.
 Credit/No Credit

EDLP 414. Supplemental Internship Experience. 6 Units

Corequisite(s): EDLP 404.
Term Typically Offered: Fall, Spring

Fourth semester of the supplemental internship experience. Provides first-hand visitations and experiences in various educational and community agencies at state, county, district, and local school levels; additional supervised experience for candidates; and seminar experiences in observation and analysis of school environments for candidates for the Preliminary Administrative Services Internship Credential.
 Credit/No Credit

EDLP 495A. Field Study in Educational Leadership. 3 Units

Prerequisite(s): Admission to Educational Leadership Program; completion of twelve (12) units of EDLP coursework, including EDLP 255; approval of faculty advisor.
Term Typically Offered: Fall, Spring

On-the-job experience in which the candidate assumes responsibility for observation and analysis of school environments including leadership responsibilities, supervision of instructional program, and overall school climate.
 Credit/No Credit

EDLP 495B. Field Study in Educational Leadership. 3 Units

Prerequisite(s): EDLP 495A
Term Typically Offered: Spring only

Students will participate in leadership driven field experience at a TK-12 educational setting. The leadership activities will be purposefully planned to ensure the student engages in work that supports their learning as a future/current leader while simultaneously supporting the educational setting with their initiatives.
 Credit/No Credit

EDLP 498. Advanced Administrative Field Experience. 8 Units

Prerequisite(s): Admission to Professional Administrative Services Credential Program and full-time employment as a school administrator.
Term Typically Offered: Fall, Spring

Candidates for the Professional Administrative Services Credential are supervised in full-time administrative roles by sponsoring employment agency and university faculty.
 Credit/No Credit

EDLP 500A. Master of Arts Thesis/Project. 3 Units

Prerequisite(s): Advanced to candidacy and chair permission of his/her thesis or project committee.
Term Typically Offered: Fall, Spring

Completion of a thesis or project approved for the Master's degree.

EDLP 500B. Master of Arts Thesis/Project. 3 Units

Prerequisite(s): Advanced to candidacy and chair permission of his/her thesis or project committee.
Term Typically Offered: Fall, Spring

Completion of a thesis or project approved for the Master's degree.

Electrical and Electronic Engineering (EEE)

EEE 64. Introduction to Logic Design. 4 Units

Prerequisite(s): CSC 15 or CSC 25 or ENGR 50
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Covers the following topics: logic gates, binary number system, conversion between number systems, Boolean algebra, Karnaugh maps, combinational logic, digital logic design, flip-flops, programmable logic devices (PLDs), counters, registers, memories, state machines, designing combinational logic and state machines into PLDs, and basic computer architecture. Lab emphasizes the use of software equation entry design tools, the use of a schematic entry, and the use of a logic simulation design tool. Lab assignments are design-oriented.
 Cross Listed: CPE 64; only one may be counted for credit.

EEE 64W. Introduction to Logic Design Workshop. 1 Unit

Corequisite(s): EEE 64.
Term Typically Offered: Fall, Spring

Assists students in developing a more thorough understanding of logic simulation and logic design. Focus is on problem solving and design. Activity two hours. Lecture three hours; laboratory three hours.
 Cross Listed: CPE 64W; only one may be counted for credit.

Credit/No Credit

EEE 108. Electronics I. 3 Units

Prerequisite(s): EEE 117.
Corequisite(s): EEE 108L.
Term Typically Offered: Fall, Spring, Summer

Introduction to electronics, ideal OP-AMPS, BJTs, FETs, DC biasing, VI characteristics, single stage amplifiers, low frequency small signal models, power supplies and voltage regulation. PSPICE required.

<p>EEE 108L. Electronics I Laboratory. 1 Unit Prerequisite(s): EEE 117, EEE 117L. Corequisite(s): EEE 108. Term Typically Offered: Fall, Spring, Summer</p>	<p>EEE 122. Applied Digital Signal Processing. 3 Units Prerequisite(s): EEE 117, EEE 180. Term Typically Offered: Fall only</p>
<p>Characteristics and applications of OP-AMPS, rectifiers, BJTs and FETs. Introduction to GPIB, PSPICE and LabVIEW. Laboratory three hours.</p>	<p>Application of digital signal processing to biomedical signals. Origin and characteristics of biomedical signals and contaminations. Preparation of biomedical signals for processing, including sensors, amplification, filtering, sampling, and quantization. Time-domain processing, including peak and zero-crossing detection, time interval measurement, peak height, and moving average estimates of mean and root mean square value. Frequency domain processing, including filtering to separate biomedical signal components and spectrum estimation. Joint time-frequency analysis.</p>
<p>EEE 109. Electronics II. 4 Units Prerequisite(s): EEE 108, EEE 108L, EEE 117, EEE 117L; and)GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W). Term Typically Offered: Fall, Spring, Summer</p>	<p>EEE 130. Electromechanical Conversion. 3 Units Prerequisite(s): EEE 117 and EEE 161 Term Typically Offered: Fall, Spring, Summer</p>
<p>Differential and multistage amplifiers, high frequency models (BJTs and FETs), feedback and sensitivity, power amplifiers, oscillators and waveform shaping circuits. Advanced use of PSPICE. Lecture three hours; laboratory three hours.</p>	<p>Magnetic circuits and principles of electromechanical energy conversion, transformers, DC machines, asynchronous AC machines, synchronous AC machines, introduction to special machines.</p>
<p>EEE 110. Advanced Analog Integrated Circuits. 3 Units Prerequisite(s): EEE 109 or consent of instructor. Term Typically Offered: Fall only</p>	<p>EEE 131. Electromechanics Laboratory. 1 Unit Prerequisite(s): EEE 117, EEE 130 (EEE 130 may be taken concurrently), and (GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W). Term Typically Offered: Fall, Spring</p>
<p>The use of operational amplifiers in circuit designs for applications such as filtering, switched capacitor design, sample and hold design, instrumentation amplifiers, and voltage reference circuitry will be explored, as well as topics in Feedback Theory.</p>	<p>Direct current motor and generator characteristics, three phase synchronous motor and synchronous generator characteristics, single phase power transformer short circuit and no-load tests, frequency changer tests and tests on DC and AC machine models, potential and current transformers.</p>
<p>EEE 111. Advanced Analog Integrated Circuits Laboratory. 1 Unit Prerequisite(s): EEE 109; either EEE 110 or EEE 230. EEE 110 or EEE 230 may be taken concurrently. Term Typically Offered: Fall only</p>	<p>EEE 135. Renewable Electrical Energy Sources and Grid Integration. 3 Units</p>
<p>Circuit design, mask design, and simulation of integrated circuitry. Use of CAD software to prepare design for fabrication. Individual and group design projects. Laboratory three hours.</p>	<p>Prerequisite(s): EEE 130. Term Typically Offered: Fall, Spring</p>
<p>EEE 117. Network Analysis. 3 Units Prerequisite(s): ENGR 17, MATH 45, and PHYS 11C Corequisite(s): EEE 117L. Term Typically Offered: Fall, Spring, Summer</p>	<p>The study of existing sources of renewable electric energy such as wind, solar, geothermal, hydro, tidal, wave power, and biomass. Emphasis on wind and solar energy sources and their integration into the electric power grid. Various energy storage methods to accommodate the intermittent nature of these resources. Economic constraints, environmental benefits and institutional regulations.</p>
<p>Review of sinusoidal steady state, phasors, complex power, three phase power, mutual inductance, series and parallel resonance. Introduction to application of Laplace transforms in network analysis, transfer functions, Bode plots, Fourier series, two-port circuits.</p>	<p>EEE 136. Smart Electric Power Grid. 3 Units Corequisite(s): EEE 142 or EEE 144. Term Typically Offered: Spring only</p>
<p>EEE 117L. Networks Analysis Laboratory. 1 Unit Corequisite(s): EEE 117. Term Typically Offered: Fall, Spring, Summer</p>	<p>Smart grid to enhance reliability, security, robustness and efficiency of transmission and distribution systems. Integration of renewable energy sources and distributed generation. Energy storage systems. Advanced metering infrastructure, home-area networks, micro-grids, real-time pricing, plug-in hybrid vehicles, demand response, load curve sharing. Control, monitoring and protection grid; SCADA systems. Voltage and load frequency control to ensure balance. Enabling active participation of consumer. Anticipating and responding to system disturbance in self healing manner. Providing power quality for digital systems needs.</p>
<p>Introduces fundamental laboratory techniques while demonstrating the concepts introduced in the EEE 117 lecture. The computer simulation language PSPICE is introduced and applied. Laboratory three hours.</p>	
<p>EEE 120. Electronic Instrumentation. 4 Units Prerequisite(s): EEE 108, EEE 117; EEE 108 may be taken concurrently. Term Typically Offered: Fall, Spring</p>	
<p>Fundamental principles of sensors and instrumentation systems, together with their electrical implementation, such as biasing and signal conditioning circuits. Temperature, force, pressure, and mechanical sensors. Optical sensors, including a brief introduction to light sources and detectors. Applications to biomedical engineering and industrial control. Lecture three hours; laboratory three hours.</p>	

EEE 137. Applications of Power Electronics in Power Systems. 3 Units
Prerequisite(s): EEE 130 and EEE 141
Term Typically Offered: Spring only

Analysis methods for power electronics. Power electronic devices and their control methodologies. Electric machinery drives and flexible alternating current transmission systems (FACTS) devices simulation of cases relevant to applications of power electronics in power systems.

EEE 141. Power System Analysis I. 3 Units
Prerequisite(s): EEE 117 and EEE 161
Term Typically Offered: Fall, Spring, Summer

Characteristics of power system components. Transmission line parameters and the steady state performance of transmission lines. Introduction to solutions of linear and nonlinear algebraic equations using Gauss, Gauss-Seidel, and Newton-Raphson techniques. Introduction to power flow analysis.

EEE 142. Power System Analysis II. 3 Units
Prerequisite(s): EEE 130, EEE 141, and EEE 184
Term Typically Offered: Fall, Spring

Review of the fundamentals in electric energy systems; power flow analysis, disturbance of normal operating conditions, symmetrical components and sequence impedances, analysis of balanced and unbalanced faults; a brief review of protection systems; optimum allocation and dispatching of generators; dynamic system control; introduction to stability studies. Students in the course will use MATLAB to solve problems.

EEE 143. Power System Laboratory. 1 Unit
Prerequisite(s): EEE 130, EEE 141, and (GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W).
Term Typically Offered: Fall, Spring

Simulation of three phase operations and transmission line operation including voltage regulation, efficiency of long lines, power system stability, voltage control and load-frequency control, load flow and optimal dispatch for simplified interconnected systems.

EEE 144. Electric Power Distribution. 3 Units
Prerequisite(s): EEE 130.
Term Typically Offered: Fall, Spring

Operation and design of utility and industrial distribution systems including distribution system planning; load characteristics; application of distribution transformers; design of subtransmission lines, distribution substations, primary systems, secondary systems; application of capacitors; voltage regulation and reliability.

EEE 145. Power System Relay Protection and Laboratory. 4 Units
Prerequisite(s): EEE 141
Term Typically Offered: Fall only

Principles of protective relaying (classical and modern), current and voltage transformers, setting and testing of relaying elements, including differential, impedance, over/under current, voltage, and frequency relay types and/or elements, and their applications in protection of power system elements, including lines, generators, transformers, motors, and buses. Lecture 3 hours; laboratory 3 hours.

EEE 146. Power Electronics Controlled Drives. 3 Units
Prerequisite(s): EEE 108, EEE 130.
Term Typically Offered: Spring only

Review thyristors, controlled rectifiers, DC choppers and inverters and pulse width modulation methods including space vector method. Control of DC drives and methods of control of induction synchronous motors including flux-vector methods and computer simulations will be studied.

EEE 147. Power System Operation and Control Laboratory. 1 Unit
Prerequisite(s): EEE 141.
Term Typically Offered: Fall, Spring

Computer simulation methods to describe power system behavior under steady state and dynamic conditions. Experiments conducted using MATLAB and Simulink for load flow in distribution lines, optimal power dispatch, synchronous machine transient behavior under short circuit conditions, transient stability, voltage and reactive power control, classical and modern load frequency control. Laboratory three hours.

EEE 148. Power Electronics Laboratory. 1 Unit
Prerequisite(s): EEE 146; may be taken concurrently.
Term Typically Offered: Spring only

Solid state applications in power control. Diodes, rectifiers (single state and three phase), thyristors. Principle of phase controlled rectification, single phase and three phase converters. Power factor improvement. Three phase Pulse Width Modulation (PWM). AC voltage controllers. SPICE modeling. Strong design emphasis. EMTD modeling. LabView graphics simulation. Microprocessor control of power electronics systems. UPS systems, power supplies, power quality monitoring.

EEE 161. Applied Electromagnetics. 4 Units
Prerequisite(s): MATH 32, MATH 45, PHYS 11C, ENGR 17, and CSC 25.
Term Typically Offered: Fall, Spring, Summer

Review of vector calculus. Electrostatic fields from lines, surface and volume charges by Coulomb's law, Gauss' law, Laplace's and Poisson's equations. Capacitance. Magnetostatic field calculations using Biot-Savart's law and Ampere's law. Inductance. Forces on moving charges. Magnetic materials. Electric and magnetic energy in fields. Faraday's law. Ideal transformer. Moving conductor in time-varying magnetic field. Displacement current. Charge-current continuity relation. Transmission line analysis, characteristic impedance, reflection coefficient and standing wave concepts. Introduction to Smith Chart solutions to matching problems.

EEE 162. Applied Wave Propagation. 3 Units
Prerequisite(s): EEE 117, EEE 161.
Term Typically Offered: Fall only

Review of distributed circuit theory and the Smith chart. Impedance matching using series or shunt lumped and distributed circuits or near-quarterwave-matching sections. Noise temperature and noise figure. Scattering coefficient characterization of two-ports. Stability circles for high frequency transistors. Constant gain and noise figure circles. Basic antenna theory. Illustrated by their use for cell phones and other wireless systems.

- EEE 163. Traveling Waves Laboratory.** **1 Unit**
Prerequisite(s): EEE 117, EEE 162 (EEE 162 may be taken concurrently), and (WPJ score of 70+, or at least a C- in ENGL 109M/W)
Term Typically Offered: Fall only
- Selected experiments in the transmission and reflection of waves in coaxial lines and waveguides. Antenna impedance and pattern measurements. Laboratory three hours.
- EEE 165. Introduction To Optical Engineering.** **3 Units**
Prerequisite(s): EEE 161, EEE 180, EEE 185; EEE 185 may be taken concurrently.
Term Typically Offered: Fall, Spring
- Generation, propagation and detection of light. Fresnel equations, Snells law, diffraction, polarization and interference. Operating principles of LEDs, lasers, photodiodes and optical fibers. Introduction to optical communications systems, integrated optical devices, and optical instrumentation.
- EEE 166. Physical Electronics.** **3 Units**
Prerequisite(s): EEE 108 and CHEM 1E or CHEM 1A
Term Typically Offered: Spring only
- Semiconductor physics, atomic models and crystal structures. Quantum theory, energy bands, motion of charge carriers, minority/majority carrier profiles and pn junctions. Manufacturing processes for and operating characteristics of diodes, bipolar transistors and field effect devices.
- EEE 167. Electro-Optical Engineering Lab.** **1 Unit**
Prerequisite(s): EEE 161, EEE 180, EEE 165; EEE 165 may be taken concurrently, and (WPJ score of 70+, or at least a C- in ENGL 109 M/W)
Term Typically Offered: Fall, Spring
- Provides senior level undergraduates with hands-on experience in optical engineering and design. Experiments involving laser characteristics, spectral radiometry, diffraction, polarization, modulation of light, holography and spatial filtering will be performed. Laboratory three hours.
- EEE 174. Introduction to Microprocessors.** **4 Units**
Prerequisite(s): Junior status, EEE 64.
Term Typically Offered: Fall, Spring, Summer
- Topics include: microcomputer systems, microprocessor architecture, machine and assembly language programming, timing operations, bus arbitration and exception processing logic, addressing modes, parallel and serial ports, memory, assemblers and development systems. The lab uses development systems and target systems in the Computer Engineering laboratory to assemble, link, test and debug and run various assignments. Lecture three hours; laboratory three hours.
- EEE 178. Introduction to Machine Vision.** **3 Units**
Prerequisite(s): EEE 180 or ME 172, or instructor approval.
Term Typically Offered: Spring only
- Fundamental digital image processing and machine vision concepts and their application to the fields of robotics and automation. Topics include: digital image processing, image formation, two dimensional transforms, boundary descriptors, motion, camera calibration, vision for robot control, 3-D vision, and hardware architectures to support vision.
- EEE 180. Signals and Systems.** **3 Units**
Prerequisite(s): EEE 117; EEE 117 may be taken concurrently.
Term Typically Offered: Fall, Spring, Summer
- Rigorous development of the fundamental relationships governing time-domain and frequency-domain analysis of linear continuous-time and discrete-time systems. Topics include Fourier, Laplace and z-transforms, sampling theorem, modulation, system stability, and digital filters.
- EEE 181. Introduction to Digital Signal Processing.** **3 Units**
Prerequisite(s): EEE 64, EEE 180.
Term Typically Offered: Spring only
- Focuses on the application of linear systems theory to design and analysis of digital signal processing systems. Discrete systems, the z transform, and discrete Fourier transform are reviewed. Design of infinite impulse response filters, finite impulse response filters, and digital spectral analysis systems is presented. Computer simulation is used to study the performance of filters and spectral analysis systems. Signal processing architectures are introduced.
- EEE 182. Digital Signal Processing Lab.** **1 Unit**
Prerequisite(s): EEE 180, EEE 181; EEE 181 may be taken concurrently.
Term Typically Offered: Spring only
- Provides senior level undergraduate students with experience in the software/hardware design of discrete-time systems, and modern DSP techniques. Laboratory projects will include the following: spectral analysis of analog and digital signals, design of sampling and quantizer circuits, design and realization of IIR and FIR Digital Filters. Hardware projects will include acquisition, analysis, and filtering of speech, biomedical and video signals using Digital Signal Processors (DSPs).
- EEE 183. Digital and Wireless Communication System Design.** **3 Units**
Prerequisite(s): EEE 161, EEE 180; EEE 185 may be taken concurrently.
Term Typically Offered: Fall only
- Review of fundamentals, probability, information, distortion by channel, sampling, pulse code modulation, companding, link power calculation, noise figure, pseudo noise. Matched filter detection of binary signals, bit error rate, inter-symbol interference, zero-forcing equalizers. Effects of additive white Gaussian noise in pulse code modulation, spread spectrum in multiple access, cellular radio and other wireless applications. Procedure for making design trade offs will be discussed.
- EEE 184. Introduction to Feedback Systems.** **3 Units**
Prerequisite(s): EEE 180.
Term Typically Offered: Fall, Spring, Summer
- Dynamic system modeling by transfer function and state-space methods using differential equation, time-response and frequency-response methods. Determination of steady-state errors due to step, ramp and parabolic inputs and disturbances for closed-loop systems. Mapping of block diagrams and state-space representations to signal flow graphs (SFG) as well as finding the transfer function of the system represented by the SFG by Mason's Rule. Closed-loop system stability is examined via poles and eigenvalues and by using the Routh-Hurwitz criterion. Introduction to observability and controllability of systems. Design of compensators for feedback systems using root-locus, frequency response and state-space methods. Introduction to digital control. Computer simulation methods such as MATLAB and SIMULINK are used to support the above subjects.

EEE 185. Modern Communication Systems.**3 Units****Prerequisite(s):** EEE 180, ENGR 120; ENGR 120 may be taken concurrently.**Term Typically Offered:** Fall, Spring, Summer

Review of signal and system analysis, sampling theorem and Nyquist's criteria for pulse shaping, signal distortion over a channel, study of digital and analog communication systems, line coding, signal to noise ratios, performance comparison of various communication systems.

EEE 186. Communication Systems Laboratory.**1 Unit****Prerequisite(s):** EEE 117 (EEE 185 may be taken concurrently), and (GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W).**Term Typically Offered:** Fall, Spring

Experimental study of modulation and demodulation in AM, FM, and digital communication systems, A/D and D/A conversion, measurement of power spectra, noise characterization in frequency domain.

EEE 187. Robotics.**4 Units****Prerequisite(s):** EEE 180 or equivalent, or instructor permission.**Term Typically Offered:** Fall only

Lecture introduces principles of robotics and design of robot systems. Includes robot architectures, sensing position/velocity, digital circuit noise, actuator and path control, robot coordinate systems, kinematics, differential motion, computer vision/architectures, and artificial intelligence. Laboratory will apply lecture theory in design experiments utilizing five degree-of-freedom robots, an industrial robot, and vision systems.

EEE 188. Digital Control System.**3 Units****Prerequisite(s):** EEE 180, GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.**Term Typically Offered:** Spring only

Intended to present treatment of the classical digital control with an introduction to modern digital control system in the state space. Z-transform as applied to discrete-time systems with transformation from the s-plane to the z-plane. Analyzes digital control systems using Nyquist and Bode plots and root-locus. Stability analysis of digital systems using Jury test, Routh Criterion, Nyquist and Bode plots. Design using root-locus and Bode plots introduced. Introduction to state-space and pole assignment. Finite-word length effects. MATLAB applications.

EEE 189. Controls Laboratory.**1 Unit****Prerequisite(s):** EEE 184 (EEE 184 may be taken concurrently), and (GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W).**Term Typically Offered:** Fall, Spring

Study, simulation and design of linear feedback control systems using digital control methods such as MATLAB and SIMULINK. Practical examples of analysis and compensation for closed loop systems.

EEE 192A. Electrical Power Design Project I.**2 Units****Prerequisite(s):** EEE 141, EEE 142, EEE 143; EEE 143 may be taken concurrently. WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.**Term Typically Offered:** Fall, Spring

Concentrates on the planning, research and design aspects of electric power systems, including generation, transmission and distribution systems. Emphasis is placed on design philosophies, problem definition, research, project planning, written and oral communication skills, teamwork, development of specifications and effective utilization of available resources. Lecture one hour; laboratory three hours.

EEE 192B. Electrical Power Design Project II.**2 Units****Prerequisite(s):** EEE 142, EEE 143, and EEE192A.**Term Typically Offered:** Fall, Spring

Continuation of EEE 192A. Students are expected to continue the power engineering design project begun the previous semester in EEE 192A. Final results of the project report will be presented orally to the class and invited faculty in a publicized seminar. Lecture one hour; laboratory three hours.

EEE 193A. Product Design Project I.**2 Units****Prerequisite(s):** EEE 108, EEE 109, EEE 130, EEE 161, EEE 174, EEE 180 (EEE 109 may be taken concurrently), GE Area A and (WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W).**Term Typically Offered:** Fall, Spring

Concentrates on the planning and design of electronic engineering devices, systems and software. Emphasis is placed on design philosophies, problem definition, project planning and budgeting, written and oral communication skills, teamwork, development of specifications, utilization of computer aided design systems, and effective utilization of available resources. Lecture one hour; laboratory three hours.

EEE 193B. Product Design Project II.**2 Units****Prerequisite(s):** EEE 193A.**Term Typically Offered:** Fall, Spring

Concentrates on design projects begun by the previous semester design teams in EEE 193A. The hardware will be completed, tested for the meeting of specifications and other requirements, and redesigned if necessary. Required software will be written, debugged and incorporated in a written report. The final results of the team project will be presented orally to the class and invited faculty in a publicized seminar. Lecture one hour; laboratory three hours.

EEE 194. Career Development in Electrical and Electronic Engineering.**1 Unit****Prerequisite(s):** EEE 192A or EEE 193A, may be taken concurrently.**Term Typically Offered:** Fall, Spring

Designed for Electrical and Electronic Engineering students making career decisions. Instruction will include effective career planning strategies and techniques including skill assessments, employment search strategy, goal setting, time management, interview techniques and resume writing. Lecture one hour.

Note: Units earned cannot be used to satisfy major requirements.

Credit/No Credit

EEE 195. Fieldwork in Electrical and Electronic Engineering. 1 - 3 Units**Term Typically Offered:** Fall, Spring

Supervised work experience in Electrical and Electronic Engineering with public agencies or firms in the industry. Requires approval of a petition by the supervising faculty member and Department Chair.

Note: May be repeated for credit.

Credit/No Credit

EEE 195A. Professional Practice. 1 - 12 Units**Prerequisite(s):** Instructor permission.**Term Typically Offered:** Fall, Spring

Supervised employment in a professional engineering or computer science environment. Placement arranged through the College of Engineering and Computer Science. Requires satisfactory completion of the work assignment and a written report.

Note: Units earned cannot be used to satisfy major requirements.

Credit/No Credit

EEE 195B. Professional Practice. 1 - 12 Units**Prerequisite(s):** Instructor permission.**Term Typically Offered:** Fall, Spring

Supervised employment in a professional engineering or computer science environment. Placement arranged through the College of Engineering and Computer Science. Requires satisfactory completion of the work assignment and a written report.

Note: Units earned cannot be used to satisfy major requirements.

Credit/No Credit

EEE 195C. Professional Practice. 1 - 12 Units**Prerequisite(s):** Instructor permission.**Term Typically Offered:** Fall, Spring

Supervised employment in a professional engineering or computer science environment. Placement arranged through the College of Engineering and Computer Science. Requires satisfactory completion of the work assignment and a written report.

Note: Units earned cannot be used to satisfy major requirements.

Credit/No Credit

EEE 195D. Professional Practice. 1 - 12 Units**Prerequisite(s):** Instructor permission.**Term Typically Offered:** Fall, Spring

Supervised employment in a professional engineering or computer science environment. Placement arranged through the College of Engineering and Computer Science. Requires satisfactory completion of the work assignment and a written report.

Note: Units earned cannot be used to satisfy major requirements.

Credit/No Credit

EEE 196A. PCB Design Fundamentals. 1 Unit**Prerequisite(s):** EEE 102, CPE 102 or EEE 108.**Term Typically Offered:** Fall only

Printed circuit board (PCB) design fundamentals including library component creation, schematic capture, layout, routing, signal integrity and transmission line analysis, IEEE/IPC rules and standards, materials, manufacturing processes, and other physical properties of a PCB.

EEE 199. Special Problems. 1 - 3 Units**Prerequisite(s):** Instructor permission.**Term Typically Offered:** Fall, Spring

Individual projects or directed reading.

Note: Open only to students who appear qualified for independent work.

Approval of the faculty sponsor and the academic advisor must be obtained before registering. May be repeated for credit.

EEE 201. Research Methodology. 1 Unit**Prerequisite(s):** Fully classified graduate status.**Term Typically Offered:** Fall, Spring

Research methodology, problem formulation and problem solving. Collective and individual study of selected issues and problems relating to fields of study in the Electrical and Electronic Engineering Graduate Program. Orientation to the requirements for Masters Thesis or Project in Electrical Engineering.

Credit/No Credit

EEE 211. Microwave Engineering. 3 Units**Prerequisite(s):** EEE 161; EEE 108 or instructor permission.**Term Typically Offered:** Fall, Spring

High-frequency passive electronic circuit design, specifically S-parameters, impedance matching, microstrip lines, filters, couplers and antennas.

EEE 212. Microwave Engineering II. 3 Units**Term Typically Offered:** Fall, Spring

Passive microwave components; power dividers, couplers and hybrids. Microwave filter design, periodic structures, image parameter and insertion loss methods for designing filters. Design of ferromagnetic components, isolators, phase shifters and circulators. Noise in microwave circuits.

EEE 213. Microwave Devices and Circuits. 3 Units**Prerequisite(s):** EEE 162.**Term Typically Offered:** Fall, Spring

Theory and application of electromagnetic radiation at microwave frequencies; study of microwave impedance and power measurement and characteristics of microwave circuit components, and electronic devices.

EEE 214. Computer Aided Design for Microwave Circuits. 3 Units**Prerequisite(s):** EEE 211 or instructor permission.**Term Typically Offered:** Fall, Spring

Introduction to design methodology of the basic building blocks of communication systems. Use of solid state devices in communications and microwave technology. Implementation of transmitter and receiver architectures. Impedance matching, S-parameters and small-signal, large-signal device operation. Design of transmitter and receiver components using a professional software tool. Design and simulations of gain and low noise amplifiers, detectors, mixers, power amplifiers and oscillators. Tradeoffs involved in the design of a complete transmitter and a receiver.

- EEE 215. Lasers. 3 Units**
Prerequisite(s): EEE 180 and EEE 161 or instructor permission.
Term Typically Offered: Fall, Spring
- Review of electromagnetic theory. Ray tracing in an optical system, Gaussian beam propagation. Resonant optical cavities, study of excitation and lasing mechanisms in gas and semiconductor lasers. General characteristics and design of CW, Q switched and traveling wave lasers.
- EEE 221. Machine Vision. 3 Units**
Term Typically Offered: Fall, Spring
- Introduces the student to fundamental digital imaging processing concepts and their application to the fields of robotics, automation, and signal processing. Topics include: digital image filters, two dimensional transforms, boundary descriptors, Hough transform, automated visual inspection techniques, vision for robot control, 3-D vision, and hardware architectures to support vision.
- EEE 222. Electronic Neural Networks. 3 Units**
Term Typically Offered: Fall, Spring
- Current neural network architectures and electronic implementation of neural networks are presented. Basics of fuzzy logic is covered. Application software will be used to simulate training. Testing of various neural net architectures. Learning strategies such as back-propagation, Kohonen, Hopfield and Hamming algorithms will be explored. A final project requires the student to design, train and test a neural network for electronic implementation that solves a specific practical problem.
- EEE 225. Advanced Robot Control. 3 Units**
Prerequisite(s): EEE 184 or equivalent.
Term Typically Offered: Fall, Spring
- Introduction to robot kinematics and dynamics followed by a comprehensive treatment of robot control. Topics include: independent joint control, multivariable control, force control, feedback linearization, real-time parameter estimation, and model-reference adaptive control.
- EEE 230. Analog and Mixed Signal Integrated Circuit Design. 3 Units**
Prerequisite(s): EEE 109 or instructor permission.
Term Typically Offered: Fall, Spring
- Covers core topics and circuits important for analog and mixed-signal integrated circuits. Topics include: device structures and models, single-stage and differential amplifiers, current mirrors and active loads, operational amplifier design, stability and compensation, fully-differential circuits and common-mode feedback, noise in integrated circuits and the impact of IC processes on analog performance.
- EEE 231. Advanced Analog and Mixed Signal Integrated Circuit Design. 3 Units**
Prerequisite(s): EEE 230 or consent of the instructor.
Term Typically Offered: Fall, Spring
- A companion course to EEE 230, covers additional topics important in analog and mixed-signal integrated circuit design. Topics include traditional issues such as device matching and analog layout techniques, as well as important building blocks such as bandgap references and bias circuits. Also included are current-mode techniques such as high-speed current-mode logic (CML), and an introduction to noise in integrated circuits. Circuit and layout projects are assigned using CAD software.
- EEE 232. Key Mixed-Signal Integrated Circuit Building Blocks. 3 Units**
Prerequisite(s): EEE 230 or consent of instructor.
Term Typically Offered: Fall, Spring
- Covers key mixed-signal integrated circuit building blocks most often used in modern ICs. Topics covered include data converter fundamentals, comparators, and important circuit architectures for Analog-to-Digital Converters (ADCs), Digital-to-Analog Converters (DACs), and Phase-Locked Loops (PLLs).
- EEE 234. Digital Integrated Circuit Design. 3 Units**
Prerequisite(s): EEE 230 or instructor permission.
Term Typically Offered: Fall, Spring
- The background and techniques needed to design and layout digital circuits at the transistor level for mixed-signal integrated circuits are covered. Topics include the design, layout and characterization of digital logic gates at the transistor level, typical CMOS process flows, device models and physics, and chip level considerations.
- EEE 235. Mixed-Signal IC Design Laboratory. 1 Unit**
Prerequisite(s): EEE 230 or consent of the instructor.
Term Typically Offered: Fall, Spring
- Methods to develop successful mixed-signal integrated circuits using an industrial design methodology and computer-aided design tools. Proven design techniques presented; hands-on experience gained through each student designing their own integrated circuit. Communications skills developed through periodic presentations, including reviews for the circuit architecture, design and layout.
- EEE 236. Advanced Semiconductor Devices. 3 Units**
Term Typically Offered: Fall, Spring
- Semiconductor device modeling, including the application of the continuity equation and Poissons equation to abrupt and graded p/n junctions, semiconductor/metal contacts, junction field effect transistors (JFET), metal-oxide-semiconductor transistors (MOSFET), and bipolar junction transistors (BJT). Special topics include compound semiconductor devices and heterostructures.
- EEE 238. Advanced VLSI Design-For-Test I. 3 Units**
Prerequisite(s): CPE 151 and CPE 166.
Term Typically Offered: Fall, Spring
- Focus on integrated circuit design-for-test-techniques; semiconductor reliability factors and screening; semiconductor fabrication processes, device physics and related performance limitations; quantifying cost/quality tradeoffs; IC manufacturing flows and high-accuracy parametric test methods.
- EEE 239. Advanced VLSI Design-For-Test II. 3 Units**
Prerequisite(s): EEE 238.
Term Typically Offered: Fall, Spring
- Advanced topics in VLSI testing and Design-For-Test applications. Memory-specific test methodology and special features of memory designs employed in high volume manufacturing for improved testability, yield, and reliability. VLSI failure modes, their detection and prevention. Application of trim, redundancy, wear-leveling, and error correction.

EEE 241. Linear Systems Analysis. 3 Units Prerequisite(s): EEE 180 or equivalent. Term Typically Offered: Fall, Spring	EEE 250. Modern Power Transmission Systems. 3 Units Prerequisite(s): EEE 142 or equivalent. Term Typically Offered: Fall, Spring
<p>Analyzes linear systems in the state-space. System realization and modeling, solutions of linear systems, stability including the method of Lyapunov, controllability and observability, state feedback and observers for both continuous and discrete-time systems. Familiarity with MATLAB is required.</p>	<p>Characteristics of modern power transmission systems, Transmission line parameters, Steady-state, Dynamic and Transient behavior of AC/DC transmission systems, Flexible AC Transmission Systems (FACTS), High-Voltage Direct Current (HVDC) systems, Analysis of faulted transmission systems and AC/DC hybrid grids.</p>
EEE 242. Statistical Signal Processing. 3 Units Term Typically Offered: Fall, Spring	EEE 251. Power System Economics and Dispatch. 3 Units Prerequisite(s): EEE 141 or equivalent. Term Typically Offered: Fall, Spring
<p>Introduces the student to modern statistical approaches for solving electronic system noise problems. A few of the topics covered are: Stochastic processes, Wiener and Kalman filters, linear prediction, lattice predictors and singular-value decomposition.</p>	<p>Study of a number of engineering and economic matters involved in planning, operating, and controlling power generation and transmission systems in electric utilities. Effects of hydro and nuclear plants on system economics. Economic and environmental constraints. Theoretical developments and computer methods in determining economic operation of interconnected power systems with emphasis on digital computers.</p>
EEE 243. Applied Stochastic Processes. 3 Units Prerequisite(s): ENGR 120. Term Typically Offered: Fall, Spring	EEE 252. Power System Reliability and Planning. 3 Units Prerequisite(s): EEE 142 or equivalent. Term Typically Offered: Fall, Spring
<p>Introduction to sequence of random variables and multivariable distributions; models of stochastic processes; stationary stochastic processes and their applications; Markov processes, Markov chains, continuous Markov chains; renewal processes; birth-death processes; time-series applications in stochastic processes in filtering, reliability and forecasting, prediction and control.</p>	<p>Power system economics, generation, transmission and distribution reliability. Production costing and generation planning, transmission planning.</p>
EEE 244. Electrical Engineering Computational Methods and Applications. 3 Units Prerequisite(s): EEE 180. Term Typically Offered: Fall, Spring	EEE 253. Control and Stability of Power Systems. 3 Units Prerequisite(s): EEE graduate standing. Term Typically Offered: Fall, Spring
<p>Computational methods for solving problems in engineering analysis. Topics include variational methods, finite-difference analysis, optimization methods, and matrix methods. Focuses predominantly on applications of the methods, and students are required to solve real-world, engineering problems on the computer.</p>	<p>The fundamental concepts of control and stability in power systems. Topics include: power systems dynamics and linearized models, small and large disturbances, voltage and frequency stability. Introduction to power systems dynamic simulation for stability studies using CAD tools.</p>
EEE 245. Advanced Digital Signal Processing. 3 Units Prerequisite(s): EEE 174, EEE 181 or equivalent. Term Typically Offered: Fall, Spring	EEE 254. Large Interconnected Power Systems. 3 Units Prerequisite(s): EEE 142. Term Typically Offered: Fall, Spring
<p>Advanced signal processing topics include: multirate signal processing, adaptive filter design and analysis, spatial filtering and the application of FIR filter theory to beamforming. Applications of digital signal processing in communication systems, radar systems, and imaging systems are covered. Hardware and software topics, including current products and the incorporation of VLSI are included. Lecture.</p>	<p>Computer control, optimization and organization of large power systems. Load and frequency control, voltage control, large load flow and contingency studies. Introduction to state estimation and load forecasting.</p>
EEE 246. Advanced Digital Control. 3 Units Prerequisite(s): EEE 241. Term Typically Offered: Fall, Spring	EEE 255. Future Power Systems and Smart Grids. 3 Units Prerequisite(s): EEE 141, EEE 146, EEE 180, and EEE 250 or instructor permission. Term Typically Offered: Fall, Spring
<p>Review of digital control methods using transform techniques. State-variable representation and design of digital control systems, state-space compensators and tracking systems, polynomial equations approach, LQR and LQG discrete-time control and identification, and introduction to adaptive self-tuning regulators.</p>	<p>Future power systems from component and system perspectives. Smart grids, micro-grids, and interactive power systems using renewable resources and energy storage elements. National standards for certification of distributed generation involving machine-based and inverter-based technologies. Essential elements of advanced sensing, communications and information technology and their roles in adaptive automation, control, protection, and security.</p>
EEE 249. Advanced Topics in Control and Systems. 3 Units Term Typically Offered: Fall, Spring	
<p>Topics from recent advances in control, systems and robotics control selected from IEEE Journals and related professional publications. May be taken twice for credit.</p>	

EEE 256. Advanced Power Systems Protection. 3 Units
Prerequisite(s): EEE 141; EEE 145 or instructor permission.
Term Typically Offered: Fall, Spring

Advanced concepts and schemes used in power system protection including the various protective schemes used for transmission lines, transformers, machines, and other elements of a large interconnected power system. Concepts in digital and microprocessor based relay design and analysis of typical protection subsystems, in conjunction with the protection of the power system as a whole.

EEE 257. Wind Energy Electrical Conversion Systems. 3 Units
Prerequisite(s): Fully classified graduate standing in EEE or instructor permission
Term Typically Offered: Fall, Spring

Fundamentals of current technologies and methods in wind energy conversion systems, including turbines, generators and converters as well as control and integration of these devices in power grids. Topics include: power conversion, grid converters for wind systems, system integration, methods for power, voltage and frequency control, and wind farms simulation and aggregation methods.

EEE 259. Advanced Topics in Power Systems. 3 Units
Prerequisite(s): EEE 142.
Term Typically Offered: Fall, Spring

Topics from recent advances in Electrical Power Engineering selected from IEEE Journal on "Power Systems" and "Power Systems Delivery." May be taken twice for credit.

EEE 260. Statistical Theory of Communication. 3 Units
Prerequisite(s): EEE 185.
Term Typically Offered: Fall, Spring

Review of Fourier analysis and theory of probability, random processes, optimum filtering, performance of analog and digital communication systems in the presence of noise, system optimization.

EEE 261. Information Theory, Coding, and Detection. 3 Units
Prerequisite(s): EEE 185.
Term Typically Offered: Fall, Spring

Signal space concepts, optimum M-ary communication systems, MAP estimation of continuous waveform parameters, information theory, coding.

EEE 262. Wireless Communications Systems. 3 Units
Prerequisite(s): EEE 185 or instructor permission.
Term Typically Offered: Fall, Spring

Wireless communication techniques, systems and standards. Topics include cellular systems, RF transmission and analog/digital modulation techniques. Modern techniques such as multiple access and spread spectrum systems. Channel coding and diversity will also be included.

EEE 264. Advanced Topics in Wireless Communications. 3 Units
Prerequisite(s): EEE 262 or instructor permission.
Term Typically Offered: Fall, Spring

Advanced theoretical and practical aspects of modern wireless communications. Specific topics include: advanced cellular concepts, modern small-scale and large-scale propagation models, complex equalization and diversity system design, 3G (third generation) wireless networks, Bluetooth and Personal Area Networks (PANs), GPRS (General Packet Radio Service) and wireless measurement techniques.

EEE 265. Optoelectronic Engineering. 4 Units
Prerequisite(s): Graduate standing or instructor permission.
Term Typically Offered: Fall, Spring

Generation, propagation and detection of light. Fresnel equations, Snell's law, diffraction, polarization, and interference. Operating principles of LEDs, lasers, photodiodes, optical fibers, photovoltaic devices. Introduction to optical communications systems and optical instrumentation.

Note: EEE 265 and EEE 165 may not be both taken for graduate credit.

EEE 267. Fiber Optic Communications. 3 Units
Prerequisite(s): EEE 185 or instructor permission.
Term Typically Offered: Fall, Spring

Fundamentals of modern lightwave communication systems, sources detectors and optical fibers. Study of dispersion in Step Index, Graded Index and Single Mode Optical Fibers. Intensity Modulated Direct Detection systems (IMDD) and Coherent Fiber Optic Systems (COFOCS). Performance evaluation and design considerations. Wavelength division multiplexing, Local Area Networks, optical amplifiers and photonic switching.

EEE 270. Advanced Topics in Logic Design. 4 Units
Prerequisite(s): EEE Graduate Student Standing.
Term Typically Offered: Fall, Spring

Synchronous and asynchronous state machines. Timing issues in high-speed digital design. Design of a complex system using VHDL and Verilog Hardware Description Languages in a CAD environment. Automation toolsets to synthesize projects containing a hierarchy of modules into Field Programmable Gate Arrays (FPGAs). Simulations using CAD tools to verify the design before implementation on rapid prototyping boards in the lab. Lecture 3 hours; laboratory 3 hours.

EEE 272. High Speed Digital System Design. 3 Units
Prerequisite(s): EEE 161, fully classified graduate standing and instructor permission.
Term Typically Offered: Fall, Spring

Theoretical topics and practical applications relating to high speed digital systems. Review of basic transmission line theory, crosstalk, impact of PCB traces, vias, and connectors on signal integrity, return current paths, simultaneous switching noise, high frequency power delivery, high speed timing budgets, high speed bus design methodologies, radiated emissions, and system noise.

EEE 273. Hierarchical Digital Design Methodology. 3 Units
Prerequisite(s): EEE 64 or equivalent.
Term Typically Offered: Fall, Spring

Hierarchical digital design course that includes: State machine design, Programmable Logic Devices, digital simulation techniques, digital interface, design with ASIC (Application Specific Integrated Circuits), programmable Gate Arrays, and designing with Gas high speed logic devices. Problems with EMI, RFI and EMC will be presented along with design guidelines. Lecture three hours.
 Cross Listed: CSC 273; only one may be counted for credit.

EEE 274. Advanced Timing Analysis. 3 Units**Prerequisite(s):** EEE 273, CSC 273, CPE 273 or instructor permission.**Term Typically Offered:** Fall, Spring

Timing analysis of Application Specific Integrated Circuit (ASIC) designs: Topics include ASIC design methodology, static timing analysis, timing design constraints, design reports, clock timing issues, timing exceptions, operating conditions, hierarchical analysis, analyzing designs with asynchronous logic, performance measurement and power issues. Cross-listed: CPE 274; only one may be counted for credit.

EEE 280. Advanced Computer Architecture. 3 Units**Prerequisite(s):** CSC 205 or instructor permission.**Term Typically Offered:** Fall, Spring

Introduces computer classification schemes, structures of uni- and multi-processor systems, parallelism in uniprocessor systems, design and performance analysis of pipelined and array processors; survey and analysis of interconnection networks and parallel memory organizations; programming issues of multiprocessor systems; and fault tolerant computing and design for testability. Cross Listed: CSC 280; only one may be counted for credit.

EEE 285. Micro-Computer System Design I. 3 Units**Prerequisite(s):** EEE 174 or CPE 185.**Term Typically Offered:** Fall, Spring

Focuses on: design of the microprocessor based computer system, study of bus structures, interrupt schemes, memory interfacing, timing, bus arbitration, system architecture, data communications, introduction to multiprocessor systems, and software development.

EEE 286. Microcomputer System Design II. 3 Units**Prerequisite(s):** EEE 285 or CPE 186.**Term Typically Offered:** Fall, Spring

Includes PCI and PCI express bus specifications/architecture, PCI bridges transaction ordering, PCI express transactions and handshaking protocols, electromagnetic interference, methods of eliminating interference, shielding grounding, balancing, filtering, isolation, separation, orientation, cancellation techniques and cable design. Involves design projects and research presentations on PCI and PCI Express Bridge.

EEE 296C. Transients in Power Systems. 3 Units**Prerequisite(s):** EEE 130 and EEE 141**Term Typically Offered:** Fall, Spring

Transients in electric power systems due to shunt capacitor switching, voltage flicker and nonlinear loads such as electric arc furnaces. Lightning surges and their effect on the power system health and operation. Transformer inrush currents and motor starting. The knowledge of EEE 130 and EEE 141 or equivalent courses is required for taking this course. Credit/No Credit

EEE 296T. Digital Speech Processing. 3 Units**Prerequisite(s):** EEE 181 or instructor permission.**Term Typically Offered:** Fall, Spring

The objective of this course is to cover the digital processing of speech signals. Topics include speech production and perception, speech processing in the time frequency domains. Short-time energy and Short-time Fourier analysis, homomorphic and linear predictive coding methods. Also covered are speech coding, basic introduction of text-to-speech synthesis and speech recognition. Cross listed: CPE 296T.

EEE 299. Special Problems. 1 - 3 Units**Prerequisite(s):** Instructor permission.**Term Typically Offered:** Fall, Spring

Open to qualified students who wish to pursue problems of their own choice. Projects must have approval and supervision of a faculty advisor.

EEE 500. Culminating Experience. 1 - 6 Units**Prerequisite(s):** Advanced to candidacy and permission of the graduate coordinator, and GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.**Term Typically Offered:** Fall, Spring

Completion of a thesis, project or comprehensive examination. Credit given upon successful completion of one of the following plans: Plan A: Master's Thesis, 5 units; Plan B: Master's Project, 2 units; or Plan C: Comprehensive Examination.

Engineering (ENGR)

ENGR 1. Introduction to Engineering. 1 Unit**Prerequisite(s):** Engineering major status or instructor permission
General Education Area/Graduation Requirement: Understanding Personal Development (E)**Term Typically Offered:** Fall, Spring

Engineering study skills, fundamentals of the engineering design process and problem solving, current engineering challenges. Distinctions and similarities of different engineering disciplines. The engineering profession, ethics, teamwork, communication skills. Course helps students make an informed choice of their engineering majors. Credit/No Credit

ENGR 1A. Fundamentals of Engineering. 3 Units**Prerequisite(s):** Algebra and trigonometry or instructor permission.**Term Typically Offered:** Fall, Spring

Problem solving skills needed in all areas of engineering offered at Sacramento State. Exposure to the different areas of engineering, and understanding of the relationship between them. Students will work in teams and complete hands-on engineering laboratory experiments and projects. Development of effective communication skills by presenting periodic oral and written reports. Computers will be used throughout. Lecture two hours, laboratory three hours.

Note: Not for degree credit.

Credit/No Credit

ENGR 2. Robotics Explorations.**3 Units****Prerequisite(s):** Algebra and Trigonometry.**Term Typically Offered:** Fall, Spring

Introduction to robotics. History of robotics, recent advances in the field, common devices such as sensors and actuators. Use of modular robotic kits. Students will be assigned competition based projects.

ENGR 6. Engineering Graphics and CADD (Computer Aided Drafting and Design).**3 Units****General Education Area/Graduation Requirement:** Understanding Personal Development (E)**Term Typically Offered:** Fall, Spring, Summer

In-depth graphical analysis and solution of typical three-dimensional space problems by applying the principles of orthogonal projection. Fundamentals of interactive computer aided design and drafting. Preparation of engineering drawings utilizing the CAD system. Lecture two hours; laboratory three hours.

ENGR 6W. Engineering Graphics and CADD Workshop.**1 Unit****Corequisite(s):** ENGR 6.**Term Typically Offered:** Fall, Spring, Summer

Problem solving and discussion of topics in Engineering Graphics and CADD (Computer Aided Drafting and Design) to enhance students' understanding of subject matter. Not for degree credit. Technical activity and laboratory, two hours.

Credit/No Credit

ENGR 7. 3-D CAD Solid Modeling.**3 Units****Prerequisite(s):** ENGR 4 or ENGR 6.**Term Typically Offered:** Fall, Spring

Applications of three-dimensional representation techniques as used in a typical CAD (computer aided drafting) software package (AutoCAD). Fundamentals employed in creating, modifying, analyzing and filing engineering drawings. This course will have a mechanical emphasis. Lecture two hours; laboratory three hours.

ENGR 17. Introductory Circuit Analysis.**3 Units****Prerequisite(s):** PHYS 11C, MATH 45; either the math or physics may be taken concurrently, but not both.**Term Typically Offered:** Fall, Spring, Summer

Writing of mesh and node equations. DC and transient circuit analysis by linear differential equation techniques. Application of laws and theorems of Kirchoff, Ohm, Thevenin, Norton and maximum power transfer. Sinusoidal analysis using phasors, average power.

ENGR 17W. Circuits Workshop.**1 Unit****Corequisite(s):** ENGR 17.**Term Typically Offered:** Fall, Spring, Summer

Elaborates on fundamentals and enhances students' understanding of circuits.

Note: Not for degree credit.

Credit/No Credit

ENGR 30. Analytic Mechanics: Statics.**3 Units****Prerequisite(s):** PHYS 11A and MATH 31**Term Typically Offered:** Fall, Spring, Summer

Statics of particles. Equivalent systems of forces. Equilibrium of rigid bodies. Centroids, centers of gravity and forces on submerged surfaces. Analyzes trusses including use of computer programs. Analyzes frames and machines. Forces in beams including shear and moment diagrams. Friction. Moments of inertia.

ENGR 45. Engineering Materials.**3 Units****Prerequisite(s):** CHEM 1E and MATH 30. CHEM 1E may be taken concurrently.**Term Typically Offered:** Fall, Spring, Summer

Basic principles of mechanical, electrical and chemical behavior of metals, polymers and ceramics in engineering applications; topics include bonding, crystalline structure and imperfections, phase diagrams, corrosion, and electrical properties. Laboratory experiments demonstrate actual behavior of materials; topics include metallography, mechanical properties of metals and heat treatment. Lecture two hours; laboratory three hours.

Note: Fee course.

Fee course.

ENGR 45W. Engineering Materials Workshop.**1 Unit****Term Typically Offered:** Fall, Spring, Summer

Problem solving and discussion of topics in materials science to enhance students' understanding of subject matter. Activity two hours.

Note: Can not be used for the degree requirement.

Credit/No Credit

ENGR 50. Computational Methods and Applications.**3 Units****Prerequisite(s):** Math 30 and PHYS 11A; Physics 11A may be taken concurrently**Term Typically Offered:** Fall, Spring

Computational methods for solving problems in analysis and design. Introduces lower division students to the use of computer technology for the computations required to solve real world problems in science and engineering. Includes introduction to numerical techniques, introduction to structured programming, and graphic visualization. Practical applications of analysis and design using tools such as MATLAB and C++. Emphasis is on developing confidence and skill in finding computational solutions to practical science and engineering problems. Portable computer recommended. Lecture three hours.

- ENGR 60. MEP Orientation and Problem Solving.** 2 Units
Term Typically Offered: Fall, Spring
- Mandatory class for MEP freshman students on orientation to the University, its resources, facilities and faculty. Students will be encouraged to form a group atmosphere where they can freely interact with each other and value each other as resources. Students will be provided with instruction and materials on study skills, note taking, time management, preparing for tests and dealing with stress. Presentation by working engineers and field trips to engineering firms will be taken. Personal and professional development will also be part of the freshman orientations with leadership, public speaking and career planning being topics of discussion. Lecture one hour; activity two hours.
Note: Not for use as an engineering major technical elective and is not applicable to the baccalaureate degree.
- Field trip(s) may be required.
- ENGR 70. Engineering Mechanics.** 3 Units
Prerequisite(s): PHYS 11A.
Term Typically Offered: Fall, Spring
- Statics of particles. Equivalent systems of forces. Equilibrium of rigid bodies. Centroids, centers of mass and gravity. Analyzes trusses, frames and machines. Friction. Moments of inertia. Fundamental principles of kinematics and kinetics, study of motion and force analysis of particles and rigid bodies.
- ENGR 96A. Interdisciplinary Topics in Engineering.** 1 Unit
Term Typically Offered: Fall, Spring
- Course will enable students to make an informed choice of their engineering majors, engage on interdisciplinary discussions between engineering fields, and equip them with relevant study skills. An introduction to engineering and the fundamentals of problem solving. Distinctions between different disciplines within engineering as well as other similarities. The engineering profession and ethics. Study skills for an engineering education.
 Credit/No Credit
- ENGR 105. Sustainable Design and Construction.** 3 Units
Prerequisite(s): Upper division standing or instructor permission.
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Strategies, analysis methods, and processes of environmentally conscious planning, design, construction, operation, deconstruction, and assessment of engineered facilities. Presents a systematic framework for problem solving, decision making, design, and construction using the principles of sustainability as guiding objectives. Tools, and techniques for gathering information, generating, analyzing, and evaluation alternatives, and developing implementation strategies are presented and demonstrated.
- ENGR 110. Analytic Mechanics - Dynamics.** 3 Units
Prerequisite(s): Student must pass ENGR 30, MATH 45, and MATH 32 or MATH 35 or MATH 100 with a minimum grade of C- or better.
Term Typically Offered: Fall, Spring, Summer
- Fundamental principles of kinematics and kinetics, study of motion and force analysis of particles and rigid bodies, application to idealized structures and physical systems, introduction to free and forced vibrations.
- ENGR 110W. Analytic Mechanics-Dynamics Workshop.** 1 Unit
Corequisite(s): ENGR 110.
Term Typically Offered: Fall, Spring, Summer
- Problem solving and discussion of topics in dynamics to enhance students' understanding of subject matter. Activity two hours.
Note: Can not be used for degree requirement.
- Credit/No Credit
- ENGR 112. Mechanics Of Materials.** 3 Units
Prerequisite(s): ENGR 30; ENGR 45; MATH 45; and either CE 4 or ENGR 6 (CE 4 or ENGR 6 may be taken concurrently).
Term Typically Offered: Fall, Spring, Summer
- Stresses, strains and deformations in elastic behavior of axial force, torsion and bending members, and design applications. Statically indeterminate problems. Strain energy. Column stability.
- ENGR 115. Statistics For Engineers.** 3 Units
Prerequisite(s): MATH 31, may be taken concurrently.
Term Typically Offered: Fall, Spring
- Application of statistical methods to the analysis of engineering and physical systems. Data collection, characteristics of distributions, probability, uses of normal distribution, linear and nonlinear regression analysis, hypothesis testing, and decision-making under uncertainty.
- ENGR 117W. Networks Workshop.** 1 Unit
Corequisite(s): EEE 117.
Term Typically Offered: Fall, Spring
- Elaborates on fundamentals and enhances students' understanding of networks.
Note: Not for degree credit.
- Credit/No Credit
- ENGR 120. Probability and Random Signals.** 3 Units
Prerequisite(s): EEE 180; may be taken concurrently.
Term Typically Offered: Fall, Spring, Summer
- Probability and random signals and their application in engineering systems. Topics include the random sample space model, concept of axiomatic probability, conditional probability, discrete and continuous random variables, probability density and distribution functions, functions and statistics of random variables, random vectors multivariate distributions, and correlation and covariance of random vectors. Applications include estimation, risk, signal detection, random signals and noise in linear systems, reliability, and estimation.
- ENGR 124. Thermodynamics.** 3 Units
Prerequisite(s): CHEM 1E, PHYS 11A, and MATH 32 or MATH 35 or MATH 100.
Term Typically Offered: Fall, Spring, Summer
- Study of thermodynamic principles and their applications to engineering problems. Includes a study of the first and second laws, the properties of pure substances and ideal gas, gas/vapor mixtures, and an introduction to thermodynamic cycles.
- ENGR 124W. Thermodynamics Workshop.** 1 Unit
Corequisite(s): ENGR 124.
Term Typically Offered: Fall, Spring, Summer
- Problem solving and discussion of topics in thermodynamics to enhance students' understanding of subject matter. Activity two hours.
 Credit/No Credit

ENGR 132. Fluid Mechanics. 3 Units Prerequisite(s): ENGR 110 (may be taken concurrently) Term Typically Offered: Fall, Spring, Summer	ENGR 201. Engineering Analysis I. 3 Units Prerequisite(s): MATH 45. Term Typically Offered: Fall, Spring
<p>Lectures and problems in the fundamental principles of incompressible and compressible fluid flow.</p>	<p>Mathematical methods for the solution of advanced engineering problems. Vector analysis, tensors and matrix algebra, complex variable techniques. The applications of these methods to practical engineering problems are demonstrated.</p>
ENGR 140. Engineering Economics. 2 Units Prerequisite(s): ENGR 17 or ENGR 30 Term Typically Offered: Fall, Spring, Summer	ENGR 202. Engineering Analysis II. 3 Units Prerequisite(s): MATH 45. Term Typically Offered: Fall, Spring
<p>Evaluation of economic consequences of engineering design proposals on projects. Emphasis on marginal or incremental economic analysis using Net Present Value, Annual Equivalence, Rate of Return and Benefit-Cost methods including multiple alternatives, taxes, uncertainty, inflation, organizational constraints and money market factors.</p>	<p>Mathematical methods for the solution of advanced engineering problems. Solutions of ordinary and partial differential equations, Fourier series and Laplace transforms and operational calculus. The applications of these methods to practical engineering problems are demonstrated.</p>
ENGR 150. Technical Communication. 3 Units Prerequisite(s): Recommendation based on the results of the WPG or instructor permission Term Typically Offered: Fall, Spring	ENGR 203. Engineering Statistics. 3 Units Prerequisite(s): ENGR 115 or equivalent. Term Typically Offered: Fall, Spring
<p>Practical technical communication for engineers and computer scientists. Topics covered include practical technical writing, improving technical writing style, development of strategies to improve writing, oral presentations, running effective meetings, and the use of visual aids. The use of appropriate communication technology is emphasized throughout the course.</p>	<p>Applications of statistics to engineering problems. Collection and analysis of data, sampling methods, design of experiments, probability theory, decision theory, analysis of variance, regression analysis, and mathematical curve fitting.</p>
ENGR 181. Electronic Materials. 3 Units Prerequisite(s): CHEM 1A, PHYS 11A, MATH 45. Term Typically Offered: Fall, Spring	ENGR 296. Experimental Methods for Fluids. 3 Units Prerequisite(s): ENGR 132, and either MATH 32 or ENGR 202 Term Typically Offered: Spring only
<p>Basic principles of materials behavior pertaining to electronics applications. Topics include electrical conductivity, bonding, crystal structures, optical properties, magnetic properties, energy transfer, and the fundamentals of some simple electronic devices. Lecture 3 hours.</p>	<p>Experimental methods for flow and transport phenomena are studied in the lecture and applied in the lab/field. Topics include planar laser induced fluorescence, acoustic velocimetry, and sediment transport.</p>
ENGR 194. Career Development Seminar. 1 Unit Term Typically Offered: Fall, Spring	ENGR 296A. Quality Management Systems for Engineers. 3 Units Prerequisite(s): Graduate Standing Term Typically Offered: Fall, Spring
<p>This course is designed for all ECS majors making career decisions and developing a job search strategy. Instruction will include: effective career planning strategies and techniques including skill assessment, interests, values, job search organization and strategies, goal setting, and time management as well as professional image development including interview techniques, resume writing, employment related correspondence and portfolio construction. Guest speakers from industry will be featured. Credit/No Credit</p>	<p>Designed to equip students with understanding of basic terms and definitions related to quality, a brief history and basic quality concepts, understanding measurement systems and tools, understanding differences of quality control (QC), quality assurance (QA) and quality management (QM), getting familiar with the applications of different tools, systems and standards and how to select proper tools for different quality requirements. Understanding basic inspection, auditing, assessment and evaluation techniques.</p>
ENGR 196B. Energy and Modern Life. 3 Units Term Typically Offered: Fall, Spring	<h2 style="margin: 0;">English (ENGL)</h2> ENGL 1. Basic Writing Skills. 3 Units Prerequisite(s): Score of 146 and below on English Placement Test or credit in ENGL 15. Department approval required. Term Typically Offered: Spring only
<p>Our "modern life" is intimately and increasingly intertwined with energy utilization. This course deals with where energy comes from, how it is converted to desirable forms, where it is consumed, and what the consequences of this consumption are. In each case, historical perspective, current status, and future projections will be discussed. The ultimate objective of this course is to help students to make informed decisions on energy-related issues in their personal life and as responsible citizens of the society.</p>	<p>Prepares students for the challenging thinking, reading, and writing required in academic discourse. Uses writing as a means for discovery and reflection as well as reading as a source for ideas, discussion, and writing. Concentrates on developing expository essays that communicate clearly, provide adequate levels of detail, maintain overall coherence and focus, and demonstrate awareness of audience and purpose. Note: May be taken for workload credit toward establishing full-time enrollment status, but is not applicable to the baccalaureate degree.</p>

ENGL 1C. Critical Thinking and Writing.**3 Units****Prerequisite(s):** Grade of C- or better in ENGL 5.**Term Typically Offered:** Fall, Spring

Devoted to the principles of critical thinking and the writing of argumentative essays. Focuses upon formulating defensible statements, evaluating evidence, and applying the principles of inductive and deductive reasoning.

ENGL 1X. Composition Tutorial.**1 Unit****Corequisite(s):** ENGL 5 or ENGL 5M or ENGL10 or ENGL 10M or ENGL 11 or ENGL 11M**Term Typically Offered:** Fall, Spring

Offers supplemental instruction in elements of composition and assists students in mastering the writing process with special emphasis on planning and revising essays. Instruction takes place both in traditional classroom setting and in small group and individual tutorials. Students enrolled in this tutorial must also be coenrolled in a first-year composition course as the focus will be drafting and revising the work done in the primary writing course.

Note: May be taken for workload credit toward establishing full-time enrollment status, but is not applicable to the baccalaureate degree.

Credit/No Credit

ENGL 3. Introduction to Academic Discourse.**4 Units****Term Typically Offered:** Fall, Spring

Offers students a rigorous introduction to academic discourse at the college level in the areas of critical reading, critical thinking, academic discussion, and the use of academic research. Concentrates on using expository texts as a foundation for analyzing the rhetorical strategies and effectiveness of an argument. Promotes academic discussion and fosters intellectual curiosity and collaboration.

Note: Receives baccalaureate credit.

Credit/No Credit

ENGL 3M. Introduction to Academic Discourse for Multilingual Students.**4 Units****Term Typically Offered:** Fall, Spring

Offers multilingual students a rigorous introduction to academic discourse at the college level in the areas of critical reading, critical thinking, academic discussion, and the use of academic research. Concentrates on using expository texts as a foundation for analyzing the rhetorical strategies and effectiveness of an argument. Promotes academic discussion and fosters intellectual curiosity and collaboration.

Note: Receives baccalaureate credit.

Credit/No Credit

ENGL 5. Accelerated Academic Literacies.**3 Units****General Education Area/Graduation Requirement:** Written Communication (A2)**Term Typically Offered:** Fall, Spring

Intensive, semester-long course to help students use reading, writing, discussion, and research for discovery, intellectual curiosity, and personal academic growth - students will work in collaborative groups to share, critique, and revise their reading and writing. Students will engage in reading and writing as communal and diverse processes; read and write effectively in and beyond the university; develop metacognitive understandings of their reading, writing, and thinking processes; and understand that everyone develops and uses multiple discourses.

Note: Writing requirement

ENGL 5M. Accelerated Academic Literacies - Multilingual.**3 Units****General Education Area/Graduation Requirement:** Written Communication (A2)**Term Typically Offered:** Fall, Spring

Intensive, semester-long course to help multilingual students use reading, writing, discussion, and research for discovery, intellectual curiosity, and personal academic growth - students will work in collaborative groups to share, critique, and revise their reading and writing. Students will engage in reading and writing as communal and diverse processes; read and write effectively in and beyond the university; develop metacognitive understandings of their reading, writing, and thinking processes; and understand that everyone develops and uses multiple discourses.

ENGL 10. Academic Literacies I.**3 Units****Term Typically Offered:** Fall only

Year-long course (combined with ENGL 11) to help students use reading, writing, discussion, and research for discovery, intellectual curiosity, and personal academic growth - students will work in collaborative groups to share, critique, and revise their reading and writing. Students will engage in reading and writing as communal and diverse processes; read and write effectively in and beyond the university; develop a metacognitive understanding of their reading, writing, and thinking processes; and understand that everyone develops and uses multiple discourses.

Note: Writing requirement

Credit/No Credit

ENGL 10M. Academic Literacies I - Multilingual.**3 Units****Term Typically Offered:** Fall, Spring

Year-long course (combined with ENGL 11M) to help multilingual students use reading, writing, discussion, and research for discovery, intellectual curiosity, and personal academic growth students will work in collaborative groups to share, critique, and revise their reading and writing. Students will engage in reading and writing as communal and diverse processes; read and write effectively in and beyond the university; develop a metacognitive understanding of their reading, writing, and thinking processes; and understand that everyone develops and uses multiple discourses.

Note: Writing requirement

Credit/No Credit

ENGL 11. Academic Literacies II.**3 Units****Prerequisite(s):** ENGL 10.**General Education Area/Graduation Requirement:** Written Communication (A2)**Term Typically Offered:** Spring only

Continued study (following ENGL 10) to help students use reading, writing, discussion, and research for discovery, intellectual curiosity, and personal academic growth - students will work in collaborative groups to share, critique, and revise their reading and writing. Students will engage in reading and writing as communal and diverse processes: read and write effectively in and beyond the university; develop a metacognitive understanding of their reading, writing, and thinking processes; and understand that everyone develops and uses multiple discourses.

Note: Writing requirement**ENGL 11M. Academic Literacies II-Multilingual.****3 Units****Prerequisite(s):** ENGL 10M.**General Education Area/Graduation Requirement:** Written Communication (A2)**Term Typically Offered:** Spring only

Continued study (following ENGL 10M) to help multilingual students use reading, writing discussion, and research for discovery, intellectual curiosity, and personal academic growth - students will work in collaborative groups to share, critique, and revise their reading and writing. Students will engage in reading and writing as communal and diverse processes; read and write effectively in and beyond the university; develop a metacognitive understanding of their reading, writing, and thinking processes; and understand that everyone develops and uses multiple discourses.

Note: Writing requirement**ENGL 15. College Language Skills.****4 Units****Prerequisite(s):** Score of 120-141 on the English Placement Test.**Term Typically Offered:** Fall, Spring

Instruction in reading and writing skills. Focuses on the interrelationship of reading and writing, with emphasis on development, organization, and clarity of communication. Lecture three hours; lab two hours.

Note: Utilizes computers.**ENGL 16. Structure Of English.****3 Units****Prerequisite(s):** ENGL 5 or equivalent.**Term Typically Offered:** Fall, Spring

Introduction to the terminology and structure of traditional grammar; analysis of the standard rules for agreement, punctuation, pronoun reference, etc.; introduction to social variance with respect to usage-standard vs. non-standard; and a description of the English sound system (vowels and consonants) and its relationship to standard orthography (sound/letter correspondences) spelling rules.

ENGL 20. College Composition II.**3 Units****Prerequisite(s):** Completion of ENGL 5 or ENGL 5M OR ENGL 11 or ENGL 11M or equivalent with a C- or better; sophomore standing (must have completed 30 units prior to registration).**Term Typically Offered:** Fall, Spring

Advanced writing that builds upon the critical thinking, reading, and writing processes introduced in ENGL 5 and ENGL 5M. Emphasizes rhetorical awareness by exploring reading and writing within diverse academic contexts with a focus on the situational nature of the standards, values, habits, conventions, and products of composition. Students will research and analyze different disciplinary genres, purposes, and audiences with the goals of understanding how to appropriately shape their writing for different readers and demonstrating this understanding through various written products.

Note: Writing requirement**ENGL 20M. College Composition II for Multilingual Students.****3 Units****Prerequisite(s):** ENGL 5 or ENGL 5M or equivalent; sophomore standing**Term Typically Offered:** Fall, Spring

Advanced writing for multilingual that builds upon the critical thinking, reading, and writing processes introduced in English 5/5M. Emphasizes rhetorical awareness by exploring reading and writing within diverse academic contexts focusing on the situational nature of the standards, values, habits, conventions, and products of composition. Students will research and analyze different disciplinary genres, purposes, and audiences with the goals of understanding how to appropriately shape their writing for different readers and demonstrating this understanding through various written products.

Note: Writing requirement**ENGL 21. First Year Seminar: Becoming an Educated Person.****3 Units****General Education Area/Graduation Requirement:** Understanding Personal Development (E)**Term Typically Offered:** Fall only

Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Provides students with the opportunity to interact with fellow students and the seminar leader and to build a community of academic and personal support.

ENGL 30A. Introduction to Creative Writing.**3 Units****Term Typically Offered:** Fall, Spring

Workshop for students who have had little or no experience writing fiction or poetry and who are trying to decide if they are interested in becoming writers. Over the course of the semester, students write and polish several poems and short stories which they present for critique and commentary. In addition, they study the basic elements of fiction and poetry and learn how to use these effectively in their own work.

ENGL 30B. Introduction to Writing Fiction.**3 Units****Term Typically Offered:** Fall, Spring

Workshop for students who have had little or no experience writing fiction. Students write and polish several short stories which they present for critique and commentary. In addition, they study the basic elements of plot, character, description, and dialogue and learn how to use these effectively in their own fiction.

- ENGL 30C. Introduction to Poetry Writing.** **3 Units**
Term Typically Offered: Fall, Spring
- Designed for lower division students who have little or no experience writing poetry. Students will write approximately twelve poems in a variety of forms and receive instruction and practice in the workshop method. In addition, they study the basic elements of poetic craft: rhythm, enjambment, basic figures of speech, etc., and how to use them effectively in their own poetry.
- ENGL 40A. Introduction to British Literature I.** **3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only
- Major developments in the literature of England from Chaucer through the close of the Augustan Age.
- ENGL 40B. Introduction to British Literature II.** **3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only
- Major developments in the literature of England from the Pre-Romantics and Romantics through the 20th century.
- ENGL 50A. Introduction to American Literature I.** **3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only
- Major developments in the literature of America from the beginnings through the Civil War.
- ENGL 50B. Introduction to American Literature II.** **3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only
- Major developments in American Literature from the end of the Civil War to the present.
- ENGL 60. Reading for Speed and Efficiency.** **2 Units**
Term Typically Offered: Fall, Spring
- Strategies and techniques to promote greater reading efficiency and flexibility and increase reading speed. Drills to develop rate and comprehension as well as supplementary practice in the LSC reading lab.
Note: Utilizes computers; may be repeated for credit.
- Credit/No Credit
- ENGL 60M. Reading for Speed and Efficiency for Multilingual Students.** **2 Units**
Term Typically Offered: Fall, Spring
- Strategies and techniques to promote greater reading efficiency and flexibility as well as to increase reading speed for college-level multilingual readers. Classroom instruction includes drills to develop rate and comprehension as well as supplementary practice in the LSC reading lab.
Note: Utilizes computers; May be repeated for credit.
- Credit/No Credit
- ENGL 65. Introduction to World Literatures in English.** **3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
- An introduction to world literature written in English that places writers and their works within colonial, post-colonial, and literary contexts. Texts may come from Africa, India, Southeast Asia, the Middle East, the Caribbean, Canada, and non-English Britain.
- ENGL 85. Grammar for Multilingual Writers.** **2 Units**
Term Typically Offered: Spring only
- Covers the major systems of English grammar in the context of reading passages and the students' own writing. Practice in editing authentic writing.
Note: May be repeated for credit.
- Credit/No Credit
- ENGL 86. College Language Skills for Multilingual Students.** **4 Units**
Prerequisite(s): Score of 120-141 on the English Placement Test or score of 2 or 3 on the English Diagnostic Test.
Term Typically Offered: Fall, Spring
- Focuses on the interrelationships of reading and writing, with emphasis on development, organization, grammar, and clarity of communication. Lecture three hours; lab two hours.
Note: Utilizes computers.
- Credit/No Credit
- ENGL 87. Basic Writing Skills for Multilingual Students.** **3 Units**
Prerequisite(s): Score of 142-145 on English Placement Test or score of 4 on English Diagnostic Test, or credit in ENGL 86.
Term Typically Offered: Fall, Spring
- Emphasizes writing and language development. Instruction in reading and essay writing, from idea generation to revision and editing.
 Credit/No Credit
- ENGL 90A. Modern Short Plays.** **3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
- ENGL 97. Introduction to Film Studies.** **3 Units**
Term Typically Offered: Fall, Spring
- Examines cinematic techniques, styles, vocabulary, and discourses. Introduces different ways for writing about films and for working with a variety of cinematic terms. Film form and style will be studied by examining specific scenes in films from different genres, nations, and directors. Films used throughout the course will be selected from different historical periods.
 Cross-listed: FILM 97.
- ENGL 100B. Literary Theory.** **3 Units**
Term Typically Offered: Fall, Spring
- Designed to engage students in a productive conversation about the various theories of literature and reading that currently inform Literary Studies. Provides a historical overview of modern theory including, but not limited to, Formalism, Structuralism, Psychoanalysis, Marxism, Deconstruction, and Feminism. Students are encouraged to apply these theories to their practice of literary criticism and to assess the strengths and weaknesses of each paradigm.

ENGL 100Z. Topics in Literary Theory and Criticism. ✍ 3 Units

Prerequisite(s): GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

Investigates one or more schools of literary theory or criticism and their application to works of literature and/or film.

Note: May be repeated twice for credit as long as topics vary; Writing Intensive

ENGL 105. Film Theory and Criticism. 3 Units

Term Typically Offered: Fall, Spring

Survey of film theory focusing on Auteursism, Class, Expressionism, Formalism, Genre, Gender, Narratology, Neorealism, Phenomenology, Post Structuralism, Psychoanalysis, Realism, Semiology, Structuralism and Third Cinema.

Cross listed: FILM 105.

ENGL 109M. Writing for GVAR Placement-Multilingual. 3 Units

Prerequisite(s): ENGL 20 with at least a C- grade or better and have completed at least 60 semester units.

Term Typically Offered: Fall, Spring

Provides intensive practice in prewriting, drafting, revising, and editing academic writing for multilingual writers. Students research, analyse, reflect on, and write about the kinds of writing produced in academic disciplines. Students produce a considerable amount of writing such as informal reading responses, rhetorical analyses, and an extended academic research project: students will submit their writing late in the semester in a GVAR Portfolio, from which they will receive a GVAR Placement.

ENGL 109W. Writing for GVAR Placement. 3 Units

Prerequisite(s): English 20 with a C- grade or better and have completed at least 60 semester units.

Term Typically Offered: Fall, Spring

Provides intensive practice in prewriting, drafting, revising, and editing academic writing. Students research, analyse, reflect on, and write about the kinds of writing produced in academic disciplines. Students produce a considerable amount of writing such as informal reading responses, rhetorical analyses, and an extended academic research project: students will submit their writing late in the semester in a GVAR Portfolio, from which they will receive a GVAR Placement.

ENGL 109X. Writing-Intensive Workshop. 1 Unit

Prerequisite(s): Writing Placement for Juniors: student who receive a 4-unit placement on the WPJ.

Corequisite(s): Writing-Intensive upper-division course.

Term Typically Offered: Fall, Spring

Student-centered group tutorial which will offer supplemental instruction in elements of academic writing taught in writing-intensive upper-division courses; it will provide support to students concurrently enrolled in writing-intensive upper-division courses throughout the writing process, including drafting, revising, and editing, for a variety of papers.

Credit/No Credit

ENGL 110A. Linguistics and the English Language. 3 Units

Term Typically Offered: Fall, Spring

Survey of modern English and the basic concepts of modern linguistics. Students will learn how linguists view regularity in language, as exemplified by data from English. Students will also learn how English spelling is an imperfect representation of sounds, how the sound system of English operates, how words and sentences are formed and may be analyzed, how the language changes over time, space, and social setting, and how the language is learned by children and adults.

ENGL 110B. History of the English Language. 3 Units

Term Typically Offered: Fall, Spring

Survey of the linguistic and social history of the English language, tracing its growth from a minor dialect of the Germanic family to one of the most widely spoken languages of the world. Topics include structural change in the language, vocabulary growth, and variation in English around the world.

ENGL 110C. Technology in Second Language Teaching. 3 Units

Term Typically Offered: Summer only

Prepares language teachers to effectively integrate technology into classrooms. Examines theoretical rationales for using computer-assisted language learning, the range of uses of technology in classrooms, and best practice. Develops students' technological literacy and ability to critically evaluate computer-assisted language teaching materials. Cross Listed: ENGL 210C; only one may be counted for credit.

ENGL 110J. Traditional Grammar and Standard Usage. 3 Units

Term Typically Offered: Fall, Spring

Develops a thorough understanding of basic issues in traditional English grammar and usage. It emphasizes knowledge of traditional grammar needed by single-subject credential students expecting to teach high school English. Topics include parts of speech, functions of words in sentences, phrases and clauses, and punctuation. Students will learn to apply their knowledge of grammar in composition instruction and marking essays. Students will also study use of specific grammatical features in developing rhetorical styles.

ENGL 110P. Second Language Learning and Teaching. 3 Units

Term Typically Offered: Fall, Spring

Surveys the major issues involved in the acquisition of second languages and in teaching second language (L2) students. Topics covered include differences between first and second language acquisition, including age, biology, cognitive styles, personality, sociocultural factors, and linguistic variables; in addition, various models, techniques and approaches to L2 teaching are covered. Special attention is given to the unique demographics and characteristics of language minority students in California's public schools.

ENGL 110Q. English Grammar for ESL Teachers. 3 Units

Term Typically Offered: Fall, Spring

A survey of those aspects of English grammar that are relevant to teaching second language learners of English. The emphasis is on elements of simple and complex sentences, particularly the structure of noun phrases, the meanings of verb forms, and the expression of adverbial meanings.

ENGL 116A. Studies in Applied Linguistics. 3 Units

Prerequisite(s): GEAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.

Term Typically Offered: Fall, Spring

Students learn the basics of the English system of phonology and morphology. Takes an integrated approach synthesizing the issues of phonics, schemata-building, and whole language strategies in teaching reading and writing to young learners. Students will also learn the importance of first and second language acquisition for elementary school students. Evaluation will include classroom examinations, and students will also undertake a detailed case study of one child learning to read and write.

ENGL 116B. Children's Literary Classics. 3 Units

Prerequisite(s): Successful completion of at least 60 units (junior standing).

Term Typically Offered: Fall, Spring

Introduction to the rich profusion of children's literature from a variety of cultures and countries and provides the opportunity to respond to this literature creatively and personally. Students will become familiar with the basic terminology of literary analysis – themes, irony, point-of-view, etc. – in order to deepen and enrich their experiences with the fiction, drama, and poetry available to young people. The readings are balanced for gender, culture, and ethnic concerns.

ENGL 120A. Advanced Composition. 3 Units

Prerequisite(s): GEAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.

Term Typically Offered: Fall, Spring

An intensive writing workshop in which student writing is the focus. Students will engage in a writing process that will include feedback from peers and the instructor throughout the process. This writing process may occur in a variety of rhetorical situations and genres. Through reflection on their writing products and processes, students will gain an awareness of themselves as writers. By the end of the course students will complete an extensive research project focused on academic inquiry.
Note: ENGL 120A is a requirement for English majors.

ENGL 120C. Topics in Composition. 3 Units

Prerequisite(s): ENGL 20 or ENGL 120A. GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

Offers a rotating series of topics relevant to composition studies, such as technology-based writing, writing across the curriculum, critical literacy, etc. Introduces students to the theory and practice of the field under consideration. Regardless of the topics, students will explore the major scholarly works of the field and produce writing that analyzes and utilizes the concepts in the area under consideration.

Note: May be repeated for credit as long as topic differs.

ENGL 120P. Professional Writing. 3 Units

Prerequisite(s): ENGL 20 or ENGL 120A. GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

Teaches students the most common professional writing genres used in career fields ranging from business to public relations to nonprofit management. Focuses on how business or technical communication is different from academic styles and introduces students to the current writing challenges and practices in these fields. Students will gain instruction and practice composing various essential writing formats, such as memos, reports, and feasibility studies.

ENGL 120R. Topics in Rhetoric. 3 Units

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

Offers a rotating series of topics relevant to rhetorical studies, such as digital rhetoric, cultural rhetorics, contemporary rhetorical theories, etc. Introduces students to the theory and practice of the field under consideration. Regardless of the topic, students will explore the major scholarly works of the field and produce writing that analyzes and utilizes the concepts in the area under consideration.

Note: May be repeated for credit as long as topic differs. Prerequisite

ENGL 120S. Writing in the Social Sciences. 3 Units

Prerequisite(s): GEAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.

Term Typically Offered: Fall, Spring

Introduces principles of analyzing and composing texts appropriate for various social science disciplines. Provides practice in analyzing texts in social science journals and in writing abstracts, summaries, and literature reviews. Appropriate for upper-division undergraduate students and beginning graduate students in TESOL and in other social science programs (e.g., psychology, sociology, anthropology, etc.)

ENGL 120X. MLA and APA Style Guides. 1 Unit

Corequisite(s): ENGL 120A, ENGL 198T, a Writing Intensive course, or instructor permission.

Term Typically Offered: Fall, Spring

Students will learn how to format papers, cite sources, and integrate in-text citations into their work according to MLA and APA formatting and style guides.

ENGL 121. Writing Center Tutoring. 1 Unit

Term Typically Offered: Fall, Spring

One-on-one tutoring in reading and writing at the University Writing Center. Student writers will meet with assigned tutor an hour a week. Topics could include understanding assignments, prewriting, revising, reading strategies, editing strategies, integrating research, etc. Students must sign up for a regular tutoring session time during week two of the semester at the University Writing Center.

Note: May be repeated for credit.

Credit/No Credit

ENGL 125A. Literature and Film for Adolescents. 3 Units**Prerequisite(s):** ENGL 20 or 120A**Term Typically Offered:** Fall, Spring

Provides prospective secondary school English teachers with an opportunity to think through important issues related to the planning and implementation of literature programs for adolescents. Equal emphasis will be given to the study of poetry, fiction, non-fiction, drama, and film. The focus will embrace literature from a variety of cultures and periods.

ENGL 125B. Writing and the Young Writer. 3 Units**Prerequisite(s):** ENGL 20 or ENGL 120A; and ENGL 110J or ENGL 110Q or ENGL 16**Term Typically Offered:** Fall, Spring

Provides an introduction to teaching writing in high school and operates on the assumption that the need for and impact of writing competence for students is interdisciplinary and pervasive. The class has a workshop format, and students will practice many of the strategies studied. The texts will cover theoretical issues in teaching composition and practical methods of implementing theory in public school classrooms.

ENGL 125E. Academic Reading and Writing for Second Language Students. 3 Units**Term Typically Offered:** Fall, Spring

Helps prospective teachers to better understand the unique needs of second language students. Covers second language acquisition theory with particular emphasis on the teaching of reading and writing for academic purposes. Practical skills covered will all focus on the particular needs of second language readers and writers, for instance, how to help them to read more efficiently and with greater comprehension, how to write more fluently and accurately in ways that meet the needs and expectations of the academic discourse community.

ENGL 125F. Teaching Oral Skills. 3 Units**Term Typically Offered:** Fall, Spring

Provide students with both the necessary background knowledge as well as the specific pedagogical tools for promoting proficiency in spoken interaction, listening skills, and pronunciation in second language/foreign language contexts, specifically, English as a Second Language (ESL) and English as a Foreign Language (EFL).

ENGL 130A. Intermediate Fiction Writing. 3 Units**Prerequisite(s):** ENGL 30A or ENGL 30B.**Term Typically Offered:** Fall, Spring

Workshop for students who already have some experience writing short stories. Students write and polish several stories which they present for critique and commentary. They also take an in-depth look at the theory and craft of fiction-writing, analyze the stories of contemporary writers from diverse ethnic and cultural backgrounds, and learn how to apply what they have learned to their own writing.

ENGL 130B. Intermediate Poetry Writing. 3 Units**Prerequisite(s):** ENGL 30A or ENGL 30C.**Term Typically Offered:** Fall, Spring

Designed for students interested in developing their poetic expression beyond the basics covered in ENGL 30A and ENGL 30C. Emphasizes practice and experimentation with meters, verse forms, and figures of speech. Focal points for analysis and discussion will be poems and essays by contemporary poets of various aesthetic orientations, as well as work produced by members of the class.

ENGL 130C. Special Topics in Poetry Writing. 3 Units**Prerequisite(s):** ENGL 30A or ENGL 30C.**Term Typically Offered:** Fall, Spring

Provides students with further opportunity to refine their poetic craft beyond the levels achieved in 30C and 130B. Emphasizes further experimentation with meters, verse forms, and figures of speech as well as questioning the "rules" of poetry and encouraging students to blur or defy the boundaries of genre. Focal points for analysis and discussion will be poems and essays by contemporary poets of various aesthetic orientations, as well as work produced by members of the class.
Note: May be repeated twice for credit assuming the topic is different.

ENGL 130D. Meter and Rhythm. 3 Units**Term Typically Offered:** Fall, Spring

Offers an in-depth study of prosody including the principles of meter (line measurement) and scansion (the marking of stressed syllables to determine meter and rhythm), as well as examining the relationship of these principles to verse in English. Examines a variety of poetic schemes, tropes, and forms. Three hours, lecture and guided practice.

ENGL 130F. Writing For Television. 3 Units**Term Typically Offered:** Fall, Spring

Focuses on training students in video literacy and script writing for the video explosion: educational media, documentaries, and interactive programs.

ENGL 130G. Between Genres: Flash Fiction/Prose Poetry. 3 Units**Term Typically Offered:** Fall, Spring

Offers undergraduate poets and fiction writers the opportunity to explore/experiment with the long-standing anti-genre of the poetry/fiction hybrid. For 200 years writers around the world have noted the symbiosis between the genres of poetry and prose. Currently, some of America's most exciting writers are currently exploring the margins between prose poetry, flash fiction, and related evolving forms. Prerequisite: ENGL 30A, ENGL 30B, or ENGL 30C.

ENGL 130J. Writing Feature Filmscripts. 3 Units**Term Typically Offered:** Fall, Spring

Workshop designed for students who have little or no previous experience writing for the screen. Students write the synopsis, treatment, and part of the master scene script for a feature film, all of which are polished and revised in a workshop setting. Special attention is given to the dynamics of plot, characterization, and dialogue with an emphasis on the difference between writing for film and writing other kinds of fiction.

ENGL 130M. Art of Autobiography. 3 Units**Prerequisite(s):** At least a C- grade in ENGL 30A or 30B, and GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.**General Education Area/Graduation Requirement:** Arts (Area C1), Writing Intensive Graduation Requirement (WI)**Term Typically Offered:** Fall, Spring

Students keep a journal and write several drafts of an autobiographical essay which they present for critique and commentary. They also read and analyze several biographies and journals by writers from diverse ethnic and cultural backgrounds.

ENGL 130N. Creative Non-Fiction.**3 Units****Prerequisite(s):** ENGL 30A or ENGL 30B.**Term Typically Offered:** Fall, Spring

Students write several non-fiction pieces which may include (but are not limited to) autobiography, memoir, nature-writing, travel writing, and literary memoir. Students need not previously have had fiction-writing experience to take this course, but they must be prepared to write literary non-fiction of high quality.

ENGL 130W. Advanced Poetry Writing.**3 Units****Prerequisite(s):** ENGL 30A or ENGL 30C

Theory and practice in the writing of poetry at the advanced level.

Consists primarily of the preparation and evaluation of student work.

Students are also assigned supplemental readings designed to help them determine their affinity (or lack of affinity) with current poetic theory and practice.

ENGL 130Y. Creative Writing for Young Audiences.**3 Units****Prerequisite(s):** ENGL 30A or ENGL 30C**Term Typically Offered:** Fall, Spring

In this creative writing course students will learn how to write children's literature in a wide array of genres, including picture book texts, early readers, poetry, and middle grade and young adult novels. The course will give an overview of these genres and through portfolio assignments allow students to sample different genres and gain expertise in one particular genre.

ENGL 140A. Introduction to Old English.**3 Units****Term Typically Offered:** Fall, Spring

Study of the grammar of Old English with particular attention to its survival in the modern language. Shows students how to use their instincts as native speakers of Modern English to acquire a good working sense of the original form of the language. Readings in biblical and historical texts will be supplemented by an introduction to Old English paleography which will allow students to access literature in the original.

ENGL 140B. Medieval Literature.**3 Units****Term Typically Offered:** Fall, Spring

Survey of English literature from 1100 to 1500. Students will read texts from the various genres of Middle English literature—romance, lyric, ballad, lay, drama, history—in the dialects of origin. Focuses on how medieval thought both differs from and anticipates modern thought.

ENGL 140C. The English Renaissance.**3 Units****Term Typically Offered:** Fall, Spring

English Renaissance refers to exploration, experimentation, and creativity during the sixteenth and early seventeenth centuries in England. The poets, playwrights, and prose writers of the age include Shakespeare, Marlowe, Jonson, Spenser, Donne, Bacon, Sidney, and Milton. Explores, discusses, and analyzes representative works by figures of the age—including prose and poetry—making connections between the writers and the cultural context in which they worked.

ENGL 140E. Restoration Comedy.**3 Units****Term Typically Offered:** Fall, Spring

In-depth examination of the drama of late 17th century England, a drama which revolutionized the British theater and whose influence is still very much with us. It includes the study of the age itself, the social and political issues of the time as well as its art, specifically its comedies of manners, which it examines in their historical context as immediate descendants of Jacobean drama and progenitors of the Sentimental comedy of the 18th century.

ENGL 140F. The Golden Age Of Satire.**3 Units****Term Typically Offered:** Fall, Spring

Covers the period from 1680 to 1745, focusing on the major works of England's greatest satirists: John Dryden, Jonathan Swift, John Gay, William Hogarth (the painter), and Alexander Pope. It begins with a general discussion of the nature and purpose of satire.

ENGL 140G. Birth of the British Novel.**3 Units****Term Typically Offered:** Fall, Spring

The novel as we know it today was invented in the 18th century. Students study the origins of the novel and read several major works of 18th-century British fiction, such as Defoe's *Moll Flanders*, Richardson's *Clarissa*, Fielding's *Tom Jones*, Sterne's *Tristram Shandy*, and Austen's *Pride and Prejudice*. Students also study Samuel Johnson who, though not a novelist, was perhaps the greatest prose writer of the period.

ENGL 140H. Nineteenth Century Novel.**3 Units****Term Typically Offered:** Fall, Spring

Devoted to exploring the fiction of nineteenth-century British novelists from Jane Austen through Thomas Hardy. Particular attention is paid to prevalent genres, especially the mixing of romance and realism, narrative and plot structures, imagery patterns, character types and anti-types, and thematic concerns, which usually involve some sort of conflict between the self and society, the individual and institutions (or the environment).

ENGL 140I. British Romanticism.**3 Units****Term Typically Offered:** Fall, Spring

Examines British literature and culture during the late eighteenth and early nineteenth centuries. Topics may include war and revolution, tourism and the picturesque, genius and imagination, the Gothic, Romantic orientalism and literature and the environment. Writers covered may include Smith, Blake, Wollstonecraft, the Wordsworths, Scott, Coleridge, Austen, de Quincey, Byron, the Shelleys, Hemans and Keats.

ENGL 140J. The Victorian Imagination.**3 Units****Term Typically Offered:** Fall, Spring

Explores themes and forms of the Victorian period, stressing the evolving role of the artist and the growth of self-consciousness in verse and prose. Victorian themes like the divided self, the love-duty conflict, and the inevitable crises of faith are recurring problems in the obsessive Victorian debate between flesh and spirit. Analyzes this dialectic in the poetry of Browning, Tennyson, the Pre-Raphaelites and Decadents, in a representative novel, and in the prose of Ruskin, Mill, and Pater.

ENGL 140K. Modern British Literature, 1900-Present. 3 Units
Term Typically Offered: Fall, Spring

In-depth examination of some of the important British texts in fiction, poetry, and drama from 1900 to the present. The works dramatize the important historical, social and aesthetic changes in a century which saw the collapse of the British Empire, the spread of democracy, the rise of Modernism and the Absurd in the arts, and the continuing struggle of the personal statement in an impersonal world.

ENGL 140L. Modern British Fiction, 1900-Present. 3 Units
Term Typically Offered: Fall, Spring

Survey of British fiction from 1900 to the present which covers the struggle between traditional Realism and Modernism in the novel, the decline and fall of the British Empire and the rise of the former colonies as purveyors of fictions in English in their own right, and the development of new experimental forms in the last decades of the 20th century.

ENGL 140M. Modern British Drama, 1889-Present. 3 Units

Prerequisite(s): GWA certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Arts (Area C1), Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

In-depth examination of British drama from the arrival of Ibsen's *The Doll House* on the British stage (and Shaw's publication of his influential treatise *The Quintessence of Ibsenism*) both laying to rest for serious artists the moralistic, bourgeois theater of the late 19th century. Includes study of various dramatic movements in England --including realism, absurdism, kitchen-sink naturalism, surrealism, epic theater, expressionism.

ENGL 140R. Renaissance Drama. 3 Units
Term Typically Offered: Fall, Spring

Readings in and analysis of English drama written in the period, roughly, from 1500-1660. Provides a survey of playwrights and genres from the entire period or focus on a particular theme or a grouping of authors. Students will come to understand the texts as well as the variety of historical, political, cultural, social, sexual, and religious contexts in which the playwrights of the era composed their works.

ENGL 140Z. Studies in British Literature. 3 Units
Term Typically Offered: Fall, Spring

Topics in periods and movements in the literature of Britain. Course may focus on a limited period (e.g. The Edwardian Age), a single author (e.g. Anthony Trollope or Margery Kempe), an authorial dialogue (e.g. Shakespeare and Wilde or G.M. Hopkins and Christina Rossetti), or a unique literary feature, theme, or structure (e.g. the Sonnet or Literature and the Law).

ENGL 141A. The Essential Shakespeare. 3 Units

Prerequisite(s): GWA certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Arts (Area C1)

Term Typically Offered: Fall, Spring

Non-technical approach to Shakespeare's most representative dramatic works, designed for the non-major. Focuses upon Shakespeare's typical themes, conventions, and techniques, his development of character and situation, and his relationship to the culture and values of both his own and subsequent ages.

ENGL 141B. Shakespop: Shakespeare and Popular Culture. 3 Units
Term Typically Offered: Fall, Spring

The works of William Shakespeare circulate in our culture in a wide variety of ways - in music, art, dance, film, television, advertising, management manuals, self-help books, etc. sometimes staying close to the original texts and at other times barely skimming the surface for cultural capital. This course will examine the dynamic relationships between Shakespeare in its diverse forms and popular culture by examining various instances of Shakespearean appropriation and adaptation. Themes include Shakespeare in Love, War, Business, and Youth Culture.

ENGL 145A. Chaucer - Canterbury Tales. 3 Units
Term Typically Offered: Fall, Spring

Reading of *The Canterbury Tales* in Middle English. Chaucer's great unfinished poem will be investigated as the pinnacle of literary achievement in the English Middle Ages, a work that attempts, like Dante's *Divine Comedy*, to account for all the issues and problems of human life as medieval thinkers had come to regard them.

ENGL 145B. Shakespeare - Early Plays, 1592-1600. 3 Units
Term Typically Offered: Fall, Spring

Exploration of representative plays from roughly the first half of Shakespeare's career as a dramatist, including early and middle comedies (e.g., *A Midsummer Night's Dream*, *As You Like It*), early and middle tragedies (e.g. *Richard II*, *Henry IV, Part One*), while situating the plays within their cultural and historical context.)

ENGL 145C. Shakespeare - Later Plays, 1600-1612. 3 Units
Term Typically Offered: Fall, Spring

Exploration of representative plays from roughly the second half of Shakespeare's career as a dramatist, with emphasis on the major tragedies (*Hamlet*, *Othello*, *King Lear*, and *Macbeth*), but also including the middle comedies (e.g., *Twelfth Night*, *Measure for Measure*) and the later romances (e.g., *The Winter's Tale*, *The Tempest*), while situating the plays within their cultural and historic context.

ENGL 145I. John Milton. 3 Units
Term Typically Offered: Fall, Spring

Students study the major poems of Milton-among them *Comus*, "Lycidas," *Paradise Lost*, *Paradise Regained*, and *Samson Agonistes*-giving special attention to *Paradise Lost*. Students will also consider such prose works as *Of Education*, the divorce tracts, and *Areopagitica*, Milton's famous argument against censorship. Finally, it includes lectures on the Puritan Revolution of 1640-60 and Milton's role in it.

- ENGL 150A. Early American Literature. 3 Units**
Term Typically Offered: Fall, Spring
- Focusing on the literature of early American settlement, the literature that first defined our nation. Students analyze such works as oral literature of Native America, earliest writings of Spanish explorers, Puritan settlement literature, Captivity Narratives of the 17th through 19th centuries, Witchcraft Narratives, and Slave Narratives. Students might also study connections to later works (e.g., Puritan literature and Hawthorne's *Scarlet Letter*, Witchcraft narratives and Miller's *The Crucible*).
- ENGL 150B. American Romanticism. 3 Units**
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
- Focuses on one of the great periods in the history of literature. It has appropriately been called the American Renaissance. Writers covered might include but not be limited to Poe, Hawthorne, Emerson, Thoreau, Fuller, Melville, Whitman, Dickinson.
- ENGL 150C. American Realism. 3 Units**
Term Typically Offered: Fall, Spring
- Examines American literature written during the period after the Civil War, a time of unprecedented change that transformed America from rural, agricultural, and homogeneous culture into its urban, industrial, heterogeneous counterpart. It investigates how the literature of this period reflected these changes and simultaneously tried to reconcile them with the values of an earlier America. The magnitude of this endeavor produced a remarkable literary heritage for the 20th century.
- ENGL 150D. Early Modern Fiction, 1910-1950. 3 Units**
Term Typically Offered: Fall, Spring
- Survey of the important historical movements and conflicts in American literature, including the development of Realism and Naturalism, the experimental Modernist movement of the twenties, the populist literature of the thirties and the development of psychological realism in the forties.
- ENGL 150E. American Poetry, 1910-1950. 3 Units**
Term Typically Offered: Fall, Spring
- Many scholars argue that American literature's greatest achievement in the twentieth century literature is in the genre of poetry. Offers a survey of such movements as the "New Poetry," Modernism, Imagism, Primitivism, and Postmodernism. Major figures will include, but not be limited to, Robinson, Frost, Eliot, Pound, Millay, Cummings, Stevens, W.C. Williams, Jeffers, Moore, and Hughes.
- ENGL 150F. Contemporary American Fiction, 1950-Present. 3 Units**
Term Typically Offered: Fall, Spring
- Surveys American fiction in the decades immediately following World War II. These novels deal with themes such as exhaustion, social unrest, historical conspiracy, and political coercion. Representative figures include, but are not limited to, Ralph Ellison, John Barth, Philip Roth, Joan Didion, Thomas Berger, Vladimir Nabokov, Marilynne Robinson, Thomas Pynchon.
- ENGL 150G. Contemporary American Poetry, 1950-Present. 3 Units**
Term Typically Offered: Fall, Spring
- Examines the richness of American poetry since World War II giving some consideration to the impact of recent world poetry brought to us by our skillful poet/translators.
- ENGL 150H. Recent American Fiction, 1980-Present. 3 Units**
Term Typically Offered: Fall, Spring
- Introduction to the remarkable flowering of American fiction in the late decades of the twentieth century. The primary focus is to scrutinize a collection of novels for which there is no firmly established critical opinion but which are nonetheless distinguished fictional accomplishments. Emphasis is placed on revealing the diversity of voices and the ways in which these writers demonstrate the continuing possibilities for artistic variety and experimentation.
- ENGL 150I. Modern American Short Story. 3 Units**
Term Typically Offered: Fall, Spring
- Since the publication of Washington Irving's "Legend of Sleepy Hollow," Americans have excelled at the genre of the short story. Offers a survey of traditional "masters" and recent innovators. Provides an opportunity to read a wide variety of writers (such as Wharton, Chopin, Crane, Gilman, James, Anderson, Hemingway, Faulkner, Ellison, O'Connor, Barth, Oates, Proulx, Roth, Carvey, and Welty), and examine a range of forms, themes and experiences that reflect and shape American culture.
- ENGL 150J. Twentieth Century American Drama. 3 Units**
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
- In-depth examination of American drama, starting with Eugene O'Neill. Traces American drama from the turn-of-the-century to the present, examining the plays themselves—their themes, dramatic idioms, stage craft and European influences—in their social, historical and artistic contexts.
- ENGL 150L. Lost Generation Writers. 3 Units**
Term Typically Offered: Fall, Spring
- Examines one of the most remarkable flowerings of literary achievement in American letters, the writing of "The Lost Generation," authors born between 1885 and 1900. Unified by a profound disillusionment with American culture after World War I, writers such as T.S. Eliot, Eugene O'Neill, William Faulkner, and Ernest Hemingway produced enduring modern masterpieces. In the process they demonstrated that their generation might find in art what had been lost on the battlefield.
- ENGL 150M. California Fiction. 3 Units**
Term Typically Offered: Fall, Spring
- Focuses on the California phenomenon—the place where the American dream can reach fulfillment—and how this phenomenon has captivated writers for decades. Presents a cross-section of this fiction, examining the various literary manifestations of the California phenomenon.

ENGL 150P. The American Gothic.**3 Units****Term Typically Offered:** Fall, Spring

Explores American works written in the Gothic mode. In novels, captivity narratives, short stories, and poetry, we will investigate representations of terrifying, uncanny, and supernatural phenomena. As we trace the development of the Gothic mode in American literature, we will examine how narratives and poetic depictions of horror rehearse our individual and cultural fears about sexuality, race, violation, rebellion, madness, and death, and we will inquire into that thrill of macabre pleasure that attends the exploration of the darker side of life.

ENGL 150R. American Regionalism.**3 Units**

Examines literature by American regionalist writers during the late-nineteenth century. Topics may include nationalism, sectional divides, local color, dialect fiction, conditions of publication, and emerging women writers and writers of color. Students will investigate the role that regionalism plays in relation to literary representations that depict the conflicting and complex social, cultural, and historical formation of racialized and gendered identities.

ENGL 155E. Hemingway and Fitzgerald.**3 Units****Term Typically Offered:** Fall, Spring

Intensive study of two of the most important American writers of the 20th century: Ernest Hemingway and F. Scott Fitzgerald. This focus on two authors allows students to read them in-depth, to examine the dynamics of their friendship, and to explore the similarities and differences in their responses to World War I and the Great Depression.

ENGL 165A. A Survey of Irish Literature.**3 Units****Term Typically Offered:** Fall, Spring

Survey of Irish literature, beginning with various myths, moving through the bardic period and eighteenth and nineteenth centuries, and then centering upon the "Irish Renaissance" (1885-1940). Covers the genres of poetry, drama, and fiction, and representative figures include W.B. Yeats, Patrick Kavanagh, James Joyce, Flann O'Brien, John Synge, Lady Gregory, Sean O'Casey, Sean O'Faolain, and Frank O'Connor.

ENGL 165D. Postcolonial Literature.**3 Units**

Prerequisite(s): GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

Deals with the considerable body of Postcolonial literature written in English. Many of the writers come from countries of the former British Commonwealth, including Achebe, Desai, Emecheta, Naipaul, and Rushdie. It focuses on the literary, cultural and political environments in which the texts are situated and on their relationship to the wider tradition of literature in English.

ENGL 165F. Caribbean Literature.**3 Units****Term Typically Offered:** Fall, Spring

Focuses on the literature—novels, shorts stories, poetry, and plays—by a wide range of Caribbean authors, among whom are two recent Nobel Prize winners, Derek Walcott and V. S. Naipaul. Students will learn to appreciate the cultural diversity of this post-colonial literature and will become familiar with its important themes and stylistic techniques. Students will also experience the multi-dialectal richness and flavor of the Anglophone Caribbean as expressed by authors from linguistically diverse islands.

ENGL 170A. Fantasy.**3 Units****Term Typically Offered:** Fall, Spring

Helps students develop their own working definition of fantasy by examining its central narrative and dramatic structures, image patters, and thematic preoccupations. At the same time, encourages students to compare these motifs with those of so called "realist" fiction so they may understand how blurred conventional distinctions between "fantasy" and "reality" actually are.

ENGL 170D. Drama.**3 Units**

Prerequisite(s): GVAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.

Term Typically Offered: Fall, Spring

Offers a survey of dramatic literature—tragedy, comedy, tragi-comedy—with plays both modern and classical. Since plays are meant to be seen as well as read, several selections will be available on video to deepen understanding and enjoyment. Focus is on analysis of genre, theme, structure, and interpretation of the plays. A term project based on one live performance in Sacramento is also included.

ENGL 170E. Short Fiction.**3 Units****Term Typically Offered:** Fall, Spring

Survey of the art of short fiction through readings of a variety of world writers. Representative figures include, but are not limited to, Hawthorne, Melville, Joyce, James, Hemingway, Atwood, O'Connor, Boyle, Cather, Faulkner, Jackson, etc.

ENGL 170G. Modern Poetry.**3 Units****Term Typically Offered:** Fall, Spring

General course in English language poetry written in the late 19th and early 20th century poetry, a period of great innovation in poetry. It focuses on approach: what is the modern poem and how does one read it? Emphasis is placed on the function of image, voice, line break, rhythm, etc. Writers might include Whitman, Dickinson, Yeats, Pound, Eliot, Hardy, and Hopkins.

ENGL 170H. Introduction To Comedy.**3 Units**

Prerequisite(s): GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)

Term Typically Offered: Fall, Spring

Focuses on various comic genres and theories—from 4th century BC to the present. It examines romantic comedy, tragicomedy, comedies of manners, of humors, of menace; farce, satire, slapstick. Students also read widely in comic theory, examining aspects psychological, phenomenological, aesthetic—in drama, fiction, poetry and prose.

ENGL 170I. Introduction To Tragedy. ✎ 3 Units

Prerequisite(s): GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)

Term Typically Offered: Fall, Spring

Focuses on the literatures and theories of tragedy—from 5th century BC to the present—from Sophocles to Mamet, from Flaubert to Stoppard. It examines the "tragic vision" in light of individual genres, times, social mores, religious beliefs and expectations, using Aristotle for both its touchstone and lodestar.

ENGL 170K. Masters of the Short Story. 3 Units

Term Typically Offered: Fall, Spring

Concentrates on the works of a few distinguished writers of short fiction. In each case the writer is one with a widely acknowledged reputation. Emphasis is upon exploring how writers shape and manipulate the genre to produce lasting, individual, distinctive works. Representative figures include, but are not limited to, James Joyce, Nathaniel Hawthorne, Sherwood Anderson, Ernest Hemingway, Frank O'Connor, Flannery O'Connor, John Barth, D.H. Lawrence, and Eudora Welty.

ENGL 170M. Literatures Of Sexuality. 3 Units

Term Typically Offered: Fall, Spring

Examines the relation between sexuality and literature, exploring different conceptions of sexuality over time and across cultures and the rhetorical strategies employed in representations of sexuality in literary texts. Topics may include the modern connection between sexuality and identity; the links between nation, race, and sexuality; and the treatment of homosexuality and women's sexuality. Throughout, careful attention will be paid to the literary forms and discursive strategies (e.g., the confessional mode, modern scientific discourses) used to represent sexuality.

ENGL 170N. Narrative Poetry. 3 Units

Term Typically Offered: Fall, Spring

Provides an introduction to the genre of narrative poetry, a historical survey of the vicissitudes of its reception from the nineteenth century to the present, and a close study of representative narrative poems by poets who have excelled in this mode.

ENGL 170Z. Twentieth Century Fiction. 3 Units

Term Typically Offered: Fall, Spring

ENGL 180A. Forms of African-American Poetry. ✎ 3 Units

Prerequisite(s): GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

Focuses on four or more African-American poets, representing a historical succession of literary periods.

ENGL 180B. Forms of African-American Fiction. ✎ 3 Units

Prerequisite(s): GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Race & Ethnicity Graduation Requirement (RE), Humanities (Area C2)

Term Typically Offered: Fall, Spring

Focuses on four or more African-American writers of fiction, surveying texts representing a historical succession of literary periods.

ENGL 180F. Major African-American Authors. 3 Units

Term Typically Offered: Fall, Spring

Employing a lecture-discussion format, involves studies in a single literary genre or a combination of literary genres emphasizing the work of three or fewer African-American authors.

ENGL 180H. American Identities: In the Intersection of Race, Gender, and Ethnicity. 🌐 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2), Race & Ethnicity Graduation Requirement (RE)

Term Typically Offered: Fall, Spring

Uses a team-teaching approach to sample a range of diverse American literatures. Texts are selected by the team to represent both mainstream and marginalized groups and to reflect the individual professors' interests and expertise. Examines the commonalities that cross ethnic, racial, class, and gender boundaries as well as the differences that enrich our cultural identity.

ENGL 180J. Jewish American Literature. 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall, Spring

Students will examine a rich tradition of Jewish American literature in the context of a complex American multicultural narrative. Topics include the immigrant experience, assimilation, alienation, responses to the Holocaust and other forms of anti-Semitism, the place of Israel in the Jewish American imagination, and a contemporary rediscovery of reconstruction of Jewishness and Judaism. Students will interrogate what constitutes Jewish American identity and defines its literature in a culture that is itself conflicted about its secular/religious ethos and the degree to which subjectivity is determined by "consent and/or descent."

ENGL 180L. Chicano Literature. ✎ 3 Units

Prerequisite(s): GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

Gives students an overview of Chicano Literature. Students examine both contemporary Chicano poetry and fiction.

- ENGL 180M. Asian American Literature.** ✍️🌐 **3 Units**
Prerequisite(s): GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI), Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring
- Designed to help students gain an understanding of the diversity as well as the similarities among various Asian American writers. How do the categories of race, gender, and class affect the way different characters construct their cultural experiences and fashion their personal identities? By studying the variety of processes through which different protagonists "become American"—through assimilation, appropriation, or "translation"—students should arrive at a better understanding of how we all construct our own identities.
- ENGL 180Z. Topics in Multi-Ethnic Literatures.** **3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
- Comparative analysis of two or more ethnic literary and cultural productions with an emphasis on relationships among history, politics, and culture in American, British, or World literatures.
Note: May be repeated twice for credit as topics vary.
- ENGL 185B. Twentieth Century Fiction by Women.** ✍️ **3 Units**
Prerequisite(s): GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)
Term Typically Offered: Fall, Spring
- Covers short stories and novels spanning the century and including women writers from a variety of nationalities, class, cultural and ethnic groups. Emphasizes what Virginia Woolf calls "the delicate transaction between a writer and the spirit of the age" and works with the writers presented so as to elicit the developing strands of influence and critique that bring these disparate writers into a common dialogue.
- ENGL 185C. British Women Novelists.** **3 Units**
Term Typically Offered: Fall, Spring
- Focuses on the ways in which women writers of the 19th and 20th centuries concern themselves with questions of the differences in male and female experience and how those differences affect their writing. Students will study the portrayal in fiction of the evolution of the "modern woman"—with the conflicts between self and other, dependence and independence, love and power that are part of that process.
- ENGL 185D. American Women Writers.** **3 Units**
Term Typically Offered: Fall, Spring
- Focuses on women writers primarily from the early 20th century with an emphasis on how gender expectations affect people, society, novels, poems. Students study the theme of awakening, the roles that families, friends, class, social expectations and conditions play in the development of individuality and self-awareness. Examines implications of power relationships and certain areas of conflict, such as those between self and other, repression and expression, inner and outer, dependence and independence, love and power.
- ENGL 190D. Detective Fiction.** **3 Units**
Term Typically Offered: Fall, Spring
- Readings in and analysis of crime and detective fictions (novels, short stories, plays, etc.). Crime fiction continually asks us what do we know about people and events and how do we know it. Investigates a variety of texts that address this desire to know and its connections to the mysterious and the criminal. Discussions of this popular genre will address the ways in which an obsession with crime and punishment manifests itself in various cultures and cultural moments.
- ENGL 190H. The Supernatural in Literature.** **3 Units**
Term Typically Offered: Fall, Spring
- Approaches supernatural literature from the perspective that, regardless of how bizarre or fantastical a literary work may seem, it deserves serious scholarly study because it represents the realism of apparent human experiences and provides readers with access to the inner workings of the human mind. Readings include Ambrose Bierce, H.P. Lovecraft, Edgar Allan Poe, Lord Dunsany, Fitz-James O'Brien, and contemporary writers from around the world.
- ENGL 190J. Tolkien: Lord of the Rings.** **3 Units**
Term Typically Offered: Fall, Spring
- Helps students understand the primary structures, images, and themes informing Tolkien's Middle Earth and the ways these link the medieval worldview with modern, and even postmodern, wish-and fear-fulfillments. Students will read Tolkien's criticism, poetry, short tales, *The Hobbit*, *The Lord of the Rings* trilogy, and selections from *The Silmarillion*.
- ENGL 190P. Popular Literature and Culture.** **3 Units**
The study of popular texts through the various lenses of literary analysis. Students will work with a variety of texts, which might include genre fiction, graphic novels and comics, film and television, and other digital media, to consider the ways and whys of their popularity, as well as their impact, both historical and contemporaneous, on literature, audience, and culture.
- ENGL 190Q. Gay and Lesbian Literature.** **3 Units**
Term Typically Offered: Fall, Spring
- Readings in and analysis of literature by and about lesbians and gay men. Students will work with a variety of texts (fiction, poetry, film, nonfiction) about gay and lesbian identity; at the same time, students will come to understand the historical contexts and shifting theoretical paradigms that have shaped and reshaped conceptions of sexuality.
- ENGL 190R. Romance Fiction.** **3 Units**
Term Typically Offered: Fall, Spring
- Readings in and analysis of romance fictions (primarily novels). Romances continually promise emotional (and sexual) fulfillment, but what do readers of romance novels get from this reading experience? Discussions of this popular genre will address the ways in which the pursuit of love and companionship and the indulgence in lust and passion manifest themselves in various cultural moments; critical materials will help theorize the appeals, dangers, and uses of romance fiction.
- ENGL 190V. Great Drama on Video.** **3 Units**
Prerequisite(s): GEAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring
- Studies and evaluates a selection of dramas on videos, such as but not limited to *A Streetcar Named Desire*, *Death of a Salesman*, *Doll's House*, *Hamlet*, *Oedipus*, *Pygmalion*, and *Rosencrantz and Guildenstern*.

ENGL 191A. Masterpieces of the Cinema. 3 Units General Education Area/Graduation Requirement: Arts (Area C1) Term Typically Offered: Fall, Spring	ENGL 197M. Recent American Films. 3 Units Term Typically Offered: Fall, Spring
<p>Conducted by lecture and discussion. Students see a selection of the best, most enduring, most influential films made during the last hundred years and explore the historic, aesthetic, and philosophical reasons these films have generally been acknowledged as masterpieces.</p>	<p>Emphasizes the trends, themes, forms, and cinematic techniques, technological advances, and "revisionist" genres of recent American films of approximately the last twenty years, partly as a way of analyzing the American film conventions, partly as a means of examining our contemporary culture, but primarily as a means of analyzing and understanding the films themselves.</p>
ENGL 195A. Writing Center Theory and Practice: Internships. 3 Units Term Typically Offered: Fall, Spring	ENGL 197P. British Film. 3 Units Term Typically Offered: Fall, Spring
<p>Note: May be repeated for 6 units of credit.</p>	<p>Screenings and analysis of films produced in Great Britain. Students will view a variety of British films, starting possibly with silents and early Hitchcock and ending with films from the contemporary moment. Students will come to understand the historical and artistic contexts of the films and encounter the shifting definitions of what represents "British" on the screens of the cinema and in the minds of viewers. May provide a survey of films or focus on particular themes, studios, or directors.</p>
<p>Credit/No Credit</p>	ENGL 197R. Films Of Alfred Hitchcock. 3 Units Term Typically Offered: Fall, Spring
ENGL 195C. Internship In Field Work. 3 Units Term Typically Offered: Fall, Spring	<p>Traces Hitchcock's "game with the audience" from its beginnings in silent films, through its British period, to its American conclusion. It closely examines important sequences, shots, images, character types, and themes. Students will view several of Hitchcock's classic films in their entirety.</p>
<p>Credit/No Credit</p>	ENGL 198T. Senior Seminar In English. 3 Units Prerequisite(s): ENGL 120A and a minimum of 90 units. Term Typically Offered: Fall, Spring
ENGL 195W. Writing Programs Internship. 3 Units Term Typically Offered: Fall, Spring	<p>Features specialized topics taught by a variety of instructors depending upon the semester. Topics can include subject matter from literature, linguistics, English education, creative writing, composition/rhetoric, and film. Tend to the production of a significant research paper, a paper which will emphasize the student's ability to: Analyze and interpret multiple texts; Integrate primary and secondary sources; Construct a sustained, coherent, and rhetorically sophisticated piece of writing.</p>
<p>Students will work with a Composition faculty member to complete a project for the campus writing programs. The internship may involve the composition program, the University Reading and Writing Center, the Graduation Writing Assessment Requirement, or the Writing Across the Curriculum Program. Students should contact the appropriate coordinator to register for the course and design a project.</p>	ENGL 199. Special Problems. 1 - 3 Units Term Typically Offered: Fall, Spring
ENGL 197A. Film -- Horror, Comedy, Science-Fiction. 3 Units Term Typically Offered: Fall, Spring	<p>Individual projects or directed reading. Note: Departmental petition required.</p>
<p>Major genres of the cinema conducted by lecture and discussion. Students see a selection of films from the major genres including (but not limited to) horror, science fiction, and comedy; learn about the history and development of each genre; and explore the commercial, aesthetic, social, and philosophical forces that have shaped the major film genres.</p>	<p>Credit/No Credit</p>
ENGL 197G. Films of Great Directors. 3 Units Term Typically Offered: Fall, Spring	ENGL 200. Methods and Materials of English Studies. 3 Units Term Typically Offered: Fall, Spring
<p>Focuses on the role of the director in the creation of excellent films. Students will view, analyze, and discuss memorable films by great directors, concentrating on their personal styles, cinematic strategies, and typical themes. Representative examples will include such filmmakers as Chaplin, Keaton, Renoir, Welles, Ford, Truffaut, Bunuel, Kurosawa, Hitchcock, Bergman, and others.</p>	<p>Required for all MA candidates in English.</p>
ENGL 197I. Film - Depression Giggles. 3 Units Term Typically Offered: Fall, Spring	
ENGL 197K. Fiction Into Film. 3 Units Term Typically Offered: Fall, Spring	
<p>Students see a selection of films adapted from novels, short stories, or other literary works; read the original work from which the film was adapted; and explore the history, aesthetics, and craft of adapting fiction to film.</p>	
ENGL 197L. The American Film. 3 Units Term Typically Offered: Fall, Spring	
<p>Focus on American films. Topics may cover a range of periods, movements, genres, styles and issues</p>	

ENGL 200A. Methods and Materials of Literary Research. ✍ 3 Units
Term Typically Offered: Fall, Spring

Required of all MA candidates in English under Plans A and C and Creative Writing Plan B, acquaints students with principal sources and techniques of literary research. It also introduces students to contemporary critical approaches to literature. Students should take this course as early as possible in their graduate careers, preferably in the first semester. Students prepare an annotated bibliography and a paper employing a particular critical approach to one of a selection of anchor texts.

Note: Graduate Writing Intensive (GWI) course.

ENGL 200D. Materials and Methods of TESOL Research. ✍ 3 Units
Term Typically Offered: Fall, Spring

Explores research design and testing methods for quantitative and qualitative research in second language acquisition (SLA). Students develop the ability to read second language acquisition research critically; study a variety of theoretical perspectives represented in current SLA research; and review the history of the current "burning issues" in SLA.

Note: Graduate Writing Intensive (GWI) course.

ENGL 200E. Curriculum and Assessment Design for Language Classrooms. 3 Units
Term Typically Offered: Fall, Spring

Examine the interplay between curriculum design and classroom assessment. The goals are 1) to familiarize prospective teachers with the terminology and practices underlying curriculum design and classroom assessment; 2) to develop the ability to analyze student needs and propose appropriate changes to curricula; and 3) to construct and implement language tests that reflect curricula.

Note: May be counted as an elective for the M.A. TESOL program.

ENGL 201D. Contemporary Theory. 3 Units
Term Typically Offered: Fall, Spring

ENGL 210B. Sociolinguistics and TESOL. 3 Units
Term Typically Offered: Fall, Spring

ENGL 210C. Technology in Second Language Teaching. 3 Units
Term Typically Offered: Summer only

Prepares language teachers to effectively integrate technology into classrooms. Examines theoretical rationales for using computer-assisted language learning, the range of uses of technology in classrooms, and best practice. Develops students' technological literacy and ability to critically evaluate computer-assisted language teaching materials. Cross Listed: ENGL 110C; only one may be counted for credit.

ENGL 210G. Second Language Acquisition. 3 Units
Prerequisite(s): ENGL 200D.
Term Typically Offered: Fall, Spring

Examines the factors affecting the acquisition of a second language, focusing on research in this area since 1970. Topics covered are: transfer and the role of the first language; developmental sequences; the role of input, interaction and output; cognitive and personality variables, including age; and the role of formal instruction and error correction.

ENGL 215A. Reading/Vocabulary Acquisition. 3 Units
Term Typically Offered: Fall, Spring

Preparation of teachers of English to speakers of other languages. Examines the psycholinguistic bases of the reading process in ESL, provides opportunities for seminars to test reading practices in peer demonstrations, and explores the fundamentals of testing, evaluation, and syllabus design in the ESL curriculum. Particular attention for reading and vocabulary will be given to miscue analysis and acquisition theory.

ENGL 215B. ESL Writing/Composition. 3 Units
Term Typically Offered: Fall, Spring

Provides the groundwork to prepare teachers of English to speakers of other languages for composition instruction. An examination of the theoretical bases of language acquisition, composing process, and correction/revision strategies that will enable students to plan and demonstrate writing lessons to their peers. Consideration of traditional tests of writing, such as the TOEFL, the WPJ, and innovative forms of evaluation are integrated with syllabus design and text evaluation.

ENGL 215C. Pedagogical Grammar for TESOL. 3 Units
Term Typically Offered: Fall, Spring

Examines those areas of English grammar that are typically taught to non-native speakers. The goals are 1) to familiarize prospective ESL teachers with terminology and analyses that can be used in the classroom; 2) to develop the ability to explain and exemplify grammatical phenomena in terms accessible to ESL students; 3) to review sample materials and techniques for teaching English grammar to non-native speakers.

ENGL 215D. Pedagogy of Spoken English. 3 Units
Term Typically Offered: Fall, Spring

Examines aspects of spoken English that are typically taught to non-native speakers. The goals are 1) to familiarize prospective ESL teachers with terminology and analyses that can be used in the classroom; 2) to develop the ability to analyze student difficulties and provide appropriate help; 3) to review sample materials and techniques for teaching spoken English to non-native speakers.

ENGL 220A. Teaching College Composition. ✍ 3 Units
Term Typically Offered: Fall, Spring

Designed for prospective community college and university writing instructors. It focuses on theory and research in rhetoric, composition, and cognitive development and on practical, pedagogical classroom strategies. Students discuss a variety of theories and research studies and then apply writing theory to classroom strategies, design lessons, assignments, and syllabi, and practice analyzing and responding to student writing; and prepare a teacher portfolio.

Note: Graduate Writing Intensive (GWI) course.

ENGL 220C. Topics in Composition Studies. 3 Units
Prerequisite(s): ENGL 220A.
Term Typically Offered: Fall, Spring

Rotating series of topics relevant to composition studies. Regardless of the topic, students will explore the history of the field, the theory and practice of the field, the major scholarly works of the field, and the relationship of the field of study to the broader field of composition and rhetoric.

Note: May be repeated for credit if topic differs.

- ENGL 220D. Teaching and Composition Research.** 3 Units
Term Typically Offered: Fall, Spring
- Examines the history and current status of research methods and methodologies in Composition Studies. It explores both producing and consuming research – studying how and why research has been conducted and how it has been understood and put to practical use by readers of composition research.
- ENGL 220R. Topics in Rhetorical Theory and Practice.** 3 Units
Term Typically Offered: Fall, Spring
- Designed to help students learn about and apply rhetorical theory. Its goal is to introduce graduate students to the history and theory of rhetorical movements after–or outside of–the rhetorics of Western antiquity. Evaluation will be based on weekly journal responses to readings, a major paper on rhetorical theories, and a course portfolio.
Note: May be repeated if topic differs.
- ENGL 220W. Writing in Your Discipline.** 3 Units
Prerequisite(s): Graduate GVAR placement Score of 40 or a GWI course grade of "B-" or lower
Term Typically Offered: Fall, Spring
- Writing workshop course designed to immerse graduate students in the discourse of their disciplines; required for graduate students who have received a 3 unit placement on the Writing Placement for Graduate Students (WPG). Focuses on the writing process, text-based academic writing in various academic genres, revising, and editing. Students will produce 5000 words. Includes assessment via Course Portfolio.
- ENGL 225A. Theories of Teaching Literature.** 3 Units
Term Typically Offered: Fall, Spring
- Introduction to theories of teaching literature so students who intend to teach at the college level have examined their assumptions and options before they develop their teaching practices. Organized around three questions: Why do we teach literature? What do we teach? How do we teach?
- ENGL 225C. Theoretical Issues in Adult Literacies.** 3 Units
Term Typically Offered: Fall, Spring
- Introduces students to current theories surrounding the pedagogies and politics of adult literacies within a wide variety of contexts, including community colleges, prisons, and community projects. Incorporates information on technological literacies, information literacies, cultural literacies, and multiliteracies. In addition, students will be partnered with community literacy experts and required to complete formal observations of adult reading classrooms throughout the semester, fostering collaboration between the local community and the university. Cross-listed: EDTE 225C; only one may be counted for credit.
- ENGL 230A. Writing Fiction.** 3 Units
Term Typically Offered: Fall, Spring
- Seminar in the workshop format designed for experienced writers of fiction. It is designed to provide intensive instruction in the theory and craft of writing short stories, novels, and screenplays.
Note: Topic areas will vary by semester, and the course may be repeated.
- ENGL 230B. Advanced Poetry Writing.** 3 Units
Term Typically Offered: Fall, Spring
- Theory and practice in the writing of poetry. Consists primarily of the preparation and evaluation of student work. Students are also be assigned supplemental readings designed to help them determine their affinity (or lack of affinity) with current poetic theory and practice.
Note: May be repeated for credit
- ENGL 230D. Meter and Rhythm.** 3 Units
Term Typically Offered: Fall, Spring
- In-depth study of prosody including the principles of meter (line measurement) and scansion (the marking of stressed and unstressed syllables to determine meter and rhythm), as well as examining the relationship of these principles to verse in English. Examines a variety of poetic schemes, tropes, and forms. Lecture and guided practice.
- ENGL 230E. Writing and Theorizing Memoir.** 3 Units
Term Typically Offered: Fall, Spring
- Examines the craft of writing memoir and creative nonfiction as well as the theory and history of contemporary memoir writing. Students will write and workshop their own memoirs and creative nonfiction. Introduces students to literary and philosophical theories of memory and writing as well as look at contemporary memoirs written in a variety of styles.
Note: Topic areas will vary by semester, and the course may be repeated.
- ENGL 230G. Between Genres: Flash Fiction/Prose Poetry.** 3 Units
Term Typically Offered: Fall, Spring
- English 230G offers graduate poets and fiction writers the opportunity to explore/experiment with the long-standing anti-genre of the poetry/fiction hybrid. For 200 years writers around the world have noted the symbiosis between the genres of poetry and prose. Currently, some of America's most exciting writers are currently exploring the margins between prose poetry, flash fiction, and related evolving forms.
- ENGL 230X. Master Class in Writing Fiction.** 3 Units
Prerequisite(s): ENGL 130A, or ENGL 130M, or ENGL 130N, or ENGL 230A or instructor permission.
Term Typically Offered: Fall, Spring
- Workshop provides intensive instruction in the theory and craft of writing fiction designed for students who are already writing at a professional or near-professional level, and for those who have proven themselves ready to take advanced study with careful, individualized direction of the instructor.
Note: May be repeated for credit
- ENGL 230Y. Master Class in Writing Poetry.** 3 Units
Prerequisite(s): ENGL 130B or ENGL 230B or instructor permission.
Term Typically Offered: Fall, Spring
- Designed to provide intensive practice in the techniques and problems of writing poetry. It is aimed at students interested in creative writing, those who have already done significant work and who have proven themselves ready to take advanced study with careful individualized direction of the instructor.
Note: May be repeated for credit.
- ENGL 240. British Literature.** 3 Units
Term Typically Offered: Fall, Spring
- Seminars in British literature.

- ENGL 240A. Chaucer.** **3 Units**
Term Typically Offered: Fall, Spring
- Investigation of the body of Chaucer's poetry, seen against the backdrop of the late 14th century.
- ENGL 240B. The World and the Flesh: Victorian Fiction.** **3 Units**
Term Typically Offered: Fall, Spring
- Explores the Divided-Self of Victorian fiction, a consciousness split between word and flesh, duty and love, society and the self, or most generally between one's public role and one's private needs. Such polar themes affect several fictional genres such as the Pastoral, Gothic, Bildungsroman, Historical Novel and Naturalism. The word and flesh dialectic also informs the narrative structure of Victorian fiction.
- ENGL 240E. Major 18th Century Novelists.** **3 Units**
Term Typically Offered: Fall, Spring
- Focuses on individual novelists, pairs of novelists, or thematic groupings. Might include works of fiction by authors such as Behn, Defoe, Richardson, Fielding, Steme, Goldsmith, Bumey.
- ENGL 240F. Dickens and Thackeray.** **3 Units**
Term Typically Offered: Fall, Spring
- Dickens and Thackeray dominated the popular mind as the novelists of the age; no other novelists are more representative of their age and yet can claim to have risen above it. Concentrates on just a few of their novels. Students study the writers and their novels in the context of English society in the 19th century.
- ENGL 240G. Yeats, Kavanagh and Heaney: Ireland's Modern Irish Poets.** **3 Units**
Term Typically Offered: Fall, Spring
- Yeats, often considered a modernist and a poet in the British tradition, saw himself primarily as an Irish poet working within distinctly Irish literary traditions. Focuses on Yeats' conception of a national, ethnic poetry and the effect that mission had on Ireland's other two major 20th century poets--Kavanagh and Heaney. Students analyze Yeats' most influential work; Kavanagh and Heaney are studied in terms of their debt to Yeats and their individual expressions of national consciousness.
- ENGL 240H. DH Lawrence.** **3 Units**
Term Typically Offered: Fall, Spring
- Lawrence was immensely original. Like Tolstoy and Dostoevsky, Lawrence is a prophetic visionary intensely concerned to articulate and embody an all-embracing, profoundly existential, vision of life. Examines Lawrence's work closely after a brief exploration of modernism and Lawrence's relation to it and an examination of how conditions in post-Victorian England and events in Europe in the early 20th century contributed to the making of Lawrence's world view and his role as a controversial outsider.
- ENGL 240I. Jane Austen.** **3 Units**
Term Typically Offered: Fall, Spring
- Focuses on Jane Austen, perhaps England's greatest novelist. Students read almost all of her work and trace the development of her art from her teenage years until her death in 1817, noting how each new book is a distinct departure from previous ones. To put Austen's achievement in perspective, students also read *Jane Eyre* by Charlotte Bronte, one of Austen's severest critics. Comparing the two novelists provides an even clearer sense of the richness and subtlety of Austen's art.
- ENGL 240J. James Joyce.** **3 Units**
Term Typically Offered: Fall, Spring
- James Joyce is a monument among twentieth century writers. His masterful *Ulysses* and other intricate works have kept generations of critics in business. Examines his major fictions, studying them in relationship to the life out of which they grew.
- ENGL 240K. English Renaissance Drama.** **3 Units**
Term Typically Offered: Fall, Spring
- Sense of exploration, discovery, experimentation, creativity, and moral complexity of the Renaissance era in England (roughly 1550 to 1660) is reflected in the variety and number of plays written by Shakespeare's predecessors, contemporaries, and successors. Following introductory material on the development of the drama in England, students analyze Elizabethan and Jacobean playwrights, exclusive of Shakespeare. Emphasis is on the forms and themes of the plays, with application of "New Historicism" and attention to Renaissance backgrounds
- ENGL 240L. Conrad and Greene.** **3 Units**
Term Typically Offered: Fall, Spring
- When English critic F.R. Leavis declared that the great English novelists were Austen, Eliot, James, and Conrad, he emphasized these writers' intensely moral pre-occupation. No modern novelist has been more influenced by Conrad than Graham Greene, whose work has the same romantic subject matter and concerns with ethical judgments. Both writers are concerned with the question: to act or not to act, for either choice has inescapable ethical consequences.
- ENGL 240M. The Gothic Novel.** **3 Units**
Term Typically Offered: Fall, Spring
- Examines the origins and development of the Gothic Novel in England. Attention is paid to recurring structures and themes such as architecture, the use of a narrative frame, reader identification figure, the divided self, the relationships between sex, violence, and death, the wasteland motif, and existential concerns. Special attention is given to the role of the reader and his or her response to the novels.
- ENGL 240N. Arthurian Literature.** **3 Units**
Term Typically Offered: Fall, Spring
- Study of Arthurian literature in the Middle Ages from its origins to Thomas Malory.
- ENGL 240O. Satire In Age Swift+Pope.** **3 Units**
Term Typically Offered: Fall, Spring
- ENGL 240R. Charles Dickens.** **3 Units**
Term Typically Offered: Fall, Spring
- Examines the major narrative, plot, and genre structures, image patterns, and thematic preoccupations in Dickens' novels, like the interrelationships between homes, prisons, factories and schools. The influences of Dickens' life, periodical publishing of illustrated magazines, and of Victorian society also receives attention. Introduces students to relevant insights of several "post-structural" critical schools, including those of deconstruction, the carnivalesque, liminality, and Lacanian psychology.

- ENGL 240S. Modern Irish Fiction.** 3 Units
Term Typically Offered: Fall, Spring
- Examines in detail one aspect of the Irish Renaissance (approximately 1880-1940)—Ireland's contribution to fiction in the twentieth century. Also examines not only individual writers and works but the development of the genres of the novel and short story and movements such as realism, naturalism, modernism, and post-modernism. Writers might include Joyce, O'Brien, O'Flaherty, O'Faolain, and others.
- ENGL 240T. Renaissance Literature.** 3 Units
Term Typically Offered: Fall, Spring
- Students will explore the poetry, prose, and drama produced in England during the 16th and 17th centuries. Contemporary criticism and theory will provide a context for reading these primary works.
- ENGL 240U. Nineteenth-Century Texts and Sex.** 3 Units
Term Typically Offered: Fall, Spring
- Examines a range of sexual identities through which nineteenth-century Britons imagined their lives. Such identities were influenced by ideas about race, class, status, ethnicity, gender, and age that often differed markedly from our own. Moves beyond the literary to look at texts from a variety of genres (medical, literary, erotic, and autobiographical) and cover both well-treated and more obscure texts.
- ENGL 240X. Contemporary British Fiction--1980 to Present.** 3 Units
Term Typically Offered: Fall, Spring
- Students read and study British works of fiction—novels and short stories—written after 1979. Although the choice of authors and works might vary from one semester to another, focuses on works of fiction deemed significant and valuable by literary scholars and critics.
- ENGL 240Z. Special Topics in British Literature.** 3 Units
Term Typically Offered: Fall, Spring
- Open to the investigation of either a limited period (e.g. World War I poets or Victorian Children's literature), a single author (e.g. Hanif Kureishi or Aphra Behn), an authorial dialogue (e.g. Chaucer & Spenser, Stoppard and Shakespeare, Sidney & Wroth), or a unique literary feature, theme, or structure (e.g. Pastoral & Georgic or Empire & Race).
- ENGL 245A. Shakespearean Romance.** 3 Units
Term Typically Offered: Fall, Spring
- ENGL 250A. Wharton and Cather.** 3 Units
Term Typically Offered: Fall, Spring
- Focuses on the writing of Edith Wharton and Willa Cather, two of our most accomplished early American writers. Shows how these writers, poised on the threshold of the twentieth century—and pulled simultaneously forward and back—explored similar themes, and how, as two of the few revered women writers of this time, they focused particularly on shifting gender roles; Wharton with her eye on interior space and Cather with her eye on exterior space.
- ENGL 250D. Hawthorne and Melville.** 3 Units
Term Typically Offered: Fall, Spring
- Readings and discussion of major works by Hawthorne and Melville.
- ENGL 250F. Whitman and Dickinson.** 3 Units
Term Typically Offered: Fall, Spring
- This seminar on two of America's greatest poets, Whitman and Dickinson, focuses primarily on the poetry, but also on letters and prose pieces. Students read and discuss criticism on each writer, and study cultural and historical contexts of these two contemporaneous but antithetical poets. Study includes traditional and feminist studies of Dickinson and Cultural Studies of Whitman. Forms a dialogue between these two remarkable and remarkably different poets; students join in that dialogue.
- ENGL 250H. Major American Realists.** 3 Units
Term Typically Offered: Fall, Spring
- The period between the end of the Civil War and the outbreak of World War I was a time of unprecedented and transforming change in American life. In response to these new conditions came "the rise of realism," which radically changed American ideas about the nature of fiction, the reality it represented, and its effects on readers. Students study theories of realism, their historical development and the current status of literary theories of realism as influenced by deconstruction and feminist literary theory. These theoretical positions are applied to a range of short fiction and novels.
- ENGL 250J. Henry James.** 3 Units
Term Typically Offered: Fall, Spring
- James' innovations in narrative technique paved the way for the emergence of the modern novel; his development of a theory of fiction helped establish an American literary tradition and bring the American novel into the mainstream of British and European literature. Students read James' major works of fiction and criticism with an eye to understanding and enjoying them and to assessing the nature of the writer's contribution to the novel as a serious art form.
- ENGL 250K. Contemporary American Fiction.** 3 Units
Term Typically Offered: Fall, Spring
- Studying contemporary fiction involves challenges and pleasures. Unlike studies in most areas of literature where the best writers have been clearly established, studying contemporary fiction means risking one's own critical skills to identify what new texts and writers are significant without the help of earlier generations of scholars and critics.
- ENGL 250L. American Women Writers.** 3 Units
Term Typically Offered: Fall, Spring
- Focuses on the contributions of women writers to American literature. Begins with a brief overview of feminist critical approaches and of the history of women writing in America. Close critical analysis of texts focuses on four or five writers from various centuries, regions, and ethnic groups. Covers such writers as Toni Morrison, Sarah Jewett, Marilynne Robinson, Eudora Welty, Lee Smith, Leslie Silko, and others. Students work collaboratively to present background information and critical approaches to the writers.

ENGL 250P. Wharton and Chopin. Term Typically Offered: Fall, Spring	3 Units	ENGL 250Z. Special Topics in American Literature. Term Typically Offered: Fall, Spring	3 Units
Growth of a feminine perspective in literary theory has resulted in a radical reconsideration of the American literary canon, producing new readings of texts, patterns in literature and culture, and connections between texts. Wharton and Chopin are two writers taking a place of importance in the development of the realistic novel in America and in the creation of a distinctive tradition of women's literature. Focuses on the heuristic possibilities of a distinctly different literature by women, the role of gender, and the contributions of Wharton and Chopin to the novel.		The investigation of either a limited period (e.g. The Transcendental period or the Novel of the 1960s), a single author (e.g., Philip Roth or Toni Morrison), or a unique literary feature or structure (e.g. Literary Naturalism or the Experimental Novel).	
ENGL 250Q. Irish-American Fiction. Term Typically Offered: Fall, Spring	3 Units	ENGL 260A. Myth Criticism. Term Typically Offered: Fall, Spring	3 Units
Examines the theme of immigration and that of assimilation in a particular ethnic group: Irish-Americans. Through an examination of the literature, we find an ethnicity that is uneasily part of the American fabric and one defined to a large degree by the culture they either abandoned or were forced to abandon. Representative writers include Eugene O'Neill, Alice McDermott, William Kenney, Mary Gordon, John Gregory Dunne.		Introduces and traces through several literary works and genres the fundamental topics in myth criticism; significance of ritual, fairy tales, and archetypal romance forms; contributions of Freudian, Lacanian, and Jungian psychology and their relation to Joseph Campbell's notion of the monomyth; relevance of Victor Turner's "liminal" theories of rites of passage in anthropology; importance of recent discoveries with the bicameral and "triune" brain in biological sciences; kinds of myth (hero, heroine, American, love, wasteland, artist, time); and relationships between myth criticism and post-structuralism.	
ENGL 250R. Wm. Faulkner: Major Fict. Term Typically Offered: Fall, Spring	3 Units	ENGL 260D. Literature and Biography. Term Typically Offered: Fall, Spring	3 Units
ENGL 250T. Postmodern Fiction. Term Typically Offered: Fall, Spring	3 Units	ENGL 265A. Postcolonial Literature. Term Typically Offered: Fall, Spring	3 Units
Study of important recent fiction that has come to be referred to as "postmodernist" because its non-traditional themes, subject matter, and narrative technique embody or reflect the postmodern era.		Focuses on contemporary literary works from postcolonial locations such as Africa, Australia, South Asia, Canada and the Caribbean. Explores the relationships between literary texts and the historical and social contexts from which they arise; especially European colonialism.	
ENGL 250U. Roaring Twenties Literature. Term Typically Offered: Fall, Spring	3 Units	ENGL 275. Seminar in Literary History. Term Typically Offered: Fall, Spring	3 Units
Focus on literature dramatizing the roaring, irrepressible twenties, a decade of unprecedented change following the "Great War to end all wars." Highlighting Fitzgerald, whose life mirrors the times, also includes other "expatriate" writers such as Wharton, Dos Passos, Stein, Eliot, and Hemingway, who looked at America from an overseas perspective and reflected on the changes in communication, sensibility, and values resulting from the new freedom of this revolutionary, liminal period.		Literary history designed to introduce the graduate student to bibliographical materials necessary to the successful pursuit of advanced study in English. It will deal with the major historical periods of English and American literature, and looks briefly at the major European traditions.	
ENGL 250V. Cultural Studies. Term Typically Offered: Fall, Spring	3 Units	ENGL 280A. Aesthetics of Minority Literature. Term Typically Offered: Fall, Spring	3 Units
Surveys the range of contemporary cultural phenomena and the relevant modes of analysis currently employed in the widespread practice generally referred to as Cultural Studies.		ENGL 280B. The Ethics of Black Verbal Aesthetics. Term Typically Offered: Fall, Spring	3 Units
ENGL 250W. The Poetry of T.S. Eliot. Term Typically Offered: Fall, Spring	3 Units	Survey of the interaction between aesthetics and ethics in African-American literature. Emphasizing a call-and-response verbal aesthetic-prominent in the oral traditions of segregated communities throughout the African Diaspora-as an extension of a diasporic ethics of improvisational black identity that, especially late twentieth century literature recovers as basis for challenging the fixed, essentialist ethos and aesthetics of earlier African-American literature more greatly influenced by traditional, Christian-Humanist discourses on ethnicity.	
Focuses on the poetry of T.S. Eliot, one of the dominating figures of English and American literature for a substantial part of the twentieth century: In 1948 he received the Nobel Prize for Literature, and by 1950 his authority had reached a level that seemed comparable in English writing to that of figures like Johnson and Coleridge. Offers students the opportunity to analyze and discuss Eliot's poems. We will trace his poetic/aesthetic development from his early poems ("Prufrock" et al.) to his epoch-making <i>The Waste Land</i> , and onward through his conversion to Anglicanism and his mature accomplishment of <i>Four Quartets</i> .			

ENGL 280J. Jewish American Literature.**3 Units****Term Typically Offered:** Fall, Spring

Students will examine a rich tradition of Jewish American literature in the context of a complex American multicultural narrative. Topics include the immigrant experience, assimilation, alienation, responses to the Holocaust and other forms of anti-Semitism, the place of Israel in the Jewish American imagination, and a contemporary rediscovery or reconstruction of Jewishness and Judaism. Students will interrogate what constitutes Jewish American identity and defines its literature in a culture that is itself conflicted about its secular/religious ethos and the degree to which subjectivity is determined by "consent and/or descent.

ENGL 297A. Prose Style In Literature.**3 Units****Term Typically Offered:** Fall, Spring**ENGL 299. Special Problems: English Tutorial.****1 - 3 Units****Prerequisite(s):** ENGL 200.**Term Typically Offered:** Fall, Spring

Individual projects or directed reading. Highly recommended for, and open only to, students who are able to carry on individual tutorial study. Admission by approval of faculty member who is to act as tutor and of graduate advisor or of Department Chair.
Credit/No Credit

ENGL 410A. Writing Center Theory and Practice: Internships.**3 Units****Term Typically Offered:** Fall, Spring**Note:** May be repeated for up to 6 units of credit.

Credit/No Credit

ENGL 410B. Internship-ESL Teaching.**3 Units****Term Typically Offered:** Fall, Spring

Provides interns with an opportunity to experience the day-to-day life of an ESL class. Tutors will observe an ESL class, will assist the teacher in conducting various aspects of the class, and will be responsible for planning and teaching at least one class session. Seminar meetings will provide and overview of ESL teaching methodology.
Credit/No Credit

ENGL 410C. Internships.**3 Units****Term Typically Offered:** Fall, Spring

Credit/No Credit

ENGL 410E. Internship in Teaching Writing.**3 Units****Term Typically Offered:** Fall, Spring

Students considering a teaching career intern in a composition class at an area community college. They work with a mentor teacher on site and meet periodically at CSUS. The internship provides students with an opportunity to experience the day-to-day life of a composition class and hands-on opportunity to design assignments, respond to student writing, conduct class discussions, etc. Students read composition and rhetorical theory with an eye toward day-to-day application in the classroom.
Credit/No Credit

ENGL 410F. Internship in Teaching Literature.**3 Units****Prerequisite(s):** Recommended: either ENGL 225 or ENGL 220A and instructor permission.**Corequisite(s):** Recommended: either ENGL 225 or ENGL 220A.**Term Typically Offered:** Fall, Spring

Gives graduate students the opportunity to gain teaching experience in a literature classroom. Students will work closely with an instructor-of-record in a large (60+) lecture literature course and in small group discussion sessions under the supervision of the internship coordinator. Interns will also meet periodically with their peers to discuss pedagogical issues and readings as they pertain to their experiences in the classroom.
Credit/No Credit

ENGL 410L. Internship in Teaching Adult Reading.**3 Units****Term Typically Offered:** Fall, Spring

Tutoring in adult reading. Tutors work with students who need reading instruction at Sacramento State, local community colleges or adult education agencies in the Sacramento area.
Credit/No Credit

ENGL 410W. Writing Programs Internship.**3 Units****Term Typically Offered:** Fall, Spring

Students will work with a Composition faculty member to complete a project for the campus writing program, the University Reading and Writing Center, the Graduation Writing Assessment Requirement, or the Writing Across the Curriculum Program. Students should contact the appropriate program coordinator to register for the course and design a project.
Credit/No Credit

ENGL 500. Culminating Experience.**3 Units****Prerequisite(s):** Advanced to candidacy and permission of the graduate coordinator.**Term Typically Offered:** Fall, Spring

Completion of a thesis, project, comprehensive examination or TESOL comprehensive.

ENGL 598T. Culminating Experience - TESOL.**3 Units****Term Typically Offered:** Fall, Spring

Completion of a thesis, project, or TESOL comprehensive exam. Requires advancement to candidacy and permission of graduate coordinator. Project and thesis options require GPA of 3.7.

Entrepreneurship (ENTR)

ENTR 185. Venture Growth Strategies.**3 Units****Prerequisite(s):** Upper-division standing; ENTR 187 or ENTR 189.**Term Typically Offered:** Fall, Spring

Focuses on the opportunities and challenges involved in the management of a business venture and its growth opportunities. Growth is the ultimate resource constrainer, stretching all the resources of a company to the limit and often beyond. Develops a venture spanning approach that examines the business venture and the challenges that tasks venture management to the limit. Provides students with a series of frameworks, analytical skills and techniques, heuristics, and decision-making tools that can be used in growing entrepreneurial businesses.
Note: Only students with an Entrepreneurship Concentration will be admitted.

ENTR 187. Entrepreneurship. 3 Units
Term Typically Offered: Fall, Spring

Objective is to lead students through all steps necessary in starting a business: analyzing personal and business goals, researching the market, developing a marketing plan, determining land, building, equipment, supplies, inventory, people needed, determining cash flow and pro forma financial statements, and money needed. The output of all this will be a professional business plan and financial package ready to submit to prospective investors.

ENTR 189. Corporate Entrepreneurship. 3 Units
Prerequisite(s): Upper-division standing.
Term Typically Offered: Fall, Spring

Offers a multidisciplinary framework for studying and developing corporate entrepreneurship. Covers the climate and culture of an entrepreneurial organization, strategies for developing new business ventures within an organization, and strategies for transforming firms toward a more entrepreneurially driven organization. As a result, students will increase their understanding of environment, processes and strategies that will create value and build competence through entrepreneurial activities within organizations.

Environmental Studies (ENVS)

ENVS 10. Introduction to Environmental Science. 3 Units
General Education Area/Graduation Requirement: Life Forms (B2)
Term Typically Offered: Fall, Spring, Winter

Course looks at the earth as an ecosystem composed of biological, chemical, and physical systems. Focus is on the interaction of these systems with each other and with human population, technology, and production. Students should acquire the fundamentals of a scientific understanding of the ecological implications of human activities. Specific topics treated within the context of ecosystem analysis include energy flows, nutrient cycles, pollution, resource use, climate changes, species diversity, and population dynamics.

ENVS 10H. Honors Environmental Science. 3 Units
General Education Area/Graduation Requirement: Life Forms (B2)
Term Typically Offered: Fall, Spring, Summer

The earth as an ecosystem composed of biological, chemical, and physical systems. Focus is on the interaction of these systems with each other and with human population, technology, and production. Students should acquire the fundamentals of a scientific understanding of the ecological implications of human activities. Specific topics treated within the context of the ecosystem analysis include energy flows, nutrient cycles, pollution, resource use, climate change, species diversity, and population dynamics. Students read important original research on topics. All students participate in a semester long project that applies the principles of the course to a real environmental issue.

ENVS 11. Environmental Issues and Critical Thinking. 3 Units
General Education Area/Graduation Requirement: Critical Thinking (A3)
Term Typically Offered: Fall, Spring

Examines Western cultural values and personal beliefs toward the environment. Teaches critical thinking skills to analyze issues to make informed choices that may impact the earth, its resources and their management as consumers, leaders, professionals and moral agents.

ENVS 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Provides students with the opportunity to interact with fellow classmates and the seminar leader to build a community of academic and personal support.

ENVS 110. Contemporary Environmental Issues. 3 Units
Term Typically Offered: Fall, Spring

Examination of a variety of environmental issues with emphasis on the social aspects of the problems and solutions. The class is conducted primarily through discussion, with an unusually high degree of student responsibility. Group and individual projects are designed to involve students in community affairs as well as to give them an opportunity to develop a personal perspective on environmental issues.

ENVS 111. Environmental Ethics. 3 Units
Term Typically Offered: Fall, Spring

Consideration of how human beings should act with regard to the non-human natural world in the context of complex societal needs. Students will use critical thinking skills to integrate insights from the sciences, social sciences, and humanities to make ethical decisions.

ENVS 112. International Environmental Problems. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X. Environmental Studies majors only.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Global perspective on current problems of environmental protection and resource use. Population growth, food production, industrialization, technology and cultural change are considered, with heavy emphasis on the social dynamics of environmental problems. A variety of political views is studied, and an attempt is made to develop a perspective useful to students in personal and political decisions.
Note: PCR/IR students are encouraged to contact the department regarding enrollment into this course.

ENVS 120. Quantitative Methods for Environmental Science. 3 Units
Prerequisite(s): Must be an ENVS major or minor; STAT 1 or instructor permission.
Term Typically Offered: Fall, Spring

Research tools and methods used by environmental professionals including selected statistical procedures, data sources and presentation and interpretation of results. Students will become familiar with the wide range of equipment available to fit their special needs including the computer time-sharing system.

- ENVS 121. Field Methods in Environmental Science. 2 Units**
Prerequisite(s): Must be an ENVS major or minor
Term Typically Offered: Fall, Spring, Summer
- This field course includes the direct observation of human impact on specific environments and examples of mitigation strategies. Students will learn information gathering and data presentation methodologies useful in environmental impact assessment. Lecture three hours per week; one-day and weekend field trips will be arranged.
Note: Course also substitutes for ENVS 175.
- Field trip(s) may be required.
- ENVS 122. Environmental Impact Analysis: CEQA and NEPA. 3 Units**
Term Typically Offered: Fall only
- Review of legislative and judicial requirements for environmental impact analysis. Students will be asked to review actual project environmental impact reports, analyze the methods employed, understand the relationship of the report to the planning process, and prepare such a document.
Note: It is recommended that students complete ENVS 128 or have some actual experience with environmental impact documentation before taking this course.
- ENVS 124. Social Justice in Interdisciplinary Perspective. 3 Units**
Prerequisite(s): Sophomore standing or instructor permission.
Term Typically Offered: Fall, Spring
- Examines the nature and forms of social justice and injustice. Addresses key philosophical and theoretical models and debates over the meaning of social justice, using historical and contemporary examples to highlight important concepts and controversies. Faculty from different departments within SSIS, and occasionally from other colleges, will address how their discipline understands and analyzes issues of social justice. Students will be encouraged to critically assess the assumptions of various perspectives on social justice, and to address the relationship of academe and social activism in achieving social justice.
 Cross listed as ANTH 130, ID 124, ETHN 124, FACS 124 and SOC 124.
 Only one may be counted for credit.
- ENVS 128. Environment and the Law. 3 Units**
Term Typically Offered: Spring only
- Introduction to environmental law, including: the evolution of environmental legislation, environmental issues in the court system, environmental regulation and administrative law, and environmental torts. Emphasis is on understanding legal process and the special challenges environmental problems present to the legal system.
 Cross Listed: GOVT 128; only one may be counted for credit.
- ENVS 130. Environmental Toxicology. 3 Units**
Prerequisite(s): CHEM 6A or instructor permission.
Term Typically Offered: Spring only
- Focuses on the aspects of toxicology which enable us to study and explore environmental issues concerning human and ecosystem health. It will explore the impact of human activity since World War II in contributing to human disease and ecosystem disruption. Risk perception and communication as it concerns environmental toxicology will also be discussed.
- ENVS 135. California Water and Society. 3 Units**
Prerequisite(s): ENVS 120 or instructor permission
Term Typically Offered: Fall, Spring
- This course provides the historical, scientific, legal, institutional, and economic background needed to understand the social and ecological challenges of providing water for California's growing population, agricultural economy, and other uses- all of which are made more complex by climate change. We will look at past and current debates around cases ranging from local issues on the American River to statewide issues that converge in the Sacramento-San Joaquin Delta. Both physical and social science research skills will be developed.
- ENVS 137. Conservation and Society. 3 Units**
Prerequisite(s): ENVS 10 and BIO 1
Term Typically Offered: Fall, Spring
- Course will introduce students to the interdisciplinary field of conservation biology through the lens of modern society. Students will acquire a basic understanding of the history of the field of conservation, and the values that drive our desire to preserve species and natural systems. Students will learn about conservation challenges, will analyze the scientific and social factors that contribute to addressing those challenges, and will learn to appreciate the diverse perspectives that are vital in modern conservation.
- ENVS 138. Introduction to Environmental Sociology. 3 Units**
Term Typically Offered: Fall, Spring
- The study of human society, the natural environment, and their mutual interactions. Examines environmental sociology at several levels, from the micro level of individual communities to the meso level of government policies to macro theoretical considerations. Analyzes environmental issues in a global context also included.
 Cross Listed: SOC 138.
- ENVS 140. Energy, Society, and the Environment. 3 Units**
Prerequisite(s): Upper division standing
Term Typically Offered: Fall, Spring
- This course covers the concepts and tools necessary to understand society's diverse technology and policy choices around energy production and use. Students will apply both quantitative and qualitative methods to analyze opportunities and impacts of energy systems with consideration for environmental sustainability, international development, and social equity. We will consider a range of energy technologies, their historical trajectories, current drivers, and prospects for addressing energy challenges at different scales, from households to the global climate.
- ENVS 144. Sustainability Science & Policy. 3 Units**
Prerequisite(s): ENVS 10, BIO 1, or instructor permission
Term Typically Offered: Fall, Spring
- Examines issues of environmental, social, and economic sustainability in domestic and international contexts. Students will study the science, policy, and implementation of sustainable practices regarding water, food, and energy resources. Students will learn the history of sustainability, definitions of sustainability, how sustainability is measured, and how sustainability applies to urban and rural landscapes.

ENVS 147. Urban Agriculture and Aquaponics.**3 Units****Term Typically Offered:** Fall, Spring

This course uses campus initiatives in food and bio-waste recycling, combined with vermiculture and aquaponics, to address larger topics in urban food production. This subject has significance for addressing concerns about food access, security, quality, and even local economic development. The course will include hands-on activities on campus, projects with local urban agriculture organizations, and reports connecting the specifics of the course with core questions in environmental science and policy

ENVS 149. Agroecology.**3 Units****Term Typically Offered:** Fall, Spring

Ecological aspects of the production of food and fiber, with emphasis on the sustainability and adequacy of the global food supply to meet the needs of a growing, urbanized population. Covers topics basic to all agricultural systems - soil development, fertility, irrigation, nutrient cycles, crop selection - while contrasting methods developed for large-scale industrial food production with traditional and/or organic farming methods.

Note: Required field trips.

Field trip(s) may be required.

ENVS 151. Restoration Ecology.**3 Units****Term Typically Offered:** Spring only

Overview of concepts and practices in restoration ecology, emphasizing the application of ecological principles to restoration design, implementation, and monitoring. Major course topics will include historical ecology, soils and hydrology, plant and animal ecology, exotic species, endangered species concerns, mitigation, monitoring, planning, and assessment as they apply in a restoration context. Students will work in local restoration projects; field trips required.

Field trip(s) may be required.

ENVS 155. Environmental Management and Decision-Making.**3 Units****Prerequisite(s):** ENVS 10 or the equivalent, or instructor permission.**Term Typically Offered:** Fall only

Course investigates the motivations and barriers to engaging in pro-environmental behaviors. Focus on theories from multiple social and behavioral sciences to understand how individuals form judgments and decisions regarding natural resource and ecosystem management. Specific topics may include principal-agent theory, dual-process theory, multi-criteria decision-making, theory of planned behavior, norm-value-belief, community-based social marketing, and structured decision-making. Students will build skills in stakeholder engagement and science communication.

ENVS 158. Wetlands Ecology.**3 Units****Term Typically Offered:** Fall only

Introduces and discusses characteristics of wetland systems; principles of wetland ecology; functions of wetlands; and regulations and permitting process regarding development near and within wetlands. Appropriate for students planning careers in natural resource management. Though not a substitute for professional training in wetlands delineation and functional assessment, students will gain a basis for such assessments. Familiarity with basic principles of chemistry, physics, and biology recommended.

Note: Field trips required.

Field trip(s) may be required.

ENVS 163. Ethnoecology.**3 Units****General Education Area/Graduation Requirement:** Further Studies in Area B (B5)**Term Typically Offered:** Fall only

Evaluates sustainable management of ecosystems by local indigenous people, using traditional resource management, traditional ecological knowledge and Western science. Familiarizes students with the fields of ethnobiology, ethnoecology, and historical ecology. Students learn about the relationship between people and plants, with a focus on how traditional plant knowledge reflects and is reflected by environmental perceptions.

Note: Field Trip. Required field trip to Chawse Indian Grinding Rocks State Park. Fee Course. \$15 per student.

Fee course.

Field trip(s) may be required.

ENVS 165. American Environmental History.**3 Units****General Education Area/Graduation Requirement:** GE AREA D**Term Typically Offered:** Fall, Spring

Traces the development of the changing relationship between human society and the natural environment. Focuses on changing attitudes and behaviors toward the environment from the pre-colonial era through the present. Also examines the relationship between industrialization and the technological revolution and nature and examine past and present conservation and environmental movements.

Cross Listed: HIST 165; only one may be counted for credit.

ENVS 171. Environmental Politics and Policy.**3 Units****Prerequisite(s):** instructor permission.**Term Typically Offered:** Spring only

Politics of human interaction with land, air and water. Political analysis of agenda setting, policy formation and administration (national, state and local) of environmental programs. Focus on contemporary issues such as energy alternatives, management of toxics, land development, and pollution control. Course also substitutes for ENVS 128.

Cross Listed: GOVT 171; only one may be counted for credit.

ENVS 175. Aquatic Pollution Assessment.**3 Units****Prerequisite(s):** BIO 160, CHEM 1A or concurrent enrollment; or instructor permission.**Term Typically Offered:** Fall, Spring

Examines both the negative and positive impacts that anthropogenic effects have on groundwater, streams, and lakes by utilizing the application of field sampling techniques and laboratory analysis currently used to assess pollution impacts. Introduces the interrelationships among plants, animals and environmental factors within polluted aquatic ecosystems. Emphasizes laboratory and field procedures used in strategies taken to assess and manage these impacts.

Note: Course also substitutes for ENVS 121.

ENVS 186B. Ecological and Environmental Issues Seminar. 1 Unit**Prerequisite(s):** BIO 10 or both BIO 1 and BIO 2.**Term Typically Offered:** Fall, Spring

Series of at least 10 seminars in ecological and environmental issues. Topics with each seminar will vary each semester.

Note: May be repeated for credit. No more than one unit of ENVS 186B may be counted toward the upper division major requirement. Cross Listed: BIO 186B; only one may be counted for credit.

Credit/No Credit

ENVS 187. Environmental Studies Seminar. 1 Unit**Term Typically Offered:** Fall, Spring

Students will participate in the semester-long University seminar and will be exposed to a variety of environmental issues and topics presented by speakers from CSUS, the USGS, government and professional organizations, among many others. Topics include issues such as climate change, water use and conservation, environmental sustainability, environmental policy and decision-making, and many important regional issues.

Credit/No Credit

ENVS 190. Senior Thesis. 3 Units**Prerequisite(s):** Instructor permission and completion of all lower and upper division Environmental Studies courses.**Term Typically Offered:** Fall, Spring

Explores an environmental problem or issue in great depth. It includes a detailed review of the scientific literature, synthesis, and integration of information from the literature, and evaluation of the information leading to conclusions and recommendations that address the problem or issue. Thesis subjects are chosen by the student, and can be from a myriad perspectives addressed in the Environmental Studies curriculum including scientific, social, political, economic, and cultural issues.

ENVS 195. Environmental Studies Internship. 3 Units**Term Typically Offered:** Fall, Spring

Supervised work experience in an approved legislative or administrative office at some level of local, state or federal government, or in a public or private organization that is concerned with the environment. Supervision is provided by the faculty instructor and responsible officials in the work situation.

Note: Open to majors only, subject to instructor permission.

Credit/No Credit

ENVS 195M. Mini Internship. 1 Unit**Term Typically Offered:** Fall, Spring

This introductory work experience is designed for sophomores and juniors. The student must complete 45 hours of environmentally related work in a volunteer position with an environmental organization or participation in an environmentally focused event. Supervision is provided by the faculty instructor and responsible officials in the work situation.

Note: Open to majors only, subject to instructor permission.

Credit/No Credit

ENVS 196G. Youth Recreation in Camp Settings. 3 Units

This course examines camp programs in a wide variety of settings, for a variety of populations. Topics cover camp theories, camp management, risk-management, activity planning, inclusive programming, and staff training. Includes an emphasis on leadership, supervision, and organizational development of camp programs. Course uses lecture, field experiences, guest speakers, and service learning.

ENVS 199. Special Problems. 1 - 3 Units**Term Typically Offered:** Fall, Spring

Individual projects or directed reading.

Note: Open only to students who are competent to carry on individual work. Admission requires permission of the Director and the faculty member who will direct the work.

Credit/No Credit

ENVS 295. Practicum. 2 - 6 Units**Prerequisite(s):** Permission of faculty advisor and director.**Term Typically Offered:** Fall, Spring

Graduate internship experiences in practical setting.

Note: Open only to graduate students specializing in environmental studies.

Credit/No Credit

ENVS 296. Experimental Offerings in Environmental Studies. 1 - 3 Units**Prerequisite(s):** Instructor permission.**Term Typically Offered:** Fall, Spring

Courses offered on an experimental basis.

ENVS 299. Special Problems: Individual Study. 1 - 3 Units**Term Typically Offered:** Fall, Spring

Individual projects or directed reading.

Note: Departmental petition required.

Credit/No Credit

Ethnic Studies (ETHN)

ETHN 1A. Elementary Swahili. 3 Units**Term Typically Offered:** Fall, Spring

Introduction to the language of Swahili speaking people. Emphasis is on developing vocabulary and writing skills. Attention will be given to understanding the relationship of language to culture.

ETHN 1B. Elementary Swahili. 3 Units**Prerequisite(s):** ETHN 1A or its equivalent; or instructor permission.**Term Typically Offered:** Fall, Spring

Continuation of ETHN 1A with more emphasis on developing reading and listening skills along with further developing writing abilities. Provides deeper knowledge of the customs, traditions and experiences of Swahili speaking people.

ETHN 10. Africa: Myths and Realities. 3 Units**General Education Area/Graduation Requirement:** GE AREA D**Term Typically Offered:** Fall, Spring

Introduction to African Studies. Examines the most common myths found in both popular and academic literature about Africa and its people.

- ETHN 11. Introduction to Ethnic Studies.** 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D
Term Typically Offered: Fall, Spring
- Introduces the diverse institutional, cultural, and historical issues relating to the past and present life circumstances of Asian Americans, Mexican Americans, Black Americans, and Native Americans. Designed to introduce students to information presented in upper division courses with ethnic studies content.
- ETHN 11H. Introduction to Ethnic Studies (Honors).** 3 Units
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring
- Introduces the diverse institutional, cultural, and historical issues relating to the past and present life circumstances of Asian Americans, Mexican Americans, Black Americans, and Native Americans. Focuses may include leadership, identity development, problem solving skills, community organizing and empowerment. Designed to introduce students to information presented in upper division courses with ethnic studies content.
- Note:** Fulfills the General Education requirements of Area D1A (Foundations in the Social and Behavioral Sciences) as well as the General Education Honors Program.
- ETHN 14. Introduction to Asian American Studies.** 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Introduction to the basic concepts, theoretical perspectives, and research methodologies in comparison to other social science disciplines. The intersection of class, race/ethnicity, and gender of various Asian American and non-Asian American groups will be explored from a socio-historical perspective.
- ETHN 21. First Year Seminar: Becoming an Educated Person.** 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring
- Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills.
- Note:** Only open to students admitted to EOP Learning Communities Program.
- ETHN 30. Introduction to Chicano/Latino Studies.** 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D
Term Typically Offered: Fall, Spring
- Introduction to exploring the Chicano/Latino experience in the U.S. An overview of the diverse and multiple experiences of people of Mexico, Cuba, Puerto Rico, Dominican Republic, Central and South America. From a socio-historical perspective, the intersections of class, race/ethnicity, and gender will be explored.
- ETHN 50. Native American Religion and Philosophy.** 3 Units
Term Typically Offered: Spring only
- In-depth study into the principles of Native American religion and philosophical thought and the resulting impact of European culture upon the Native American societies.
- ETHN 53. Introduction to Native American Studies.** 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall only
- Broad overview to the field of Native American Studies, including history, sovereignty, popular imagery, economic development, literature, philosophy, religion, urbanization, gender, social issues, and cultures of native peoples. Introduction to Native American Studies; recognizes intra-tribal, trans-national, and various historical, cultural, and political relationships, and issues through an interdisciplinary approach. The primary focus will be post 1900.
- ETHN 70. Introduction to Pan African Studies.** 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall only
- Introduction to Pan African Studies. It is intended to introduce students to the context from which Pan African Studies arose, including the Western intellectual tradition, and to consider the substantive objections to Pan African Studies as a legitimate academic discipline. It is intended to show humanities and social science emphases of the discipline, and the interdisciplinary character of the discipline as a whole. Upon completion, students should have a broad exposure to the subject matter of the discipline, an acute appreciation of some of its philosophical concerns, a recognition of some of the principal methodologies employed by its scholars, some familiarity with major scholars in the discipline, and the ability to explore these subjects independently.
- ETHN 71. Leadership in the African Diaspora.** 3 Units
Term Typically Offered: Spring only
- Provides students with an understanding of the unique contours of leadership throughout the African Diaspora through an interdisciplinary approach to understanding particular problems, necessities and styles of leadership. Examines leaders and leadership roles within the African Diaspora with an emphasis on a variety of positions and contexts in the areas of politics, religion, art, and education, including the international, national, and local community (grassroots) arenas.
- ETHN 72. Black Images in Popular Culture.** 3 Units
Term Typically Offered: Fall, Spring
- This course is designed as a survey of the Black image within popular culture. Students will interrogate the roots of African American stereotypes within North American culture. Through an understanding of this history, we will assess how these stereotypes have evolved over time and the role they have played in constructing and positioning African Americans in American society. Students examine the ways in which African Americans actively construct images of themselves for a variety of political and social purposes.

- ETHN 94. CAMP Transition and Problem Solving.** **3 Units**
Term Typically Offered: Fall, Spring
- Designed for CAMP students new to University life, form and functions. The three hour lecture/discussions per week are focused on assisting students with making a successful transition to the University.
Note: May be repeated once for credit.
- Credit/No Credit
- ETHN 96B. Contemporary Issues and Social Change.** **3 Units**
Term Typically Offered: Fall, Spring
- Generation after generation, university students have been key constituents in movements for social change. From public demonstrations to research studies, colleges and universities afford countless opportunities for students to advocate for a better world. This course explores how students can utilize university resources to explore interests and concerns, hone academic skills and contribute to social change.
- ETHN 98. Co-Curricular Activities.** **1 - 3 Units**
Term Typically Offered: Fall, Spring
- Co-curricular activities related to the subject matter and intellectual concerns in Ethnic Studies.
Note: Recommended for students new to the university experience and students having completed fewer than 45 units of course work. May be repeated twice for total credits not to exceed 6 units.
- Credit/No Credit
- ETHN 100. Ethnic America.**   **3 Units**
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring, Summer
- Through an interdisciplinary approach, introduces the four major American ethnic groups -Black, American Indian, Chicano, Asian American. Focuses on themes common to all four groups (racism, economic and political oppression) and demonstrates the varied contributions of each culture to American social and economic life.
- ETHN 110. The Asian American Experience.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Survey of the experiences of various Asian groups in the U.S. from the mid-nineteenth century to present. The historical forces affecting the immigration and settlement patterns of Chinese, Japanese, Filipinos, Koreans, Asian Indians and Southeast Asians (Vietnamese, Cambodians, Laotians) will be compared and contrasted. Students will analyze the problems resulting from limited access to the social, political, and economic institutions of U.S. society.
- ETHN 111. Southeast Asians in the US.** **3 Units**
Term Typically Offered: Spring only
- Examine several issues and factors shaping the experiences of recent immigrant groups (Vietnamese, Mien, Hmong, Cambodians, Laotians) from Southeast Asia to the U.S. Focuses on the dynamic relationship between ethnicity, minority assignment and social integration as these effect the experiences of these immigrant groups.
- ETHN 112. Contemporary Asian American Issues.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Examines several important social issues such as emerging communities, education, employment and occupations, anti-Asian violence, media images and stereotypes, families and identities, and political empowerment shaping the contemporary experiences of diverse Asian American groups.
- ETHN 113. Asian American Communities.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Examination of the historical and contemporary experiences of various Asian American communities through active investigation. The concepts, methods, and theories commonly utilized in community research will be covered.
- ETHN 114. Asian Americans and Globalization.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Examination of the Asian American immigration within the context of the larger Asian global migration. Emphasis will be placed on the period from the 16th century to the contemporary Asian global migration. A critical examination of the perspectives on the Pacific region and how the economic, social, political and historical forces affected migration and the formation of Asian global communities.
- ETHN 115. Biracial and Multiracial Identity in the US.** **3 Units**
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring
- Examination of biracial/multiracial populations, their social histories, social experiences and social identities within various sociological and social psychological theoretical frameworks. An exploration of the relationship biracial/multiracial groups have had, and continue to have, with the larger white majority and monoracially identified minorities.
- ETHN 116. Asian American Politics and Public Policy.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Critical examination of the historical and contemporary political experiences of Asian Americans and their pursuits of immigration rights, citizenship, political identity, equality, freedom, and incorporation into the U.S. political system.

- ETHN 117. Black Political Thought. 3 Units**
Term Typically Offered: Spring only
- To systematically and analytically introduce the predominant political trends and concepts presently entertained and harbored in the Black Community. A necessary adjunct to this dialogue is the racist theme in American society since on balance this is the matrix out of which the political alternatives and concepts grew.
 Cross Listed: GOVT 117; only one may be counted for credit.
- ETHN 118. Asian American Women. 3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
- Using an interdisciplinary approach, course offers a broad introduction to the principle values and traditions shaping Asian American women's lives in the U.S. Examines cultural diversity, gender inequality and conflicts between traditions and social practices through critical analysis of literature, film and cultural theories as expressions of identity. Topics covered include: cultural heritage and philosophies, intergenerational conflict, transnationalism, gender roles and socio-economic practices. Provides comprehensive understanding of principle factors governing Asian American women's lives at the nexus of Asian and American cultures.
 Cross-listed: WOMS 118.
- ETHN 119. The Filipino American Experience. 3 Units**
Term Typically Offered: Fall, Spring
- Overview of the Filipino American experience from the 16th century to the present. Immigration and settlement of Filipinos in the U.S. will be critically examined within the context of historical, social, economic, and political forces in American society. How the Filipino labor market status, race, class, and sex/gender relations affected the evolution and formation of Asian American communities will be critically examined.
- ETHN 121. Hmong American Experience. 3 Units**
Term Typically Offered: Fall only
- Explores the historical and cultural background of Hmong Americans. Major emphasis is on the many experiences of the Hmong Americans including the social, economic, and political conditions that prompted their migration from Laos to the U.S. Explores the complex patterns of Hmong American acculturation in relation with other Asian and non-Asian immigrant groups.
- ETHN 122. Sikh Americans and Globalization. 3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only
- Examines the history and migration of Sikhs throughout the world, including the United States. Topics include the origin of Sikhism, Sikh history/religion/culture/social institutions and social relations, direct and secondary migration, race and ethnic relations, second-generation identity issues, and global diaspora/transnationalism.
- ETHN 130. Chicano/Mexican-American Experience. 3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer
- Transmits knowledge and understanding of how racism confronts and divides American society. Attention will be given to the effects of racism on the experiences of Chicanos/Mexican Americans in American society.
- ETHN 131. La Raza Studies. 3 Units**
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D
Term Typically Offered: Fall, Spring
- Ethnohistorical analysis of La Raza Cosmica designed to convey crosscultural knowledge and understanding of peoples from Mexico, Cuba, Puerto Rico and Central America. Includes a comparative analysis of ethnic identity and a survey of socio-cultural, political and economic changes which have influenced U.S./Latin American policy and immigration patterns of Latinos to the U.S.
- ETHN 132. La Mujer Chicana. 3 Units**
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring
- Critical analysis of the cultural influence that the family, community, religion, economic status and peers play upon the decisions, the values and roles held by Chicanas. An examination of the processes which have resulted in the change of attitudes, values and roles of the contemporary Chicana.
- ETHN 133. Crosscultural Aging in America. 3 Units**
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), Understanding Personal Development (E)
Term Typically Offered: Fall, Spring
- Examines aging crossculturally among ethnic groups in America. Emphasis will be placed on a review of the current literature on aging and ethnicity. Also examines changing roles and values in Black, Hispanic, Asian and Native American families.
- ETHN 136. US Mexican Border Relations. 3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Contemporary issues affecting the daily lives of people living in the U.S. - Mexico Borderlands. Theories, gender issues, political, economic and social relationships on both sides of the border will be examined.
- ETHN 137. Race and Ethnicity in Latin America and Caribbean. 3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Socio-economic, historical and contemporary issues affecting the various peoples living in the Latin America and the Caribbean. We will examine the intersection of race and ethnicity as well as class, gender, and identity, with attention paid to the contributions and presence of Asians, Africans, Europeans, and Indigenous peoples.
- ETHN 140. Native American Experience. 3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer
- Advanced course in American Indian history, political and social relations, with emphasis upon current movements and problems of Native American life.

- ETHN 141. Politics of the African Diaspora.** 3 Units
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall only
- Examines the social, political, cultural, and economic factors which have been important to the African diaspora. Examines how African people have responded to those factors, both in terms of formal, political thought, and in terms of political movements and political institutions. Examines thought and proactive, comparability to Africa, U.S., Caribbean, Central and South America.
 Cross Listed: GOVT 141; only one may be counted for credit.
- ETHN 142. Native American Tribal Governments.** 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Examines the regulatory powers that American Indian tribes possess over their peoples and territories. Students will acquire an understanding of tribal governmental history, internal affairs, jurisdictional conflicts, government relations, federal Indian public policy and economic development. The political aspects of tribal government administration and the emergence of self-governance as a foundation for self-determination, development and sustainability will be explored.
- ETHN 143. American Indians, Film and Popular Culture.** 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only
- Students will examine various ways American Indians are imagined by popular culture through film, including drama, comedy and documentary. Beyond identifying and analyzing images of Indians as well as myths about their historical and contemporary circumstances, students will be challenged to investigate and understand the tenuous relationship between fact and fiction in popular culture.
- ETHN 145. Native Voice, Memory, and Biography.** 3 Units
Prerequisite(s): GWAAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)
Term Typically Offered: Fall, Spring
- Through the genre of biography and autobiography, students will examine the relevance of Native voice and memory in reference to the development of identity, cultural transformation, indigenous knowledge, political activism, and historical consciousness. Students will analyze the political, economic and cultural contexts in which Native voices and memories emerge.
- ETHN 150. Native American Oral Tradition and Storytelling.** 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
- Study of how Native American oral tradition and storytelling affect the experience of tribal expression. Examines the foundation of this tradition through an analysis and comparison of traditional and contemporary forms.
- ETHN 151. Native American Women.** 3 Units
Term Typically Offered: Fall only
- Examination of the traditional, non-traditional, and contemporary roles of Native American women. The relationship of these roles to both Indian and non-Indian societies. An exploration of Native women's issues through histories, literatures, and oral traditions, focusing on Native American women's perspectives. Colonization has drastically impacted native women and the lives of their families, nations and communities. Resistance and de-colonization efforts by Native women will be illuminated and analyzed.
- ETHN 152. American Indians, Sovereignty and US Laws.** 3 Units
Term Typically Offered: Spring only
- Examines the legal history developed between American Indians and Euro-Americans. Includes an introduction to events, circumstances, and relationships that developed social and legal concepts. There will be an examination of constitutional principles, laws and United State's policies from the early 1800's to the present and the impacts of these doctrines on American Indian sovereign powers. The students will acquire a basic understanding of the sources of political conflict in contemporary American Indian communities and American society.
- ETHN 155. Genocide and Holocaust Studies.** 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer
- Examines genocide cases, such as the Armenian genocide, the Jewish Holocaust, the genocide of Roma, the Cambodian "Killing Fields", genocide in East Timor, ethnic cleansing in Bosnia, the genocide of the Tutsi in Rwanda and genocide in the Darfur region of Sudan, as well as the genocide of Native Americans, and other indigenous peoples. Addresses causes of, and responses to, genocide around the world, especially in Africa, Asia and Latin America. This phenomenon is examined historically, descriptively, comparatively and theoretically.
- ETHN 156. Indigenous People.** 3 Units
Term Typically Offered: Fall, Spring
- Common existential experiences of indigenous people all over the world namely the Batwa and Pygmies in Central Africa, the Khoisan of Southern Africa, the Berber in Northern Africa, the Sami in Northern Europe, the Basque in France and Spain, the Hawaiians in the Pacific, the Ainu of Japan, the Aborigines in Australia, and Native Americans in the Americas.
- ETHN 161. Chicano/Latino Politics and Public Policy.** 3 Units
Term Typically Offered: Fall, Spring
- Explores the historical and contemporary development of Chicano/Latino political activity in the United States. Will review essential components of the U.S. political system and examines relevant theories and concepts that have impacted public policy debate related to education, employment, health, housing, immigration, and income inequity. Primarily focuses on the political history and present day circumstances of the three largest Latino groups, Mexican Americans, Puerto Ricans, and Cuban Americans.

ETHN 166. American Indigenous Families: Issues and Perspectives.**3 Units****Term Typically Offered:** Fall, Spring

Application of research and theory specific to Latino/Chicano and American Indian families; strategies for applying this knowledge to areas of service, therapy, policy, and education. Lecture/discussion, internet enhancement.

Cross Listed: FACS 166A; only one may be counted for credit.

ETHN 167. Asian American Families: Issues and Perspectives.**3 Units****Term Typically Offered:** Fall, Spring

Family is an adaptable and changing institution of society. Research and theory on Asian American families will be highlighted with an emphasis on applying the information to areas of service, therapy, policy, and education. Experiences of various Asian groups in the U. S. will be compared.

Cross Listed: FACS 166B; only one may be counted for credit.

ETHN 170. Pan African Studies.**3 Units****General Education Area/Graduation Requirement:** GE AREA D**Term Typically Offered:** Fall, Spring

Investigation into the subjective aspects of Pan African Studies (Black Studies). Covers such topical areas as the struggle by Black Americans for education, the genesis of the Black Studies movement, Black culture, institutional change, etc. The very nature of the course permits the coverage of a broad range of subject matter. Students are encouraged to take specific courses offered by the Pan African Studies program for more extensive investigation.

ETHN 171. African Religions and Philosophies.**3 Units****General Education Area/Graduation Requirement:** Humanities (Area C2)**Term Typically Offered:** Fall, Spring

Study of the African's concept of God with particular emphasis on His works, His relationship to His creations, and His worship. Also covers the concepts of evil, ethics, justice and various metaphysical ideas.

ETHN 172. Black Women In America.**3 Units****Term Typically Offered:** Spring only

Examines the historical and social forces that shape the lives of Black women. Examines the Black woman's role in the family, community, work force and society in general.

ETHN 173. The Black Family in the United States.**3 Units****Term Typically Offered:** Fall, Spring

Using the interdisciplinary approach, several institutional factors affecting the structure, evolution, and function of the Black Family unit in the U.S. will be studied. Permits a broad, yet systematic, examination of the Black Family in order to understand the several dynamics affecting the Black Family in particular and Black Americans in general.

ETHN 177. Topics In African Studies.**3 Units****Term Typically Offered:** Fall, Spring

Special topics in African studies.

ETHN 177A. Genocide and Human Rights: Africa.**3 Units**

This course focuses on the human rights abuses and Genocides that occurred in colonial and post-colonial Africa. It explores Genocide in Rwanda, Darfur, Namibia, and mass killings in Congo. It examines Campaigns of cultural Genocide, ideological pressure, and the involvement of former colonial powers in mass killings. Different approaches of conflict resolution such as the South African Truth and Reconciliation model will be examined. Causes and conditions of Genocide will be interpreted through interdisciplinary literature.

ETHN 179. Black Music and Black Consciousness.**3 Units****Term Typically Offered:** Fall only

Provides students with an understanding of the essential role Black music assumes in the development of people of African descent throughout the Black Diaspora. Major topics include the historical development of Black music, the role of music in Black resistance and other forms of political behavior, the economic exploitation of Black music and the Black musician and the influence of globalization.

ETHN 180A. Forms of African-American Poetry.**3 Units**

Prerequisite(s): GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

Focuses on four or more African-American poets, representing a historical succession of literary periods.

ETHN 180B. Forms African-Am Fiction.**3 Units**

Prerequisite(s): GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Race & Ethnicity Graduation Requirement (RE), Humanities (Area C2)

Term Typically Offered: Fall, Spring

Focuses on four or more African-American writers of fiction, surveying texts representing a historical succession of literary periods.

ETHN 181. Cinematic Representations of Pan African Identities.**3 Units**

This course is designed as an intensive survey of African American cinema that engages questions of history, culture, politics and the overall function of race and representation in American society. Our focus in this class is to understand Pan African filmmakers and their respective films. We will focus on cultural factors intrinsic to Pan African societies and how cinema fits into this context, as well as how issues of gender, sexuality and class impact the films.

ETHN 182. Protest in Hip Hop.**3 Units**

This course is designed to be an intensive survey of the evolution of hip hop as a form of social protest that developed into a global cultural movement. The course draws parallels from hip hop's historical function with past and present U.S. social movements advocating for social justice, including the recent #BlackLivesMatter movement. Students will also examine cultural studies theoretical concepts analyzing mainstream's exploitation and marginalization of race, class, gender and sexuality representations in hip hop.

ETHN 194. Research in Ethnic Studies.**3 Units****Prerequisite(s):** One upper-division Ethnic Studies course.**Term Typically Offered:** Fall, Spring

Designed to provide students with contemporary theoretical knowledge and practical skills for conducting research in the Asian American, Black American, Chicano, and Native American communities. Methodology which addresses issues and research perspectives distinctly germane to researching a targeted community is examined.

ETHN 195A. Ethnic Studies Fieldwork.**1 Unit****Prerequisite(s):** Ethnic Studies majors only**Corequisite(s):** ETHN 195B**Term Typically Offered:** Spring only

Allow students, with faculty supervision, to work closely with the ethnic minority communities. Students may work with a community agency, community organization, or other site with instructor approval.
Credit/No Credit

ETHN 195B. Ethnic Studies Seminar.**2 Units****Prerequisite(s):** Ethnic Studies majors only**Corequisite(s):** ETHN 195A**Term Typically Offered:** Spring only

Seminar discussions designed to synthesize and assess knowledge in Ethnic Studies courses applied to fieldwork experiences.

ETHN 198. Co-Curricular Activities.**1 - 3 Units****Term Typically Offered:** Fall, Spring

Co-curricular activities related to the subject matter and intellectual concerns in Ethnic Studies. For example, students may earn ETHN 198 credits by participating in Ethnic Studies classes as tutors and/or section or discussion leaders; teaching as voluntary instructors or tutors in courses offered by community organizations.

Note: May be repeated twice for total credits not to exceed 6 units.

Credit/No Credit

ETHN 199. Special Problems.**1 - 3 Units****Term Typically Offered:** Fall, Spring

Individual projects or directed reading. Admission requires approval of the faculty member under whom the individual work is to be conducted, the appropriate program director and the Chair of Ethnic Studies.
Credit/No Credit

ETHN 299. Special Problems/Individual Study.**3 Units****Term Typically Offered:** Fall, Spring

Open to classified and unclassified graduate students. Allow qualified students to explore topics, issues, and subjects pertinent to ethnic groups in the U.S.

Credit/No Credit

Executive Masters in Business Administration (EMBA)

EMBA 210. EMBA Orientation.**1 Unit****Prerequisite(s):** Acceptance to the EMBA Program.**Term Typically Offered:** Fall, Spring

Includes individual introductions, program overview (content and administrative policies and practices), overviews, critical thinking seminar, seminar on academic research methods and tools, introduction of on-line technologies for instructional-related activities, and team building activities.
Credit/No Credit

EMBA 222. Managerial Accounting for Executives.**3 Units****Prerequisite(s):** EMBA 210.**Term Typically Offered:** Fall, Spring

Consistent emphasis on managerial accounting and reporting is cost identification, allocation and control. Expands the traditional view of accounting to include an examination of the integration of the historic three tools with cost elements. Expanded view would include environmental and political costs, compliance with multinational reporting standards, tax compliance and treaty cost.

EMBA 223. Quantitative Methods for Decision Making.**3 Units****Prerequisite(s):** Completion of EMBA 210.**Term Typically Offered:** Fall, Spring

Presents how business decisions are now made in an increasingly competitive and complex business environment. The emphasis will be on how to better respond to this challenge by using quantitative methods to forecast, extrapolate, analyze, and simulate a business situation for effective decision-making. Cases studies will be used to develop those capabilities.

EMBA 224. Managerial Finance for Executives.**3 Units****Prerequisite(s):** Completion of EMBA 210.**Term Typically Offered:** Fall, Spring

Provides students a well-rounded understanding of the language and financial expectations/performance of organizations. Candidates will learn how to evaluate decisions from the perspective of shareholder and stakeholders. With this perspective they will be better equipped to make better business decisions and also understand the financial impact of those decisions.

EMBA 225. Organizational Design and Management.**3 Units****Prerequisite(s):** Completion of EMBA 210.**Term Typically Offered:** Fall, Spring

Review the organization theory from a macro perspective (structure, process, technology, people, and culture). Special attention will be paid to organization structure, human resources, design, control, culture and inter-organizational relationship.

EMBA 226. Technology Management for Executives.**3 Units****Prerequisite(s):** Completion of EMBA 210.**Term Typically Offered:** Fall, Spring

Covers the major challenges organizations deal with today as they attempt to manage their key technological resources as well as with implementing technological innovations. Addresses the digital opportunities and threats organizations face from senior management perspectives.

- EMBA 227. Strategic Marketing Management.** 3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring
- Presents how modern marketing principles can be applied to real-world situations. The emphasis will be on studying strategies used by organizations in today's highly competitive and evolving marketplace. Case studies will be utilized to fully develop techniques for creating marketing programs given varying levels of resources and information available under diverse market conditions.
- EMBA 228. Strategic Analysis for Executives.** 3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring
- Focuses on the competitive strategy of the firm and examines issues central to its long-term competitive position by utilizing the cutting-edge strategic approaches. Develops frameworks that are useful in analyzing a firm's competitive environment and developing firm-specific capabilities that contribute to its competitive advantage. Addresses the economic logic and administrative challenges associated with horizontal diversification, vertical integration and global expansion.
- EMBA 229. Leadership and Change Management.** 3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring
- Introduce the concept of leadership in business organizations. Key themes: leading teams and leading during times of change. An integral part is to study current business leaders and analyze their leadership practices.
- EMBA 242. Product and Brand Management.** 3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring
- An organization's products and services are among the most important determinants of its ultimate survival and success since organizations rely on repeat business. No organization can survive over the long term if its products and services do not serve the needs of its customers, whether they are external or internal to the entity. Focuses on developing successful products and services as an on-going and iterative process. It explores customer needs and expectations change, the dynamics of the marketplace make, and the need to continually refine and improve the product and service offerings. Attention is given to how and when products must be modified over time to achieve their maximum potential, and eventually eliminated so resources can be directed to new products and services with greater long-term value.
- EMBA 243. Legal Issues in Business Environment.** 3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring
- Addresses sales contracts, employment law, alternative dispute resolution, intellectual property, and antitrust matters. Covers the interaction between a client and an attorney, how to use and communicate with a lawyer, and how to make legal-executive decisions. In all components, the course stresses ethical standards and the responsible roles of businesses in society.
- EMBA 244. Corporate Performance Measurements.** 3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring
- Introduces models to evaluate uncertain project outcomes, financial methods to estimate the intrinsic worth of the firm, metrics to evaluate firm performance in terms of shareholder value created, tools to analyze shareholder wealth consequences of corporate restructuring activities, and discusses the ethical implications of corporate restructuring activities. An additional dimension of metrics will include human based metrics such as performance reviews and human development.
- EMBA 245. Competing in the Global Marketplace.** 3 Units
Prerequisite(s): Completion of orientation course.
Term Typically Offered: Fall, Spring
- Presents the principles of effective international management in a complex global environment of interactive socio-cultural, economic, and political forces. Covers competitive strategies in the rapidly growing globalization and addresses what today's networked economy offers.
- EMBA 246. Managing Creativity and Innovation.** 3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring
- Provides students with a strong theoretical foundation and a set of practical tools for the management of creativity and innovation. It will help students understand the innovation process and rethink an organization's human resources strategy and transform it into system that will promote growth and effectiveness at all levels of the organization. Provides a framework for a learning organization to recognize failures, disruptive technologies, and strategies to overcome them.
- EMBA 247. Executive Decision Making.** 3 Units
Prerequisite(s): Completion of EMBA Program.
Term Typically Offered: Fall, Spring
- Provides a framework for analyzing and identifying key management issues as well as developing plans for action. Focuses on identifying what managers do, what distinguishes effective management, how managers make decisions, and what makes a company excellent.
- EMBA 248. Project Management for Executives.** 3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring
- Covers the knowledge and skills as well as the principles and practices required to organize, plan and control projects of all sizes. Topics covered: a review of project characteristics and vulnerabilities, development of managerial philosophy and execution objectives, organization structure and interfaces, and management and control techniques.

EMBA 249. Management in the Public Sector. 3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring

Managing public sector organizations requires unique skill sets. Governmental entities serve multiple constituencies, some of which may have differing and competing objectives and needs. Their customers include those who utilize the entity's products and services, taxpayers who fund the organization, publicly elected officials who set new directions with every change in administration, oversight groups which monitor governmental activities, and the ever-watchful media. Accordingly, managers in the public sector need to function effectively in highly volatile and political environments. Traditional and innovative management practices have to be tempered by political realities and the public's emphasis on service with accountability. Managers have to perform their traditional roles while also being public relations specialists in dealing with the various constituencies of the public sector entity.

EMBA 260. EMBA Individual Project. 4 Units
Term Typically Offered: Fall, Spring

EMBA 296. Experimental Offerings in Executive Management. 3 Units
Term Typically Offered: Fall, Spring

When a sufficient number of qualified students apply, a faculty member may conduct a seminar on a designated advanced topic in executive management.

Note: May be repeated for credit

EMBA 299. Special Problems in Executive Management. 1 - 3 Units
Prerequisite(s): Classified graduate status or instructor approval.
Term Typically Offered: Fall, Spring

Individual projects or directed reading with examination for students qualified to carry on independent work.

Note: Enrollment requires approval of faculty member supervising work in addition to the approval of the Associate Dean for Graduate and External Programs. Petitions to be obtained from the Graduate Business Advising Center (GBAC).

Family and Consumer Sciences (FACS)

FACS 50. The Family and Social Issues. 3 Units
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring

Family structure, systems and functioning in marriage and other partnerships, parenting, work issues, domestic violence, divorce, and remarriage. Focus on social issues including gender, race, ethnicity, and class. Historical and theoretical perspectives on families in America. Introduction to research in family sciences and public policy implications. Lecture, discussion.

Note: Not open for credit to students who have taken SOC 5.

FACS 52. The Child In The Family. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Physical, social, emotional and cognitive development of the child, conception through adolescence, in relation to the family. Strong theoretical emphasis. Introduction to methods of study, including observation and interview. Lecture, discussion, fieldwork.
Note: Not open for credit to students who have taken CHDV 137, CHDV 138, or PSYC 148.

FACS 100. Research: Methods and Application in Family and Consumer Sciences. 3 Units
Prerequisite(s): 6 FACS units completed. FACS majors only
Term Typically Offered: Fall, Spring

Study of methods and application of research in the field of Family and Consumer Sciences. Focus on scientific inquiry, methodology, evidenced-based practice, interpretation of research results, program and project evaluation, and professional communication. Includes the examination of ethical practices, professional presentation skills, and technical writing skills.

FACS 108. Family Communication. 3 Units
Prerequisite(s): COMS 8, FACS 50, SOC 166, or instructor permission.
Term Typically Offered: Fall, Spring

Study of the family as a small group with emphasis on understanding and interpreting the dynamics of family communication using various communication and social-psychological theories. Opportunity to develop an analytical framework.
 Cross Listed: COMS 108; only one may be counted for credit.

FACS 128. Consumer Technologies and Environments. 3 Units
Term Typically Offered: Fall, Spring

Study and analysis of technologies, durable goods, and environments in home and workplace and their impact on quality of life. Principles of equipment and product design, selection and safety; space planning; consumer decision making. Examination of issues related to energy management, shelter, housing and access to technology. Lecture, field trips two hours; activity two hours.
 Field trip(s) may be required.

FACS 140. Family Resource Management. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Management of resources in family systems. Interaction of families with other societal and environmental systems in acquiring and using resources to meet goals and other demands.

FACS 141. Family Finance. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Economic problems of and financial management by the individual and family. Topics include: income patterns, inflation, credit, contracts, housing, financial services, insurance, taxes, investments, retirement income planning.

- FACS 142. Consumer Issues.** **3 Units**
Term Typically Offered: Fall, Spring
- Study of effect of consumer movements on protection of consumer rights. Current issues include marketplace fraud and redress; consumer information, education, and decision-making; privacy and environmental concerns; and advocacy for vulnerable consumer groups.
- FACS 143. Consumer Policy.** **3 Units**
Prerequisite(s): GOVT 1 or GOVT 150 or instructor permission.
Term Typically Offered: Fall, Spring
- Examination of consumer policy and regulations. Emphasis on consumer products, including food and drugs, housing, and credit. Strategies for promoting consumer advocacy. Lecture, discussion, field trips. Field trip(s) may be required.
- FACS 147. Financial and Legal Aspects of Aging.** **3 Units**
Prerequisite(s): FACS 141 or instructor permission.
Term Typically Offered: Fall, Spring
- Economic status, financial and consumer issues, legal rights and responsibilities and resource management for aging persons. Emphasis on financial planning for retirement and estate planning. Lecture, discussion, case studies.
- FACS 148. Fashion Law.** **3 Units**
Prerequisite(s): FACS 134
Term Typically Offered: Fall only
- This course provides an overview of legal issues affecting the fashion industry and its professionals with an emphasis on fashion entrepreneurship, design, advertising and promotion, production, sourcing, marketing and retailing. Students will also learn about fashion regulatory and policy issues, intellectual property (copyright, trademarks, patents), contractual agreements, leasing, commercial operations and expansion, and the international development of a fashion business.
- FACS 149. Family Financial Counseling.** **3 Units**
Prerequisite(s): FACS 141 and senior status.
Term Typically Offered: Fall, Spring
- Examination of professional issues in family financial planning including ethical considerations, regulations, communication skills, and professional responsibility. Development of skills needed by family financial counselors to counsel families with financial problems. Lecture, discussion, case study, counseling sessions.
- FACS 150. Family Stress and Coping: Multicultural Focus.**   **3 Units**
Prerequisite(s): FACS 50 or equivalent with instructor permission, and GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Race & Ethnicity Graduation Requirement (RE), GE AREA D
Term Typically Offered: Fall, Spring, Summer
- Study of multicultural families and diverse family forms, with a focus on how families function under stress. Family theory and research are applied to the interpretation and analysis of selected literary work, both in print and film formats.
- FACS 152. Adolescent Development.** **3 Units**
Prerequisite(s): CHDV 30, or CHDV 35, or FACS 52, or instructor permission.
Term Typically Offered: Fall only
- In-depth study of the achievements and challenges associated with the adolescent stage of development. Focus on understanding the needs and motivations of adolescents and the challenges they face within their socio-cultural environment. Lecture, discussion.
Note: Not open to students who have taken PSYC 149. Previous or concurrent enrollment in CHDV 133 strongly recommended.
- FACS 154. Issues in Parenting.** **3 Units**
Prerequisite(s): CHDV 30, or CHDV 35, or FACS 52, or instructor permission
Term Typically Offered: Fall, Spring
- Survey of historical and contemporary attitudes toward parenting. Review of research on child-rearing and parent-child relationships. Use of case studies to explore the influence of personality, developmental stage, family structure, ethnic and cultural factors on parenting. Lecture, Case Study.
Note: Previous or concurrent enrollment in CHDV 133 strongly recommended. Cross-listed: CHDV 154; only one may be counted for credit.
- FACS 155. Family Life Education.** **3 Units**
Prerequisite(s): FACS 50; and FACS 100 or CHDV 133; and senior standing.
Term Typically Offered: Fall only
- Historical and philosophical perspective on family life education across the lifespan. Practice in curriculum development including content, objectives, and teaching strategies.
- FACS 156. Child Life and Family-Centered Care.** **3 Units**
Prerequisite(s): FACS 52 or CHDV 30 or CHDV 35 or a course in child development/human development, covering at least birth through adolescence with instructor permission.
Term Typically Offered: Summer only
- Overview of the Child Life profession and child life practices. Focus on family-centered care for children in the healthcare environment and their families. Major course topics include: scope of practice in child life; ethical and professional practice; impact of illness, injury and health on patients and family; techniques and outcomes of preparation; therapeutic play; grief and bereavement.
Note: This course is designed to meet the specifications set forth by the Association of Child Life Professionals (ACLP) for the child life course required for certification as a Certified Child Life Specialist (CCLS)
- FACS 159. Adulthood and Aging in Human Development.** **3 Units**
Term Typically Offered: Fall, Spring
- Analyzes the interrelation between physical, psychological, and social development in the middle and later years of adulthood with attention to personal, family and community challenges and opportunities in their cultural context.

FACS 162. Family Support Services. 3 Units

Prerequisite(s): A minimum of 12 units in FACS upper division family area courses.

Term Typically Offered: Fall, Spring

Application of family science to the development, implementation, and evaluation of family support services. Implications of research for practice with diverse families. Focus on developing skills in family-centered services, family-professional collaboration, and resource-based and asset-based intervention. Lecture two hours; fieldwork in the community three hours.

FACS 166A. American Indigenous Families: Issues and Perspectives. 3 Units

Term Typically Offered: Fall, Spring

Application of research and theory specific to Latino/Chicano and American Indian families; strategies for applying this knowledge to areas of service, therapy, policy, and education. Lecture; discussion, Internet enhancement.

Cross Listed: ETHN 166; only one may be counted for credit.

FACS 166B. Asian American Families: Issues and Perspectives. 3 Units

Term Typically Offered: Fall, Spring

Family is an adaptable and changing institution of society. The course will highlight research and theory on Asian American families with an emphasis on applying the information to areas of service, therapy, policy, and education. A comparison of the experiences between various Asian groups in the U.S. will be stressed. Lecture, discussion, Internet enhancement.

Cross Listed: ETHN 167; only one may be counted for credit.

FACS 168. Senior Seminar. 3 Units

Prerequisite(s): 21 FACS units.

Term Typically Offered: Fall, Spring

Designed to synthesize knowledge in Family and Consumer Sciences. Examination of the concentration in the major and career exploration. Analysis of public policy and ethical issues, professionalism and leadership strategies. Includes personal and professional competency assessment and development of an academic and professional portfolio.

FACS 195A. Field Study: Selected Areas in Family and Consumer Sciences. 1 - 3 Units

Prerequisite(s): Instructor permission.

Term Typically Offered: Fall, Spring

Guided study and experience in some area within Family and Consumer Sciences in which the student needs orientation or greater depth of study in a specialized field.

Credit/No Credit

FACS 195C. Internship. 1 - 3 Units

Prerequisite(s): Upper division status; instructor permission obtained in the preceding semester; 2.5 GPA or above.

Term Typically Offered: Fall, Spring

Directed observation and supervised work experience in an approved business, government, or service agency. Internships are offered for the purpose of increasing student understanding of the nature and scope of agency operations and giving students orientation in occupational specialties. Supervision is provided by authorized persons in the cooperating agencies and collaborative supervision is provided by the Family and Consumer Sciences faculty. Each student is required to maintain a record of activities and assignments and to prepare periodic reports.

Note: Student must make arrangements with a faculty member for a work program one semester prior to admittance to the course. A minimum of three hours per week per unit of credit is required.

Credit/No Credit

FACS 195F. Practicum in Family Life Education. 1 - 3 Units

Prerequisite(s): senior status; GPA of 2.75 or above; NURS 160 or PSYC 134 or HLSC 134; and FACS 155.

Corequisite(s): If not taken as a prerequisite, FACS 155 may be taken concurrently with instructor's approval.

Directed observation and supervised work experience in an approved educational setting, service agency, business or government agency that provides family life education. Students will move from observing and assisting to developing, delivering and assessing lessons and programs in family life education. Students will gain experience applying educational and developmental theories, curriculum development, and teaching methods to delivering evidence-based and culturally sensitive lessons in the content areas of family life education: parent education, strengthening relationships, and/or sexuality education.

Note: Students must make arrangements with the supervising faculty member one semester prior to admittance to the course.

Credit/No Credit

FACS 199. Special Problems. 1 - 3 Units

Term Typically Offered: Fall, Spring

Individual projects or directed reading.

Note: Departmental petition required.

Credit/No Credit

FACS 280. Teaching Methods in Family and Consumer Sciences/Home Economics. 3 Units

Prerequisite(s): Current enrollment in a teaching credential program or instructor permission.

Term Typically Offered: Summer only

This course is designed to provide students with materials, classroom management strategies and methods necessary to successfully teach Family & Consumer Sciences (FCS)/Home Economics Careers and Technology (HECT) at the secondary level. Teacher candidates will become acquainted with legislation, standards, teaching strategies, resources, research and student leadership programs.

Film (FILM)

FILM 20A. Audio Production. 2 Units

Corequisite(s): FILM 20B.

Term Typically Offered: Fall, Spring

Introduction to the theory and practice of audio production in radio, television, film and recording applications.

Cross-listed: COMS 20A.

FILM 20B. Audio Production Lab. 1 Unit

Corequisite(s): FILM 20A.

Term Typically Offered: Fall, Spring

Experience in audio console operation, microphone selection and use, and audio recording in radio, television, film and recording applications.

Cross-listed: COMS 20B.

FILM 27A. Digital Film/Video Production. 2 Units

Corequisite(s): FILM 27B.

Term Typically Offered: Fall, Spring

Introduction to the techniques and aesthetics of digital film making. The course covers camera technique and cinematography.

Cross-listed: COMS 27A.

FILM 27B. Digital Film/Video Production Lab. 1 Unit

Corequisite(s): FILM 27A.

Term Typically Offered: Fall, Spring

Introduction to the techniques and aesthetics of digital film making. The course covers camera angles, basic lighting, framing, and non-linear editing techniques.

Cross-listed: COMS 27B.

FILM 97. Introduction to Film Studies. 3 Units

Term Typically Offered: Fall, Spring

Examines cinematic techniques, styles, vocabulary, and discourses. Introduces different ways for writing about films and for working with a variety of cinematic terms. Film form and style will be studied by examining specific scenes in films from different genres, nations, and directors. Film used throughout the course will be selected from different historical periods.

Cross-listed: ENGL 97.

FILM 105. Film Theory and Criticism. 3 Units

Term Typically Offered: Fall, Spring

Survey of film theory focusing on Auteurism, Class, Expressionism, Formalism, Genre, Gender, Narratology, Neorealism, Phenomenology, Post-Structuralism, Psychoanalysis, Realism, Semiology, Structuralism, and Third Cinema.

Cross-listed: ENGL 105.

FILM 121. Media Aesthetics. 3 Units

Term Typically Offered: Fall, Spring

Overview and analysis of the primary aesthetic tools used to create messages in video and film. The basic properties of light, color, area, space, shape, sound, time and motion are defined and discussed as they relate to media production. Introduces students to the concepts and vocabulary necessary for effectively conceiving, producing or criticizing mediated messages. Designed primarily for students with interest in digital media. Provides a foundation for students working in media criticism.

Cross-listed: COMS 121.

FILM 124. Writing Scripts for Film/Video. 3 Units

Prerequisite(s): ENGL 1A and ENGL 20.

Term Typically Offered: Fall, Spring

Developing narratives, documentaries, educational, promotional, and experimental short screenplays. Students are expected to develop a writing style and master screenwriting and audio/visual scripting formats. Scripts will be developed to be produced in advanced production courses: COMS/FILM 128 and COMS/FILM 185.

Cross-listed: COMS 124.

FILM 124F. Avant-Garde Film. 3 Units

Prerequisite(s): ENGL 97 or PHOT 102.

Term Typically Offered: Spring only

A survey of experimental films from the beginning of the cinema in the 1890s through today's avant garde. The course will emphasize film making as a means of personal, artistic expression and will pay particular attention to those aspects of cinema that are typically ignored or marginalized in mainstream Hollywood movies. Films we will study include those by: Melies, Porter, Richter, Leger, Cornell, Deren, Brackhage and Gehr.

Cross-Listed: INTD 124F.

FILM 128. Non-Studio Video Production. 3 Units

Prerequisite(s): FILM 20A, FILM 20B, FILM 27A and FILM 27B each with a grade of "B-" or better.

Term Typically Offered: Fall, Spring

Production of video materials using portable cameras and recorders. Application of electronic field production and post-production techniques.

Cross-listed: COMS 128.

FILM 129. Film and Video Production Management. 3 Units

Term Typically Offered: Spring only

Management and administration of the preproduction and production process. Course to include script breakdown, budgeting, scheduling, and other preproduction and production management skills needed for film and video production. Special attention on the history, development and current practices of the Production Manager.

Cross-listed: COMS 129.

FILM 130. Staging and Lighting Digital Video. 3 Units

Prerequisite(s): FILM 20A, FILM 20B, FILM 27A and FILM 27B each with a grade of "B-" or better.

Term Typically Offered: Fall, Spring

Introduction to the aesthetics, concepts and techniques used to control lighting in digital video productions. Aspects of staging, blocking and composition in the context of studio and location lighting.

Cross-listed: COMS 130.

FILM 141. Theory of Film/Video Editing. 3 Units

Prerequisite(s): COMS/FILM 27A and COMS/FILM 27B with final posted grade of C or better.

Term Typically Offered: Fall, Spring

Study of history and theory of film and video editing. Many films are viewed and discussed, examining how editing theory is put into practice.

Cross-listed: COMS 141.

FILM 155. Contemporary World Cinema. 3 Units

Term Typically Offered: Fall, Spring

A historical review of the development of major international film styles and themes. Theoretical and critical concepts derived from this study of international film and then used as the basis to analyze contemporary films of South America, Europe, India, East Asia, Africa and the Middle East. Emphasis is on both the development of formal film techniques and a comparison of the unique cultural values that shape the film narrative style.

Cross Listed: THEA 155; only one may be counted for credit.

FILM 185. Senior Practicum in Video Production. 3 Units

Prerequisite(s): COMS/FILM 124 with a final posted grade of C or better.

Term Typically Offered: Fall, Spring

Assignments in various phases of video production including creative use of camera, sound and lighting, editing, production design, production planning/management, and directing.

Cross-listed: COMS 185.

FILM 192. Senior Seminar in Film. 3 Units

Prerequisite(s): Completion of the Film Studies upper and lower division core or COMS 142, and (GWAR Certification before Fall 09, or WPJ score of 80+, or at least a C- in ENGL 109M or ENGL 109W).

Term Typically Offered: Spring only

Research seminar that provides an in-depth investigation of film as an art form, a medium of mass communication and a means of personal expression. Subject will vary according to instructor.

Cross-listed: COMS 192.

Finance (FIN)

FIN 19. Real Estate Principles. 3 Units

Term Typically Offered: Fall, Spring

Examination of real estate principles and practices necessary for the acquisition, financing, management, and disposition of real estate. Incidents of ownership, the brokerage business, state regulation and transactional ethics are emphasized.

Note: This course is required by the California Department of Real Estate prior to taking the real estate salesperson's examination.

FIN 101. Business Finance. 3 Units

Term Typically Offered: Fall, Spring

Study of principles of finance and their application to typical financial problems of business enterprises. Special emphasis on financial analysis, management of working capital, cost of capital, capital budgeting, long-term financing, dividend policy, and internal financing.

FIN 134. Financial Management. 3 Units

Prerequisite(s): FIN 101.

Term Typically Offered: Fall, Spring

Trends in the development of financial policy are analyzed and reports on specific aspects are presented in class. The student is placed in the position of the financial manager who must make decisions and implement them.

FIN 135. Investments. 3 Units

Prerequisite(s): FIN 101.

Term Typically Offered: Fall, Spring

Significant characteristics of numerous types of investments; securities markets and financial institutions; principles of investment analysis; investment management.

FIN 136. Modern Portfolio Management. 3 Units

Prerequisite(s): FIN 101.

Term Typically Offered: Fall, Spring

Asset management utilizing the major aspects of modern portfolio theory, portfolio construction and selection, portfolio performance evaluation, capital asset pricing models, and recent theoretical developments in asset pricing behavior.

FIN 137. Financial Institutions and Markets. 3 Units

Prerequisite(s): FIN 101.

Term Typically Offered: Fall, Spring

Designed to broaden understanding of the financial system to include the network of institutions which bring into existence the increasingly important substitutes for money in the traditional sense. Emphasis is given to flow of funds analysis within the context of emerging financial theories.

FIN 138. Principles of Risk Management and Insurance. 3 Units

Prerequisite(s): Must be a business major (any concentration) or Health Science major (Occupational Health & Safety concentration) or Real Estate & Land Use Affairs minor or a Risk Mgmt & Insurance minor

Term Typically Offered: Fall, Spring

Study of the concept of pure risk and its implications for decision making. Provides business students the basics of risk theory and its application to risk management or insurance purchasing using a personal consumer's viewpoint. Practical personalized examples and cases will be used to illustrate risk decision making, primarily on a personal basis, but also in selected business decisions. Topics include risk theory, social insurance, life insurance, pensions, medical coverage, workers' compensation, property insurances, and liability insurances. Ideal as a supplement to any business major, especially those making risk management or insuring decisions, including insurance company personnel, investment counselors, financial managers, real estate majors, employee benefits/personnel specialists, pre-law, and Occupational Health & Safety.

FIN 139. Business Property and Liability Insurance.**3 Units****Prerequisite(s):** FIN 138 or instructor permission.**Term Typically Offered:** Fall, Spring

Concentrated and analytical approach to the study of property and liability loss exposures for the business enterprise. While the emphasis is on the different types of business insurance coverage's, a risk management approach and examples are used. Topics include business property insurances; liability, especially workers' compensation; the SMP and CGL contracts; business auto, crime coverage's; bonds; transportation insurance; consequential coverage's; and capacity and other related marketplace problems. Case studies and problems, as well as a computer analysis are used. The course is an excellent supplement for insurance, finance, real estate and pre-law majors, small business owners, and anyone who will be making business financial decisions, or providing insurance products in the insurance industry. Successfully completing FIN 138 and 139 substitutes for the one-year experience requirement for those interested in taking the Insurance Broker's Licensing Exam.

FIN 140. Employee Benefits.**3 Units****Prerequisite(s):** FIN 138 or instructor permission.**Term Typically Offered:** Fall, Spring

Intensive and analytical examination of the employee benefit planning environment and its risk exposures. Using a risk management approach, the topical areas studied include mandatory programs, especially OASDHI and ERISA; health care; group life and disability; retirement income and capital accumulation plans; paid time off; family-centered benefits; flexible benefits and cafeteria plans; and benefit cost information. Case studies and extensive contact with the business community as well as team projects are required. This is an important class for specialists in human resources management, especially personnel, pre-law, and health care or those who will be providing insurance products to fulfill employment benefit needs.

FIN 141. Managerial Real Estate Law.**3 Units****Prerequisite(s):** FIN 19**Term Typically Offered:** Fall, Spring

Examination of the decision making process in land utilization transactions relative to the minimization of risks of legal confrontation. Traditional conflicts underlying real estate transactions are examined and principles of preventive law are derived. The management of litigation and transaction attorneys is considered. Court remedies that are pertinent to land utilization transactions are analyzed and compared to nonjudicial alternatives.

FIN 142. Real Estate Finance.**3 Units****Prerequisite(s):** FIN 19 or ACCY 121 or FIN 101 or ENGR 140; Business Majors only**Term Typically Offered:** Fall, Spring

Examination of the mechanisms of real estate finance, sources of funds, loan contracts, principles of mortgage risk analysis, and the role of group equity investment. The evolution of secondary mortgage markets, government policy, and market interference will be investigated from a risk management standpoint.

FIN 143. Real Estate Investment.**3 Units****Prerequisite(s):** FIN 19 or ACCY 121 or FIN 101 or ENGR 140; business majors only**Term Typically Offered:** Fall, Spring

Analyzes non-financial and financial factors influencing investment decision making in income producing property. Topics include: location and its linkages; methods of estimating demand for real estate; methods for evaluating competing supply; use of market analysis in decision making; development of cash flow statements, alternative investment criteria, risk, legal, financing, and tax analysis, operating, financing investment and reversion decisions.

FIN 149. Current Topics in Real Estate.**3 Units****Prerequisite(s):** Completion of 9 units of required real estate courses.**Term Typically Offered:** Fall, Spring

Examines contemporary and emerging issues in land use regulation, market analysis, mortgage markets, property markets, real estate cycles, real estate development, real estate finance and investments, real estate securities, real estate portfolio management, and/or real estate taxation.

FIN 150. Capstone in Professional Financial Planning.**3 Units****Prerequisite(s):** ACCY 171, FIN 135, FIN 136, FIN 138 and FIN 140; FIN 136 and/or FIN 140 may be taken concurrently.**Term Typically Offered:** Spring only

This course will engage the student in critical thinking and decision-making about personal financial management topics in the context of the financial planning process. The purpose of this course is to refine and develop skills needed for personal financial planners when working with individuals, families, and business owners in meeting financial needs and objectives.

FIN 190. Multinational Business Finance.**3 Units****Prerequisite(s):** FIN 101 or instructor permission. Prior additional course in finance or international business recommended but not required.**Term Typically Offered:** Fall, Spring

Principles of international financial management. Issues covered include the international environment of financial management, uses of foreign exchange spot, forward, futures, options, and swap markets, foreign exchange risk management, international investment and financing decisions.

FIN 194. Cooperative Education Experiences in Real Estate.**6 - 12 Units****Prerequisite(s):** FIN 19, FIN 142 and a minimum overall GPA of 2.5; Business major only**Term Typically Offered:** Fall, Spring

In-depth supervised work experience in Real Estate and Land Use Affairs. This supervised work experience allows the student to become familiar with the practices of the real estate industry and/or governmental agencies.

Note: Open to all upper division students subject to permission. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Credit/No Credit

<p>FIN 195. Internship In Finance. 3 Units Prerequisite(s): Minimum Sacramento State GPA of 2.5. Term Typically Offered: Fall, Spring</p> <p>Supervised work experience in business, governmental or service agencies for the purpose of increasing student understanding of the nature and scope of their operations. Supervision is provided by the faculty and the cooperating agencies. Note: Open to upper division students, subject to permission of the Finance Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065. Open to declared business administration majors only.</p>	<p>FIN 230. Equity Analyses. 3 Units Term Typically Offered: Fall, Spring</p> <p>Covers advanced concepts and techniques essential to asset valuation. Key topics include, but not limited to, free cash flow, price multiples, asset-based and contingent claim valuations. Applications of various valuation techniques are emphasized. Provides a framework for selecting the most appropriate model for specific circumstances.</p> <p>FIN 240. Fixed Income. 3 Units Term Typically Offered: Fall, Spring</p> <p>Discuss a wide range of fixed income products. Topics include trading concepts and mechanics, pricing, duration, convexity, term structure of interest rates, and options embedded fixed income securities.</p>
<p>Credit/No Credit</p> <p>FIN 195A. Internship in Real Estate and Land Use Affairs. 3 - 6 Units Prerequisite(s): FIN 19 and FIN 142. Minimum Sacramento State GPA of 2.5 required; open to declared business administration majors only Term Typically Offered: Fall, Spring</p> <p>Supervised work experience in business, governmental or service agencies for the purpose of increasing student understanding of the nature and scope of their operations. Supervision is provided by the faculty and the cooperating agencies. Open to upper division students, subject to permission. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.</p>	<p>FIN 250. Derivatives. 3 Units Term Typically Offered: Fall, Spring</p> <p>Discuss major types of financial derivatives and derivative markets. Topics include forward contracts, futures, options, SWAP's and credit derivatives. Emphasis on characteristics, trading process, pricing, parity conditions, risk involved, and investment strategies for different financial derivatives.</p> <p>FIN 260. Alternative Investments. 3 Units Term Typically Offered: Fall, Spring</p>
<p>FIN 199. Special Problems in Finance. 1 - 3 Units Term Typically Offered: Fall, Spring</p> <p>Individual projects or directed reading for students qualified to carry on independent work. Note: Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.</p>	<p>Discuss major types of alternative investments including real estate, hedge funds, commodities, private equity, and venture capital. Emphasis on the technical aspects and the performance analyses of alternative investments, their advantages and disadvantages, role of alternative investments, and strategies of selection.</p> <p>FIN 270. Portfolio Management. 3 Units Term Typically Offered: Fall, Spring</p>
<p>Credit/No Credit</p> <p>FIN 200. Financial Reporting and Analysis. 3 Units Term Typically Offered: Fall, Spring</p> <p>Designed for business students with prior knowledge of accounting who intend to use corporate financial statements intensively in valuation, credit or equity analysis, or strategic competitor analysis. Topics include inventory, pensions, business combination, income tax and other current issues for their impacts on financial statement. Emphasis on financial statement analysis and interpretation of financial disclosures for improving risk assessment, forecasting, and decision-making.</p>	<p>Cover topics of asset management utilizing the major aspects of Markowitz portfolio theory, Capital ASSET Pricing Model, and Arbitrage Pricing theory. Discuss the comprehensive approach, starting with portfolio construction and asset selection, following with portfolio performance evaluation, and concluding with rebalancing strategies. Introduce and utilize worksheet modeling techniques which are useful for portfolio management.</p> <p>FIN 280. Global Financial Markets. 3 Units Term Typically Offered: Fall, Spring</p>
<p>FIN 210. Financial Institution Management. 3 Units Term Typically Offered: Fall, Spring</p> <p>Develop an understanding of the theory and practice of the management of financial institutions. Emphasis is placed on risk measurement and management. Financial institutions include commercial banks, investment banks, savings banks, credit unions insurance companies and financial companies such as mutual funds.</p>	<p>Cover advanced concepts and applied techniques essential to understand the mechanism of the global financial markets. Key topics include global capital allocation, international tax management, foreign exchange markets, derivatives, parity relationships, and others. Focuses on the core concepts and techniques are applied in the global financial markets using different case studies. Integrate the key principles of finance and extends them to a multinational setting. Topics follow the Chartered Financial Analyst (CFA) Level 1 and 2 Exam on equity valuation.</p>
<p>FIN 220. Corporate Finance. 3 Units Term Typically Offered: Fall, Spring</p> <p>Investigate the principles that corporations use in their investing, financing, and day-to-day management decisions. Topics include financial statement analysis, capital investment decision, capital structure, dividend policy, mergers and acquisitions, corporate governance and its impact on valuation.</p>	<p>FIN 299. Special Problems in Finance. 3 Units Prerequisite(s): Classified graduate status or instructor approval Term Typically Offered: Fall, Spring</p> <p>Individual projects or directed reading for students qualified to carry on independent work. Note: Enrollment requires approval of faculty member supervising work in addition to the approval of the Associate Dean for Graduate and External Programs; 6 units maximum; May be repeated for credit.</p>

FIN 500. Culminating Experience Project in Finance and Ethics. 3 Units

Prerequisite(s): Advancement to candidacy; 12 units of any combination of the following courses: FIN 200, FIN 210, FIN 220, FIN 230, FIN 240, FIN 250, FIN 260, FIN 270 and FIN 280.

Term Typically Offered: Fall, Spring

Each student conducts an individual project to fulfill the culminating experience graduation requirement of the MS in Finance program as required in Title V of the CA Educational Code. The course also covers the ethical conducts and professional standards as outlined in CFA institute standards.

Note: May be repeated for credit

French (FREN)

FREN 1A. Elementary French.**4 Units**

Term Typically Offered: Fall, Spring

Focuses on the development of elementary linguistic skills, with emphasis on the spoken language. The relationship of the language to French civilization and culture is given special attention.

FREN 1B. Elementary French.**4 Units**

Prerequisite(s): FREN 1A and a suitable score on placement exam; or instructor permission.

General Education Area/Graduation Requirement: Foreign Language Graduation Requirement, Humanities (Area C2)

Term Typically Offered: Fall, Spring

Continuation of FREN 1A, with emphasis on reading, writing, listening and speaking. French culture and its relationship to language is given continued attention.

Note: Meets the Foreign Language Graduation Proficiency Requirement.

FREN 2A. Intermediate French.**4 Units**

Prerequisite(s): One year of college French, suitable score on placement exam; or instructor permission.

General Education Area/Graduation Requirement: Foreign Language Graduation Requirement, Humanities (Area C2)

Term Typically Offered: Fall, Spring

Emphasis on speaking, reading and writing ability. Dialogues, discussions and compositions in French.

Note: Meets the Foreign Language Graduation Proficiency Requirement.

FREN 2B. Intermediate French.**4 Units**

Prerequisite(s): FREN 2A, suitable score on the placement exam; or instructor permission.

General Education Area/Graduation Requirement: Foreign Language Graduation Requirement

Term Typically Offered: Fall, Spring

Continuation of FREN 2A.

Note: Meets the Foreign Language Graduation Proficiency Requirement.

FREN 100. Phonetics and Pronunciation.**3 Units**

Prerequisite(s): Four semesters of French or equivalent.

Term Typically Offered: Fall, Spring

Review and practice all the main phonetic features of the spoken French language. Complete familiarization with the international phonetic alphabet. Practice in written transcription and oral pronunciation of all vowel and consonant sounds in French. Review and practice characteristics of diction, articulation, intonation, the musical movement of the sentence and rhythm. Orthographic problems and the phenomena of spelling and pronunciation are integrated with all written and oral exercises. Elimination of specific pronunciation problems for English speakers (r/l, mute, e, nasals, final consonants, etc.).

FREN 101. Advanced Grammar.**3 Units**

Prerequisite(s): FREN 2B or equivalent.

Term Typically Offered: Fall, Spring

Review of general principles of French grammar and its application in oral and written exercises. Presentation and application of complex structures. Conducted in French.

FREN 102. Advanced Conversation.**3 Units**

Prerequisite(s): Four semesters of French or equivalent.

Term Typically Offered: Fall, Spring

Mastery of spoken French language through discussion of personal readings to develop vocabulary and syntactical skills. Conducted in French. May be taken for credit twice.

FREN 103. Advanced Composition.**3 Units**

Prerequisite(s): FREN 101 or instructor permission.

Term Typically Offered: Fall, Spring

Special attention to help students learn the dynamics of good writing, become sensitive to style and develop ability to express their thoughts coherently, in essentially correct and well structured French prose. Conducted in French.

FREN 104A. French Translation (French-English).**3 Units**

Prerequisite(s): Upper division status in French.

Term Typically Offered: Fall, Spring

Development of translating techniques applicable to texts in areas such as literature, sciences, journalism, history, art. Review and comparative study of French and English grammars and styles. Conducted in French.

FREN 104B. French Translation (English-French).**3 Units**

Prerequisite(s): FREN 101 and upper division status in French.

Term Typically Offered: Fall, Spring

Development of translating techniques from English to French applicable to texts in such areas as business, culture and/or literature. Continued comparative study of French and English grammars and styles. Conducted in French.

Note: Meets the Foreign Language Graduation Proficiency Requirement.

- FREN 107. Business French. 3 Units**
Prerequisite(s): Second year college level proficiency or equivalent; or instructor permission.
Term Typically Offered: Fall, Spring
- Designed to create awareness of linguistic and crosscultural differences affecting effective communication between American and Francophone speakers in the world of business, and to provide added confidence in transactions and negotiations. Explores how to do business in France, how different business structures work and interact, and how to participate in everyday business activities. Particularly helpful to International Business students to enhance understanding of Francophone and European markets and to develop business oriented French language skills. Prepares student to obtain two different Business French Certificates offered by the Chamber of Commerce and Industries of Paris and the French Ministry of Education. Conducted in French.
- FREN 109. French Language Practice. 3 Units**
Prerequisite(s): FREN 2B.
Term Typically Offered: Fall, Spring
- Practice with French conversation, reading, and vocabulary development; supervised individual and small-group instruction designed to develop French vocabulary, including the conversation, listening and reading skills necessary for advanced study in French. May be taken for credit three times.
- FREN 110. Survey of French Literature. 3 Units**
Prerequisite(s): FREN 101, FREN 103, FREN 109 or instructor permission.
Term Typically Offered: Fall, Spring
- An introduction to French literature through texts of varied length from different time periods and genres with a focus on the use of language. Conducted in French.
- FREN 111. Topics in Francophone Literature. 3 Units**
Prerequisite(s): FREN 110, or equivalent; or instructor permission.
Term Typically Offered: Fall, Spring
- Study of literary texts by Francophone writers with an emphasis placed on textual analysis and the relationship between text and context. Conducted in French.
Note: Meets the Foreign Language Graduation Proficiency Requirement.
- FREN 120. French Civilization. 3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
- Presentation of formative cultural achievements of the French world from its origins to the present, i.e., the origin of the French language. Contributions to European Renaissance, Baroque and Classicism, the Revolutionary and Romantic eras, and modern western culture.
Note: Open to non-majors. Course taught in English.
- FREN 125. Quebec and French North America. 3 Units**
Term Typically Offered: Fall, Spring
- Development and significance of francophone culture in North America, notably Quebec, French Canada and Louisiana, are explored through historical events, social changes and artistic achievements. Introduces major cultural trends and traditions from the 17th century to the present through non-fiction, literary works and audio-visual presentations in art and music. French majors and minors are required to do all reading, research and papers in French.
Note: Upper division status required.
- FREN 130. Culture Wars: From Knighthood to Revolution. 3 Units**
Prerequisite(s): GEAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring
- Study of the profound influence of culture wars through the interpretation of major French writers, philosophers and scientists ranging from the Middle Ages to the 18th century. All readings and lectures in English.
Note: Open to non-majors.
- FREN 170. Seminar Conducted in French. 3 Units**
Prerequisite(s): FREN 110.
Term Typically Offered: Fall, Spring
- Seminar in French will be offered as needed.
- FREN 194. Field Experience/Internship. 1 - 3 Units**
Prerequisite(s): Intermediate competency in French and instructor permission.
Term Typically Offered: Fall, Spring
- Directed fieldwork in a project which uses language skills developed through previous study of French. Projects may include interpreting and translating for public and/or private agencies in Sacramento or other projects approved by the faculty supervisor. All work will be monitored by Sacramento State faculty. The student must submit written reports to his/her supervisor. May be taken more than once for credit. Does not apply to major.
 Credit/No Credit
- FREN 195. Fieldwork - Tutoring. 1 - 3 Units**
Prerequisite(s): Native or near-native fluency in French, upper division status; or instructor permission.
Term Typically Offered: Fall, Spring
- Tutoring of lower division French students under supervision of an instructor. Three hours of tutoring per week for each unit. Does not apply to major.
 Credit/No Credit
- FREN 196. Experimental Offerings in French. 3 Units**
Term Typically Offered: Fall, Spring
- Special courses will be scheduled as needed.
- FREN 199. Special Problems. 1 - 3 Units**
Term Typically Offered: Fall, Spring
- Individual projects or directed reading.
Note: Departmental petition required.
 Credit/No Credit
- FREN 210. Studies in French Literature. 3 Units**
Term Typically Offered: Fall, Spring
- Studies of authors, periods, movements, genres, criticism or literary history.
Note: May be repeated for credit if subject matter is not repeated.

FREN 220. Studies in French Civilization.**3 Units****Term Typically Offered:** Fall, Spring

Studies in French language and linguistics problems, e.g., history of the language, semiotics, stylistics, translating, interpreting and oral expression.

Note: May be repeated for credit three times if subject matter is not repeated.

FREN 230. Studies in the French Language.**3 Units****Term Typically Offered:** Fall, Spring

Studies in French language and linguistics problems, e.g., history of the language, semiotics, stylistics, translating, interpreting and oral expression.

Note: May be repeated for credit if subject matter is not repeated.

FREN 299. Special Problems.**1 - 3 Units****Term Typically Offered:** Fall, Spring

Individual projects or directed reading.

Note: Departmental petition required.

Credit/No Credit

FREN 500. Culminating Experience.**1 - 4 Units**

Prerequisite(s): Advanced to candidacy and permission of the graduate advisor.

Term Typically Offered: Fall, Spring

Completion of a thesis, project or comprehensive examination.

General Management (GM)

GM 105. Strategic Management.**3 Units**

Prerequisite(s): Completion of all other upper-division core courses, except MIS 101.

Term Typically Offered: Fall, Spring, Summer

This capstone course focuses on the integration of functional areas of a business and requires students to determine strategies/policies at the general-management level. Students address problems and issues faced by companies from a general management perspective which integrates accounting, financial, marketing, human resources, and operations in relation to the environment within a framework of balance between profit or cost-effectiveness and social responsibility.

GM 170. Fundamentals of Business Strategy.**3 Units**

Prerequisite(s): HROB 101, MKTG 101, FIN 101, and OPM 101.

Term Typically Offered: Fall, Spring

Basics of business-level strategy and how they are applied in modern organizations. Underlying primary principles, theories and practices are examined and discussed. Cases presenting actual, real-world situations will be analyzed to derive solutions to the business-level opportunities and problems facing strategic managers.

Note: General Management students must complete all functional core courses before taking GM 170 .

GM 194. Cooperative Education Experience in Management.**6 - 12 Units**

Prerequisite(s): Minimum overall GPA of 2.5.

Term Typically Offered: Fall, Spring

In-depth supervised work experience in management for the purpose of exposing the student to comprehensive management experience in business, governmental, or service agencies.

Note: Open to all upper division students, subject to permission of the Management Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Credit/No Credit

GM 195. Internship in Strategic Management.**3 Units**

Prerequisite(s): Minimum Sacramento State GPA of 2.5.

Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental or service agencies for the purpose of increasing student understanding of the nature and scope of their operations. Supervision is provided by the faculty and the cooperating agencies.

Note: Open to upper division students, subject to permission of the Management Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065. Open to declared business administration majors only.

Credit/No Credit

GM 199. Special Problems in Strategic Management.**1 - 3 Units****Term Typically Offered:** Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.

Note: Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.

Credit/No Credit

General Studies (GNST)

GNST 21. First Year Seminar. Becoming an Educated Person.**3 Units**

General Education Area/Graduation Requirement: Understanding Personal Development (E)

Term Typically Offered: Fall, Spring

Introduction to the nature and possible meanings of higher education, the functions and resources of the University, and provides students with the opportunity to interact with fellow students and the seminar leader and to build a community of academic and personal support. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills.

Geography (GEOG)

GEOG 1. Physical Geography: The Distribution of Natural Phenomena. 3 Units

General Education Area/Graduation Requirement: Physical Science (B1)
Term Typically Offered: Fall, Spring, Summer

Introductory study of the distribution over the face of the earth of selected aspects of climate, plant cover, soils, and landforms and of processes and conditions giving rise to these distributions. The use of maps as communicative devices in comparative analysis and study of distribution and processes.

GEOG 2. Cultural Geography. 3 Units

General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Consideration of the diversity of patterns of land use, settlement and movement established and evolved by humans as a result of the interaction of cultural and physical factors; emphasis on student use of maps and other tools of geographic presentation for analyzing the nature, variation and distribution of cultural features of the earth's surface.

GEOG 2H. Cultural Geography - Honors. 3 Units

Prerequisite(s): Open to Honors students only.
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer

Consideration of the diversity of patterns of land use, settlement and movement established and evolved by humans as a result of the interaction of cultural and physical factors; emphasis on student use of maps and other tools of geographic presentation for analyzing nature, variation and distribution of cultural features of the earth's surface.

Note: This is a special offering designed as part of the G.E. Honors program.

GEOG 3. Introduction to Maps and Geographic Technologies. 3 Units

Term Typically Offered: Spring only

Introduction to maps, map concepts, and geographic technologies. Maps are the most effective way to communicate spatial data, and introduces students to the quickly changing world of maps (both hard-copy and digital) and geographic technologies including map and aerial photograph interpretation, spreadsheet operations, introductory statistics, global positioning systems (GPS), Internet mapping, satellite and aerial images, and geographic information systems (GIS) that aid in data collection, analysis, and presentation. Lecture two hours; laboratory two hours.

GEOG 5. Violent Weather/Changing Atmosphere. 3 Units

General Education Area/Graduation Requirement: Physical Science (B1)
Term Typically Offered: Fall, Spring

Introduction to meteorological and climatological principles and concepts. These principles will be used to examine severe atmospheric phenomena, including hurricanes, tornadoes, thunderstorms, lightning, destructive winds, severe storms, heat waves, droughts and floods, particularly in relation to human-caused climate change and the effects of these phenomena on humanity.

GEOG 11. Laboratory in Physical Geography. 1 Unit

Prerequisite(s): GEOG 1; may be taken concurrently.
General Education Area/Graduation Requirement: Laboratory (B3), Physical Science (B1)
Term Typically Offered: Fall, Spring, Summer

Makes the ideas and relationships of introductory physical geography more clear by observation and experiment. Use is made of maps, globes, models, meteorological instruments and records, satellite photos and observations of the local scene. Laboratory, three hours.

GEOG 100. Themes In World Geography. 3 Units

Prerequisite(s): Junior or Senior class standing or instructor permission.
Term Typically Offered: Fall, Spring

Study of the content of geography with a consideration of basic concepts and methods. Emphasis is on patterns and relationships of the elements and manifestations of physical and cultural geography, including both topical and regional discussions.

GEOG 102. Ideas and Skills in Geography. 3 Units

Prerequisite(s): GEOG 1 or GEOG 2 or GEOG 3 or GEOG 11.
Term Typically Offered: Fall only

Study and discussion of geographic ideas, including the history of the discipline. Introduction to library resources appropriate to geographic inquiry. Practice in geographic descriptive and analytical writing and research. Extensive use of maps. Required of Geography majors in the junior year. Lecture three hours.

GEOG 105. Computer Cartography. 3 Units

Prerequisite(s): GEOG 109 or instructor permission.
Term Typically Offered: Fall only

Preparation of maps and diagrams, emphasizing thematic map design using various mapping and design programs. Detailed study of important map projections. Passing score on ELM exam recommended. Lecture one hour, laboratory six hours.

GEOG 107. Remote Sensing. 3 Units

Term Typically Offered: Spring only

Aerial photographs and scanned satellite images, emphasis on the former. Topics include the electromagnetic spectrum, cameras, films, image geometry as related to planimetric and topographic mapping, multispectral techniques, and interpretation of imagery, emphasizing land use and landforms. Lecture two hours; laboratory three hours.

GEOG 109. Geographic Information Systems. 3 Units

Term Typically Offered: Fall, Spring, Summer

Introduction to GIS, including history and overview of current applications; the nature of spatial data; geographic data structures, acquisition, analysis, and display of geographic data. Lab exercises use various computers and include both raster- and vector-based GIS systems. Lecture two hours; laboratory three hours.

GEOG 110. Advanced Geographic Information Systems. 3 Units

Prerequisite(s): GEOG 109 or instructor permission.
Term Typically Offered: Fall only

Builds on the introduction to the hardware, software and operations of GIS offered with the previous courses, providing the essentials required by a beginning GIS analyst or applications support specialist. Emphasis will be placed on problem solving strategies in the context of GIS projects.

- GEOG 111. Elements Of Meteorology.** **3 Units**
Prerequisite(s): GEOG 1 or instructor permission.
General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5
Term Typically Offered: Fall, Spring
- Basic concepts of weather and weather elements: structure and general circulation of the atmosphere, earth's heat and water balance, precipitation, air masses and fronts, air pollution meteorology. Some micrometeorological concepts with application to air pollution, agriculture, and similar problems.
- GEOG 113. Climate.** **3 Units**
General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5
Term Typically Offered: Fall only
- Study of the distribution of heat and moisture over the earth's surface. Basic processes by which heat and moisture acquire unequal distributions in space and time. Classification of climate. Climatic change. Climate models.
- GEOG 115. Biogeography.** **3 Units**
Prerequisite(s): GEOG 1 or instructor permission
General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5
Term Typically Offered: Fall only
- Introduction to the geographic distribution of life. Communities and biomes, changing continents and climates, dispersal, colonization, extinction, life on islands, and past and present human impacts are examined.
Note: Field trip required.
- Field trip(s) may be required.
- GEOG 116. Global Climate Change.** **3 Units**
Prerequisite(s): GEOG 1 or instructor permission.
General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5
Term Typically Offered: Spring only
- Study of past climate change and the techniques with which they are reconstructed. Focus on the various temporal scales at which climate change operates. Spatial variability of past, present and future climate changes. Anthropogenic climate change in the context of natural climate variability.
- GEOG 117. Landforms.** **3 Units**
Prerequisite(s): GEOG 1 or instructor permission.
Term Typically Offered: Fall only
- Study of the surface forms of the land with particular attention to their distribution and to the accompanying distribution of natural forces and processes which have brought the landforms into being. Study of landforms in the context of Quaternary environmental change. Identification and analysis of landforms using maps and other spatial data. Lecture three hours.
- GEOG 118. Earth Transformed.** **3 Units**
Term Typically Offered: Fall, Spring
- Explores the evolving human role in transforming Earth's physical environments. Topics range from prehistoric extinction's to modern environmental problems in select regions. Emphasis is placed on wide-ranging effects of resource use and disposal, with particular reference to atmosphere and biological problems and sustainable solutions.
- GEOG 119. Visualizing Global Environments.** **3 Units**
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring
- Using current geospatial technologies, such as remote sensing and GIS, the course provides an introduction to the distributions of climate, plant cover, soils, and landforms over the face of the earth. While examining processes and conditions that cause these distributions, students will also explore the methods and techniques that let us visualize these distributions, and use maps as communicative devices in our explorations of these topics.
- GEOG 121. United States and Canada.** **3 Units**
Term Typically Offered: Fall, Spring
- Present distribution and historical development of population, land use and industry in the U.S. and Canada in relation to regional variations in the physical environment and cultural heritage.
- GEOG 125. Geography Of East Asia.** **3 Units**
Term Typically Offered: Fall, Spring
- Geographic setting and nature of Far Eastern civilization; origins, development and present outlines of settlement; cultures, resource use, economic structures, population, levels of technological achievement, and land use in China, Japan and Korea.
- GEOG 127. Geography Of Africa.** **3 Units**
Term Typically Offered: Spring only – odd years
- Emphasis is on sub-Saharan Africa with consideration given to selected topics such as population problems, industrialization, regional groupings, transportation, and internal and external relationships.
- GEOG 128. Geography Of Europe.** **3 Units**
Term Typically Offered: Spring only – even years
- Survey of Europe with emphasis on its physical environment, contemporary demographic, economic, and ethnic patterns, and the changing political landscape. Consideration will also be given to Europe's historic and present-day links with other world regions, and to the geographic basis for many of the social, political, economic, and environmental challenges facing contemporary Europe.
- GEOG 129A. Special Topics in Regional Geography A.** **3 Units**
Term Typically Offered: Fall only
- Geographic survey of a selected region with emphasis on its physical environment and selected economic, demographic, political, and cultural patterns. Consideration may include its connection to other world regions and its role in current events. The specific region is identified by the Geography Department at scheduling. This course and GEOG 129B and GEOG 129C may be taken for up to 9 units.

- GEOG 129B. Special Topics in Regional Geography B. 3 Units**
Geographic survey of a selected region with emphasis on its physical and human geography. Topics may include climate, landforms, vegetation, economics, demographics, culture, and the region's connection to other world regions and its role in current events. The specific region is identified by the Geography Department at scheduling. This course and GEOG 129A and GEOG 129C may be taken for up to 9 units.
- GEOG 129C. Special Topics in Regional Geography C. 3 Units**
A selected world region is the focus of this course that geographically surveys the region's physical and human environment. Potential topics include climate, landforms, vegetation, economics, demographics, culture, and more. The specific region is identified by the Geography Department at scheduling. This course and GEOG 129A and GEOG 129B may be taken for up to 9 units.
- GEOG 131. California. 3 Units**
Term Typically Offered: Fall only
Study of landforms, climate, vegetation, population distribution and change, industry, transportation, water, energy, and agriculture in California.
- GEOG 141. Geography of Economic Activity. 3 Units**
Term Typically Offered: Fall only – even years
Spatial organization of man's activities related to production, exchange and consumption. Attention is given to resource development and the areal variations of factors affecting it, to concepts of spatial interaction and to spatial aspects of agricultural, industrial and urban land use. An examination of problems related to regional economic development. Changing perceptions of spatial organization of economic activities is also considered. Emphasis is on both theoretical framework and case study applications.
- GEOG 143. Environmental Hazards and Society. 3 Units**
Term Typically Offered: Spring only – odd years
Focuses on how a place's social systems and physical systems intersect to create hazards. Considers the development of various theoretical approaches to hazards; risk perception and societal responses to hazard events; the history of U.S. disaster response; and approaches to risk/vulnerability assessment.
- GEOG 145. Population Geography. 3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only
Spatial patterns of population numbers and characteristics; migration and spread of ideas; potential for economic and cultural developments.
- GEOG 147. Urban Geography. 3 Units**
Term Typically Offered: Fall only – odd years
Consideration of cities as centers of human activity from the rise of urban life in the Old and New Worlds to the present day patterns of metropolis and megalopolis. The functions and interactions of cities in Earth's limited space and on Earth's limited resources are studied historically and crossculturally. Also examined are changing perceptions of the urban phenomenon and attempts to enhance the quality of urban life.
- GEOG 148. Urban and Regional Planning. 3 Units**
Term Typically Offered: Fall, Spring
Introduction to the theory and practice of urban and regional planning. Topics include the history of planning, the development of comprehensive and land use plans, growth management, and transportation and environmental planning. Includes guest speakers from the planning community as well as the opportunity to work on a project with a community organization or government agency to put into practice what is discussed in class.
- GEOG 149. Transportation Geography. 3 Units**
Prerequisite(s): GEOG 141, GEOG 147, or GEOG 148 or instructor permission.
Term Typically Offered: Spring only – odd years
Explores the geography of transportation using both theory and applications, quantitative and qualitative methods. Topics include the history and economic importance of transportation systems for all major modes; their political, social, and environmental aspects; and basic analytical methods, including accessibility dynamics, network analysis, and spatial interaction models. Focus will be on the U.S., with frequent reference to local issues, though material will be drawn on from around the world.
- GEOG 150. Programming for GIS. 3 Units**
Prerequisite(s): GEOG 109
Term Typically Offered: Fall, Spring
This course is an introduction to programming and scripting for intermediate GIS users, using an object-oriented programming approach. You will develop and write clearly documented and structured geoprocessing programs using the Python programming language and ArcPy, a site package (library) for ArcGIS geoprocessing tools.
- GEOG 161. California's Water Resources. 3 Units**
Term Typically Offered: Spring only
Study of the location and nature of the state's surface and underground water, including development by government agencies, water needs of cities, farms, recreation and wildlife, implications of water rights, water marketing and conservation, and management of floods, droughts and pollution.
- GEOG 163. Applied GIS. 3 Units**
Prerequisite(s): GEOG 109.
Term Typically Offered: Fall only
Introduction to developing a GIS project, including planning, database research, proposal writing, analysis and evaluation. Lecture 2 hours; Laboratory 3 hours.
- GEOG 181. Quantitative Methods in Geography. 3 Units**
Term Typically Offered: Spring only
Introduction to techniques useful in the analysis of spatial distributions and other geographic phenomena: basic aspatial descriptive and inferential techniques, correlation, regression, and spatial inferential techniques.

GEOG 182. Qualitative Methods in Geography. 3 Units**Prerequisite(s):** GEOG 102

Students learn and conduct an array of observational and qualitative research techniques used in human geography, including landscape observation, participant observation, interviews, surveys and questionnaires, group discussions (focus groups, charrettes, etc.), visual methods, archival research, and analyzing some of the writing styles commonly used in qualitative research. One learns the relative strengths and weaknesses of these techniques, their appropriate applications, ways to combine them in mixed-methods research, and how to analyze and represent the data.

GEOG 190. Senior Research Seminar in Geography. 3 Units

Prerequisite(s): GEOG 1, GEOG 2, GEOG 3, GEOG 102; senior standing, and GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X; instructor permission.

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Spring only

Writing-intensive capstone course requiring students to complete independent research projects displaying their mastery of geography's content and methods. Projects undertaken in a given semester share a common thematic and/or regional focus. Students use bibliographic, field, spatial analytic, graphic, and verbal skills. Context for projects is provided by a review of the recent history of the discipline. Lecture/discussion three hours.

GEOG 192A. Geography Field Experience A. 1 - 2 Units

Prerequisite(s): one geography course or instructor permission.

Term Typically Offered: Fall, Spring

A particular geographical area is explored and studied via beginning-level field observation. Emphasis may be placed on physical features, cultural features, or both.

Credit/No Credit

GEOG 192B. Geography Field Experience B. 1 - 2 Units

Prerequisite(s): one geography course or instructor permission.

Term Typically Offered: Fall, Spring

A particular geographical area is explored and studied via intermediate-level field observation. Emphasis may be placed on physical features, cultural features, or both.

Credit/No Credit

GEOG 192C. Geography Field Experience C. 1 - 2 Units

Prerequisite(s): one geography course or instructor permission.

Term Typically Offered: Fall, Spring

A particular geographical area is explored and studied via advanced-level field observation. Emphasis may be placed on physical features, cultural features, or both.

Credit/No Credit

GEOG 193A. Field Geography: Urban-Metropolitan. 3 Units

Prerequisite(s): Instructor permission

Term Typically Offered: Spring only – odd years

Examines the internal structure and external relations of Sacramento as a metropolitan center and of nearby urban communities through field observation and exercises. Emphasis is placed on mapping and interviewing as ways of gaining useful information on urban patterns.

GEOG 193B. Field Geography: Suburban-Rural. 3 Units

Prerequisite(s): Instructor permission.

Examines competition for land use in suburban Sacramento as urban sprawl overruns less intensive uses. Small towns in the lower Sacramento Valley also examined. Group field trips, interviews, field mapping and discussions.

Field trip(s) may be required.

GEOG 193C. Field Geography: Physical. 3 Units

Prerequisite(s): Instructor permission.

Term Typically Offered: Fall only

Survey of selected areas with systematic examination of elements of the natural landscape. Group field trips and individual preparation of reports and consultation with instructor.

Field trip(s) may be required.

GEOG 194. Geography - Related Work Experience. 6 - 12 Units

Prerequisite(s): Consent of supervising faculty and Department Chair.

Term Typically Offered: Fall, Spring

Supervised employment in a company or agency doing geography-related work, arranged through the Department of Geography and the Cooperative Education Program office. Requires preparation of application packet, completion of a 3-6 month full- or part-time work assignment, and a written report. Units not applicable to the Geography major.

Credit/No Credit

GEOG 195A. Geography Internship A. 1 - 3 Units

Term Typically Offered: Fall, Spring

Supervised work experience at the beginning level in an approved professional environment, working with professionals in public or private organizations. Supervision supplied by a geography faculty member and on-site supervisor. Placements require 4-12 hours per week, depending on units.

Note: Open to all Geography majors and minors with permission of supervising faculty member and Department Chair. GEOG 195A, GEOG 195B, and GEOG 195C may be taken for up to 6 total units.

Credit/No Credit

GEOG 195B. Geography Internship B. 1 - 3 Units

Term Typically Offered: Fall, Spring

Supervised work experience at an intermediate level in an approved professional environment, working with professionals in public or private organizations. Supervision supplied by a geography faculty member and on-site supervisor. Placements require 4-12 hours per week, depending on units.

Note: Open to all Geography majors and minors with permission of supervising faculty member and Department Chair. GEOG 195A, GEOG 195B, and GEOG 195C may be taken for up to 6 total units.

Credit/No Credit

GEOG 195C. Geography Internship C. **1 - 3 Units**
Term Typically Offered: Fall, Spring

Supervised work experience at an advanced level in an approved professional environment, working with professionals in public or private organizations. Supervision supplied by a geography faculty member and on-site supervisor. Placements require 4-12 hours per week, depending on units.

Note: Open to all Geography majors and minors with permission of supervising faculty member and Department Chair. GEOG 195A, GEOG 195B, and GEOG 195C may be taken for up to 6 total units.

Credit/No Credit

GEOG 198. Co-Curricular Activities. **1 - 6 Units**
Prerequisite(s): Consent of faculty Sponsor and department chair.
Term Typically Offered: Fall, Spring

Co-curricular activities related to subject matter and concerns of the Geography Department, e.g. students may qualify for credit by providing special tutorial assistance to EOP students or others in introductory courses.

Note: May be repeated for up to 6 units of credit.

Credit/No Credit

GEOG 199. Special Problems. **1 - 3 Units**
Prerequisite(s): Approval of the faculty sponsor and Department chair.
Term Typically Offered: Fall, Spring, Summer

Individual projects or directed reading.

Note: Open only to students competent to carry on individual work.

Credit/No Credit

GEOG 199A. Geography Special Problems A. **1 - 3 Units**
Prerequisite(s): Approval of the faculty sponsor and department chair.
Term Typically Offered: Fall, Spring

Individual projects or directed reading at a beginning level. Graded (CR/NC Available) Units: 1.0 - 3.0

Note: Open only to students competent to carry on individual work.

Credit/No Credit

GEOG 199B. Geography Special Problems B. **1 - 3 Units**
Prerequisite(s): Approval of the faculty sponsor and department chair.
Term Typically Offered: Fall, Spring

Individual projects or directed reading at an intermediate level, ordinarily taken following completion of GEOG 199A. Graded (CR/NC Available) Units: 1.0 - 3.0

Note: Open only to students competent to carry on individual work.

Credit/No Credit

GEOG 199C. Geography Special Problems C. **1 - 3 Units**
Prerequisite(s): Approval of the faculty sponsor and department chair.
Term Typically Offered: Fall, Spring

Individual projects or directed reading at an advanced level. Ordinarily taken following completion of GEOG 199A and GEOG 199B. Graded (CR/NC Available) Units: 1.0 - 3.0

Note: Open only to students competent to carry on individual work.

Credit/No Credit

GEOG 299. Special Problems. **1 - 3 Units**
Prerequisite(s): Approval of the faculty sponsor and Department Chair.
Term Typically Offered: Fall, Spring

Individual projects or directed reading.

Note: Open only to students competent to carry on individual work.

Credit/No Credit

Geology (GEOL)

GEOL 5. Geology Of Mexico. **4 Units**
General Education Area/Graduation Requirement: Physical Science (B1), Laboratory (B3)
Term Typically Offered: Fall, Spring

Introduction to Geology through examination of aspects of the geology of Mexico. Emphasizes problem-based approach to learning Geology and the process of scientific investigation. Topics include a wide range of geological concepts including plate tectonic setting of Mexico, living with volcanoes: the Mexican volcanic belt, the Mexico City earthquake, issues of water supply, flooding and atmospheric pollution in Mexico City, the Chicxulub crater and geologic time, ore deposits of Mexico. Lecture three hours; laboratory three hours.

GEOL 5A. Geology of Mexico Field Trip. **2 Units**
Prerequisite(s): GEOL 5
Term Typically Offered: Fall, Spring

Focuses on fundamental geologic concepts as seen from real world examples in Mexico that will be visited during several strategic field stops. Field stops will emphasize a problem-based approach to learning geology and the process of scientific investigation. Topics include a wide range of geological concepts including plate tectonic setting of Mexico, living with volcanoes, the Mexico City earthquake, issues of water supply, flooding, climate change and atmospheric pollution in Mexico City, the Chicxulub meteor impact crater, geologic time, ore deposits of Mexico, and natural hazards. Field trip ten days. Field trip(s) may be required.

GEOL 7. Natural Disasters. **3 Units**
General Education Area/Graduation Requirement: Physical Science (B1)
Term Typically Offered: Fall, Spring

Examination of earth materials and earth processes through the study of natural disasters. Topics include earthquakes, volcanoes, landslides, floods, tsunamis, hurricanes, tornadoes and meteorite impacts. Examination of causes, effects and mitigation of natural disasters.

GEOL 8. Earth Science. **3 Units**
General Education Area/Graduation Requirement: Physical Science (B1)
Term Typically Offered: Fall, Spring, Summer

Earth and its neighbors in space. Scientific method and discovery in the study of stars, planets, weather, rivers, glaciers, oceans, rocks, volcanoes, earthquakes, landslides, mountains, drifting continents, the earth in time. **Note:** Students contemplating a geology major or minor in geology should enroll in GEOL 10, not in GEOL 8. No credit for those who have taken GEOL 10 or equivalent.

<p>GEOL 8L. Earth Science Lab. 1 Unit Prerequisite(s): GEOL 8; may be taken concurrently. General Education Area/Graduation Requirement: Laboratory (B3), Physical Science (B1) Term Typically Offered: Fall, Spring</p>	<p>GEOL 100. Mineralogy. 4 Units Prerequisite(s): CHEM 1A; and either GEOL 5 or GEOL 10 and GEOL 10L. Term Typically Offered: Fall only</p>
<p>Emphasizes scientific methods and systematic laboratory procedures. Includes weather analysis, rock and mineral identification, study of geologic concepts by means of topographic maps, and exercises in astronomy and oceanography. Laboratory three hours.</p>	<p>Introduction to mineral identification by physical and optical properties. Techniques and theory of optical mineral analysis, crystallography and mineral formation. Lecture three hours; laboratory three hours.</p>
<p>GEOL 8T. Earth Science Lab for Teachers. 1 Unit Prerequisite(s): GEOL 8; may be taken concurrently. Term Typically Offered: Fall, Spring</p>	<p>GEOL 102. Igneous and Metamorphic Petrology. 4 Units Prerequisite(s): GEOL 100 and GEOL 103 Term Typically Offered: Fall, Spring</p>
<p>Exploration of the solid Earth, its atmosphere and oceans, and the Earth's place in the solar system. Emphasizes learning Earth science through investigation, and uses Earth science to understand the processes of science. Laboratory three hours.</p>	<p>Study of the origin, evolution, occurrence, geochemistry, dynamics and physical characteristics of igneous and metamorphic systems. The laboratory will focus on both hand-specimen and petrographic-microscope studies. Lecture three hours, laboratory three hours. Fee course. Fee course.</p>
<p>GEOL 10. Physical Geology. 3 Units General Education Area/Graduation Requirement: Physical Science (B1) Term Typically Offered: Fall, Spring</p>	<p>GEOL 103. Sedimentology/Stratigraphy. 4 Units Prerequisite(s): GEOL 12, GEOL 12L, and GEOL 100 Term Typically Offered: Spring only</p>
<p>Rocks and their mineral constituents, geological processes such as weathering, erosion, glaciation, mountain building, etc., volcanoes, earthquakes, folds, faults, the earth's interior, plate tectonics and earth resources. Field trip. Fee course. Fee course. Field trip(s) may be required.</p>	<p>Compositions, textures, classification, origins and structures of sediments and sedimentary rocks. Hand specimen observation and interpretation. Facies models, classification and correlation of stratigraphic units, subsurface techniques. Lab emphasizes hand specimen and microscope identification and subsurface techniques. Field trip. Lecture three hours; laboratory three hours. Fee course. Fee course. Field trip(s) may be required.</p>
<p>GEOL 10L. Physical Geology Lab. 1 Unit Prerequisite(s): GEOL 10; may be taken concurrently. General Education Area/Graduation Requirement: Physical Science (B1), Laboratory (B3) Term Typically Offered: Fall, Spring</p>	<p>GEOL 105. Paleontology. 4 Units Prerequisite(s): GEOL 5 or GEOL 10 and GEOL 10L, GEOL 12 and GEOL 12L. Term Typically Offered: Spring only</p>
<p>Laboratory supplement to GEOL 10. Emphasizes scientific method and systematic laboratory procedures. Identification of common minerals and rocks. Introduction to and analysis of topographic and geologic maps. Field trip. Laboratory three hours. Fee course. Fee course. Field trip(s) may be required.</p>	<p>Biology, evolution, classification and paleoecology of important groups of fossil organisms. Uses of fossils in solving geologic problems. Note: Lecture = 3 units; Lab = 1 unit. Fee Course. Field Trip. Fee course. Field trip(s) may be required.</p>
<p>GEOL 12. Historical Geology. 3 Units Prerequisite(s): GEOL 5 or GEOL 10 and GEOL 10L. General Education Area/Graduation Requirement: Further Studies in Area B (B5) Term Typically Offered: Fall, Spring</p>	<p>GEOL 110A. Structural Geology and Tectonics. 4 Units Prerequisite(s): GEOL 111A and GEOL 111B, PHYS 5A or PHYS 11A, MATH 26A or MATH 30. Term Typically Offered: Fall, Spring</p>
<p>Origin and geological history of the earth and the evolution of its animal and plant inhabitants. Fee course. Note: Lecture 3 hours. Fee course.</p>	<p>Description, analysis and interpretation of geologic structures and tectonic settings. Theory of stress and strain as it pertains to the origin of folds, faults, joints, cleavage, and other structural elements. Laboratory includes techniques of structural analysis such as orthographic projections, stereonet, structure contours, Mohr diagrams, interpretation of maps and cross sections. Lecture three hours, laboratory three hours. Fee Course. Fee course.</p>
<p>GEOL 12L. Historical Geology Lab. 1 Unit Prerequisite(s): GEOL 12; and GEOL 5 or GEOL 10 and GEOL 10L. GEOL 12 may be taken concurrently. Term Typically Offered: Fall, Spring</p>	
<p>Supplements GEOL 12. Use of sedimentary rocks, fossils, geologic maps, and structural sections in interpreting ancient environments, tectonic settings, and geologic history. Age relations and correlation of rock and time-rock units. Introduction to fossil identification and biostratigraphy. Laboratory three hours.</p>	

- GEOL 110B. Structural Geology Field.** **1 Unit**
Prerequisite(s): GEOL 103, GEOL 111A, GEOL 111B, and GEOL 110A. It is recommended that GEOL 110A be taken concurrently.
Term Typically Offered: Fall, Spring
- Field description, mapping and interpretation of geologic structures. Includes techniques of taking detailed field notes, field photography measurement of structures using a pocket transit, geologic map and cross section construction, stereonet analysis, and report writing. Consists of off-campus fieldwork. Fee course.
 Fee course.
- GEOL 111A. Field Geology.** **2 Units**
Prerequisite(s): GEOL 12L and GEOL 100
Corequisite(s): GEOL 111B
Term Typically Offered: Spring only
- Science and art of recognizing, describing and interpreting geologic features in the field. Lecture and laboratory course on the preparation and use of topographic and geologic maps, stratigraphic and cross sections, compass and GPS instrument. Lecture one hour; laboratory three hours.
 Fee course.
 Fee course.
- GEOL 111B. Field Techniques.** **2 Units**
Prerequisite(s): GEOL 100 and GEOL 103. GEOL 103 may be taken concurrently.
Corequisite(s): GEOL 111A
Term Typically Offered: Spring only
- Introduction to geologic field methods including descriptions of rocks, geologic mapping, observation, interpretation and geologic report writing. Detailed mapping techniques will also be covered; these may include the use of plane table, total station theodolite and global position systems. Consists of off-campus fieldwork. Fee course.
 Fee course.
- GEOL 112. Geophysics For Geologists.** **3 Units**
Prerequisite(s): GEOL 5 or GEOL 10 and GEOL 10L, PHYS 5A, PHYS 5B which may be taken concurrently.
Term Typically Offered: Fall, Spring
- Introduction to the principal geophysical concepts and techniques useful to geologists in the study of tectonics, the Earth's interior and resource exploration. Includes the study of seismology, heat flow, gravity, borehole geophysics, electromagnetism and geodynamics. Fee Course/Field Trip.
 Fee course.
 Field trip(s) may be required.
- GEOL 114. Volcanology.** **3 Units**
Prerequisite(s): GEOL 100; May be taken concurrently.
Term Typically Offered: Fall, Spring
- An advanced exploration of physical volcanic processes, chemistry of magmas, interpretation of volcanic deposits, historic eruptions and volcanic hazard assessment.
Note: Field trip. Weekend field trip to volcanic areas (typically in California). Fee course. Field trip student fee.
 Fee course.
 Field trip(s) may be required.
- GEOL 115. Volcanoes: An Introduction.** **3 Units**
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring
- An introductory to volcanoes including volcanic landforms, eruption styles, properties of magma, and volcanic hazards/ mitigation.
- GEOL 120. Surficial Processes.** **4 Units**
Prerequisite(s): GEOL 5 or GEOL 10 and GEOL 10L; GEOL 12, GEOL 12L.
Term Typically Offered: Fall, Spring
- Focused study on the basic forces that drive surficial processes such as wind water and gravity and the role of weathering, sediment transport and deposition on landform and landscape development. A laboratory component will enhance student understanding by solving applied problems as well as develop proficiencies with various geologic tools.
Note: 150 minutes Lecture = 3 units, 150 minutes Lab = 1 unit. Fee Course.
 Fee course.
- GEOL 121. Geology of California.** **3 Units**
Prerequisite(s): GEOL 5 or GEOL 10.
Term Typically Offered: Fall, Spring
- Regional study of California and certain surrounding areas with regard to geologic development, plate tectonics, economic resources and geologic hazards. Lecture and field trip(s). Fee course.
 Fee course.
 Field trip(s) may be required.
- GEOL 123. Geochemistry.** **3 Units**
Prerequisite(s): GEOL 5 or GEOL 10 and GEOL 10L, CHEM 1A.
Term Typically Offered: Fall, Spring
- Fundamentals of the geochemistry of Earth materials. Thermodynamics and kinetics of geological environments, silicates and carbonates, major element geochemistry, trace and rare earth element geochemistry, stable and radiogenic isotopes. Applications to studies of aqueous, pedogenic, igneous, sedimentary, and metamorphic environments. Analysis of geochemical aspects of contemporary resource, environmental, and paleoenvironmental problems.
- GEOL 125. Metallic Ore Deposits.** **3 Units**
Prerequisite(s): GEOL 100, CHEM 1A.
Term Typically Offered: Fall, Spring
- Origin, geology, and distribution of metallic ore deposits. Introduction to ore minerals. Exploration methods. Field trip. Fee course.
 Fee course.
 Field trip(s) may be required.
- GEOL 126. Environmental Field Methods.** **3 Units**
Prerequisite(s): GEOL 10 or GEOL 10L or instructor permission.
 Field analysis of the local environment, including soil and water systems. Students will learn monitoring design, sample collections, sample analysis, data interpretation, and presentation methodologies for environmental geology applications.

- GEOL 127. Hydrogeology. 4 Units**
Prerequisite(s): CHEM 1A, GEOL 10, GEOL 10L, PHYS 5A, and MATH 26A or MATH 30, or instructor permission.
Term Typically Offered: Spring only
- Presents fundamentals of groundwater flow, as influenced by topography and geology; geological aspects of groundwater supply, contamination, remediation, and protection of hydrogeological regions of the U.S. and their critical groundwater issues. Lecture three hours; laboratory three hours. Lecture three hours.
- GEOL 130. Oceanography. 3 Units**
General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5
Term Typically Offered: Fall, Spring, Summer
- Survey of geological, physical, chemical and biological oceanography including the sea floor; waves, tides, currents; the physical and chemical properties of seawater and their distribution in the sea; planktonic life and its relation to nutrients.
- GEOL 132. Marine Geology. 3 Units**
Prerequisite(s): GEOL 10 and GEOL 10L or GEOL 12 and GEOL 12L
Term Typically Offered: Spring only
- Origin, structure and evolution of the ocean basins and their margins. Topics covered will include marine sediments, seafloor bathymetry, seismic stratigraphy, sea level history, and marine micropaleontology. Fee course. Field trip: Weekend trip to Moss Landing, California to collect marine samples. Fee course. Field trip(s) may be required.
- GEOL 140. Geology and the Environment. 3 Units**
Prerequisite(s): GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), GE AREA D
Term Typically Offered: Fall, Spring
- Applies geologic data and principles to situations affecting our environment. The geologic study of earthquakes, volcanoes, floods, landslides, groundwater and similar topics supplies the background data for lectures on land use and other social choices. Topics such as geopolitics and mineral supply provide a basis for understanding international politics, social costs, and world economics. Fee course.
- GEOL 150. Computer Mapping in Geology. 3 Units**
Prerequisite(s): GEOG 109 or instructor permission
Term Typically Offered: Fall, Spring
- This course is designed to enhance the mapping skills of geology majors by providing them an opportunity to learn modern computer aided mapping techniques - methods and tools widely used across industry, government, and academe. The course is designed to teach students how to effectively use various tools and mapping software by applying their developing skills in solving a variety of geological problems. This course strategy will help develop both student technical map making and innovative problem solving skills.
- GEOL 170. Age of Dinosaurs. 3 Units**
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring
- Applies to the fundamental principles of geology, biology, and ecology to understanding the evolution of the Mesozoic world. Emphasis is placed on the nature and evolution of dinosaurs in the context of global regional changes in the Mesozoic ecosystem. Included are considerations of the data, methods, and uncertainties in paleontology and other historical sciences.
- GEOL 171. Petroleum Geology. 3 Units**
Prerequisite(s): PHYS 5A & GEOL 103. GEOL 103 may be taken concurrently.
Term Typically Offered: Fall, Spring
- Introduction to the origin, migration, and accumulation of hydrocarbons in the context of stratigraphic and structural systems. Exploration and production of both conventional and unconventional resources. Lecture three hours. Field trip. Fee Course. Fee course. Field trip(s) may be required.
- GEOL 177. Hawaii Volcanic Field Trip. 2 Units**
Prerequisite(s): Geology 10 or another physical geology course approved by instructor; Field Trip, 2 units. Fee course.
Term Typically Offered: Fall, Spring
- An investigation and visit to the many interesting volcanic features and eruption activities of Hawaiian volcanism. Topics include tectonics, physical volcanology, and volcanic monitoring techniques. Credit/No Credit Fee course.
- GEOL 184. Geological Field Trip. 2 Units**
Term Typically Offered: Fall only
- 10-day field trip to a region of outstanding geology. Attendance at preliminary meetings is required. Analyzes and interpretation of geologic features is emphasized. Fee course.
Note: Student should consult the Geology Department during the semester before planning to take the course. May be taken more than once for credit.
- Credit/No Credit
 Fee course.
 Field trip(s) may be required.
- GEOL 188. Advanced Geologic Mapping. 6 Units**
Prerequisite(s): GEOL 102, GEOL 103, GEOL 110A, GEOL 110B, GEOL 111A, GEOL 111B and instructor permission.
Term Typically Offered: Fall, Spring
- Advanced principles/methods of geologic mapping, interpretation and geologic report writing for selected field areas in the western United States. Mapping techniques include the use of aerial photographs and global position systems. Consists of on-campus field preparation and off-campus fieldwork. Fee course. Fee course.

- GEOL 190A. Geology and Tectonic Development of California Seminar.** **3 Units**
Prerequisite(s): GEOL 5 or GEOL 10, GEOL 12; GEOL 110A recommended.
Term Typically Offered: Fall, Spring
- Seminar in the geologic and tectonic development of California.
- GEOL 193C. Engineering Geology.** **3 Units**
Prerequisite(s): GEOL 5 or GEOL 10 and GEOL 10L, GEOL 12, PHYS 5A or PHYS 11A, MATH 29 or high school trigonometry.
Term Typically Offered: Fall, Spring
- Investigates the engineering properties of earth materials, the engineering considerations required to build safe and durable structures on and within the Earth, and problems associated with structures designed and built neglecting physical environmental conditions. Designed to introduce engineering concepts to students who have a competent grasp of general geologic principles and processes. Lecture 3 hours.
- GEOL 195. Geology Internship.** **1 - 3 Units**
Term Typically Offered: Fall, Spring
- Supervised unpaid work experience in government or industry. Supervision is provided by the faculty instructor and responsible officials in the work situations.
Note: Open to all upper division Geology majors with instructor permission. Number of units earned depends on number of hours worked.
- Credit/No Credit
- GEOL 197. Advanced Laboratory Techniques for Geology.** **1 - 3 Units**
Prerequisite(s): Appropriate upper division courses and instructor permission.
Term Typically Offered: Fall, Spring
- Supervised individual instruction on techniques applied in geology laboratories for advanced research in mineralogy, petrology, geochemistry, geophysics, and paleontology.
- Credit/No Credit
- GEOL 198A. Senior Research Preparation.** **1 Unit**
Prerequisite(s): Senior status and appropriate courses as determined by a Departmental faculty committee. The proposed project must be approved by a Department committee; instructor permission.
Term Typically Offered: Fall, Spring
- Selection and design of an independent research project. A final written report is required and includes: research proposal, bibliography, and results of preliminary review of the literature. Student must choose a supervising instructor.
- GEOL 198B. Senior Research Project.** **2 Units**
Prerequisite(s): Senior status and appropriate courses as determined by a Departmental faculty committee. The proposed project must be approved by the Department committee; instructor permission.
Term Typically Offered: Fall, Spring
- Completion of an independent research project. A final written report is required. Progress reports may be required by the supervision instructor. Presentation of an oral report on the research project during the same semester is required.
- GEOL 199A. Beginning Special Problems.** **1 - 3 Units**
Term Typically Offered: Fall, Spring
- Individual projects or special studies at a beginning level, including fieldwork, lab work, library study, or other learning activities.
Note: Open only to students judged competent to carry on individual work. Credit/noncredit grading also available.
- GEOL 199B. Intermediate Special Problems.** **1 - 3 Units**
Individual projects or special studies at an intermediate level, including fieldwork, lab work, library study, or other learning activities.
Note: Open only to students judged competent to carry on individual work. Credit/noncredit grading also available.
- GEOL 199C. Advanced Special Problems.** **1 - 3 Units**
Individual projects or special studies at an advanced level, including fieldwork, lab work, library study, or other learning activities.
Note: Open only to students judged competent to carry on individual work. Credit/noncredit grading also available.
- GEOL 200. Graduate Research Methods Seminar.** **3 Units**
Term Typically Offered: Fall, Spring
- Developing a research proposal, library and internet searches, seeking external funding, presentation graphics, and publication formats. Students will develop a research project in preparation for thesis requirement. Seminar three hours.
Note: Graduate Writing Intensive (GWI).
- GEOL 202. Aqueous Geochemistry.** **3 Units**
Prerequisite(s): CHEM 1B; instructor permission.
Term Typically Offered: Fall, Spring
- Low temperature geochemical reactions in aqueous environments. Chemical kinetics, thermodynamics, mixing and dilution, mineral stability, chemical composition of surface water, stable isotopes. Three hours lecture.
- GEOL 204. Contaminant Hydrogeology.** **3 Units**
Prerequisite(s): CHEM 1B and CHEM 6B or CHEM 20, GEOL 202.
Term Typically Offered: Fall, Spring
- Contaminants and contaminant transport in near-surface environments. Fluid-sediment interaction, fluid partitioning, common geochemical reactions, stability and mobility of groundwater contaminants, multi-phase systems, sampling considerations and overview of analytical techniques.
- GEOL 208. Groundwater Modeling.** **3 Units**
Prerequisite(s): GEOL 127, MATH 45.
Term Typically Offered: Fall, Spring
- Computer modeling of groundwater systems using 2 and 3 dimensional numerical solutions and common software packages. Topics will include data acquisition, constructing a numerical model, model calibration, flow paths, particle tracking and model output.
- GEOL 212. Geologic Remote Imaging.** **3 Units**
Prerequisite(s): PHYS 5B or PHYS 11B; GEOL 102, GEOL 110A; and proficiency using a personal computer.
Term Typically Offered: Fall, Spring
- Use of remote imaging in geologic applications. Types of imagery, acquisition, production, processing, and interpretation are covered.

<p>GEOL 213. Advanced Structural Geology and Tectonics. 3 Units Prerequisite(s): GEOL 110A and MATH 30 Term Typically Offered: Fall, Spring</p>	<p>GEOL 240. Special Topics. 1 - 3 Units Prerequisite(s): Will vary with each special topic course. Term Typically Offered: Fall, Spring</p>
<p>An advanced treatment of deformation of the lithosphere of the earth over short and long timescales. Construction of 2D and 3D models of the crust. Use of software packages to solve problems in tectonics and related disciplines.</p>	<p>Advanced special topics in Geology that may include structural geology, volcanology, hydrogeology, engineering geology or other specialized topics selected to meet student demand or respond to industry trends in geology.</p>
<p>GEOL 214. Advanced Volcanology. 3 Units Term Typically Offered: Fall, Spring</p>	<p>GEOL 275. Quantitative and Numerical Research Methods. 3 Units Prerequisite(s): MATH 31 Term Typically Offered: Fall, Spring</p>
<p>Analyzes volcanic eruption processes. Interpretation of volcanic deposits in the evaluation of volcanic hazards, risk, eruption processes, and geologic history. Field trip. Field trip(s) may be required.</p>	<p>Introduction to quantitative and numerical methods of solving geologic problems using high level programming.</p>
<p>GEOL 218. Applied Geophysics. 3 Units Prerequisite(s): PHYS 5B or PHYS 11C and GEOL 112. Term Typically Offered: Fall, Spring</p>	<p>GEOL 290. Regional Geology of the Western US. 3 Units Prerequisite(s): GEOL 100, GEOL 102, GEOL 103 and GEOL 110A. Term Typically Offered: Fall, Spring</p>
<p>Advanced field techniques used for geophysical exploration. Data collection and problem solving using resistivity, conductivity, seismic reflection, seismic refraction, gravity, magnetics and borehole geophysical techniques. Lecture two hours, laboratory three hours.</p>	<p>Application of advanced geological concepts in tectonics, stratigraphy, sedimentology, petrology, and volcanism to the geologic evolution of the Western United States from Precambrian to present. Field trip. Course Fee. Field trip(s) may be required.</p>
<p>GEOL 220. Surficial Processes. 3 Units Prerequisite(s): GEOL 120 or equivalent. Term Typically Offered: Fall, Spring</p>	<p>GEOL 293. Engineering Geology. 3 Units Prerequisite(s): GEOL 193C. Term Typically Offered: Fall, Spring</p>
<p>Dynamics of geological processes and the landscapes they carve. System thresholds, linked processes, data generation and evaluation that characterize landscape development.</p>	<p>Takes a geological approach to evaluating engineering issues associated with building with or on natural earthen materials. Rock and soil mechanics, slope stability, geophysical investigation of rock and soil properties. Note: 150 minutes Lecture = 3 units.</p>
<p>GEOL 223. Geochemistry. 4 Units Prerequisite(s): CHEM 1A, MATH 30, GEOL 100, or instructor permission. Term Typically Offered: Fall, Spring</p>	<p>GEOL 299. Special Problems in Geology. 1 - 4 Units Prerequisite(s): Graduate-level status in geology, approval of project by a faculty sponsor and Department Chair; instructor permission. Term Typically Offered: Fall, Spring</p>
<p>Fundamentals of the geochemistry of Earth materials. Thermodynamics and kinetics of geological environments, silicates and carbonates, major element geochemistry, trace and rare earth element geochemistry, stable and radiogenic isotopes. Applications to studies of aqueous, pedogenic, igneous, sedimentary, and metamorphic environments. Analysis of geochemical aspects of contemporary resource, environmental, and paleoenvironmental problems. Note: Lecture 3 hours = 3 units; laboratory 170 minutes = 1 unit.</p>	<p>Graduate research. Independent research in geology that may include library research, short-term original research, technique development, fieldwork, or laboratory research. May include research toward thesis proposal. Culminating experience will be in the form of a written report, oral presentation, or scientific paper.</p>
<p>GEOL 227. Advanced Hydrogeology. 3 Units Prerequisite(s): GEOL 127, graduate level status in Geology. Term Typically Offered: Fall, Spring</p>	<p>GEOL 500. Master's Thesis. 6 Units Prerequisite(s): Advanced to candidacy and chair permission of his/her thesis committee. Term Typically Offered: Fall, Spring</p>
<p>Water budgets, theories of groundwater flow to wells, hydrogeologic regimes, fracture flow, dewatering, salt water intrusion, dating and chemical identification of water. Lecture 3 hours.</p>	<p>Completion of a thesis approved for the Master's degree. Should be taken in the final semester prior to the completion of all requirements for the degree.</p>
<p>GEOL 230. Seminar In Geology. 3 Units Term Typically Offered: Fall, Spring</p>	<p>GEOL 596. Comprehensive Examination. 0 Units Term Typically Offered: Fall, Spring</p>
<p>Reading, analysis and discussion of the geologic literature on selected topics in geology. Student presentations and reports are required. Note: May be taken twice for credit.</p>	<p>A written comprehensive examination administered by a committee of three faculty members. Assesses the student's ability to integrate knowledge from core and elective courses, show critical and independent thinking, and demonstrate mastery of the subject matter. Required for the non-thesis option. Graded: CR/NC. May be retaken one time after 4 calendar months. Units: 0. Credit/No Credit</p>

German (GERM)

GERM 1A. Elementary German.

4 Units

Term Typically Offered: Fall only

Focuses on the development of listening, speaking, and reading skills. Special attention will be given to the relationship of the language to the civilization and culture of the German-speaking countries.

GERM 1B. Elementary German.

4 Units

Prerequisite(s): GERM 1A or instructor permission.

General Education Area/Graduation Requirement: Foreign Language Graduation Requirement, Humanities (Area C2)

Term Typically Offered: Fall, Spring

Continuation of GERM 1A. Speaking, listening, and reading skills are practiced and more emphasis is placed on the development of writing skills than in GERM 1A. Cultural introduction to the German-speaking countries is continued.

GERM 2A. Intermediate German.

4 Units

Prerequisite(s): GERM 1B or instructor permission.

General Education Area/Graduation Requirement: Foreign Language Graduation Requirement

Term Typically Offered: Fall, Spring

Continuation of GERM 1B with review of grammar and with further development of reading ability but with a greater emphasis on active skills in speaking and writing.

Note: Meets the Foreign Language Graduation Proficiency Requirement.

GERM 2B. Intermediate German.

4 Units

Prerequisite(s): GERM 2A or instructor permission.

General Education Area/Graduation Requirement: Foreign Language Graduation Requirement

Term Typically Offered: Spring only

Continuation of GERM 2A with greater emphasis on skills in writing.

Note: Meets the Foreign Language Graduation Proficiency Requirement.

GERM 5A. German Language Practice.

3 Units

General Education Area/Graduation Requirement: Foreign Language Graduation Requirement

Term Typically Offered: Fall, Spring

Practice with German conversation and vocabulary; supervised individual and small-group instruction designed to develop German vocabulary, including conversation and listening skills at an intermediate level.

Note: Meets the Foreign Language Graduation Proficiency Requirement. May be taken for credit four times.

GERM 100. Advanced German Grammar.

3 Units

Term Typically Offered: Fall, Spring

Study of grammar and style and their practical application in writing and speaking.

GERM 105. Advanced German Language Practice.

3 Units

Term Typically Offered: Spring only

Supervised individual and small-group practice for upper-division students desiring to improve their German language skills, especially conversation, listening and vocabulary. Some written work may be assigned. May be taken for credit three times, but may count only once for major or minor credit.

GERM 140. Heroes, Dragons and Quests.

3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Spring only

Exploration of the heroic adventures of the medieval knights in their quests for fame and love, with special attention to the bridal quest and the roles of their "ladies": their social, political, and economic position, and their impact on life in the Middle Ages. Discussions will be based on the reading of selected Middle High German works in English translation.

Note: No German language requirement.

GERM 141. German Mythology and Legend.

3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Spring only

Exploration of Germanic myth and legend and their impact on art and literature. Readings in English.

Note: No German language requirement.

GERM 142. German Folk Literature, Legend, and Lore.

3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Spring only

Study of the traditional folk literature; fairy tales, folk tales, legends, ballads and folk songs; of the German-speaking people, their holiday traditions, festivals and social customs. Readings in English.

Note: No German language requirement.

GERM 143. King Arthur and the Knights of the Round Table in Germany.

3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall only

Study of King Arthur and the knights of the Round Table in the German medieval romances read in English translation.

Note: No German language requirement. Course will be offered every two years.

GERM 150. German Civilization: Beginning to 16th Century.

3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall only

Historical, social, and artistic forces in German civilization from the time of the Great Migrations to the Reformation. All readings and lectures in English.

GERM 151. German Civilization: 17th Century to Present.

3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Spring only

Historical, social, and artistic forces in German civilization from the Reformation through the 20th century. All readings and lectures in English.

GERM 194. Field Experience/Internship.

1 - 3 Units

Prerequisite(s): Intermediate competency in German and instructor permission.

Term Typically Offered: Fall, Spring

Directed fieldwork in a project which uses the language skills developed through previous study of German. The projects may include interpreting and translating for public and/or private agencies in Sacramento or other projects approved by the faculty supervisor. All work will be monitored by Sacramento State faculty. The student must submit written reports to his/her supervisor. May be taken more than once for credit.
Credit/No Credit

GERM 195. Fieldwork: Tutoring. 1 - 3 Units

Prerequisite(s): Native/near-native fluency in German; upper division status; instructor permission.

Term Typically Offered: Fall, Spring

Tutoring of lower division students of German under supervision of instructor. May be taken for credit more than once.

Credit/No Credit

GERM 199. Special Problems. 1 - 3 Units

Prerequisite(s): Approval of instructor supervising the work.

Term Typically Offered: Fall, Spring

Individual projects or directed reading.

Note: Open only to students who appear competent to carry on independent study.

Credit/No Credit

Gerontology (GERO)

GERO 21. First Year Seminar: Becoming an Educated Person. 3 Units

General Education Area/Graduation Requirement: Understanding Personal Development (E)

Term Typically Offered: Fall, Spring

Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Provide students with the opportunity to interact with fellow students and the seminar leader and to build a community of academic and personal support, as well as explore gerontological concepts needed to respond to demographic changes in today's world.

GERO 100. Aging Issues in Contemporary America. 3 Units

General Education Area/Graduation Requirement: GE AREA D

Term Typically Offered: Fall, Spring, Summer

Introduction to the field of Gerontology and how the discipline addresses society's aging needs. An examination of current issues in gerontology using a life span perspective focusing on older adults' needs/concerns along life's continuum in various environments. Major topics include implications of the demographic imperative, common aging changes/conditions, myths and stereotypes, effects of health/illness on individual and family roles, basic social issues and policies arising from the graying of America, and media, cultural and gender influences.

GERO 101. Elder Care Continuum Services and Strategies. 3 Units

Term Typically Offered: Fall, Spring

Exploration and analysis of the "elder care service continuum" within the context of changing diverse societal needs, service availability and accessibility, current public policy, and administrative and management issues facing care providers. A multidisciplinary examination of the spectrum of services and programs targeted for older adults and their families. Includes information and referral processes and agencies, recreational and social options, housing alternatives, in-home, residential and skilled care options, health care eligibility criteria, funding sources, and adult protective services.

Note: This is a service learning course.

GERO 102. Social Policy for an Aging Society. 3 Units

Prerequisite(s): GOVT 1 or GOVT 150 or equivalent.

Term Typically Offered: Fall, Spring

Explores context and process for policy making by national and California state governments including ethical dimensions. Applications are developed from students' and instructor's areas of interest including K-12 and higher education, land-use policy, and aging issues such as elder advocacy, Social Security, and Medicare/Medicaid. Provides background and skills for entry level positions in public or non-profit organizations. Cross Listed: PPA 100; only one may be counted for credit.

GERO 103. Applied Care Management in Gerontological Practice.

3 Units

Prerequisite(s): GERO 101

Term Typically Offered: Fall, Spring

Students will analyze issues, services, and interventions related to care management with older adults. They will apply strategies for identifying and accessing services targeted for older adults, their families/caregivers. Students will develop an understanding of unique characteristics/needs of elders, the system approach to working with elders, issues affecting service delivery to this population, and basic practice skills for effective service delivery to elders and families/caregivers. Students will develop an understanding of unique characteristics/needs of elders, the systems approach to working with elders, issues affecting service delivery to this population, and basic practice skills for effective service delivery to elders and families/caregivers.

Note: This is a service learning course.

GERO 121. Strategies for Optimal Aging. 3 Units

Term Typically Offered: Fall, Spring

This course is an in-depth, interdisciplinary, and holistic exploration of health promotion and adaptation paradigms that facilitate optimal and productive longevity. Hardiness and self-efficacy theories along with expectations and experiences enhancing quality of life are explored. Interactions among such variables as activity, diet, exercise, work/leisure, attitudes/beliefs, humor, living environments, spirituality, and social networks are investigated within the contexts of gender, economic, and cultural perspectives.

Cross listed: GERO 221

GERO 122. Managing Disorders in Elders. 3 Units

Prerequisite(s): GERO 121

Term Typically Offered: Fall, Spring

Study and analysis of prevalent pathophysiological-based diseases and psychological disorders commonly experienced by older adults and frail elder populations. Disease/disorder causes and the effects of chronic illness on individuals' activities of daily living, sexuality, relationships, and coping abilities with changing lifestyles are examined using a life course framework and evidenced-based research. Assessment tools, lab value changes, medication needs, complications/disabilities, traditional/alternative treatments and ethical issues rising from meeting needs are investigated along with implications for caregivers.

GERO 123. Research on Aging & the Life Course. 3 Units

Prerequisite(s): Minimum of one GERO upper division course or instructor permission.

Term Typically Offered: Fall, Spring

Analysis, evaluation, and application of existent gerontological research. Hands-on practice carrying out aging-related research projects, including defining the research question, selecting data collection tools, collecting and analyzing quantitative and qualitative data, and presenting results in narrative and visual formats. Special emphasis on connecting gerontological theory, research, and interdisciplinary practice, accommodating participants with sensory, physical, or cognitive limitations, and ethical issues.

GERO 124. Perspectives on Death and Dying. 3 Units

Prerequisite(s): Student's academic level must be Junior or higher to enroll in this class.

Term Typically Offered: Fall, Spring

Examination of the beliefs, attitudes, and behaviors associated with death and dying. Topics covered include children's and adults' concepts of dying and death; causes and types of death; self-destructive behavior; grief and mourning in the dying person and their survivors; physicians' aid in dying and other legal and ethical issues; and cross-cultural and historical perspectives on death.

Cross listed: PSYC 151

GERO 130. Gerontology Practicum. 3 Units

Prerequisite(s): 24 Major units including GERO 101, GERO 102, GERO 103, GERO 121, GERO 122 and instructor permission.

Term Typically Offered: Fall, Spring

Supervised practicum experience in a community agency planning for or delivering professional services to older adults. This practicum experience is part of two culminating courses for the major and focuses on application of the interdisciplinary nature of the discipline while affording students direct, hands on experiences. Includes a field seminar. Seminar discussions focus on the application of gerontological concepts derived from all gerontology courses and are applied to each student's specific practicum area.

Note: This is a service learning course.

Credit/No Credit

GERO 131. Gerontology Capstone Practicum. 3 Units

Prerequisite(s): 36 Major units including GERO 101, GERO 102, GERO 103, GERO 121, GERO 122, GERO 130 and instructor permission.

Term Typically Offered: Fall, Spring

Supervised internship experience in a community agency planning for or delivering professional services to older adults. This capstone practicum experience builds on the first internship course and is the final culminating course for the major and focuses on advanced application of the interdisciplinary nature of the discipline while affording students direct, hands on experiences. Includes a field seminar. Seminar discussions focus on the application of gerontologic concepts derived from all gerontology courses and are applied to each student's specific Practicum area.

Note: This is a service learning course. Minors may take this course without taking GERO 130

Credit/No Credit

GERO 199. Special Problems. 1 - 3 Units

Prerequisite(s): Advanced approval of project goal and objectives by program director.

Term Typically Offered: Fall, Spring

Independent research, project, or directed reading.

Note: Open to students who are capable of independent work. A maximum of 3 units may count toward elective major requirements.

Credit/No Credit

GERO 200. Adaptation To Age Related Changes, Illnesses and Caregiving. 3 Units

Term Typically Offered: Fall, Spring

Exposure to and analysis of positive and negative functional consequences arising from age related changes and illnesses in elders. Content elucidates changes and their effects on elders' levels of wellness using interdisciplinary research and holistic, life course frameworks. Screening assessments, interventions, community resources and services, and ethical issues are addressed for each topic. Caregiving issues and solutions are explored within life span and problem solving frameworks.

GERO 221. Strategies for Optimal Aging. 3 Units

Term Typically Offered: Fall, Spring

This course is an in-depth, interdisciplinary, and holistic exploration of health promotion and adaptation paradigms that facilitate optimal and productive longevity. Hardiness and self-efficacy theories along with expectations and experiences enhancing quality of life are explored. Interactions among such variables as activity, diet, exercise, work/leisure, attitudes/beliefs, humor, living environments, spirituality, and social networks are investigated within the contexts of gender, economic, and cultural perspectives.

Cross listed: GERO 121

GERO 222. Managing Disorders in Elders. 3 Units

Prerequisite(s): GERO 221

Term Typically Offered: Fall, Spring

Offers in-depth study/analysis of prevalent pathophysiological-based diseases and psychological disorders commonly experienced by older adults and frail elder populations. Disease/disorder causes and the effects of chronic illness on individuals' activities of daily living, sexuality, relationships, and coping abilities with changing lifestyles are examined using a life course framework and evidenced-based research. Assessment tools, lab value changes, medication needs, complications/disabilities, traditional/alternative treatments and ethical issues rising from meeting needs are investigated along with implications for caregivers.

Cross Listed: GERO 122; only one may be counted for credit.

GERO 295. Internship/Project. 3 Units

Prerequisite(s): GERO 200, GERO 221, GERO 222.

Term Typically Offered: Fall, Spring

Supervised fieldwork internship or project that is a culminating experience and applies learned gerontological theories and concepts in a community setting where planning, developing, or delivering services to older adults or their families occurs. Students choose an area of practice and negotiate their learning experiences or project with their faculty advisor and field supervisor. Advanced approval of project goal and objectives by program director are required.

Credit/No Credit

GERO 299. Special Problems.**1 - 3 Units****Prerequisite(s):** Instructor permission.**Term Typically Offered:** Fall, Spring

Independent research, project, or directed reading. Open to students who are capable of independent work. A maximum of 3 units may count toward elective major requirements. Advanced approval of project goal and objectives by program director.

Credit/No Credit

Graphic Design (GPHD)

GPHD 5. Introduction to Graphic Design.**3 Units****General Education Area/Graduation Requirement:** Arts (Area C1)**Term Typically Offered:** Fall only

Introduction to the field of Graphic Design. Subjects include career possibilities, current trends, issues and practices in the industry. The basic theory, techniques and practices involved in solving a visual communication problem will also be introduced.

GPHD 10. Introduction to Digital Design.**3 Units****Term Typically Offered:** Spring only

Designed to familiarize students with basic understanding of the digital hardware, software, and vocabulary utilized by visual artists from a variety of disciplines. Discussions and activities will cover both creative and efficient application of digital tools and techniques. Students will complete assignments utilizing a variety of applications which may include page layout, illustration, digital image processing, and 3-D rendering software.

GPHD 20. History Of Graphic Design.**3 Units****General Education Area/Graduation Requirement:** Arts (Area C1)**Term Typically Offered:** Fall, Spring

Overview of the history of graphic design. Emphasis on symbol, type, and image development, from early pictographs to modern communication design.

GPHD 25. Visual Basics.**3 Units****Prerequisite(s):** ART 20A or Pre - Interior Design Major.**Term Typically Offered:** Fall, Spring

Provides a basic understanding of how visual structures are created and interpreted. Students study the main components of visual structures, become familiar with basic laws of color, and learn the basics of the gestalt principles of visual organization.

GPHD 30. Visual Basics II.**5 Units****Prerequisite(s):** GPHD 25**Term Typically Offered:** Fall, Spring

Introduction to the tools, materials and methodologies of the creative process in graphic design. Students study the main components of visual structures, become familiar with basic laws of color, and learn the basic principles of visual organization. The skill of rapid prototyping, through the processes of idea development, thumbnailing, sketching, and mockup, will be covered. Basic concepts in visual systems and graphic message making will be introduced. A special emphasis will be placed on craftsmanship in this course.

GPHD 120. Typography I.**5 Units****Prerequisite(s):** DSGN 4, INTD 20, INTD 25, PHOT 20, PHOT 11, GPHD 5, GPHD 20, GPHD 25, GPHD 30, and acceptance into the major via supplemental application.**Corequisite(s):** GPHD 125 Fee course.**Term Typically Offered:** Fall, Spring

Explores the history and perceptual development of typography and its application in design solutions. Theoretical constructs of typography as they relate to legibility, clarity, composition and output will be addressed. Techniques using compositional layout applications will be covered with an emphasis in typographic accuracy and efficiency as well as preparation of digital files for proper output in a variety of digital and analog formats.

Fee course.

GPHD 122. Design Production and Management.**3 Units****Prerequisite(s):** GPHD 5 or GPHD 20, and ART 20A, PHOT 40, GPHD 10, GPHD 20, GPHD 25, GPHD 30, and be a declared GPHD major.**Corequisite(s):** GPHD 120, GPHD 125.**Term Typically Offered:** Fall only

Introduction to project management techniques specific to the creative business and technical processes for graphic design. Orchestration of image editing, vector and compositing software will be covered with an emphasis in accuracy and efficiency. Various codes and regulations related to graphic design will be reviewed.

GPHD 125. Graphic Design Systems I.**5 Units****Prerequisite(s):** DSGN 4, GPHD 5, GPHD 20, GPHD 25, GPHD 30, INTD 20, INTD 25, PHOT 11, PHOT 20, and acceptance into the major via supplemental application.**Corequisite(s):** GPHD 120 Fee course.**Term Typically Offered:** Fall, Spring

Introduction to the language and perception of design as it is applied to systems. Complex visual structures are created, used in composition and interpreted. Techniques on ideation, design thinking, storyboarding and presentation are covered. Color theory as an integral component of message is addressed. Introduction to project management techniques specific to the creative business and technical processes for graphic design.

Fee course.

GPHD 130. Typography II.**5 Units****Prerequisite(s):** GPHD 120, GPHD 125.**Corequisite(s):** GPHD 135. Fee course.**Term Typically Offered:** Fall, Spring

Advanced typography and its relationship with message. Application of typographic principles to a diverse series of graphic design problems utilizing type and image. Techniques in using a range of digital tools to execute solutions are reviewed.

Fee course.

- GPHD 135. User Interface Design.** 5 Units
Prerequisite(s): GPHD 120, GPHD 125
Corequisite(s): GPHD 130
Term Typically Offered: Fall, Spring
- Emphasis is on design of a user-centered experience in an interactive environment. Enables the students to understand the characteristics of relevant technology and select appropriate forms and functions to create specific experience for users. Introduction to formative research techniques to establish context and audience and summative research techniques to determine success of screen based design solutions.
- GPHD 140. User Experience Design.** 5 Units
Prerequisite(s): GPHD 130, GPHD 135
Corequisite(s): GPHD 145
Term Typically Offered: Fall, Spring
- Emphasis on the development of conceptual themes, formal exploration, and user-centered interaction in time-based design. Enables the students to create vital experiences using text, sound, image, motion, and interactivity. The ability to compile, use, and defend relevant formative and summative research in creation of an appropriate design solution will be covered.
- GPHD 142. Advanced Graphic Design I.** 3 Units
Prerequisite(s): GPHD 130, GPHD 135.
Corequisite(s): GPHD 140, GPHD 145.
Term Typically Offered: Fall, Spring
- Builds on established research, process and project management techniques and provides students with the opportunity to focus on a practical investigation in design. Theoretical, professional, and historical issues facing the design profession will be reviewed. Development of both visual and written research material will culminate in an oral presentation and then be applied to an appropriate project.
- GPHD 145. Typography II.** 5 Units
Prerequisite(s): GPHD 130, GPHD 135.
Corequisite(s): GPHD 140 Fee course.
Term Typically Offered: Fall, Spring
- Builds on established research, process, and project management techniques and provides students with the opportunity to focus on a practical investigation in design. Development of both visual and written research material will culminate in an oral presentation and then be applied to an appropriate project. Semiotics as applied to advanced design problems will be discussed. Image making will be stressed in this course as students experiment with techniques and media including, but not limited to, photography and illustration.
 Fee course.
- GPHD 150. Professional Practice.** 5 Units
Prerequisite(s): GPHD 140. GPHD 145.
Corequisite(s): GPHD 155.
Term Typically Offered: Fall, Spring
- Introduction to the concepts and tools used to present credentials for entry into practice or advanced study. Development of the graphic design portfolio and communications package. Discussions will cover such topics as networking, interview tips, employment issues, and presentation skills. Projects refine the student's individual design process and advance their understanding of professional practice. Professional, business, and ethical issues facing the design profession will be reviewed. Development of visual presentations, written material, and oral presentations will be required.
- GPHD 152. Advanced Graphic Design II.** 3 Units
Prerequisite(s): GPHD 140, GPHD 142, GPHD 145.
Corequisite(s): GPHD 150, GPHD 155.
Term Typically Offered: Fall, Spring
- Advanced course in graphic design that requires students to provide solutions to real world design problems. Helps refine the students individual design process and advance their understanding of professional practice. Professional, business, and ethical issues facing the design profession will be reviewed. Development of both visual and written material will be required in a group environment as well as oral and visual presentations of this material.
- GPHD 155. Graphic Design Systems II.** 5 Units
Prerequisite(s): GPHD 140, GPHD 145.
Corequisite(s): GPHD 150 Fee course.
Term Typically Offered: Fall, Spring
- Advanced study of visual systems as applied to branding and way finding. Construction of visual systems for an expansive multi-dimensional design solutions will be covered. Introduction to methods, techniques, and approaches of emotion-driven brand development. Application of syntactic, semantic, and pragmatic aspects of pictorial design systems to wayfinding system development. Exploration of the interplay between environmental conditions and human culture impact decisions in wayfinding system development.
 Fee course.
- GPHD 195. Fieldwork in Graphic Design.** 3 Units
Prerequisite(s): Upper division status; GPA of 2.5 or above; GPHD 130, GPHD 135; instructor permission.
Term Typically Offered: Fall, Spring
- Directed observation and supervised work experience in an approved business, government, or service agency. Internships are offered to increase student understanding of the nature and scope of agency operations and giving students orientation in occupational specialties. Supervision is provided by authorized persons in the cooperating agencies and collaborative supervision is provided by the Graphic Design faculty. Minimum of three hours per week per unit of credit is required. Each student maintains a record of activities and assignments and prepares periodic reports.
Note: Students must make arrangements with a faculty member for a work program prior to admittance. No more than 6 units of GPHD 195 may be counted toward the major.
- Credit/No Credit
- GPHD 199. Special Problems.** 1 - 3 Units
Term Typically Offered: Fall, Spring
- Individual projects or directed projects open to students who wish to attempt independent work.
Note: Faculty approval is required. No more than 6 units of GPHD 199 may be counted toward a Graphic Design degree.
- Credit/No Credit
- ## Greek (GREK)
- GREK 1A. Elementary Ancient Greek.** 4 Units
Term Typically Offered: Fall, Spring
- GREK 1B. Elementary Ancient Greek.** 4 Units
Term Typically Offered: Fall, Spring

GREK 6A. Elementary Modern Greek.**4 Units****Term Typically Offered:** Fall, Spring

Designed to prepare students to read, speak, and understand Modern Greek. Focuses on the study of grammar and vocabulary, as well as the reading of adapted passages. Classroom time will be spent on drills and on elementary dialogues among the students and between the students and the instructor. These drills simulate everyday life situations. No previous exposure to the language is required.

GREK 6B. Elementary Modern Greek.**4 Units****Prerequisite(s):** GREK 6A.**General Education Area/Graduation Requirement:** Foreign Language Graduation Requirement**Term Typically Offered:** Fall, Spring

A continuation of GREK 6A, emphasizing the further development of skills in reading, speaking, and understanding Modern Greek. Reading selections from newspapers and other contemporary sources. Further classroom dialogues among students and between students and the teacher.

GREK 199. Special Problems in Greek.**1 - 3 Units****Term Typically Offered:** Fall, Spring

Individual projects or directed readings.

Note: Open only to students who appear competent to carry on independent study; admission requires the approval of the instructor by whom the work is to be supervised.

Credit/No Credit

Health and Human Services (HHS)

HHS 196A. Law+The Human Services.**3 Units****Term Typically Offered:** Fall, Spring**HHS 196Y. Youth Recreation in Camp Settings.****1 - 3 Units****Term Typically Offered:** Summer only

This course examines camp programs in a wide variety of settings, for a variety of populations. Topics cover camp theories, camp management, risk-management, activity planning, inclusive programming, and staff training. Includes an emphasis on leadership, supervision, and organizational development of camp programs. Course uses lecture, field experiences, guest speakers, and service learning.

Note: Students should be aware that Camp Nej, which is the associated camp for this course, is in a remote, wilderness setting. Students will stay on-site while the camp is in session.

Health Science (HLSC)

HLSC 50. Healthy Lifestyles.**3 Units****General Education Area/Graduation Requirement:** Understanding Personal Development (E)**Term Typically Offered:** Fall, Spring

Examines the concepts of: health and wellness; the determinants of health and wellness; and the concept of self-responsibility for health and wellness. These health and wellness concepts shall be applied to the areas of: mental wellness, nutrition, fitness, human sexuality, and drugs. The lecture/discussion format provides for a sharing of views regarding the integrated concepts of health that emphasizes the physical, mental, emotional, social, spiritual, and environmental factors that influence an individual's health status.

HLSC 98. Health Science ProSeminar.**3 Units****Term Typically Offered:** Fall, Spring

Potential and beginning Health Science students become oriented to the Health Science discipline. They will acquire and develop the knowledge and understanding needed to fulfill the Health Science major learning outcomes. Students will develop their individual learning plans designed to assure fulfillment of the Health Science major, General Education, and University graduation requirements.

HLSC 100. Fundamentals of Safety and Health.**3 Units****Prerequisite(s):** must be a Health Sciences or a Fire Service Management major or minor to enroll in this class**Term Typically Offered:** Fall, Spring

Explores global and national issues in occupational and non-occupational safety and health. Subjects include motor vehicle, consumer, workplace, fire, school, and home safety. Examines concepts and principles related to the cause, control, and mitigation of unintentional injuries and illnesses. Emphasizes the development, implementation, and integration of effective safety and health program strategies in the prevention and control of loss.

HLSC 106. Occupational Health.**3 Units****Prerequisite(s):** Health Science majors or minors only, or instructor permission.**Term Typically Offered:** Spring only

Concepts of occupational health as they pertain to appraising and controlling occupational health hazards, including occupational diseases, chemical, biological, and physical agents. Discusses techniques for the recognition, evaluation, prevention, and control of occupational health hazards.

HLSC 107. Occupational Safety.**3 Units****Prerequisite(s):** Health Science majors or minors only; or instructor permission.**Term Typically Offered:** Spring only

Examines common hazards and problems encountered in the workplace, including concepts and principles related to the control and mitigation of occupational safety hazards. Emphasizes the development, implementation, and integration of effective occupational safety and health program components.

HLSC 108. Occupational Health and Safety Laws and Regulations.**3 Units****Prerequisite(s):** Health Science majors or minors only; or instructor permission.**Term Typically Offered:** Fall only

Overview of regulatory agencies involved in occupational health and safety and their functions in the enforcement of regulation and/or compliance of safety laws. Special emphasis on Cal/OSHA. Other topics: application of surveillance, research, control technology, and trained personnel to maintain compliance. Recognizes that strategies to achieve a safe workplace includes an analysis of economic and employment impacts on the employer.

HLSC 109. Cause and Control of Occupational Loss. 3 Units

Prerequisite(s): Health Science majors or minors only; or instructor permission.

Term Typically Offered: Fall only

Study of the characteristics, causes, and control of occupational loss; influence of the work environment and system structure on incident outcomes; and analysis of occupational injuries and illnesses through the application of incident investigation and system safety techniques. Course will use occupational injuries and illnesses to focus on the process of problem identification and analysis, including the development and implementation of control measures.

HLSC 110. Issues in Occupational Health and Safety. 3 Units

Prerequisite(s): HLSC 100 or instructor permission

Term Typically Offered: Fall, Spring

Examines current and emerging issues in occupational health and safety, including historical, philosophical, and conceptual factors that serve as a basis for predicting, understanding, and resolving occupational health and safety issues. Examples include: Issues in high hazard industries, special populations at risk, emerging technologies, occupational hazards, and traumatic injuries.

HLSC 112. Disease Prevention. 3 Units

Prerequisite(s): Health Science majors or minors only; or instructor permission

Term Typically Offered: Fall, Spring

Surveys the current methods of promoting high level wellness through a preventive medicine approach for the promotion of more enjoyable and productive living. Attention directed toward the specific methods of promoting personal health through various current methodologies including the "holistic health" movement. Meets the needs of major students as well as those in allied fields such as nursing, social work and other interested students.

HLSC 114. Human Ecology and Health. 3 Units

General Education Area/Graduation Requirement: GE AREA D

Term Typically Offered: Fall, Spring, Summer

Emphasizes the social and natural environmental influences that have a direct impact upon the health of the individual. Primary consideration is directed to an analysis of health as influenced by a person's interaction with his/her environment.

HLSC 116. Public Health Administration and Policy. 3 Units

Prerequisite(s): Must be a Health Science or Gerontology major or minor

Term Typically Offered: Fall, Spring

Understanding of the management of public health programs; pattern of health organization; the scope of public health concern of environmental health and health service marketing. Consideration of the various administration factors involved in the practice of public health by department, division or agency unit.

HLSC 117. Global Health. 3 Units

Prerequisite(s): Health Science majors or minors only; or instructor permission

Term Typically Offered: Fall, Spring

Introduction to the globalization of public health and the critical health issues facing all citizens of the world, with special emphasis on health concerns of developing countries. Topics include global malnutrition, primary health care, maternal and child health, international environmental health, comparative health care systems, epidemiology and international health threats, and sustainable health and development programs undertaken by nongovernmental organizations.

HLSC 118. Community Health. 3 Units

Prerequisite(s): Must be a Health Science major or minor

Term Typically Offered: Fall, Spring

Insights into comprehensive planning for health by community health agencies and organizations in implementing their programs.

HLSC 119. Community Health Education. 3 Units

Prerequisite(s): Must be a Health Science major or minor with a minimum "C" grade or better in HLSC 118 or have instructor permission

Term Typically Offered: Fall, Spring

In addition to the current practice in community health education, examines the philosophical, conceptual and theoretical constructs that serve as a basis for understanding, predicting and facilitating change in health-related behavior. Explores the use of health communication processes, selected instructional media, health planning, community organization techniques, and mass communications in community health education.

HLSC 122. Health Psychology. 3 Units

Prerequisite(s): Must be a Health Science or Child Development major or minor

Term Typically Offered: Fall, Spring

Introduction to behavioral and social factors which influence health and illness. Explores the causes of premature death, the relationships between personality and health, and the development of health problems. Includes an overview of psychological principles in behavioral medicine, physiological foundations of health psychology, the role of emotions in immune function, and topical theories of, techniques for, and research on how psychology can help people live longer, healthier lives.

HLSC 124. Consumer Health Education. 3 Units

General Education Area/Graduation Requirement: Understanding Personal Development (E)

Term Typically Offered: Fall, Spring, Summer

Introduction to the processes and methods of conducting health education within the clinical setting and the integration of educational theory and applied health knowledge specific to common health disorders. Topics to include the dimensions of quackery in health treatments, efficacy of safety standards, and the elements of deceptive advertising and bogus claims. Emphasis on how to distinguish health facts from bogus claims, make effective consumer decisions of health care services, and the basics of self-health care.

- HLSC 130. Alcohol and Other Drugs. 3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer
- Various aspects of drug usage will be studied with emphasis on the role of health education in reducing abuse. This course is designed to explore contemporary issues related to alcohol and other drugs. The course will examine the physiological, psychological, social, and cultural impact of licit and illicit drugs.
- HLSC 134. Understanding Human Sexuality. 3 Units**
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring
- Provides a variety of information about the physiological, psychological, social, and cultural differences and similarities of the sexes. Sexual myths and misconceptions will be explored. Contemporary sex roles and patterns of interactions currently practiced in our society will be discussed.
- HLSC 136. School Health Education. 2 Units**
Prerequisite(s): CPR training; may be taken concurrently.
Term Typically Offered: Fall, Spring, Summer
- Provides teacher candidates, social workers, and nurses an understanding of the educational methods, processes, and content of the scope of health education as provided in the Framework for Health Instruction of the California State Department of Education. Offers an understanding of current problems related to personal, family and community health. General theories and organization for teaching health education will be discussed. Meets the requirement for teacher candidates under the SB2042.
Note: Not open to lower division students.
- HLSC 144. Community Health Planning and Evaluation. 3 Units**
Prerequisite(s): HLSC 118, HLSC 148; GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X; or instructor permission; restricted to Health Science majors and minors.
Term Typically Offered: Fall, Spring
- Introduces students to the process and practice of program planning and evaluation. Examines the social and physical determinants of health; the impact of the community structure on health status; and, the influence of personal health behavior on community health education practice. These concepts shall be applied in the planning, implementation, and evaluation of health education services.
- HLSC 147. Health Data Analysis. 3 Units**
Prerequisite(s): STAT 1, Health Science major or instructor permission.
Term Typically Offered: Fall, Spring
- Introduction to methods and statistical practices used in the health sciences. Emphasis on the methods of collection, analysis, interpretation, and presentation of health data. Conceptual learning will be facilitated by sessions using computational software.
- HLSC 148. Epidemiology. 3 Units**
Prerequisite(s): STAT 1 or instructor permission; Health Sciences or Biological Sciences major or minor.
Term Typically Offered: Fall, Spring, Summer
- Designed to offer cognitive insights into community health epidemiology. Provides understanding of the study of the distribution and determinants of communicable, infectious and chronic disease, and of injuries in the human population.
- HLSC 150. Aging and Health. 3 Units**
Prerequisite(s): Student must be admitted to the Health Science, Kinesiology, or Gerontology major or minor, or have instructor permission to enroll in this course.
Term Typically Offered: Fall, Spring
- Designed to introduce students to the basic aging and health concerns of older people and to broader issues of aging, health and society. Examines the: demography of the aging population, biological theories of aging, social and psychological aspects of aging. Includes such issues as nutrition, drugs, exercise, sexuality, patterns of health services utilization, institutionalization, alternatives to the provision of long-term care in institutions, and dying.
- HLSC 151. Introduction to the U.S. Healthcare System. 3 Units**
Prerequisite(s): Student must be admitted to the Health Science major or minor, or have instructor permission to enroll in this course.
Term Typically Offered: Fall, Spring
- This course presents an overview of the historical, structural, and operational aspects of the nation's healthcare systems. Students will examine the factors that shape public policy regarding the allocation of health care resources and will gain an understanding of the relationship between healthcare costs, quality of care, and the access to health services. The influence of professional associations, medical technology, and social values in health reform initiatives is discussed.
- HLSC 152. Healthcare Systems and Operations. 3 Units**
Prerequisite(s): Health Science majors and minors only; or instructor permission
Term Typically Offered: Fall, Spring
- Introduce students to a broad range of issues related to managing healthcare organizations. Students will explore areas such as organizational behavior and theory applied to healthcare organizations and the role of administrators in planning, organizing, and overseeing the delivery of healthcare services. Organizational principles and decision-making strategies are applied to functional areas of health administration including finance, human resources, performance improvement, strategic planning, and healthcare information systems.
- HLSC 153. Administration of Healthcare Organizations. 3 Units**
Prerequisite(s): Health Science majors only
Term Typically Offered: Fall, Spring
- Introduction to the study of healthcare administration. Examines the broad field of healthcare administration. Topics include healthcare management, leading healthcare professionals, strategic planning in healthcare, healthcare budgeting and finance, healthcare insurance, healthcare marketing, healthcare information technology, healthcare ethics and law, and healthcare fraud and abuse.

HLSC 154. Healthcare Organizational Behavior. 3 Units

Prerequisite(s): Health Science (Health Care Administration) majors only
The study of healthcare organizational behavior including individual and group dynamics in the context of healthcare settings. Examines the impact of organizational contexts on the behavior of individuals and groups in healthcare organizations. Topics include individual motivation, power and influence, leadership theory, stress in the workplace, decision-making, conflict and negotiation, group dynamics, and change planning in healthcare.

HLSC 155. Introduction to Healthcare Process Improvement. 3 Units

Prerequisite(s): Health Science majors only
Term Typically Offered: Fall, Spring

An exploration of the basic principles and techniques of process improvement in healthcare through a range of topics, including measurement of health care system performance to creating high-quality services that result in organizational improvement and customer satisfaction.

HLSC 195. Fieldwork - Health or Safety. 2 - 4 Units

Prerequisite(s): Permission of faculty advisor, program coordinator and Department chair.

Term Typically Offered: Fall, Spring, Summer

To obtain insights into the practical application of the classroom teachings, fieldwork experiences are required of those preparing for a career in community health education or other areas of health and safety studies.

Note: Submit an application for field work no later than the fourth week of the semester prior to taking HLSC 195. May be repeated once for credit.

Credit/No Credit

HLSC 196. Experimental Offerings in Health Science. 1 - 3 Units

Term Typically Offered: Fall, Spring

Undergraduate seminar designed to provide an in-depth examination and discussion of current topics in the area of personal and community health and safety.

HLSC 199. Special Problems. 1 - 3 Units

Prerequisite(s): Permission of faculty under whom individual work will be conducted, program coordinator, and Department chair; HLSC 116, HLSC 118, HLSC 119, and HLSC 148 are strongly recommended.

Term Typically Offered: Fall, Spring

Note: Open only to HLSC majors and minors who appear competent to conduct independent work such as

Credit/No Credit

HLSC 222. Health Communication Strategies. 3 Units

Prerequisite(s): Master of Public Health major or instructor permission.
Term Typically Offered: Fall only

Provides students with knowledge and understanding of health communication theory and research. Students will examine the effects of media, including mass media, social media, and participatory media, in promoting or impeding public health goals and achievements. This course emphasizes the importance of public engagement and the development of effective communication with public health stakeholders including consumers, community goals, policy makers, health care providers, news media, and the general public.

HLSC 224. Program Planning. 3 Units

Prerequisite(s): Master of Public Health majors or instructor permission and HLSC 201

Term Typically Offered: Fall only

Covers the elements needed for successfully planning and implementing a health promotion program including the application of health behavior theory and program planning models. Students will apply concepts of social and physical determinants of health, community structure on health status, social/health policies of communities and personal health behaviors in program planning design and implementation.

HLSC 295. Seminar and Practicum Experience. 3 Units

Prerequisite(s): Master of Public Health or instructor permission
Term Typically Offered: Spring only

Provides students with in-depth supervised experience in an approved organization during their graduating semester. The practicum will require students to complete an applied practice experience related to a public health issue that is a focus within the organization. Seminars will discuss and review the integration of core public health concepts with the practicum. Students will create materials that demonstrate the analysis, synthesis, and intersection of course work and practicum work, while demonstrating mastery of the broad field of public health. Field Trip. Credit/No Credit
Field trip(s) may be required.

History (HIST)

HIST 4. Survey of Early Western Civilization. 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall, Spring

Survey of the earliest civilizations with emphasis on the contributions of the Hellenic, Roman and the Medieval eras to the West. Continues to the close of the Middle Ages. Stress is placed on social, economic, as well as political factors.

HIST 5. Survey of Modern Western Civilization. 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall, Spring

Survey of the development of western civilization from the Renaissance to the present day. Stress is placed on social and economic, as well as political, factors.

Note: Not open for credit to students receiving prior credit in HIST 105.

HIST 6. Asian Civilizations. 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall, Spring

Introduction to major developments in the histories and cultures of China, Japan, and India – origins of civilizations, great empires, religions, growth and spread of cultures, alien invasions, Western impact, nationalist movements, modernization, and characteristics of contemporary society.

HIST 7. History of African Civilizations. 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall, Spring

Introductory survey of the history of Africa from earliest times to the present. Major topics include: origins of humanity and society, civilizations of the Nile Valley, the peopling of Sub-Saharan Africa, African societies to 1500, pre-colonial Saharan and Sub-Saharan Africa, Colonial Africa and the emergence of modern states in Africa.

HIST 8. History of Islamic Civilizations. 3 Units**General Education Area/Graduation Requirement:** Humanities (Area C2)**Term Typically Offered:** Fall, Spring

Introductory survey of the history of Islamic societies of Asia, Africa, and the Middle East from the 6th century to the present. Focus will be on both continuities and the discontinuities that distinguish them from one another. Topics will include: religious, political, social, and cultural development in Islamic civilization during the premodern period, and reform, western imperialism, nationalism, and religious politics in the modern period.

HIST 10. History's Mysteries: Thinking Critically about the Past. 3 Units**General Education Area/Graduation Requirement:** Critical Thinking (A3)**Term Typically Offered:** Fall, Spring

From the builders of the Pyramids to the cause of the Holocaust: unlock mysteries of the past; apply historical thinking skills to answer compelling historical questions; sharpen reasoning and argumentative skills; evaluate historical evidence; learn to recognize scientific standards of historical investigation; hone college level writing skills. Topics vary based on instructor's expertise.

HIST 15H. Major Problems in U.S. History. 3 Units**General Education Area/Graduation Requirement:** United States History, Race & Ethnicity Graduation Requirement (RE)**Term Typically Offered:** Fall, Spring

A survey of topics in American history from the colonial period to the end of the twentieth century. Subjects may include reform movements, immigration, racial problems, religion, politics and the role of women.

Note: Fulfills graduation requirement for U.S. History and Race and Ethnicity.

HIST 17A. United States History, 1607-1877. 3 Units**General Education Area/Graduation Requirement:** Race & Ethnicity Graduation Requirement (RE), GE AREA D, United States History**Term Typically Offered:** Fall, Spring

Basic historical survey of the rise of American civilization from colonial beginnings through the rebuilding of the union during Reconstruction.

Note: Fulfills state graduation requirement for U.S. History.

HIST 17B. United States History, 1877-Present. 3 Units**General Education Area/Graduation Requirement:** GE AREA D, Race & Ethnicity Graduation Requirement (RE), United States History**Term Typically Offered:** Fall, Spring

Basic historical survey of the growth of urban-industrial American civilization and its rise to world power, 1877-present.

Note: Fulfills state graduation requirement for U.S. History.

HIST 18. Health, Medicine, and Science in America, 1600-Present. 3 Units**Term Typically Offered:** Fall, Spring

This course will examine science, medicine, and public health in America from the colonial era through the present.

HIST 21. First Year Seminar: Becoming an Educated Person. 3 Units**General Education Area/Graduation Requirement:** Understanding Personal Development (E)**Term Typically Offered:** Fall, Spring

Introduction to the nature of higher education, and the functions and resources of the University. Designed to help students develop academic success strategies and to improve learning skills. Students will interact with fellow students to build a community of academic and personal support. Introduces history as an academic discipline by requiring students to interpret historical information about issues such as academic freedom and the development of racism.

HIST 50. World Civilizations, Beginnings-1600. 3 Units**General Education Area/Graduation Requirement:** Humanities (Area C2)**Term Typically Offered:** Fall, Spring

Study of some major civilizations of the world from the beginnings of civilization to 1600. Covers the classical and medieval traditions of the West as well as at least two major non-western cultures.

HIST 50H. World History I: to 1500. 3 Units**Prerequisite(s):** Open only to Honors students.**General Education Area/Graduation Requirement:** Humanities (Area C2)**Term Typically Offered:** Fall only

Intensive comparative history of the world's major civilizations that highlights human community's increased level of connection. Explores the diverse global culture, political, and economic patterns from the origins of complex societies to the birth of modern capitalism.

HIST 51. World History from 1500 to the Present.. 3 Units**General Education Area/Graduation Requirement:** Humanities (Area C2)**Term Typically Offered:** Fall, Spring

A survey of the increased inter-connections of the world's civilizations from the conquest of the Americas to the dawn of the 21st century. Explores the history of the human community's political development, culture diversity, and economic globalization.

HIST 51H. World History from 1500 to the Present. 3 Units**Prerequisite(s):** Open only to Honors students.**General Education Area/Graduation Requirement:** Humanities (Area C2)**Term Typically Offered:** Spring only

An intensive survey of the increased inter-connections of the world's civilizations from the conquest of the Americas to the dawn of the 21st century. Explores the history of the human community's political development, cultural diversity, and economic globalization.

HIST 100. Introduction to Historical Skills. 3 Units**Term Typically Offered:** Fall, Spring

Introduction to the skills of secondary and primary source research, critical analysis of documentary sources, historical reasoning and the preparation of written reports. Attention to research procedures, record-keeping, citation, and bibliography.

Note: Open to History majors who have completed at least 6 units of required lower division coursework. Recommended for second semester of sophomore year.

HIST 101A. Language and written culture in Ancient Greece. 3 Units
Term Typically Offered: Fall, Spring

This is part of the two-semester hybrid course on Ancient Greek language and written culture. The language component of the course is taught online through interactive language-teaching website, while the weekly meetings are mainly discussions on Ancient Greek texts in translation. The focus in this first part is on basic grammatical rules, the reading and construction of simple sentences, and the study of Greek written culture from its beginnings to the Classical Period.

Cross Listed: WLL 120A; only one may be counted for credit.

HIST 101B. Language and written culture in Ancient Greece. 3 Units
Prerequisite(s): HIST 101A

Term Typically Offered: Spring only

This is the second part of a two-semester hybrid course on Ancient Greek language and written culture. The language component of the course is taught online through an interactive language-teaching website, while the weekly meetings are mainly discussions on Ancient Greek texts in translation. The focus in this second part is on advanced grammar, the reading and understanding of long passages, and the study of Greek written culture from the Classical Period to the Roman era.

Cross Listed: WLL 120B; only one may be counted for credit.

HIST 102A. Culture and Language in Modern Greece, 1821-1909. 3 Units

General Education Area/Graduation Requirement: GE AREA D

Term Typically Offered: Fall only

This is the first part of a two-semester hybrid course on modern Greek language, history, and culture. This course is an introduction to the main cultural forces in history and literature that shape modern Greek society. It explores the historical development of modern Greek culture from the period of the Greek War of Independence to the present. Students will also obtain a basic level of modern Greek grammatical rules, the reading and writing of simple sentences, and basic everyday conversation skills.

HIST 102B. Culture and Language in Modern Greece, 1909-Present. 3 Units

Prerequisite(s): Student must complete HIST 102A with a minimum "C-" grade or better.

General Education Area/Graduation Requirement: GE AREA D

Term Typically Offered: Spring only

This is the second part of a two-semester hybrid course on modern Greek language, history, and culture. This course is an introduction to the main cultural forces in history and literature that shape modern Greek society. It explores the historical development of modern Greek culture from the period of the Greek War of Independence to the present. Students will also obtain a basic level of modern Greek grammatical rules, the reading and writing of simple sentences, and basic everyday conversation skills.

HIST 103. Mediterranean Europe: From the Renaissance to the European Union. 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall, Spring

Traces the development of Southern European countries from the Renaissance to European Union membership. These two "rebirths" for Europe had a unique impact on Portugal, Spain, Italy and Greece. Focuses on the political, economics, and cultural aspects of these Mediterranean countries.

HIST 104A. Ancient Science. 3 Units

General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5

Term Typically Offered: Fall, Spring

An examination of the theories, experiments, and calculations of Greek and Roman scientists as well as the work of major contributors to astronomy, natural philosophy, medicine, and technology in the ancient period.

HIST 105. Great Ages and Issues in Modern European History. 3 Units

Prerequisite(s): GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

Advanced analysis of topics in modern European history from the Renaissance to the present. Emphasis is placed upon primary sources and contemporary as well as historical interpretations of the sources.

Note: Not open for credit to students receiving prior credit in HIST 5.

HIST 106. Everyday Life and Society in Antiquity. 3 Units

Prerequisite(s): GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)

Term Typically Offered: Fall, Spring

An overview of social beliefs and practices in a variety of ancient cultures, including Ancient Greece, Rome, and the Near East chronologically ranging from Late Prehistory to the rise of Christianity. All the examined themes are approached comparatively and on the basis of ancient historical evidence, consisting of both texts and archaeological materials.

HIST 107. History of the Physical Sciences. 3 Units

General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5

Term Typically Offered: Fall, Spring

Study of the development of the major physical laws presently used in describing our physical world. Some considerations of the influences of these developments on other areas of knowledge and on society in general.

Cross Listed: PHSC 107; only one may be counted for credit.

HIST 108. Ancient Egypt: History & Culture. 3 Units

Term Typically Offered: Fall, Spring

Overview of the history of ancient Egypt from prehistory to the Roman conquest, combined with a study of cultural development in areas of ancient Egyptian religion, art, and literature.

- HIST 109. History of Modern Greece. 3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
- Introduces the fundamental events and figures that shaped modern Greek history and politics. Topics will include: the Greek War of Independence, the Megali Idea, the Asia Minor Catastrophe, and Greece's entry into the European Union. No prior knowledge of Greece or Greek language assumed.
- HIST 110. The Ancient Near East: A Cultural History. 3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
- Growth and development of Ancient Near Eastern civilization with emphasis on Mesopotamia and Egypt as the foundation of ancient Mediterranean civilization. Religion, literature, art and social institutions will all be stressed as integral elements in an historical process.
- HIST 111. Ancient Greece. 3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
- Political, social, and cultural development of Greece from the Mycenaeans to the post-Alexandrian world with emphasis on Fifth Century Athens and on a reading of Thucydides.
- HIST 112. Ancient Rome. 3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
- Rome from its foundation to Justinian with emphasis on its political institutions, their strengths and weaknesses, social structure, the ancient economy, paganism and Christianity, and the end of ancient civilization.
- HIST 113. Early Medieval Europe. 3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
- The transformation of Mediterranean civilization from Late Antiquity to its three heirs: Western Europe, Byzantium and Islamic Civilization. Topics include: Late Antique Christianity, monasticism, economic and trade structures, Islamic conquests, Carolingian civilization, medieval archaeology and technology, and the origins of manorialism and feudalism.
- HIST 114. Europe in the High Middle Ages. 3 Units**
Term Typically Offered: Fall, Spring
- Flourishing of European civilization from the Gregorian reform (11th century) until the end of the Middle Ages. Emphasizes the development of Latin Christianity, the formation of national communities in France and England, and the multi-faceted crisis of the 14th and 15th centuries.
- HIST 115. The Renaissance and Reformation in Europe. 3 Units**
Term Typically Offered: Fall, Spring
- Survey of the development of Italian City States and their relation to Northern Europe; an examination of the relationship among commerce, capitalism and secular culture; a survey of Reformation and Counter-Reformation.
- HIST 116. Europe, 1648-1815, The Age of Revolution. 3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
- Political and social survey of Europe with emphasis on (a) the scientific revolution and the Enlightenment, (b) absolute monarchs and enlightened despots, (c) the American and French Revolutions, (d) Napoleon I, and (e) art, society and popular culture.
- HIST 117. Europe, 1815-1914. 3 Units**
Term Typically Offered: Fall, Spring
- Consideration of historical trends in 19th Century Europe. Emphasis on Germany and France. Attention is devoted to liberalism, conservatism and nationalism; the industrial revolution, national unification, nationalism, imperialism and the rise of socialism.
- HIST 118A. World War I: Causes, Conduct, Consequences. 3 Units**
Term Typically Offered: Fall, Spring
- Political and social development of Europe from the beginning of the 20th Century to the accession of Hitler to power in 1933 with emphasis on relations among the Great Powers.
- HIST 118B. World War II: Causes, Conduct, Consequences. 3 Units**
Term Typically Offered: Fall, Spring
- Critical examination of political, military, social, and cultural transformations in the era of the Second World War. Particular emphasis will be placed on diplomatic relations between the Great Powers, military conduct during the war, the experience of fascism, the causes and ramifications of the Holocaust, and the war's cultural and political legacy in Europe.
- HIST 119. Europe Since 1945. 3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Examination of major developments in Europe since the end of World War II. Topics include: the basic intellectual structures of the 20th century; the origins of the Cold War; the rise of the EEC; decolonization; the political and social upheaval of the 1960's; détente; and the new preoccupation with nationalism and ethnic identity.
- HIST 120A. History of Medicine, Ancient and Medieval. 3 Units**
Term Typically Offered: Fall only
- History of ancient-medieval medicine, the role of medicine in society, and attitudes toward illness and the body. Also covers alternative remedies such as magic and folk medicine. Primary focus on Greco-Roman medicine but also Sumerian, Egyptian, Christian and Islamic traditions.
- HIST 121. Democracy and Human Rights in the Era of the French Revolution and Napoleon. 3 Units**
Term Typically Offered: Fall, Spring
- Explores the crucial social, cultural, intellectual, and political legacies of the Revolutionary and Napoleonic years (1789-1815) in France and across the globe. In particular, examines ideas and policies regarding religious toleration, democratic participation, slavery, gender, and nationalism.

HIST 122A. History of Women in Western Civilization, Prehistory-Middle Ages. ✎ 3 Units

Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)

Term Typically Offered: Fall, Spring

Emphasis on the lives and experiences of women as they relate to the fundamental characteristics of Western culture. Topics include women and religion, production and economic institutions, reproduction and family structures, power and politics, women's self-definition.

HIST 122B. History of Women in Western Civilization, Renaissance-Present. ✎ 3 Units

Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)

Term Typically Offered: Fall, Spring

Emphasis on the lives and experiences of women as they relate to fundamental characteristics of Western culture. Topics include women and industrialization, the modern state, the development of feminism, feminism and socialism, revolutionary and reactionary movements.

HIST 123. The Crusades. 3 Units

Term Typically Offered: Fall, Spring

Revolutionary origins of the Soviet Union, its rise as a global superpower, and its sudden dissolution. Emphasis on the major political, economic, social, and cultural trends that defined Soviet civilization, as well as the Soviet legacy for contemporary Russia and the world.

- HIST 130. The Fall Of Communism. 3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Causes and consequences of the dramatic transformations in the political, economic, and cultural life of the Soviet Union, eastern Europe, and China after 1970. Topics include "real-existing" socialism, Gorbachev and the revolutions of 1989, the emergence of China, impact on the non-socialist world, and implications for the future.
- HIST 131. History of Sexuality in Comparative Perspective. 3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
- Survey of the comparative history of sexuality in the pre-modern and modern world (including the United States and Europe). Topics include the intersections of gender, sexuality, race, and social status across societies and time periods; religion and sexual norms; sex, sexuality and the rise of the nation-state; sex and imperialism; and sexuality and the law.
- HIST 132. Topics In World History. 3 Units**
Prerequisite(s): HIST 50.
Term Typically Offered: Fall, Spring
- Designed for students who want to acquire multiple subject teaching credentials. Examines world history from a topical perspective, focusing on large themes and trends. Builds upon the detailed history taught in the HIST 50.
- HIST 133. Twentieth-Century World History. 3 Units**
Prerequisite(s): HIST 51 or HIST 51H
Term Typically Offered: Spring only
- A survey of the major international themes and historical processes that shaped the twentieth century. Designed for History majors and present or prospective teachers of history.
- HIST 134. The Rise and Fall of European Colonial Empires. 3 Units**
Term Typically Offered: Fall, Spring
- This course covers the origins of European colonialism in the Iberian expansion, the development of English and Dutch empires, the role of spices, slaves, sugar, and opium in the making of the modern global economy, the "New Imperialism" of the 19th Century, the anti-colonialist and nationalist movements, and the final collapse of the empires after World War II.
- HIST 135A. History Of Mexico To 1910. 3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
- Emphasizes Meso-American culture, the creation and flourishing of Spanish colonial culture, the independence movements, and the trials and tribulations of nationhood in the 19th century.
- HIST 135B. Revolutionary and Modern Mexico. 3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Political, social, economic and cultural history of the Mexican upheaval, from 1910 to 1920, and the development of Modern Mexico since 1920.
- HIST 136. Spanish Civil War. 3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- In-depth examination of the Spanish Civil War (1936-1939) focusing on its social, political, and cultural contexts. The course also examines the war's historical origins, immediate aftermath and implications for understanding modern Spain.
- HIST 137A. Latin American Revolution 20th Century. 3 Units**
Term Typically Offered: Fall, Spring
- Comparative analysis of twentieth-century Latin American revolutions. Considers economic and political causes, revolutionary aims, and historical outcomes.
- HIST 137B. Latin American History in Film. 3 Units**
An analysis of films representing Latin American history from conquest through present.
- HIST 138A. Colonial Latin America. 3 Units**
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Survey course in the history of Latin America from the late fifteenth century to the early nineteenth century.
- HIST 138B. Modern and Contemporary Latin America. 3 Units**
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Survey course in the history of Latin America from the early nineteenth century to the present.
- HIST 140. Modern East Asian Cinema. 3 Units**
General Education Area/Graduation Requirement: Arts (Area C1), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
- Survey of the development of cinema in Asia, focusing primarily on cinematic masterpieces from China, Hong Kong, and Japan. Focuses on directors, actors, and studios that left a lasting mark on cinema history. Also focuses on how Asian aesthetic sense differs from the Hollywood norm. Prerequisite:GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X. Cross-listed: ASIA 140; only one may count for credit.
- HIST 141. History of Africa Since 1800. 3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- European control in Africa, African primary resistance and proto-nationalist movements, decolonization and post-independence, nation-building to present.

- HIST 142. History of Women in Africa.** **3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
- Examines the role of African women in politics, religion, the economy, the family and the arts from ancient times to the present. Considers the varying status of women in different regions of the continent. Also looks at the impact of kinship structures on women, development issues, and African responses to feminist discourse.
- HIST 143A. Middle Eastern History to 1800.** **3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only
- Surveys the history of the Muslim Middle East from the age of the Prophet Mohammed to the late Ottoman Empire. Topics include: the Islamic religious revolution; the splintering of the Islamic community into Sunnis, Shias and other Islamic minorities; the impact of Islam upon the European West; the Crusades; and Western influence at the end of the 18th century.
- HIST 143B. The Modern Middle East.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D

- This course provides an introduction to the study of lesbian, gay, bisexual, transgender, and queer (LGBTQ) histories. Uses an interdisciplinary and comparative approach to explore the historical emergence and development of LGBTQ identities, communities, and political movements. Includes theoretical analysis of the history of gender and sexuality and the practice of historical analysis.
 Cross Listed: WOMS 172; only one may be taken for credit.
- HIST 173. The History of the Civil Rights Movement: From Reconstruction to Deconstruction, 1865-Present.**  **3 Units**
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D
Term Typically Offered: Fall, Spring
- Examines the campaign for civil rights waged by African Americans from the Reconstruction era through the present. Treats the movement's roots, goals, main organizations, and its relationship with African American culture in this period. Includes a comparison with the experiences of Mexican Americans and Native Americans.
- HIST 174A. History of Disability in the United States.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall only
- Study of mental and physical disability in United States history from colonial times to the present. Emphasizes disability as a social and cultural construction and examines how disability intersects with historical constructions of race, class, gender, and sexuality. Includes lived experiences of disabled Americans, changing cultural perceptions of disabled Americans, and disability activism and legislative action, including the passage of the Americans with Disabilities Act and its aftermath.
- HIST 175A. Sex, Population, and Birth Control in America.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only – odd years
- Explores efforts to control reproduction in America in the nineteenth and twentieth centuries. It examines the medical and legal institutions that shaped public policy and the general public's response to efforts to regulate citizens' reproduction, sexuality, and healthcare. It also investigates how race, ethnicity, class, and gender determined the types of reproductive choices available to Americans.

HIST 176. African Cultural Heritage in the Americas. 3 Units
Term Typically Offered: Fall, Spring

Focuses on the legacies of African cultural and social systems among the diasporic Africans in the Americas in the 19th and 20th centuries. Primary focus is on the U.S., but also examines African retentions in Jamaica, Haiti, Cuba, and South America.
 Cross Listed: ETHN 176; only one may be counted for credit.

HIST 177. The African-American Experience, 1603-Present. 3 Units
General Education Area/Graduation Requirement: United States History, Race & Ethnicity Graduation Requirement (RE), GE AREA D
Term Typically Offered: Fall, Spring

Gives students an understanding of African-American history from the colonial period to the present. Focuses on African-Americans as active agents in shaping U.S. History, and analyzes the issues, ideas and strategies they have developed and used in their struggle for justice and equality.

Note: Fulfills the state graduation requirements for U.S. History.

HIST 178. Mexican-American History. 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D
Term Typically Offered: Fall, Spring

Explores the contours of Mexican American history from the Spanish colonial experience through the present. Examines the roots of the Chicano community in the U.S. conquest of the Southwest, the twentieth-century immigration experience, the development of diverse Chicano communities after 1900, and the struggles for full civil rights in American society. Compared with the experiences of African Americans and Native Americans.

HIST 179. American Immigration History. 3 Units
Term Typically Offered: Fall, Spring

Study of immigration in American life. Particular attention given to the shifting causes and patterns of immigration, similarities and differences among the experiences of immigrants in the U.S., nativism, the development of immigration restrictions, and the effects of immigration on the life of the nation over time.

HIST 180. American Legal History. 3 Units
Term Typically Offered: Fall only

Examines the interaction of law, society, and politics in America from the colonial period to the present, with special emphasis on law as an arena of social and cultural conflict. Major topics include the development of the common law in early America; the law of slavery and its impact on constitutional development; the role of the law in defining controversies over race and gender; legal thought and education; and the role of the Supreme Court in 20th Century America.

HIST 181. Anarchists and Revolutionaries: Transnational Radicalism in America. 3 Units
Term Typically Offered: Fall, Spring

This course explores the intersection of anti-authoritarian ideologies, transnational migration and anarchist movements in the United States. It will focus on the time period of 1871 through 1940 and the ways in which concepts of "liberty" informed radical movements. Topics may include: European and Caribbean origins of anti-authoritarianism, immigrant enclaves, radical labor, anarchism, anarchist periodicals, and selected liberation movements.

HIST 182. American West. 3 Units
Term Typically Offered: Fall, Spring

Study of the Spanish and Indian frontiers, the advance of the Anglo-American settlers, and the emergence of the modern West.

HIST 183A. California History, 1542-1860. 3 Units
Term Typically Offered: Fall, Spring

Study of the people, institutions and cultural influence of Spanish-Mexican California and the changes brought by U.S. conquest and the Gold Rush.

HIST 183B. California History, 1860-1970. 3 Units
Term Typically Offered: Fall, Spring

Study of the social, political and economic evolution of California from construction of the first continental railroad link to the present, focusing on issues which are still significant in the state.

HIST 184. California Architecture and Urban History. 3 Units
Term Typically Offered: Fall, Spring

A survey of the history of California architecture and its impact on the urban environment from Native Americans to the 20th Century. Particular attention will be given to architecture as a statement of social, economic, and political empowerment.

Cross Listed: ART 118B; only one may be counted for credit.

HIST 185. California Indian History. 3 Units
Term Typically Offered: Fall, Spring

Historical study of California's native people and Indian-white relations from the Spanish colonial era to the present.

HIST 186A. The California Gold Rush. 3 Units

Prerequisite(s): GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

Term Typically Offered: Fall, Spring

Study of the social, cultural, economic, political, and environmental influences of the California Gold Rush in the contexts of state, national, and world history.

HIST 186B. History of California Water. 3 Units

Prerequisite(s): GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

Term Typically Offered: Fall, Spring

Study of the history of water in California, including its social, cultural, legal, economic, political, land use, and environmental significance.

HIST 186C. Sacramento History. 3 Units
Term Typically Offered: Fall only

Surveys the history of Sacramento and the lower Sacramento Valley through the nineteenth, twentieth, and early twenty-first centuries. Using local history methodologies, explores landscape change and patterns of community development in Sacramento and situates the city and region within national and global historical contexts.

HIST 187. Topics in United States History 1600-1900. 3 Units**Prerequisite(s):** HIST 17A.**Term Typically Offered:** Fall, Spring

Designed for students who want to acquire multiple subject teaching credentials. Examines United States history between 1600 and 1900 from a topical perspective, focusing on large themes and trends. Builds upon HIST 17A.

HIST 188. American Labor History. 3 Units**Term Typically Offered:** Fall, Spring

Survey of the history of working people in the United States from the colonial period to the present. Topics include labor systems from slavery to wage work, strategies of labor organizations, race and labor, radicalism and reform, immigration and labor, labor and leisure, women and work, and globalization.

HIST 189. California Dreamin': A Cultural History of California since 1840. 3 Units**Term Typically Offered:** Fall, Spring

Study of the cultural history of California as reflected in the humanities - art, music, literature, and film - from early American settlement and conquest to the present.

HIST 190. Clio: Editing and Publishing in History. 3 Units**Prerequisite(s):** HIST 100**Term Typically Offered:** Spring only

Seminar devoted to learning the editing and publishing side of the history profession. Students will produce the student history journal Clio.

HIST 191. Seminar in Historical Interpretation and Analysis. 3 Units**Prerequisite(s):** HIST 100 and (GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W).**Term Typically Offered:** Fall, Spring

Reading seminar in philosophy of history, historical methodology, and historical reasoning. Special focus on the instructor's field of expertise. Designed for History majors and present and prospective teachers of history.

Note: Not open to lower division students.**HIST 192A. Seminar in Recent Interpretations of United States History. 3 Units****Prerequisite(s):** GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.**Term Typically Offered:** Fall, Spring

Reading seminar in recent scholarship and current trends in the interpretation of United States history. Designed especially for History majors and present and prospective teachers of history.

Note: Not open to lower division students.**HIST 192B. Seminar in Recent Interpretations of European History. 3 Units****Prerequisite(s):** GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.**Term Typically Offered:** Fall, Spring

Reading seminar in recent scholarship and current trends in the interpretation of European history. Designed especially for History majors and present and prospective teachers of history.

Note: Not open to lower division students.**HIST 192C. Seminar in Recent Interpretations of Asian History. 3 Units****Prerequisite(s):** GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.**Term Typically Offered:** Fall, Spring

Reading seminar in recent scholarship and current trends in the interpretation of Asian history. Designed especially for History majors and present and prospective history teachers.

Note: Not open to lower division students.**HIST 192E. Seminar in Recent Interpretations of African History. 3 Units****Prerequisite(s):** GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.**Term Typically Offered:** Fall, Spring

Reading seminar in recent scholarship and current trends in the interpretation of African history. Designed especially for History majors and present and prospective history teachers.

Note: Not open to lower division students.**HIST 192F. Seminar in Recent Interpretations of Latin American History. 3 Units****Prerequisite(s):** GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.**Term Typically Offered:** Fall, Spring

Reading seminar in recent scholarship and current trends in the interpretation of Latin American history. Designed especially for History majors and present and prospective history teachers.

Note: Not open to lower division students.**HIST 192Z. Seminar in Recent Interpretations of a Special Topic. 3 Units****Prerequisite(s):** GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.**Term Typically Offered:** Fall, Spring

Reading seminar in recent scholarship and current trends in the interpretation of a special topic. Designed especially for History majors and present and prospective history teachers.

Note: Not open to lower division students.**HIST 193. Public History. 3 Units****Prerequisite(s):** HIST 100**Term Typically Offered:** Fall, Spring

Course engages students in the work of historians in public practice. Covers theory and methods of public history through hands-on experience, field trips, guest speakers, and directed readings and discussion. Topics include: Archives, Museums, Historic Preservation, Cultural Resource Management, Heritage Tourism, Digital History, World Heritage, and Historical Memory.

Note: Field trip. Students will be required to attend field trips to public history institutions both on and off campus.

Field trip(s) may be required.

HIST 194. Oral History: Theory and Practice. 3 Units

Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M/W.

Term Typically Offered: Fall, Spring

Introduces students to the theory and practice of oral history. Examines ethical and legal issues as well as problems of accuracy in memory. Students will also learn how to conduct, transcribe, and edit oral histories and develop oral history projects.

HIST 195A. History Internship. 3 Units

Prerequisite(s): Permission of the faculty internship director.

Term Typically Offered: Fall, Spring, Summer

Supervised work and project experience with history-related agencies and organizations, developing entry level skills. May not be repeated for credit.

Credit/No Credit

HIST 195B. Advanced History Internship. 3 Units

Prerequisite(s): HIST 195A and permission of the faculty internship director.

Term Typically Offered: Fall, Spring, Summer

Supervised work and project experience with history-related agencies and organizations, developing more advanced entry level skills and practice in communicating history to public audiences. May not be repeated for credit.

Credit/No Credit

HIST 195T. History Pre-credential Internship. 3 Units

Prerequisite(s): HIST 17A, HIST 17B, HIST 50, HIST 51, and HIST 100; permission of instructor.

Term Typically Offered: Fall, Spring

Supervised classroom observations and historical research to assist with curriculum development in secondary grade level history classrooms, with accredited schools, teaching related agencies and organizations. Students improve historical research skills, content mastery, and develop knowledge of using primary sources in history teaching. Students are exposed to secondary grade level history classrooms and observe instructional methods.

Note: Limited to upper division majors in the pre-credential program and students who have an interest in teaching history at the secondary level.

Credit/No Credit

HIST 196A. The Ottoman Empire. 3 Units

Term Typically Offered: Fall only

Overview of the history of the Ottoman Empire from its rise in the 13th century to its demise in the early 20th century. Topics include Ottoman state structure, military, economy, legal system, society, culture, and legacy.

HIST 196M. Japanese History in Japan. 3 Units

Term Typically Offered: Winter

A three-week course, with a two week Study-Abroad portion to Matsuyama Japan. Students will learn about Japanese history in both a classroom setting and through field trips to local sites in Ehime and Hiroshima prefectures. Field trip. Field trip(s) may be required.

HIST 197A. Senior Research Seminar: United States History. 3 Units

Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.

Term Typically Offered: Fall, Spring

Research seminar in historical writing in which students will complete a research paper in United States History based on primary sources. Subject will vary according to instructor. Recommended for the second semester of the senior year.

Note: Not open to lower division students.

HIST 197B. Senior Research Seminar: World History. 3 Units

Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.

Term Typically Offered: Fall, Spring

Research seminar in historical writing in which students will complete a research paper in world history based on primary sources. Subject will vary according to instructor. Recommended for the second semester of the senior year.

Note: Not open to lower division students.

HIST 197C. Senior Research Seminar: Public History. 3 Units

Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.

Term Typically Offered: Fall, Spring

Introduction to bibliographic and research skills in secondary and primary sources, and the development of expertise in writing historical reports. Particular attention to regional research libraries, manuscript repositories and archival facilities.

Note: Not open to lower division students.

HIST 198. Summative Assessment for Teachers. 3 Units

Corequisite(s): HIST 100.

Term Typically Offered: Fall, Spring

Capstone seminar that serves as a bridge between academic preparation and entry into a professional teacher credential program. Students will examine social science-history in the State curriculum framework, reflect on subject matter preparation, focus on middle and high school social science teaching and learning, investigate and evaluate resources pertinent to instruction, and explore current issues in education.

HIST 199. Special Problems. 1 - 3 Units

Term Typically Offered: Fall, Spring

Individual projects or directed reading. Open only to students who appear competent to carry on individual work.

Credit/No Credit

HIST 200. History and Theory. 3 Units

Prerequisite(s): Classified standing in History or instructor permission.

Term Typically Offered: Fall, Spring

Study of the theoretical schools and debates that have most influenced historical research and writing in the modern era. Introduces students to both important theoretical texts and their applied use. It is designed to provide an intellectual foundation for subsequent graduate-level history seminars.

Note: Graduate Writing Intensive (GWI) course.

HIST 201. Interpreting World History.**3 Units****Prerequisite(s):** Classified graduate status in History or instructor permission.**Term Typically Offered:** Fall, Spring

Study of historical interpretations of major issues and problems in world history. Helps students to define world history as a field and to consider different approaches to teaching and/or researching world history topics.

HIST 202. Interpreting U.S. History.**3 Units****Prerequisite(s):** Classified graduate status in History or instructor permission.**Term Typically Offered:** Fall, Spring

Study of historical interpretations of major issues and problems in US history. Helps students to define US history as a field and to consider different approaches to teaching and/or researching US history topics.

HIST 203. Public History Principles and Techniques. ✍**3 Units****Prerequisite(s):** Graduate status or instructor permission.**Term Typically Offered:** Fall, Spring

Provides an introduction to public history by surveying the major topics in the field through readings, discussion, and guest lectures. Students will learn about the history of public history, employment opportunities for public historians, and public historical issues.

Note: Graduate Writing Intensive (GWI) course.**HIST 209A. Research and Writing in US History.****3 Units****Prerequisite(s):** Classified standing in History or instructor permission.**Term Typically Offered:** Fall, Spring

Research seminar in fields of special interest. Topics will be announced each semester.

HIST 209B. Research and Writing in the History of the American West.**3 Units****Prerequisite(s):** Classified status in History or instructor permission.**Term Typically Offered:** Fall, Spring

Research seminar in fields of special interest in the history of the American West. Topics will be announced each semester.

Note: May be repeated for credit provided the period or the topic is different.**HIST 209C. Research and Writing in World History.****3 Units****Prerequisite(s):** Classified status in History or instructor permission.**Term Typically Offered:** Fall, Spring

Research seminar in fields of special interest in the history of regions outside the U.S. Topics will be announced each semester.

Note: May be repeated for credit provided the period or the topic is different.**HIST 280A. Reading Seminar in African or Asian History.****3 Units****Prerequisite(s):** Classified status in History or instructor permission.**Term Typically Offered:** Fall, Spring

Extensive reading and analysis of the significant historical literature on a topic in African or Asian history. The area or topic to be studied will change from term to term.

Note: May be repeated for credit provided the period or the topic is different.**HIST 280B. Reading Seminar in Ancient or Medieval European History.****3 Units****Prerequisite(s):** Classified status in History or instructor permission.**Term Typically Offered:** Fall, Spring

Extensive reading and analysis of the significant historical literature on a topic in ancient or medieval European history. The area or topic to be studied will change from term to term.

Note: May be repeated for credit provided the period or the topic is different.**HIST 280C. Reading Seminar in Modern European History.****3 Units****Prerequisite(s):** Classified status in History or instructor permission.**Term Typically Offered:** Fall, Spring

Extensive reading and analysis of the significant historical literature on a topic in early modern or modern European history. The area or topic to be studied will change from term to term.

Note: May be repeated for credit provided the period or the topic is different.**HIST 280Z. Reading Seminar: Topics in World History.****3 Units****Prerequisite(s):** Classified status in History or instructor permission.**Term Typically Offered:** Fall, Spring

Extensive reading and analysis of the significant historical literature in world history. The area of topic to be studied will change from term to term.

Note: May be repeated for credit provided the period or the topic is different.**HIST 281A. Reading Seminar in Colonial or Early US History.****3 Units****Prerequisite(s):** Classified status in History or instructor permission.**Term Typically Offered:** Fall, Spring

Extensive reading and analysis of the significant historical literature of a particular period or topic in colonial North American or early U.S. history; the era or topic to be studied will vary from semester to semester.

Note: May be repeated for credit provided the period or the topic is different.**HIST 281B. Reading Seminar in Nineteenth Century US History.****3 Units****Prerequisite(s):** Classified status in History or instructor permission.**Term Typically Offered:** Fall, Spring

Extensive reading and analysis of the significant historical literature of a particular period or topic in nineteenth century U.S. history; the era or topic to be studied will vary from semester to semester.

Note: May be repeated for credit provided the period or the topic is different.**HIST 281C. Reading Seminar in Modern US History.****3 Units****Prerequisite(s):** Classified status in History or instructor permission.**Term Typically Offered:** Fall, Spring

Extensive reading and analysis of the significant historical literature of a particular period or topic in U.S. history after 1900; the era or topic to be studied will vary from semester to semester.

Note: May be repeated for credit provided the period or the topic is different.

HIST 281Z. Reading Seminar: Topics in United States History. 3 Units**Prerequisite(s):** Classified status in History or instructor permission.**Term Typically Offered:** Fall, Spring

Extensive reading and analysis of significant historical literature of a particular period or topic in U.S. history; the era or topic to be studied will vary from semester to semester.

Note: May be repeated for credit provided the period or the topic is different.

HIST 282A. Research Seminar in Public History. 3 Units**Prerequisite(s):** Graduate status or instructor permission.**Term Typically Offered:** Fall, Spring

Professional training in the research and analysis of cartographic, archival, architectural, and artifactual sources related to public history. Attention to such research areas as cultural resources management, environmental impact, and historic sites and structures.

HIST 282B. Archives and Manuscripts. 3 Units**Prerequisite(s):** Graduate status or instructor permission.**Term Typically Offered:** Fall, Spring

Professional training in archives and manuscripts administration. Historical development of archives and manuscripts administration, theoretical concepts that underlie the discipline, integration of these concepts into practice, and various uses of archival resources.

HIST 282C. Oral History. 3 Units**Prerequisite(s):** Graduate status or instructor permission.**Term Typically Offered:** Fall, Spring

Professional training in oral history, with attention to the field's historical and theoretical development. Emphasis is placed on the methodology of oral history in the context of selected public history topics. Students learn to prepare for, conduct, transcribe, and edit oral history interviews.

HIST 282D. Museum Studies. 3 Units**Prerequisite(s):** Graduate status or instructor permission.**Term Typically Offered:** Fall, Spring

Intensive introduction to museum theory, practice, and management. Concentrates on providing an understanding of museums including museum exhibitions, collections, and acquisition policy. Students will have opportunities for practical museum experience and for meeting museum professionals.

HIST 282E. Historic Preservation. 3 Units**Prerequisite(s):** Graduate status or instructor permission.**Term Typically Offered:** Fall, Spring

Overview of the different aspects of historic preservation, including downtown revitalization, neighborhood organization, historic site management, preservation legislation, preservation education and historic architecture. The history of historic preservation in the U.S. Students will engage in on-site visits to historic sites.

HIST 282F. History and Memory. 3 Units**Prerequisite(s):** Classified standing in Public History, History or instructor permission.**Term Typically Offered:** Fall, Spring

Study of theoretical schools and debates regarding the formation, transformation, and transmission of collective memory. Draws upon theoretical literature on group memories from the social sciences and humanities, and it examines the importance of this literature for public and academic historians.

HIST 282Z. Special Topics in Public History. 3 Units**Prerequisite(s):** Graduate status or instructor permission.**Term Typically Offered:** Fall, Spring

Intensive seminar in a particular topic related to public history studies. Topics may include urban history, California history, demographics, visual history and public history.

HIST 290. Clio: Editing and Publishing in History. 3 Units**Term Typically Offered:** Spring only

Seminar devoted to learning the editing and publishing side of the history profession. Students will produce the student history journal Clio.

HIST 295. History Internship. 3 Units**Prerequisite(s):** Graduate status and permission of faculty internship director.**Term Typically Offered:** Fall, Spring

Supervised work and project experience with history-related agencies and organizations, developing entry-level professional skills.

Note: May be repeated for credit

Credit/No Credit

HIST 297. Advanced Internship. 3 Units**Prerequisite(s):** HIST 295 and permission of the faculty internship director.**Term Typically Offered:** Fall, Spring

Professional work experience in a specialized field of public history, with training and supervision as part of the Capital Campus Graduate Program in Public History.

Credit/No Credit

HIST 299. Special Problems. 1 - 3 Units**Term Typically Offered:** Fall, Spring

Individual projects or directed reading.

Note: Open only to students who appear competent to carry on individual work; May be repeated for credit.

Credit/No Credit

HIST 400. The Teaching of History in College. 3 Units**Term Typically Offered:** Fall, Spring

Seminar devoted to the teaching of college history. Students will intern in lower division courses.

HIST 500. Culminating Experience. 3 Units**Prerequisite(s):** Advanced to candidacy.**Term Typically Offered:** Fall, Spring

Credit given upon successful completion of one of the following: A.) Thesis. An original contribution to historical knowledge, which includes the statement of a problem, a review of pertinent literature, the collection and presentation of relevant material, a conclusion, and a formal bibliography, all presented with appropriate documentation; OR B.) Project. A significant undertaking appropriate to public history, based upon the relevant literature, research skills, and applied expertise in areas of professional concern. Available for MA, Public History Option students only; OR C.) Comprehensive Examination. Structured and supervised reading programs for MA candidates preparing for the History Comprehensive Examination.

Honors Program (HONR)

HONR 1. First Year Seminar: Education, Self-Examination, and Living. 3 Units

Prerequisite(s): Open only to Honors students.

General Education Area/Graduation Requirement: Understanding Personal Development (E)

Term Typically Offered: Fall, Spring

Introduction to comparative ideas of education and self-development. In writings from around the world, examines works on education, autobiographical accounts, and short stories to explore concepts of teaching, learning, human growth and development, and the role of the school and university in the realization of human potential.

HONR 2. Great Books and World Civilization I. 3 Units

Prerequisite(s): HONR 1 and instructor permission.

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall, Spring

Students read, discuss, and explore some of the most influential works of literature, philosophy, history, and religion from cultures around the world prior to the 15th century. Students will gain knowledge of different cultural traditions, explore ways to criticize and to learn from different genres of literature, examine their own concepts and ideas, and practice skills of critical thinking in dialogue with challenging works. Readings will be drawn from a broad array of sources, including Greek, Chinese, and Indian traditions, different religious faiths, and works of literature representing a variety of outlooks and views.

HONR 3. Great Books and World Civilization II. 3 Units

Prerequisite(s): HONR 2 and instructor permission.

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall, Spring

Students read, discuss, and explore some of the most influential works of literature, philosophy, history, and religion from cultures around the world from the 15th century to the present. Students will gain knowledge of different cultural traditions, explore ways to criticize and to learn from different genres of literature, examine their own concepts and ideas, and practice skills of critical thinking in dialogue with challenging works. Readings will be drawn from a broad array of sources, including Greek, Chinese, and Indian traditions, different religious faiths, and works of literature representing a variety of outlooks and views.

HONR 101. Science and the Public Good. 3 Units

General Education Area/Graduation Requirement: Further Studies in Area B (B5)

Term Typically Offered: Fall, Spring

This course examines how scientists employ information derived through the scientific method and statistical analyses to form conclusions. The methodology of science is applied to public policy debates relating to climate change, the use of DNA, Creationist/evolutionist issues, water conservation, land use zoning, energy, mineral resources, and other topics.

HONR 102. The Public Good Through the Visual and Performing Arts. 3 Units

Prerequisite(s): Upper division status in Honors Program; GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

This course explores the role of the visual and performing arts as a catalyzing and infinitely variable means of pursuing the public good. Students will engage with the artistic process as well as learn how works of art have successfully challenged ideological conventions and helped change social and political systems. Strategies of making art will be examined in the form of specific visual and performativity methodologies, the context of the artist, and the public perception of various art forms.

HONR 103. Civic Engagement, Service Learning: Pursuing the Public Good. 3 Units

Prerequisite(s): Must be admitted to Honors Program

Term Typically Offered: Fall, Spring

Students to be an active participant in his/her own learning process through a service learning experience and participation in a corresponding seminar. Students are offered a reciprocal opportunity to acquire knowledge and develop skills while providing service and assistance to the community. Students will have the opportunity to assess the circumstances of an organization and provide feedback on their situation. The student will evaluate and assess his/her service learning from three perspectives: the physical universe and its life forms, social issues and social science research, and the arts.

Note: An international experience can be substituted for a local service learning experience. See Honors Program Director for more information.

HONR 120. Honors One World Seminar. 3 Units

Prerequisite(s): Open to students in the Honors program and permission of the program director.

Seminar dedicated to exploring the One World theme for the university. Topic changes annually.

HONR 150. Leadership Seminar. 3 Units

Prerequisite(s): Open only to Honors students.

Term Typically Offered: Fall, Spring

Seminar dedicated to exploring the principles of effective leadership.

HONR 195. Community Fieldwork and Internship. 3 Units

Prerequisite(s): Open to students in the Honors Program with permission of the program director and advanced approval of project goal and objective.

Term Typically Offered: Fall, Spring

Supervised service-learning experience with a community partner. This experience focuses on application of the interdisciplinary approach of the General Education Honors Program while affording students direct, hands-on experiences.

Credit/No Credit

HONR 196. Honors Senior Thesis.**3 Units**

Prerequisite(s): Open to students in the Honors program with permission of the program director.

Honors research seminar in which students will complete a research paper in the discipline of their choice based on original research. Recommended for the student's final semester of study.

HONR 199. Special Problems.**1 - 3 Units**

Term Typically Offered: Fall, Spring

Open to students enrolled in the General Education Honors Program. Individual projects and directed reading for students who are competent to assume independent work. Requires approval of the Honors Program Director and Honors faculty member under whom the independent work is to be conducted.

How to Read Course Descriptions

The **bolded** first line begins with a capitalized abbreviation that designates the subject area followed by the course number and title. The unit value is also displayed. Icons, if displayed, designate courses which satisfy Writing Intensive # and Race & Ethnicity # requirements.

Prerequisite(s): Coursework to be completed and/or requirements required before taking the course.

Corequisite(s): Course(s) that must be taken in the same term.

General Education Area:

Indicates the graduation requirement area, if listed, which the course fulfills.

- American Institutions:
 - United States History
 - U.S. Constitution
 - California Government
- Race and Ethnicity
- Foreign Language
- Writing Intensive

Indicates the General Education (GE) area, if listed, which the course fulfills.

- A – Basic Subjects
 - A1 – Oral Communication
 - A2 – Written Communication
 - A3 – Critical Thinking
- B – Physical Universe and Its Life Forms
 - B1 – Physical Science
 - B2 – Life Forms
 - B3 – Lab
 - B4 – Mathematical Concepts and Quantitative Reasoning
 - B5 – Further Studies in Physical Science, Life Forms, and Quantitative Reasoning
- C – Arts and Humanities
 - C1 – Arts
 - C2 – Humanities
- D – The Individual and Society
- E – Understanding Personal Development

The **course description** outlines what topics are covered in the course. If included, **cross-listed** indicates the same course is offered in a different department/subject.

The **Note** indicates additional information regarding the course.

Credit/No Credit: Indicates if the course grading basis is not a letter grade.

Graded (CR/NC Available) indicates a course with a grading basis that is a letter grade where the student may choose a Credit/No Credit grading basis.

Human Resources/Organizational Behavior (HROB)

HROB 101. The Management of Contemporary Organizations. 3 Units

Term Typically Offered: Fall, Spring

Overview of managerial and organizational theory and practice, including a discussion of the contingencies that influence an organization's effectiveness and efficiency. Focus is on the decision making and problem-solving processes that affect managerial performance in planning, implementing, and controlling the work of contemporary organizations.

HROB 151. Management of Human Resources.**3 Units**

Term Typically Offered: Fall, Spring

Seminar covering contemporary processes and practices pertaining to the organization and management of personnel including employee selection, development, motivation, evaluation and remuneration, and union relations. Emphasis on the management of human resources in task oriented organizations. Instructional method provides for case method, laboratory exercises, and small group discussion.

HROB 152. Management Skills Seminar.**3 Units**

Prerequisite(s): HROB 101; HROB 151 recommended.

Term Typically Offered: Fall, Spring

Development of management awareness of the dynamics of organizational behavior. Emphasis on case discussions, small group action and role playing for the acquisition of knowledge and skills for effective managing and changing in an organization.

HROB 153. Employment Law.**3 Units**

Term Typically Offered: Fall, Spring

Provides students with an overview of the employment laws that impact and influence the workplace including laws regarding employment discrimination, disability discrimination and accommodation, employment leaves of absence, workplace harassment, employment torts and contracts, wage/hour regulations, employee privacy, intellectual property in the employment setting, and other emerging issues in employment law and personnel management. The impact of law on the management of human resources will be the focus of this class.

HROB 154. Strategic Human Resources Management. 3 Units
Prerequisite(s): HROB 151, HROB 152, HROB 153.
Term Typically Offered: Fall, Spring

The objective of this capstone course is to identify contemporary strategies to improve individual and organizational performance. Utilizes a strategic human resource management perspective and incorporate Human Resource Management and Organizational Behavior theories for practical implementation in organizations. Links such concepts as compensation, performance management, law, conflict management, communication, diversity, ethics, and managerial skill building towards preparing for the future of managing individuals in organizations.

HROB 155. Conflict Management and Negotiation. 3 Units
Term Typically Offered: Fall, Spring

Analyzes conflict in organizations, and strategies and processes for effective settlement or resolution of that conflict. Emphasis on the practical aspects of institutional and extra-institutional processes outside the conventional legal system. These dispute resolution methods include negotiation, mediation, arbitration and fair hearing. Students participate in a variety of exercises including simulated negotiations. Through these exercises students explore the basic theoretical models of bargaining and test and improve individual negotiation skills. Class format includes lecture, class discussion, simulation/role-play, expert guests and video demonstrations.

HROB 156. Current Trends and Emerging Issues. 3 Units
Term Typically Offered: Fall, Spring

Designed to provide an in-depth examination of current trends and emerging issues in human resources management and/or organizational behavior. Provides students the opportunity to better understand the latest people-related challenges organizations face. Instructional method provides for case method, group discussion, industry guest speakers, and classroom exercises.

HROB 157. Labor Relations. 3 Units
Term Typically Offered: Fall, Spring

Employer-employee relations in historical and contemporary contexts, with emphasis on the development of labor and management institutions and philosophies, public policies, collective bargaining, and contract administration in the private and public sectors.

HROB 158. Special Topics in Human Resource Management. 3 Units
Term Typically Offered: Fall, Spring

Designed to provide an in-depth examination of a current human resource management topic(s), from both a theoretical and practitioner perspective. Possible topics include, but are not limited to, outsourcing and staffing trends, merit-based performance and compensation plans, technology-based recruiting and selection practices, and innovations in training and career development. Instructional method provides for case method, group discussion, industry guest speakers, and classroom exercises.

HROB 159. Special Topics in Organizational Behavior. 3 Units
Term Typically Offered: Fall, Spring

Designed to provide an in-depth examination of a current organizational behavior topic(s), from both a theoretical and practitioner perspective. Topics include, but are not limited to, family-work relations, stress and burnout, workplace aggression, leadership and motivation, organizational politics and culture, attitudes and change, and organizational learning. Instructional method provides for case method, group discussion, industry guest speakers, and classroom exercises.

HROB 194. Cooperative Education Experiences in Human Resources Management. 6 - 12 Units
Prerequisite(s): HROB 151 and a minimum overall GPA of 2.5.
Term Typically Offered: Fall, Spring

In-depth supervised work experience in human resources management. This supervised work experience allows the student to become familiar with the practice of human resources management in businesses or governmental agencies.

Note: Open to all upper division students subject to permission of the Management Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Credit/No Credit

HROB 195. Internship in Human Resources Management. 3 Units
Prerequisite(s): Minimum Sacramento State GPA of 2.5 required.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental or service agencies for the purpose of increasing student understanding of the nature and scope of their operations. Supervision is provided by the faculty and the cooperating agencies. Open to upper division students, subject to permission of the Management Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Note: Open to declared business administration majors only.

Credit/No Credit

HROB 199. Special Problems in Human Resources Management. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work. Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.

Credit/No Credit

Humanities and Religious Studies (HRS)

HRS 4. Exploring World Religions. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring, Summer

Comparative inquiry into the nature of global religions, including Hinduism, Buddhism, Confucianism, Daoism, Judaism, Christianity, and Islam. Experiential, social, and material aspects of religions will be considered as well as beliefs and practices.

HRS 10. Arts and Ideas of the West: Ancient to Medieval. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Introduction to the literature, art, architecture, philosophy and history of the ancient and medieval West, with emphasis on classical Greece and Rome and the European Middle Ages.

HRS 11. Arts and Ideas of the West: Renaissance to Modern. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Introduction to the literature, art, architecture, music, philosophy, and history of the West from the Renaissance to the present.

HRS 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall only

Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills.

HRS 70. Arts and Ideas of Asia: Ancient to Medieval. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Introduction to the cultural history of ancient and early medieval Asia incorporating examples of art, literature, philosophy, and religion, providing a survey of China, India, and several other distinct cultures of the areas surrounding them—especially Japan.

HRS 71. Arts and Ideas of Asia: Medieval to Modern. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

Introduction to the cultural history of late medieval and modern Asia incorporating examples of art, literature, philosophy, and religion, providing a survey of China, India, and several other distinct cultures of the areas surrounding them—especially Japan.

HRS 105. Approaches to the Humanities. 3 Units
Prerequisite(s): HRS 10 and HRS 11 or instructor permission.
Term Typically Offered: Fall only

Advanced study of interdisciplinary methods applied to the arts, including literature, music and other modes of humanistic expression.

HRS 108. Approaches to Religious Studies. 3 Units
Term Typically Offered: Fall only

Exploration of the history and methodology of Religious Studies, including the analysis of several significant theories of the origin and function of religion. Methods and theories drawn from the disciplines of psychology, sociology, history, anthropology, philosophy and feminist studies.

HRS 113. The Culture of Classical Greece. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Examination of the Golden Age of Athens and the birth of Western humanism; studies in the classical ideals, tragedy, comedy, poetry, history, philosophy, art and architecture.

HRS 114. The Culture of Classical Rome. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

Study of Roman culture and its influence. Emphasis on art, architecture, literature, history, philosophy and religion of Rome from the early Republic to the end of the Western Empire.

HRS 115. Material Culture of Ancient Rome. 3 Units
Term Typically Offered: Fall, Spring

A focused study of ancient Roman culture as understood through investigation of materials artifacts, especially as found in archaeological sites and museum exhibits. The majority of course time will be spent in Rome and in Pompeii and other locations near Bay of Naples. Visits to archaeological sites and museums will be supplemented by readings of relevant texts and by ongoing discussion.

HRS 117. Paganism in the Roman World. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Survey of ancient Roman paganism, the wide variety of religious beliefs, practices, and institutions found throughout the Roman world. Topics include Greek influences, traditional religion, state and ruler cults, healing cults, oracles, astrology, mystery religions, priests and priestesses, prayer, sacrifice, and religious philosophies.

HRS 119. Classical Mythology. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring, Summer

Study of Greek and Roman myths and hero tales and their place in the arts and literature of Western civilization. Also provides an introduction to the general nature and function of myth.

HRS 120. Reason and Revelation: The Origins of Western Culture. 3 Units

Prerequisite(s): GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Study of the conflicting cultures that have shaped the social, religious and ethical perspectives of Western Culture. Readings in the Bible, Plato, Greek drama, the New Testament, and church fathers.

HRS 121. Introduction to the Hebrew Bible/Old Testament. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Survey of the historical narratives and other literature of the Bible, analysis of archeological evidence and introduction to the basic problems of textual criticism. Topics of study will include the origins and development of early Judaism and its interaction with surrounding cultures.

HRS 122. Introduction to the New Testament. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

Study of the New Testament literature in its historical and cultural setting. Topics covered include the literary relationships of the four Gospels, the historical Jesus, the evolution of early Christianity, and the diverse theologies represented in the letters of Paul and other canonical and non-canonical writings.

HRS 126. History of Christianity to the Reformation. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Christianity from Jesus to Martin Luther. Emphasis on the evolution of Christian thought and institutions and the relationship of the Church to popular culture and secular powers.
 Cross Listed: HIST 126; only one may be counted for credit.

HRS 127. History of Christianity Since the Reformation. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

European Christianity from the Reformation to the present. Emphasis on the evolution of Christian thought, the co-existence of the Catholic and Protestant traditions and the relationship of religious and secular values in European society.
 Cross Listed: HIST 127; only one may be counted for credit.

HRS 131. Medieval Culture. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Decline of Rome to the Renaissance. Emphasis on the cultural development of the West from the Germanic invasions until the advent of Humanism with attention to theology, art, architecture and literature to illustrate the dynamics of these diverse years.

HRS 132. Renaissance. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Spring only

Investigates the nature and implications of Renaissance Humanism in Italy (14th and 15th centuries) as well as its impact in Northern Europe in the 16th century. Includes the literary works of such writers as Petrarch, Pico, Machiavelli, Erasmus and Cervantes, along with the art of Giotto, Botticelli, Michelangelo, Brunelleschi, Cellini, Dufay, da Vinci, and the music of Palestrina.

HRS 134. Baroque and the Enlightenment. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Multi-faceted survey of the culture of Europe and North America in the Age of the Baroque and Enlightenment (1600-1792). Emphasizes literature, music, painting, architecture and ideas in France, Britain, Germany and Italy.

HRS 135. Romanticism and Revolution. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Interdisciplinary survey of the cultures of Europe and North America in the 19th century. Building on the Romantic aesthetic developed late in the 18th century. Considers the literature, music, painting and ideas of northern Europe and America until the 1900s.

HRS 136. Birth Of The Modern. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Investigation of those crises in art and society underlying the development of modernism and post-modernism.

HRS 137. Global Crossings: Art and Culture 1945 to Present. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Exploration of concepts and expressions of postmodernism and its emphasis on irony, citation, and the interconnectedness of politics, aesthetics, and philosophy across the disciplines (art, literature, architecture, film) and the continents (Europe, Asia, Africa, America and Latin America).

HRS 141. Introduction To Judaism. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Survey and analysis of the fundamental tenets of Judaism set within the context of the historical and intellectual development of the Jewish People.

HRS 142. Introduction to Christianity. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

Study of the beliefs, practices, institutions and history of the Christian religion. Emphasis on the Orthodox, Roman Catholic, and Protestant traditions and the relationship of Christianity to global cultures.

HRS 144. Introduction To Islam. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring, Summer

Survey of the Islamic way of life: its beliefs, traditions and practices from Quranic origins and the Sunna of the Prophet Muhammad. The historical development of Islamic law, religious sects, mysticism, and intellectual thought of the global Muslim community from medieval to contemporary times.

HRS 145. Introduction to Islamic Cultures. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

Survey of the expression of Islamic values in religious practice, philosophy, theology, art, architecture, music, and literature in different geographic locations and historical periods.

HRS 146. Islam in America. 3 Units
Term Typically Offered: Fall, Spring

An inquiry into the history and development of Islam in United States. Special emphasis will be placed on issues related to race, ethnicity, gender, ritual practice, and the politics of being Muslim in America.

HRS 147. History of Buddhism. 3 Units**General Education Area/Graduation Requirement:** Humanities (Area C2)**Term Typically Offered:** Fall, Spring

Examines in cultural and historical perspective, drawing on both ancient and contemporary sources, the key practices and ideas of Buddhist traditions in India, China, Southeast Asia, Tibet, Japan, and other surrounding regions; as well as the more recent spread of these practices and ideas to Europe, North America, and Australia.

Cross listed: HIST 147

HRS 148. African Arts and Cultures. 3 Units**General Education Area/Graduation Requirement:** Humanities (Area C2)**Term Typically Offered:** Fall, Spring

Survey of African cultural and artistic forms which explores the intersection of culture and the humanities in different African contexts—past and present. Emphasizes the cultural diversity of the African continent, and surveys how different cultural, ethical, aesthetic, and religious values are expressed in literature, visual art, music, architecture, and ritual. Focuses primarily on sub-Saharan Africa.

HRS 151. World Mythology. 3 Units**General Education Area/Graduation Requirement:** Humanities (Area C2)**Term Typically Offered:** Fall, Spring

Introduction to the nature and function of myth. The specific literature studied will be exclusive of classical mythology and because of the breadth of subject matter will vary in content. The mythology of at least four cultures will be covered each term.

HRS 152. Great Mystics of the World. 3 Units**General Education Area/Graduation Requirement:** Humanities (Area C2)**Term Typically Offered:** Fall, Spring

Examination of the meaning of mysticism as a "direct experience of ultimate reality" in the world's religions. The history, teachings, belief systems and scriptures of Hinduism, Buddhism, Daoism, Confucianism, Judaism, Christianity and Islam will be studied to illuminate the lives and works of each religion's great mystical thinkers.

HRS 154. Food, Farming, and the Sacred. 3 Units**General Education Area/Graduation Requirement:** Humanities (Area C2)**Term Typically Offered:** Fall, Spring

Examination of primary sources dealing with the sacred dimensions of food and farming in pre-modern and modern world cultures. Attention paid to sustainable, small-scale farming, and spiritual perspectives that promote and reinforce sustainable food practices. Interested students may receive one additional unit of credit for 20 hours of work with a local organization involved in farming and/or local food distribution through the Community Engagement Center and reflection assignments relating this work to course materials.

HRS 155. Spirit and Nature. 3 Units**General Education Area/Graduation Requirement:** Humanities (Area C2)**Term Typically Offered:** Fall, Spring

Comparative inquiry into the critical connection between religion and nature. Traditional views of selfhood, the sacred, morality and specific ecological issues, such as energy consumption will be examined through representative sources in world religions.

HRS 161. Multicultural America. 3 Units**General Education Area/Graduation Requirement:** Humanities (Area C2),

Race & Ethnicity Graduation Requirement (RE)

Term Typically Offered: Fall, Spring

Topically structured, interdisciplinary introduction to the cultural experiences of historically under-represented groups. Historical and contemporary events, as well as values and beliefs in American culture, are examined through various artistic expressions, such as music, painting and literature.

HRS 162. American Space and Identity. 3 Units**General Education Area/Graduation Requirement:** Humanities (Area C2)**Term Typically Offered:** Fall, Spring

Examination of the ways in which physical spaces within America contribute to the formation of American identities and vice versa. Interdisciplinary and topically organized, analyzes both exterior and interior spaces: city, suburb, regions, body, mind, and the borderlands, to name a few. Also studies the interaction of race, class, gender, and sexuality with space and identity.

HRS 168. Images Of America. 3 Units

Prerequisite(s): GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Race & Ethnicity Graduation Requirement (RE), Humanities (Area C2)

Term Typically Offered: Fall, Spring

Interdisciplinary survey of major events, trends and figures in American history viewed through the lenses of American literature, visual arts, music and architecture. The arts in America are studied in relation to major ideas, significant personalities and important historical events from the period of the early republic to the present.

Cross Listed: HIST 168; only one may be counted for credit.

HRS 169. Hollywood and America. 3 Units**General Education Area/Graduation Requirement:** Humanities (Area C2)**Term Typically Offered:** Fall, Spring

Chronological survey of American films and their cultural significance from the 1890s to the present. Focus on films produced in Hollywood, the contexts in which they were created and the impact of Hollywood as a geographical and mythical place in the development of American culture. Cross Listed: HIST 169; only one may be counted for credit.

HRS 170. The Religious Landscape of the Sacramento Valley. 3 Units

Prerequisite(s): GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

Introduction to the field study of religious communities. Addresses the nature of religious pluralism in the U.S. today. The practice and belief systems of at least five different religious communities will be studied each semester. Students are required to do an in-depth term project based on research in one or more religious communities

Cross Listed: ANTH 170; only one may be counted for credit.

HRS 171. Introduction to the East Asian World. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Comparative study of the cultural heritages of China and Japan through literature, art, religion, philosophy and history. East Asian modes of thinking and humanistic expressions will be identified and contrasted with those of the West.

HRS 172. The Classical Culture of China. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Introduction to classical Chinese culture through a survey of history, philosophy, religion, literature and art. The course identifies the uniqueness of Chinese culture as well as the common concerns it shares with other high cultures.

HRS 173. Chinese Philosophy and Religion. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Study of Chinese philosophic and religious ideas through representative works in English. The traditional Chinese views on human nature, society, politics, morality, and spirituality are examined. The Chinese transformation of Buddhism will also be discussed. The inner dynamics of traditional Chinese thought and its contemporary implications are explored.

HRS 174. Modern Japanese Literature and Culture. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Study of representative Japanese literature (in English translation) from the late Tokugawa through the modern period. Traditional Japanese values will be identified and Japan's journey toward modernity examined. Both the uniqueness of Japanese culture and common concerns among cultures will be explored.

HRS 175. Zen Buddhism and Daoism. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Mystical nature of Daoist and Zen teachings will be emphasized. The organic linkage between Daoism in China and Buddhism in India will be explored. The emergence of Zen as a quintessential representative of East Asian cultural and aesthetic values will be discussed.

HRS 176. The Confucian Tradition. 3 Units
Term Typically Offered: Fall, Spring

Study of the Confucian tradition as it unfolded in China and influenced China's East Asian Neighbors. Philosophical and religious dimensions, as well as the evolution and transformation of this uniquely Chinese tradition over time, will be studied. The Confucian influence on Chinese culture, philosophy, religion, literature, political structure and social organization will be identified and analyzed.

HRS 178. Religions of India. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

An introduction to the bewildering diversity of Indian religions, relating religious practices & ideas to broader cultural developments, including visual arts and literature. Focuses on the way Hindu, Buddhist, Jain and Sikh traditions address the concept of karma in distinctive ways, paying special attention to the way words and intentions are said to influence the consequences of a person's deeds.

HRS 178A. Religions of India I: The Formative Period. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Introduction to religious life on the Indian subcontinent during its ancient period, relating religious practices and ideas to broader cultural developments, including visual arts and literature.

HRS 179A. The Hindu Year: Fall. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

A survey of Hindu religious teachings, stories, and history, as expressed through the holy days and festivals celebrated each fall by Hindus throughout India and abroad, during which ideas, stories, and values are transmitted from one generation to the next. Examines the little understood and rarely discussed historical development behind each celebration, based on both ancient and contemporary sources, thereby revealing why Hindu ideas and history have remained compelling to Hindus for thousands of years.

HRS 179B. The Hindu Year: Spring. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

A Survey of Hindu religious teachings, stories, and history, as expressed through the holy days and festivals celebrated each spring and summer by Hindus throughout India and abroad, during which ideas, stories, and values are transmitted from one generation to the next. Examines the little understood and rarely discussed historical development behind each celebration, based on both ancient and contemporary sources, thereby revealing why Hindu ideas and history have remained compelling to Hindus for thousands of years.

HRS 180. The Film. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Introduction to the aesthetics of cinema with special attention to the evolution of critical theories of cinema within the framework of twentieth century arts and ideas.

HRS 181. Contemporary Issues in Film. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Examination of contemporary film and film criticism from an interdisciplinary perspective, stressing the links between film, literature, the visual arts and society.

HRS 183. World Religions and Cultures in Cinema. 3 Units**General Education Area/Graduation Requirement:** Humanities (Area C2)**Term Typically Offered:** Summer only

Examination of the religious and spiritual dimensions of selected films from around the world. The cinematic arts are examined in relationship to religious and spiritual concerns, concepts, and values.

HRS 185. Women in Film and American Culture. 3 Units**General Education Area/Graduation Requirement:** GE AREA D**Term Typically Offered:** Fall, Spring

Study of major social issues confronting American women, examined through their images in film and other visual and literary arts.

HRS 188. Fantasy and Romance. 3 Units**General Education Area/Graduation Requirement:** Humanities (Area C2)**Term Typically Offered:** Fall, Spring

Exploration of the aesthetic of fantasy. Approaches may include emphasis on the historical development of the quest-romance or the use of the fantastic as social commentary. Particular genres, such as science fiction, may be explored.

HRS 190B. Seminar in HRS: The Body. 3 Units**Prerequisite(s):** Completion of 9 units of lower division core courses and eligibility for WI classes based on WPJ placement score or passage of the appropriate prerequisite; HRS major or minors only.**Term Typically Offered:** Fall, Spring

Seminar for Humanities and Religious Studies majors. Examines cultural constructions of the body through analysis of art and literature and through the insights of media studies, cultural studies, sociological, psychology, and anthropology.

Cross listed: HRS 290B

HRS 190C. Seminar in HRS: Many Realities of Consciousness. 3 Units**Prerequisite(s):** Completion of 9 units of lower division core courses and eligibility for WI classes based on WPJ placement score or passage of the appropriate prerequisite; HRS major or minors only**Term Typically Offered:** Fall, Spring

Seminar for Humanities and Religious Studies majors. Examines philosophies and theories of perception as applied to cultures, religious traditions, nature, film and literature. Investigates consciousness through examination of the subjectivity of human perception.

Cross listed: HRS 290C

HRS 190D. Seminar in HRS: Death and Afterlife. 3 Units**Prerequisite(s):** Must be HRS major or minor; Completion of 9 units of HRS lower division courses; Completion of the GEAR.**Term Typically Offered:** Fall, Spring

Seminar for Humanities and Religious Studies majors. Examines myths, theories, and perceptions of death and afterlife in cross-cultural and historical perspective through analysis of literature, the visual arts, and music.

Cross listed: HRS 290D

HRS 190H. Seminar in HRS: The Hero. 3 Units**Prerequisite(s):** Completion of 9 units of lower division core courses and eligibility for WI classes based on WPJ placement score or passage of the appropriate prerequisite; HRS major or minors only**Term Typically Offered:** Fall, Spring

Seminar for Humanities and Religious Studies. Examines the hero in cross-cultural and historical perspective through analysis of visual artifacts, literature, history, philosophy, music and film.

Cross listed: HRS 290H

HRS 190M. Saints, Relics, and Miracles in Late Antique and Medieval Europe. 3 Units**Prerequisite(s):** Student must complete 9 units of lower division core courses and be eligible for WI classes based on WPJ placement score or passage of the appropriate prerequisite**Term Typically Offered:** Fall, Spring

Seminar in Humanities and Religious Studies majors. Examines the role of the body in the creation of saints' cults in medieval Europe through analysis of literature and art. Considers how the idea of martyrdom set the terms for an ideal Christian life and explores the role relics, pilgrimage and miracle stories played in medieval society.

Cross Listed: HRS 290M

HRS 195. Seminar in Humanities. 3 Units**Prerequisite(s):** Completion of 12 units of HRS lower division core courses, HRS 105, senior status; or instructor permission.**Term Typically Offered:** Spring only

Senior seminar for Humanities and Religious Studies majors with Humanities Concentration; focuses on the perspectives and methods of the academic study of the humanities. Topics chosen by the instructor.

Note: May be repeated once for credit.**HRS 196. Experimental Offerings in Humanities and Religious Studies. 3 Units****Prerequisite(s):** Instructor permission.**Term Typically Offered:** Fall, Spring

Special experimental course on specific themes, figures, or topic areas.

Note: May be taken twice for credit if topic differs.

Credit/No Credit

HRS 198. Seminar in Religious Studies. 3 Units**Prerequisite(s):** Completion of 9 units of HRS lower division core courses, HRS 108, senior status; or instructor permission.**Term Typically Offered:** Spring only

Senior seminar for Humanities and Religious Studies majors with Religious Studies Concentration; focuses on the perspectives and methods of the academic study of religion. Topics chosen by the instructor.

Note: May be repeated once for credit.**HRS 199. Special Problems. 1 - 3 Units****Term Typically Offered:** Fall, Spring

Tutorial-reading course involving independent research. Topic and research method to be decided upon jointly by student and instructor.

Note: May be repeated for credit.

HRS 200A. Culture and Expression: Prehistory to the Middle Ages.**3 Units****Prerequisite(s):** Must be a HRS major or minor**Term Typically Offered:** Fall, Spring

Interdisciplinary seminar on cultural movements, figures, and art forms of eras from prehistory to the European Middle Ages. Focus on the West with some global comparison. Emphasis on theoretical perspectives, methods, and research techniques germane to the humanities.

HRS 200B. Culture and Expression: Renaissance to the Present.**3 Units****Prerequisite(s):** Must be a HRS major or minor**Term Typically Offered:** Fall, Spring

Interdisciplinary seminar on cultural movements, figures and art forms of eras from the Renaissance to the present. Focus on the West with some global comparison. Emphasis on theoretical perspectives, methods and research techniques germane to the liberal arts.

HRS 202. Western Aesthetics: Traditions and Revision.**3 Units****Prerequisite(s):** Graduate standing.**Term Typically Offered:** Fall, Spring

Introduction to critical methodologies in the Humanities and to techniques of formal analysis as applied to specific eras and artworks in Western cultural history.

HRS 205. Space and Time.**3 Units****Prerequisite(s):** 6 units in philosophy or instructor permission.**Term Typically Offered:** Fall, Spring

Introduction to significant philosophical issues involving space and time. An investigation into the current state of these issues.

Note: No background or work in mathematics or physics is required.

Cross-listed: PHIL 192D; only one may be counted for credit.

HRS 209. Versions of the Self in Western Literature and the Arts.**3 Units****Term Typically Offered:** Fall, Spring

Traces the stages through which the concept of the "self" emerges in Western literature, philosophy and the arts, from Antiquity to the 20th Century. Focus is on the transformation of moral identity as the West moves from a divinely ordered cosmos to a relativized universe.

HRS 210. Gender and Religion in Cross-Cultural Perspective.**3 Units****Term Typically Offered:** Fall, Spring

Exploration of the relationships and roles of women and men in the context of religious life. May focus extensively on one or more particular religious traditions cross-culturally, or draw on a wider spectrum of examples. Special attention paid to the complementary nature of men's and women's roles in many religious traditions; and also the way that male perspectives have dominated many areas of formal religious discourse, noting the dissenting voices of women often hidden in more informal types of expression.

Cross Listed: LIBA 210; only one may be counted for credit.

HRS 213. Ancient Greek Culture.**3 Units****Term Typically Offered:** Fall, Spring

A graduate-level survey of ancient Greek culture. Emphasis on social and private life, religion, historiography, literature, philosophy, drama, art, and architecture.

HRS 214. Ancient Roman Culture.**3 Units****Term Typically Offered:** Fall, Spring

A graduate-level survey of Roman culture. Emphasis on social and private life, religion, historiography, literature, philosophy, drama, art, and architecture.

HRS 216. Historical Reflections on the American Dream.**3 Units****Term Typically Offered:** Fall, Spring

Multicultural exploration of how our nation's history has been constructed, experienced, told and valued from varying ethno-cultural points of view, including each student's personal history.

HRS 217. Ordinary America.**3 Units****Term Typically Offered:** Fall, Spring

Inquiry into the issues, theories, and methods associated with popular and material culture studies in order to provide students with insights into the past and present nature of American experience. Intended to be an exploration of the ways in which popular and material culture both reflect and contribute to the search for meaning in everyday life.

HRS 220. Seminar in Religious Studies.**3 Units****Term Typically Offered:** Fall, Spring

Designed to offer a variety of topics in the study of religion. Seminar presents a rotating series of subjects ranging from ancient religious literature to contemporary religious problems.

HRS 222. Evolving Concepts of God: Portrait of Deity in Monotheistic Religions.**3 Units****Term Typically Offered:** Fall, Spring

Seminar traces the historical origin and cultural evolution of the God concept in monotheistic religions. Topics include the archaeological record of humanity's earliest religious artifacts, evidence for the prehistoric worship of the "Great Goddess" figure, an examination of the polytheistic religions of the ancient Near East and their influence on the development of monotheism. Analyzes the evolving portrait of the Deity in the Hebrew Bible (Old Testament), the New Testament, and the Koran.

HRS 224. Religions of the Roman Empire.**3 Units****Term Typically Offered:** Fall, Spring

Survey of the major religious beliefs and practices in the Greco-Roman world from 100B.C.E. -- 400C.E. Topics include traditional Greek and Roman religions, healing cults, philosophical religion and Gnosticism.

HRS 226. Wisdom and Apocalyptic Literature.**3 Units****Prerequisite(s):** LIBA 200A or graduate status in History or instructor permission.**Term Typically Offered:** Fall, Spring

Examines two of the more creative literary genres that make up the canonical and deuterocanonical literature of the Jewish and Christian bibles. Both the historical and theological underpinnings of wisdom and apocalyptic writing will be explored in-depth, with some consideration given to literary analogues in Egyptian, Mesopotamian and Greek culture. Significant research into wisdom and apocalyptic writings outside of the testamental framework required.

Cross Listed: LIBA 226; only one may be counted for credit.

- HRS 228. Early Christian Literature.** **3 Units**
Term Typically Offered: Fall, Spring
- Survey of the major genres of Christian literature in the first three centuries CE and their relationship to the development of Christian thought and institutions. Topics include the New Testament; Jewish-Christian literature; Gnostic Christian literature; apocryphal gospels, acts, epistles, and apocalypses; polemical literature; lives of saints; and canons and creeds produced by early church councils.
- HRS 234. The Gothic Spirit.** **3 Units**
Term Typically Offered: Fall, Spring
- Arts and ideas of the twelfth and thirteenth centuries in Western Europe, structured according to the principle of the "reconciliation of opposites." The Gothic period sees such opposites as faith and reason, vertical and horizontal (in architecture), counterpoint brought into harmony (in music). The period culminates in Dante's masterpiece, the Divine Comedy, which exhibits the reconciliation of opposites in such sets as female/male, faith/reason, human/divine, beauty/horror, and chaos/harmony.
- HRS 235. Transcendence & Transgression in the Romantic Period.** **3 Units**
Term Typically Offered: Fall, Spring
- Interdisciplinary study of Romanticism and other literary, philosophical, and artistic movements of the 18th and 19th centuries. Topics will vary from term to term.
- HRS 236. Modernism: Contingent Realities of Self and World.** **3 Units**
Prerequisite(s): Graduate standing or instructor permission.
Term Typically Offered: Fall, Spring
- Interdisciplinary studies in the arts of the modern era.
- HRS 237. Global Citizenship and Culture.** **3 Units**
Term Typically Offered: Fall, Spring
- This seminar is an exploration of how "the global" is conceptualized in an age with competing notions of the individual and the community. Special emphasis will be placed on race, class, ethnicity & gender to elucidate the many paths that thought, language, and identity take when traversing borders.
- HRS 290B. Seminar in HRS: The Body.** **3 Units**
Prerequisite(s): Must be an HRS major or minor; Completion of 9 units of HRS lower division core courses and eligibility for WI classes based on WPJ placement score or passage of the appropriate prerequisite
Term Typically Offered: Fall, Spring
- Seminar for graduate students studying in the Department of Humanities and Religious Studies. Examines cultural constructions of the body through analysis of art and literature and through the insights of media studies, cultural studies, sociology, psychology, and anthropology.
 Cross listed: HRS 190B
- HRS 290C. Seminar in HRS: The Many Realities of Consciousness.** **3 Units**
Prerequisite(s): Must be an HRS major or minor; Completion of 9 units of HRS lower division core courses and eligibility for WI classes based on WPJ placement score or passage of the appropriate prerequisite
Term Typically Offered: Fall, Spring
- Seminar for graduate students studying in the Department of Humanities and Religious Studies. Examines philosophies and theories of perception as applied to cultures, religious traditions, nature, film and literature. Investigates consciousness through examination of the subjectivity of human perception.
 Cross listed: HRS 190C
- HRS 290D. Seminar in HRS: Death & Afterlife.** **3 Units**
Prerequisite(s): Must be HRS major or minor; Completion of 9 units of HRS lower division courses; Completion of the WPJ.
Term Typically Offered: Fall, Spring
- Seminar for graduate students studying in the Department of Humanities and Religious Studies. Examines myths, theories, and perceptions of death and afterlife in cross-cultural and historical perspective through analysis of literature, the visual arts, and music.
 Cross listed: HRS 190D
- HRS 290H. Seminar in HRS: The Hero.** **3 Units**
Prerequisite(s): Completion of 9 units of HRS lower division core courses and eligibility for WI classes based on the WPJ placement score or passage of the appropriate prerequisite
Term Typically Offered: Fall, Spring
- Seminar for graduate students studying in the Department of Humanities and Religious Studies. Examines the hero in cross-cultural and historical perspective through analysis of visual artifacts, literature, history, philosophy, music and film.
 Cross listed: HRS 190H
- HRS 290M. Saints, Relics, and Miracles in Late Antique and Medieval Europe.** **3 Units**
Prerequisite(s): Completion of 9 units of lower division core courses and eligibility for WI classes based on WPJ placement score or passage of the appropriate prerequisite; HRS majors or minors only.
 Seminar for graduate students in Department of Humanities and Religious Studies. Examines the role of the body in the creation of saints' cults in medieval Europe through analysis of literature and art. Considers how the idea of martyrdom set the terms for an ideal Christian life and explores the role relics, pilgrimage and miracle stories played in medieval society.
 Cross Listed: HRS 190M
- HRS 296. Experimental Offerings in Humanities & Religious Studies.** **3 Units**
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
- Special graduate-level experimental course on specific themes, figures or topic areas. Scheduled as needed.
Note: May be taken twice for credit if topic differs.

HRS 299. Special Problems. 1 - 3 Units

Prerequisite(s): Approval of the faculty member under whom the work is to be conducted and of the department's Graduate Advisor.

Term Typically Offered: Fall, Spring

Graduate level tutorial-reading course involving independent research. Topic and research method to be decided upon jointly by student and instructor.

HRS 500. Culminating Experience. 3 Units

Prerequisite(s): Advanced to candidacy and permission of the Graduate Coordinator.

Term Typically Offered: Fall, Spring

Completion of a thesis or comprehensive examination.

Interdisciplinary Studies (ID)

ID 21. First Year Seminar: Becoming an Educated Person. 3 Units

General Education Area/Graduation Requirement: Understanding Personal Development (E)

Term Typically Offered: Fall, Spring

Introduction to the nature and possible meanings of higher education, and the functions and resources of the university. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Provides students with the opportunity to interact with fellow classmates and the seminar leader to build community of academic support and personal support.

ID 22. Contemporary Issues and Social Change. 3 Units

Prerequisite(s): ETHN 21

Generation after generation, university students have been key constituents in movements for social change. From public demonstrations to research studies, colleges and universities afford countless opportunities for students to advocate for a better world. This course explores how students can utilize university resources to explore interests and concerns, hone academic skills, and contribute to social change.

ID 96I. Experimental Offerings in Interdisciplinary Studies. 1 - 3 Units

Prerequisite(s): Instructor permission.

Term Typically Offered: Fall, Spring

Opportunity for consideration of topics that cross disciplinary boundaries. Content will vary depending on the needs of students and interests of faculty.

ID 99. Special Problems. 1 - 4 Units

Term Typically Offered: Fall, Spring

Individualized directed projects or reading. Open to lower division students who present an adequately supervised plan of study. The course study should be interdisciplinary in nature and requires the approval of the faculty member under whom the individual work is to be conducted and of the Dean of the College of Social Sciences and Interdisciplinary Studies.

Credit/No Credit

ID 124. Social Justice in Interdisciplinary Perspective. 3 Units

Prerequisite(s): Sophomore standing or instructor permission.

Term Typically Offered: Fall, Spring

Examines the nature and forms of social justice and injustice. Addresses key philosophical and theoretical models and debates over the meaning of social justice, using historical and contemporary examples to highlight important concepts and controversies. Faculty from different departments within SSIS, and occasionally from other colleges, will address how their discipline understands and analyzes issues of social justice. Students will be encouraged to critically assess the assumptions of various perspectives on social justice, and to address the relationship of academe and social activism in achieving social justice. Cross-listed: ANTH 130, ENVS 124, ETHN 124, FACS 124 and SOC 124. Only one may be counted for credit.

ID 194. Experiential Learning. 1 - 6 Units

Term Typically Offered: Fall, Spring

Re-entry students may earn 1-6 units by documenting their interdisciplinary life/work experiences that meet the objectives of upper division university course work for an appropriate faculty member to evaluate. Approval of credit is granted by the Dean of the College of Social Sciences and Interdisciplinary Studies. Students must attend a workshop scheduled through the Academic Advising Center during the semester prior to registering for the course. Credit must be awarded prior to applying for graduation. Credit/No Credit

ID 195. Field Experience. 1 - 6 Units

Term Typically Offered: Fall, Spring

Supervised work experience of an interdisciplinary nature in an approved business, education, government or service agency. Students are required to engage in a minimum of three hours of supervised work per week for each semester unit of credit granted.

Note: May be repeated for credit up to a total of 6 units.

Credit/No Credit

ID 195A. Introductory Field Experience in Peer Health Education. 2 - 3 Units

Term Typically Offered: Fall, Spring

Hands-on experience working in Student Health and Counseling Services' Health and Wellness Promotion department. Instruction covers basic theory and practice of peer health education. Under supervision, students function as Peer Health Educators, providing peer outreach and education on key college health issues. Students complete 2-3 units per semester. Participants are expected to commit to both ID 195A and ID 195B, for up to 6 units of total credit.

Credit/No Credit

ID 195B. Intermediate Field Experience in Peer Health Education.**2 - 3 Units****Prerequisite(s):** ID 195A and instructor permission.**Term Typically Offered:** Fall, Spring

Continued hands-on experience working in Student Health and Counseling Services' Health and Wellness Promotion department. Instruction covers intermediate theory and practice of peer health education. Under supervision, students function as Peer Health Educators, providing peer outreach and education on key college health issues. Students complete 2-3 units per semester. Participants are expected to commit to both ID 195A and ID 1958, for up to 6 units of credit total.

Credit/No Credit

ID 195C. Advanced Field Experience in Peer Health Education.**1 - 2 Units****Prerequisite(s):** ID 195A, ID 195B, and instructor permission.**Term Typically Offered:** Fall, Spring

Further explores the theory and practice of peer education while building advanced leadership skills. Includes both academic and experiential aspects, allowing students to develop a deeper understanding of key college health issues, presentation skills, and program planning. Students serve as mentors and assistant trainers to Peer Health Educators, plan and implement campus events, and present classes to peer groups on campus.

Credit/No Credit

ID 196. Advanced Experimental Offerings in Interdisciplinary Studies.**1 - 3 Units****Prerequisite(s):** Instructor permission.**Term Typically Offered:** Fall, Spring

Opportunity for in-depth consideration of topics that cross disciplinary boundaries. Content will vary on the needs of the students and interests of faculty.

ID 197. Training and Leadership for Orientation Leaders.**3 Units****Term Typically Offered:** Fall, Spring

Introduce participants to concepts in peer advising and orientation at Sacramento State. Students will learn about the philosophy and purpose of orientation, academic policies, student services and campus facilities. Class activities are planned to help develop the leadership, interpersonal and communication skills necessary to be an effective peer adviser and campus representative.

Note: May be repeated for credit up to 6 units.

Credit/No Credit

ID 199. Special Problems.**1 - 6 Units****Term Typically Offered:** Fall, Spring

Individual projects or directed reading. Open only to students who appear competent to carry on individual work. Generally will involve two or more of the major academic administrative units of the university. Admission requires the approval of the faculty member under whom the individual work is to be conducted and of the Dean of the College of Social Sciences and Interdisciplinary Studies.

Credit/No Credit

ID 200. Interdisciplinary Reading Seminar.**1 - 6 Units****Term Typically Offered:** Fall, Spring

Readings in selected interdisciplinary topics. May be taken twice for credit.

ID 201. Interdisciplinary Research Seminar.**1 - 6 Units****Term Typically Offered:** Fall, Spring

Research in selected interdisciplinary topics. May be taken twice for credit.

ID 296A. Grant Writing and Management.**3 Units****Prerequisite(s):** Instructor permission.**Term Typically Offered:** Fall, Spring

Designed to provide an understanding of the grant seeking and management process. Seeks to acquaint students with the processes for designing, submitting and managing successful grant funding projects.

Credit/No Credit

ID 299. Special Problems.**1 - 4 Units****Term Typically Offered:** Fall, Spring

Individual projects or directed reading. Generally involves two or more of the major academic units of the university.

Note: Departmental petition required.

Credit/No Credit

ID 500. Culminating Experience.**3 Units****Term Typically Offered:** Fall, Spring

Completion of the Thesis or Project approved for the Master's degree.

Note: Advanced to candidacy for the Special Major Master's degree.

Interior Design (INTD)

INTD 15. Introduction to Interior Design.**3 Units****General Education Area/Graduation Requirement:** Arts (Area C1)**Term Typically Offered:** Fall, Spring

Introduction to the field of interior design. Consideration of human factors, aesthetics, design process, furnishings, surface treatments, and current issues. Lecture, discussions, field trips, two hours.

Field trip(s) may be required.

INTD 20. Design.**3 Units****General Education Area/Graduation Requirement:** Arts (Area C1)**Term Typically Offered:** Spring only

Examination of the visual arts as expressed in architecture and interiors, community planning, painting and sculpture, furniture, ceramics, graphics, photography, clothing, and industrial design. Lecture, discussion.

INTD 25. Design Fundamentals.**3 Units****Term Typically Offered:** Fall, Spring

Introduction to designing interior spaces. Emphasis on the manipulation and understanding of two- and three-dimensional elements of interior spatial design. Fundamentals of visual communication strategies. Studio activity six hours.

- INTD 27. Introduction to Interior Architecture Studio.** **3 Units**
Prerequisite(s): INTD 25 Fee course.
Term Typically Offered: Fall, Spring
- Exploration of design and space planning fundamentals and their use in creating architectural interiors. Students will communicate designs through two- and three dimensional drawings and models.
 Fee course.
- INTD 30. Introduction to Computer Aided Design.** **3 Units**
Prerequisite(s): INTD 25 or concurrent registration in INTD 25 is permissible if student has completed either GPHD 25 or PHOT 11.
Term Typically Offered: Fall, Spring
- Introduction to the principles and techniques of architectural drafting. Through a series of exercises, students will learn digital drafting techniques commonly used to generate floor plans, sections, elevations, and axonometrics. Through a series of design problems, students will also be introduced to basic space planning concepts and vocabulary. Emphasis will be on CAD drawing skills and conventions, CAD vocabulary, and CAD document management procedures.
- INTD 123. Survey of Western Architecture and Interiors.** **3 Units**
Term Typically Offered: Fall only
- Survey of European and American buildings, interiors, furniture and decorative arts from the stone age through the twentieth century. We will look at individual works as representative of trends in design history and as reflections of broad cultural forces: economic, political, etc.
- INTD 124A. American Design.** **3 Units**
Term Typically Offered: Fall only
- Survey of high-style and vernacular buildings, interiors, and decorative arts from the 17th century to the beginning of World War I. Analyzes European, Asian, Hispanic/Latino/Chicano and other background sources of inspiration and influence. Lecture-discussion.
- INTD 124D. Principles of House Design.** **3 Units**
Term Typically Offered: Spring only
- Introduction to some of the major architectural movements of the 20th Century; discussion of environmental concerns as they relate to house design; study of basic principles in planning a house. Lecture, discussion, field trip.
 Field trip(s) may be required.
- INTD 124E. Film/Design.** **3 Units**
Term Typically Offered: Spring only
- Students will explore design approaches that give films a feeling of suspense, create a sense of place, or establish a period in time. This course will increase student awareness of space in filmmaking, and demonstrate that spatial organization plays a key role in the aesthetic success of a motion picture.
- INTD 124F. Avant Garde Cinema.** **3 Units**
Prerequisite(s): ENGL 97 or PHOT 102.
Term Typically Offered: Spring only
- Survey of experimental film from the beginning of the cinema in the 1890s through today's' avant garde. Emphasis filmmaking as a means of personal, artistic expression, and will pay particular attention to those aspects of cinema that are typically ignored or marginalized in mainstream Hollywood movies. Films studied include those by: Melies, Porter, Richter, Leger, Cornell, Deren, Brackhage, Jacobs and Gehr.
 Cross listed: FILM 124F.
- INTD 125. Urban Design and Society.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- A history of urban design from Ancient Greece through today. The course will look at the conceptualizing, planning and development of cities through two distinct lenses: one focusing on visual and physical qualities, the other on how urban planning has been used to promote social/ economic policy, political ideologies and institutions. Lecture, discussion.
 3 units . GE Area D.
- INTD 151. Interior Design Graphics I.** **3 Units**
Prerequisite(s): Grade "C" or better in each of the following courses: INTD 25, INTD 30, GPHD 10, GPHD 25, and PHOT 11
Corequisite(s): INTD 153 and either INTD 155 or INTD 165
Term Typically Offered: Fall, Spring
- Emphasis will be on developing perspective and rendering capabilities, as well as on developing techniques for the execution of furniture, fabric, and color boards. Studio activity six hours.
- INTD 153. Interior Design Studio I.** **3 Units**
Prerequisite(s): Grade "C" or better in each of the following courses: INTD 25, INTD 30, GPHD 10, GPHD 25, PHOT 11
Corequisite(s): INTD 151 and either INTD 155 or INTD 165
Term Typically Offered: Fall, Spring
- Introductory studio course with emphasis on understanding functional and formal elements of architectural interiors. Students will communicate designs through two- and three dimensional drawings and models. Studio activity six hours.
- INTD 155. Professional Practice I.** **3 Units**
Prerequisite(s): INTD 15 and INTD 30.
Term Typically Offered: Fall only
- Study of the concepts and the analysis of technical and aesthetic applications of lighting design in both residential and commercial interiors. Lecture, discussion, field trips.
 Field trip(s) may be required.
- INTD 161. Interior Design Graphics II.** **3 Units**
Prerequisite(s): Grade "C" or better in each of the following courses: INTD 151, INTD 153 and either INTD 155 or INTD 165.
Corequisite(s): INTD 163 and either INTD 155 or INTD 165.
Term Typically Offered: Fall, Spring
- Continuation of the principles and techniques used in INTD 30. Students will be introduced to the different presentation types that are utilized including CAD as a 2D rendering and presentation tool. Emphasis will be on file setup, composition and layout of projects within the schematic design, design development, and construction document phases of design. Assignments will demonstrate typical design applications commonly used in the interior design/architecture professions including systems furniture planning and tenant improvement. Studio activity six hours.

INTD 163. Interior Design Studio II. 3 Units**Prerequisite(s):** Grade "C" or better in each of the following courses:

INTD 151, INTD 153 and either INTD 155 or INTD 165.

Corequisite(s): INTD 161 and either INTD 155 or INTD 165.**Term Typically Offered:** Fall, Spring

An intermediate studio course where students continue to develop their understanding of functional and formal elements of architectural interiors. Students will communicate designs through two- and three-dimensional drawings and models. Studio activity six hours.

INTD 165. Professional Practice II. 3 Units**Prerequisite(s):** INTD 15 and INTD 30.**Term Typically Offered:** Spring only

Development of selection criteria for interior finishes based on material properties, cost and availability. An introduction to non-structural interior construction including wood and light gauge steel systems will be studied. Additional topics will include MEP systems, ceiling systems, and casework. Lecture/field trips.

Field trip(s) may be required.

INTD 171. Interior Design Graphics III. 3 Units**Prerequisite(s):** Grade "C" or better in each of the following courses:

INTD 161, INTD 163 and INTD 165.

Corequisite(s): INTD 173 and either INTD 175 or INTD 195.**Term Typically Offered:** Fall, Spring

Continuation of the principals and techniques used in INTD 30 and INTD 161. Students will become familiar with the basic vocabulary and concepts of three-dimensional modeling. Students will be introduced to three different modeling techniques - wireframe, surface and solid. Emphasis will be on the construction of 3D CAD models as a means for quickly generating design alternatives. Topics include 3D modeling concepts and techniques, the behavior of materials with light, material characteristics and textures, and computer rendering output methods. Studio activity six hours.

INTD 173. Interior Design Studio III. 3 Units**Prerequisite(s):** Grade "C" or better in each of the following courses:

INTD 161, INTD 163 and INTD 165.

Corequisite(s): INTD 171 and either INTD 175 or INTD 195.**Term Typically Offered:** Fall, Spring

Advanced studio course where students continue to develop their understanding of functional and formal elements of architectural interiors. Students will communicate designs through two- and three-dimensional drawings and models. Studio activity six hours.

INTD 175. Professional Practice III. 3 Units**Prerequisite(s):** Grade "C" or better in each of the following courses:

INTD 161, INTD 163 and INTD 165.

Term Typically Offered: Fall only

Study of the professional role of the interior designer in relation to that of the client, contractor and consultants. Legal and ethical issues are explored. Building codes, life-safety codes and ADA requirements are studied with emphasis on permit and plan-check requirements. Preparation for the NCIDQ exam and certification procedures are covered.

INTD 181. Interior Design Graphics IV. 3 Units**Prerequisite(s):** Grade "C" or better in each of the following courses:

INTD 171, INTD 173 and either INTD 175 or INTD 195.

Corequisite(s): INTD 183 and either INTD 175 or INTD 195.**Term Typically Offered:** Fall, Spring

Interdisciplinary approach to prepare students for professional practice in the field of Interior Design. Student will be expected to complete a comprehensive portfolio of work.

INTD 183. Interior Design Studio IV. 3 Units**Prerequisite(s):** Grade "C" or better in each of the following courses:

INTD 171, INTD 173 and either INTD 175 or INTD 195.

Corequisite(s): INTD 181 and either INTD 175 or INTD 195.**Term Typically Offered:** Fall, Spring

Thesis studio in which students research and develop individual design projects. Students will draw upon knowledge and skills from previous coursework to create solutions to complex design problems. Projects are completed with assistance from instructor, client and working professionals. Students are required to submit a design proposal for instructor approval in the Fall. Studio activity six hours.

INTD 195. Professional Practice IV-Internship. 3 Units**Prerequisite(s):** Grade "C" or better in each of the following courses:

INTD 161, INTD 163, INTD 165.

Term Typically Offered: Fall, Spring

Direct work experience in approved architecture, design, corporate, private or government office. Supervision is provided by both the instructional staff and the cooperating agency.

Credit/No Credit

INTD 199. Special Problems. 1 - 3 Units**Term Typically Offered:** Fall, Spring

Individual projects or directed reading.

Note: Departmental petition required.

Credit/No Credit

INTD 295. Field Study. 1 - 3 Units**Prerequisite(s):** Undergraduate major or minor in Interior Design, individual arrangement with instructor.**Term Typically Offered:** Fall, Spring

Guided study, observation or work experience in an area in which the graduate student needs advanced and specialized study.

Credit/No Credit

International Business (IBUS)

IBUS 180. Sustainability Business in Global Economy. 3 Units**Term Typically Offered:** Fall, Spring

Introduces students to the emerging field of sustainability in business and the growing focus on the social, environmental, and economic performance of businesses in global economy. The course presents scientific, moral, and business cases for adopting sustainability.

IBUS 190. International Business. 3 Units**Term Typically Offered:** Fall, Spring, Summer

Analyzes international business: foreign markets; export-import trade; licensing agreements; foreign exchange problems; role of the multinational firm; intergovernmental trade agreements; balance of payments; decision making in foreign environments.

IBUS 195. Internship in International Business. 3 Units
Prerequisite(s): Minimum Sacramento State GPA of 2.5.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental or service agencies for the purpose of increasing student understanding of the nature and scope of their operations. Supervision is provided by the faculty and the cooperating agencies.

Note: Open to upper division students, subject to permission of the Management Area. Open to declared business administration majors only. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Credit/No Credit

IBUS 199. Special Problems in International Business. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.

Note: Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Center, Tahoe 1030.

Credit/No Credit

International Masters in Business Administration (IMBA)

IMBA 210. Managerial Accounting. 3 Units
Term Typically Offered: Fall, Spring

A consistent emphasis on managerial accounting and reporting is cost identification, allocation and control. This course expands the traditional view of accounting to include an examination of the integration of the historic three tools with cost elements. This expanded view would include environmental and political costs, compliance with multinational reporting standards, tax compliance and treaty costs.

IMBA 211. Global Corporate Finance. 3 Units
Term Typically Offered: Fall, Spring

Provides students a well-rounded understanding of the language and financial expectations/performance of organizations. Candidates will learn how to evaluate decisions from the perspective of shareholder and stakeholders. With this perspective they will be better equipped to make better business decisions and also understand the financial impact of those decisions.

IMBA 213. Marketing Management. 3 Units
Term Typically Offered: Fall, Spring

Presents how modern marketing principles can be applied to real-world situations. The emphasis will be on studying strategies used by organizations in today's highly competitive and evolving marketplace. Case studies will be utilized to fully develop techniques for creating marketing programs given varying levels of resources and information available under diverse market conditions.

IMBA 214. Statistical Decision Making. 3 Units
Term Typically Offered: Fall, Spring

Presents how business decisions are now made in an increasingly competitive and complex business environment. The emphasis will be on how to better respond to this challenge by using quantitative methods to forecast, extrapolate, analyze, and simulate a business situation for effective decision-making. Case studies will be used to develop those capabilities.

IMBA 215. Information Technology Management. 3 Units
Term Typically Offered: Fall, Spring

Covers the major challenges organizations deal with today as they attempt to manage their key technological resources as well as with implementing technological innovations. Addresses the digital opportunities and threats organizations face from senior management perspectives.

IMBA 216. Human Resource Management in Intl Perspective. 3 Units
Term Typically Offered: Fall, Spring

Reviews the organization theory from a macro perspective (structure, process, technology, people, and culture). Special attention will be paid to organization structure, human resources, design, control, culture and inter-organizational relationship.

IMBA 217. Business Law and Legal Environment. 3 Units
Term Typically Offered: Fall, Spring

Addresses such topics as comparative legal environments in international business, dispute settlement, foreign investment, money and banking, trade in goods, services and labor, intellectual property, sales, transportation, financing and taxation, multinational enterprise, and ethical standards and the responsible roles of business in international society.

IMBA 231. Global Financial Institutions and Markets. 3 Units
Prerequisite(s): IMBA 211.
Term Typically Offered: Fall, Spring

Introduces students to the principles and dynamics of international financial markets and institutions. Addresses the operational aspects of global financial institutions with the emphasis on foreign exchange risk management problem. The major objective is to have students develop an operational understanding of the financial problems faced by nations as well as the local and multinational corporation.

IMBA 232. International Trade. 3 Units
Prerequisite(s): IMBA 231.
Term Typically Offered: Fall, Spring

Examines in detail the global business operations within the context of today's international trade. International trade has an era typified by unprecedented worldwide production and distribution. Provides students with and understanding of these changes, and their impact on international trade. The primary objective is to prepare students to identify and respond to new opportunities and challenges in international trade.

- IMBA 233. International Investments. 3 Units**
Prerequisite(s): IMBA 231.
Term Typically Offered: Fall, Spring
- The main objective is to provide students with a framework for making financial decisions in the international business arena. To this end, relevant features of exchange rate instruments and their determination, international equity markets, international investments will be covered. Also addressed is the issue of exposure to foreign exchange rate risk and associated hedging strategies.
- IMBA 234. Contemporary Issues in International Finance. 3 Units**
Prerequisite(s): IMBA 231.
Term Typically Offered: Fall, Spring
- Focuses on exploring contemporary issues in international finance. Emphasis is placed on exploring and discussing: new financial investment instruments and consideration of the risk and return of the Venture Capital firms as an investment vehicle; the U.S. based Private Equity Funds around the world and the tools and techniques for managing foreign exchange risk; and the process of Initial Public Offerings (IPO) in different economies.
- IMBA 241. Comparative International Management. 3 Units**
Prerequisite(s): IMBA 216.
Term Typically Offered: Fall, Spring
- Takes a global perspective in dealing with management issues in both foreign and diverse host environments. Communication and cross-cultural management issues are addressed in the context of changing global environments, especially in rapidly growing regions and countries.
- IMBA 242. Multinational Corporate Management. 3 Units**
Prerequisite(s): IMBA 216.
Term Typically Offered: Fall, Spring
- Focuses on managerial challenges associated with developing strategies and managing operations of multinational corporations (MNCs) where activities stretch across national boundaries. A cross-cultural and functional perspective is adopted in investigating MNCs' operating environments and competitive strategies through the analysis and discussion of selected case materials.
- IMBA 243. Global Supply Chain Management. 3 Units**
Prerequisite(s): IMBA 216.
Term Typically Offered: Fall, Spring
- Introduce the major concepts and tools for the delivery of enhanced customer and economic value through global synchronized management of the flow of physical goods and associated information from sourcing to consumption. Includes key topics in purchasing, supply chain management, and distribution and logistics management.
- IMBA 244. Project Management. 3 Units**
Prerequisite(s): IMBA 216.
Term Typically Offered: Fall, Spring
- Covers all phases of managing projects, from project selection to project termination. Specific topics include project life cycle, project selection methods, planning and scheduling techniques, accounting and budgeting methods, resource allocation, procurement and contract negotiation, organizational and ethical issues, and project termination. Current issues and cases will also be discussed, and software systems, such as MS Project and Internet-based file sharing systems will be incorporated into relevant portions of the course.
- IMBA 251. Information Technology Resource Management. 3 Units**
Prerequisite(s): IMBA 215.
Term Typically Offered: Fall, Spring
- Examines the management of information technology as a vital resource to an organization. As a vital resource, the business must effectively and efficiently manage and secure its IT resources.
- IMBA 252. Enterprise Information Technology Planning. 3 Units**
Prerequisite(s): IMBA 215.
Term Typically Offered: Fall, Spring
- As an organizational integrator, IT presents many new opportunities at the enterprise level to design and implement new organizational structures and business processes. Enterprise IT primarily involves enterprise resource planning (ERP), supply chain management (SCM), knowledge management (KM) and customer relationship management (CRM) to support and seamlessly coordinate business activities.
- IMBA 253. Strategic Information Technology Planning. 3 Units**
Prerequisite(s): IMBA 215.
Term Typically Offered: Fall, Spring
- Strategic IT planning defines the direction a business chooses to direct its IT resources. It encompasses a vision, mission, strategy and objectives that closely align to the business' vision, mission, strategy and objectives. Planning involves examining how IT will support the achievement of the business' goals and objectives, and how IT can open new opportunities to create new business goals.
- IMBA 254. Information Technology Project Management. 3 Units**
Prerequisite(s): IMBA 215.
Term Typically Offered: Fall, Spring
- Implementing IT initiatives requires a business to not only carefully evaluate their alignment to the business' goals and objectives, but to identify and assess risks that they present. Selecting projects requires a comparison of their feasibility, complexity, scalability and impact. A project portfolio provides a means to direct the right resources to the right projects to ensure their completion at the right time. Plans must be developed and key performance measures identified and tracked.
- IMBA 255. Information Technology Leadership. 3 Units**
Prerequisite(s): IMBA 215.
Term Typically Offered: Fall, Spring
- Leadership plays an important role in determining a business' success with IT. It requires recognizing and leveraging the business' competencies and core values, and championing initiatives and projects that work in the best interest of the business and create value. Examines the various elements that comprise IT leadership.
- IMBA 296. Experimental Offerings in Executive Management. 3 Units**
Term Typically Offered: Fall, Spring
- When a sufficient number of qualified students apply, a faculty member may conduct a seminar on a designated advanced topic in executive management.
- Note:** May be repeated for credit

IMBA 299. Special Problems in Business. 1 - 3 Units**Prerequisite(s):** Classified graduate standing or instructor approval**Term Typically Offered:** Fall, Spring

Individual projects or directed readings for students qualified to carry on in independent work.

Note: Enrollment requires approval of faculty member supervising work in addition to the approval of the Associate Dean for Graduate and External Programs. Petitions to be obtained from the Graduate Business Advising Center (GBAC).

IMBA 500. Leadership and Change Management. 3 Units**Prerequisite(s):** Must complete five of the following; IMBA 210, IMBA 211, IMBA 213, IMBA 214, IMBA 215, IMBA 216 and IMBA 217**Corequisite(s):** May be concurrently enrolled in two of the following; IMBA 210, IMBA 211, IMBA 213, IMBA 214, IMBA 215, IMBA 216 and IMBA 217**Term Typically Offered:** Fall, Spring

Advanced studies of leadership in business organizations. The key themes of the course are leading teams and leading during times of change. An integral part of the course is to study current business leaders and analyze their leadership practices. Leadership is studied in an integrated fashion based on different business functions and industrial experiences. Successful completion of this course satisfies the culminating experience for the IMBA program.

Italian (ITAL)

ITAL 1A. Elementary Italian. 4 Units**Term Typically Offered:** Fall only

Focuses on the development of the four basic skills (understanding, speaking, reading, writing) through the presentation of many cultural components (two per week) which illustrate the Italian "modus vivendi:" social issues, family, food, sports, etc.

ITAL 1B. Elementary Italian. 4 Units**Prerequisite(s):** ITAL 1A or instructor permission.**General Education Area/Graduation Requirement:** Foreign Language Graduation Requirement, Humanities (Area C2)**Term Typically Offered:** Fall, Spring

Continuation of ITAL 1A with greater emphasis on reading, writing. Addition of one reader which contains more cultural material (geography, political issues, government, fashion, etc.).

ITAL 2A. Intermediate Italian. 4 Units**Prerequisite(s):** One year college Italian or suitable score on placement exam.**General Education Area/Graduation Requirement:** Foreign Language Graduation Requirement**Term Typically Offered:** Fall only

Intermediate course in the Italian language with emphasis on speaking, reading and writing ability; review of grammar; discussions and compositions in Italian. Meets the Foreign Language Graduation Proficiency Requirement.

ITAL 2B. Intermediate Italian. 4 Units**Prerequisite(s):** ITAL 2A or suitable score on placement exam.**General Education Area/Graduation Requirement:** Foreign Language Graduation Requirement**Term Typically Offered:** Fall, Spring

Continuation of ITAL 2A. Meets the Foreign Language Graduation Proficiency Requirement.

ITAL 102. Italian Advanced Conversation. 3 Units**Prerequisite(s):** ITAL 2B or instructor permission.**Term Typically Offered:** Fall, Spring

Designed to develop oral fluency through free discussion on prepared topics, and supervised practice to develop audio-lingual skills at the advanced level. Course conducted in Italian. May be taken for credit twice.

ITAL 103. Advanced Grammar and Composition. 3 Units**Prerequisite(s):** ITAL 2B or equivalent.**Term Typically Offered:** Fall, Spring

Study of grammar and style and their application in oral and written exercises, in translations and in compositions.

ITAL 104A. Introduction to Italian Cinema I. 3 Units**General Education Area/Graduation Requirement:** Arts (Area C1)**Term Typically Offered:** Fall, Spring

Italian Cinema from the 1940's to its Golden Period in the 1960's through the 1970's. Films will be viewed in their cultural, aesthetic and/or historical context. Readings and guiding questionnaires will help students develop appropriate viewing skills. Films will be shown in Italian with English subtitles.

ITAL 104B. Introduction to Italian Cinema II. 3 Units**Term Typically Offered:** Fall, Spring

Focuses on Italian Cinema from the 1980's and the 1990's. The "New Generation" of Italian Directors will be considered (Nanni Moretti, Gabriele Salvatores, Maurizio Nichetti, Giuseppe Tornatore, Roberto Benigni, Liliani Cavani, Fiorenza Infascelli, Francesca Archibugi, etc.) as well as current productions. Films will be shown in Italian with English subtitles.

ITAL 110. Introduction to Italian Literature I. 3 Units**Prerequisite(s):** Upper division status and instructor permission.**Term Typically Offered:** Fall only

Beginning and major developments of the literature of Italy from the Middle Ages through the Baroque period of the 17th Century. Analyzes the literary movements with emphasis on their leading figures, discussion of literary subjects, instruction in the preparation of reports on literary, biographical and cultural topics. Taught in Italian.

ITAL 111. Introduction to Italian Literature II. 3 Units**Prerequisite(s):** Upper division standing and instructor permission.**Term Typically Offered:** Fall, Spring

Major developments in the literature of Italy from the Enlightenment movement of the 18th Century through the 20th Century. Analysis of the literary movements with emphasis on their leading figures, discussion of literary subjects, instruction in the preparation of reports on literary, biographical, and cultural topics. Taught in Italian.

ITAL 130. Italian Civilization: The Dialogue Form It's Origins and European Context. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Focus on Italian civilization in a Mediterranean context. Allows students to develop a critical understanding of the dialogue in the context of Italian and Western Civilization, from its origins in Ancient Egypt and Greece, to its flowering in the Renaissance and its return during the Enlightenment, to its endurance in modern times. Issues emphasized are philosophical and literary movements in their historical contexts. Socratic dialogue and other related genres, the dialogue as a typical Renaissance form with a variety of perspectives (feminine, poetic, satirical, etc.) the Enlightenment thinkers in Italy and France and their modern heritage are studied. Taught in English.

ITAL 131. The Italian Renaissance and Its Influence on Western Civilization. 3 Units
Term Typically Offered: Fall, Spring

Taught in English, explores the phenomenon of the Italian Renaissance in its literary, artistic, religious, social, historical, scientific, and economic aspects through the analysis of the period's major works, and through films, slides, lectures and discussions. The issues to be emphasized are the uniqueness of the Italian contribution to new ideas and values, and their influence on Western Civilization. The students will learn to recognize the sources and the effects of the Italian Renaissance within the integrated context of Western culture and various fields of knowledge.

ITAL 194. Field Experience/Internship. 1 - 3 Units
Prerequisite(s): Intermediate competency in Italian and instructor permission.
Term Typically Offered: Fall, Spring

Directed fieldwork in a project which uses the language skills developed through previous study of Italian. The projects may include interpreting and translating for public and/or private agencies in Sacramento or other projects approved by the faculty supervisor. All work will be monitored by Sacramento State faculty. The student must submit written reports to his/her supervisor. Can be taken more than once for credit.
 Credit/No Credit

ITAL 195. Fieldwork - Tutoring. 1 - 3 Units
Prerequisite(s): Student with native or near-native fluency in Italian and upper division status; or instructor permission.
Term Typically Offered: Fall, Spring

Tutoring of lower division Italian students, under the supervision of an instructor. Three hours of tutoring per week for each unit.
Note: May be repeated until a maximum of 6 units is reached.

Credit/No Credit

ITAL 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading.
Note: Departmental petition required.

Credit/No Credit

Japanese (JAPN)

JAPN 1A. Elementary Japanese. 5 Units
Term Typically Offered: Fall only

Develops elementary spoken Japanese, reading and writing in Kana and Kanji, and the practical skills required to effectively use the modern language. Emphasis on the culture, customs, and traditions of Japan.

JAPN 1B. Elementary Japanese. 5 Units
Prerequisite(s): JAPN 1A or instructor permission.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement, Humanities (Area C2)
Term Typically Offered: Spring only

Continuation of JAPN 1A, with emphasis on speaking, vocabulary, reading, grammar, speech patterns, and cultural knowledge. The Kana and Kanji writing systems, geography, and aspects of Japanese customs and manners are included.

JAPN 1C. Accelerated Elementary Japanese. 8 Units
 This is an intensive introductory Japanese language course equivalent to one year of first-year Japanese (JAPN 1A and JAPN 1B) concentrated in one semester. Class meets four times a week for two hours a period and progresses at an accelerated pace. The course provides a solid foundation in the four language skills—listening, speaking, reading, and writing. In addition, students will acquire cultural knowledge necessary for appropriate communication and smooth functioning in Japanese society. Students enrolling in JAPN 1C must be able to read and write hiragana and katakana, the two basic phonetic syllabaries.

JAPN 2A. Intermediate Japanese. 4 Units
Prerequisite(s): JAPN 1A, JAPN 1B; or equivalent.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Fall only

Emphasis on speaking, reading, and grammatical skills through dialogues, discussions, and reading. Meets the Foreign Language Graduation Proficiency Requirement.

JAPN 2B. Intermediate Japanese. 4 Units
Prerequisite(s): JAPN 2A or equivalent.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Spring only

Continuation of JAPN 2A. Further development of speaking, reading, grammar, and composition skills. Meets the Foreign Language Graduation Proficiency Requirement.

JAPN 110. Introduction to Japanese Literature. 3 Units
Prerequisite(s): JAPN 2B or instructor permission.
Term Typically Offered: Spring only

Introduction to Japanese literature from the 10th century to the present. The various forms of Japanese classic and contemporary literature will be surveyed through the selective reading of representative works. Class will be conducted in both Japanese and English.

JAPN 116A. Language and Culture of the Japanese and the Japanese in America. 3 Units
Prerequisite(s): JAPN 2B or equivalent.
Term Typically Offered: Fall only

Designed to expose advanced students in Japanese to the practical use of modern Japanese.

JAPN 116B. Language and Culture of the Japanese and the Japanese in America. 3 Units**Prerequisite(s):** JAPN 116A or instructor permission.**Term Typically Offered:** Spring only

Continuation of JAPN 116A in more advanced modern Japanese.

JAPN 120. Japanese Civilization. 3 Units**Term Typically Offered:** Spring only

A broad survey of Japanese civilization from ancient to contemporary times, focusing on the overarching themes of continuity and change. Exploration includes Japanese geography, traditional aesthetics, warrior ethos, rapid modernization, postwar culture, popular culture, among others. Materials drawn predominantly from the fields of literature, film, and history.

JAPN 128. Introduction to Japanese Popular Culture. 3 Units**Term Typically Offered:** Fall, Spring

A survey of major forms of Japanese popular culture from the postwar period to the present with a focus on genre and narrative. Genres include anime, shōjo manga, Jpop, popular fiction, and fashion. Among topics to be discussed are common themes, narrative form, global appeal, and fandom. Emphasis on close reading and analysis of the texts/films. No knowledge of Japanese language or culture is required.

JAPN 150. Advanced Japanese Grammar, Conversation. 3 Units**Prerequisite(s):** JAPN 2B or instructor permission.**Term Typically Offered:** Fall only

Review of general principles of Japanese grammar and study of advanced grammar and their application in oral and written exercises and projects such as speech, presentations, and translations.

JAPN 194. Field Experience/Internship. 1 - 3 Units**Prerequisite(s):** Intermediate competency in Japanese and instructor permission.**Term Typically Offered:** Fall, Spring

Directed fieldwork in a project which uses the language skills developed through previous study of Japanese. The projects may include interpreting and translating for public and/or private agencies in Sacramento or other projects approved by the faculty supervisor. All work will be monitored by Sacramento State faculty. The student must submit written reports to his/her supervisor. Can be taken more than once for credit.

Credit/No Credit

JAPN 195. Fieldwork -- Tutoring. 1 - 3 Units**Prerequisite(s):** Advanced students who have native or near native fluency or upper division status, or instructor permission.**Term Typically Offered:** Fall, Spring

Tutoring of lower division Japanese students, under the supervision of an instructor. 3 hours of tutoring per week for each unit.

Credit/No Credit

JAPN 199. Special Problems. 1 - 3 Units**Term Typically Offered:** Fall, Spring

Individual projects, or directed reading. Open only to students competent to carry on independent study.

Note: Departmental petition required.

Credit/No Credit

Journalism (JOUR)

JOUR 20. Style For Media Writers. 1 Unit**Term Typically Offered:** Fall, Spring

Intensive review of grammar, word use, spelling, and principles of clear, concise writing.

Credit/No Credit

JOUR 30. News Writing. 3 Units**Corequisite(s):** JOUR 20.**Term Typically Offered:** Fall, Spring

Fundamentals of news gathering and news writing. Emphasis on language and style used in feature and news stories.

Note: Computer familiarity (MAC-OS) recommended.**JOUR 50. Media Literacy and Critical Thinking. 3 Units****General Education Area/Graduation Requirement:** Critical Thinking (A3)**Term Typically Offered:** Fall, Spring

Introduction to reasoning skills useful to the journalism major and general education student alike in interpreting and judging information, entertainment and advertising in the mass media. Emphasis on how to assess the quality of news as information, and on how to think critically about the effects of mass-produced culture.

Examination of the ways mass media combine with other institutions to affect the organization, design, and comprehension of communication messages, as well as political thought, cultural beliefs, and economic behavior.

Cross Listed: COMS 55; only one may be counted for credit.

JOUR 120. History Of The Media. 3 Units**Prerequisite(s):** COMS 55/JOUR 55 or equivalent; may be taken concurrently with prerequisite.**Term Typically Offered:** Fall, Spring

Examination of development of major media of mass communication in the U.S. and how the economics, content, regulation and audience use of the media have been affected by the way the media have evolved. Current issues and trends are discussed, as well as possible future development.

Cross Listed: COMS 120; only one may be counted for credit.

JOUR 123. Writing For Public Information. 3 Units**Prerequisite(s):** GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.**Term Typically Offered:** Fall, Spring

Organization and operation of communication media; practice in publicity and public relations techniques. Emphasis on clear writing and correct public relations formats such as releases, PSAs, articles, and speeches.

Note: Computer familiarity (MAC-OS) recommended. Cross Listed:

COMS 123; only one may be counted for credit.

- JOUR 125. Multimedia Storytelling.** **3 Units**
Prerequisite(s): JOUR 30
Term Typically Offered: Fall, Spring
- Principles and techniques of reporting and writing news for radio, television, podcasts, social media, and other emerging media platforms. Field and laboratory experience, including basic multimedia story production.
- JOUR 128. News Editing.** **3 Units**
Prerequisite(s): JOUR 20, JOUR 30.
Term Typically Offered: Fall, Spring
- Introduction to the role of the editor in contemporary news production. Instruction in story assigning and digital editing, headline/caption writing, photo/visual selection, identifying story treatments, and web tools including search engine optimization and audience analytics. Lab sessions include story/copy editing, fact-checking exercises, headline/caption writing, photo/visual selection, analysis and application of audience metrics in story assignments, and other editorial work.
- JOUR 130A. News Reporting I.** **3 Units**
Prerequisite(s): JOUR 20, JOUR 30.
Corequisite(s): JOUR 130B.
Term Typically Offered: Fall, Spring
- Instruction and practice in journalistic research, interviewing, and reporting skills.
Note: Computer familiarity (MAC-OS) recommended.
- JOUR 130B. News Reporting II.** **3 Units**
Prerequisite(s): JOUR 30.
Corequisite(s): JOUR 130A.
Term Typically Offered: Fall, Spring
- Practice in covering a news beat, producing news and feature stories on a weekly basis. Instruction includes reporting on local government.
- JOUR 131. Data Journalism.** **3 Units**
Prerequisite(s): JOUR 20, JOUR 30
Term Typically Offered: Fall, Spring
- Instruction and practice in finding, analyzing, visualizing and using data journalism.
- JOUR 132. Digital Magazine.** **3 Units**
Prerequisite(s): JOUR 30 or instructor permission.
Term Typically Offered: Fall, Spring
- Conceiving, reporting, and writing feature articles for magazines in print and online. In addition to improving writing skills, students will learn how to identify freelance opportunities, pitch stories, analyze published work, and produce articles for a digital magazine published by the class.
- JOUR 134. War, Peace and the Mass Media.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring, Summer
- Concerned with the relationship of mass media to war and the possibilities for peace, with emphasis on recent concepts of political communication.
 Cross Listed: GOVT 134; only one may be counted for credit.
- JOUR 135. Public Affairs Reporting.** **3 Units**
Prerequisite(s): JOUR 20, JOUR 30, JOUR 130A, JOUR 130B; GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
- Preparation and practice for covering California issues, with a focus on state government and investigative reporting techniques. Culminates with a final project.
- JOUR 153. Journalism Law and Ethics.** **3 Units**
Term Typically Offered: Fall, Spring
- Examines the laws, regulations, and ethical principles that govern print, broadcast, and electronic journalism in the U.S. The process by which laws and regulation are enacted and interpreted and the development of socially responsible journalistic practice are discussed.
 Cross Listed: COMS 153; only one may be counted for credit
- JOUR 158. Public Relations Planning and Management.** **3 Units**
Prerequisite(s): COMS 118 and JOUR 123 or COMS 123 with grade of "C-" or better.
Term Typically Offered: Fall, Spring
- Application of theoretical concepts to the solution of problems for pre-selected non-profit and campus clients by forming small group PR agencies; completing needs assessments; profiling target and secondary audiences; developing and implementing a strategic public relations plan; producing targeted messages for media kits and other uses; developing and evaluating formative and summative evaluation plans; and making formal in-class presentations to peers, clients and invited PR professionals. Students will also learn how to negotiate contracts, maintain client relations, track work on projects and develop timelines and budgets.
 Cross Listed: COMS 158; only one may be counted for credit.
- JOUR 172. Women in the Mass Media.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only
- Examination of women's role in the mass media, with particular emphasis on news reporting and advertising. Includes discussion of women's role in media industries. Culminates in a final project.
- JOUR 175. Minorities, Social Change and the Press.** **3 Units**

- Examination of the relationship between historically underrepresented groups and the news media. Provides a critical analysis and discussion of the role played by the news media in racial, cultural, and social change in the U.S. and explores how the news media can create a more pluralistic society.
- JOUR 193. The Media Business.** **3 Units**
Term Typically Offered: Fall, Spring
- Examination of business models and concepts influencing the contemporary news media industry. Study the traditional financial structures of media publications, evaluate opportunities in media entrepreneurship and develop business plans for publications.

JOUR 194. Journalism Related Work Experience. 3 - 6 Units
Term Typically Offered: Fall, Spring

Supervised employment in a company or agency working on journalism-related assignments, arranged through the Department of Communication Studies and the Cooperative Education Program office. Requires preparation of application packet, completion of a 6 month full-time or part-time work assignment, and a written report.

Note: Open only to upper division or graduate students with appropriate course preparation. Units MAY NOT be used to meet the Journalism major or minor. Consent of Communication Studies Department advisor required. No more than 12 units will count toward the degree.

Credit/No Credit

JOUR 195. Internship In Journalism. 1 - 6 Units
Prerequisite(s): JOUR 130A, JOUR 130B and minimum 2.3 overall GPA.
Term Typically Offered: Fall, Spring

Directed work experience through the internship program with public agencies or with journalistic publications, organizations or agencies. Supervision is provided by both the instructional staff and the cooperating agency.

Note: Student must make arrangements with the internship coordinator upon admittance to the course. Limited to Journalism majors and minors and Government-Journalism majors. No more than six units of JOUR 195 may be counted toward the Journalism major.

Credit/No Credit

JOUR 196. Experimental Offerings in Journalism. 3 Units
Term Typically Offered: Fall, Spring

One time and new classes in journalism will be scheduled as needed. 2.0 - 3.0 units

JOUR 197. Journalism Laboratory. 3 Units
Term Typically Offered: Fall, Spring

Working as a staff member of the State Hornet news organization. Roles and responsibilities may include writing, reporting, photography, editing, audio/video production, web layout and design, promotions, marketing, distribution, and/or media business management.

Note: Journalism majors are required to take either JOUR 197A, JOUR 197B, or JOUR 195 Pre-requisite

JOUR 197A. Journalism Laboratory. 3 Units
Prerequisite(s): JOUR 30.
Term Typically Offered: Fall, Spring

Working as a staff member of the State Hornet Newspaper as a writer, photographer, graphic designer or advertising salesperson.

Note: Journalism majors are required to take either JOUR 197A, JOUR 197B, or JOUR 195.

JOUR 199. Special Problems. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Individual projects or directed reading open to students who wish to attempt independent work. Faculty approval required.
Note: Journalism majors or minors may submit no more than 6 units of JOUR 199 and JOUR 299 toward their degrees.

Credit/No Credit

JOUR 299. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading. Open only to students who are competent to carry on individual work.
Note: Departmental petition required. Journalism majors or minors may submit no more than 6 units of JOUR 199 and 299 toward their degrees.

Credit/No Credit

Kinesiology (KINS)

KINS 4. Beginning Swimming. 1 Unit
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Development of physical and mental adjustment to the water. Basic instruction in front crawl, back crawl, elementary backstroke, breast and side strokes and survival is stressed.
Note: May be repeated for credit.

KINS 5. Intermediate Swimming. 1 Unit
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Development of physical skills involving strokes, turns, safety and survival techniques.
Note: May be repeated for credit.

KINS 9. Beginning Sailing. 1 Unit
Prerequisite(s): 50 yards swimming ability.
Term Typically Offered: Fall, Spring

Instruction in the fundamentals of sailing including safety and a discussion of terminology and technology of sailing. Additional charge for off-campus services.
Note: May be repeated for credit.

KINS 10. Intermediate Sailing. 1 Unit
Term Typically Offered: Fall, Spring

Continuation of KINS 25, using our fleet of C-15s, Laser and Hobie Turbo 14s. Covers rigging, boating safety, sailing, theory and racing tactics.
Note: May be repeated for credit.

KINS 11. Basic Windsurfing. 1 Unit
Term Typically Offered: Fall, Spring

Introduces the student to the basic fundamentals of windsurfing. Covers rigging, terminology, balance, stance, sail adjustment, safety, rescue skills, and tricks.
Note: May be repeated for credit.

KINS 12. Water Skiing. 1 Unit
Prerequisite(s): 50 yards swimming ability.
Term Typically Offered: Fall, Spring

Basic water skiing, boat and boating safety and in the fundamental skills in water skiing. Additional charge for off-campus services.
Note: May be repeated for credit.

<p>KINS 14. Basic Olympic Rowing. 1 Unit Term Typically Offered: Fall, Spring</p>	<p>KINS 26. Exercise For Fitness. 1 Unit General Education Area/Graduation Requirement: Understanding Personal Development (E)</p>
<p>Teaches the novice rower oar control, basic commands, and correct style. Students will begin rowing on a modern eight-oared racing shell and be introduced to the one person rowing single. Note: May be repeated for credit.</p>	<p>Term Typically Offered: Fall, Spring</p>
<p>KINS 15. Introduction to Fly Fishing. 1 Unit Term Typically Offered: Fall, Spring</p>	<p>Designed to encourage self-improvement through posture evaluation, biomechanic analysis of exercises performed and through participation in varied exercise forms. Students will develop a personalized repertoire of strength, suppleness and stamina exercises calculated to improve possible deficiencies in posture or movement to optimize enjoyment of living. Note: May be repeated for credit.</p>
<p>KINS 15 is a course designed for Sacramento State students of all experience levels to develop proficiency in the sport of fly fishing while promoting an appreciation of the sport as a socio-cultural and lifetime recreational pursuit. Instruction/participation will include, but is not limited to the following topics: conditioning, conservation techniques, equipment use/care/selection, fly casting, aquatic entomology, stream hydrology, interpretation of fly fishing opportunities, fly fishing tactics, basic knots, and field trips to local streams. Field trip(s) may be required.</p>	<p>KINS 28. Jogging. 1 Unit General Education Area/Graduation Requirement: Understanding Personal Development (E) Term Typically Offered: Fall, Spring</p>
<p>KINS 21. First Year Seminar: Becoming an Educated Person. 3 Units General Education Area/Graduation Requirement: Understanding Personal Development (E) Term Typically Offered: Fall, Spring</p>	<p>Jogging will expose the student to the fundamentals of jogging/running, its potential physiological and sociological benefits as a lifetime activity, fitness testing and individualized conditioning programs. Note: May be repeated for credit.</p>
<p>Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Provides students with the opportunity to interact with fellow classmates and the seminar leader to build a community of academic and personal support.</p>	<p>KINS 30. Bicycling. 2 Units General Education Area/Graduation Requirement: Understanding Personal Development (E) Term Typically Offered: Fall, Spring</p>
<p>KINS 22. Creative Aerobic Fitness I. 1 Unit General Education Area/Graduation Requirement: Understanding Personal Development (E) Term Typically Offered: Fall, Spring</p>	<p>Cycling as a lifetime sport; physiological benefits derived from bicycle riding; individual functional evaluation and conditioning, cycle touring. Lecture one hour; activity two hours. Note: May be repeated for credit.</p>
<p>Provides student with a wide range of flexibility, strength, muscular endurance and creative cardiovascular endurance (aerobic) exercises that promote physical fitness, positive changes in body composition and stress reduction when performed regularly. Note: May be repeated for credit.</p>	<p>KINS 33. Intermediate Weight Training. 1 Unit General Education Area/Graduation Requirement: Understanding Personal Development (E) Term Typically Offered: Fall, Spring</p>
<p>KINS 24. Aqua Aerobics. 1 Unit Term Typically Offered: Fall, Spring</p>	<p>Weight training as a lifetime fitness activity; emphasis on going beyond the beginning level through development of an individualized program designed to meet the needs of each individual. Note: May be repeated for credit.</p>
<p>Using the unique buoyancy and resistance properties of water, the course includes aquatic exercises for flexibility, strength, and cardiovascular endurance to promote general fitness, body conditioning, and stress reduction. As the course will take place in shallow water, swimming proficiency is not required. Note: May be repeated for credit.</p>	<p>KINS 36. Beginning Olympic Weight Lifting. 1 Unit Prerequisite(s): KINS 33 or equivalent. Term Typically Offered: Fall, Spring</p>
	<p>Introduces the lifter to the sport of weight lifting which consists of the two lifts (two hands snatch and the two hands clean and jerk) used in Olympic competition. It includes the complete breakdown of the two lifts, the assistive lifts necessary to learn the parts of the two lifts, and the proper training sequence. The students will also be introduced to training cycles, proper diet, and the use of assistive equipment. Note: May be repeated for credit.</p>

<p>KINS 40. Tai Chi. 1 Unit General Education Area/Graduation Requirement: Understanding Personal Development (E) Term Typically Offered: Fall, Spring</p> <p>Examines the historical, philosophical, psychological and physiological aspects of Tai Chi. Students will be provided the opportunity to experience a wide range of movement patterns that focus on the integration of mind and body. The form and structure of technique as well as breathing exercises will be included. Note: May be repeated for credit.</p>	<p>KINS 72. Beginning Basketball. 1 Unit Term Typically Offered: Fall, Spring</p> <p>Development of fundamental skills and tactics of the game, knowledge of basic strategy and rules. Emphasis given to individual and team concepts as they relate to performance and competition. Note: May be repeated for credit.</p>
<p>KINS 43. Beginning Tae Kwon Do. 1 Unit General Education Area/Graduation Requirement: Understanding Personal Development (E) Term Typically Offered: Fall, Spring</p> <p>Primary emphasis on throwing, blocking, punching and kicking. The philosophy of Truism and Confucianism is explored. Note: May be repeated for credit.</p>	<p>KINS 73. Intermediate Basketball. 1 Unit Term Typically Offered: Fall, Spring</p> <p>Advancement of basketball skills and strategy. Emphasis is given to individual and team concepts as they relate to performance competition and officiating basketball. Note: May be repeated for credit.</p>
<p>KINS 46. Beginning Judo. 1 Unit Term Typically Offered: Fall, Spring</p> <p>Instruction in beginning judo tactics including throws and falls, conditioning, and protective devices for self-defense. Note: May be repeated for credit.</p>	<p>KINS 75. Beginning Volleyball. 1 Unit General Education Area/Graduation Requirement: Understanding Personal Development (E) Term Typically Offered: Fall, Spring</p> <p>Develop basic skills, basic offensive and defensive systems of team play, basic strategies and rules. Emphasis on team work and developing supportive attitudes and behavior which encourages continued involvement in volleyball as a physical activity. Note: May be repeated for credit.</p>
<p>KINS 50. Uechi-Ryu Karate. 1 Unit Term Typically Offered: Fall, Spring</p> <p>Examines the historical, philosophical, and physical aspects of Uechi-Ryu Karate. Students will be asked to learn the basic techniques and skills used in this Okinawan system as well as to develop and improve in body strength, flexibility and coordination. Note: May be repeated for credit.</p>	<p>KINS 79. Beginning Soccer. 1 Unit Term Typically Offered: Fall, Spring</p> <p>Development of basic skills of ball handling, passing, dribbling, trapping, tackling, individual and team tactics and strategies; rules interpretation and officiating; promotion of bio-psychosocial well being. Note: May be repeated for credit.</p>
<p>KINS 56. Beginning Self-Defense for Women. 1 Unit General Education Area/Graduation Requirement: Understanding Personal Development (E) Term Typically Offered: Fall, Spring</p> <p>Prepares women to deal psychologically, sociologically and physically with rape and violent assault. The physical tactics taught are based on the use of hands and feet as weapons. They are simple yet an effective use of one's strength and mental attitude. Note: May be repeated for credit.</p>	<p>KINS 83. Beginning Golf. 1 Unit General Education Area/Graduation Requirement: Understanding Personal Development (E) Term Typically Offered: Fall, Spring</p> <p>Development of sufficient basic proficiency in golf to recognize and enjoy it as a lifetime activity; including U.S.G.A. rules, etiquette and the fundamental mechanics involved in the use of irons and woods. Note: May be repeated for credit.</p>
<p>KINS 59. Self Defense and Conditioning. 1 Unit Term Typically Offered: Fall, Spring</p> <p>Multifaceted conditioning course that utilizes self defense techniques to develop self discipline, confidence and respect for physical capabilities and limitations of others. Note: May be repeated for credit.</p>	<p>KINS 86. Beginning Tennis. 1 Unit General Education Area/Graduation Requirement: Understanding Personal Development (E) Term Typically Offered: Fall, Spring</p> <p>Development toward proficiency in tennis, including basic court skills, knowledge, and elementary strategies. Development of enjoyable and appropriate cooperative and competitive modes of behavior, including etiquette and self-awareness. Attention is given to healthful approaches to vigorous lifetime physical activity. Note: May be repeated for credit.</p>
<p>KINS 63. Beginning Ballroom Dance. 1 Unit Term Typically Offered: Fall, Spring</p> <p>Development of proficiency in ballroom dance, including history, vocabulary, ballroom dance etiquette and basic steps for foxtrot, waltz, hustle, cha cha, tango, rhumba, salsa, and merengue. Note: May be taken for credit more than once for credit.</p>	

<p>KINS 87. Intermediate Tennis. 1 Unit Term Typically Offered: Fall, Spring</p> <p>Development and refinement of skills at the intermediate level in all strokes. Development and refinement of playing techniques and strategies. Learning how to enjoy competitive situations and to relate well to others in competition. Adjustment to stressful competitive conditions and improvement of personal responses under stress. Note: May be repeated for credit.</p>	<p>KINS 99. Exercise for Healthy Living. 2 Units Corequisite(s): One unit skill or fitness class; may be taken concurrently. General Education Area/Graduation Requirement: Understanding Personal Development (E) Term Typically Offered: Fall, Spring</p> <p>Exposes students to a broad range of information related to the understanding and development of personal fitness and health, including psycho-social well-being. Examines the elements of exercise, nutrition, and stress management as they relate to healthful living. Students will explore a variety of personal choices and the options for developing and maintaining lifetime wellness.</p>
<p>KINS 89. Beginning Badminton. 1 Unit Term Typically Offered: Fall, Spring</p> <p>Development of fundamentals in badminton including beginning skills, offensive and defensive tactics and strategy; singles, doubles and mixed doubles tournament play. Note: May be repeated for credit.</p>	<p>KINS 106C. Advanced Weight Training. 1 Unit Term Typically Offered: Fall, Spring</p> <p>Advanced instruction in weight lifting including Olympic weight lifting, power lifting, body building, lifting for athletic competition and lifting for physical fitness.</p>
<p>KINS 90. Intermediate Badminton. 1 Unit Term Typically Offered: Fall, Spring</p> <p>Development of movement skills, strokes, tactics in singles and doubles at a more advanced level. Emphasis on "cut" or deceptive strokes, rotation or diagonal system of doubles play, increased ability to move on the court, application of laws to move difficult playing situations. Singles, doubles and mixed doubles play in tournaments. Note: May be repeated for credit.</p>	<p>KINS 110. Women and Sport. 3 Units Term Typically Offered: Fall, Spring</p> <p>Role of women in sport; an inquiry into traditional and contemporary attitudes and practices regarding the woman's role in the sporting world.</p>
<p>KINS 91. Alpine Skiing and Snowboarding. 1 Unit General Education Area/Graduation Requirement: Understanding Personal Development (E) Term Typically Offered: Fall, Spring</p> <p>Designed to develop proficiency at all skill levels of alpine skiing, beginner through expert, while promoting appreciation of the sport as socio cultural phenomena and lifetime pursuits. Sessions will take place at a scheduled Sierra ski area as well as on campus. Additional fee. Note: May be repeated for credit.</p>	<p>KINS 118A. Martial Arts: Karate. 3 Units General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), Humanities (Area C2) Term Typically Offered: Fall, Spring</p> <p>Explores the ancient tradition of the Asian martial arts in conjunction with actual participation in a selected martial arts course. Asks the student to critically examine the cultural contributions of specific Asian communities such as Japan, China, and Korea, to the Martial Arts as practiced in the U.S.</p>
<p>KINS 92. Beginning Racquetball. 1 Unit General Education Area/Graduation Requirement: Understanding Personal Development (E) Term Typically Offered: Fall, Spring</p> <p>Fundamental theory and practice of the game of racquetball including service, receiving the service, back wall play, basic shots, variations, court positioning and general tactics; history rules, and safety precautions.</p>	<p>KINS 118B. Martial Arts: Tae Kwon Do. 3 Units General Education Area/Graduation Requirement: Humanities (Area C2), Race & Ethnicity Graduation Requirement (RE) Term Typically Offered: Fall, Spring</p>
<p>KINS 93. Intermediate Racquetball. 1 Unit Term Typically Offered: Fall, Spring</p> <p>Development of proficiency at the intermediate level. Includes service and return, backwall play, offensive and defensive shots with emphasis on techniques, strategy and tactics of competition. Note: May be repeated for credit.</p>	<p>KINS 118C. Martial Arts: Tai Chi. 3 Units General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), Humanities (Area C2) Term Typically Offered: Fall, Spring</p> <p>KINS 120. Strength and Conditioning. 3 Units Prerequisite(s): Restricted to Kinesiology, Pre-Exercise Science, or instructor approval. Term Typically Offered: Fall, Spring</p>
	<p>The course is designed to introduce students, persons interested in the personal training field, strength & conditioning and/or prospective coaches at the high school, college, or professional level, public, private settings to what are commonly referred to as training units. These training units are part of the total training program an individual/student/athlete would use to prepare for participation in fitness activity or sport. Included are practical hands-on participatory experiences, program design strategy and practical field tests.</p>

KINS 121. Peak Performance Through Psychological Skills. 3 Units
Term Typically Offered: Fall only

Examination of, and practical experience in, techniques for maximizing sport and creative performance through the development of mental skills and strategies for stress control, imagery, goal setting, and concentration.

KINS 122B. Cardiopulmonary Resuscitation. 1 Unit
Term Typically Offered: Fall, Spring

Designed to meet American Red Cross or American Heart Association Certification in CPR.

Note: May be repeated for credit.

Credit/No Credit

KINS 130. Elementary Physical Education Curriculum and Content. 3 Units

Prerequisite(s): KINS 138; Restricted to junior or senior Kinesiology majors-Physical Education concentration.

Term Typically Offered: Spring only

Overview of the total elementary physical education curriculum. Designed specifically for physical education concentration students. The primary focus will be placed on cooperative activities, movement education, development of locomotor, non-locomotor, manipulative skills, perceptual motor activities, fitness, games, and the correlation of classroom subjects with physical education. Introduces students to developmentally and instructionally appropriate physical education for children. Students will be able to develop a scope and sequence for an elementary physical education curriculum.

KINS 131. Secondary Physical Education Curriculum. 2 Units

Prerequisite(s): KINS 138; Kinesiology major - Physical Education concentration students only.

Term Typically Offered: Fall only

Designed for senior level students in the Kinesiology major, Physical Education Option, Credential Concentration who wish to deliver an effective, meaningful physical education curriculum to diverse students. Covers curriculum components that include content, content organization, distinctive curriculum models and aspects of curriculum application. Students will learn how to sustain a positive learning experience, conceive and plan meaningful curricula for school based instruction, and to link the school program to opportunities for adolescents outside of school.

KINS 132. Planning, Designing and Managing a Fitness Center. 3 Units
Term Typically Offered: Fall, Spring

Designed to provide students with the basic guidelines for starting and managing multiple health and fitness centers in the private setting; focus on initial start-up of a health and fitness center and operating procedures with emphasis on equipment selection and arrangement, employee training, program planning for safe and optimally beneficial health and fitness results.

KINS 133. Integration of Concepts. 3 Units

Prerequisite(s): KINS PETE or PACC majors only; and GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

Critical perspective of how theoretical concepts and integrated knowledge can be applied to various aspects of physical education, sport, and physical activity. Emphasis is on a coherent understanding of the interrelationships that exist in the subdisciplines of kinesiology and other related subject areas. Capstone experience for students in the Physical Education Concentration; must be taken during the final semester of the student's plan of study.

KINS 134. History and Philosophy of Physical Education and Sport. 3 Units

Term Typically Offered: Fall, Spring

Examination of historical events in physical education and sport; examination of how these historical events have influenced the varying philosophies of physical education, sport, and physical activity, past and present; identification of societal forces in cultures which lead to philosophical beliefs and concepts relative to the structure of the disciplines of physical education, sport, and physical activity.

KINS 135. Assessment Strategies in Physical Education. 3 Units
Term Typically Offered: Fall, Spring

Selection, analysis, construction and administration of norm-referenced and criterion-referenced tests used for formative and summative evaluation in the physical education public school setting. Includes both traditional and alternative assessment strategies. Computers are used for data collection, development of assessment instruments, development of grading programs, and for descriptive statistical analysis.

KINS 136. Sport And Aging. 3 Units
Term Typically Offered: Fall, Spring

Considers the positive and negative aspects of vigorous exercise and/or sport activity throughout the aging process. Included will be inquiry into the opportunities for activity among adults over the age of thirty, through the active career years, and beyond.

KINS 137. Sociology Of Sport. 3 Units
Term Typically Offered: Fall, Spring

Analyzes sport as a social institution and the interrelations between sport and societal subsystems. Consideration of the attitudes, values, and behaviors associated with sport. Analyzes contemporary problems associated with sport: race relations, the traditional and emergent role of women, leisure behavior, aggression and violence, and political and economic concerns. Analyzes a sociological problem within the context of sport.

KINS 138. Teaching Strategies in Physical Education. 3 Units

Prerequisite(s): Physical Education Majors, Minors and Liberal Studies PE Concentration.

Term Typically Offered: Fall, Spring

Introduction to teaching in K-12 schools for physical education majors. Topics include: professionalism, philosophy, the CA framework, lesson/unit planning, class management, organization techniques, communication skills, teaching styles and effective teaching skills. (Students will be required to complete four observations off campus and two peer-teaching assignments on campus.) Serves as a prerequisite or corequisite for all skill analysis classes in the major.

KINS 139. Leadership and Communication. 3 Units

Term Typically Offered: Fall, Spring

Social actions and behavioral patterns as influenced by the communication process; experiential approaches to techniques of interpersonal and small group relationships and leadership; the constantly evolving communication media as instruments of behavioral change.

KINS 141. PRO ACT I - Dual Sports. 3 Units

Prerequisite(s): KINS 138

Corequisite(s): KINS 138

Term Typically Offered: Fall only

Designed to prepare physical education students to analyze and teach developmentally appropriate activities designed for dual participation in the public school setting. Student will be given opportunity to learn and apply the basic techniques of tennis, badminton and pickleball as well as the offensive and defensive net strategies for game play. Emphasis will be given to skill acquisition analysis.

KINS 142. Professional Activities II - Creative Movement and Dance. 3 Units

Prerequisite(s): KINS 138

Corequisite(s): KINS 138

Term Typically Offered: Spring only

Students will develop an understanding of the content specific to the design and delivery of educational gymnastics and rhythm/dance activities in a K-12 setting. Gymnastics components include: skills, appropriate progressions, spotting techniques, safety and methods of organization. Rhythm and dance will include basic locomotive skill development; basic rhythm activities; and contemporary, line, square, round, contra, folk, country and Western and social/ballroom dance. Historical and multicultural concepts related to dance are also included.

KINS 144. Analysis of Weight Training & Muscular Fitness. 2 Units

Prerequisite(s): Restricted to Kinesiology, Pre-Exercise Science, Coaching Minor or instructor approval

Term Typically Offered: Fall, Spring

The course is designed to prepare students to teach, design, and implement strength/conditioning for various fitness/athletic populations. Included are skill techniques, skill analysis, class/group organization, equipment analysis, muscular fitness related to athletics, fitness, rehabilitation, and other factors related to effective teaching of muscular fitness in high school, college, private, public and corporate settings. Emphasis is on kinesiology/biomechanics principles, human anatomy, and physiological adaptations to the various strength/conditioning for fitness/athletic training covered in the course.

KINS 145. Pro Act III - Team Sports. 3 Units

Prerequisite(s): KINS 138

Corequisite(s): KINS 138

Term Typically Offered: Fall only

This is an introductory course designed for students within the Kinesiology Major Physical Education Concentration to analyze the teaching of field sports in secondary school settings. This course provides the student the opportunity to learn basic techniques, strategies, and rules of flag football, volleyball, softball, soccer and basketball. Emphasis will be given to skill performance, skill development, teaching methodology, skill analysis, lead-up activities, and sport participation.

KINS 146. PRO ACT IV Individual Sports. 3 Units

Prerequisite(s): KINS 138

Corequisite(s): KINS 138

Term Typically Offered: Spring only

Designed to prepare physical education students to analyze and teach developmentally appropriate activities designed for individual participation in the public school setting. Student will be given the opportunity to learn and apply the basic techniques of golf, track and field and aquatics as well as the strategies necessary for effective participation. Emphasis will be given to skill acquisition and analysis.

KINS 148. ProAct V - Nontraditional Games and Sports. 3 Units

Prerequisite(s): KINS 138

Corequisite(s): KINS 138

Term Typically Offered: Fall only

Students will develop an understanding of the content specific to the design and delivery of non-traditional games and sports. Instruction will focus on performance, skill analysis, methods of teaching, strategies for instruction, and evaluation of skills in K-12 settings. The students will be introduced to a variety of nontraditional games and outdoor activities, as well non-traditional team sports including Lacrosse, Ultimate Frisbee, Speedball, Team Handball, and Field Hockey.

KINS 149. Professional Activities of Health and Skill Related Fitness. 3 Units

Prerequisite(s): KINS 138

Corequisite(s): KINS 138

Term Typically Offered: Spring only

Students will develop an understanding of the content specific to the design/delivery of a variety of innovative fitness/wellness learning experiences for individuals in K-12 settings. Emphasis will be placed on movement and its relationship to the components of health fitness when pursuing and promoting a physically active lifestyle. Students will develop skills in assessing fitness levels and implementing strategies for supporting positive behaviors and attitudes toward fitness/wellness for individuals from diverse populations.

- KINS 150. Exercise and Sport Physiology.** **3 Units**
Prerequisite(s): BIO 30 or BIO 26 or equivalent
General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5, Laboratory (B3)
Term Typically Offered: Fall, Spring
- Sports physiology with special emphasis on studying the various systems in the body that are involved in work, exercise and sport. Training programs to improve these systems and their responses will be discussed in a wide variety of settings including exercise for health, fitness, recreation, and sports competition. Lecture two hours; laboratory three hours.
Note: Does not satisfy exercise physiology requirement for Exercise Science majors.
- KINS 151. Kinesiology.** **3 Units**
Prerequisite(s): BIO 22 or equivalent.
Term Typically Offered: Fall, Spring
- Anatomical concepts and physical laws as applied to human movement emphasizing the effects of individual and environmental variables. Includes analysis of normal and pathological gait. Lecture two hours; laboratory three hours.
- KINS 151A. Biomechanics.** **3 Units**
Prerequisite(s): KINS 151.
Term Typically Offered: Fall, Spring
- Introduction to fundamental mechanical concepts as they apply to human movement. A broad range of human movement will be explored including activities from sport, industrial settings, normal and pathological locomotory skills, and movements involved in manipulating the environment in which we live. Laws of physics, mechanical principles and mathematical concepts will be integrated in studying man as a biological entity. Lecture two hours; laboratory three hours.
- KINS 151B. Biomechanics II.** **3 Units**
Prerequisite(s): BIO 10, BIO 22, KINS 151, and KINS 151A
Term Typically Offered: Fall, Spring
- The study of biomechanical theory in regards to quantifying and analyzing human movement. Human movement will be examined from an advanced perspective, including tissue mechanics, the pathomechanics of chronic disease, and exercise and sport performance.
- KINS 151C. Dance Kinesiology.** **3 Units**
Prerequisite(s): BIO 22 or equivalent.
Term Typically Offered: Fall, Spring
- Human musculoskeletal and neurological systems, energy production, and biomechanical interrelationships of human motion applied to dance. Emphasis on the nervous, muscular and tendinous structures and the mechanical function of levers and force application and injury prevention for the dancer.
- KINS 151D. Applied Kinesiology and Biomechanics.** **3 Units**
Prerequisite(s): BIO 30 with a grade of C or BIO 26
Term Typically Offered: Fall, Spring
- Fundamentals of human movement patterns with an emphasis on applied anatomy, movement principles, movement sequences, applied biomechanics, developmental motor stages and basic movement analysis.
Note: Does not satisfy kinesiology or biomechanics requirements for Exercise Science majors.
- KINS 152. Physiology Of Exercise.** **3 Units**
Prerequisite(s): CHEM 1B or CHEM 6B and BIO 131
Term Typically Offered: Fall, Spring
- Study of circulatory, respiratory and metabolic response to exercise in humans under various physiological and ambient conditions. Lecture 2 hours; laboratory 2.5 hours.
- KINS 152A. Fundamentals of Exercise Programs.** **3 Units**
Prerequisite(s): KINS 152.
Term Typically Offered: Fall, Spring
- Study of current training programs used in different types of activity. Emphasis will be placed on specific training techniques, nutritional needs, methods of testing/evaluating, and special considerations needed for various populations.
- KINS 152B. Exercise Physiology of Women.** **2 Units**
Term Typically Offered: Fall, Spring
- Examines the general physiology of women, how physical activity affects women's physiological functions, and how physiological functions affect women in sport and exercise performance. A comprehensive review of scientific literature is included.
- KINS 152C. Prolonged Exercise.** **2 Units**
Prerequisite(s): An introductory college biology or zoology course.
Term Typically Offered: Fall, Spring
- Extensive review of the energy metabolism, cardiovascular and pulmonary function, endocrine response, nutritional need, training effect, and biochemical response to prolonged exercise of 1-6 hours in duration.
- KINS 152D. Blood Lactate and Exercise.** **2 Units**
Prerequisite(s): KINS 152.
Term Typically Offered: Fall, Spring
- Reviews the basic aspects of lactate formation, release, and uptake by skeletal muscle and blood during exercise and training. Presents recent clinical and research findings related to physical performance.
- KINS 152S. Energy Production & Sports Performance.** **3 Units**
Prerequisite(s): KINS 152 and co-enrollment in KINS 153 or Instructor Permission Recommended: FACS 10 & FACS 113
Term Typically Offered: Fall, Spring
- Study of ergogenic aids, exercise nutrition and exercise performance enhancing drugs/supplements and their physiological effects on energy production and exercise performance. Lecture: 3 hours
- KINS 153. Cardiovascular Testing and Exercise Prescription.** **3 Units**
Prerequisite(s): KINS 152 or instructor permission.
Term Typically Offered: Fall, Spring
- Designed to train exercise leaders, exercise test technologists, and exercise program directors. Focus is upon development of basic skills, both administrative and technical, needed to develop a program of graded exercise testing and exercise prescription for asymptomatic and symptomatic populations. Lecture two hours; laboratory three hours.
- KINS 153C. Cardiac Rehabilitation & Exercise Electrocardiography.** **3 Units**
Prerequisite(s): KINS 153 or Instructor Permission
Term Typically Offered: Fall, Spring
- Study of cardiac rehabilitation and exercise electrocardiography, reviews clinical pathophysiology and ECG abnormalities during rest, exercise stress testing and cardiac rehabilitation. Lecture 3 hours.

KINS 154A. Principles and Techniques in a Clinical Setting. 3 Units

Prerequisite(s): Athletic Training or Kinesiology majors only; instructor permission

Term Typically Offered: Fall, Spring

Introduction to professional ethics and attire, the allied health care system, patient transfers, wheelchair and ambulation aids, medical terminology and record keeping. Fundamental principles and concepts underlying the therapeutic application of modalities, including methods of administering heat, cold, electricity, sound, light and water are covered.

KINS 154B. Management and Health Care Administration in Athletic Training. 3 Units

Prerequisite(s): Instructor permission only

Term Typically Offered: Fall, Spring

Organization, management and health care administration of athletic training programs. Includes communication skills, budget, facility design and management, legal aspects, drug testing, education, computer use, insurance and record keeping, personnel development (job search, CEUs, licensure), professional and governing organizations, athletic training reporting systems, emergency action plans, blood borne pathogen procedures, preparticipation exam management, health care issues and fundraising.

KINS 154C. Therapeutic Modalities Laboratory. 1 Unit

Prerequisite(s): BIO 22 or BIO 26, and KINS 154A, and KINS 156, and instructor permission.

Term Typically Offered: Fall, Spring

Techniques and clinical skills in the treatment of injuries using therapeutic modalities. Hands-on experience in the clinical application of contemporary therapeutic modalities (electrotherapeutic modalities, hydrotherapeutic modalities, cryotherapy, radiant energy, paraffin, intermittent compression units, traction units, massage) including patient preparation, set-up, dosage determination and operational procedures. Lab two hours.

KINS 155A. Clinical Evaluation of the Upper Extremity. 2 Units

Prerequisite(s): BIO 22 or BIO 26, and KINS 154A, and KINS 156.

Term Typically Offered: Fall, Spring

Analyzes and performance of evaluation procedures of the upper extremity, head and spine. Includes the development of skills in a patient interviewing, palpation methods, manual muscle testing, neurological and orthopedic assessments and special tests.

KINS 155B. Clinical Evaluation of the Lower Extremity. 2 Units

Prerequisite(s): BIO 22 or BIO 26, KINS 154A, KINS 156.

Term Typically Offered: Fall, Spring

Analyzes and performance of evaluation procedures of the lower extremity, trunk and low back. Includes the development of skills in patient interviewing, palpation methods, manual muscle testing, neurological and orthopedic assessments and special tests.

KINS 156. Care Of Athletic Injuries. 3 Units

Term Typically Offered: Fall, Spring

Application and methods of caring for and preventing athletic injuries through strapping, padding, conditioning, etc.; practical application of first aid and a basic introduction to treatment and rehabilitation of common athletic injuries.

KINS 156A. Emergency Response. 2 Units

Term Typically Offered: Fall, Spring

Underlying principles and applied techniques of first aid. Meets the requirements for the Emergency Response and CPR for the Professional Rescuer certificates of the American Red Cross. Lecture one hour, laboratory two hours.

KINS 157. Therapeutic Exercise. 3 Units

Prerequisite(s): BIO 22 or BIO 26; KINS 151 or KINS 151D; and KINS 155A or KINS 155B

Term Typically Offered: Fall, Spring

Biomechanical principles in the prescription of musculoskeletal rehabilitation exercises. Topics include passive, active and resistive range of motion, manual muscle testing, and exercises for strength, stamina and suppleness for every part of the body.

KINS 158. Motor Learning. 3 Units

Prerequisite(s): BIO 22 or BIO 25

Term Typically Offered: Fall, Spring

Study of the motor and cognitive characteristics of individuals involved in learning and controlling motion skills and the conditions that can influence that learning and control. Lecture two hours; laboratory three hours.

KINS 160. Sport and Exercise Psychology. 3 Units

Term Typically Offered: Fall, Spring

Application of research findings as they apply to psychological performance factors in sport, physical education and exercise settings, such as motivation/adherence, stress management, personality and psychological skills training.

KINS 161. Theory of Sport and Fitness Management. 3 Units

Term Typically Offered: Fall only

This course is designed to introduce students to the basic theory underlying the multiple components of the sport and fitness industry. Fundamental concepts and theories of sports and fitness management will be applied to various segments of the sports industry: professional sports, collegiate sports, community sports and recreation, intramural sports and corporate fitness.

KINS 165. Theory of Coaching. 3 Units

Term Typically Offered: Spring only

Students will be introduced to coaching theory as it relates to developing leadership skills to work with athletes, and teams in the context of organized sport. Topics will include motivation, self-esteem, leadership, communication, competition and cooperation, team management, and optimal performance skills (goal setting, concentration, composure, recovery from mistakes/loss, consistency, and stress management).

KINS 166. Ethics, Inclusion and Equity in Coaching. 3 Units

Term Typically Offered: Fall only

This course educates future coaches on the moral and ethical dilemmas typically encountered in competitive athletics. Students will also develop strategies to address various forms of exclusion and inequity in sports and athletics.

- KINS 167. The African American Sport Experience.** 3 Units
Term Typically Offered: Fall, Spring
- Examination of the experiences of the African American athlete in sport and society, from the period of enslavement to the contemporary era. Topics include gender experiences, intercollegiate experiences, professional sport, and the Olympic games, as well as the interconnections between African American communities and the role of sport. The experiences of African Americans will be compared to those of other ethnic and cultural groups.
- KINS 168. Sport and Film.** 3 Units
Term Typically Offered: Fall, Spring
- This course uses sport films to examine relationships of power in society and the way those relationships are contested and often reinforced. Particular attention will be paid to cultural tensions and negotiations around issues related to race, gender, class, and sexuality. This course utilizes films, with accompanying readings, to understand the institution of sport in American culture, as well to understand how sport is setting where issues of race, class, gender, religion, ability/disability, and sexuality are contested and reinforced.
- KINS 169. The Modern Olympic Games.** 3 Units
Term Typically Offered: Fall, Spring
- A study of the historical development of the modern Olympic Games. Areas covered include politics, nationalism, commercialism, marketing and amateurism. The contribution of athletes and administrators who have help shape the Olympic tradition will be assessed.
- KINS 171. Adapted Physical Education: Basic Skill/Fitness Activities and Assessment.** 3 Units
Prerequisite(s): KINS 177.
Term Typically Offered: Fall, Spring
- Development of competencies for planning, developing, and evaluating effective skill and fitness activities for students with disabilities. Emphasis will be placed on basic skill development, fitness and traditional and alternative assessment strategies and postures assessment and programming for students with disabilities. Information regarding the application of specific standardized assessment instruments for placement decisions will be examined. Students will be required to participate in 15 hours of service learning. Class meets for 2 hours lecture and 2 hours activity.
- KINS 172. Movement Education.** 3 Units
Prerequisite(s): Liberal Studies or Child Development majors only, or instructor permission
Term Typically Offered: Fall, Spring
- Examination of activities and theoretical concepts that relate to the physical, social, emotional and intellectual development of the individual. Content includes: health-related physical fitness, movement concepts, stability, locomotor and manipulative skills, rhythms and dance, gymnastics, games and sport activities.
- KINS 176. Perceptual Motor Development.** 3 Units
Term Typically Offered: Fall, Spring
- Study of the genetic, prenatal, perinatal and postnatal factors affecting the sequential perceptual motor development of children. Inquiry is made into reflexes, sensory motor testing and stimulation, perceptual motor testing and remedial activities in motor development.
- KINS 177. Introduction to Adapted Physical Education.** 3 Units
Term Typically Offered: Spring only
- Historical and philosophical bases for adapted physical education, including the development and management of programs with emphasis on the psychomotor, affective and cognitive domains. The impact of federal and state legislation, legal liability and special health and safety problems will be studied in relationship to the role of the adapted physical education teacher, the interdisciplinary team, the parent and the pupil.
- KINS 179. Adapted Physical Education: Program Planning.** 3 Units
Prerequisite(s): KINS 171 and KINS 177.
Term Typically Offered: Fall, Spring
- Study of the variables in physical education curriculum and program planning - assessment, goals and objectives, development of program content, and evaluation - as related to individuals with disabilities.
- KINS 194A. Assigned Field Experience in Kinesiology.** 1 - 2 Units
Term Typically Offered: Fall, Spring
- Assigned experience in the conduct of physical education. Students keep records of daily experiences and prepare periodic progress reports. Students receive one unit of credit for three hours per week for one semester of field experience.
Note: Registration requires prior approval of the department coordinator. May be repeated for a total of five units.
- Credit/No Credit
- KINS 194B. Assigned Internship in Exercise Science.** 1 - 3 Units
Prerequisite(s): KINS 151 and/or KINS 152; or instructor permission.
Term Typically Offered: Fall, Spring
- Assigned internship other than in the Human Performance Lab. The student will assist in laboratory experiments and other special procedures; will learn the operation of equipment and sequentially will be expected to administer tests and interpret the results. Interns will be expected to attend monthly conferences.
Note: May be repeated for a total of 3 units.
- Credit/No Credit
- KINS 194C. Assigned Field Experiences in Pre-Physical Therapy.** 1 - 2 Units
Term Typically Offered: Fall, Spring
- Assigned experience under the direction of a physical therapist. Students keep records of their experiences. Registration requires prior approval of the pre-physical therapy coordinator.
Note: May be repeated up to a total of 6 units. Open to Physical Education majors in the pre-physical therapy option.
- Credit/No Credit
- KINS 194D. Assigned Field Experience in Coaching.** 1 - 2 Units
Term Typically Offered: Fall, Spring
- Assigned experience in coaching (two hours daily for the full schedule of the sport for two units of credit). Students keep records of daily experiences and prepare periodic progress reports. Succeeding enrollments should be in different sports.
Note: May be repeated for a total of 6 units.
- Credit/No Credit

KINS 194E. Assigned Internship in Adapted Physical Education. 1 - 3 Units

Prerequisite(s): Any two of the following: KINS 171, KINS 176, KINS 177, or KINS 179; permission of adapted credential advisor.

Term Typically Offered: Fall, Spring

Assigned experience in the conduct of Adapted Physical Education Programs. Students will keep records of their experiences. Three clock hours per week per unit of credit. Credential candidates may not use in lieu of Phase III requirements.

Note: May be repeated up to six times for credit for a maximum of 6 units.

Credit/No Credit

KINS 194F. Assigned Field Experience in Allied Health. 1 - 3 Units

Term Typically Offered: Fall, Spring

Practical experience in Occupational Therapy, Chiropractic or other allied health professions. Students keep records of their experiences while working under the direct supervision of a licensed clinician. Registration requires prior approval of a Pre-Physical Therapy advisor.

Note: May be repeated up to a total of 6 units.

Credit/No Credit

KINS 194G. Assigned Professional Experience. 1 - 2 Units

Term Typically Offered: Fall, Spring

Assigned professional experience in organization and evaluation of physical education, athletic training, exercise or pre-therapy. Students work closely with a Sacramento State faculty member and receive one unit of credit for three hours of work per week for one semester.

Note: May be repeated for a total of 3 units toward graduation. These units may not be applied to the major.

Credit/No Credit

KINS 194H. Assigned Field Experience in Athletic Training. 1 - 3 Units

Prerequisite(s): Instructor's permission only

Term Typically Offered: Fall, Spring

Practical experience in athletic training under the direct supervision of an NATA Certified Athletic Trainer in one of the following settings: professional athletics, high school, clinic, industrial or private business.

Note: Registration requires prior approval of the program director. May be repeated up to a total of 3 units.

Credit/No Credit

KINS 195A. Directed Field Experience in Kinesiology. 1 - 2 Units

Term Typically Offered: Fall, Spring

Directed experience in the conduct of physical education. Students keep records of daily experiences and prepare periodic progress reports. Students receive one unit of credit three hours per week for one semester of field experience.

Note: Registration requires prior approval of the department coordinator. May be repeated for a total of 5 units.

Credit/No Credit

KINS 195B. Directed Internship in Exercise Science. 1 - 3 Units

Prerequisite(s): KINS 151 and/or KINS 152; or instructor permission.

Term Typically Offered: Fall, Spring

Directed internship in the Human Performance Laboratory under the supervision of one or more members of the faculty. The student will assist in laboratory experiments and other special procedures; will learn the operation of equipment and sequentially will be expected to administer tests and interpret the results. Interns will be expected to attend monthly conferences.

Note: May be repeated for a total of 3 units.

Credit/No Credit

KINS 195C. Directed Observation in Athletic Training. 1 - 2 Units

Prerequisite(s): Requires prior approval of Program Director

Term Typically Offered: Fall, Spring

Planned student observation of the health care practices of the Athletic Trainer and other sports medicine personnel in a clinical setting. Selected NATA competencies may be completed on site. 60 hours per unit.

Note: May be repeated for up to 4 units total credit.

Credit/No Credit

KINS 195D. Practicum in Athletic Training. 4 Units

Prerequisite(s): Instructor's permission only

Term Typically Offered: Fall, Spring

Supervised athletic training experience in the athletic training room under the direct supervision of a Certified Athletic Trainer. Included are a series of guest lecturers from the medical and paramedical field presenting lectures and demonstrations on topics in sports medicine. 300 hours plus all lectures are 4 units.

Note: Can be taken a minimum of four times and maximum of five times for credit, with the total units not to exceed 20 units.

Credit/No Credit

KINS 196. Experimental Offerings in Kinesiology. 2 - 3 Units

Term Typically Offered: Fall, Spring

Guided study and discussion of problems and topics in kinesiology. Supplemental readings, reports, and term projects are included.

Proseminars dealing with specific topics or problems will be scheduled when the need exists.

Note: May be repeated for credit up to three times for credit.

KINS 198A. Seminar in Physical Education - Elementary. 2 Units

Prerequisite(s): KINS 381 and EDTE 474A.

Corequisite(s): KINS 380 and EDTE 474B.

Term Typically Offered: Fall, Spring

Open to physical education single subject credential candidates this course accompanies an eight-week elementary student teaching experience. The focus is twofold: a) engage student teachers in the planning, instruction and assessment of an elementary physical education program aligned with state standards b) support student teachers with the Performance Assessment for California Teachers (PACT). Candidates will be expected to create a class environment that ensures the safe and productive participation in developmentally appropriate elementary physical education.

KINS 198B. Seminar in Physical Education - Secondary. 1 Unit**Prerequisite(s):** KINS 198A.**Corequisite(s):** EDTE 474B.**Term Typically Offered:** Fall, Spring

Open to physical education single subject credential candidates this eight-week course accompanies an eight-week secondary student teaching experience. The focus is twofold: a) engage student teachers in the planning, instruction and assessment of a secondary physical education program aligned with state standards b) support student teachers with the Performance Assessment for California Teachers (PACT). Candidates will be expected to create a class environment that ensures the safe and productive participation in developmentally appropriate secondary physical education.

KINS 199. Directed Individual Study. 1 - 3 Units**Term Typically Offered:** Fall, Spring

Individual research, project or directed reading. Open only to majors who appear competent to carry on individual work. Approval of the faculty under whom the individual work is to be conducted, and approval of the Department Chair required. Formal written report required.

Note: May be repeated for credit.

Credit/No Credit

KINS 203. Specificity of Conditioning. 3 Units**Term Typically Offered:** Fall, Spring

Survey of current research in training regimen of conditioning programs designed to optimize physical conditioning in preparation for specific athletic competitions.

KINS 209. Graduate Studies in Kinesiology. 3 Units**Term Typically Offered:** Fall, Spring

An overview of the varied subdisciplines, such as sport pedagogy, motor learning, strength and conditioning, sport psychology, cultural studies of sport, exercise physiology, and biomechanics. Students will read research from each subdiscipline and be able to make interdisciplinary connections.

KINS 210. Research Methods in Kinesiology. 3 Units**Term Typically Offered:** Fall, Spring

Various methods and techniques of educational research as they are commonly applied in the field of Kinesiology; study of examples of their use in published research; practice in applying them to problems of interest to the student; analyzing data and writing research reports.

KINS 211. Research Seminar. 1 Unit**Term Typically Offered:** Fall, Spring

Students develop and defend research proposals. Students registering for KINS 500 for the first time must register for KINS 211 concurrently.

Note: Student must re-enroll if proposal is not completed and accepted during the first registration

Credit/No Credit

KINS 236. Sport and Society. 3 Units**Term Typically Offered:** Fall, Spring

Society and the institution of sport interact in a variety of ways. Students are given the opportunity to investigate and discuss in-depth a wide range of topics linking sport and society. Among these topics are violence and aggression, politics, racism, sexism, counter-cultures, mass media and the future of sport. The application of research to the real world is an integral part of the course.

KINS 245. Administration of Physical Education and Athletics. 3 Units**Term Typically Offered:** Fall, Spring

The organization and administration of physical education and athletic programs and the functional considerations involved. Primary areas include: personnel, curriculum, budgeting, contract management, public relations, liability and safety, critical issues, and procedures essential to quality programs.

KINS 250. Advanced Exercise Physiology Laboratory. 3 Units**Prerequisite(s):** KINS 152 or instructor permission.**Term Typically Offered:** Fall, Spring

Describes, explains, and practices the application of selected measurement techniques in the laboratory as they relate to pertinent research in the areas of exercise physiology. Emphasis will be placed on the use and calibration of equipment as well as adaptation of equipment to different research settings. Lecture two hours; laboratory three hours.

KINS 252. Advanced Exercise Physiology. 3 Units**Prerequisite(s):** 1 year of General Chemistry, BIO 131 or equivalent, KINS 152 or equivalent, and KINS 153 or equivalent.**Term Typically Offered:** Fall, Spring

Human physiological responses, from the cellular level to organ system level, to both acute and chronic exercise will be studied in detail with an emphasis on integrative physiological responses to exercise. The course will emphasize a complex regulatory systems approach to the changes and adaptations that occur with exercise. Specifically, how the regulatory systems dictate these changes. The course will aid in the understanding of both theoretical and integrative concepts in the area of exercise physiology. The course will provide a solid foundation that is needed to review and understand complex research in exercise physiology.

KINS 254. Advanced Biomechanics. 3 Units**Prerequisite(s):** KINS 151, KINS 210; or instructor permission.**Term Typically Offered:** Fall, Spring

Study human movement from a mechanical perspective utilizing laws of physics and relevant functional anatomical principles. Human movement will be looked at from a broad perspective, including basic movements to more complex skills. Students will use a variety of techniques to study the biomechanical principles of movement production including laboratory work, library research and examination of the appropriate theoretical constructs. Lecture two hours; laboratory three hours.

KINS 258. Research in Motor Learning. 3 Units**Prerequisite(s):** KINS 158, KINS 210, or instructor permission.**Term Typically Offered:** Fall, Spring

Designed to provide students with a solid foundation experience in motor learning; focus is on an intensive examination of a selected topic in motor learning; directed individual pilot study and the nature of original laboratory research.

- KINS 259. Research in Exercise Physiology.** 3 Units
Prerequisite(s): KINS 152, KINS 210, or instructor permission.
Term Typically Offered: Fall, Spring
- Provides students with a solid foundation experience in human performance research. Primary focus is on intensive examination of selected advanced topics in exercise physiology.
- KINS 260. Psychology Of Sport.** 3 Units
Term Typically Offered: Fall, Spring
- The in-depth study of parameters of human behavior as specifically related to sport including personality factors, motivational techniques, expectancy effects, group dynamics, leadership issues, aggression, arousal, concentration, and goal setting.
- KINS 262. Psychological Aspects of Peak Performance.** 3 Units
Term Typically Offered: Fall, Spring
- In-depth examination of current research relating to theories of and techniques for performance enhancement in sport and dance through psychological skills strategies.
- KINS 270. Instructional Strategies for Physical Activity and Sport.** 3 Units
Term Typically Offered: Fall, Spring
- Study of theoretical concepts, models and research that relates to organizational and instructional strategies for physical activity and sport. Along with developing problem solving and critical thinking skills, provides the student with the opportunity to partake in self-directed and cooperative learning experiences, and develops communications skills that will enhance staff development and teaching of individuals and groups in a variety of physical activity and sport environments.
- KINS 276. Teaching and Coaching Effectiveness.** 3 Units
Term Typically Offered: Fall, Spring
- Study of the research methodology, systematic observation, and findings that relate to effective teaching and coaching in the school environment. Provides an analytical approach to the investigation of teaching and coaching behaviors by examining models and critical variables involved in describing, analyzing and interpreting the instructional process.
- KINS 294A. Contemporary Topics in Sport Performance.** 1 - 3 Units
Prerequisite(s): KINS 210.
Term Typically Offered: Fall, Spring
- Advanced research seminars on topics of contemporary interest. Specific topics will vary.
Note: May be taken more than once for credit, provided topic is not repeated.
- KINS 294B. Contemporary Topics in Exercise Physiology.** 1 - 3 Units
Prerequisite(s): KINS 210.
Term Typically Offered: Fall, Spring
- Advanced research seminars on topics of contemporary interest. Specific topics will vary.
Note: May be taken more than once for credit, provided topic is not repeated.
- KINS 294C. Special Topics in Biomechanics.** 1 - 3 Units
Prerequisite(s): KINS 254.
Term Typically Offered: Fall, Spring
- Advanced research seminars on varied topics of contemporary interest.
Note: May be taken more than once for credit, provided topic is not repeated.
- KINS 295. Practicum.** 1 - 3 Units
Prerequisite(s): Approval of graduate faculty advisor and graduate coordinator.
Term Typically Offered: Fall, Spring
- Graduate experiences in a practical setting.
Note: Open only to graduate students within the Physical Education Department.
- Credit/No Credit
- KINS 296A. Experimental Elementary Physical Education Workshop.** 1 Unit
Term Typically Offered: Fall, Spring
- Overview of the total elementary physical education curriculum. Major focus will be on appropriate practices, national content standards, establishing a learning environment, movement concepts, skill themes, and health-related physical fitness. Designed to meet the physical education component for graduate students seeking a multiple subject credential.
Note: Not open to undergraduate students, and it does not substitute for KINS 172.
- Credit/No Credit
- KINS 299. Directed Individual Study.** 1 - 3 Units
Term Typically Offered: Fall, Spring
- Individual research, project, or directed reading.
Note: Open only to majors who appear competent to carry on individual work. Admission to this course requires approval of the graduate advisor and the graduate coordinator. Formal written report required. May be repeated for credit.
- Credit/No Credit
- KINS 380. Methods of Teaching Elementary Physical Education.** 1.5 Units
Prerequisite(s): KINS 130,
Corequisite(s): KINS 198A
Term Typically Offered: Fall, Spring
- KINS 380 is an 8 week course designed for the future physical educator who wishes to deliver an effective, meaningful elementary physical education curriculum to a diverse population of students. Emphasis is on physical education pedagogy - the skills and techniques that successful teachers use to ensure student learning.
- KINS 381. Methods of Teaching Secondary Physical Education.** 1.5 Units
Corequisite(s): EDTE 366A
Term Typically Offered: Fall, Spring
- An 8 week course, KINS 381 is designed for the future physical educator who wishes to deliver an effective meaningful physical education curriculum to a diverse population of students. Emphasis is on physical education pedagogy - the skills and techniques that successful teachers use to ensure student learning.

KINS 500. Culminating Experience. 1 - 4 Units

Prerequisite(s): Advanced to candidacy. Completion of KINS 211 or concurrent enrollment.

Term Typically Offered: Fall, Spring

Completion of a thesis or project under the direction of a department committee.

Korean (KORN)

KORN 1A. Elementary Korean 1A. 5 Units

Term Typically Offered: Fall only

Develops elementary spoken Korean language, reading and writing in Hangul, and the practical skills required to effectively use the modern language. The relationship between language and culture will also be emphasized. Includes an emphasis on the culture, customs, and traditions of Korea.

KORN 1B. Elementary Korean 1B. 5 Units

Prerequisite(s): KORN 1A

General Education Area/Graduation Requirement: Foreign Language Graduation Requirement, Humanities (Area C2)

Term Typically Offered: Spring only

Continuation of KORN 1A. Develops elementary spoken Korean language, reading and writing in Hangul, and the practical skills required to effectively use the modern language. The relationship between language and culture will also be emphasized. Includes an emphasis on the culture, customs, and traditions of Korea.

KORN 2A. Intermediate Korean 2A. 4 Units

Prerequisite(s): KORN 1B

Term Typically Offered: Fall only

Intermediate Korean on the further development of speaking, reading, and grammatical skills through dialogues, discussions, and reading.

Note: Meets the Foreign Language Graduation Proficiency Requirement.

KORN 2B. Intermediate Korean 2B. 4 Units

Prerequisite(s): KORN 2A

Term Typically Offered: Fall, Spring

Continuation of KORN 2A. Further development of speaking, reading, grammar, and composition skills at the intermediate to intermediate-high level.

Note: Meets the Foreign Language Graduation Proficiency Requirement.

KORN 920S. Overseas Study - Lower Division. 0.5 - 99 Units

Term Typically Offered: Fall, Spring

KORN 1920S. Overseas Study - Upper Division. 0.5 - 99 Units

Term Typically Offered: Fall, Spring

Labor Studies (LBRS)

LBRS 100. Labor and the American Social Structure. 3 Units

Prerequisite(s): GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: GE AREA D, Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

Introduction to the study of labor in the U.S., including the nature of work, characteristics of the work force, and an overview of contemporary labor and industrial relations systems within the framework of current U.S. economic and political developments.

Cross Listed: SOC 176; only one may be counted for credit.

LBRS 195. Labor Studies Internship. 1 - 3 Units

Term Typically Offered: Fall, Spring

Supervised work experience or research in relevant institutions providing an opportunity to apply classroom theories and principles to the "real world." Partial supervision may be supplied by host institution. Requires approval of the Labor Studies Coordinator.

Credit/No Credit

LBRS 199. Special Problems. 1 - 3 Units

Term Typically Offered: Fall, Spring

Individual projects or directed reading open to students competent to carry on individual work under the direction of a faculty sponsor. Admission requires approval of the faculty sponsor and the Labor Studies Coordinator.

Credit/No Credit

Learning Communities (LCOM)

LCOM 99. Learning Communities. 1 - 15 Units

Term Typically Offered: Fall, Spring

Learning Skills (LS)

LS 101. ELM Self-Paced Course. 3 Units

Prerequisite(s): Score of 44-48 on the ELM.

Term Typically Offered: Fall, Spring

Review of elementary algebra and measurement geometry through a program of independent study.

Liberal Arts (LIBA)

LIBA 200C. Culture and Expression: The Modern Period. 3 Units

Prerequisite(s): LIBA 200A and LIBA 200B; Graduate Standing

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

Interdisciplinary seminar on cultural movements, figures, and art forms of the modern period from the Baroque to the present. Focus on the West with some global comparison. Emphasis on theoretical perspectives, methods, and research techniques germane to the liberal arts.

Note: Writing Intensive

LIBA 204. Performance Of Culture.**3 Units****Term Typically Offered:** Fall, Spring

Study of the relationship between discourses of culture, politics, aesthetics, and live performance. Critical theories drawn from new methodology and ideologies will be applied to theatrical representations, both classical and contemporary.

Cross Listed: THEA 204; only one may be counted for credit.

LIBA 208. Politics in the Age of Antichrist: Prophecy and Society, 1500-1800.**3 Units****Term Typically Offered:** Fall, Spring

Examination of the role of the Judeo-Christian apocalypse in the creation of modern realms of discourse, including political thought, modern science, and secular values generally.

LIBA 210. Gender and Religion in Cross-Cultural Perspective.**3 Units****Term Typically Offered:** Fall, Spring

Exploration of the relationships and roles of women and men in the context of religious life. May focus extensively on one or more particular religious traditions cross-culturally, or draw on a wider spectrum of examples. Special attention paid to the complementary nature of men's and women's roles in many religious traditions; and also the way that male perspectives have dominated many areas of formal religious discourse, noting the dissenting voices of women often hidden in more informal types of expression.

Cross Listed: HRS 210; only one may be counted for credit.

LIBA 211. Psychological Issues in Films.**3 Units****Term Typically Offered:** Fall, Spring

Examines the presentation of psychological themes in contemporary feature films. It will consider such topics as: Adolescence, Adulthood and Aging, Homosexuality, Drug Addiction, and Physical Disability as they are portrayed in films created for a mass market.

Cross Listed: PSYC 296M; only one may be counted for credit.

LIBA 215. Images of America at Home and Abroad.**3 Units****Term Typically Offered:** Fall, Spring

Study and analysis of uniquely American cultural patterns, social institutions, and core values, and how they are perceived both in America and abroad.

LIBA 226. Wisdom and Apocalyptic Literature.**3 Units**

Prerequisite(s): LIBA 200A or graduate status in History or instructor permission.

Term Typically Offered: Fall, Spring

Examines two of the more creative literary genres that make up the canonical and deuterocanonical literature of the Jewish and Christian Bibles. Both the historical and theological underpinnings of wisdom and apocalyptic writing will be explored in-depth, with some consideration given to literary analogues in Egyptian, Mesopotamian and Greek cultures. Significant research into wisdom and apocalyptic writings outside of the testament framework required.

Cross Listed: HRS 226; only one may be counted for credit.

LIBA 232. Moral Dilemmas in Modern Medicine.**3 Units****Term Typically Offered:** Fall, Spring

Philosophic investigation of moral problems in the medical world, including decision making, rights and values pertaining to human life, and the principles of justice applied to the health care field.

LIBA 243. The Holocaust.**3 Units****Term Typically Offered:** Fall, Spring

Analytical study of the Nazi extermination of European Jewry, with particular emphasis given to the roots of exterminationist anti-Semitism, and to the cultural response of Jews and non-Jews to the tragedy of mass-murder.

LIBA 299. Special Problems.**1 - 3 Units****Term Typically Offered:** Fall, Spring

Individual projects or directed reading.

Note: Open only to students who have demonstrated competence in undertaking individual work. Enrollment requires approval of the supervising faculty member and the Program Coordinator. No more than 6 units total of LIBA 299 may be counted toward the major.

Credit/No Credit

LIBA 500. Culminating Experience.**3 Units**

Prerequisite(s): Advanced to candidacy and permission of the Program Coordinator.

Term Typically Offered: Fall, Spring

Completion of a thesis, project or comprehensive examination.

Liberal Studies (LBST)

LBST 110. California Studies.**3 Units**

Prerequisite(s): GOVT 1 or equivalent.

Term Typically Offered: Fall, Spring

Multidisciplinary, analytical view of California that identifies its ethnic and racial diversity within the political, economic and social development of the state. Examines the environmental and geographic dimensions of the state as well as the demographic and land-use trends that have contributed to California's uniqueness.

LBST 194. Liberal Studies Cooperative Education Experience.**3 Units**

Prerequisite(s): Upper division status, and instructor permission.

Term Typically Offered: Fall, Spring

Cooperative Education (Co-op) relates academic theory to professional practice by providing paid work experience in schools or related settings. Students gain field experience through supervised employment in school districts and other education-related settings.

Note: May be repeated once for credit.

Credit/No Credit

Linguistics (LING)

LING 199. Special Problems in Linguistics.**1 - 3 Units****Term Typically Offered:** Fall, Spring

Individual problems in any area of linguistics: theoretical, descriptive, applied, historical or comparative.

Credit/No Credit

Management (MGMT)

MGMT 10. Introduction to Business Law.

3 Units

Term Typically Offered: Fall, Spring

Study of business law for the future business professional. Introduces students to basic business problems that have legal consequences. Encourages the identification of ethical concerns along with the ability to anticipate potential legal problems with the goal of preventing them. Covers introduction to the legal system; court procedures; contracts and sales; business organizations; real and personal property; labor and employment law; product liability, and the government regulation of business.

MGMT 20. Introduction To Business.

3 Units

Term Typically Offered: Fall, Spring

Provides an overview of the various basic functions of business and how they interface. Topics will include accounting, finance, marketing, human resources management, management information systems, operations management, real estate, and international business.

MGMT 21. First Year Seminar: Becoming an Educated Person. 3 Units

General Education Area/Graduation Requirement: Understanding Personal Development (E)

Term Typically Offered: Fall, Spring

Intended to provide students with an introduction to the nature and possible meanings of higher education and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Provides students with the opportunity to interact with fellow students and the seminar leader and to build a community of academic and personal support.

MGMT 101. Legal Environment of Business.

3 Units

Prerequisite(s): Must be a Business pre-major, Business major (any concentration), a business minor, a Construction Mgmt major, a Mech Engr Tech major, or a Music (Music Mgmt) major to enroll in this course.

Term Typically Offered: Fall, Spring

Study of business law for the business professional. Aside from investigating substantive law, the course stresses critical thinking and analytical evaluation of contemporary business problems. Encourages the identification of ethical concerns along with the ability to anticipate potential legal problems with the goal of preventing them. Covers introduction to the legal system; court procedures; contracts and sales; business organizations; real and personal property; labor and employment law; product liability, and the government regulation of business. OBE 16 or the equivalent is recommended.

MGMT 102. Business Communications.

3 Units

Prerequisite(s): Completion of Area A in General Education and ENGL 20. Recommend COMS 2 and COMS 4.

Term Typically Offered: Fall, Spring

Provides basic concepts for understanding and practice of communication in the changing world of business for managers and professionals. It examines the use of language and conversations in business settings and their role in coordinating actions, resolving breakdowns in work performance, and providing customer satisfaction. Topics include: Practice in professional styles of business writing and formats, preparation of a formal report, development of competence in business conversation skills (written, electronic, and oral), and other selected topics. International, technical, and linguistic developments are integrated into the various applications of business communication.

MGMT 117. Business, Ethics and Society. ✍

3 Units

Prerequisite(s): GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: GE AREA D, Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

Investigation of contemporary business issues and management dilemmas in relation to broad social concerns. Focus is upon public and private decision making in the business environment and how business practices, ethics, and social concerns interrelate. Topics such as the nature of property and profits, efficiency and human values, the balancing of claims of owners, employees, customers, and others in community, corporate responsibility, corporate governance, government regulation and international dimensions of public policy will be covered.

Management Information Systems (MIS)

MIS 1. Word Processing.

1 Unit

Term Typically Offered: Fall, Spring

The course teaches Microsoft Office Word that establishes a student's fundamental computer skills required to perform business related tasks. Topics include developing and refining a document; identifying and correcting errors; formatting, modifying and printing documents; working with pictures, graphics, tables and charts; creating reports, forms, references and mailings; securing content and sharing documents, exploring advanced document features and macros, etc.
Credit/No Credit

MIS 2. Spreadsheets.

1 Unit

Term Typically Offered: Fall, Spring

The course teaches Microsoft Office Excel that establishes a student's fundamental computer skills required to perform business related tasks. Topics include creating and formatting a worksheet; summarizing and analyzing data; using decision making tools; working with logical, statistical, database and financial functions, sharing data with other applications, etc.

Note: Not open to students receiving credit for CSC 6B.

Credit/No Credit

MIS 3. Presentation Graphics.
Term Typically Offered: Fall, Spring

The course teaches Microsoft Power Point that establishes a student's fundamental computer skills required to perform business related tasks. Topics include creating, refining and delivering presentations; working with graphics, tables and charts; inserting and enhancing pictures, shapes, sound and video; using templates, slide masters and text boxes, printing, securing and sharing presentations, etc.
 Credit/No Credit

MIS 4. Database Applications.
Term Typically Offered: Fall, Spring

Use of database management systems (DBMS) to provide students with fundamental information retrieval skills required to perform business related tasks. Topics include basic DBMS operations, working with tables, queries, forms, reports and data analysis.

Note: Students will be required to purchase an online learning application to facilitate skill development.

Credit/No Credit

MIS 10. Business Applications.
Term Typically Offered: Fall, Spring

The course teaches the use of spreadsheets to establish a students' fundamental computer skills required to perform business related tasks. Topics include basic spreadsheet operations, working with charts and graphics, application of formulas and spreadsheet presentation formatting.

MIS 15. Introduction to Business Programming.
Term Typically Offered: Fall, Spring

Introduction to object oriented programming language. Topics include use of simple data structures and data types, arrays, strings, input-output functions, file processing, and flow control.

MIS 101. Computer Information Systems for Management.
Term Typically Offered: Fall, Spring

Explores the application of computers to the organizational environment with a management perspective. Topics may include transaction processing systems, management reporting, decision support systems, strategic planning, security, controls and acquisition of hardware, software and services. The interface between the information systems professional and the manager will be defined. Case studies and use of appropriate software packages may be included.

MIS 120. Advanced Object-Oriented Business Programming.
Prerequisite(s): MIS 15.
Term Typically Offered: Fall, Spring

Advanced course in programming principles using an Object Oriented (OO) programming language. Topics will focus on object-oriented (OO) programming including the design and development of OO applications, object classes, inheritance, polymorphism and encapsulation, and graphical user interface (GUI) application development including contrasting event-driven and procedural programming. Assignments will focus on problem-solving in a business context.

1 Unit MIS 122. Object-Oriented Programming for Business in Java.
Prerequisite(s): MIS 15 or CSC 15.
Term Typically Offered: Fall, Spring

Advanced course in programming principles using an Object Oriented (OO) programming language. Topics will focus on object-oriented (OO) programming including the design and development of OO applications, object classes, inheritance, polymorphism and encapsulation, and graphical user interface (GUI) application development including contrasting event-driven and procedural programming.

3 Units MIS 124. Web Development for Business Applications.
Prerequisite(s): MIS 120.
Term Typically Offered: Fall, Spring

Examines the technologies and principles of modern Web development in the creation of Web-based business applications. Emphasis will be given to client-side and server-side technologies and include the topics of basic Web technologies, forms, database access, frameworks, and Web services. Topics are accompanied by design principles, tools, and techniques for Web application development.

MIS 132. Management Science Techniques.
Prerequisite(s): DS 101.
Term Typically Offered: Fall, Spring

Introduction to management science techniques for the solution and analysis of management problems. Topics include mathematical programming, decision theory, analysis of waiting lines, simulation, and Markov processes.

MIS 140. Business Data Communication.
Prerequisite(s): Business majors only
Term Typically Offered: Fall, Spring

Examines the basic terminology, hardware/software components, and issues with the establishment, configuration, and management of data communication networks in and across organizations. Topics include wired and wireless local area networks, wide area networks, the internet, and cloud infrastructure.

MIS 150. Database Systems for Business.
Term Typically Offered: Fall, Spring

Involves the study of generalized database management systems. The study will include logical data base models and physical base models based primarily on the relational and object-relational models. The student will create and manipulate a database utilizing an established database management system. The importance of data administration and other database related topics such as independence, integrity, privacy, query, backup, and recovery will be covered.

MIS 151. End-User Database Application Development for Business.
Prerequisite(s): MIS 1, MIS 2, MIS 3 or approved equivalent.
Term Typically Offered: Fall, Spring

Introduction to end-user database application development in the business environment. Topics will focus on issues in the development of business database applications and include database concepts, organization, storage and retrieval of data, query and analysis with interactive software tools, informative and performance management reporting.

Note: Not open to MIS students.

MIS 160. Systems Development Life Cycle.**3 Units****Prerequisite(s):** MIS 101 and MGMT 102**Term Typically Offered:** Fall, Spring

Analyze, design, and develop business information systems to solve information needs of businesses and organizations. Topics include various systems analysis and design techniques, tools and methods for building new and/or integrated information systems.

MIS 161. Information Systems Practicum.**3 Units****Prerequisite(s):** MIS 15, MIS 150, MIS 160, and Business major or minor.**Term Typically Offered:** Fall, Spring

This course provides a comprehensive integration of MIS coursework through the completion of an information systems project. Topics include information systems development life cycle, project management, application development, database management, and security.

MIS 163. Business Process Engineering and ERP Configuration.**3 Units****Term Typically Offered:** Fall, Spring

This course focuses on identifying and understanding business requirements, modeling business processes that incorporate the business requirements, and configuring the processes for their implementation in an enterprise resource planning (ERP) system. Students will gain insights to implementation issues and propose alternative solutions to overcome them. A project team environment further develops individual student's communication and team skills.

MIS 170. Information Systems Security.**3 Units****Prerequisite(s):** MIS 140**Term Typically Offered:** Fall, Spring

This course provides a comprehensive study of IT security principles and of information systems. Emphasis will be placed on understanding the framework of IT security in enterprise IT infrastructure. Topics include information security concepts, security risks and vulnerabilities, common attacking techniques, technical and administrative countermeasures for modern enterprise IT infrastructure, such as encryption, authentication, access control, security policies and standards, and IT risk management and audit.

MIS 171. Enterprise Resource Planning Systems.**3 Units****Prerequisite(s):** MIS 101**Term Typically Offered:** Fall, Spring

Foundation, business functions, processes, data requirements, development, and management of ERP systems for sales, marketing, accounting, finance, production, supply chain and customer relationship management. Emphasis on re-engineering, integration, standardization, and methodologies of ERP systems.

MIS 173. Microcomputers for Managers.**3 Units****Term Typically Offered:** Fall, Spring

For students who want to have more than the minimum required personal computer literacy knowledge. The topics covered are: hardware, system software, utility software, spreadsheet modeling, the Internet, and presentation graphics.

Note: Not open to MIS students.**MIS 181. Machine Learning Applications in Business.****3 Units****Prerequisite(s):** DS 101 and MIS 150**Term Typically Offered:** Fall, Spring

Applies modern machine learning applications in business to data analysis and problem solving. Topics are presented in the context of decision support and may include knowledge representation, neural networks, genetic algorithms, rule induction, fuzzy logic, case-based reasoning and intelligent agents.

MIS 182. Topics In MIS.**3 Units****Prerequisite(s):** MIS 150, MIS 160.**Term Typically Offered:** Fall, Spring

Current topics will be presented regarding the technical, managerial, and organization considerations affecting computer-based information systems. Topics may include programming languages and techniques, emerging technologies, and MIS development and implementation issues. Readings, topical research, case presentations, and/or projects will be required.

MIS 183. Business Intelligence Applications.**3 Units****Prerequisite(s):** Business major and minor**Term Typically Offered:** Fall, Spring

Advanced information technologies that extract non-trivial, actionable, and novel knowledge from data to achieve strategic goals of organizations. Emphasis on multidimensional data modeling, online analytic processing, data warehouse, and data mining.

MIS 191. Culminating Experience.**1 Unit****Prerequisite(s):** Completion of all coursework in minor.**Term Typically Offered:** Fall, Spring

Students demonstrate their knowledge and apply their skill sets from the minor to a working project, and conduct an executive-level, management-oriented presentation.

Note: Students must be in their final semester of the minor's program.

Credit/No Credit

MIS 194. Cooperative Education Experience in Management**Information Systems.****6 - 12 Units****Prerequisite(s):** MIS 160, minimum Sacramento State overall GPA of 2.75.**Term Typically Offered:** Fall, Spring

In-depth supervised work experience in management information systems for the purpose of exposing the student to comprehensive MIS experience in business, governmental, or service agencies. Open to all upper division students, subject to permission of the MIS Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Credit/No Credit

MIS 195. Internship in Management Information Systems.**3 - 6 Units****Prerequisite(s):** MIS 160, minimum Sacramento State overall GPA of 2.75.**Term Typically Offered:** Fall, Spring

Supervised work experience in management information systems for the purpose of increasing student understanding of the nature and scope of the operations of business, governmental, or service agencies. Supervision is provided by the faculty and the cooperating agencies. Open to upper division students, subject to permission of the MIS Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Note: Open to declared business administration majors only.

Credit/No Credit

MIS 199. Special Problems in Management Information Systems.**1 - 3 Units****Term Typically Offered:** Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.

Note: Admission requires approval of the instructor and the Associate Dean. Petitions may be obtained from the Undergraduate Business Advising Center, Tahoe 1030.

Credit/No Credit

MIS 210. Information Systems I.**3 Units****Term Typically Offered:** Fall, Spring

Introduction to business information systems planning and systems development methodologies. Various methodologies are explored and information systems development project planning is emphasized.

MIS 211. Information Systems II.**3 Units****Term Typically Offered:** Fall, Spring

Introduction to basic and object-oriented programming concepts, data structures for information representation, and database management systems.

MIS 232. Management Science.**3 Units****Term Typically Offered:** Fall, Spring

Introduction to deterministic and stochastic models in operations research. Topics that may be included are: mathematical programming, inventory theory, analysis of waiting lines, Markov processes, game theory, decision theory and simulation. Various computer programs such as LINDO are used to assist in solution and analysis of management problems.

Note: Not open to students with credit for MIS 132.

MIS 240. Communications Technologies for Business.**3 Units****Prerequisite(s):** Graduate MIS status or instructor permission.**Term Typically Offered:** Fall, Spring

Focuses on the concepts, technology, applications, and management of data and voice communication with an emphasis on building, supporting, securing, and administering the requirements of network infrastructure and architecture to support businesses.

Note: May be taken twice for credit.

MIS 250. Data Management.**3 Units****Prerequisite(s):** Graduate MIS status or instructor permission, and MIS 15 or equivalent.**Term Typically Offered:** Fall, Spring

Focuses on database concepts, design and implementation in business. Topics include database design techniques, such as extended entity-relationship and unified modeling language, logical and physical data models for objection-relational database, object oriented database and relational databases, database implementation and administration issues, and the discussion of distributed database, web database, and database security.

Note: May be taken twice for credit.

MIS 251. Strategic Applications of Information Resources.**3 Units****Prerequisite(s):** MSBA/MIS students: MIS 210 and 211, or their equivalents. MBA students: MBA 260 and instructor permission.**Term Typically Offered:** Fall, Spring

Discussion of the techniques and methodologies to utilize information resource to improve an organization's strategic performance measures. Topics include data warehouse, data mining, online analytical transaction processing, and multidimensional database.

MIS 260. Systems Design.**3 Units****Prerequisite(s):** Graduate MIS status or instructor permission.**Term Typically Offered:** Fall, Spring

Involves the study of various methods used to analyze and design a computer-based information systems and emphasizes object-oriented systems development (OOSD) techniques.

Note: May be taken twice for credit.

MIS 261. Information Technology Integration for the Enterprise. 3 Units**Prerequisite(s):** MSBA/MIS students: MIS 260 or MIS 270; MBA students: MBA 260 or permission of instructor.**Term Typically Offered:** Fall, Spring

IT presents many new opportunities at the enterprise level for the design and implementation of integrated organizational structures and business processes that better align the business to meeting its market demands and allow it to pursue new strategic relationships with other organizations. Enterprise IT primarily involves enterprise resource planning (ERP), supply chain management (SCM), knowledge management (KM), and customer relationship management (CRM) to support and coordinate business activities.

Note: May be taken twice for credit.

MIS 262. Business Project Management.**3 Units****Prerequisite(s):** MSBA/MIS students: MIS 260; MBA students: MBA 260 or instructor permission.**Term Typically Offered:** Fall, Spring

Examines various aspects of IT project management, including project selection involving feasibility, complexity, scalability and impact comparisons, project portfolio to direct the right resources to the right projects to sure their timely completion, risk assessment, key performance measures, and others.

Note: May be taken twice for credit.

MIS 270. Information Technology Operations.**3 Units****Prerequisite(s):** Graduate MIS status or instructor permission.**Term Typically Offered:** Fall, Spring

Examines the management of information technology as a vital resource to an organization. IT can enable businesses to seize opportunities, gain competitive advantages and establish close relationships with other businesses and their customers. Thus, the business must effectively and efficiently manage and secure its IT resources.

Note: May be taken twice for credit.

MIS 272. Strategic Information Technology Planning. 3 Units

Prerequisite(s): MSBA/MIS students: MIS 270; MBA students: MBA 260 or instructor permission.

Term Typically Offered: Fall, Spring

Strategic IT planning defines the direction a business chooses for its IT resources. It encompasses a vision, mission, strategy, and objectives that closely align to the business' vision, mission, strategy, and objectives. Planning involves examining how IT will support the achievement of the business' goals and objectives, and how IT can open new opportunities to create new business goals.

Note: May be taken twice for credit.

MIS 279. Information Technology Leadership. 3 Units

Prerequisite(s): MSBA/MIS students: MIS 261 or MIS 262, MIS 272; MBA students: MBA 260 and instructor permission.

Term Typically Offered: Fall, Spring

Leadership plays an important role in determining a business' success with IT. It requires recognizing and leveraging the business' competencies and core values, and championing initiatives and projects that work in the best interest of the business and create value. Because IT opens opportunities and enables the organization, IT leadership extends to both market (external) and organizational (internal) environments.

Note: May be taken twice for credit.

MIS 280. Decision and Knowledge-Based Systems. 3 Units

Prerequisite(s): MIS 211 or equivalent.

Term Typically Offered: Fall, Spring

Organizational use of information generated from transaction processing systems, management information systems, and decision support systems. The uses of information by managers for planning, control, and decision-making purposes will be discussed. The types of information systems implemented in various kinds of organizations will be covered.

MIS 281. Topics in the Management of Information Systems. 3 Units

Prerequisite(s): Open to non-MSBA/MIS majors with credit in MBA 260 or equivalent; and to those who have completed MSBA/MIS Program Prerequisites.

Term Typically Offered: Fall, Spring

Current topics will be presented regarding the managerial, behavioral, and organizational considerations affecting computer-based information systems. Includes topics such as project selection and justification techniques, system controls, security and privacy issues, strategic planning, and use/data processing department relations. Readings, topical research, and case presentations will be required.

MIS 295. Internship in Management Information Systems. 3 Units

Prerequisite(s): Completion of two of the following: MIS 240, MIS 250, MIS 260, or MIS 270; minimum Sacramento State GPA of 3.0.

Term Typically Offered: Fall, Spring

Supervised work experience in management information systems for the purpose of increasing and enhancing student understanding of the nature and scope of the organization's operations of business, governmental, or service agencies. Supervision is provided by the faculty and the cooperating agencies.

Note: Open to second year MBA and MSBA/MIS students. Petitions to be obtained from Tahoe Hall 1037.

Credit/No Credit

MIS 299. Special Problems in Management Information Systems.

1 - 3 Units

Prerequisite(s): Classified graduate status.

Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.

Note: Admission requires approval of faculty member under whom the individual work is to be conducted in addition to the approval of the Graduate Programs Office. Petitions to be obtained from Tahoe Hall 1035.

Credit/No Credit

MIS 500A. Thesis.

1 - 3 Units

Prerequisite(s): Advanced to candidacy. Completion of MBA 244.

Term Typically Offered: Fall, Spring

Completion of a thesis approved for the Master's degree.

MIS 500B. Project.

1 - 3 Units

Prerequisite(s): Advanced to candidacy. Completion of MBA 244.

Term Typically Offered: Fall, Spring

Completion of a project approved for the Master's degree.

MIS 500C. Comprehensive Examination.

1 - 3 Units

Prerequisite(s): Advanced to candidacy; for comprehensive examination for MBA only (MGMT 500C, 1 unit), completion of program requirements (ACCY 240, MBA 230, MBA 240, MBA 241, MBA 270, MBA 280; for comprehensive examination for MSBA/MIS Degree, student must be in final semester of program.

Term Typically Offered: Fall, Spring

For MSBA/MIS.

Marine Sciences (MSCI)

MSCI 103. Marine Ecology.

4 Units

Prerequisite(s): Ecology, statistics; or concurrent registration in MSCI 104.

Term Typically Offered: Fall, Spring

Field-oriented introduction to the interrelationships between marine and estuarine organisms and their environment with emphasis on quantitative data collection and analysis. Lecture two hours; laboratory six hours.

MSCI 104. Quantitative Marine Science.

4 Units

Prerequisite(s): College mathematics.

Term Typically Offered: Fall, Spring

Mathematical methods for the analysis of biological, chemical and physical data from the marine environment; experimental design, parametric and nonparametric statistics. Lecture three hours; laboratory three hours.

Note: Not for major credit.

- MSCI 105. Marine Science Diving. 3 Units**
Prerequisite(s): Upper division science major status, thorough physical examination, ability to pass swimming test.
Term Typically Offered: Fall, Spring
- Skin SCUBA diving course, pool-training culminates in ten ocean dives. Topics covered included diving physics, physiology, diving environments, night diving and research diving. Successful completion gives NAUI and MLML certification. Lecture one hour; laboratory six hours.
Note: Not for major credit.
- MSCI 112. Marine Birds and Mammals. 4 Units**
Prerequisite(s): Upper division college vertebrate zoology or instructor permission; MSCI 103 recommended.
Term Typically Offered: Fall, Spring
- Systematic, morphology, ecology and biology of marine birds and mammals. Lecture two hours; laboratory six hours.
- MSCI 113. Marine Ichthyology. 4 Units**
Prerequisite(s): College zoology or equivalent or instructor permission; MSCI 103 recommended.
Term Typically Offered: Fall, Spring
- Description of the taxonomy, morphology, and ecology of marine fishes. Both field and laboratory work concentrate on the structure, function and habits of marine fishes and the ecological interactions of these fishes with their biotic and abiotic surroundings. Lecture two hours; laboratory six hours.
- MSCI 124. Marine Invertebrate Zoology I. 4 Units**
Prerequisite(s): College zoology or instructor permission; MSCI 103 recommended.
Term Typically Offered: Fall, Spring
- Field oriented introduction to the structure, systematics, evolution, and life histories of the major and minor marine phyla. Lecture two hours; laboratory and six hours.
- MSCI 125. Marine Invertebrate Zoology II. 3 Units**
Prerequisite(s): College zoology or instructor permission; MSCI 103 and MSCI 124 recommended.
Term Typically Offered: Fall, Spring
- Field oriented introduction to the structure, systematics, evolution and life histories of the minor marine invertebrate phyla. Lecture one hour; laboratory and field six hours.
- MSCI 131. Marine Botany. 4 Units**
Prerequisite(s): MSCI 103 recommended.
Term Typically Offered: Fall, Spring
- Introduction to the plants of the sea, marshes, and dunes, with emphasis on the morphology, taxonomy and natural history of seaweeds and vascular plants. Lecture two hours; laboratory six hours.
- MSCI 135. Physiology of Marine Algae. 4 Units**
Prerequisite(s): MSCI 103, MSCI 131, and MSCI 144. Lecture two hours; laboratory six hours.
Term Typically Offered: Fall, Spring
- Physiological basis for understanding the adaptation of marine algae to their environment. Topics include respiration, enzyme activity, and biochemical composition. Hands-on experience in basic electronic instrumentation, chemical separations, optical measurements, culturing methods, and radioisotope techniques.
- MSCI 141. Geological Oceanography. 4 Units**
Prerequisite(s): MSCI 142, MSCI 143; may be taken concurrently.
Term Typically Offered: Fall, Spring
- Study of the structures, physiography and sediments of the sea bottom and shoreline. Lecture two hours; laboratory and field six hours.
- MSCI 142. Physical Oceanography. 4 Units**
Prerequisite(s): College algebra, college physics recommended.
Term Typically Offered: Fall, Spring
- Introduction to the nature and causes of various oceanic motions including currents, waves, tides, and mixing and the Physical properties of seawater. Limited use of calculus. Lecture three hours; laboratory three hours.
- MSCI 143. Chemical Oceanography. 4 Units**
Prerequisite(s): One year of college chemistry.
Term Typically Offered: Fall, Spring
- Introduction to the theoretical and practical aspects of the chemistry of the oceans, including major salts, dissolved gases, nutrient ions, carbonate system, transient tracers, and shipboard sampling techniques. Lecture two hours; laboratory six hours.
- MSCI 144. Biological Oceanography. 4 Units**
Prerequisite(s): General biology, general chemistry.
Term Typically Offered: Fall, Spring
- Ocean as an ecological system. Emphasis will be on the complexity of organismal-environmental interaction of the plankton, the transfer of organic matter between trophic levels and nutrient cycles. Laboratory sessions will include methods in sampling, shipboard techniques, identification of the plankton, and current analytical techniques. Lecture two hours; laboratory six hours.
- MSCI 175A. Coastal Geol Processes. 1 Unit**
Term Typically Offered: Fall, Spring
- MSCI 175B. Intro To Marine Science. 1 Unit**
Term Typically Offered: Fall, Spring
- MSCI 180. Independent Study. 1 - 4 Units**
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
- Faculty-directed study of selected research problems; open to undergraduate students with adequate preparation. Three hours work per unit.
- MSCI 201. Library Research Methods. 1 Unit**
Prerequisite(s): Graduate standing in the Marine Science M.S. program and instructor permission.
Term Typically Offered: Fall, Spring
- Students will gain advanced understanding of the nature of scientific information. Provides the framework for using and evaluating a variety of information sources in marine and ocean sciences. Strong emphasis will be placed on developing critical skills to interweave knowledge of the history of science into the context of bibliographic tools including the digital realm. Lecture: three hours.

<p>MSCI 202. Oceanographic Instrumentation. 4 Units Prerequisite(s): MSCI 141, MSCI 142 and instructor permission. Term Typically Offered: Fall, Spring</p> <p>Principles of instruments used in oceanographic research, introduction to electronics, and applications of instrument measurements. Emphasis will vary from CTD profilers, current meters, radiometry and chemical measurement. Lecture two hours; laboratory six hours.</p>	<p>MSCI 221. Advanced Topics in Marine Invertebrates. 4 Units Prerequisite(s): MSCI 124 and instructor permission. Term Typically Offered: Fall, Spring</p> <p>Advanced considerations of the ecology, physiology and phylogeny of the various invertebrate phyla emphasizing current literature and research. Topics will vary from term to term. Lecture two hours; laboratory six hours. Note: May be repeated for credit when topics change.</p>
<p>MSCI 204. Sampling and Experimental Design. 4 Units Prerequisite(s): MSCI 103, MSCI 104. Term Typically Offered: Fall, Spring</p> <p>Discussion of random sampling, systematic sampling, subsampling, survey techniques, and design of single and multifactorial experiments using randomized and block experimental designs: basic design of experiments and field sampling will be covered. Biases and problems of sampling marine biota will be presented and discussed by critiquing relevant literature. Lecture four hours.</p>	<p>MSCI 221A. Marine Symbioses. 4 Units Term Typically Offered: Fall, Spring</p> <p>MSCI 231. Biology Of Seaweeds. 4 Units Prerequisite(s): MSCI 131 or instructor permission. Term Typically Offered: Fall, Spring</p> <p>Lecture-discussions in algal development, reproduction, and ecology. Extensive reading of original literature. Ecologically oriented individual research projects involving laboratory culture and field experimentation. Lecture two hours; laboratory six hours.</p>
<p>MSCI 208. Molecular Ecology: Concepts and Methods. 4 Units Prerequisite(s): Basic cellular/molecular biology course; consent of instructor. Term Typically Offered: Fall, Spring</p> <p>Use of genetic information affecting interactions of organisms with environment. Lectures on molecular markers used to assess diversity in communities, characterize spatial/temporal variation in species composition, assess genetic variability in populations, discriminate/reveal kinship among individuals, and detect/quantify gene expression important in organismal responses to environmental fluctuation. Basic molecular methods (DNA and RNA isolation/amplification/cloning/sequencing) taught. Students projects as budget permits. Enrollment limited. Lecture 2 hours; laboratory 6 hours.</p>	<p>MSCI 233A. Adv Marine Ecology. 4 Units Term Typically Offered: Fall, Spring</p> <p>MSCI 233B. Sampling+Expermntl Design. 4 Units Term Typically Offered: Fall, Spring</p> <p>MSCI 233C. Coastal Ecology-Gulf of California. 3 Units Prerequisite(s): MSCI 103, MSCI 104, MLML SCUBA certified, graduate status, instructor permission. Term Typically Offered: Fall, Spring</p> <p>Field-oriented examination of the interrelationships between intertidal and shallow subtidal organisms and their environment in the Gulf of California, Mexico. Information from lectures and review of primary literature on the ecology of the region will be used to write a research proposal. 1 hour lecture, 6 hours laboratory.</p>
<p>MSCI 211. Ecology of Marine Birds and Mammals. 4 Units Prerequisite(s): MSCI 103, MSCI 104, MSCI 112. Term Typically Offered: Fall, Spring</p> <p>Community approach to the ecology of marine birds and mammals using experimental and sampling methodology; examine the distribution, abundance, trophic ecology, and behaviors of birds and mammals in Elkhorn Slough and Monterey Bay. Lecture two hours; laboratory six hours.</p>	<p>MSCI 233D. Immune Respn Marine Orgns. 2 Units Term Typically Offered: Fall, Spring</p> <p>MSCI 234. Advanced Biological Oceanography. 4 Units Prerequisite(s): MSCI 144. Term Typically Offered: Fall, Spring</p> <p>Experimental techniques in biological oceanography with emphasis on problems important to plankton ecology. Includes lectures, labs, and discussions of current research problems. An individual research project involving analytical tools will be required. Lecture two hours; laboratory six hours.</p>
<p>MSCI 212. Advanced Topics in Marine Vertebrates. 4 Units Prerequisite(s): MSCI 112 or MSCI 113 and instructor permission. Term Typically Offered: Fall, Spring</p> <p>Advanced consideration of the ecology, physiology and phylogeny of fishes, birds, reptiles or mammals, emphasizing current literature and research. Topics and emphasis will vary with term and instructor. Lecture two hours; laboratory six hours. Note: May be repeated once for credit.</p>	<p>MSCI 242. Plate Tectonics. 3 Units Prerequisite(s): MSCI 141 or instructor permission. Term Typically Offered: Fall, Spring</p> <p>Historical background, modern theory, and geo-physical evidence of continental drift sea floor spreading and plate tectonics. Examinations of the impact of the recent revolution in historical geology. Lecture three hours.</p>
<p>MSCI 212A. Adv Ichthyology. 4 Units Term Typically Offered: Fall, Spring</p> <p>MSCI 212B. Ichthyoplankton. 4 Units Term Typically Offered: Fall, Spring</p> <p>MSCI 212C. Marine Bird+Mammal Ecolgy. 4 Units Term Typically Offered: Fall, Spring</p> <p>MSCI 212D. Sampling+Expermntl Design. 4 Units Term Typically Offered: Fall, Spring</p>	

<p>MSCI 248. Marine Benthic Habitat Techniques. 4 Units Prerequisite(s): Graduate standing and instructor permission. Term Typically Offered: Fall, Spring</p>	<p>MSCI 274A. Electron Micros+Microanl. 3 Units Term Typically Offered: Fall, Spring</p>
<p>Collection and interpretation of geophysical data used to characterize marine benthic habitats. Basic geophysical principles will be reviewed. Application of techniques to identify and characterize marine benthic habitats, including echosounders, multibeam bathymetry and backscatter, sidescan sonar, seismic profiling, and GIS. Lecture two hours; laboratory six hours.</p>	<p>MSCI 274B. Geol Central Ca Margin. 4 Units Term Typically Offered: Fall, Spring</p>
<p>MSCI 251. Marine Geochemistry. 4 Units Prerequisite(s): MSCI 143, quantitative analysis, one year calculus or instructor permission. Term Typically Offered: Fall, Spring</p>	<p>MSCI 274C. Chem Of Marine Pollution. 4 Units Term Typically Offered: Fall, Spring</p>
<p>Geochemical processes in the oceans: thermodynamics of low temperature aqueous reactions, processes occurring at the sea floor and air-sea interface. Lecture two hours; laboratory six hours.</p>	<p>MSCI 274D. Global Change. 3 Units Term Typically Offered: Fall, Spring</p>
<p>MSCI 261. Ocean Circulation and Mixing. 4 Units Prerequisite(s): MSCI 142; college physics strongly recommended or instructor permission. Term Typically Offered: Fall, Spring</p>	<p>MSCI 280. Scientific Writing. 3 Units Prerequisite(s): Graduate status and instructor permission. Term Typically Offered: Fall, Spring</p>
<p>Mathematical description of the distribution of properties (salinity density, etc.) in the oceans relating to physical and biochemical processes. Equations of motion, geotropic method, and theory of distribution of variables. Lecture two hours; laboratory six hours.</p>	<p>Techniques and strategies of scientific writing used for proposals, journal submissions, and abstracts for meetings. Students will develop their writing skills by preparing, editing, and rewriting manuscripts. Lecture three hours.</p>
<p>MSCI 262. Satellite Oceanography. 4 Units Prerequisite(s): MSCI 142, MSCI 144, or instructor permission. MSCI 263 strongly recommended. Term Typically Offered: Fall, Spring</p>	<p>MSCI 281. Coastal Dynamics. 4 Units Prerequisite(s): Graduate standing and MSCI 141 or MSCI 142. Term Typically Offered: Fall, Spring</p>
<p>Physical principles of remote sensing with application to the oceans including satellite image processing methods. Labs involve use of PC and Unix workstation. Lecture two hours; laboratory six hours.</p>	<p>Addresses the oceanographic dynamics of coastal environments, within an emphasis on eastern boundary current systems influenced by coastal upwelling. Focuses on how physical and geological oceanography interact with each other and how both affect coastal ecosystem dynamics.</p>
<p>MSCI 263. Application of Computers in Oceanography. 4 Units Prerequisite(s): College math and instructor permission. Term Typically Offered: Fall, Spring</p>	<p>MSCI 285. Seminar in Marine Biology. 2 Units Prerequisite(s): Instructor permission. Term Typically Offered: Fall, Spring</p>
<p>Lecture, discussion and technical programming with MATLAB for computation and visualization with applications in marine sciences. Use of existing program libraries for data I/O and analysis. Semester project required. Lecture two hours; laboratory six hours.</p>	<p>Seminar will be held on topics changing each semester. Each student will be required to give at least one seminar. Lecture two hours. Note: May be repeated once for credit.</p>
<p>MSCI 271. Population Biology. 3 Units Prerequisite(s): MSCI 103, MSCI 104; or instructor permission. Term Typically Offered: Fall, Spring</p>	<p>MSCI 285A. Social Biology. 2 Units Term Typically Offered: Fall, Spring</p>
<p>Principles of the interaction among marine organisms that result in the alteration of population structures. Techniques for assessment and management of populations. Lecture two hours; laboratory three hours.</p>	<p>MSCI 285B. Repro+Dev Marine Organism. 2 Units Term Typically Offered: Fall, Spring</p>
<p>MSCI 272. Subtidal Ecology. 4 Units Prerequisite(s): MLML diver certification and marine ecology (knowledge of marine algae, invertebrates, and statistics recommended). Term Typically Offered: Fall, Spring</p>	<p>MSCI 285C. Recent Adv Deep-Sea Bio. 2 Units Term Typically Offered: Fall, Spring</p>
<p>Ecology of nearshore rocky subtidal populations and communities with emphasis on kelp forests. Lectures and discussions of original literature. Field work with SCUBA including group projects on underwater research techniques and community analysis, and individual research on ecological questions chosen by the student. Lecture two hours; laboratory six hours.</p>	<p>MSCI 285D. Controversies Modern Biol. 2 Units Term Typically Offered: Fall, Spring</p>
	<p>MSCI 285E. Paradigms In Commun Ecol. 2 Units Term Typically Offered: Fall, Spring</p>
	<p>MSCI 285F. Appl Molecrl Tech Mar Bio. 2 Units Term Typically Offered: Fall, Spring</p>
	<p>MSCI 285G. Aspects Of Deep-Sea Biol. 2 Units Term Typically Offered: Fall, Spring</p>
	<p>MSCI 286. Seminar in Marine Geology. 2 Units Term Typically Offered: Fall, Spring</p>
	<p>Seminar will be held on topics changing each semester. Each student will be required to give at least one seminar. Note: May be repeated once for credit.</p>

MSCI 287. Seminar In Oceanography. 2 Units Term Typically Offered: Fall, Spring	MKTG 122. Buyer Behavior. 3 Units Prerequisite(s): MKTG 101. Term Typically Offered: Fall, Spring
<p>Seminar will be held on topics changing each semester. Each student will be required to give at least one seminar. Note: May be repeated once for credit.</p>	<p>Understanding buying as a process in order to develop more effective solutions to marketing problems; an interdisciplinary approach drawing on insights from the behavioral sciences; applications to practical marketing situations. Seminar.</p>
MSCI 298. Research in the Marine Sciences. 1 - 4 Units Prerequisite(s): Graduate standing and instructor permission. Term Typically Offered: Fall, Spring	MKTG 123. Public Relations and Ethics in Business. 3 Units Term Typically Offered: Fall, Spring
<p>Independent investigations of an advanced character for the graduate student with adequate preparation. Note: CSUH students must file a petition with their home campus department before admission to this class. CSU Stanislaus students must file Individual Study forms. CSUF students must file Research Approval forms.</p>	<p>Managerial function of evaluating public attitudes toward business firms and other organizations and institutions, and of adjusting policies and executing programs to earn public acceptance and support. Media and method of communicating with the various publics, and problems in responsible leadership.</p>
MSCI 299. Master's Thesis. 1 - 4 Units Term Typically Offered: Fall, Spring	MKTG 124. Retail Management. 3 Units Prerequisite(s): MKTG 101. Term Typically Offered: Fall, Spring
<h2 style="text-align: center;">Marketing (MKTG)</h2>	
MKTG 101. Principles Of Marketing. 3 Units Prerequisite(s): You must be a Business major (any concentration), a business minor or in one of the following majors: Coms/Pub Relations, CM, MET, FACS (Apparel Mktg/Design), FACS (Cons Sci), GPHD, INTO (Mktg), Rec & Park Mgmt, Photography to enroll in this course. Term Typically Offered: Fall, Spring	<p>Development, trends, and institutions of retailing; organization and management of retail establishments; principles and policies of retail store operations including location and layout, planning and control of budgets, personnel, pricing and customer services.</p>
<p>The purpose of this course is to help students develop a working knowledge of marketing. Students will learn about the role marketing plays in an organization, as well as how to plan, implement and evaluate marketing activities. This course builds a foundation for further study in marketing and related fields.</p>	MKTG 125. Advertising. 3 Units Prerequisite(s): MKTG 101. Term Typically Offered: Fall, Spring
MKTG 115. Marketing Analytics. 3 Units Prerequisite(s): MKTG 101; and either DS 101 or MKTG 121; or instructor permission Term Typically Offered: Fall, Spring	<p>Examination of advertising as a marketing communications tool in profit and nonprofit organizations. Emphasis will be placed on creative methods, alternative media, measurements of effectiveness, and coordination with other aspects of the marketing program through class discussion and written projects. Seminar.</p>
<p>The course covers current developments in marketing analytics. Topics include methodologies for market forecasting, estimating market size, and demand; evaluating marketing ROI and customer life time value; modeling of segmentation, positioning, competitive analysis, conjoint analysis, distribution channel analytics, and sales analytics. Students will also learn the latest datamining tools to collect, analyze, and visualize data for decision making and communicating to senior executives.</p>	MKTG 126. Salesmanship. 3 Units Term Typically Offered: Fall, Spring
MKTG 121. Marketing Research and Information. 3 Units Prerequisite(s): MKTG 101. Term Typically Offered: Fall, Spring	<p>Principles of the sales process including prospecting, structuring a sales presentation, handling objections, closing and customer relationship management. Application of sales techniques in product and service situations, integration of technology as a sales tool. Includes lectures, role playing, and practice in sales presentations.</p>
<p>Examines the acquisition of information for marketing management decision making, including methods of collection and analysis applicable to secondary and primary data, as this process relates to the management information system. Seminar.</p>	MKTG 127. Sales Management. 3 Units Prerequisite(s): MKTG 101. Term Typically Offered: Fall, Spring
	<p>Individual problems of manufacturer or wholesaler in merchandising; intensive development of the "selling" function of marketing; duties of the sales manager.</p>
	MKTG 129. Marketing Management. 3 Units Prerequisite(s): MKTG 101 and senior status. Term Typically Offered: Fall, Spring
	<p>Application of marketing principles to the solution of a wide variety of problems and cases including target markets, product selection, channels of distribution, promotion and pricing. Note: It is a capstone course. It is recommended that students take MKTG 121 and MKTG 122 prior to taking MKTG 129. Seminar.</p>

<p>MKTG 130. Digital Marketing. 3 Units Prerequisite(s): MKTG 101 and Business majors or Marketing minors only. The purpose of this course is to help students learn and apply emerging marketing techniques to become efficient and effective marketers in the 21st century. Topics covered center on effective marketing in an online environment to help students refine their strategic marketing skills, ability to work effectively in diverse teams, and understanding of the local marketing environment.</p>	<p>MKTG 195. Internship in Marketing. 3 Units Prerequisite(s): Minimum Sacramento State GPA of 2.5. Term Typically Offered: Fall, Spring Supervised work experience in business, governmental or service agencies for the purpose of increasing student understanding of the nature and scope of their operations. Supervision is provided by the faculty and the cooperating agencies. Note: Open to upper division students, subject to permission of the Marketing Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065. Open to declared business administration majors only.</p>
<p>MKTG 160. Principles of Quality Management. 3 Units Term Typically Offered: Fall, Spring Study of the major principles of quality management: customer focus, continuous improvement, employee involvement, and process improvement. Use of case studies and a project to gain knowledge in implementing quality management principles. Seminar.</p>	<p>Credit/No Credit MKTG 199. Special Problems in Marketing. 1 - 3 Units Term Typically Offered: Fall, Spring Individual projects or directed reading for students qualified to carry on independent work. Note: Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.</p>
<p>MKTG 181. Supply Chain Logistics Management. 3 Units Prerequisite(s): OPM 101. Term Typically Offered: Fall, Spring Delivery of enhanced customer and economic value through synchronized management of the flow of physical goods and associated information from sourcing through consumption. Examines the management of those activities that facilitate the movement, control and direction of goods and services to create time, place, form and ownership utilities in the global market. Topics include transportation, warehousing, information systems, sourcing, strategic alliances, modeling, purchasing and international operations.</p>	<p>Credit/No Credit MKTG 199A. Special Problems in Supply Chain Management. 3 Units Term Typically Offered: Fall, Spring Individual projects or directed reading for students qualified to carry on independent work. Note: Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.</p>
<p>MKTG 186. Advanced Operations Planning and Control. 3 Units Prerequisite(s): OPM 101. Term Typically Offered: Fall, Spring Focuses on effective operations strategies for companies that operate in a dynamic business environment, with an emphasis on in-depth treatments of the decision situations facing managers in charge of related to the planning and control of the flow of goods and services in supply chain systems.</p>	<p>Credit/No Credit MKTG 199A. Special Problems in Supply Chain Management. 3 Units Term Typically Offered: Fall, Spring Individual projects or directed reading for students qualified to carry on independent work. Note: Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.</p>
<p>MKTG 188. Supply Chain Modeling and Analysis. 3 Units Prerequisite(s): OPM 101. Term Typically Offered: Fall, Spring Covers modeling and analytics for designing, managing and improving supply chain systems in order to achieve competitive advantages: cost, quality, service, flexibility, adaptability, and sustainability which support business level strategies of cost leadership and differentiation.</p>	<p>MBA 201. Accounting. 2 Units Term Typically Offered: Fall, Spring Concepts and models of financial accounting are introduced. Included are the analysis, interpretation and reporting of financial events. MBA 202. Business Communication. 2 Units Term Typically Offered: Fall, Spring Stresses fundamental communication principles and techniques for effective business writing in diverse managerial situations. Participants complete a variety of writing activities, including responding to management communication cases and evaluating written communications using holistic and analytic tools. Within this context, participants are provided an opportunity to achieve an understanding of syntactical and grammatical patterns while improving analytical and logical business writing skills. Note: This requirement will be waived for students who achieve a score of 4.5 or higher on the Analytical Writing Assessment (AWA) exam. Graduate Writing Intensive (GWI) course.</p>
<p>MKTG 190. Multinational Marketing. 3 Units Prerequisite(s): MKTG 101 or instructor permission. Term Typically Offered: Fall, Spring, Summer Environmental factors affecting international trade, such as culture and business customs, political factors and constraints, economic development and legal differences, are integrated with the marketing management functions of market potential, analysis marketing research, international organization, channels and distribution, sales promotion, prices, credit, and financing.</p>	

Masters Business Admin (MBA)

MBA 203. Legal Environment of Management. 2 Units Term Typically Offered: Fall, Spring	MBA 210. Managerial Accounting. 3 Units Term Typically Offered: Fall, Spring
<p>Intensive study of important aspects of law for managers, including law as an instrument of social and political control. Analyzes selected problems in areas of private law such as contract, tort, business organizations, and agency. In addition, selected issues of administrative law and government regulation of business will be investigated.</p>	<p>Management accounting data characteristics and application to internal decisions made by managers. Topics cover management accounting as a tool of business management. Topics generally include product costing, managers' use of accounting data in specific decision frameworks, performance evaluation, and relevant versus strategic analysis. Class participation is encouraged.</p>
MBA 204. Management and Organization Concepts. 2 Units Term Typically Offered: Fall, Spring	MBA 220. Financial Management. 3 Units Term Typically Offered: Fall, Spring
<p>Evolution of management and organization thought; examination of behavioral science variables influencing working relationships among managers, individuals and groups; the study of political and social behavior in organizations; identification, analysis, and synthesis of contemporary concepts and administrative practices; investigation of organization structure, function, and properties leading to an understanding of administration and organization.</p>	<p>Financing of corporations and management of corporate resources, short-term and long-term, stressing maximizing shareholder wealth. The case method is used extensively. Both oral and written communication skills are stressed.</p>
MBA 205. Introduction to Managerial Issues in Information Technology. 2 Units Term Typically Offered: Fall, Spring	MBA 221. Financial Markets. 3 Units Prerequisite(s): MBA 220 or instructor permission. Term Typically Offered: Fall, Spring
<p>Explores from a management perspective, the impact of IT on individuals, organizations, and society. Focuses on how organizations use information systems to solve strategic and operational problems. Topics may include functional information systems, decision support systems, enterprise systems, interorganizational information systems, e-commerce, and business analytics. The relationship between managers and IT personnel will be defined. May include case studies and appropriate software packages.</p>	<p>Behavior of equity, debt, currency, and derivatives markets and the linkages between these markets. Presents the principles of valuations of instruments traded in these markets and the use of these instruments to investors, speculators, hedgers and arbitrageurs.</p>
MBA 206. Managerial Statistics Analysis. 2 Units Term Typically Offered: Fall, Spring	MBA 222. Security Analysis and Portfolio Management. 3 Units Term Typically Offered: Fall, Spring
<p>Computer-based course in data analysis. Business case studies are used to differentiate between common and specific sources of statistical variation and to construct statistical models such as multiple regression, times series, and statistical quality control. Emphasis is placed on intuitive statistical thinking and communication of results.</p>	<p>Evaluation of stocks and bonds from the investor's viewpoint. Interpretation of issuers' financial statements to estimate potential future earnings and dividends; and evaluation of the securities' risks and expected returns through analysis of economic, industry and market environment in order to develop conclusions as to the securities' suitability for inclusion in various types of portfolios. Ethical issues faced by practicing security analysts and portfolio managers.</p>
MBA 207. Finance. 2 Units Prerequisite(s): ECON 204, MBA 201, MBA 206. Term Typically Offered: Fall, Spring	MBA 223. Asset Valuation. 3 Units Prerequisite(s): MBA 220 or instructor permission. Term Typically Offered: Fall, Spring
<p>Theory and practice in determining the need for, the acquisition of, and the use of funds by organizations. Topics include time value of money, financial analysis, management of working capital, cost of capital, capital budgeting, long-term financing, dividend policy, and internal financing.</p>	<p>Advanced concepts and techniques essential to asset valuation. Key topics include, but not limited to, free cash flow, price multiples, asset-based and contingent claim valuations. Applications of various valuation techniques are emphasized.</p>
MBA 208. Marketing. 2 Units Prerequisite(s): ECON 204, MBA 201, MBA 203. Term Typically Offered: Fall, Spring	MBA 224. Advanced Investment Strategies. 3 Units Prerequisite(s): MBA 222 (may be taken concurrently) or permission of instructor. Term Typically Offered: Fall, Spring
<p>Application of decision making in solving marketing problems; such as product, place, promotion and price decisions with reference to consumers and users.</p>	<p>Theoretical and empirical applications of fund formation models. Emphasis is placed on model development strategies based on analyzing secondary sources of financial data. The quality of models is assessed in terms of their logical consistency, robustness of underlying theoretical assumptions, and predicative power. Development, analysis and predicative assessment are conducted within the Excel environment.</p>
MBA 209. Production and Operations Analysis. 2 Units Prerequisite(s): ECON 204, MBA 201, MBA 206. Term Typically Offered: Fall, Spring	
<p>Study of operational systems; fundamental concepts, tools, and methodologies required to analyze and solve problems of the operations manager. Topics include: work design, facilities design, scheduling, quality control, and inventory management.</p>	

MBA 225. Financial Aspects of Health Care Administration. 3 Units Term Typically Offered: Fall, Spring	MBA 235. Management Of Innovation. 3 Units Term Typically Offered: Fall, Spring
<p>Financing in health care institutions will be studied; including planning and control features involving budgets, funds flow, funding sources, and factors affecting finance in the health care industry. Analyzes will be made of the relationships and effects on health care finance of such factors as labor, business, government, insurance, research, and demography.</p>	<p>Synthesis of specialized problems relating to the acquisition, introduction, and utilization of innovations and technological advances by managers in business, industry, government, profit or nonprofit organizations. Current research, thinking methodology dealing with the economics and social impact, sources, barriers, and transfer mechanisms of innovations and technological advances will be investigated.</p>
MBA 230. Behavior Science Applications in Management. 3 Units Term Typically Offered: Fall, Spring	MBA 236. Current Topics and Processes in Organizational Development. 3 Units Term Typically Offered: Fall, Spring
<p>Behavioral science theories, concepts, and practices in current use in private and public organizations. Critical evaluation of research supporting those practices.</p>	<p>Explores contemporary frameworks for dealing with change in today's organizations. Contemporary processes and topics are presented in the context of these frameworks. Lectures and readings may be supplemented by experiential work and firsthand observations of local organizations.</p>
MBA 231. Managing in High Performance Work Organizations. 3 Units Term Typically Offered: Fall, Spring	MBA 240. Marketing Management. 3 Units Term Typically Offered: Fall, Spring
<p>This course focuses on contemporary problems, issues, and objectives relating to the value of collaboration with control in maximizing human capital effectiveness in high performance work organizations. Course work will include research projects, experiential case studies and in-class simulations to help students better understand human capital effectiveness and learn how to serve multiple stakeholders' interests across different sectors such as private, public, healthcare and information technology.</p>	<p>Marketing policy for channels of distribution, pricing brands, advertising, and sales as interrelated at the executive level. Designed to develop capacity for sound decision making by marketing managers.</p>
MBA 232. Negotiation and Relationship Management. 3 Units Term Typically Offered: Fall, Spring	MBA 241. Marketing and Its Environments. 3 Units Term Typically Offered: Fall, Spring
<p>Investigation of the formal and informal methods of dispute resolution including negotiating, litigation, administrative hearings, arbitration, mediation, ombudsperson, summary jury trial, private judging, and fact finding. Emphasizes the application of these methods to organization, business, and public sector disputes.</p>	<p>Analyzes the firm's or public agency's external environments, forces of change within them, and their influence on the organization's strategies and actions.</p>
MBA 233. Seminar in Organization Development. 3 Units Prerequisite(s): MBA 230 or equivalent. Term Typically Offered: Fall, Spring	MBA 242. Marketing Problems. 3 Units Term Typically Offered: Fall, Spring
<p>Seminar focusing on individual and organization responses to a changing environment. Includes assumptions and values of organization development; action research; personal, team and intergroup interventions; consultant-client relationships and instrumentation. Cases, laboratory experience, workshop and field analysis techniques are utilized.</p>	<p>Consideration of current problems and issues in marketing from the perspective of the individual firm or public agency.</p>
MBA 234. Industrial Relations. 3 Units Term Typically Offered: Fall, Spring	MBA 243. Global Marketing Environment. 3 Units Term Typically Offered: Fall, Spring
<p>Dual approach emphasizing in-depth analysis of both the philosophical and the practical aspects of industrial relations. The impact of social, economic, and political forces, and their interaction with union and management institutions and public policies. Analyzes relationships between organized employees and employers, the bargaining process, strategies and issues, contract administration, and impasse resolution processes.</p>	<p>An in-depth coverage of a marketing functions in global environment. Explores traditional and contemporary theories, strategies, practices, and issues of international marketing, develops skills required for entry and maintaining presence on the foreign markets.</p>
	MBA 244. Research Methodology. 3 Units Term Typically Offered: Fall, Spring
	<p>Problem-solving approach will emphasize the need to impart tools and skills to formulate and design projects which satisfy action or policy needs. Search for relevant information. Methodologies and research strategies. Data collection and analysis. Measurement and statistical inference. Experimentation and simulation. Instrument survey design. Ethical implications. Report preparation and presentation of results for effective communication.</p>

- MBA 251. Real Estate Finance and Investment.** **3 Units**
Term Typically Offered: Fall, Spring
- Concept and methods used to analyze equity investment in income-producing properties such as apartments, office buildings, and retail. Topics include market analysis, leasing and property income streams, financial structuring, taxation of real estate operations and transactions, the theory and methods used to assess the performance of individual real estate projects, alternative ownership structures, recent innovations in real estate capital markets, material on regulatory restrictions, taxation, and mixed assets portfolio analysis. Use of computer models for investment decision-making.
- MBA 252. Mortgage Markets: Institutions, Securities, and Strategies.** **3 Units**
Term Typically Offered: Fall, Spring
- Provides an understanding of mortgage markets and the knowledge required to make financing and lending decisions. Topics include sources of funds, mortgage design and analysis of financing alternatives; mortgage origination, risks in real estate loans, forecasting loan performance, loan modifications and workout strategies, foreclosure, bankruptcy and REOs; secondary mortgage markets and mortgage-backed securities; development and construction financing, risks in construction performance and project management; and management of interest rate risk. Use of computer models for decision-making.
- MBA 253. Seminar in Real Estate Development.** **3 Units**
Prerequisite(s): MBA 251, PPA 250, advanced to candidacy, and instructor permission.
Term Typically Offered: Fall, Spring
- Capstone course in urban land development. Case problems and theoretical issues in such areas as debt and equity financing, feasibility analysis, land use regulation, market analysis, risk management, site selection, and taxation of income-producing properties.
- MBA 260. Management of Technology Intensive Enterprises.** **3 Units**
Prerequisite(s): Classified graduate status.
Term Typically Offered: Fall, Spring
- Use of information technology (IT) as management resource. Focus is on management decision-making related to telecommunications, data-bases, system development, and decision support systems. Use of technology to reengineer the business organization.
- MBA 261. Integrated Business Process Management.** **3 Units**
Term Typically Offered: Fall, Spring
- Study the concept of integrated business process management using ERP tools and software to enhance growth and productivity as the diverse functions of an organization are combined into one comprehensive, interrelated, and optimized system. Demonstrate how enterprise level information systems can achieve organizational goals by providing decision makers with accurate, consistent, current, timely, and relevant information and knowledge. Understand the techniques and skills for successful implementation of ERP systems. Explore the latest trends and development in ERP technologies.
- MBA 262. Integrated IT in Healthcare.** **3 Units**
Term Typically Offered: Fall, Spring
- This course examines methodologies, tools and applications used for developing and managing information to improve service and make decisions in healthcare. Topics include design, implementation and management of enterprise information systems, health information systems, and electronic medical records, along with other managerial issues such as information privacy and security.
- MBA 263. Project and Outsourcing Management.** **3 Units**
Term Typically Offered: Fall, Spring
- Cover the knowledge, skills, and principles required to organize, plan, and control projects and outsourcing activities. Topics include a review of project characteristics and risks, development executive objectives, organization structure and interfaces, information management, and control techniques.
- MBA 264. Business Intelligence.** **3 Units**
Term Typically Offered: Fall, Spring
- Cover the processes, methodologies, infrastructure, framework, and current practices used to transform business data into useful information and knowledge for IT-enabled managerial decision support and performance improvement. Data-orientated techniques for corporate performance management and decision making, as well as methodologies for business process improvement, are emphasized. Foundation knowledge in data storage and retrieval, logical data models for database management systems and data warehouses, and security-related issues are discussed.
- MBA 270. Global Business Management.** **3 Units**
Term Typically Offered: Fall, Spring
- Provides graduate students an understanding of the management approaches of multinational corporations in dealing with operational differences in various countries. Topics include such areas as: foreign investment decisions, relations with host governments, and organizational planning.
- MBA 271. Integrated Entrepreneurship Management.** **3 Units**
Term Typically Offered: Fall, Spring
- Explore multi-dimensions of entrepreneurship including the entrepreneurial initiatives in a corporate context. As a nascent entrepreneur, students are to evaluate new venture opportunities and to understand the entire process of a new venture creation. In corporate settings, students are to understand the innovation and change management of established firms to accomplish their sustainable competitive advantages.
- MBA 272. Entrepreneurial Resources Management.** **3 Units**
Term Typically Offered: Fall, Spring
- Study the concepts of identifying and managing talent in entrepreneurial ventures. Demonstrate through theories, empirical evidence, case studies and simulations, the value of sustainable human resource management in new and established enterprises.

MBA 280. Value Chain Integration.**3 Units****Prerequisite(s):** classified or conditionally classified graduate student in the College of Bus Admin**Term Typically Offered:** Fall, Spring

Study the current state of enterprise value chains from an operation management perspective. Discuss contemporary issues regarding supply and operations management of organizations including profit and nonprofit, service and manufacturing organizations. Integrative topics will be selected among issues affecting an organization's value chain at operational, strategic, and economic levels.

MBA 281. Quality and Process Improvement in Healthcare.**3 Units****Prerequisite(s):** classified or conditionally classified graduate student in the College of Bus Admin**Term Typically Offered:** Fall, Spring

Discuss contemporary developments and methods in managing quality and process improvement in the healthcare industry. Topics include: Healthcare quality, leadership, teambuilding and project management; quality management processes and tools; quality measurement and management; human participation and organizational design in healthcare quality management; quality and process improvement initiatives; Lean and Six Sigma methodologies for continuous process improvement; process and systems integration; and emerging trends in healthcare quality management.

MBA 282. Global Supply Chain Management.**3 Units****Prerequisite(s):** classified or conditionally classified graduate student in the College of Bus Admin**Term Typically Offered:** Fall, Spring

A comprehensive study of the basic concepts, methods, processes, and strategies used in the design, development and management of global of supply chains. Topics include: defining the supply chain on a global scale, designing global supply chain networks, global procurement, strategic alliances, global logistics, supply chain-orientated product design, quantitative and qualitative tools for supply chain management and current industry initiatives.

MBA 294. Cooperative Education Experience in Management.**6 - 12 Units****Prerequisite(s):** Minimum overall GPA of 3.0.**Term Typically Offered:** Fall, Spring

In-depth supervised work experience in management for the purpose of exposing the students to comprehensive management experience in business, government, or service agencies.

Note: Open to all classified graduate students, subject to permission of the Associate Dean for Graduate and External Programs. Units do not apply toward degree.

Credit/No Credit

MBA 295A. Internship In Finance.**3 Units****Prerequisite(s):** Classified graduate status; minimum Sacramento State GPA of 3.0 required.**Term Typically Offered:** Fall, Spring

Supervised work experience in business, governmental service, or agencies for the purpose of increasing and enhancing student understanding of the nature and scope of the organization's operations. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to second year MBA and MSBA/MIS students. Petitions are obtained from Tahoe Hall 2065.

Credit/No Credit

MBA 295B. Internship In Marketing.**3 Units****Prerequisite(s):** Classified graduate status; minimum Sacramento State GPA of 3.0 required.**Term Typically Offered:** Fall, Spring

Supervised work experience in business, governmental service, or agencies for the purpose of increasing and enhancing student understanding of the nature and scope of the organization's operations. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to second year MBA and MSBA/MIS students. Petitions are obtained from Tahoe Hall 2065.

Credit/No Credit

MBA 295C. Internship in Operations Management.**3 Units****Prerequisite(s):** Classified graduate status; minimum Sacramento State GPA of 3.0 required.**Term Typically Offered:** Fall, Spring

Supervised work experience in business, governmental service, or agencies for the purpose of increasing and enhancing student understanding of the nature and scope of the organization's operations. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to second year MBA and MSBA/MIS students. Petitions are obtained from Tahoe Hall 2065.

Credit/No Credit

MBA 295D. Internship in Organizational Behavior and Management.**3 Units****Prerequisite(s):** Classified graduate status; completion of graduate foundation courses plus 6 units of the second year requirement, minimum Sacramento State GPA of 3.0 required.**Term Typically Offered:** Fall, Spring

Supervised work experience in business, governmental service, or agencies for the purpose of increasing and enhancing student understanding of the nature and scope of the organization's operations. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to second year MBA and MSBA/MIS students. Petitions are obtained from Tahoe Hall 2065.

Credit/No Credit

MBA 295E. Internship in Urban Land Development. 3 Units

Prerequisite(s): Classified graduate status; completion of graduate foundation courses plus 6 units of the second year requirement, minimum Sacramento State GPA of 3.0 required.

Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental service, or agencies for the purpose of increasing and enhancing student understanding of the nature and scope of the organization's operations. Supervision is provided by the faculty and the cooperating agencies.

Note: Open to second year MBA and MSBA/MIS students. Petitions are obtained from Tahoe Hall 2065.

Credit/No Credit

MBA 296. Experimental Offerings in MBA. 3 Units

Term Typically Offered: Fall, Spring

When a sufficient number of qualified students apply, a faculty member may conduct a seminar on a designated advanced topic in the MBA program.

Note: May be repeated for credit

MBA 299A. Special Problems in Finance. 1 - 3 Units

Prerequisite(s): Classified graduate status.

Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.

Note: Admission requires approval of faculty member supervising work in addition to the approval of the Associate Dean for Graduate and External Programs. Petitions are obtained from Tahoe Hall 1035.

Credit/No Credit

MBA 299B. Special Problems in Marketing. 1 - 3 Units

Prerequisite(s): Classified graduate status.

Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.

Note: Admission requires approval of faculty member supervising work in addition to the approval of the Associate Dean for Graduate and External Programs. Petitions are obtained from Tahoe Hall 1035.

Credit/No Credit

MBA 299C. Special Problems in Operations Management. 1 - 3 Units

Prerequisite(s): Classified graduate status

Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.

Note: Admission requires approval of faculty member supervising work in addition to the approval of the Associate Dean for Graduate and External Programs. Petitions are obtained from Tahoe Hall 1035.

Credit/No Credit

MBA 299D. Special Problems in Organizational Behavior and Management. 1 - 3 Units

Prerequisite(s): Classified graduate status.

Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.

Note: Admission requires approval of faculty member under whom the individual work is to be conducted in addition to the approval of the Associate Dean for Graduate and External Programs. Petitions to be obtained from the CBA Graduate Programs Office, Tahoe Hall 1035.

Credit/No Credit

MBA 299E. Special Problems in Urban Land Development. 1 - 3 Units

Prerequisite(s): Classified graduate status.

Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.

Note: Admission requires approval of faculty member under whom the individual work is to be conducted in addition to the approval of the Graduate Program Office. Petitions to be obtained from the CBA Graduate Programs Office, Tahoe Hall 1035.

Credit/No Credit

MBA 500A. Thesis. 3 Units

Prerequisite(s): Advanced to candidacy; completion of MBA 244.

Term Typically Offered: Fall, Spring

Completion of a thesis approved for the Master's degree.

MBA 500B. Project. 1 - 3 Units

Prerequisite(s): Advanced to candidacy; completion of MBA 244.

Term Typically Offered: Fall, Spring

Completion of a project approved for the Master's degree.

MBA 500C. Comprehensive Examination. 1 Unit

Prerequisite(s): Advanced to candidacy. For comprehensive examination for MBA only, completion of Program Requirements (MBA 210, MBA 220, MBA 230, MBA 420, MBA 270, MBA 280).

Term Typically Offered: Fall, Spring

MBA 501. Culminating Experience Project in Business and Strategy. 3 Units

Prerequisite(s): Advanced to candidacy

Term Typically Offered: Fall, Spring

Each student conducts an individual project to fulfill the culminating experience graduation requirement of the MBA program as required in Title V of the CA educational Code. The course also covers the competitive strategy of a firm, investigates competitive position, strategic capabilities, inter-firm dynamics, and strategic levers of firms. It integrates the accumulative knowledge, skills and techniques delivered in the program to review the strategy process executives employ for effective decision making.

Note: May be repeated for credit.

Math Learning Skills (MLSK)

MLSK 7A. Making Sense Of Algebra. 4 Units

Prerequisite(s): Score of 34 or below on the ELM Test.

Term Typically Offered: Fall, Spring

Review of fundamental mathematics concepts, measurement geometry, and beginning algebra.

MLSK 7B. Making Sense Of Algebra. 4 Units

Prerequisite(s): LS 7A or MLSK 7A.

Term Typically Offered: Fall, Spring

Review of beginning algebra, algebra topics, and measurement geometry.

MLSK 8A. Individualized Algebra. 2 Units

Prerequisite(s): Instructor permission and pre-algebra competency.

Term Typically Offered: Fall, Spring

First in a three course sequence to prepare students for Math 1. Delivered at a slower pace than other preparatory math courses. Upon completion of the three course sequence, students must enroll in MATH 1.

MLSK 8B. Individualized Algebra. 2 Units

Prerequisite(s): Instructor permission and pre-algebra competency.

Term Typically Offered: Fall, Spring

Second in a three course sequence to prepare students for Math 1. A continuation of topics in MLSK 8A. Delivered at a slower pace than other preparatory math courses. Upon completion of the three course sequence, students must enroll in MATH 1.

MLSK 8C. Individualized Algebra. 2 Units

Prerequisite(s): Instructor permission and pre-algebra competency.

Term Typically Offered: Fall, Spring

Last in a three course sequence designed to prepare students for Math 1. A continuation of topics addressed in MLSK 8B. Delivered at a slower pace than other preparatory math courses. Upon completion of the three course sequence, students must enroll in MATH 1.

MLSK 10A. Elementary Algebra with Geometry. 4 Units

Prerequisite(s): Score of 36-48 on the ELM Test.

Term Typically Offered: Fall, Spring

Review of fundamental mathematical concepts, basic measurement geometry and beginning algebra. Instruction provided through lecture or structured tutorial format.

Note: May utilize computers.

MLSK 10X. Geometry Adjunct to Math 9. 1 Unit

Prerequisite(s): Score of 44-48 on the ELM.

Corequisite(s): MATH 9.

Term Typically Offered: Fall, Spring

Review of measurement geometry and tutorial support for students concurrently enrolled in Math 9.

MLSK 195A. Learning Skills Tutoring Internship. 3 Units

Prerequisite(s): Instructor permission.

Term Typically Offered: Fall, Spring

Practical application of learning through the tutoring of students.

Note: May be repeated for credit.

Credit/No Credit

MLSK 199. Special Problems. 1 - 3 Units

Term Typically Offered: Fall, Spring

Individual projects or directed study.

Note: Requires approval of faculty member and Department Chair; may be repeated for credit.

Credit/No Credit

Mathematics (MATH)

MATH 1. Mathematical Reasoning. 3 Units

General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)

Term Typically Offered: Fall, Spring, Summer

Recommended for students whose majors do not include a specific mathematics requirement. Objectives are to show some of the essence and quality of mathematics, and to enhance precision in the evaluation and expression of ideas, thereby developing a student's quantitative reasoning skills. Designed to give students an understanding of some of the vocabulary, methods, and reasoning of mathematics with a focus on ideas.

MATH 10. Essentials of Algebra. 3 Units

Prerequisite(s): Any valid score on ALEKS PPL exam

Term Typically Offered: Fall, Spring

Prepares students for courses requiring fundamental algebra skills. Topics include: review of basic algebra; scientific notation, rounding, and percents; factoring; exponents; linear equations and inequalities with applications; quadratic equations with applications; graphing with applications; absolute value equations and inequalities; systems of linear equations and inequalities; and an introduction to exponential and logarithmic expressions.

MATH 12. Algebra for College Students. 4 Units

Prerequisite(s): Score of 41 or higher on ALEKS PPL exam

Term Typically Offered: Fall, Spring

Prepares students for Pre-calculus and other higher math courses requiring intermediate algebra. Topics include: linear equations and inequalities, absolute value equations and inequalities, systems of linear equations, quadratic equations, polynomial expressions and equations, rational expressions and equations, roots and radicals, and exponential & logarithmic properties and equations.

MATH 15H. Honors Mathematical Reasoning. 3 Units

Prerequisite(s): Open only to Honors students.

General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)

Term Typically Offered: Fall, Spring

Introduction to the composition and interpretation of mathematical ideas and to the mathematical reasoning necessary to derive results in a variety of mathematical topics. Emphasis on developing concepts and analyzing results.

MATH 17. An Introduction to Exploration, Conjecture, and Proof in Mathematics. 3 Units

Prerequisite(s): Score of 46 or higher on ALEKS PPL exam or MATH 10
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring

Prepares students for MATH 107A and MATH 107B. Students will explore mathematical patterns and relations, formulate conjectures, and prove their conjectures. Topics from number theory, probability and statistics, and geometry.

MATH 24. Modern Business Mathematics. 3 Units

Prerequisite(s): Score of 51 or higher on ALEKS PPL exam or MATH 10
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring, Summer

Mathematics for business world, including functions, math of finance, linear programming and rates of change. Applications to economics and business will be emphasized throughout.

MATH 24*AP. AP: Meets MATH 24 + AREA B4. 99 Units**MATH 26A. Calculus I for the Social and Life Sciences.** 3 Units

Prerequisite(s): Score of 61 or higher on ALEKS PPL exam or MATH 12
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring, Summer

Limits, differentiation with applications, integration and applications in the Social Sciences and Life Sciences.

MATH 26B. Calculus II for the Social and Life Sciences. 3 Units

Prerequisite(s): MATH 26A or appropriate high school based AP credit.
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring

Continuation of MATH 26A, integration and applications to the Social Sciences and Life Sciences. Multi-variate analysis including partial differentiation and maximization subject to constraints; elementary differential equations; sequences and series. Calculus of the trigonometric functions as time allows.

Note: Not open to students already having credit for MATH 31 or equivalent.

MATH 29. Pre-Calculus Mathematics. 4 Units

Prerequisite(s): Score of 61 or higher on ALEKS PPL exam or MATH 12
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring, Summer

Designed to prepare students for calculus. Topics: trigonometry, points and lines in the Cartesian plane; lines and planes in space; transformation of coordinates; the conics; graphs of algebraic relations; the elementary transcendental functions.

MATH 29A. Pre-Calculus Mathematics A. 2 Units

Prerequisite(s): Score of 61 or higher on ALEKS PPL exam or MATH 12
Term Typically Offered: Fall, Spring, Summer

First semester of a two semester course that is designed to prepare students for calculus. Topics: functions and graphs, polynomial functions, rational functions and applications. Lecture two hours.

MATH 29B. Pre-Calculus Mathematics B. 2 Units

Prerequisite(s): MATH 29A.
Corequisite(s): MATH 29M.
Term Typically Offered: Fall, Spring, Summer

Second semester of a two semester course that is designed to prepare students for calculus. Topics: exponential and logarithmic functions, trigonometric functions, analytic geometry, and applications. Lecture two hours.

MATH 29L. Lab for Pre-Calculus Math A. 1 Unit

Corequisite(s): MATH 29B.
Term Typically Offered: Fall, Spring

Workshop designed to deepen the understanding of pre-calculus developed in MATH 29A.

Note: May be taken for workload credit toward establishing full-time enrollment status, but is not applicable to the baccalaureate degree. Laboratory

MATH 29M. Lab for Pre-Calculus Math B. 1 Unit

Corequisite(s): MATH 29B.
Term Typically Offered: Fall, Spring

Workshop designed to deepen the understanding of pre-calculus developed in MATH 29B.

Note: May be taken for workload credit toward establishing full-time enrollment status, but is not applicable to the baccalaureate degree. Laboratory

MATH 30. Calculus I. 4 Units

Prerequisite(s): Score of 76 or higher on ALEKS PPL exam or MATH 29 or MATH 29B
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring, Summer

Functions and their graphs; limits; the derivative and some of its applications; trigonometric and hyperbolic functions and their inverses; the integral; the fundamental theorem; some applications of the integral.

MATH 30L. Laboratory for First Semester Calculus. 1 Unit

Corequisite(s): Enrollment in a designated section of MATH 30.
Term Typically Offered: Fall, Spring

Workshop designed to deepen the understanding of calculus developed in MATH 30.

Note: May be taken for workload credit toward establishing full-time enrollment status, but is not applicable to the baccalaureate degree. Laboratory

Credit/No Credit

MATH 31. Calculus II. 4 Units

Prerequisite(s): MATH 30 or appropriate high school based AP credit.
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring, Summer

MATH 30 continuation. Methods of integration; improper integrals; analytic geometry; infinite sequences and series.

<p>MATH 31L. Laboratory for Second Semester Calculus. 1 Unit Corequisite(s): Enrollment in a designated section of MATH 31. Term Typically Offered: Fall, Spring, Summer</p>	<p>MATH 101. Combinatorics. 3 Units Prerequisite(s): MATH 31 Term Typically Offered: Spring only</p>
<p>Workshop designed to deepen the understanding of calculus developed in MATH 31. Note: May be taken for workload credit toward establishing full-time enrollment status, but is not applicable to the baccalaureate degree. Laboratory</p>	<p>Introduction to the art of counting. The focus will be on actually listing the objects being counted in small cases and using the knowledge gained in working with small cases to build toward general principles. Sum and product principles, models of counting, permutations and combinations, equivalence relations and partitions, inclusion-exclusion principle, recurrence relations, and generating functions.</p>
<p>Credit/No Credit MATH 32. Calculus III. 4 Units Prerequisite(s): MATH 31. Term Typically Offered: Fall, Spring, Summer</p>	<p>MATH 102. Number Theory. 3 Units Prerequisite(s): MATH 31. Term Typically Offered: Fall, Spring</p>
<p>Continuation of Calculus II. Algebra and calculus of vectors; functions of several variables; partial differentiation; multiple integration; vector analysis.</p>	<p>Theory of divisibility; some number theoretical functions; congruencies (linear and quadratic); some Diophantine equations. Simple continued fractions.</p>
<p>MATH 35. Introduction to Linear Algebra. 3 Units Prerequisite(s): MATH 30 or appropriate high school based AP credit. General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4) Term Typically Offered: Fall, Spring</p>	<p>MATH 104. Vector Analysis. 3 Units Prerequisite(s): MATH 32. Term Typically Offered: Spring only</p>
<p>Careful development of matrices, systems of equations, determinants, vector spaces, linear transformations, orthogonality, real and complex eigenvalues; \mathbb{R}^3 viewed as a vector space with generalization to \mathbb{R}^n.</p>	<p>Vector and scalar fields, integral theorems, orthogonal curvilinear coordinates, vector spaces and linear transformations, applications to physical fields and operators.</p>
<p>MATH 45. Differential Equations for Science and Engineering. 3 Units Prerequisite(s): MATH 31. Term Typically Offered: Fall, Spring, Summer</p>	<p>MATH 105A. Advanced Mathematics for Science and Engineering I. 4 Units Prerequisite(s): MATH 32, MATH 45. Term Typically Offered: Fall only</p>
<p>First order differential equations, second order differential equations with constant coefficients. Laplace transforms, small systems of linear differential equations, numerical methods, introduction to second order differential equations with variable coefficients.</p>	<p>Survey of second order linear differential equations, power series and Fourier series solutions, solution of partial differential equations by separation of variables.</p>
<p>MATH 99. Special Problems. 1 - 6 Units Term Typically Offered: Fall, Spring</p>	<p>MATH 105B. Advanced Mathematics for Science and Engineering II. 4 Units Prerequisite(s): MATH 105A. Term Typically Offered: Spring only</p>
<p>Individual projects or directed reading. Note: Open only to students who appear competent to carry on individual work; admission requires the approval of the faculty member under whom individual work is to be conducted, and approval of the advisor and the Department Chair.</p>	<p>Partial differential equations continued, complex function theory and its applications.</p>
<p>Credit/No Credit MATH 100. Applied Linear Algebra. 3 Units Prerequisite(s): MATH 26B or MATH 31. Term Typically Offered: Fall, Spring</p>	<p>MATH 107A. Fundamental Mathematical Concepts. 3 Units Prerequisite(s): MATH 17 and either a score of 46 or higher on ALEKS PPL exam or MATH 10 Term Typically Offered: Fall, Spring</p>
<p>Linear algebra and its elementary applications. Topics: Matrix algebra; simultaneous linear equations; linear dependence and vector spaces; rank and inverses; determinants; numerical solution of simultaneous linear equations; linear transformations; eigenvalues and eigenvectors; unitary and similarity transformations; quadratic forms. Note: May not be taken for credit toward a mathematics major.</p>	<p>First half of a one-year course in the structure of the real number system and its sub-systems and in the basic properties and concepts of geometry. Topics will include: definitions and properties of set theory and their use in the development of the natural and whole number systems, definitions and properties of the arithmetic relations and operations for the natural numbers, whole numbers, integers. Note: May not be taken for credit toward a mathematics major or minor.</p>
<p></p>	<p>MATH 107B. Fundamental Mathematical Concepts. 3 Units Prerequisite(s): MATH 107A. Term Typically Offered: Fall, Spring</p>
<p></p>	<p>Continuation of MATH 107A. Topics will include: rational numbers, real numbers, measurement, Euclidean Geometry. Note: May not be taken for credit toward a mathematics major or minor.</p>

MATH 107C. Elementary Mathematics and the Learning Process.**3 Units****Prerequisite(s):** MATH 17, MATH 107A or MATH 107B, and CHDV 30 or CHDV 35.**Term Typically Offered:** Fall, Spring

Students will build on their understanding of material of Math 17, Math 107A/B by deepening their understanding of the concepts taught in these courses. This will be done by examining these concepts in relationship to theories of learning and development. Students will examine mathematical concepts related to K-8 with respect to the treatment of reasoning, communication, and the perspective of cognitive and social constructivism; and throughout the course will consider the question of "What is mathematics?" and "How is mathematics learned?"

MATH 108. Introduction to Formal Mathematics.**3 Units****Prerequisite(s):** MATH 31, MATH 35.**Term Typically Offered:** Fall, Spring

Logic of mathematical proof, set theory, relations, functions. Examples and applications from set cardinality, algebra, and analysis.

MATH 110A. Modern Algebra.**3 Units****Prerequisite(s):** MATH 108.**Term Typically Offered:** Fall, Spring

First half of a one-year introductory course in algebraic concepts. Topics include: groups, subgroups, properties of groups, permutation groups, factor groups, homomorphism theorems.

MATH 110B. Modern Algebra.**3 Units****Prerequisite(s):** MATH 110A.**Term Typically Offered:** Fall, Spring

Continuation of MATH 110A.

Note: Topics include**MATH 117. Linear Algebra.****3 Units****Prerequisite(s):** MATH 110A.**Term Typically Offered:** Fall, Spring

Abstract linear spaces and linear transformations; invariant subspaces; canonical forms.

MATH 121. College Geometry.**3 Units****Prerequisite(s):** MATH 31; MATH 32 or MATH 35.**Term Typically Offered:** Fall, Spring

Study of the axioms and theorems of Euclidean geometry. A comparison of several geometry axiom systems and their theorems, including those of some non-Euclidean and finite geometries.

MATH 130A. Functions of a Real Variable.**3 Units****Prerequisite(s):** MATH 32 and MATH 108.**Term Typically Offered:** Fall, Spring

First half of a one-year upper division course in functions of a real variable. The first semester will consist of a rigorous development of the theory of real-valued sequences and continuity and differentiation for functions of one real variable.

MATH 130B. Functions of a Real Variable.**3 Units****Prerequisite(s):** MATH 130A.**Term Typically Offered:** Fall, Spring

Continuation of MATH 130A. This semester will be devoted to a rigorous development of the theory of Riemann integration, infinite series, and sequences and series of functions.

MATH 134. Functions of a Complex Variable and Applications.**3 Units****Prerequisite(s):** MATH 32.**Term Typically Offered:** Spring only

Complex plane; analytic functions; integration and Cauchy's Theorem; sequences and series; residue calculus; applications to potential theory; Fourier and Laplace transforms.

MATH 150. Introduction to Numerical Analysis.**3 Units****Prerequisite(s):** MATH 31**Term Typically Offered:** Spring only

Numerical solutions of algebraic and transcendental equations; interpolation, inverse interpolation, finite differences, cubic splines, and applications; numerical differentiation and integration; direct and iterative numerical solutions of linear systems; discrete and continuous least squares approximation.

MATH 161. Mathematical Logic.**3 Units****Prerequisite(s):** MATH 108.**Term Typically Offered:** Fall, Spring

Advanced study of logic with special application to mathematics.

MATH 162. Set Theory.**3 Units****Prerequisite(s):** MATH 108.**Term Typically Offered:** Fall only

Axiomatic study of set theory. Topics usually considered include: relations and functions; set theoretical equivalence; finite and infinite sets; cardinal arithmetic; ordinal numbers and transfinite induction; variants of the Axiom of Choice.

MATH 170. Linear Programming.**3 Units****Prerequisite(s):** MATH 31; MATH 35 or MATH 100.**Term Typically Offered:** Fall only

Theory of linear programming, duality, simplex method, integer programming, applications.

MATH 190. History Of Mathematics.**3 Units****Prerequisite(s):** MATH 31 and upper division status in mathematics.**Term Typically Offered:** Fall, Spring

Study of the development of mathematical ideas and techniques and their impact on the general course of the history of western civilization.

MATH 193. Capstone Course for the Teaching Credential Candidate.**3 Units**

Prerequisite(s): Successful completion of at least five of the following: MATH 102, MATH 110A, MATH 110B, MATH 121, MATH 130A, MATH 130B or MATH 190; MATH 110A or MATH 130A may be taken concurrently.

Term Typically Offered: Fall, Spring

Reviews the major themes presented in the upper division program in Mathematics, and relates the themes to junior high school and high school curriculum. Required for all subject matter students.

Note: Not accepted for credit for non-Teaching Credential students.

- MATH 196K. Introduction to Differential Geometry.** 3 Units
Prerequisite(s): MATH 32, and MATH 35 or instructor's permission
Term Typically Offered: Spring only
- Calculus methods are applied to the study of curves and surfaces in three dimensional space. After an introduction to the geometry of curves (curvature, torsion, and Frenet's formulas), the course explores the geometry of surfaces. Some of the geometrical properties of a surface that will be investigated are its first and second fundamental forms, its various curvatures (normal, principal, mean, and Gaussian curvatures), and its geodesic curves.
- MATH 198. Seminar for Mathematics Tutors.** 2 Units
Prerequisite(s): Students must be working as tutors in a campus-based program.
Term Typically Offered: Fall, Spring
- Supports Sacramento State students who are working in tutorial and related roles in mathematics programs on campus. Focus on questioning as a fundamental strategy for teaching mathematics, on classroom observation, and on communication among mathematics instructors in support of effective teaching and learning.
Note: May be repeated up to two times for credit.
- Credit/No Credit
- MATH 199. Special Problems.** 1 - 6 Units
Term Typically Offered: Fall, Spring
- Individual projects or directed reading. Open only to those students who appear competent to carry on individual work. Admission to this course requires the approval of the faculty member under whom the individual work is to be conducted, in addition to the approval of the advisor and the Department Chair.
 Credit/No Credit
- MATH 210A. Algebraic Structures.** 3 Units
Prerequisite(s): MATH 110B.
Term Typically Offered: Fall, Spring
- General algebraic systems and concepts; groups.
- MATH 210B. Algebraic Structures.** 3 Units
Prerequisite(s): MATH 210A.
Term Typically Offered: Fall, Spring
- Fields; vector spaces; Galois theory.
- MATH 220A. Topology.** 3 Units
Prerequisite(s): MATH 130B.
Term Typically Offered: Fall, Spring
- Point set topology, continuity, compactness, connectedness.
- MATH 220B. Topics In Topology.** 3 Units
Prerequisite(s): MATH 220A.
Term Typically Offered: Fall, Spring
- Continuation of MATH 220A with topics selected from: General topology/ Foundations, Geometric Topology, Continuum Theory, Homology Theory, Homotopy Theory, Topological Dynamics.
Note: May be taken twice with approval of the graduate coordinator.
- MATH 230A. Real Analysis.** 3 Units
Prerequisite(s): MATH 130B.
Term Typically Offered: Fall, Spring
- Metric topology; the theory of the derivative; measure theory.
- MATH 230B. Real Analysis.** 3 Units
Prerequisite(s): MATH 230A.
Term Typically Offered: Fall, Spring
- Continuation of MATH 230A, with topics selected from: Theory of the integral, including Riemann, Riemann Stieltjes, and Lebesgue integrals.
Note: May be taken twice with approval of the graduate coordinator.
- MATH 234A. Complex Analysis.** 3 Units
Prerequisite(s): MATH 130B; MATH 105B or MATH 134 is recommended.
Term Typically Offered: Fall, Spring
- Complex numbers, complex functions, analytic functions, complex integration, harmonic functions.
- MATH 234B. Topics in Complex Analysis.** 3 Units
Prerequisite(s): MATH 234A.
Term Typically Offered: Fall, Spring
- Continuation of MATH 234A with topics selected from: Partial Fractions and Infinite Products, Entire Functions, Riemann Zeta Function, Normal Families, Riemann Mapping Theorem, Conformal Mapping of Polygons, Dirichlet Problem, Analytic Continuation.
Note: May be taken twice with approval of the graduate coordinator.
- MATH 241A. Methods of Applied Mathematics.** 3 Units
Prerequisite(s): MATH 134 recommended.
Term Typically Offered: Fall, Spring
- Topics from: Hilbert Space Theory, Operators on Hilbert Space, Generalized Functions with Applications to Sturm-Liouville Theory and Partial Differential Equations.
Note: May be repeated for credit provided topic is not repeated.
- MATH 241B. Topics in Applied Mathematics.** 3 Units
Prerequisite(s): MATH 241A.
Term Typically Offered: Fall, Spring
- Continuation of MATH 241A with topics: Calculus of Variations, Functional Analysis, Dynamical Systems, Integral Equations, Sobolev Spaces, Fourier Analysis, Potential Theory, and Optimal Control Theory.
Note: May be taken twice with approval of the graduate coordinator.
- MATH 299. Special Problems.** 1 - 6 Units
Term Typically Offered: Fall, Spring
- Any properly qualified student who wishes to pursue a problem may do so if the proposed subject is acceptable to the supervising instructor and to the student's advisor.
 Credit/No Credit
- MATH 316. The Psychology of Mathematics Instruction.** 2 Units
Prerequisite(s): Admission to the Mathematics Blended Program.
Term Typically Offered: Fall only
- A survey course for students in the Blended Program in Mathematics that relates broad areas of educational psychology and theories of learning to instruction in the secondary mathematics classroom. The focus is on practical applications of theories through the design of lesson and unit plans. Students will design learning activities for diverse classes of learners, including English Language Learners, and build and refine assessment plans that include formative assessments. Lecture two hours.

MATH 371A. Schools and Community A.**2 Units****Corequisite(s):** Enrollment in EDTE 470A.**Term Typically Offered:** Fall, Spring

The first of a two-part sequence supporting student teachers in the Mathematics Blended Program. Focus is on strategies for secondary mathematics instruction, the process of reflection on teaching, communication among mathematics teachers in support of effective teaching and learning, strategies for engagement, questioning, creating a safe classroom environment, classroom management, assessment, and familiarity with school and community resources. Emphasis on issues related to English Language Learners, special needs students, and intervention strategies. Seminar two hours.

Credit/No Credit

MATH 371B. Schools and Community B.**2 Units****Corequisite(s):** Enrollment in EDTE 470B.**Term Typically Offered:** Fall, Spring

The second of a two-part sequence supporting student teachers in the Mathematics Blended Program. Focus is on strategies for secondary mathematics instruction, the process of reflection on teaching, communication among mathematics teachers in support of effective teaching and learning, strategies for engagement, questioning, creating a safe classroom environment, classroom management, assessment, and familiarity with school and community resources. Emphasis on issues related to English Language Learners, special needs students, and intervention strategies. Seminar two hours.

Credit/No Credit

MATH 500. Culminating Experience.**1 - 3 Units****Prerequisite(s):** Advanced to candidacy and permission of the graduate coordinator.**Term Typically Offered:** Fall, Spring

Directed reading programs for master's candidates preparing for written comprehensive examinations.

Mechanical Engineering (ME)

ME 37. Manufacturing Processes.**3 Units****Term Typically Offered:** Fall, Spring, Summer

Principles of manufacturing processes in the areas of metal removal, forming, joining and casting and fundamentals of numerical control. Study includes applications of equipment, e.g., lathe, milling machine, drill press, saw, grinder, welder, molding equipment and core makers. Emphasis on safety during hands-on operations. Two hours lecture, one three-hour lab.

ME 105. Introduction to Technical Problem Solving.**3 Units****Prerequisite(s):** ENGR 17 and ENGR 30.**Term Typically Offered:** Fall, Spring, Summer

Introduction to the use of computers for engineering, science and mathematical computations. Introduction to linear algebra and matrix applications. Introduction to concepts of programming and visualization using MATLAB and PBasic. Practical applications involving design using a microcontroller. Applications will be drawn from a variety of science and engineering areas. Lecture two hours, Laboratory three hours.

ME 108. Professional Topics for Mechanical Engineers.**2 Units****Prerequisite(s):** MATH 31**Term Typically Offered:** Fall, Spring

Introduction to statistical methods applied to analysis of engineering systems. Topics include data collection, distribution characteristics, probability, uses of regression analysis, and decision-making under uncertainty. Introduction to economic analysis applied to engineering designs. Topics include marginal or incremental economic analysis using multiple standard methods while addressing organizational constraints and market factors. Investigations into the roles engineers play in society in working toward sustainability, and ethical decision making in a technological world.

ME 114. Vibrations.**3 Units****Prerequisite(s):** ENGR 110, ME 105.**Term Typically Offered:** Fall, Spring

Generation of equations of motion for single and multiple degree freedom systems. Study of natural frequencies, eigenvectors, free and forced response, modes of vibration and vibration control and isolation. Mechanical and structural vibrations with applications to rotating machinery and vehicles. Fundamentals of acoustics and the engineering of musical instruments.

ME 115. Dynamics of Machinery and Multi-Body Systems.**3 Units****Prerequisite(s):** ENGR 110, ME 105.**Term Typically Offered:** Fall, Spring

Kinematic and kinetic analysis of mechanisms. Rigid and flexible multi-body assembly models in two and three dimensions. Use of solid modeling, dynamic analysis and finite element methods. Study of loads on linkages, cams, gears as integral functioning components of machines, ground and space vehicles. Study of forces and moments in machinery under impulsive and impact forces, balancing, and elements of vibration.

ME 116. Machinery Design I.**2 Units****Prerequisite(s):** ENGR 6, ENGR 112, and ME 37. ENGR 112 and ME 37 may be taken concurrently.**Term Typically Offered:** Fall, Spring

Introduction to basic design methodology for mechanical systems and devices. Detail design of machine components; application of analytical methods in the design of complex machines. Failure mode analysis, theories of failure, yield, fracture, deflection, and fatigue analysis of machine elements. Design of common machine elements such as bearings and shafts.

ME 117. Machinery Design II.**2 Units****Prerequisite(s):** ME 116.**Term Typically Offered:** Fall, Spring

Introduction to design of machine components; application of analytical methods in the design of complex machines. Design of common machine elements such as threaded fasteners, springs, flexible drive components, gears, and friction devices. Introduction to stress and deflection analysis using finite element software.

ME 121. Solar Thermal and Energy Storage Systems.**2 Units****Prerequisite(s):** ENGR 124.**Term Typically Offered:** Fall, Spring

Study of solar thermal heat and power and energy storage including the characterization, theory, operation, analysis and modeling of solar thermal and energy storage systems.

<p>ME 122. Geothermal and Bioenergy Systems. 2 Units Prerequisite(s): ENGR 124 Term Typically Offered: Fall, Spring</p>	<p>ME 138. Concurrent Product and Process Design. 3 Units Prerequisite(s): ME 37 and ME 116. Term Typically Offered: Fall, Spring</p>
<p>Study of geothermal and bioenergy systems including the characterization, theory, operation, analysis and modeling.</p>	<p>Manufacturing considerations in product design including: design for manufacturing (DFM), design for assembly (DF A), design to cost (DTC), design to life cycle cost (DTLCC), design for quality and reliability (DFQR); introduction to concurrent engineering. Two hours lecture, three-hour lab.</p>
<p>ME 123. Wind, Hydro and Ocean Energy. 3 Units Prerequisite(s): ENGR 124 and ENGR 132. Term Typically Offered: Fall, Spring</p>	<p>ME 140. Introduction to Motors and Actuators. 2 Units Prerequisite(s): ME 172 or EEE 184. Term Typically Offered: Fall, Spring</p>
<p>Exploring sustainable energy and power generation, through study of wind, hydro and ocean energy systems, including the characterization, theory, operation, analysis, modeling, planning impacts and design process.</p>	<p>Power conversion hardware used in electromechanical systems. Operation and sizing of electric motors, both DC and AC systems, motor controllers, and power electronics; sensors; design in fluid power systems, both pneumatic and hydraulic; and power transmission systems such as ball screws and belt drivers.</p>
<p>ME 126. Heat Transfer. 3 Units Prerequisite(s): ENGR 124 and ENGR 132. Term Typically Offered: Fall, Spring, Summer</p>	<p>ME 141. Introduction to Tolerance Analysis. 2 Units Prerequisite(s): ME 116 Term Typically Offered: Fall, Spring</p>
<p>Basic principles of heat transfer, including processes of conduction, convection, radiation, evaporation and condensation. Lecture three hours.</p>	<p>Introduction to techniques used in manufacturing tolerance analysis. Assembly tolerance analysis using standard industry practices; application of geometric dimensioning techniques to tolerance analysis; drawing practices for indicating dimensional tolerances; statistical techniques; tolerance allocation. Introduction to computer aided tolerance analysis.</p>
<p>ME 126W. Heat Transfer Workshop. 1 Unit Corequisite(s): ME 126. Term Typically Offered: Fall, Spring, Summer</p>	<p>ME 143. Vehicle Dynamics and Design. 3 Units Prerequisite(s): ENGR 110 and ME 117. Term Typically Offered: Fall, Spring</p>
<p>Problem solving and discussion of heat transfer to enhance students' understanding of subject matter. Note: May be repeated for credit.</p>	<p>Principles and practice in vehicle dynamics and design using computer aided techniques. Design methods for passenger vehicles, SUVs, trucks, motorcycles and space vehicles. Study of tires, drivetrain and gear boxes in ground vehicles. Kinematics and kinetics of mechanisms in two and three dimensions with applications to suspensions, steering mechanisms. Frame design using finite element analysis, power trains, braking, auxiliary systems. Computer dynamic models for analysis of vehicle stability, collisions rollovers, and failure analysis using state-of-the-art software.</p>
<p>Credit/No Credit</p>	<p>ME 151. Fundamentals of Combustion. 3 Units Term Typically Offered: Fall, Spring</p>
<p>ME 128. Thermal-Fluid Systems. 3 Units Prerequisite(s): ENGR 124. Term Typically Offered: Fall, Spring, Summer</p>	<p>Principles of combustion and pyrolysis of gaseous, liquid, and solid materials. Applications of principles, including analysis and design of stationary and mobile powerplants, waste management, and fire safety.</p>
<p>Fundamentals of the Otto, Diesel, Brayton and Rankine power cycles, vapor-compression refrigeration, psychrometric processes and chemical reactions. Theory and application of temperature, pressure, flow, and velocity instruments, introduction to experiment design, errors, uncertainty and data acquisition, data analysis and presentation.</p>	<p>ME 152. Turbomachinery Design. 3 Units Prerequisite(s): ME 105. Term Typically Offered: Fall, Spring</p>
<p>ME 136. Numerical Control Programming. 3 Units Prerequisite(s): ME 37 and ME 105; ME 105 may be taken concurrently. Term Typically Offered: Fall, Spring</p>	<p>Theoretical analysis of energy transfer between fluid and rotor; principles of axial, mixed, and radial flow compressors and turbines. Applications and computer-aided design of various types of turbomachines.</p>
<p>Computer programming languages for automated manufacturing, including CNC manual programming, cutter compensation, geometric definition of products, cutting tool definition, continuous path part programming, computation, decision, looping, computer graphics programming and intelligent machines.</p>	<p>ME 153. Thermodynamics of Combustion Engines. 3 Units Prerequisite(s): ENGR 124, ENGR 132, ME 105. Term Typically Offered: Fall, Spring</p>
<p>ME 137. Product Design for Manufacturing and Automation. 3 Units Prerequisite(s): ME 117. Term Typically Offered: Fall, Spring</p>	<p>Application of thermodynamic and fluid mechanical analysis to various kinds of engines, including those based on Otto, Diesel, Brayton, Rankine, and Stirling cycles. Development of computer models and comparison of cycles in terms of applications to land, marine, and aerospace propulsion.</p>
<p>Various manufacturing and automation aspects of product design, including design for machining, design for automation, applications of CAD/CAM software in product design and automation, and rapid prototyping. Virtual design and manufacturing and agile manufacturing will also be discussed.</p>	

<p>ME 154. Alternative Energy Systems. 3 Units Prerequisite(s): ENGR 124. Term Typically Offered: Fall, Spring</p>	<p>ME 165. Introduction To Robotics. 3 Units Prerequisite(s): ME 105, ME 116 Term Typically Offered: Fall, Spring</p>
<p>Study of alternative energy technologies, such as renewable fuels, wind, solar, oceanic and geothermal power. Concentration on fundamental thermodynamic principles, modern design features and non-technical aspects of each technology.</p>	<p>Fundamentals of design and application of industrial robotics. Manipulator kinematics, trajectory planning and controller design, design of end effectors and actuators, sensors, programming languages, and machine vision. Applications in manufacturing, approach to implementing robotics, economic analysis for robotics. Lecture two hours; laboratory three hours.</p>
<p>ME 155. Gas Dynamics. 3 Units Prerequisite(s): ME 105. Term Typically Offered: Fall, Spring</p>	<p>ME 171. Modeling and Simulation of Mechatronics and Control Systems. 3 Units Prerequisite(s): ENGR 110, ME 105. Term Typically Offered: Fall, Spring, Summer</p>
<p>Thermodynamics and mechanics of one-dimensional compressible flow; isentropic flow; normal and oblique shock waves; Prandtl-Meyer flow. Combined effects in one-dimensional compressible flow. Nozzles, diffusers and shock tubes. Computer use in gas dynamics.</p>	<p>Computer modeling and mathematical representation of mechanical, electrical, hydraulic, thermal, and electronic systems or combinations of these. Development of system design criteria and solutions using computer simulation. Use of state of the art automated modeling and simulation methods to build models of multi-energy mechatronics and control systems. Vibration concepts, applied, natural frequencies, eigenvectors, and solution of differential equations using computer simulation. Introduction to state variable feedback control systems. A design project is required.</p>
<p>ME 156. Heating and Air Conditioning Systems. 3 Units Prerequisite(s): ENGR 124, ENGR 132. Term Typically Offered: Fall, Spring</p>	<p>ME 172. Control System Design. 3 Units Prerequisite(s): ME 171. Term Typically Offered: Fall, Spring, Summer</p>
<p>Theory and design of heating, ventilating and air conditioning for industrial and comfort applications. Topics include refrigeration cycles, heating and cooling load calculations, psychrometrics, solar heating and cooling component, and system design.</p>	<p>Use of mathematical models for the generation of equations of motion for mechanical and electrical systems. Evaluation of single and multiple degrees of freedom systems in the time and frequency domain. Topics include feedback control systems, Laplace transform, state space representation, transfer functions, error analysis, stability of control systems and system response. Automatic control system design using root locus and frequency response methods. Design of compensating controls using state of the art software and automation tools. Introduction to digital control.</p>
<p>ME 157. Solar Energy Engineering. 3 Units Prerequisite(s): ME 126; may be taken concurrently. Term Typically Offered: Fall, Spring</p>	<p>ME 173. Applications of Finite Element Analysis. 3 Units Prerequisite(s): ENGR 112, ME 105. Term Typically Offered: Fall, Spring</p>
<p>In-depth study of the basics of solar engineering, including the nature and availability of solar radiation; operation, theory and performance of solar collectors; energy storage and model of solar systems.</p>	<p>Mathematical fundamentals of Finite Element Modeling (FEA). Engineering analysis and design of structural members, and machinery components using FEA models. Model generation using computer graphics. Computer solutions of static, dynamic, heat transfer, stress analysis, fluid mechanics and structural problems.</p>
<p>ME 159. High Efficiency HVAC. 3 Units Prerequisite(s): ME 156 or instructor permission. Term Typically Offered: Fall, Spring</p>	<p>ME 176. Product Design & CAD. 3 Units Prerequisite(s): ENGR 6, ME 105 and ME 116. Term Typically Offered: Fall, Spring</p>
<p>Starts with a review of the theory and design of HVAC systems. Recent improvements and new developments in cooling and heating equipment are studied in detail. Computer models such as the Trane TRACE Program are used to size an HVAC system with an emphasis on high efficiency. Computer based controls and energy management systems are discussed and demonstrated. Field trips to energy efficient installations are included. Field trip(s) may be required.</p>	<p>Digital product development using an integrated CAD system. Philosophy of parametric design. Component and assembly design, basic drawing creation, and simulations. Team product design investigating the effects of variations in geometry, dimensions, and material selection. Lecture two hours; laboratory three hours.</p>
<p>ME 164. Introduction to Test Automation. 3 Units Prerequisite(s): ME 105, ME 117. Term Typically Offered: Fall, Spring</p>	
<p>Basic concepts to automate testing procedures. Introduction to sensors, signal conditioning, sampling theory, design of experiments, data acquisition software, and data reduction techniques. Hands-on experience with PC based data acquisition software and hardware which will be used to create testing programs. Lecture two hours; laboratory three hours.</p>	

ME 177. Product Design and 3D Parametric Solid Modeling. 3 Units
Prerequisite(s): ENGR 6, ME 105 and ME 116.
Term Typically Offered: Fall, Spring

Introduction to Solid Modeling and its application to mechanical product design. Digital product development using 3D Parametric Solid Modeling tools. Also covers component and assembly design, basic drawing creation. Reverse design project engineering investigating the effects of variations in geometry, dimensions, and material selection. Lecture two hours; laboratory three hours.

ME 180. Mechanical Properties of Materials. 3 Units
Prerequisite(s): ENGR 112
Term Typically Offered: Fall, Spring, Summer

Principles of mechanical properties of metals, including strength under combined loads, fatigue, and fracture mechanics. Laboratory includes study of strengthening mechanisms, and principles of experimental stress analysis. Lecture two hours; Laboratory three hours.

ME 180W. Mechanical Properties of Materials Workshop. 1 Unit
Corequisite(s): ME 180.
Term Typically Offered: Fall, Spring, Summer

Problem solving and discussion of mechanical properties of materials to enhance students' understanding of subject matter.
 Credit/No Credit

ME 182. Introduction to Composite Materials. 3 Units
Prerequisite(s): ME 180.
Term Typically Offered: Fall, Spring

Properties, mechanics, and applications of anisotropic fiber-reinforced materials with an emphasis on the considerations and methods used in the design of composite structures.

ME 184. Corrosion and Wear. 3 Units
Prerequisite(s): ME 180.
Term Typically Offered: Fall, Spring

Introduction to the phenomena of corrosion and wear, including the electro-mechanical bases of corrosion, examples of corrosion of iron, steel and stainless steels, and prevention of corrosion. Fundamentals of wear are covered including effects of loads, material properties, and lubrication on wear rates.

ME 186. Fracture Mechanics in Engineering Design. 3 Units
Prerequisite(s): ME 180.
Term Typically Offered: Fall, Spring

Fracture mechanics approach to mechanical design; role of microstructure in fracture toughness and embrittlement; environmentally-induced cracking under monotonic and fatigue loads; laboratory techniques; service failures in various industries and failure mechanisms.

ME 190. Project Engineering I. 3 Units
Prerequisite(s): ME 117

General Education Area/Graduation Requirement: Further Studies in Area B (B5)

Term Typically Offered: Fall, Spring, Summer

Beginning of a two semester project; design of a product, device, or apparatus that will be fabricated in ME 191. Students work in small groups, interacting with product users, vendors, technicians, and faculty advisors. Lecture two hours; laboratory three hours.

ME 191. Project Engineering II. 2 Units
Prerequisite(s): ME 190.
Term Typically Offered: Fall, Spring, Summer

Continuation of the project begun in ME 190. Part II consists of fabrication and assembly of equipment, testing and evaluation, and reporting. Seminar one hour; laboratory three hours.

ME 194. Career Development in Mechanical Engineering. 1 Unit
Prerequisite(s): Senior status.
Term Typically Offered: Fall, Spring

Designed for Mechanical Engineering students making career decisions. Instruction will include effective career planning strategies and techniques including skill assessment, employment search strategy, goal setting, time management, interview techniques and resume writing. Lecture one hour.

Note: Units earned can not be used to satisfy major requirements.

Credit/No Credit

ME 195. Professional Practice. 1 - 6 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Supervised employment in a professional engineering or computer science environment. Placement arranged through the College of Engineering and Computer Science. Requires satisfactory completion of the work assignment and a written report.
 Credit/No Credit

ME 195A. Professional Practice. 1 - 12 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Supervised employment in a professional engineering or computer science environment. Placement arranged through the College of Engineering and Computer Science. Requires satisfactory completion of the work assignment and a written report.
 Credit/No Credit

ME 196A. Motion and Dynamic Analysis using Solid Modeling. 3 Units
Prerequisite(s): ENGR 6 and ME 117.
Term Typically Offered: Fall, Spring

Practical approach to study of motion and dynamic analysis of machine components and assemblies in two or three dimensions. Uses solid modeling software to analyze the forces, moments and dynamic loads for parts and entire assemblies in motion. Topics include stress and strain during motion, kinematics, kinetics, drop tests in two and three dimensions, frequency analysis, buckling, dynamic fatigue and finite element analysis, time history of motion, harmonics, and vibrations.

ME 196B. Engineering Systems Approach to Product Design. 2 Units
Prerequisite(s): ME 116
Term Typically Offered: Fall, Spring

Study of product design process and formal design methodologies. Various topics in product and system design including creativity, visualizations and communications, human factors, design for X methodology decision science, economics, product design and robust quality design.

ME 196C. Computer Programming for Mechanical Engineering Applications. 2 Units**Prerequisite(s):** ME 105**Term Typically Offered:** Fall, Spring

Computer programming languages such as C/C++, Java, Processing, and their applications to engineering problem solving using computer graphics, simulations, and physical prototyping. Programming computer communications with microprocessors for controlling sensors and motors.

ME 196D. Ground Vehicle Aerodynamics. 3 Units**Prerequisite(s):** ENGR 132**Term Typically Offered:** Fall, Spring

Fundamental and applied subjects of aerodynamics for ground vehicle design and performance including flow features, aerodynamic forces, drag reduction strategies, and different methodologies for evaluation of aerodynamic forces and vehicle design. Numerical modeling approaches with experience of running a commercial computational fluid dynamics program. Units: 3 Units (2 Unit Lecture and 1 Unit Lab)

ME 196E. Vehicle Safety and Crash Reconstruction. 3 Units**Term Typically Offered:** Fall, Spring

Study of forensic engineering using state of the art technology in vehicles that contribute to passenger safety and stability. Application of principles of dynamics for forensic investigation and reconstruction of vehicle collisions. Study of seat belts, airbags, and electrohydraulic stabilizers. Study of the Event Data Recorders (EDRs), data analysis and verification with real cases using classical reconstruction techniques, and the use of computer simulations in two and three dimensions.

ME 196F. Materials Selection in Engineering Design. 3 Units**Prerequisite(s):** ENGR 45 and ME 116. ME 116 may be taken concurrently.**Term Typically Offered:** Fall, Spring

Quantitative treatment of materials selection for engineering applications. Discussion of the relationship between design parameters and materials properties. Emphasis on the influence of processing and fabrication on the properties of metals, ceramics, polymers and composites as related to the overall design process. Sustainability, Eco-Design, and manufacturability considerations.

ME 196G. Power Plant Design. 3 Units**Prerequisite(s):** ENGR 124 and ME 128. ME 128 may be taken concurrently.

Study of modern power plants for electric power generation and cogeneration, covering technologies such as nuclear and fossil-fueled steam plants, gas turbine based systems, and emerging technologies. Thermos-economic analysis, parametric design, and environmental impact studies of different plant concepts. Utilization of industry-standard software tools to simulate complex plant configurations.

ME 196H. Air Resources Engineering. 2 Units**Prerequisite(s):** ENGR 124 and ENGR 132. ENGR 132 may be taken concurrently.

Air quality standards. Stationary and transportation emission sources. Chemical and physical interactions of air pollutants, including greenhouse gases, with the atmosphere. Introduction to air quality modeling, including atmospheric temperature effects due to longwave thermal radiation. Air Quality measurement. Emission control strategies and design. Air resources economics and policy.

ME 196M. Engineering Research Methodology and Communication for Undergraduate Students. 3 Units**Prerequisite(s):** ME 108**Term Typically Offered:** Fall, Spring, Summer

This course will prepare students for engineering research by introducing them to how to identify, plan, conduct, and present a research project as well as research methods, literature review process, research ethics, writing proposal, writing technical reports, and oral and poster research presentations. The students will be conducting an independent supervised engineering research on an agreed-upon research project. They will refine their communication skills by working one-on-one with the instructor to present their research in a professional setting.

ME 199. Special Problems. 1 - 3 Units**Term Typically Offered:** Fall, Spring

Individual projects or directed reading.

Note: Open only to students who appear competent to carry on individual work. Admission requires approval of an instructor and the student's advisor. May be repeated for credit.

Credit/No Credit

ME 206. Stochastic Modeling for Engineers. 3 Units**Prerequisite(s):** MATH 45 or equivalent.**Term Typically Offered:** Fall, Spring

Fundamentals and applications of stochastic processes for engineers, including a review of engineering statistics, autoregression moving average (ARMA) models, characteristics of ARMA models, ARMA modeling and forecasting, and transformation from discrete models to continuous models. Applications of stochastic processes in engineering field, e.g., precision manufacturing, monitoring and diagnosis of machines, tools, and processes, system identification, vibrations, and statistical process control (SPC).

ME 209. Research Methodology. 2 Units**Prerequisite(s):** Graduate status in Mechanical Engineering.**Term Typically Offered:** Fall, Spring

Research methodology and engineering approach to problem solving. Includes an orientation to the requirements for Master's thesis in Mechanical Engineering. Students will be exposed to a variety of possible thesis topics. Students will be required to complete an essay concerning aspects of engineering research. The student will be required to prepare a presentation and also review other students work.

Note: Graduate Writing Intensive (GWI) course.**ME 233. Intelligent Product Design and Manufacturing. 3 Units****Prerequisite(s):** ME 105, ME 138.**Term Typically Offered:** Fall, Spring

Application of expert systems, fuzzy logic and neural networks in product design and manufacturing. Concurrent product and process design using expert systems and fuzzy logic. Monitoring tool conditions and manufacturing processes using neural networks so as to achieve high quality, high efficiency, and automation.

ME 236. Computer Controlled Manufacturing Processes. 3 Units
Prerequisite(s): ME 105, ME 138.
Term Typically Offered: Fall, Spring

Applications of logic and motion controls in manufacturing. Computer controlled open and feedback systems. CNC machining processes, CNC programming. Applications of robots in manufacturing, programming for robots. PLC logic controls, sensors and output devices, creating ladder logic diagrams for the PLCs. Design for Manufacturing (DFM) and Design for Assembly (DFA) of modern computer controlled machines.

Note: Lectures as well as some tutorial activities are covered in two 75-minute classes per week.

ME 237. Digital Control of Manufacturing Processes. 3 Units
Prerequisite(s): ME 105, ME 138, MATH 45.
Term Typically Offered: Fall, Spring

Introduction to both the theory and applications of digital control of manufacturing processes, including the discrete controller for manufacturing, digital controlled systems for manufacturing, sensors of control loop for manufacturing, discrete process models for manufacturing, manufacturing system input and response, and stability analysis of manufacturing systems.

ME 238. Automated Inspection. 3 Units
Prerequisite(s): ME 105, ME 138.
Term Typically Offered: Fall, Spring

Introduction to measurement for machine accuracy and process quality including the use of coordinate measuring machines; system considerations and sensor technology in automated visual inspection; applications of pattern recognition in automated inspection.

ME 240. Mechanical Design Analysis. 3 Units
Prerequisite(s): ENGR 201; ENGR 201 may be taken concurrently.
Term Typically Offered: Fall, Spring

Analyzes mechanical designs with respect to strength or deformation criteria. Elastic and inelastic failure criteria, energy methods, effects of temperature, stress concentrations, and fatigue are discussed.

ME 241. Optimum Mechanical Design. 3 Units
Prerequisite(s): ENGR 201; ENGR 201 may be taken concurrently.
Term Typically Offered: Fall, Spring

Mathematical methods of optimum design using linear and non-linear optimization; constrained and unconstrained optimum design. Optimization of mechanical elements and assemblies to meet design requirements, material characteristics and geometry. Numerical methods and computer usage in optimal design. Application of these principles to realistic design problems.

ME 250. Heat Transfer: Conduction. 3 Units
Prerequisite(s): ME 126, ENGR 202; ENGR 202 may be taken concurrently.
Term Typically Offered: Fall, Spring

Theory and analytical methods in steady-state and transient heat conduction. Development of the differential equations and initial and boundary conditions. Solutions by separation of variables, transforms, finite differences and integral methods. Heat transfer from extended surfaces.

ME 251. Heat Transfer: Convection. 3 Units
Prerequisite(s): ME 126, ENGR 201; ENGR 201 may be taken concurrently.
Term Typically Offered: Fall, Spring

Analyzes convective heat and mass transfer. Development of the Navier-Stokes and energy equations for two-dimensional flows. Boundary layer theory and numerical techniques in solving convection problems. Analyzes turbulence, transport by Reynold's stresses and Prandtl's mixing length theory.

ME 252. Heat Transfer: Radiation. 3 Units
Prerequisite(s): ME 126, ENGR 202.
Term Typically Offered: Fall, Spring

Fundamentals and basic laws of radiative transfer. Properties of surfaces, spectral characteristics and configuration factors. Radiation transfer between surfaces. Absorbing, emitting and scattering media. Combined conduction, convection and radiation. Applications to solar energy systems.

ME 253. Advanced Fluid Mechanics. 3 Units
Prerequisite(s): ENGR 132, graduate status.
Term Typically Offered: Fall, Spring

Analytical and numerical analysis of Navier-Stokes equations for laminar flow; stability of laminar flow and its transition to turbulence. Analyzes stream functions and the velocity potential, and vorticity dynamics. The mathematical analysis of incompressible turbulent flows; development of Reynolds stress equations, turbulent boundary layer equations, turbulent flow in pipes and channels, and turbulent jets and wakes.

ME 255. Advanced Heat Transfer. 3 Units
Term Typically Offered: Fall, Spring

Advanced topics in heat transfer including analytical and numerical solutions to heat conduction equations in both the steady and unsteady state; use of approximate and analytical techniques for the prediction of convective heat transfer in laminar and turbulent flows, heat transfer in high-velocity flows; analysis of the nature of thermal radiation and radiative heat transfer in enclosures.

ME 256. Mechanics and Thermodynamics of Compressible Flow. 3 Units
Prerequisite(s): ENGR 201 or ENGR 202; ENGR 201 or ENGR 202 may be taken concurrently.
Term Typically Offered: Fall, Spring

Application of the laws of fluid mechanics and thermodynamics to problems of compressible flow in two and three dimensions; small perturbation theory, hodograph method and similarity rules for subsonic flow. Method of characteristics, shock wave analysis for steady, unsteady and supersonic, one-dimensional flows.

ME 258. Advanced Thermodynamics. 3 Units
Prerequisite(s): ENGR 202.
Term Typically Offered: Fall, Spring

Advanced topics in thermodynamics including applications of fundamental postulates to chemical, mechanical, magnetic and electric systems, theory of fluctuations, and irreversible thermodynamics.

ME 259. Introduction to Computational Fluid Dynamics. 3 Units
Prerequisite(s): ENGR 132, ME 105 and ME 126.
Term Typically Offered: Fall, Spring

Fundamentals of computational fluid dynamics, modeling of physical processes, including the fluid flow, heat and mass transfer, and computer skills. Basic concepts of numerical analysis using computer, including the solutions of ordinary and partial differential equations. Basic hands-on experience on using commercial computational fluid dynamics software packages.

ME 270. Advanced Computer-Aided Design of Dynamic Systems. 3 Units
Prerequisite(s): ME 114 or ME 171.
Term Typically Offered: Fall, Spring

Computer analysis, synthesis and modeling of physical systems including single and multiple degree of freedom, and linear/nonlinear systems. Use of Computer-Aided Modeling software (CAMP-G) and Advanced Digital Simulation Languages (ADSL). Design and analysis of multi-energy systems using Block Diagrams, Bond Graphs, and state space equation representation. Design of electromagnetic, electro-hydraulic servomechanisms, actuators and driven systems; introduction to multi-variable control of complex systems; stability, controllability, and observability.

ME 272. Finite Element Modeling in Computer-Aided Design. 3 Units
Prerequisite(s): ME 105, ME 173.
Term Typically Offered: Fall, Spring

Finite-element methods in the analysis and optimal design of machine components, structures, and distributed systems. Generation of FEA models using computers. Theoretical and practical application of a finite element code such as PATRAN to the solution of engineering problems. Topics include static and vibration analysis, stress analysis buckling, normal modes, direct and modal frequency response, transient analysis, and heat transfer.

ME 273. Multibody Dynamics of Rigid and Flexible Systems. 3 Units
Prerequisite(s): Graduate standing.
Term Typically Offered: Fall, Spring

Analysis and design of rigid and flexible multi-body assemblies in two and three dimensions with applications to mechanisms, machinery, ground and space vehicles. Kinematic and kinetic analysis in two and three dimensions; impulsive and impact forces; modes of vibration. Use of solid modeling, dynamic analysis and finite element analysis methods.

ME 274. Introduction to Flight Dynamics. 3 Units
Prerequisite(s): MATH 45, ENGR 110.
Term Typically Offered: Fall, Spring

Review of Laplace Transforms, matrix algebra, and aerodynamics. Derivation of aircraft rigid body equations of motion. Linearization of the equation of motion about reference flight (trim) condition, and separation into longitudinal and lateral equations of motion. Determination of aerodynamic stability derivatives and control effectiveness. Trim analysis, static and dynamic stability and control. Aircraft handling qualities and stability augmentation. Simulation of aircraft response to control and atmospheric inputs.

ME 275. Analysis of Aircraft Structures. 3 Units
Prerequisite(s): Graduate standing.
Term Typically Offered: Fall, Spring

Review of structural analysis: elasticity, virtual work and energy methods, torsion of solid sections, bending of plates, columns. Analysis of aircraft structures: materials, structural components of aircraft, airworthiness, airframe loads, fatigue, structural idealization, fuselages, wings.

ME 276. Advanced Vibration Theory. 3 Units
Prerequisite(s): ME 114, ME 171, or CE 166.
Term Typically Offered: Fall, Spring

Advanced study of mechanical and structural vibrations. Discrete and distributed parameter systems with linear and nonlinear characteristics. Variational principle, Lagrange's equation and finite element method. Matrix equation and eigenvalue problems. Modal analysis and modal testing. Stability and control. Theory developed through physical problems.

ME 278. Space Systems Engineering Management. 3 Units
Prerequisite(s): ENGR 110.
Term Typically Offered: Fall, Spring

Systems Engineering approach to plan and direct engineering projects. Emphasizes systems engineering process, requirement design fundamentals, subsystem fundamentals, trade studies, integration, technical reviews, case studies and ethics. Space exploration used as an example; skills applicable to any engineering project. Project-orientated course to plan the design of space and ground vehicles, satellites, airplanes and multidisciplinary subsystems.

ME 280. Advanced Mechanical Properties of Materials. 3 Units
Prerequisite(s): ME 180
Term Typically Offered: Fall, Spring

Mechanical properties of materials, with special attention to dislocations/ defects and deformation and fracture control mechanisms. Mechanical properties of conventional engineering materials as well as advanced materials such as nanostructured materials are considered. Effects of defects on mechanical behavior at ambient and elevated temperature are discussed with attention given to strengthening mechanisms, creep, fatigue and fracture.

ME 285. Materials for Extreme Environments. 3 Units
Prerequisite(s): ME 180 or PHYS 110
Term Typically Offered: Fall, Spring

Comprehensive study of material applications in extreme environments, with special attention to mechanical, thermal and electronic behavior. Extreme temperature, pressure, corrosive or toxic environments and high rate deformation are considered. Currently available materials as well as emerging materials are explored for specific applications such as undersea, outer space, ballistic, nuclear, combustion, and other extreme application arenas.

- ME 295. Fieldwork.** **1 - 3 Units**
Prerequisite(s): Permission of Graduate Coordinator or Department Chair.
Term Typically Offered: Fall, Spring
- Supervised employment in industry or government that provides practical work experience. Requires satisfactory completion of the work assignment and a written report.
Note: Units may not be applied toward meeting the 30-unit requirement of the degree.
- Credit/No Credit
- ME 296L. Creative Engineering Design for Quality Products.** **3 Units**
Prerequisite(s): ME 138 and ME 180.
Term Typically Offered: Fall, Spring
- Introduction to analytical and systematic design methodologies in creative and quality product design. Topics include product design process, creative conceptual design tools such as axiomatic design, theory of inventive problem solving (TRIZ), and engineering decision making. Quality product design including design of experiments, robust design techniques, and design optimization. Assignments include application of these principals to solving open-ended design problems using computing tools. Two hour lecture; Three hour laboratory.
- ME 296O. Advanced Heat Transfer.** **3 Units**
Prerequisite(s): ME 126 and ENGR 202.
Corequisite(s): ENGR 202.
Term Typically Offered: Fall, Spring
- Advanced topics in heat transfer including analytical and numerical solutions to heat conduction equations in both the steady and unsteady state; use of approximate and analytical techniques for the prediction of convective heat transfer in laminar and turbulent flows, heat transfer in high-velocity flows; analysis of the nature of thermal radiation and radiative heat transfer in enclosures.
- ME 296P. Advanced Dynamics.** **3 Units**
Prerequisite(s): Graduate Standing
Term Typically Offered: Fall, Spring
- Newtonian mechanics: Newton's laws, impulse and momentum, work and energy. Analytical mechanics: Degrees of freedom, generalized coordinates, constraints. Lagrange multipliers, principles of virtual work, D'Alembert's principle, Hamilton's principle, Lagrange's equation of motion. Rotating reference frames. Rigid body dynamics: kinematics, linear and angular momentum, and kinetic energy of a rigid body, principle axes, equations of motion. Euler angles. Behavior of dynamic systems: motion about equilibrium points, stability, Lyapunov's direct method. Perturbation techniques: secular terms, Lindstedt's method, Duffing's equation.
- ME 296Q. Advanced Solid Modeling.** **3 Units**
Prerequisite(s): Student must pass ME 116.
Term Typically Offered: Fall, Spring
- Advanced topics in computer-aided design for mechanical product design. Reviews on fundamental part and assembly modeling, and engineering drawings. Advanced modeling topics such as surface modeling, top-down assembly, macros and API programming, manufacturing oriented design such as sheet metal, plastic and mold design.
- ME 296S. Advanced CAD for Aerospace Applications.** **3 Units**
Term Typically Offered: Fall, Spring
- Design of aerospace systems including profile definition, constraints, operations and visualizations, component design, transformation features, and insertions using advanced CAD software such as CATIA. Creation of complete assembly design including creation of product files, identifying, inserting and displacing components, constraining parts, numbering parts and scene creation. Specifics of sheet metal design for aerospace design including creation of flange, cut-out, joggle, holes, stampings and patterns.
- ME 296U. Advanced Computer-Aided Product Design.** **3 Units**
Prerequisite(s): ENGR 6 and ME 116, or graduate-level status
Term Typically Offered: Fall, Spring
- Advanced topics in computer-aided design and applications for mechanical product design. Reviews of fundamental parts, assembly modeling, and engineering drawings. Advanced modeling topics such as surface modeling, design for manufacturing, simulation-based design, top-down assembly, macros and API programming.
- ME 296V. Advanced Control System Design.** **3 Units**
Prerequisite(s): ME 172
- Design of Multi-Input/Multi-Output controllers using linear quadratic regulator method and advanced controls architectures. Architectures include Proportional, Proportional Integrator and Proportional Integrator Derivative (filter) schemes. The course also includes Digital Control, Optimal Control, Introduction to Guidance, Navigation and Control techniques.
- ME 296W. Accident Biomechanics.** **3 Units**
Prerequisite(s): ENGR 110
- Study of the interaction of human body kinematics and dynamic biomechanics in accidents involving human activities and vehicles. Impact injury mechanisms, response of the human body using computer models and software analysis tools. Biomechanical response to impact, and tolerance levels. Human factors that influence the biomechanical reactions of people with their vehicles and the environment. Photographic and video analysis, computer graphics, and computer simulations. Forensic engineering to determine the dynamic forces that cause injury in different situations.
- ME 299. Special Problems.** **1 - 3 Units**
Term Typically Offered: Fall, Spring
- Any properly qualified student who wishes to pursue a problem of his/her own choice may do so if the proposed subject is acceptable to the faculty member with whom he/she works and to his/her advisor.
 Credit/No Credit
- ME 500. Master's Thesis.** **1 - 6 Units**
Prerequisite(s): Open to students who have advanced to candidacy and have secured approval of a Thesis proposal form one full semester prior to registration.
Term Typically Offered: Fall, Spring
- Completion of a thesis. Credit given upon successful completion of a Master's Thesis (4 - 6 units; maximum 6 units).
Note: Course may be repeated for no more than 6 units total.

Military Science (MILS)

MILS 14. Introduction to Military Science I.

Term Typically Offered: Fall, Spring

1 Unit

Discussion of the military as one element of national power; its role in American defense; its purpose, weapons and organizations; its participation in international treaties. Discussion of other subjects required for a student to understand the military and its place in modern society. Fall only.

MILS 15. Introduction to Military Science II.

Term Typically Offered: Fall, Spring

1 Unit

Discussion of the military's role in American Society, current society attitudes, sources of its leaders, and an examination of its structure. Spring only.

MILS 24. Principles and Tactics of the Soldier.

Term Typically Offered: Fall, Spring

1 Unit

Familiarizes students with the nine principles of war, and gain an appreciation for the role of the commander in warfare. A study of small unit level will enable the student to understand the nature of the battlefield environment, and will put the decisions of the commander into perspective. These discussions will lead to the discussion of the elements of leadership to be presented in MILS 25. Fall only.

MILS 25. Leadership Assessment and Beginning Counseling Skills.

Term Typically Offered: Fall, Spring

1 Unit

Students will gain insight and practical experience in the manager-leader skills of counseling using the Army's sixteen leadership dimensions as a model. The student will understand the elements of leadership, and undergo the Army's Leadership Assessment Program in class. Interactive role playing scenarios will be conducted and behavior recorded in a group setting. The student will be given individual feedback on the results of the assessment by scheduling a private appointment with the instructor. Spring only.

MILS 99. Special Problems.

Prerequisite(s): Instructor permission.

Term Typically Offered: Fall, Spring

1 - 3 Units

Intensive examination of one or more special problems in Military Science. Possible areas of study include examination of the structure of the military and its place in modern society, participation in international treaties, leadership skills, decision making, as well as other topics in military science.

MILS 134. Principles Of Instruction.

Term Typically Offered: Fall, Spring

2 Units

Principles and practice in fundamentals applicable to military instruction to include planning, presentation, execution and evaluation. Student presentations exemplify lecture material. Application of small combat unit tactics (squad and platoon) will solidify concepts discussed in class. Fall only.

MILS 135. Military Operations.

Prerequisite(s): Upper division standing, MILS 134 or instructor permission.

Term Typically Offered: Fall, Spring

2 Units

Military small unit tactical theory and application are taught and serve as a basis for leadership development. Introduces principals of combat contemporary operating environment, Geneva Law of Land Warfare, and military offensive and defensive operations. Emphasis is placed on developing critical thinking, problem solving, and communication skills. Spring only.

MILS 144. Principles of Military Administration.

Term Typically Offered: Fall, Spring

2 Units

Comprehensive course in the organization, structure, and functions of the various types of staffs and an introduction to the theory and application of military law and legal systems focusing on the Uniform Code of Military Justice and the rights of the accused under the Constitution. Fall only.

MILS 145. Military Leadership and Ethics.

Term Typically Offered: Fall, Spring

2 Units

Capstone seminar designed to bring together all previous Military Science instruction. Examines contemporary leadership problems. Designed to provide the ROTC cadet with the basic management skills necessary for a foundation for future growth as a junior officer. Spring only.

MILS 199. Special Problems.

Prerequisite(s): MILS 14, MILS 15, MILS 24, MILS 25 and Department Chair permission.

Term Typically Offered: Fall, Spring

1 - 3 Units

Intensive examination of one or more special problems in military science. Possible areas of study include leadership dimensions, professional ethics, critical thinking, problem solving, communication skills as well as other topics in military science.

Music (MUSC)

MUSC 1. Musicianship I.

Prerequisite(s): MUSC 5.

Corequisite(s): MUSC 6.

Term Typically Offered: Fall, Spring

2 Units

Basic aural skills and practical applications of the rhythmic, melodic, and harmonic materials needed to perform, teach, and compose music. Class activities will focus around the musicianship skills of rhythmic reading and dictation, identification and dictation of intervals and triads, melodic dictation, contrapuntal dictation, harmonic dictation, and sight singing.

MUSC 2. Musicianship II.

Prerequisite(s): MUSC 1

Corequisite(s): MUSC 7.

Term Typically Offered: Fall, Spring

2 Units

Advanced aural skills and practical applications of the rhythmic, melodic, and harmonic materials needed to perform, teach, and compose music. Class activities will focus around the musicianship skills of rhythmic reading and dictation, melodic dictation, contrapuntal dictation, harmonic dictation, aural analysis of form, and sight singing.

MUSC 3. MIDI Sequencing and Notation. 2 Units Term Typically Offered: Fall, Spring	MUSC 9. Music In World Cultures. 3 Units General Education Area/Graduation Requirement: Arts (Area C1) Term Typically Offered: Fall, Spring
<p>Introduction to professional music software applications and MIDI hardware. Exploration of various hardware options such as keyboards, computers, synthesizers, samplers, and drum machines. Topics include basic MIDI principles, creating, performing, and printing music using computer-based sequencing and notation software.</p>	<p>Designed as a survey of world music for music majors. Explores how music is used as a form of human expression in all cultures. Musical instruments, forms and styles, and the roles and functions of music in traditional and contemporary societies in various cultures throughout the world.</p>
MUSC 4. Elements Of Music. 3 Units Term Typically Offered: Fall, Spring	MUSC 10A. Survey of Music Literature I. 3 Units General Education Area/Graduation Requirement: Arts (Area C1) Term Typically Offered: Fall only
<p>Introduction in music theory and musicianship. No previous musical training is assumed. Objectives are: to understand the meaning of musical notation and terminology; to acquire some skill in translating musical notation into sound and vice versa; to understand the rudiments of musical structure and syntax (rhythm and meter, scales and keys, intervals and chords, basic aspects of musical design) both on paper and as a listener; and to put these elements to some creative use.</p>	<p>Survey of Medieval, Renaissance and Baroque music literature in Western art music, its stylistic development, and cultural context. Emphasis on score reading and listening. Introduction to primary source readings and musicological literature.</p>
MUSC 5. Beginning Theory. 3 Units Prerequisite(s): Placement by exam. Term Typically Offered: Fall, Spring	MUSC 10B. Survey of Music Literature II. 3 Units General Education Area/Graduation Requirement: Arts (Area C1) Term Typically Offered: Fall only
<p>Beginning theory for music majors designed to provide a thorough study of the basis of tonal music. Includes scales, diatonic triads, melody, voice-leading, and simple harmonic progressions as well as correlative work in ear training and sight singing.</p>	<p>Survey of Classical and Romantic music literature in Western art music, its stylistic development, and cultural context. Emphasis on score reading and listening. Introduction to primary source readings and musicological literature.</p>
MUSC 6. Intermediate Theory. 3 Units Prerequisite(s): MUSC 5 Corequisite(s): MUSC 1. Term Typically Offered: Fall, Spring	MUSC 10C. Survey of Music Literature III. 3 Units Term Typically Offered: Spring only
<p>Intermediate music theory that builds on the contents of MUSC 5. Includes stylistic analysis, diatonic seventh chords, modulation, secondary dominant chords, and simple formal structures. An aural skills component emphasizes melodic and harmonic dictation of music associated with the harmonic devices studied.</p>	<p>Survey of 20th and 21st Century music literature in Western art music, its stylistic development, and cultural context. Emphasis on score reading and listening. Introduction to primary source readings and musicological literature.</p>
MUSC 7. Advanced Theory. 3 Units Prerequisite(s): MUSC 1 and MUSC 6. Corequisite(s): MUSC 2. Term Typically Offered: Fall, Spring	MUSC 11A. Music Theory I. 2 Units Corequisite(s): MUSC 12A for students enrolled in all music degree programs other than the BA Music degree. Term Typically Offered: Fall, Spring
<p>Advanced tonal theory that includes the study of enriched harmonic resources of the eighteenth and nineteenth centuries as well as an introduction to counterpoint and large musical forms. The aural component includes dictation and vocal reading of chromatic music and aural analysis of form.</p>	<p>Theory I is designed to introduce students to some of the materials and structures of certain styles of tonal and modal music. The course begins with a brief review of fundamentals before moving quickly into the understanding of two important kinds of notational shorthand. The second half of the course is concerned primarily with the study of counterpoint. These studies will prepare students to engage two topics critical to the success of a musician: interpretation and expression. Prerequisite: MUSC 4 or placement by exam at the time of university enrollment.</p>
MUSC 8. Basic Music. 3 Units General Education Area/Graduation Requirement: Arts (Area C1) Term Typically Offered: Fall, Spring	MUSC 11B. Music Theory II. 2 Units Prerequisite(s): MUSC 11A or placement by exam at the time of university enrollment. Corequisite(s): MUSC 12B for students enrolled in all music degree programs other than the BA Music degree. Term Typically Offered: Fall, Spring
<p>Orientation designed to provide musical knowledge, skills, and competencies necessary for reading music or listening to music. Note: May not be taken for credit by music majors.</p>	<p>Theory II is designed to deepen students' understanding of some of the materials and structures of certain styles of tonal and modal music. The course is a balance of taking music apart through score analysis and putting music together through model composition, or creating original music that imitates a particular style. These studies will prepare students to engage two topics critical to the success of a musician: interpretation and expression.</p>

<p>MUSC 11C. Music Theory III. 2 Units Prerequisite(s): MUSC 11B or placement by exam at the time of university enrollment. Corequisite(s): MUSC 12C for students enrolled in a music degree program other than the BA Music degree Term Typically Offered: Fall, Spring</p> <p>Theory III is designed to deepen students' understanding of some of the materials and structures of certain styles of tonal and modal music. Jazz Piano Class. 1 Unit Prerequisite(s): MUSC 14D or instructor permission. Term Typically Offered: Fall, Spring</p> <p>Provides basic instruction in keyboard skills and jazz theory. Includes composing, basic chord voicing, realizing chord progressions at sight, and fitting chords to a given melody.</p>
<p>MUSC 17. Voice Class. 1 Unit Term Typically Offered: Fall, Spring</p> <p>Elementary instruction in the correct use of the singing voice and the development of style in singing. Open to all students beginning the study of voice. Recommended for elementary credential candidates. May be taken for credit four times.</p>	<p>MUSC 18. Music Appreciation. 3 Units General Education Area/Graduation Requirement: Arts (Area C1) Term Typically Offered: Fall, Spring</p> <p>Basic music orientation for the layman. A non-technical consideration of the various aspects of music literature designed to stimulate interest in all phases of music. Note: Not open to music majors.</p>
<p>MUSC 21. First Year Seminar: Becoming an Educated Person. 3 Units General Education Area/Graduation Requirement: Understanding Personal Development (E) Term Typically Offered: Fall only</p> <p>Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Students with the opportunity to interact with fellow classmates and the seminar leader to build a community of academic support and personal support.</p>	<p>MUSC 25. Voice For Music Theater. 1 Unit Prerequisite(s): Instructor permission and proficiency examination. Term Typically Offered: Fall, Spring</p> <p>Training in vocal techniques and repertoire of the modern American musical theater. May be taken for credit twice.</p>

<p>MUSC 32A. Piano: Intermediate. 1 Unit Prerequisite(s): Approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring</p> <p>Individual instruction. Music majors only. May be taken for credit four times.</p>	<p>MUSC 39. Beginning Folk Guitar. 1 Unit Term Typically Offered: Fall, Spring</p> <p>Folk guitar for the beginner, with emphasis on chords and strums as well as the playing of melodies. Guitars are to be furnished by the student.</p>
<p>MUSC 32B. Piano: Intermediate - BM. 1 Unit Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring</p> <p>Individual instruction. Music majors only. May be taken for credit four times.</p>	<p>MUSC 40B. Beginning Brass. 1 Unit Term Typically Offered: Fall, Spring</p> <p>MUSC 40P. Beginning Percussion. 1 Unit Term Typically Offered: Fall, Spring</p>
<p>MUSC 35A. Harpsichord/Organ: Intermediate. 1 Unit Prerequisite(s): Approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring</p> <p>Individual instruction. Music majors only. Note: May be taken for credit four times.</p>	<p>MUSC 40S. Beginning Strings. 1 Unit Term Typically Offered: Fall, Spring</p> <p>MUSC 40W. Beginning Woodwinds. 1 Unit Term Typically Offered: Fall, Spring</p>
<p>MUSC 35B. Harpsichord/Organ: Intermediate - BM. 1 Unit Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring</p> <p>Individual instruction. Music majors only. Note: May be taken for credit four times.</p>	<p>MUSC 42. Introductory Composition. 2 Units Prerequisite(s): Instructor permission. Term Typically Offered: Fall only</p> <p>Individual instruction in composition for the beginning composition major. Work will be designed to fit the preparation of the student, with emphasis on principles of sound melodic and harmonic construction. Original compositions will develop a mastery of the smaller forms. May be taken twice for credit.</p>
<p>MUSC 37A. Voice: Intermediate. 1 Unit Prerequisite(s): Approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring</p> <p>Individual instruction. Music majors only. May be taken for credit four times.</p>	<p>MUSC 43A. Jazz Improvisation I. 2 Units Prerequisite(s): MUSC 6 Term Typically Offered: Fall, Spring</p> <p>Part one of a two-semester study of jazz improvisation required of all jazz studies majors. This course will provide the student with basic and intermediate skills of creative improvisation styles in the jazz idiom. In order to expand the skill level of improvisation of each particular jazz student, this class will focus on four main areas: listening, scale and chord development, repertory development and transcribing jazz solos.</p>
<p>MUSC 37B. Voice: Intermediate - BM. 1 Unit Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring</p> <p>Individual instruction. Music majors only. May be taken for credit four times.</p>	<p>MUSC 43B. Jazz Improvisation II. 2 Units Prerequisite(s): MUSC 43A Term Typically Offered: Fall, Spring</p> <p>Part two of a two-semester study of jazz improvisation required of all jazz studies majors. The course will provide the student with intermediate and advanced skills of creative improvisation styles in the jazz idiom. In order to expand the skill levels of improvisation of each particular jazz student, this class will focus on four main areas: listening, scale and chord development, repertory development, and transcribing jazz solos.</p>
<p>MUSC 38D. Beginning Hand Drums. 1 Unit Term Typically Offered: Fall, Spring</p> <p>Explores the fundamentals of hand-drumming through two methods of study: the music of North India, the tabla drums and the rhythmic system of Hindustani music and rhythms of the Middle East through traditional drums, including the tar, riqq, and dumbek.</p>	<p>MUSC 50. Jazz Applied: Intermediate. 1 Unit Prerequisite(s): Approval by jazz area committee and instructor permission. Term Typically Offered: Fall, Spring</p>
<p>MUSC 38S. Beginning Shakuhachi. 1 Unit Term Typically Offered: Fall, Spring</p> <p>Elementary class instruction in the fundamentals of playing the traditional Japanese flute known as the shakuhachi. The focus is on fundamental blowing and fingering techniques, as well as the basis of the fu ho u notation system. Note: Open to Music majors and minors; others by instructor permission.</p>	<p>Individual instruction in jazz performance. Note: May be taken for credit four times.</p> <p>MUSC 55A. Violin: Intermediate. 1 Unit Prerequisite(s): Approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring</p>
<p>Individual instruction. Music majors only. May be taken for credit four times.</p>	<p>Individual instruction. Music majors only. May be taken for credit four times.</p>

<p>MUSC 94A. Tuba: Intermediate. 1 Unit Prerequisite(s): Approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring</p>	<p>MUSC 102. Scoring and Arranging. 3 Units Prerequisite(s): MUSC 7. Term Typically Offered: Spring only</p>
<p>Individual instruction. Music majors only. May be taken for credit four times.</p>	<p>Scoring and arranging techniques related to the needs of orchestra, concert band, marching band, vocal and instrumental ensembles.</p>
<p>MUSC 94B. Tuba: Intermediate - BM. 1 Unit Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring</p>	<p>MUSC 103. Counterpoint. 3 Units Prerequisite(s): MUSC 7. Term Typically Offered: Fall only</p>
<p>Individual instruction. Music majors only. May be taken for credit four times.</p>	<p>Study of the contrapuntal style and devices of the 18th century. Includes writing in two and three parts in such forms as the canon, invention, chorale prelude, and fugue.</p>
<p>MUSC 96. Intro to Hip-Hop Beat-Making. 1 Unit Corequisite(s): MUSC 118D This one-unit course is an optional lab supplement to the Area C1 GE course 118D: Hip-Hop in Urban America. Students will learn skills in hip-hop production software including Reason and Ableton Live. Students will learn to create beats including instrument building, sampling, and sequencing. The lab will offer students the opportunity to engage in a hands-on way with the course material in Music 118D, and will track the regional scope of the course schedule closely.</p>	<p>MUSC 104. Contemporary Music Theory and Musicianship. 3 Units Prerequisite(s): MUSC 11C and MUSC 12C, or placement by exam at the time of university enrollment. Term Typically Offered: Spring only</p>
<p>MUSC 99. Special Problems. 1 - 3 Units Prerequisite(s): Approval of the faculty member under whom the work is to be conducted and the Department Chair. Term Typically Offered: Fall, Spring</p>	<p>In this course, students will engage the art music of today from both a theoretical standpoint, that is, an understanding of musical materials and structures through analysis, and a creative standpoint, that is, creating your their music based upon the models they study through composition and improvisation.</p>
<p>Individual projects or directed reading for lower division students. Open only to students who appear competent to carry on individual work. Credit/No Credit</p>	<p>MUSC 105. 20th Century Theory. 3 Units Prerequisite(s): MUSC 7. Term Typically Offered: Spring only</p>
<p>MUSC 100A. Concert Attendance. 1 Unit Term Typically Offered: Fall, Spring</p>	<p>Course deals with the harmonic, melodic, and rhythmic aspects of music from Debussy to present, with emphasis on the evolutionary nature of its development.</p>
<p>Designed to develop critical listening, aural analysis, and the appreciation of a wide range of musical forms and genres. Each student will be required to attend a minimum of ten concerts approved by the Music Department and submit a portfolio of programs attended. Written reviews are required for a determined number of the ten concerts attended.</p>	<p>MUSC 106. Form and Analysis. 3 Units Prerequisite(s): MUSC 7. Term Typically Offered: Fall only</p>
<p>MUSC 100B. Concert Attendance. 1 Unit Term Typically Offered: Fall, Spring</p>	<p>Consideration of the development of musical forms from the phrase through the multi-movement sonata and symphony. Emphasis is placed on the music of major 18th, 19th, and 20th century composers.</p>
<p>Designed to develop critical listening, aural analysis, and the appreciation of a wide range of musical forms and genres. Each student will be required to attend a minimum of ten concerts approved by the Music Department and submit a portfolio of programs attended with comments about the music and performance. May be taken for credit eight times.</p>	<p>MUSC 107. Composition. 2 Units Prerequisite(s): MUSC 42 or instructor permission. Term Typically Offered: Fall, Spring</p>
<p>MUSC 101. Experiences In Music. 3 Units Term Typically Offered: Fall, Spring</p>	<p>Individualized practical experience in the composition of music. Students are allowed freedom in the development of a personal music style and the exploration of forms and genres. May be taken for credit four times.</p>
<p>Development of essential musical skills and knowledge for teaching music in the elementary classroom including competencies necessary for reading and notating music in the elementary classroom. The study of curriculum and literature through songs, rhythmic movement, instrumental activities, creating and improvisation, and listening. Lecture/lab. Note: Required for the Liberal Studies major.</p>	<p>MUSC 108A. Jazz Arranging I. 2 Units Prerequisite(s): MUSC 3 or instructor permission. Term Typically Offered: Fall, Spring</p>
	<p>Part I of a two-semester study of arranging. Provides basic and intermediate tools of creative writing and arranging styles in the jazz idiom as applied to the small jazz ensemble (jazz combo).</p>
	<p>MUSC 108B. Jazz Arranging II. 2 Units Prerequisite(s): MUSC 108A or instructor permission. Term Typically Offered: Fall, Spring</p>
	<p>Part 2 of a two-semester study of arranging. Addresses creative writing in the idiom of the large jazz ensemble (big band). Two major projects are required, performed and recorded. Jazz orchestration is the central focus with special attention to the idiomatic demands from the sections of the big band and how they relate to each other.</p>

- MUSC 109. Instrumentation and Arranging.** 3 Units
Prerequisite(s): MUSC 11C and MUSC 12C, or placement by exam at the time of university enrollment.
Term Typically Offered: Fall only
- This class is designed to introduce students to two topics: instrumentation, or the properties of various instruments and voices, and how to write for them; and orchestration, or how to combine instruments effectively. The approach will be hands-on in nature: students will be called upon to demonstrate their instrument and perform in class, and they will often orchestrate music for their classmates to perform in class.
- MUSC 110. Research in Music History.** 3 Units
Prerequisite(s): MUSC 7, MUSC 10, Music majors or minors only, and GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
- Capstone research in special topics of music history. Emphasis on critical reading, writing, and speaking. This course satisfies the writing intensive requirement for music majors.
- MUSC 110B. History Of Music.** 3 Units
Prerequisite(s): MUSC 10A and MUSC 10B or equivalent.
Term Typically Offered: Fall, Spring
- Chronological study of music's development from ancient Greeks through contemporary composers. Recordings and printed music are used to illustrate the development of musical forms and content through the various periods.
Note: A working knowledge of musical notation is required.
- MUSC 118B. American Popular Music: Jazz History.** 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
- A survey of jazz history. Emphasis is placed on the evolution of different jazz styles and trends, through the study of recorded examples and videos by some of the major artists of the 20th century. Discussion of the social conditions surrounding the evolution of jazz will be included.
- MUSC 118C. History of Rock Music.** 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
- A survey of rock music history. Emphasis is placed on the diverse influences and subsequent development of classic rock musical styles through the study of recorded examples and videos by major artists of the 20th century. Discussion of the social conditions surrounding the evolution of rock music will be included.
- MUSC 118D. Hip-Hop in Urban America.** 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
- A survey course of hip-hop history. Emphasis is on the musical and cultural evolution of hip-hop through the study of recorded examples, videos, and articles focused on five urban hip-hop centers: New York, Los Angeles, Chicago, and New Orleans.
- MUSC 119A. World Music: Asia.** 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
- Examines music from cultures in Asia. Music is examined as a cultural process, a cultural object and as sound. Musical instruments, forms and styles are discussed along with the roles and functions of music. Although traditional music will be emphasized, contemporary and popular music will also be discussed.
- MUSC 119B. World Music: Africa.** 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
- Examines music from cultures in Africa. Music is examined as a cultural process, a cultural object and as sound. Musical instruments, forms and styles are discussed along with the roles and functions of music. Although traditional music will be emphasized, contemporary and popular music will also be discussed.
- MUSC 119C. World Music: Latin America.** 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
- Examines music from cultures in Latin America. Music is examined as a cultural process, a cultural object and as sound. Musical instruments, forms and styles are discussed along with the roles and functions of music. Although traditional music will be emphasized, contemporary and popular music will also be discussed.
- MUSC 125. Advanced Voice for Music Theater.** 1 Unit
Prerequisite(s): MUSC 25 or instructor permission and proficiency examination.
Term Typically Offered: Fall, Spring
- Designed to give singers advanced training in vocal techniques, interpretation, stage presence, audition preparation, through the utilization of modern musical theater repertoire commensurate with the individual abilities of each class participant.
Note: May be taken twice for credit.
- MUSC 127. The American Musical Theater.** 3 Units
Prerequisite(s): GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Arts (Area C1)
Term Typically Offered: Fall, Spring
- Study of Broadway musicals. Examination of the music, lyrics, dramatic structure, and use of dance in selected shows which demonstrate the evolution of the American musical from its inception through contemporary forms. Includes reading, discussion, listening assignments, and attendance at live performances.

<p>MUSC 129. American Society and Its Music.  3 Units</p> <p>Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.</p> <p>General Education Area/Graduation Requirement: Arts (Area C1), Writing Intensive Graduation Requirement (WI)</p> <p>Term Typically Offered: Fall, Spring</p>	<p>MUSC 136B. Vocal Pedagogy. 2 Units</p> <p>Term Typically Offered: Fall, Spring</p> <p>Study of the methods, problems and practical application of teaching singing. Topics will include the functional unity of the signing voice, pedagogical principles, and current methods/resources in voice training, teaching the beginning singer. <p>Current practices, methodologies, and scholarly agendas in the field of ethnomusicology including global studies of traditional, classical, folk, and popular musics. Readings from interdisciplinary literature. Students respond in discussion and writing to this scholarly discourse in order to familiarize themselves with theoretical approaches current in the discipline and to practice the spoken and written conventions of the field.</p>	<p>Individual instruction. Training in technique and repertoire at the graduate level. May be taken for credit four times.</p> <p>Note: Limited to instrumental conducting students only.</p>
MUSC 210. Composition. 2 Units Prerequisite(s): Undergraduate composition and instructor permission. Term Typically Offered: Fall, Spring	MUSC 219. Graduate Applied Music. 1 Unit Prerequisite(s): Instructor permission. Term Typically Offered: Fall, Spring
<p>Advanced work in composition for students seeking the MM degree with composition option. May be taken for credit twice.</p>	<p>Individual instruction. Classified graduate Music majors and graduate music credential candidates only. May be taken for credit four times.</p>
MUSC 211. Graduate Music Theory. 3 Units Term Typically Offered: Fall, Spring	MUSC 220. Performance Techniques. 1 Unit Prerequisite(s): Approval by area applied music committee to enter performance option for the MM; instructor permission. Term Typically Offered: Fall, Spring
<p>Comprehensive and intensive overview of the major disciplines of music theory with an emphasis on application of skills. Focus is mainly on tonal practice (part writing, figured bass realization, chromatic harmony, melodic construction, phrase structure, reductive analysis, forms) but also includes discussion of post-tonal music and applicable analytical techniques (extended scalar resources, dodecaphony, set-theory).</p>	<p>Individual instruction. Classified graduate Music majors only. Training in technique and repertoire at the graduate level. May be taken for credit four times.</p>
MUSC 214. Ethnomusicology. 3 Units Term Typically Offered: Fall, Spring	MUSC 242. Advanced Large Performance Ensemble. 1 Unit Term Typically Offered: Fall, Spring
<p>Introduction to the field of Ethnomusicology with an emphasis on its history, development, contemporary trends, research issues, and methodologies.</p> <p>Note: May be used as a music history elective.</p>	<p>Study, rehearsal, and public performance of musical repertoire appropriate for the specific ensemble (e.g. orchestra, band, choir, opera, etc.).</p>
	MUSC 244. Advanced Chamber Music. 1 Unit Term Typically Offered: Fall, Spring
	<p>Study, rehearsal, and public performance of musical repertoire appropriate for the specific ensemble (e.g. string quartet, wind quintet, etc.).</p>

MUSC 246. Camerata Capistrano Baroque.**1 Unit****Term Typically Offered:** Fall, Spring

A conductor-less ensemble that explores in-depth score study, detailed techniques for stylistic performance, and advanced concertante playing of repertoire from the Renaissance to newly composed works in groupings of diverse size. Instrumentalists, keyboardists and singers are invited to experience repertoire not normally encountered in the symphony orchestra or traditional chamber groups. Students will ultimately achieve a more comprehensive understanding of musical preparation, ensemble discipline and conductor-less performance, culminating in a final concert for a public audience. Paired with MUSC 146.

Note: This course is paired with MUSC 146. Students who have received credit for MUSC 146 as an undergraduate student at CSU Sacramento will not receive credit for MUSC 246. Each participant must be an enrolled student or registered volunteer, admitted with Instructor permission. Non-Music majors must purchase a music fee card (Lassen Hall) in order to participate. Registered volunteers will receive a parking pass for rehearsal times after required paperwork is completed. May be taken for credit four times.

MUSC 285. Graduate Recital.**2 Units**

Prerequisite(s): Permission to enter Performance option and approval of Music Department Graduate Studies Committee.

Term Typically Offered: Fall, Spring

Public recital demonstrating the performance abilities and musical maturity of the student. Content of the recital and quality of performance must be approved by instructor in the performance medium. Must articulate with MUSC 500B.

MUSC 295. Fieldwork in Music.**1 - 3 Units****Term Typically Offered:** Fall, Spring

Directed observation and work experience. Fieldwork is offered for the purpose of giving students orientation in occupational specialties. Supervision is provided by both the instructional staff of the university and cooperating agencies. Each student is required to maintain a record of activities and assignments and to prepare periodic reports. The student must make arrangements with a faculty member for a work program prior to admittance to the course.

Credit/No Credit

MUSC 299. Special Problems.**1 - 3 Units**

Prerequisite(s): Approval of the faculty member under whom the work is to be conducted and the Department Chair.

Term Typically Offered: Fall, Spring

Individual projects or directed reading. Open only to students who appear competent to carry on individual work.

Credit/No Credit

MUSC 500. Culminating Experience.**1 - 3 Units**

Prerequisite(s): Advanced to candidacy and permission from the graduate coordinator.

Term Typically Offered: Fall, Spring

Completion of thesis or project approved for the Master's degree. Three options are available:

MUSC 500D. Comprehensive Examination.**0 Units**

Prerequisite(s): Advanced to Candidacy and permission from graduate coordinator.

Term Typically Offered: Fall, Spring

The Comprehensive Examination is one of the culminating experiences available for the Master of Music Education Degree. The one-hour oral examination is taken during the final semester of the degree program and administered by a three-member graduate faculty committee. The material to be addressed includes the content of classes taken and the application of concepts as applied to music education.

Credit/No Credit

Natural Sciences and Mathematics (NSM)

NSM 12A. Peer-Assisted Learning for CHEM 4.**1 Unit****Corequisite(s):** CHEM 4**Term Typically Offered:** Fall, Spring

Students concurrently enrolled in CHEM 4 and under the guidance of a trained student leader (PAL leader) work collaboratively through problem sets designed by the CHEM 4 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in CHEM 4.

Note: May be repeated for credit

Credit/No Credit

NSM 12B. Peer-Assisted Learning for MATH 29.**1 Unit****Corequisite(s):** MATH 29**Term Typically Offered:** Fall, Spring

Students concurrently enrolled in MATH 29 and under the guidance of a trained student leader (PAL leader) work collaboratively through problem sets designed by the MATH 29 instructor. Pedagogical strategies that encourage active engaged learning are employed to facilitate student success in MATH 29.

Note: May be repeated for credit

Credit/No Credit

NSM 12C. Peer-Assisted Learning for CHEM 1A.**1 Unit****Corequisite(s):** CHEM 1A**Term Typically Offered:** Fall, Spring

Students concurrently enrolled in CHEM 1A and under the guidance of a trained student leader (PAL leader) work collaboratively through problem sets designed by the CHEM 1A instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in CHEM 1A.

Note: May be repeated for credit

Credit/No Credit

NSM 12Q. Peer-Assisted Learning STAT 50.**1 Unit****Corequisite(s):** STAT 50**Term Typically Offered:** Fall, Spring

NSM 12Q Peer-Assisted Learning STAT 50. Discussion, 2 hours. Students concurrently enrolled in STAT 50 and under the guidance of a trained student facilitator work collaboratively through problem sets designed by a STAT 50 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in STAT 50. Credit/No Credit

NSM 12R. Peer-Assisted Learning MATH 12.**1 Unit****Corequisite(s):** MATH 12**Term Typically Offered:** Fall, Spring

NSM 12R Peer-Assisted Learning MATH12. Discussion, 2 hours. Students concurrently enrolled in MATH 12 and under the guidance of a trained student facilitator work collaboratively through problem sets designed by a MATH 12 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in MATH 12. Credit/No Credit

NSM 21. First Year Seminar: Becoming an Educated Person.**3 Units****General Education Area/Graduation Requirement:** Understanding Personal Development (E)**Term Typically Offered:** Fall, Spring

Introduction to the nature and possible meanings of higher education and the functions and resources of the university. Designed to help students develop academic success strategies and improve academic skills. Students will interact with fellow students to build a community of academic and personal support. Introduces science and math as academic disciplines by requiring students to interpret scientific literature.

NSM 86A. STEM Learning Practices for Future Teachers.**3 Units****Prerequisite(s):** Three years of high school mathematics and three years of high school science preferred.**Term Typically Offered:** Fall only

The first course in a two-course pairing. The course is for freshmen intending to be elementary/junior high school teachers with special skills and knowledge in science curriculum and science pedagogy for the K-9 grade span. Students will learn course content through activities, tasks, and assignments that require them to expand their knowledge of science and mathematics concepts and skills as well as synthesize them in relation to real-world issues and problems.

Note: Field Trip. Observations in local public K-8 schools

Field trip(s) may be required.

NSM 86B. Advanced STEM Learning Practices for Future Teachers.**3 Units****Prerequisite(s):** NSM 86A**Term Typically Offered:** Spring only

The second course in a two-course pairing, intended for future elementary/junior high school teachers especially interested in science. This course extends the learning of mathematics and science content knowledge and disciplinary practices from NSM 86A by integrating engineering content and the engineering design cycle. Students will learn course content through activities, tasks, and assignments that require them to synthesize and apply their knowledge of science, engineering, and mathematics concepts and skills to complex and inter-disciplinary real-world issues and problems.

Note: Field trip. Observations in local public K-8 schools.

Field trip(s) may be required.

NSM 88. Exploring Health Careers.**1 Unit****Term Typically Offered:** Fall, Spring

Designed for pre-professional students, this self exploration course will assist students in determining whether a career in the health professions is suitable to their interest, skills, and values. In addition to exploring the traditional health professions medicine, pharmacy, etc., students will have opportunity to explore alternative health professions and career options. This active learning course will include lectures, discussions, individual and group projects, informational interviews, and guest speakers. One hour per week.

Credit/No Credit

NSM 90. Biomedical Research Seminars.**1 Unit****Term Typically Offered:** Fall, Spring

Professional scientists, graduate students and senior undergraduate researchers in biomedical sciences will present their research. Students will develop critical skills to become active participants in dialogs with seminar presenters. Students will explore and cultivate their interest towards biomedical research careers and compile a portfolio to archive their course achievements. During their senior year, undergraduate researchers will also deliver presentations of their own work.

NSM 96. Peer-Assisted Learning MATH 32.**1 Unit****Corequisite(s):** MATH 32**Term Typically Offered:** Fall, Spring

Students concurrently enrolled in MATH 32 and under the guidance of a trained student facilitator work collaboratively through problem sets designed by the MATH 32 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in MATH 32.

Credit/No Credit

NSM 100A. Transfer Seminar I.**1 Unit****Prerequisite(s):** first-semester transfer student

Designed for first-semester transfer students in the College of NSM. Series of at least 10 seminars related to campus and career-based opportunities, integration with peers, and promotion of academic mindset.

Credit/No Credit

NSM 100B. Transfer Seminar II.**1 Unit**

Prerequisite(s): second-semester transfer student
Designed for second-semester transfer students in the College of NSM. Series of at least 10 seminars related to campus and career-based opportunities for employment, preparation for entering the STEM workforce, and integration with peers and colleagues.
Credit/No Credit

NSM 190. Senior Thesis Seminar.**3 Units****Term Typically Offered:** Spring only

Develops the ability of undergraduate researchers to search, interpret, and add to the biomedical research literature. Students develop a senior thesis or proposal and an oral presentation. Includes analysis of primary research articles, peer review of student writing samples, and presentation of scientific information. These activities improve students' understanding of how scientific questions are developed, posed, and answered through proposals and dissemination of research results.

NSM 196. Conceptual Understanding of Science for Teachers.**1 - 3 Units****Prerequisite(s):** Instructor permission.**Term Typically Offered:** Fall, Spring

Intensive examination of selected topics in science for teachers. The goal is to develop a deep conceptual understanding of the science under consideration, knowledge of common misconceptions about the concept, and effective ways to guide student learning of the selected topic.
Cross Listed: NSM 296; only one may be counted for credit.

Credit/No Credit

NSM 196A. Science Topics for Middle School.**1 - 3 Units****Prerequisite(s):** Multiple Subject Credential and instructor permission**Term Typically Offered:** Fall, Spring

Intensive examination of selected topics in science for teachers pursuing subject matter knowledge needed for a general science credential. The goal is to deepen and broaden students' conceptual and factual knowledge base for selected topics. Course will involve hands-on tasks designed to enhance conceptual understanding as well as lectures, small group work and independent tasks necessary for learning the subject matter.

NSM 197. Seminar in Peer-Assisted Learning.**2 Units****Prerequisite(s):** Instructor permission**Corequisite(s):** Acceptance as PAL facilitator**Term Typically Offered:** Fall, Spring

Specific classroom training for advanced students who are concurrently serving as PAL facilitators within NSM. Action research on learning theory as applied to classroom setting with culminating research presentation.

NSM 197B. Advanced Seminar in Peer-Assisted Learning.**2 Units****Prerequisite(s):** NSM 197**Term Typically Offered:** Fall, Spring

Specific classroom training for advanced students who are concurrently serving as PAL facilitators within NSM. Action research on learning theory as applied to classroom settings with culminating research presentation. Instructor permission required for enrollment. Lecture & Discussion, 2 hours.

NSM 197C. Seminar for Lead & Supervisory Facilitators.**2 Units****Prerequisite(s):** NSM 197A or NSM 197B

Specific classroom training for advanced students who are concurrently serving Lead or Supervisory PAL facilitators within NSM. Leadership and assessment of program effectiveness with a culminating research presentation. Instructor permission required for enrollment.

NSM 198. Co-curricular Activities in Natural Sciences and Mathematics.**1 - 3 Units****Prerequisite(s):** Admission to this course requires approval of instructor.**Term Typically Offered:** Fall, Spring

Earned credit by participating as tutor or teacher assistant in public schools, volunteering as an instructor or tutor in K-12 courses or programs offered by other community organizations, or engagement in community education programs, which are based in one or more disciplines in NSM. Participation requires three to twelve hours weekly.
Note: May be taken more than once but no more than three units may be applied toward the baccalaureate degree.

Credit/No Credit

NSM 296. Conceptual Understanding of Science for Teachers.**1 - 3 Units****Prerequisite(s):** Instructor permission.**Term Typically Offered:** Fall, Spring

Intensive examination of selected topics in science for teachers. The goal is to develop a deep conceptual understanding of the science under consideration, knowledge of common misconceptions about the concept, and effective ways to guide student learning of the selected topic.
Note: May be repeated for credit. Cross listed: NSM 196.

Credit/No Credit

Nursing (NURS)

NURS 10. Health Care: Issues and Delivery Systems.**3 Units****General Education Area/Graduation Requirement:** GE AREA D**Term Typically Offered:** Fall, Spring

Explores the relationships between social, political and economic systems, and the health care and delivery systems currently operational in the U.S. today. Provides a format to debate current biomedical issues and explores crosscultural health practices. Lecture three hours.

NURS 14. Pharmacology.**2 Units****Prerequisite(s):** Entry level physiology course, such as BIO 25 or BIO 26**Term Typically Offered:** Fall, Spring

Basic principles of pharmacology with a focus on pharmacokinetics, pharmacodynamics and related therapeutic implications for major drug categories. May be taken by pre-nursing or non-nursing students. Lecture two hours.

NURS 21. First Year Seminar: Becoming an Educated Person.**3 Units****General Education Area/Graduation Requirement:** Understanding

Personal Development (E)

Term Typically Offered: Fall, Spring

Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Also provides students with an opportunity to interact with fellow students and the seminar leader and to build a community of academic and personal support.

NURS 53. Paramedic Skills Part 1. 2 Units**Prerequisite(s):** Admission to the Paramedic program**Corequisite(s):** NURS 51**Term Typically Offered:** Fall, Spring

Part 1 of foundational ALS skills content for pre-hospital care in the Emergency Medical System (EMS). Participants apply theoretical knowledge of Advanced Life Support in skills lab and simulated patient care experiences. Students will practice assessment and intervention of psychomotor skills for Advanced Life Support (ALS), Advanced Cardiac Life Support (ACLS), Pediatric Advanced Cardiac Life Support (PALS) and International Trauma Life Support (ITLS).

NURS 54. Paramedic Skills Part 2. 3 Units**Prerequisite(s):** Admission to the Paramedic program, NURS 51 &

NURS 53

Corequisite(s): NURS 52**Term Typically Offered:** Fall, Spring

Part 2 of foundational ALS skills content for pre-hospital care in the Emergency Medical System (EMS). Participants apply theoretical knowledge of Advanced Life Support in skills lab and simulated patient care experiences. This is the skills section of NURS 52. Students will practice assessment and intervention of psychomotor skills for Advanced Life Support (ALS), Advanced Cardiac Life Support (ACLS), Pediatric Advanced Cardiac Life Support (PALS) and International Trauma Life Support (ITLS).

NURS 111. Introduction to Professional Nursing. 3 Units**Prerequisite(s):** Admission to Nursing program or instructor permission**Term Typically Offered:** Fall, Spring

Provides a conceptual base for the practice of professional nursing. The changing and expanding roles of the professional nurse in the health care delivery system are explored, with an emphasis on professional behavior, ethics, evidence-based practice and informatics. Lecture three hours.

Note: may be repeated for credit**NURS 112. Nursing Care Of Adults. 5 Units****Prerequisite(s):** Admission to the Nursing Program**Corequisite(s):** NURS 111, NURS 113**Term Typically Offered:** Fall, Spring

Introduction and application of nursing concepts in meeting health needs of adults. Emphasis is placed on health promotion and disease management across the adult life span. Lecture three hours; laboratory six hours

Note: May be repeated for credit**NURS 113. Professional Nursing Communication, Assessment and Skills. 4 Units****Prerequisite(s):** Admission to nursing program**Corequisite(s):** NURS 111 and NURS 112**Term Typically Offered:** Fall, Spring

Apply nursing practice concepts in assessment, skills, and professional communication in the context of laboratory scenarios and field experiences across the lifespan. Laboratory twelve hours.

NURS 119. Mental Health Nursing for the LVN 30-Unit Option. 4 Units**Prerequisite(s):** Microbiology with a lab, Physiology with a lab, and California licensure as a Vocational Nurse.**Corequisite(s):** Nurs 123.**Term Typically Offered:** Fall, Spring

Theoretical basis for the nursing care of individuals who require nursing intervention to achieve and maintain mental health through adaptive processes. The course includes a supervised practicum which incorporates therapeutic modalities. A variety of psychodynamic theories related to anxiety, interpersonal relationships, crisis intervention, and group process are discussed.

NURS 120. Nursing Application of Research and Critical Analysis. 3 Units**Prerequisite(s):** NURS 111, NURS 112, NURS 113 or instructor permission. GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.**General Education Area/Graduation Requirement:** Writing Intensive Graduation Requirement (WI), Humanities (Area C2)**Term Typically Offered:** Fall, Spring

Evaluation and application of research to nursing practice. Emphasis is placed on application of evidence to improve quality and safety in healthcare and advance nursing practice. Develop an understanding of the humanities and diverse cultures through the lens of nursing practice. Application of a critical framework of sociocultural, historical, and economic perspectives to analyze scholarly inquiry of health and healthcare.

NURS 123. Nursing Families in Complex Illness. 6 Units**Prerequisite(s):** NURS 111, NURS 112 and NURS 113; or instructor permission.**Term Typically Offered:** Fall, Spring

Provides students with the opportunity to learn and apply nursing concepts through the care of individuals and families experiencing complex illness across the adult lifespan. The focus is on skill development and the synthesis of data from multiple sources to formulate nursing interventions. Lecture three hours; laboratory six hours.

Note: May be repeated for credit**NURS 129. Mental Health Nursing. 5 Units****Prerequisite(s):** NURS 111, NURS 112 and NURS 113; or instructor permission**Term Typically Offered:** Fall, Spring

Provides an overview of multidimensional factors, perspectives, and approaches associated with mental health across the lifespan. Mental health concepts and interventions are applied across multiple settings. Lecture three hours; laboratory six hours.

Note: May be repeated for credit

NURS 133. Leadership and Management for the LVN to RN. 2 Units**Prerequisite(s):** Microbiology with a lab; Physiology with a lab; NURS 119 and NURS 123**Corequisite(s):** NURS 137 and NURS 138**Term Typically Offered:** Fall, Spring

This course is designed to present leadership and management skills for the Licensed Vocational Nurse transitioning to the Registered Nurse role. The principle and processes of administration, management, and supervision will be discussed within an organizational framework. Lecture two hours.

NURS 136. Nursing Laboratory for the Childbearing Family. 1 Unit**Prerequisite(s):** NURS 120, NURS 123 and NURS 129, or instructor permission**Corequisite(s):** NURS 137**Term Typically Offered:** Fall, Spring

Application of skills and assessment in the care of the childbearing family and women experiencing reproductive health changes across the lifespan.

Credit/No Credit

NURS 137. Nursing the Childbearing Family. 5 Units**Prerequisite(s):** NURS 120, NURS 123 and NURS 129 or instructor permission.**Corequisite(s):** NURS 136.**Term Typically Offered:** Fall, Spring

Application of nursing concepts in the care of the childbearing family and women experiencing reproductive health changes across the lifespan.

Lecture three hours; laboratory six hours.

Note: May be repeated for credit**NURS 138. Nursing the Childrearing Family. 5 Units****Prerequisite(s):** NURS 120, NURS 123, NURS 129, or instructor permission**Corequisite(s):** NURS 139**Term Typically Offered:** Fall, Spring

Introduction and application of nursing concepts in meeting health needs of the child from birth through adolescence. Emphasis is placed on health promotion and disease management within the context of the family and applied across multiple settings. Lecture three hours; laboratory six hours.

Note: May be repeated for credit**NURS 139. Nursing Laboratory for the Childrearing Family. 1 Unit****Prerequisite(s):** NURS 120, NURS 123, NURS 129, or instructor permission**Corequisite(s):** NURS 138**Term Typically Offered:** Fall, Spring

Acquisition of knowledge and practice using tools and techniques for assessing the child and the family in a variety of settings. Laboratory three hours.

Note: May be repeated for credit

Credit/No Credit

NURS 143. Leadership and Management in Nursing Practice. 3 Units**Prerequisite(s):** NURS 136, NURS 137, NURS 138, and NURS 139, or instructor permission.**Term Typically Offered:** Fall, Spring

Integration of leadership and management principles to promote health across the lifespan and care settings. Application of leadership and management principles in the examination of organizational structures, processes, and approaches to quality and safety concepts in health care systems and practice environments. Emphasis will be placed on career development and transition to professional practice.

Note: May be repeated for credit. Lecture three hours.**NURS 144. Community Health Nursing. 5 Units****Prerequisite(s):** NURS 136, NURS 137, NURS 138, and NURS 139, or instructor permission.**Term Typically Offered:** Fall, Spring

Contemporary role of the community health nurse is presented within a public health framework, emphasizing the concept of community as client. Presents nursing interventions related to groups and aggregates identified as high risk for the development of health problems. Clinical experience is provided across community settings. Lecture and clinical hours.

Note: May be repeated for credit**NURS 145. Clinical Leadership and Professional Role Development. 6 Units****Prerequisite(s):** NURS 136, NURS 137, NURS 138, NURS 139 or instructor permission.**Corequisite(s):** NURS 144.**Term Typically Offered:** Fall, Spring

The purpose of this culminating senior practicum is to facilitate the transition of the nursing student into the role of a professional BSN graduate nurse. The course will integrate the theoretical and clinical nursing concepts acquired throughout the curriculum into a precepted senior practicum. Students will apply principles of clinical nursing, nursing management and nursing leadership in a selected clinical setting. Credit/No Credit

NURS 160. Human Sexuality. 3 Units**General Education Area/Graduation Requirement:** Understanding Personal Development (E)**Term Typically Offered:** Fall, Spring

Designed to explore the physiological, sociological, and psychological components of human sexuality in a sufficiently detailed manner so that the myth and confusion enveloping this needlessly hypersensitive subject can be dispelled. Hopefully, students will be able to integrate these components in a meaningful pattern into their own lives and will be not only better able to understand and accept their own sexual needs and behavior but also, at the same time, will be more accepting and understanding of persons whose sexual attitudes and behavior might differ from their own. Lecture three hours.

NURS 167. Women's Health.
Term Typically Offered: Fall, Spring

Designed for people seeking knowledge about women's health, women's health risks, and the delivery of traditional and non-traditional medical interventions for the maintenance of health and management of illness. Covers the physiological and psychological components of women's health. The leading acute and chronic illnesses which affect women are introduced. Discussions include: means of sustaining a wellness lifestyle; identification, management and consultation for acute and chronic illness; normal physiological life changes and adaptations to aging; mind/body connection in the control of health and illness; pharmacology and drug therapy for women; health management for infants and children; access and control of care for women in traditional and non-traditional health settings; and research in women's health. Lecture-discussion three hours.

NURS 168. The Brain and Gender-Related Differences. 3 Units
General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5
Term Typically Offered: Fall, Spring

Gender-related differences which are mediated by the brain are examined from the theoretical framework of evolution. The place of molecular genetics, hormone physiology, neural function, biomedical research, human development, personality theory and research, and crosscultural research are studied in an attempt to understand the processes that affect sex differences. Gender-related differences in normal and abnormal behavior resulting from chronic and acute disease, and pathological states, will be introduced. The student should acquire the fundamentals of a scientific understanding of gender-related differences between humans, and an appreciation of the unique role the brain plays in the mediation of these differences.

NURS 170. Foundations for Evidence-Based Nursing Practice. 3 Units
Prerequisite(s): Acceptance into the RN to BSN Program or instructor permission.
Term Typically Offered: Fall, Spring

This course provides an overview of nursing research and application to practice. Students will identify components of evidence-based practice and develop skills in critiquing research and in professional writing.

NURS 171. Transitional Concepts: The Baccalaureate Nurse. 6 Units
Prerequisite(s): NURS 170, may be taken concurrently.
Term Typically Offered: Fall, Spring

This course expands students' knowledge of theories, concepts, and social issues which have implications for nursing practice. Assignments and experiences are designed to transition the RN to the baccalaureate level of proficiency.

NURS 171A. Transitional Concepts: The Baccalaureate Nurse Role. 3 Units

Prerequisite(s): NURS 170, may be taken concurrently
 This course expands students' knowledge of theories, concepts, and social issues which have implications for the role of the nurse in any professional setting. Assignments and experiences are designed to transition the RN to the baccalaureate level of proficiency.

NURS 171B. Transitional Concepts: The Client Lifespan. 3 Units

Prerequisite(s): NURS 170, may be taken concurrently
 This course expands students' knowledge of theories, concepts, and social issues which have implications for health across the lifespan. Assignments and experiences are designed to transition the RN to the baccalaureate level of proficiency.

NURS 173. Theoretical Foundations for Leadership and Management. 6 Units

Prerequisite(s): NURS 170, may be taken concurrently.
Term Typically Offered: Fall, Spring

This course provides the theoretical foundations for leadership and management across multiple settings. Theories related to the principles and processes of leadership and management will be applied to select practice experiences.

NURS 173A. Theoretical Foundations for Leadership. 3 Units

Prerequisite(s): NURS 170, may be taken concurrently
 This course provides the theoretical foundations for leadership across multiple settings. Theories related to the principles and processes of leadership will be applied to select practice experiences.

NURS 173B. Theoretical Foundations for Management. 3 Units

Prerequisite(s): NURS 170, may be taken concurrently
 This course provides the theoretical foundations for management across multiple settings. Theories related to the principles and processes of management will be applied to select practice experiences.

NURS 174. Community Health Nursing: Concepts and Practice. 4 Units

Prerequisite(s): NURS 170, may be taken concurrently.
Term Typically Offered: Fall, Spring

This course presents the role of the community health nurse within a public health framework and examines public health systems, policies, and socioecological factors that shape the health of individuals, groups, and communities. Students will be introduced to principles of population health, epidemiology, disease prevention, and health promotion, to plan community health nursing interventions.

NURS 174C. Community Health Nursing: Clinical Elective. 2 Units
Prerequisite(s): NURS 170, NURS 174, both may be taken concurrently.
Term Typically Offered: Fall, Spring, Summer

In this course students will integrate and apply knowledge of population-based nursing and evaluate the role of the community health nurse in various systems. Students will provide care to individuals, families, or communities within a public health framework. This course meets the California BRN clinical requirements for the Public Health Nurse Certificate.

Note: NURS 174C is an elective course that is only required for students wishing to apply for the California Board of Registered Nursing Public Health Nurse Certificate. Students not planning to apply for a Public Health Nurse Certificate must petition for an exemption from this clinical course. Students who are granted exemption for NURS 174C will only complete 44 units.

NURS 178. Culminating Project. 3 Units

Prerequisite(s): Completion of 19 units in the program or instructor permission.
Term Typically Offered: Fall, Spring

Students will apply leadership and management principles within a community to determine a defined need or issue, identify goals to meet or solve the issue, and complete the culminating project based on previous course work.

NURS 179. Professional Communication and Reasoning Development. 3 Units

Prerequisite(s): NURS 170, may be taken concurrently; and either department permission or GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

This hybrid course is designed to expand communication and leadership skills among RN to BSN students in their professional practice. Students will develop an understanding of the humanities and diverse cultures through the lens of nursing practice. Specifically, students will reflect on how culture and experience determines the human condition which is reflected in their animating ideas and values towards health and healthcare.

NURS 194. Work Study in Nursing. 1 - 12 Units

Prerequisite(s): NURS 120, NURS 123 and NURS129; School of Nursing faculty recommendation; Instructor permission; Minimum 2.5 GPA

Corequisite(s): Enrollment in undergraduate nursing program

Term Typically Offered: Fall, Spring

Nursing students participate in clinical nursing experiences that reflect the realities of the healthcare environment and have opportunity to master learned skills.

Note: May be repeated for credit

Credit/No Credit

NURS 195. Field Study. 1 - 6 Units

Prerequisite(s): Instructor permission.

Term Typically Offered: Fall, Spring

Guided study and experience in a specified nursing area.

Credit/No Credit

NURS 199. Special Problems. 2 Units

Term Typically Offered: Fall, Spring

Individual projects and directed reading for students who are competent to assume independent work. Admission to this course requires approval of faculty member under whom the independent work is to be conducted.

Credit/No Credit

NURS 209. Advanced Role Development in Nursing. 3 Units

Prerequisite(s): Admission to Graduate Program.

Term Typically Offered: Fall, Spring

Students will explore emerging issues in healthcare and consider how these issues shape their practice. Through examination of current issues and challenges confronting the nursing profession, analysis of the literature, examination of personal values, rights, and obligations, and the application of ethical decision-making processes, students' ability to engage in ethical discussions will be enhanced, as will their ability to provide professional leadership.

Note: Satisfies the GVAR requirement.

NURS 210. Research as the Foundation for Advanced Nursing. 3 Units

Prerequisite(s): Admission to the graduate program for nursing

Term Typically Offered: Fall, Spring

Participants will explore nursing research as the foundation for clinical and organizational decision making. Content will include understanding key elements of evidence-based practice, developing skills to access data bases in nursing and healthcare, evaluation of evidence in nursing including published nursing research, problem identification within the practice setting, and incorporation of evidence in initiating change and improving clinical practice.

NURS 213. Seminar in Organizational and Systems Leadership. 3 Units

Prerequisite(s): NURS 209 and NURS 210, and 21 units of graduate coursework.

Term Typically Offered: Fall, Spring

This course requires that students operationalize knowledge, skills, and dispositions acquired in previous courses. Students will identify contemporary healthcare issues and apply graduate core competencies to guide nursing praxis in the planning, implementation and evaluation of quality healthcare for individuals, families, groups and communities.

NURS 213C. Seminar in Specialized Nursing Processes: School Nursing I. 4 Units

Prerequisite(s): Admission to School Nurse Credential Program.

Term Typically Offered: Fall, Spring

Provision and application of concepts needed for nursing practice in the schools. Focuses on the three major competencies of school nursing practice: providing health and wellness services, providing direct client care services for school age children (pre-k through age 22), and professional management of school nursing services. Emphasis is on the foundations of school nursing practice, legal and ethical issues, special education services, and management of episodic illness and chronic health conditions.

NURS 213D. Seminar in Specialized Nursing Processes: School Nursing II. 4 Units

Prerequisite(s): NURS 213C.

Term Typically Offered: Fall, Spring

Provision and application of concepts needed for nursing practice in the schools. Focuses on the three major competencies of school nursing practice: providing health and wellness services, direct client care services for school age children (pre-k through age 22), and health service program coordination and management. Emphasis is on ethical issues and federal laws addressing education for students with disabilities, health promotion programs, issues of adolescent health, and behavior assessment and management including considerations for students receiving special education services.

NURS 214. Educational Program Development in Nursing. 3 Units

Prerequisite(s): NURS 209 and NURS 210 or instructor's permission

Term Typically Offered: Fall, Spring

Introduction to curriculum development and instructional design concepts in preparation for the role of educator in an educational institution or health care setting. Emphasis will be on instructional design, instructional strategies, and measurement of learner outcomes. Lecture three hours.

Note: FOCUS alternates between K-12 and higher education.

NURS 214C. Educational Program Development in Nursing II. 3 Units**Prerequisite(s):** NURS 214B.**Corequisite(s):** NURS 294C.**Term Typically Offered:** Fall, Spring

Introduction to curriculum development and instructional design concepts in preparation for the role of educator in an educational institution or health care setting. Continues emphasis on instructional design, related to curriculum development and implementation, and to program evaluation. Lecture three hours.

Note: FOCUS alternates between K-12 and higher education.**NURS 215. Community Health Services and Policy. 3 Units****Prerequisite(s):** NURS 209 and NURS 210, or instructor's permission**Term Typically Offered:** Fall, Spring

Examines issues of health policy, financing, and the organization and delivery of health services at the local, national, and global levels. Health promotion will be defined and the influence of community on the individual, group, and family's health will be explored. Epidemiological data bases will be identified. These data bases will be critiqued and used to develop a health promotion program.

NURS 216. Vision and Scoliosis Screening. 1 Unit**Term Typically Offered:** Fall, Spring

Theory and practice of detecting idiopathic scoliosis, and visual disorders resulting from inadequate refraction, ocular mal-alignment, and color deficiency in the school setting. The pathophysiology of said conditions will be presented, the nursing role delineated, and opportunities for paired screening practice provided.

NURS 230. Advanced Concepts in Pathophysiology. 3 Units**Term Typically Offered:** Fall, Spring

Seminar designed to promote the understanding and application of fundamental disease processes and physiological principles in cross-clinical settings for the purpose of improving nursing assessments and patient care management. Lecture three hours.

NURS 231. Pharmacology for Advanced Practice. 3 Units**Term Typically Offered:** Fall, Spring

Conceptual and systematic study of pharmacodynamics, pharmacokinetics, pharmacoeconomics and therapeutic implications for healthcare practitioners. Efficient use of traditional and web based pharmaceutical resources is encouraged. Designed to meet Board of Registered Nursing requirements for prescriptive privileges. Requires familiarity with disease process. Lecture three hours.

NURS 232. Advanced Physical Assessment Across the Lifespan. 3 Units**Prerequisite(s):** NURS 209 and NURS 210.**Term Typically Offered:** Fall, Spring

Advanced concepts and skills in health and physical assessment are essential to the clinical decision making and caring process for the nurse in advanced practice and leadership roles. The emphasis is on eliciting an accurate and thorough history considering the client's multiple dimensions, development of advanced physical examination skills and the development of documentation skills to provide a database for continuous improvement of nursing practice.

Note: Availability of a stethoscope is required. Individual practice outside of class is required.**NURS 232A. Advanced Physical Assessment: Infant, Child, Adolescent. 3 Units****Prerequisite(s):** Instructor permission.**Term Typically Offered:** Fall, Spring

Seminar designed to present techniques related to the physical assessment, in the school or home setting, of the child, age birth through 18 years. Emphasis is on the common morbidities and mortalities of these age groups including interrelationship of the physical, emotional and socioeconomic causes of health problems and illnesses. Availability of an otoscope and stethoscope required. Individual practice required outside of class. Lecture three hours.

NURS 293. Practicum in Organizational and Systems Leadership. 3 Units**Prerequisite(s):** NURS 209, NURS 210, NURS 214, NURS 230, NURS 231, NURS 232, and instructor permission.**Corequisite(s):** NURS 213.**Term Typically Offered:** Fall, Spring

This course provides supervised field experience to provide the student with an opportunity to apply theoretical concepts from NURS 213 in a clinical practice setting focusing on the care of adult clients. The emphasis of this experience will be to application of graduate core competencies to guide leadership in nursing praxis in the planning, implementation and evaluation of quality healthcare for individuals, families, and groups.

Credit/No Credit

NURS 293D. Practicum in Specialized Nursing Processes: School Nursing. 4 Units**Prerequisite(s):** NURS 213C.**Corequisite(s):** NURS 213D.**Term Typically Offered:** Fall, Spring

Application of a planned sequence of supervised clinical experiences in one or more California public school districts offering nursing services to infants, children and adolescents for the purpose of developing a clinical leadership role in school nursing. Focuses on the three major competencies of school nursing practice: providing health and wellness services, providing direct client care services for school age-children (pre-k through age 22, including students with special health care needs), and professional management of school nursing services.

Credit/No Credit

NURS 294. Practicum in Educational Program Development in Nursing. 3 Units**Prerequisite(s):** NURS 214, may be taken concurrently.**Term Typically Offered:** Fall, Spring

Opportunity for analysis and synthesis of concepts of management and leadership in an educational setting while practicing the role of a nursing educator.

Credit/No Credit

NURS 295. Field Study. 1 - 6 Units**Term Typically Offered:** Fall, Spring

Experiences in an off-campus facility are provided for the continued development of clinical or functional role skills. Each student spends 45 hours per unit. Field study is not designed to be used in lieu of regularly scheduled practicums. Enrollment in NURS 295 requires permission of a faculty member who will serve as sponsor and coordinator of the experience.

Credit/No Credit

NURS 299. Special Problems. **1 - 3 Units**
Term Typically Offered: Fall, Spring

Individual research, study, and directed reading in an area not directly covered in the Division's core courses, role preparations or electives. Students pursue a particular course of study on a one-to-one basis with a faculty member. Educational objectives must be specified in advance.
 Credit/No Credit

NURS 500. Culminating Experience. **3 Units**
Prerequisite(s): Advanced to candidacy for the Master's degree and must be in the final semester of the program.
Term Typically Offered: Fall, Spring

The Culminating Experience is in the form of a comprehensive examination. The comprehensive examination is an original scholarly paper that reflects an in-depth problem-solving proposal or a business proposal. Students that wish to do a thesis or project as the culminating experience must petition the Division of Nursing Graduate Committee and will be approved on an individual basis.

Operations Management (OPM)

OPM 101. Operations Management. **3 Units**
Prerequisite(s): Student must be a Business Major or Business Administration minor to enroll in this course
Corequisite(s): DS 101
Term Typically Offered: Fall, Spring

Introduction to the basic concepts and methods used to analyze and improve performance of operations in manufacturing and service organizations.

Overseas Student Program (REG)

REG 220. Enrolled in online class at a participating CSU campus through CourseMatch. **1 - 10 Units**
Term Typically Offered: Fall, Spring

Enrollment in an online class at a CSU campus through CourseMatch. Any questions or enrollment changes (drop, withdrawal, change of grade basis, etc.) must be done through the CSU campus hosting the class. Details about the class will be recorded on your Home campus record after completion.

Philosophy (PHIL)

PHIL 2. Ethics. **3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Examination of the concepts of morality, obligation, human rights and the good life. Competing theories about the foundations of morality will be investigated.

PHIL 4. Critical Thinking. **3 Units**
General Education Area/Graduation Requirement: Critical Thinking (A3)
Term Typically Offered: Fall, Spring

Study of the basic skills of good reasoning needed for the intelligent and responsible conduct of life. Topics include: argument structure and identification, validity and strength of arguments, common fallacies of reasoning, use and abuse of language in reasoning, principles of fair play in argumentation.

PHIL 6. Introduction to Philosophy: Knowledge, World and Self. **3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Representative selection of philosophical problems will be explored in areas such as knowledge, reality, religion, science, politics, art and morals.

PHIL 21. First Year Seminar: Becoming an Educated Person. **3 Units**
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall only

Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Students have the opportunity to interact with fellow classmates and the seminar leader to build a community of academic support and personal support.

PHIL 26. History of Philosophy. **3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Introduction to the history of philosophy, emphasizing such themes as the foundations of knowledge, the nature of reality, the basis of a good life and a just society, the existence of God, and the nature of self, and tracing the development of these themes from antiquity to the modern period.

PHIL 27. History of Early Modern Philosophy. **3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Examines the major developments in Western philosophy after the Middle Ages, with emphasis on the period from Descartes to Kant. Attention will be paid to the general historical and cultural setting within which the philosophical theories developed.

PHIL 56. Research Integrity. **1 Unit**
Term Typically Offered: Fall, Spring

Basic regulatory and ethical requirements for doing research. Topics covered include protection of human subjects, data management, authorship, peer review, mentoring, animal experimentation, conflict of interest, and collaborative research.
 Credit/No Credit

PHIL 60. Deductive Logic I. **3 Units**
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring

Introduction to deductive logic. Topics include: basic concepts of deductive logic; techniques of formal proof in propositional and predicate logic.

PHIL 61. Inductive Logic. **3 Units**
Term Typically Offered: Fall, Spring

Introduction to inductive logic and the problem of decision under uncertainty. Topics include: the nature of inductive rationality, philosophical theories of induction and probability, cognitive biases and common errors in inductive reasoning, and philosophical problems in defining risk, rational agency, and the expected value of an action.

- PHIL 100. Ethics and Personal Values. 3 Units**
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring
- Moral concerns of everyday life stressing such features of moral character as right and wrong conduct, virtue and vice, the emotions, attitudes, and personal relationships. Emphasis is on analytical and critical discussion of philosophical theories and competing viewpoints.
- PHIL 101. Ethics and Social Issues. 3 Units**
Prerequisite(s): GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), GE AREA D
Term Typically Offered: Fall, Spring, Summer
- Moral controversies that divide society today, such as abortion, the death penalty, affirmative action, sexism, war and peace. Emphasis is on identifying the relevant values and moral principles underlying competing views and subjecting them to rational assessment.
- PHIL 102. Professional and Public Service Ethics. 3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring, Summer
- Prepares students planning careers in professional practice or public service to identify, understand, and resolve ethical problems. Includes examinations of (i) ethical theory, rights and duties, virtue ethics, utilitarian ethics, social contract theory, and role morality; (ii) the philosophical underpinnings of professional codes of conduct, regulations, and norms of professional and public service practices; (iii) moral reasoning and argumentation; (iv) the relation between ethical judgement and action; (v) the relation between professional practice, public service, and democratic principles.
- PHIL 103. Business and Computer Ethics. 3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer
- Analytical treatment of controversial moral issues which emerge in the business world, e.g., affirmative action, corporate responsibility, the global economy, industry and environmental damage, social effects of advertising, the computer threat to personal privacy, ownership of computer programs. Discussion will focus on basic moral principles and concepts relevant to these issues.
- PHIL 104. Bioethics. 3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer
- Ethical dilemmas faced by professionals and patients in the field of medicine, e.g., patient self-determination and informed consent, discrimination in health care, euthanasia, abortion, surrogate motherhood, genetic modification, and rights to health care. Emphasis is on the well-reasoned application of general moral principles to practical medical decisions.
- PHIL 105. Science and Human Values. 3 Units**
Prerequisite(s): GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: GE AREA D, Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
- Examination of the values implicit in a scientific culture and the problems that arise as a commitment to the development of scientific knowledge and technology. These problems include: distinguishing good scientific practice from bad; the intrinsic value of scientific knowledge independent of its benefits in application; the proper and improper applications of scientific knowledge.
- PHIL 112. History Of Ethics. 3 Units**
Prerequisite(s): GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
- Investigation of the main approaches to ethics in Western moral philosophy. Emphasis on Plato, Aristotle, Hume, Kant and Mill.
- PHIL 115. Philosophy In Literature. 3 Units**
Prerequisite(s): GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Spring only – even years
- Study of selected works of fiction which focus on philosophically controversial questions, e.g., basic moral dilemmas, the meaning of life, alienation, nihilism, the existence of God.
- PHIL 117. Existentialism. 3 Units**
Prerequisite(s): GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall only
- Study of the problem of the existing individual, or inner self – most especially the problem of choice in the context of radical freedom and finitude. Particular attention will be paid to the philosophical writings of Kierkegaard, Nietzsche, Heidegger and Sartre, through some major literary works of these figures and others (Camus, Dostoevsky) will also be considered.
- PHIL 122. Political Philosophy. 3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
- A philosophical examination of the individual, the community, and rights; the conflict between individual rights and the common good; various conceptions of justice, equality, liberty and the public good; and the relationship of politics to ethics, economics, law; war and peace.

- PHIL 123. Philosophy and Feminism.** **3 Units**
Term Typically Offered: Spring only – even years
- Study of feminist perspectives on important philosophical questions. Examples of the questions treated are: mind-body dualism; reason and emotion; the fact/value distinction; the nature of the public and private realms; equal rights; and whether knowledge is intrinsically "gendered." Different feminist perspectives will be considered and compared with traditional approaches to these questions.
- PHIL 125. Philosophy Of Science.** **3 Units**
General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5
Term Typically Offered: Fall, Spring, Summer
- Study of the philosophical problems that arise in the sciences: the nature of scientific reasoning, the limits and styles of explanation, identifying pseudoscience, values in science, unity and diversity of the sciences, and science's impact on our world view.
- PHIL 126. The Meanings Of Evolution.** **3 Units**
Term Typically Offered: Fall, Spring
- Study of the philosophical basis of the biological sciences: the power and limits of evolution as a scientific explanation; Darwinism, its refinements, alternatives and critics; the origin and nature of life; the scope of evolution as an explanation, including critical investigations of evolutionary psychology and sociobiology.
- PHIL 127. History of Ancient Philosophy.** **3 Units**
Prerequisite(s): 3 units in Philosophy.
Term Typically Offered: Fall, Spring
- Examination of the origins of Western philosophy, with emphasis on the works of the Pre-Socratics, Plato, and Aristotle.
- PHIL 128. History of Modern Philosophy.** **3 Units**
Prerequisite(s): 3 units in Philosophy.
Term Typically Offered: Fall, Spring
- Examination of the major developments in Western philosophy after the Middle Ages with emphasis on the period from Descartes to Kant.
- PHIL 131. Philosophy Of Religion.** **3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Summer only
- Introduction to philosophical theology, the philosophical study of religious assertions, arguments, and beliefs: the existence and nature of God; the rationality of religious belief; the relation of faith to reason; the problem of evil; immortality and resurrection; the possibility of miracles; the meaning of religious language. Includes both traditional and contemporary approaches.
- PHIL 136. Philosophy Of Art.** **3 Units**
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
- Inquiry into the nature of art, beauty and criticism, with critical consideration of representative theories.
- PHIL 145A. Chinese Philosophy.** **3 Units**
Prerequisite(s): GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)
Term Typically Offered: Spring only
- Survey of the major philosophical traditions of China and Japan, focusing on concepts of nature, man, society, freedom and knowledge. Special attention will be given to Confucianism, Taoism, Buddhism, and recent philosophical movements. Taught alternate semesters with PHIL 145B.
- PHIL 145B. Philosophies Of India.** **3 Units**
Prerequisite(s): GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment.
General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall only
- Survey of the major schools of Indian philosophical development. The emphasis will be on the Hindu and Buddhist traditions, with consideration given to competing notions of the self, consciousness, the origin of human suffering, and the possibility of transcendence.
Note: Taught alternate semesters with PHIL 145A.
- PHIL 152. Recent Ethical Theory.** **3 Units**
Term Typically Offered: Spring only
- Major topics in ethical theory with attention to their contemporary formulation, including such topics as utilitarianism vs. rights-based theories and the dispute over the objectivity of ethics.
- PHIL 153. Philosophy Of Mind.** **3 Units**
Prerequisite(s): 3 units in philosophy or instructor permission.
Term Typically Offered: Spring only
- Rival theories of the nature of the mind and mental activity, including dualism, materialism, functionalism. Difficulties in achieving a theoretical understanding of familiar psychological concepts such as belief, sensation, emotion, intention.
- PHIL 154. Philosophy Of Language.** **3 Units**
Term Typically Offered: Fall only
- Study of philosophical issues concerning language: theories of the nature of linguistic meaning, in particular those involving the concepts of sense, reference, truth conditions, intention, convention, speech act, and force. Topics include the relation between meaning and reference to objects, and between meaning and mental processes. Emphasis on contemporary views, including views on the promise of a theory of language to shed light on fundamental philosophical problems in metaphysics and the philosophy of mind.
- PHIL 155. Philosophy Of Law.** **3 Units**
Term Typically Offered: Spring only
- Theories of the nature of law, e.g., natural law, legal positivism, legal realism. Selected controversies in contemporary law will also be studied, such as the justification of punishment, the legislation of morality, judicial activism vs. judicial restraint.

- PHIL 160. Deductive Logic II.** 3 Units
Prerequisite(s): CSC 28 or PHIL 60 or instructor permission.
Term Typically Offered: Spring only
- Further study of deductive logic. Topics include: principles of inference for quantified predicate logic; connectives; quantifiers; relations; sets; modality; properties of formal logical systems, e.g. consistency and completeness; and interpretations of deductive systems in mathematics, science, and ordinary language.
- PHIL 161. Inductive Logic II.** 3 Units
Prerequisite(s): Phil 61 Inductive Logic I or instructor permission.
Term Typically Offered: Fall, Spring
- Further study of inductive logic. Topics include: the nature of uncertainty, probability and inductive rationality, Bayes' Theorem, the nature of utility, expected value theory, decisions under uncertainty, game theory, strict and weak dominance, decision-theoretic paradoxes, pure and mixed strategy Nash equilibria.
- PHIL 176. Twentieth Century Anglo-American Philosophy.** 3 Units
Term Typically Offered: Spring only
- Rise of the analytic tradition in contemporary Anglo-American philosophy represents a turn toward common sense, science, language, logic and rigor. Readings will cover the philosophical movements of common sense, logical atomism, logical positivism, ordinary language philosophy and more recent analytical philosophy.
- PHIL 180. Knowledge and Understanding.** 3 Units
Prerequisite(s): 6 units in philosophy or instructor permission.
Term Typically Offered: Fall, Spring
- Examines the concept of knowledge. Representative topics include: the role of sense perception and memory, the importance of certainty, the justification of belief, philosophical skepticism, the concept of truth and the nature of philosophical inquiry. Emphasis is on contemporary formulations.
- PHIL 181. Metaphysics.** 3 Units
Prerequisite(s): 6 units in philosophy or instructor permission.
Term Typically Offered: Fall, Spring
- Examines arguments concerning the nature of reality. Representative topics include: substance, space, time, God, free will, determinism, identity, universals. Emphasis is on contemporary formulations.
- PHIL 189. Senior Seminar in Philosophy.** 1 Unit
Prerequisite(s): Philosophy majors (any concentration), 21 upper-division units in Philosophy, and graduating semester; or instructor permission.
Corequisite(s): Philosophy major (any concentration) and graduating semester; or instructor permission.
Term Typically Offered: Fall, Spring
- A required capstone experience in the philosophy major. The course involves: completion of a senior essay under direction of a faculty member; preparation for knowledge and skills examination; submission of written critiques for three public events in philosophy; completion of departmental assessment questionnaire.
- PHIL 190. Selected Philosophers.** 3 Units
Prerequisite(s): 6 units in Philosophy or instructor permission.
Term Typically Offered: Fall, Spring
- An examination of the works of one or more important philosophers in different philosophical areas such as ethics, political philosophy, metaphysics, logic and epistemology.
Note: This course can be repeated for credit once if the second iteration focuses on a different philosopher than the first
- PHIL 192B. Topics in Bioethics.** 3 Units
Prerequisite(s): 6 units of Philosophy or instructor permission
Term Typically Offered: Fall, Spring
- Advanced in-depth study of an ethical dilemma faced by professionals and patients in the field of medicine, such as patient self-determination and informed consent, discrimination in health care, euthanasia, abortion, surrogate motherhood, genetic modification, or rights of health care.
- PHIL 192D. Space and Time.** 3 Units
Prerequisite(s): 6 units in philosophy or instructor permission.
Term Typically Offered: Fall, Spring
- Introduction to significant philosophical issues involving space and time. An investigation into the current state of these issues.
Note: No background or work in mathematics or physics is required.
 Cross-listed: HRS 205; only one may be counted for credit.
- PHIL 192E. Topics in Epistemology.** 3 Units
Prerequisite(s): 6 units in Philosophy or instructor permission.
Term Typically Offered: Fall, Spring
- Topics include: the nature of inquiry, knowledge, explanation, understanding, rationality, judgment, and decision.
Note: This course can be repeated for credit once if the second iteration focuses on a different specific topic within Epistemology.
- PHIL 192F. Topics in Ethics.** 3 Units
Prerequisite(s): 6 units in Philosophy or instructor permission.
Term Typically Offered: Fall, Spring
- Topics include: animal rights, abortion, euthanasia and assisted suicide, poverty, race, gender, same-sex marriage, war and humanitarian intervention, environmental ethics, ethics of science or technology, and other advanced topics in bioethics.
Note: This course can be repeated once for credit if the second iteration focuses on a different specific topic within Ethics
- PHIL 192L. Topics in Philosophy Language.** 3 Units
Prerequisite(s): 6 units in philosophy or instructor permission.
Term Typically Offered: Fall, Spring
- Advanced topics in the philosophy of language. Topics may include: sense and reference, meaning and force, intentions vs. conventions, conditions for sameness of sense, conditions for successful reference, propositional content, indexical and demonstrative reference, and the semantics of propositional attitude and perceptual reports, linguistic pragmatics.
- PHIL 192M. Topics in Philosophy of Mind.** 3 Units
Prerequisite(s): 6 units in philosophy or instructor permission.
 Topics in Philosophy of Mind. Topics may include: Artificial Intelligence; Qualia; functionalism; philosophy of neuroscience; property dualism; eliminative materialism; or specific theories of consciousness. Emphasis is on contemporary formulations.

PHIL 192O. Topics in Contemporary Metaphysics. 3 Units
Prerequisite(s): 6 units in Philosophy or instructor permission
Term Typically Offered: Fall, Spring

Contemporary topics in metaphysics. Topics may include: Ontology; realism and anti-realism; universals; individuals; substance; identity through time and change; kinds and degrees of necessity; physicalism; moral realism; realism regarding social entities. Emphasis is on contemporary formulations.

PHIL 192P. Topics in Social and Political Philosophy. 3 Units
Prerequisite(s): 6 units in Philosophy or instructor permission.
Term Typically Offered: Fall, Spring

Topics include: specific theories such as anarchism, libertarianism, and contractualism; feminist theories; critical race theory; philosophy of education; and other concepts such as authority, justice, rights, equality, and freedom.

Note: This course can be repeated for credit once if the second iteration focuses on a different specific topic within Social and Political Philosophy.

PHIL 192R. Topics in Philosophy of Religion. 3 Units
Prerequisite(s): 6 units of Philosophy or instructor permission
 Topics may include: The problem of evil, atheism, modal arguments for God's existence, design arguments for God's existence, reformed epistemology, recent work in natural theology, divine hiddenness, skeptical theism, or Molinism. Emphasis is on contemporary formulations.

PHIL 192S. Topics in Philosophy of Science. 3 Units
Prerequisite(s): 6 units of Philosophy or instructor permission.
Term Typically Offered: Fall, Spring

Topics include: Issues in the epistemology and ontology of science; special problems in the philosophy of mathematics, physics, chemistry, cognitive science, and biology; naturalistic and non naturalistic approaches to understanding scientific inquiry.

Note: This course can be repeated for credit once if the second iteration focuses on a different specific topic within the Philosophy of Science

PHIL 192T. Topics in Philosophy of Social Science. 3 Units
Prerequisite(s): 6 units in Philosophy or instructor permission.
Term Typically Offered: Fall, Spring

Topics include: the ontology of social kinds, social construction, individualism vs. structuralism, philosophy of economics, explanations of social injustice, critical theory, methodology of social sciences, and categorization and measurement in the social sciences.

Note: This course can be repeated for credit once if the second iteration focuses on a different specific topic within the Philosophy of Social Science.

PHIL 195. Philosophy Internship. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Supervised work experience in an approved office or organization where significant philosophical issues are raised. The student must write regular reports on these issues. Supervision is provided by the faculty instructor and a managing official in the work situation. Open to majors only.

Credit/No Credit

PHIL 196. Experimental Offerings in Philosophy. 3 Units
Term Typically Offered: Fall, Spring

Experimental offerings will be scheduled as needed.

PHIL 197. Honors Thesis. 1 Unit
Prerequisite(s): Admission into Philosophy Department Honors Concentration.
Term Typically Offered: Fall, Spring

Capstone seminar for Honors Program students in Philosophy major. Student will propose, research, write, and present an honors thesis; student will also provide comments and criticism of other honors theses.

PHIL 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Special projects calling for independent philosophical investigation under the supervision of an individual faculty member.

Note: Requires prior approval of the faculty member under whom work is to be conducted.

Credit/No Credit

PHIL 299. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Special projects calling for independent philosophical investigation under the supervision of an individual faculty member.

Note: Requires graduate status and prior approval of the faculty member under whom work is to be conducted.

Credit/No Credit

Photography (PHOT)

PHOT 11. Digital Imaging. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall only

Acquaints students with digital photographic equipment and techniques. Lecture and demonstrations will cover hardware (cameras, computers, scanners and printers) and software used to create digital images. Ethical and legal issue will be discussed. Portfolio of digital photographs created in the computer lab required.

PHOT 12. Digital Photography II. 3 Units
Prerequisite(s): PHOT 11. Fee course.
Term Typically Offered: Fall, Spring

An introduction to composited photographic images. Course provides a broad primer to digital editing and compositing techniques. Lectures and discussions provide artistic and ethical context for contemporary photographic practice.
 Fee course.

PHOT 15. Survey of Photography. 3 Units
Term Typically Offered: Fall, Spring

- PHOT 20. The Photographic Self. 3 Units**
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring
- Focuses on photography's influence on notions of self from its inception in 1938 to the present. Enhances students' understanding of how and why photography became the powerful and ubiquitous tool that shaped a new form of visual self-expression.
- PHOT 40. Basic Techniques of Photography. 3 Units**
Term Typically Offered: Spring only
- Introduction to basic camera and darkroom techniques. Concepts of visual organization, design and using light effectively are emphasized. Lecture two hours; laboratory three hours.
- PHOT 101. Photography, Inception to Mid-Century. 3 Units**
Term Typically Offered: Fall only
- Introduces students to the history of photography, from inception to Mid-20th Century. Practices of photographers and artists, working with photographic technologies, will be discussed. The course examines photographic vision and the impact of the medium through lectures and readings by art historians and photographers.
 Cross-listed: ART 101.
- PHOT 102. Photography, a Social History. 3 Units**
Term Typically Offered: Spring only
- Examines photographic vision and the impact of the medium on society through readings by both photographers and photographic critics. Establishes the importance of photography as a contemporary medium, explores the development of photographic vision and the relationship between photographs and cultural events. Lecture/discussion.
- PHOT 111. Intermediate Digital Imaging. 3 Units**
Prerequisite(s): PHOT 11 and PHOT 40; declared Photography majors only
Corequisite(s): PHOT 141 and PHOT 101
Term Typically Offered: Fall only
- Covers intermediate to advanced concepts and techniques in digital photographic imaging, providing students with the ability to explore both new and previously mastered software and hardware applications. Emphasis is on using digital techniques to create and print effective and imaginative color photographs. Lectures and demonstrations cover capture, manipulation, color management and pre-press techniques for a variety of output devices.
- PHOT 141. Intermediate Black and White Photography. 3 Units**
Prerequisite(s): PHOT 11 and PHOT 40; declared Photography majors only
Corequisite(s): PHOT 111 and PHOT 101
Term Typically Offered: Fall only
- This course focuses on the development of the photographer's vision through the Zone System, black and white materials and the 4X5 view camera. The Zone System is used to control negative exposure and contrast, enhance print pre-visualization and to create quality gelatin-silver prints. Though this class concentrates on advancing student's technical proficiency a significant portion of the class is dedicated to aesthetic concerns in photography.
- PHOT 148. Artificial Light, Studio. 3 Units**
Prerequisite(s): PHOT 111 and PHOT 141
Corequisite(s): PHOT 102 and PHOT 155
Term Typically Offered: Spring only
- A commercially oriented course with assignments covering such topics as food, fashion and products photographed with artificial light in the studio. Business, legal and ethical practices in commercial and editorial photography are discussed as they apply to work done in a studio setting. Students are expected to become visually and technically competent with artificial light sources used in a studio setting.
- PHOT 149. Artificial Light, Location. 3 Units**
Prerequisite(s): PHOT 148 and PHOT 155
Corequisite(s): PHOT 165
Term Typically Offered: Fall only
- A location lighting course covering the use of artificial light and non-studio photography. Assignments cover such topics as: interior and exterior architecture, food and fashion shot on location. Techniques for combining the use of hot lights, electronic flash and ambient light are discussed. Students will use a body of work demonstrating their visual and technical understanding of artificial light sources for editorial and commercial application.
- PHOT 155. Advanced Photography Techniques. 3 Units**
Prerequisite(s): PHOT 111 and PHOT 141
Corequisite(s): PHOT 102 and PHOT 148
Term Typically Offered: Spring only
- Explores advanced techniques in the production of photographic imagery, with special emphasis on the hybridization of photographic processes. Lectures cover advanced chemical and digital photographic procedures in camera use and printing techniques. Students must demonstrate a high level of visual awareness and technical competency, and must be willing to take risks in the creative application of photographic processes.
- PHOT 161. Photography in the Field. 3 Units**
Prerequisite(s): PHOT 141 or instructor permission.
Term Typically Offered: Fall, Spring
- The class visits specific sites followed by a group critique of the resulting photographic work. The course objective is to examine how one situation can be interpreted by many varied sensibilities, broadening the artist's visual vocabulary. Students are required to create visually unified portfolio that demonstrates a sense of place.
 Cross-listed: ART 161.
- PHOT 162. Alternative Photographic Processes. 3 Units**
Prerequisite(s): PHOT 141 or instructor permission.
Term Typically Offered: Fall, Spring
- Studio course exploring alternative photographic processes that may include: printing-out paper, new cyanotype, argyrotypes, and platinum-palladium. Slide discussions, individual and class critiques.
 Cross-listed: ART 162.

PHOT 163. Pinhole Photography.**3 Units****Prerequisite(s):** PHOT 40 or equivalent.**Term Typically Offered:** Fall, Spring

Intermediate course investigating the theory, history, and practice of pinhole photography. Use of student-made pinhole cameras of varying focal lengths using black and white and color materials. Emphasis on creative approach in both camera making and image formation, supported by intermediate-level photographic technique. Individual final portfolios and group exhibition of cameras and prints at conclusion of course.

Cross-listed: ART 163.

PHOT 165. Issues in Contemporary Photographic Practice.**5 Units****Prerequisite(s):** PHOT 148 and PHOT 155 Fee course.**Term Typically Offered:** Fall only

Covers advanced problems in the process of creating photographic work. Emphasis is on the ways which content/form relationships within a body of work are informed by the artist's conceptual and material engagement, as well as the way in which process and context shape meaning in photographic work. Course centers on readings in contemporary theory and aesthetics, discussion, the production of photographic work, and critique.

Note: Type III Fee, \$45

Fee course.

PHOT 175. Studio Topics in Photography.**3 Units****Prerequisite(s):** PHOT 149 and PHOT 165**Corequisite(s):** PHOT 180**Term Typically Offered:** Spring only

This class is a broad investigation of photography's potential. Each semester the class concentrates on a photographic strategy including but not limited to: documentary, journalism, fabrication, image and text, and the archive. Students are introduced to photography's varied application, new developments and conversations in the medium. Readings and discussions will enlist a range of theoretical and critical approaches. Course center on readings, discussion, production of photographic work and critique.

PHOT 180. Senior Portfolio.**5 Units****Prerequisite(s):** PHOT 165 Fee course**General Education Area/Graduation Requirement:** Arts (Area C1)**Term Typically Offered:** Spring only

A senior level course aimed at furthering student's knowledge of postgraduate opportunities. The required final portfolio of images will reflect the student's photographic education, experience and area of expertise. The content and format of this portfolio will depend on the student's future academic or professional goals.

Note: Type III Fee \$45.00**PHOT 195. Internship In Photography.****3 Units****Prerequisite(s):** A minimum of two upper division photography courses.**Term Typically Offered:** Fall, Spring

Directed observation and work experience with public agencies, organizations, publications, design or photography studios. Fieldwork is offered to give students experience, personal contacts and orientation in the area of professional photography. Supervision is provided by faculty and the cooperating community employer. Students are required to maintain a detailed record of activities and report regularly to the supervising faculty member. To receive credit the selected activity must be approved prior to adding the course. Ten hours weekly.

Credit/No Credit

PHOT 199. Special Problems.**1 - 3 Units****Term Typically Offered:** Fall, Spring

Individual projects or directed readings in photography. Open to students who are working at an advanced level of photography and competent to carry on individual work.

Credit/No Credit

PHOT 299. Special Problems.**1 - 3 Units****Prerequisite(s):** Requires instructor approval.**Term Typically Offered:** Fall, Spring

Individual projects or directed readings in photography for graduate level students. Open to students who are working at an advanced level of photography and competent to carry on individual work.

Credit/No Credit

Physical Science (PHSC)

PHSC 75. Introduction to Machine Shop Practices.**2 Units****Term Typically Offered:** Fall, Spring

Safe machine operation techniques on common fabrication equipment. Study of materials and methods used to build testing and measuring equipment. Reading and calibrating measuring devices, gauging and optical gauging. Study of measuring conventions and understanding of precision. Interpretation of drawings, tolerances and tactics for maintaining tolerances. Jigs and mounts for dynamic data collection equipment. Prototype manufacturing. Students completing this course qualify to perform work in the shop with minimum supervision. Lecture one hour; Laboratory three hours.

PHSC 107. History of the Physical Sciences.**3 Units****General Education Area/Graduation Requirement:** Upper Division Further Studies in Area B5**Term Typically Offered:** Fall, Spring

Study of the development of the major physical laws presently used in describing our physical world. Some considerations of the influences of these developments on other areas of knowledge and on society in general.

Cross Listed: HIST 107; only one may be counted for credit.

PHSC 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading.

Note: Open only to students who appear competent to assume individual work on the approval of the instructor. Up to 4 units may be taken for grade.

Credit/No Credit

Physics (PHYS)

PHYS 1. Physical Reasoning and Calculation. 2 Units
Term Typically Offered: Fall, Spring

Introduction to the analytical skills needed for the study of Physics. The focus is to prepare students to take PHYS 11A, however, PHYS 1 is also suitable as preparation for PHYS 5A. Emphasis is on reasoning and problem-solving, including conceptualization, visualization, and interpretation of written descriptions of physical situations, and on the connection of physical laws to the mathematical techniques used in their solution.

PHYS 2. Topics in Elementary Physics. 4 Units
Prerequisite(s): A recent one year course in high school algebra and one year of plane geometry or a college course in algebra (MATH 9).
General Education Area/Graduation Requirement: Physical Science (B1)
Term Typically Offered: Fall, Spring

One semester introductory physics course including a laboratory. Covers the fundamental concepts of physics with an emphasis on everyday life situations and applications. The range of material includes mechanics, waves, electricity and optics. One hour lecture, two hour discussion, and a three hour laboratory session.

PHYS 5A. General Physics: Mechanics, Heat, Sound. 4 Units
Prerequisite(s): Recently completed three years of high school algebra and geometry; and a college course in algebra and trigonometry (MATH 9 recommended) for those having an inadequate mathematics background.
General Education Area/Graduation Requirement: Laboratory (B3), Physical Science (B1)
Term Typically Offered: Fall, Spring, Summer

PHYS 5A-B sequence is a two-semester course in introductory physics in which fundamental concepts are emphasized including some physiological applications. Lecture two hours; discussion one hour; laboratory three hours.

PHYS 5B. General Physics: Light, Electricity and Magnetism, Modern Physics. 4 Units
Prerequisite(s): PHYS 5A or instructor permission.
Term Typically Offered: Fall, Spring, Summer

Lecture two hours; discussion one hour; laboratory three hours.

PHYS 10. Physics In Our World. 3 Units
General Education Area/Graduation Requirement: Physical Science (B1)
Term Typically Offered: Fall, Spring

Introductory course designed for non-science students completing general education requirements. Students will be introduced to basic concepts in Physics through the study of astronomy, atomic nature of matter, electromagnetic waves, energy, sound and earthquake waves, current electricity, magnetism, and nuclear processes. Development of reasoning and quantitative skills and applying them to scientific and technological topics of current importance will be emphasized.

PHYS 10L. Physics in Our World Laboratory. 1 Unit
Prerequisite(s): PHYS 10; may be taken concurrently.
Term Typically Offered: Fall, Spring

Laboratory course complements PHYS 10 and satisfies the general education science lab requirement. Emphasis is placed on the nature of scientific observation and measurement and their relationship to general physical concepts. Students will be given a concrete, hands-on sense of observing and interpreting data from a variety of experimental environments.

PHYS 11A. General Physics: Mechanics. 4 Units
Prerequisite(s): MATH 30, MATH 31; or equivalent certificated high school courses. MATH 31 may be taken concurrently.
General Education Area/Graduation Requirement: Physical Science (B1), Laboratory (B3)
Term Typically Offered: Fall, Spring, Summer

PHYS 11 A, B, and C is a three semester course in introductory physics requiring elementary calculus. This course satisfies the lower division physics requirement for a major in physics, chemistry, geology, or engineering. PHYS 11A covers the basics of classical mechanics, including kinematics, Newton's laws, conservation laws and rotational dynamics. Lecture two hours; discussion one hour; laboratory three hours.

PHYS 11B. General Physics: Heat, Light, Sound, Modern Physics. 4 Units
Prerequisite(s): PHYS 11C.
Term Typically Offered: Fall, Spring

PHYS 11 A, B, and C is a three semester course in introductory physics requiring elementary calculus. This course satisfies the lower division physics requirement for a major in physics, chemistry, geology, or engineering. PHYS 11B covers the basics of thermodynamics, light propagation, sound, and an introduction to modern physics. Lecture two hours; discussion one hour; laboratory three hours.

PHYS 11C. General Physics: Electricity and Magnetism. 4 Units
Prerequisite(s): MATH 31, PHYS 11A.
Term Typically Offered: Fall, Spring, Summer

PHYS 11 A, B, and C is a three semester course in introductory physics requiring elementary calculus. This course satisfies the lower division physics requirement for a major in physics, chemistry, geology, or engineering. PHYS 11C covers the basics of electricity and magnetism. Lecture two hours; discussion one hour; laboratory three hours.

PHYS 30. Science and Pseudoscience. 3 Units
General Education Area/Graduation Requirement: Critical Thinking (A3)
Term Typically Offered: Fall, Spring

Examination of the methodology of science. Comparison of legitimate investigations with others that do not meet high scientific standards, including both science poorly done and nonsense posing as science. Examples will be drawn primarily from the physical sciences. Analyzes will require study of basic skills of reasoning, types of logical argument, structure and validity of arguments, common reasoning fallacies, critical evaluation of evidence, and understanding of the scientific thinking process.

- PHYS 99. Special Problems.** **1 - 3 Units**
Term Typically Offered: Fall, Spring
- Individual projects or directed reading.
Note: Open only to students who appear competent to assume individual work on the approval of the instructor. For students with lower division status. Up to 4 units may be taken for grade.
- Credit/No Credit
- PHYS 105. Mathematical Methods in Physics.** **3 Units**
Prerequisite(s): MATH 32; PHYS 11A, PHYS 11B, PHYS 11C or PHYS 5A, PHYS 5B.
Term Typically Offered: Spring only
- Linear algebra and linear vector spaces, linear transformations and eigenvectors, differential and integral vector calculus, with applications to physical problems.
- PHYS 106. Introduction to Modern Physics.** **3 Units**
Prerequisite(s): MATH 31; PHYS 11A, PHYS 11B, PHYS 11C or PHYS 5A, PHYS 5B.
Term Typically Offered: Fall, Spring
- Basic concepts of special relativity and quantum theory of matter. Phenomenological study of atomic and molecular energy states and spectra. Elements of solid-state and nuclear physics.
- PHYS 107. Conceptual Physics and Scientific Inquiry.** **4 Units**
Prerequisite(s): BIO 7, CHEM 106, GEOL 8, MATH 17.
Corequisite(s): CHEM 106
Term Typically Offered: Fall, Spring
- Concepts include matter, waves and energy, force and motion, electricity and magnetism, and scientific inquiry. Emphasizes hands on cooperative learning engaging students in scientific inquiry by posing testable scientific questions, conducting experiments, and analyzing and presenting findings to their peers. Appropriate for Liberal Studies and Blended Multiple Subject Credential students. Weekly activity and discussion sessions.
- PHYS 110. Classical Mechanics.** **3 Units**
Prerequisite(s): MATH 45, PHYS 11C, PHYS 105.
Term Typically Offered: Spring only
- Fundamental principles of statics and dynamics, including Newton's equations and conservation laws, damped and forced oscillations, central force motion, accelerated coordinate systems, coupled oscillations, normal modes, Lagrangian and Hamiltonian methods, introduction to nonlinear systems and chaos theory.
- PHYS 115. Electronics and Instrumentation.** **4 Units**
Prerequisite(s): PHYS 11C or PHYS 5B with instructor permission.
Term Typically Offered: Fall only
- Linear and non-linear circuits, operational amplifiers, transducers, basics of digital circuitry, and an introduction to computerized data acquisition. Lecture two hours; laboratory six hours.
- PHYS 116. Advanced Electronics and Instrumentation.** **3 Units**
Prerequisite(s): PHYS 115.
Term Typically Offered: Spring only – even years
- Noise reduction techniques, signal recovery, frequency analysis, computerized instrument control, and instrument development. Lecture one hour; laboratory six hours.
- PHYS 124. Thermodynamics and Statistical Mechanics.** **3 Units**
Prerequisite(s): MATH 45, PHYS 11A, PHYS 11B, PHYS 11C.
Term Typically Offered: Spring only
- Basic concepts and laws of thermodynamics and thermal properties of matter; kinetic theory of gases; use of distribution functions and ensembles in statistical mechanics; connection of probability and entropy; quantum statistics; applications to various systems.
- PHYS 130. Acoustics.** **3 Units**
Prerequisite(s): MATH 45, PHYS 11A, PHYS 11B, PHYS 11C.
Term Typically Offered: Fall, Spring
- Theoretical and experimental study of sound sources, sound waves and sound measurement. Basic properties of waves in continuous media; spectral analysis of vibrations; use of acoustic impedance and circuit analogies; applications to environmental noise analysis, room acoustics, and loudspeaker and microphone design and use; experience with acoustic instrumentation. Lecture two hours; laboratory three hours.
- PHYS 135. Electricity And Magnetism.** **3 Units**
Prerequisite(s): MATH 45, PHYS 11C, PHYS 105.
Term Typically Offered: Fall, Spring
- Development of electromagnetic theory from basic experimental laws; electrostatics, electric currents, magnetostatics, electric and magnetic properties of matter, induction, Maxwell's equations, conservation laws, introduction to electromagnetic waves.
- PHYS 136. Electrodynamics of Waves, Radiation, and Materials.** **3 Units**
Prerequisite(s): PHYS 135.
Term Typically Offered: Fall only
- Electromagnetic waves, wave propagation in material media, reflection and refraction, polarization, cavities and waveguides, optical fibers, simple radiating systems, radiation from an accelerated charge and special relativity. Introduction to plasma physics and electromagnetic properties of superconductors.
- PHYS 142. Applied Solid State Physics.** **3 Units**
Prerequisite(s): MATH 45, PHYS 106.
Term Typically Offered: Fall, Spring
- Elementary treatment of crystal structure and lattice and electron dynamics. Physics of semiconductor junctions, diodes, transistors and MOSFETS, solar cells, lasers, electro-optic and acousto-optic devices. Introduction to basic physical properties such as electrical conduction of selected amorphous solids and their applications. Laboratory experience.
- PHYS 145. Optics.** **3 Units**
Prerequisite(s): MATH 45, PHYS 11A, PHYS 11B, PHYS 11C.
Term Typically Offered: Spring only – even years
- Theoretical and experimental treatment of wave optics; interference, diffraction, absorption, scattering, dispersion, polarization. Selected topics from contemporary optics: Fourier optics, coherence theory, lasers, holography. Lecture two hours; laboratory three hours.
- PHYS 150. Quantum Mechanics.** **3 Units**
Prerequisite(s): MATH 45, PHYS 106, PHYS 110.
Term Typically Offered: Fall, Spring
- Foundations of wave mechanics, including wave packets, superposition, and the uncertainty principle. The Schroedinger equation and its relation to operators and eigenstates. Symmetric systems and conserved quantities. Introduction to matrix mechanics, spin, scattering, and perturbation theory.

- PHYS 151. Advanced Modern Physics.** 3 Units
Prerequisite(s): PHYS 150.
Term Typically Offered: Fall, Spring
- Structure of matter including basic elements of atomics, molecular, solid state, nuclear and particle physics. Topics will also include photon and electron gases, lasers, superconductivity, Bose-Einstein condensation and superfluidity.
- PHYS 156. Classical and Statistical Mechanics.** 3 Units
Prerequisite(s): PHYS 110, PHYS 124.
Term Typically Offered: Fall only
- Review of classical mechanics, Lagrangian and Hamiltonian formulations, rigid body motion, small vibrations and normal modes, nonlinear dynamics and chaos. Review of the laws of thermodynamics, principles of classical statistical mechanics, ensemble formulations and applications, principles of quantum statistical mechanics, ideal quantum gases, applications to Fermi-Dirac and Bose-Einstein systems.
- PHYS 162. Scientific Computing: Basic Methods.** 3 Units
Prerequisite(s): MATH 26A or MATH 30 and PHYS 5A, or MATH 30 and PHYS 11A, or MATH 105A concurrently.
Term Typically Offered: Fall, Spring
- Basic methods and skills of applying computers to the solution of scientific problems. Numerical calculation methods, numbers and data, algebraic equations, rate processes, iterative techniques, approximation methods, statistical analysis and data fitting, relaxation methods, and use of software and other programming resources on the web. Practical experience emphasized throughout.
- PHYS 163. Scientific Computing: Modeling, Simulation, and Visualization.** 3 Units
Prerequisite(s): PHYS 162.
Term Typically Offered: Spring only
- Application of computer modeling, simulation, and visualization to the solution of scientific problems. Projects drawn from various scientific disciplines will be used to develop the necessary skills, including a capstone project. Examples include projectile motion with air drag, time development of a biological population, chemical reactions with several reactants, and random walk and Monte Carlo methods. Practical experience emphasized throughout.
- PHYS 175. Advanced Physics Laboratory.** 2 Units
Prerequisite(s): 12 units of upper division physics, including PHYS 106 and either PHYS 115 or PHYS 145 and a satisfaction of the Advanced Writing requirement.
Term Typically Offered: Fall, Spring
- Advanced experiments chosen from several of the major areas of physics, performed usually on an individual basis. Laboratory six hours.
- PHYS 181. Modern Physics for Everyone.** 3 Units
Prerequisite(s): Completion of GE Area B1 and B4.
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
- A conceptual course in the topics of modern physics including Quantum Mechanics, Special Relativity, and other contemporary topics for a general audience. This course meets General Education Area B5 (Further Studies in Physical Science, Life Forms, and Quantitative Reasoning) and satisfies the upper-division Area B requirement.
- PHYS 182. Physics of Sports.** 3 Units
Prerequisite(s): Completion of GE Area B1 and B4.
General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5
Term Typically Offered: Fall, Spring
- A conceptual course in the application of the laws of physics in the context of sport. Focusing mainly on classical physics, we will cover topics such as force, energy, momentum, collisions, pressure, and fluids to explain what we see on the court, field, pool, and road. This course meets General Education Area B5 (Further Studies in Physical Science, Life Forms, and Quantitative Reasoning) and satisfies the upper-division Area 8 requirement.
- PHYS 186. Musical Acoustics: Science and Sound.** 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring
- Physical principles of vibration and wave motion, with illustrations involving musical instruments and concert hall acoustics; principles of electronic synthesis, recording, and reproduction of sound; operation of the human ear and brain in receiving and analyzing sound; relation of the harmonic series to sound quality, harmony and scales; proper roles for science in explaining music as an artistic activity.
Note: No technical background required; course cannot be used to meet Physics BS program requirements. It is recommended that student have already completed their B1 and B4 requirement prior to enrollment. Some experience with music is also helpful.
- PHYS 187. Seeing the Light.** 3 Units
Prerequisite(s): Completion of GE Area B1 and B4.
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall only
- An extensive study of light, mostly in the context of applications. Topics include basics of light and natural phenomena, optics, color, light and energy (solar power), and holography; as well as more advanced topics such as wave/particle model of light, diffraction and polarization. The course will also cover optical instrumentation such as cameras, microscopes, telescopes, displays, and photoreceptors.
- PHYS 190. Physics Seminar.** 1 - 2 Units
Term Typically Offered: Fall, Spring
- Special lecture series on announced topics by local and visiting speakers, emphasizing current research developments, with related reading assignments.
Note: May be taken for credit in sequential semesters for a maximum of two units total.
- Credit/No Credit
- PHYS 191. Senior Project.** 1 - 2 Units
Prerequisite(s): Department chair permission.
Term Typically Offered: Fall, Spring
- Research Project under faculty supervision. Project may consist of laboratory or theoretical research project, instrumentation/demonstration development, or literature research project. Projects require written and oral reports.
Note: May be taken for credit in sequential semesters for a maximum of four units total. Grade assigned upon completion of the project.

PHYS 194. Physics Related Work Experience. 6 - 12 Units**Prerequisite(s):** Upper-division status and Department Chair permission.**Term Typically Offered:** Fall, Spring

Supervised employment in a physics or astronomy related company or agency. Placement is arranged through the department and the Cooperative Education Program office. Requires completion of a three-to-six month work assignment and a written report.

Note: PHYS 194 may not be used to meet major requirements in Physics; May be taken for credit in sequential semesters

Credit/No Credit

PHYS 195. Teaching Internship. 1 - 2 Units**Prerequisite(s):** Completion of all math and physics lower division courses for the B.A. in Physics. Approval from the Teacher Preparation Concentration Coordinator.**Term Typically Offered:** Fall, Spring

Supervised teaching internship for high school physics class, or for one of the following courses: PHYS 2, 5A-B, 10, 11A-C, 107, or ASTR4. The students will meet weekly with the faculty teaching this class, and with their supervisor or mentor to help prepare and teach the class.

Note: May be taken for credit in sequential semesters for a maximum of six units total.

PHYS 197. Laboratory Teaching Assistant. 1 - 2 Units**Prerequisite(s):** Completion of all physics and math lower division courses required for the B.A. in Physics. Completion of the same course in which the student will take this class with a grade higher than B and/or consent from the Teacher Preparation Concentration program coordinator.**Term Typically Offered:** Fall only

Student will be a supervised laboratory teaching assistant for one of the following courses: PHYS 2, 5A-B, 10, 11A-C, 107, or ASTR 6. The student will meet weekly with the faculty teaching this class, and with their supervisor or mentor to help prepare and teach the laboratory.

Note: May be taken for credit in sequential semesters for a maximum of six units total.

PHYS 198. Co-Curricular Activities. 1 - 3 Units**Term Typically Offered:** Spring only

Students may provide special tutoring to students taking physics courses, participate in community oriented projects, assist in activity sessions for teacher training courses, or engage in activities related to the subject matter and concerns of the Physics and Astronomy Department. Up to 4 units may be taken.

Credit/No Credit

PHYS 199. Special Problems. 1 - 3 Units**Term Typically Offered:** Fall, Spring

Individual projects or directed reading. Open only to students who appear competent to assume individual work on the approval of the instructor. Up to 4 units may be taken for grade.

Credit/No Credit

Political Science (POLS)

POLS 1. Essentials Of Government. 3 Units**General Education Area/Graduation Requirement:** GE AREA D, U.S.

Constitution + California State & Local Govt

Term Typically Offered: Fall, Spring, Summer

Examines the U.S. Constitution, the U.S. system of governments and the ideas and values on which they are based. Fulfills state code requirements for U.S. Constitution and California State and Local Government. Students who believe they have a good fundamental knowledge of the institutions of American Government are encouraged to consider a designated upper division course to fulfill the state requirement.

POLS 1H. Honors Government. 3 Units**General Education Area/Graduation Requirement:** U.S. Constitution +

California State & Local Govt, GE AREA D

Term Typically Offered: Fall, Spring

Explores some of the most influential works of politics and political writing in American history, and challenges contemporary analysis of political institutions and processes. Examines the structure of the Constitution, issues of federalism, the growth of civil rights, and the processes of government, with a comparative element. Explores the unique characteristics of California state politics.

POLS 10. The Meaning of Government: An Introduction to Political Ideas. 3 Units**General Education Area/Graduation Requirement:** Humanities (Area C2)**Term Typically Offered:** Fall only

Examination of the ideas of various authors about governing and being governed. Topics include: the scope and limits of freedom, the causes and characteristics of the state, the content of politics, the nature of authority, the problems of power and the duty to obey.

POLS 35. World Politics. 3 Units**General Education Area/Graduation Requirement:** GE AREA D**Term Typically Offered:** Fall, Spring

Basic introduction to global politics focusing on a broad range of issues and problems relating to conflict and cooperation among nations, and on similarities and differences among nations' governmental institutions, structures and processes.

POLS 96. California Constitution & Government. 1 Unit**Prerequisite(s):** Instructor approval required.

Examines the California state constitution, the structure and role played by both the state government and local governments in California.

Students who pass the course will petition the Dean of Undergraduate Studies for credit in meeting the California Government portion of the American Institution requirement.

Note: Experimental course.

Credit/No Credit

POLS 100. Introduction to Research Methods in Political Science. 3 Units**Term Typically Offered:** Fall, Spring

Examines the foundations of scientific research methodology in political and social science. Designed to introduce students to the basic conceptual, observational and analytical methods of empirical research in political science and related social sciences.

<p>POLS 110. Political Thought I. 3 Units Term Typically Offered: Fall, Spring</p>	<p>POLS 119B. Greek Political Thought. 3 Units Term Typically Offered: Fall only</p>
<p>History of political theory, covering some important thinkers and topics during the Ancient, Medieval and Early Modern periods.</p>	<p>Study of the political thought of Greece from Homer to Demosthenes, including Plato, Thucydides, Sophocles, and other Greek thinkers. Topics include the birth of democracy, the sciences and philosophy, Athens' rise to prominence, its defense of freedom against Persia, and its own development of an empire. Examination of Greek thoughts about justice, authority, freedom, equality, and culture. The events that shaped ideas and ideas that shaped events, as well as our understanding of the modern world, will be covered.</p>
<p>POLS 111. Political Thought II. 3 Units Term Typically Offered: Fall, Spring</p>	<p>POLS 119D. Shaping of the Modern World. 3 Units Term Typically Offered: Spring only</p>
<p>History of political theory, covering some important thinkers and topics from the Early Modern period to the early 20th century.</p>	<p>This course examines major problems that have shaped the modern world, the historical and intellectual roots of the modern world, and debates over the meaning of modernity. Considers how both advocates and critics of modernity have understood the relation of history, philosophy, politics, nature, religion, economics, and other key concepts. Specific topics may include: the development of modern science, technological progress, democratic institutions, capitalism, colonialism, secularization, religious tolerance, and individual freedom.</p>
<p>POLS 112. Current Political Thought. 3 Units Term Typically Offered: Fall, Spring</p>	<p>POLS 120A. Constitutional Law. 3 Units Prerequisite(s): GOVT 1 or GOVT 150 Term Typically Offered: Fall, Spring</p>
<p>Current issues in political thought, with emphasis upon developments in the political philosophies of democracy, fascism, communism, conservatism, liberalism. Ideas are analyzed with reference to assumptions on which they are based and their relevance for political institutions and problems.</p>	<p>Basic junior level course in Public Law. A study of leading decisions of the U.S. Supreme Court and other materials pertaining to the power of Congress, the President and the Judiciary; relations between states and nation; and civil rights. Considers such topics as the separation of powers, judicial review, Congress, and the President.</p>
<p>POLS 113. American Political Thought. 3 Units General Education Area/Graduation Requirement: GE AREA D, U.S. Constitution + California State & Local Govt Term Typically Offered: Fall, Spring</p>	<p>POLS 120B. Constitutional Rights and Liberties. 3 Units Prerequisite(s): GOVT 1 or GOVT 150 Term Typically Offered: Fall, Spring</p>
<p>Assessment of ideas that are central to the development of an American political tradition, as those ideas influence government at the federal, state and local levels. Meets the state requirements in U.S. Constitution and California State and Local Government.</p>	<p>Basic junior level course in Public Law. A study of rights and immunities under the U.S. Constitution: examines leading decisions of the U.S. Supreme Court and other materials pertaining to freedom of expression, freedom of association, equality and due process of law.</p>
<p>POLS 115. Democratic Theory. 3 Units Term Typically Offered: Spring only</p>	<p>POLS 121. American Legal History. 3 Units Term Typically Offered: Fall only</p>
<p>Introduction to basic questions of democracy. Draws on classical and contemporary writings to explore what democracy means and various forms of democratic government, politics, and culture: direct, representative, liberal, republican, pluralist, elitist. Specific topics may include: definitions of democracy, justifications for democracy, arguments for increasing or limiting democratic participation, tasks of political representatives, democratization of social institutions, and the relationship between globalization and democracy.</p>	<p>Examines the interaction of law, society, and politics in America from the colonial period to the present with special emphasis on law as an arena of social and cultural conflict. Major topics include the development of the common law in early America; the law of slavery and its impact on constitutional development; the role of the law in defining controversies over race and gender; legal thought and education; and the role of the Supreme Court in 20th Century America. Cross Listed: HIST 180; only one may be counted for credit.</p>
<p>POLS 117. Black Political Thought. 3 Units Term Typically Offered: Spring only</p>	<p>POLS 122. The Law and Bureaucracy. 3 Units Prerequisite(s): GOVT 1 or GOVT 150 Term Typically Offered: Not offered</p>
<p>Systematically and analytically introduces the predominant political trends and concepts presently entertained and harbored in the Black Community. A necessary adjunct to this dialogue is the racist theme in American society since on balance this is the matrix out of which the political alternatives and concepts grew. Cross Listed: ETHN 117; only one may be counted for credit.</p>	<p>Examines constitutional and statutory limits of bureaucratic power in the American political system.</p>
<p>POLS 118. Just War, Natural Right, and the Law of Nations. 3 Units Term Typically Offered: Fall only</p>	<p>POLS 119A. Socialism Marxism-Communism. 3 Units Term Typically Offered: Fall only</p>
<p>Examines fundamental conceptual questions about morality, law, and international relations through great works of political theory. Topics will cover natural right, sovereignty, just war, imperialism, national security, and international obligations. Authors read will include Thucydides, Aristotle, Aquinas, Machiavelli, Grotius, Montesquieu, Kant, Hegel, Marx, Mill and Nietzsche.</p>	<p>Analyzes the basic writings and ideas of Socialist and Marxist writers and the implications of their ideas.</p>

- POLS 123. Elements Of Law.** 3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Fall only
- Current legal thought in the U.S. with special emphasis on the relationship of law to history, economics, anthropology, and government; the nature of law; the role of legislators, lawyers, and judges in making the legal system.
- POLS 126. Politics and Lawyers.** 3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Fall, Spring
- Examines and analyzes the pervasiveness of lawyers and their activities in political realities; what do lawyers do; politics of prosecution and defense; politics within the profession; professional mobility; politics of the judiciary; lawyers in government.
- POLS 127. Elements of International Law.** 3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Spring only
- While tracing the evolution of historical antecedents, centers upon modern literature in the field. The scope is broad and the problems vary, but among the areas to be studied are: 1) Is international law really law?; 2) historical foundations; 3) international legal institutions and structures; 4) supra-legal international orders, structures, and institutions and their meaning to international law; 5) world order and world law; and 6) an international "Bill of Rights.
- POLS 128. Environment and the Law.** 3 Units
Term Typically Offered: Spring only
- Introduction to environmental law, including: the evolution of environmental legislation, environmental issues in the court system, environmental regulation and administrative law and environmental torts. Emphasis is on understanding legal process and the special challenges environmental problems present to the legal system.
 Cross Listed: ENVS 128; only one may be counted for credit.
- POLS 130. International Politics.** 3 Units
Term Typically Offered: Fall, Spring
- Basic junior-level course in International Relations. Current international tensions; the motivating forces influencing world politics; and the role of diplomacy and international organizations in resolving conflicts.
- POLS 131. International Organization.** 3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Spring only
- Examines human efforts to create supranational organizations to promote world peace and prosperity. The focus will be on social, political, and economic activities and problems which have developed and proliferated since the end of the second World War.
- POLS 132. War and Peace in the Nuclear Age.** 3 Units
Term Typically Offered: Not offered
- Covers the discovery of atomic fission, the development of the atomic bomb and the evolution of U.S. nuclear weapons and strategy from 1945 to the present. It examines political, strategic, bureaucratic, economic and cultural forces that have shaped U.S. nuclear policy since Hiroshima. The problem of international security in the Nuclear Age is also addressed.
- POLS 133. American Defense and National Security.** 3 Units
Term Typically Offered: Spring only
- Analyzes U.S. security policy, looking at the structure and ideologies of the security system, the requirements of national defense, and the roles played by conventional and nuclear weapons in protecting and promoting American security.
- POLS 134. War, Peace and the Mass Media.** 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring, Summer
- Concerned with the relationship of mass media to war and the possibilities for peace, with emphasis on recent concepts of political communication.
 Cross Listed: JOUR 134; only one may be counted for credit.
- POLS 135. American Foreign Policy.** 3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Fall only
- Institutions, practices and development of American foreign policy; the interaction of domestic and foreign factors on the formulating of American foreign policy since World War II.
- POLS 136. International Political Economy.** 3 Units
Term Typically Offered: Fall, Spring
- Analyzes the interaction between politics and economics at the international level. Covers basic theoretical approaches; historical evolution of international economy; creation and role of international financial institutions; development issues; globalization and integration.
- POLS 137. Nationalism.** 3 Units
Prerequisite(s): GOVT 35 or GOVT 130 or instructor permission.
Term Typically Offered: Fall, Spring
- Focuses on major theories of nationalism. Examines the literature dealing with theories explaining the emergence of nationalism and its political consequences; develops a comprehensive set of empirical indicators of nationalism, together with several working hypotheses regarding political manifestations of nationalism; provides the analytic frame for understanding nationalism; and applies theories to explain political behaviors of nations.
- POLS 138. UN Simulation.** 3 Units
Prerequisite(s): Junior status or above, a minimum 3.0 GPA in the major, GOVT 130 and/or GOVT 140, or instructor permission.
Term Typically Offered: Fall, Spring
- Seminar experience for upper level Government and International Relations concentration majors. Students will prepare for and participate in a national intercollegiate model UN conference.
Note: Course repeatable with instructor permission.

- POLS 139A. Globalization. 3 Units**
Prerequisite(s): An upper division course in the field and/or instructor permission.
Term Typically Offered: Fall only – odd years
- Explores the nature of, and issues in, globalization. It does so in five parts. Part I examines alternative conceptions of globalization. Part II identifies and examines the primary forms of economic globalization. Part III considers globalization's effects on the territorial state, the welfare state, organized violence, culture, immigration, gender, and the environment. Part IV investigates the politics of the anti-globalization backlash. Part V concludes with an assessment of the shape and future of contemporary globalization.
- POLS 139B. International Politics and International Development. 3 Units**
Prerequisite(s): GOVT 130 or Instructor Permission
Term Typically Offered: Fall only – even years
- This course examines the origins and evolution of the theory and practice of international development; considers the meaning of international development; examines theoretical models and approaches to understanding the conditions, effects, and processes of international development. It explores the history and current state of theories and approaches to international development and addresses contemporary and essential issues in the field.
- POLS 139G. Intelligence and Espionage. 3 Units**
Term Typically Offered: Fall only
- Involves students in the study of the field of intelligence, as it relates to national security, foreign policy, law and ethics. Comparative analysis of the practice and experience of the U.S., the former Soviet Union and other nations will be emphasized.
- POLS 139S. Topics in Human Security. 3 Units**
Term Typically Offered: Spring only
- This course introduces students to the broad field of the study of human security and many essential current topics in that field, such as access to food and water, security against personal violence, and economic security. Students will examine how international forces and structural elements of society can endanger or ensure the security of groups and individuals within the borders of nation-states. Students will learn to research, analyze, and address the connections between international forces and their affects upon human beings around the world.
- POLS 140. Comparative Politics. 3 Units**
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Fall, Spring
- Survey of the field of comparative government and politics including a review of historic uses of comparison in political science research but with emphasis on the methods of study and analytical means of research currently employed. The subject matter of study: national political systems of all types and the component parts of political systems will be an integral feature.
- POLS 141. Politics of the African Diaspora. 3 Units**
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall only
- Examines the social, political, cultural, and economic factors which have been important to the African diaspora. Examines how African people have responded to those factors, both in terms of formal, political thought, and in terms of political movements and political institutions. Examines thought and practice, comparability to Africa, U.S., Caribbean, Central and South America.
 Cross Listed: ETHN 141; only one may be counted for credit.
- POLS 142. Government and Politics in Africa. 3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only – even years
- Deals with the politics and governments of Africa. The most important themes concern precolonial African systems, colonialism, nationalism and nation-building. Previous exposure to African Studies is desired but not required.
- POLS 143. Causes of War, Causes of Peace. 3 Units**
Prerequisite(s): GOVT 1 or GOVT 150
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall only
- Explores the entire conflict process associated with war from a variety of theoretical and methodological angles, including rationalist and behavioral models. Examines the concept of war and why wars begin. Looks at how violent international conflict is resolved. Investigates the role of the international community in the management of violent conflict, how peace processes are implemented, what leads to successful negotiations, and how war crimes and post-conflict reconciliation issues are resolved.
- POLS 144. European Politics. 3 Units**
Prerequisite(s): GOVT 1 or GOVT 150
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall only
- Study of national and regional politics, governmental institutions and public problems in Europe since 1945. In different semesters there may be investigation of several, but varying, national systems, of cross-national political behavior, or of regional integration processes. May be taken more than once if there are different topics and instructor permission.
- POLS 145. Asian Politics. 3 Units**
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Fall only
- Survey of governmental institutions and political processes in East and Southeast Asia. Focuses on the region's politics, dynamic economic growth, complex security context, resurgence of nationalism, and attempts to build multilateral institutions.
- POLS 147. Latin American Government and Politics. 3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only
- Two-part examination of government, politics, political change and political groups in Latin America. Part one examines the development of government, politics, political change and political groups. Part two presents national case studies.

- POLS 148. Governments and Politics in the Middle East.** 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only
- Survey of the governmental institutions and the political processes in the region, with emphasis on the problems of social change. Focuses on the colonial situation, the growth of nationalism, the revolution of rising expectations, Islamic political theory and its contemporary manifestations, the role of the military, and the current regional conflicts.
- POLS 149A. Original Research in Comparative Politics.** 3 Units
Prerequisite(s): An upper division course in the field and/or instructor permission.
Term Typically Offered: Fall only
- Students will engage in a cross-national research agenda. Students will conduct original research in comparative politics, which requires an appreciation for distinct learning cultures in different countries. Countries acceptable for comparison will vary with instructor.
- POLS 149R. Comparative Revolutions.** 3 Units
Term Typically Offered: Fall, Spring
- This course is primarily concerned with the causes, trajectories, and consequences of major revolutions and revolutionary movements of the 20th and 21st centuries. The course addresses the questions: what defines a revolution? What are the causes of revolutionary social change? Why do some revolutions fail to achieve their intended objectives and others succeed? How can political scientists investigate the possibility of objectively assessing revolutionary success or failure?
- POLS 150. American Governments.** 3 Units
General Education Area/Graduation Requirement: U.S. Constitution + California State & Local Govt, GE AREA D
Term Typically Offered: Fall, Spring, Summer
- Federal system of government; the U.S. Constitution; legislative, executive, and judicial processes; political parties, interest groups, and the relationships and obligations of citizens to their government(s). Fulfills the California state graduation and credential requirements for U.S. Constitution and California State and Local Government. May be substituted for GOVT 1, but may not be used as an elective toward the major.
- POLS 151. Bureaucracy.** 3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Not offered
- Evaluation of the role and background of a professionalized bureaucracy with references to American national, state and local administrative systems as well as non-American administrative systems.
- POLS 152. Political Psychology.** 3 Units
Term Typically Offered: Fall, Spring
- Examines the ways in which political behavior is shaped by individual beliefs, personalities, cognitive patterns, biases, and other psychological mechanisms. Students will engage with a wide range of research on topics such as cognitive styles, personality, obedience, psychological roots of terrorism, the psychology of ideology, and the role of emotion in politics.
 Cross Listed: PSYC 153
- POLS 153. The American Presidency.** 3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Spring only
- Examines the development of the Presidency as an institution; sources and uses of presidential power in contemporary politics; the President's relationship with Congress and the bureaucracy; and current issues relating to the office.
- POLS 154. Political Parties in America.** 3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Fall, Spring
- Examination and analysis of American political parties. An exploration of the nature and functions of political parties including party organization, electorate, and government. Topics include the various historical party systems, the two-party system, elections, and campaign financing. Includes discussion of the presidential nominating process.
- POLS 155. The Legislative Process.** 3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Spring only
- Examination and analysis of the institutions, the people and the behavior that make up the legislative process. Considers the nature of representation and the role and impact of such factors as committee structure, political parties, interest groups, and others on public policy. Focus is on both the U.S. Congress and the California State Legislature.
- POLS 156. Interest Groups.** 3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Fall only – odd years
- Examination and analysis of interest groups in American political systems. The nature, role, formation, organization and activities of interest groups; how interest groups influence the public, political campaigns, public policy-making, and policy implementation. Representative interest groups will be studied.
- POLS 157. Politics, Opinion, and Participation.** 3 Units
Term Typically Offered: Fall only
- How we learn and change our political beliefs, including the influence of media, religion and social standing. The various forms of political participation; who participates and who doesn't and why. The meaning and conduct of elections in the modern era.
- POLS 158. Mass Media and American Politics.** 3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Fall only
- Focuses on the role the mass media plays in the political life of our democracy. Five primary topics are covered: the proper media role in a democracy; the relationship between the media, public opinion and agenda setting; the effects of media coverage on campaigns, elections, and voting; how elected officials influence and "spin" coverage; and the impact of media on policy-making. Students will develop critical analysis skills and emerge as more savvy media consumers and citizens.
- POLS 159A. Campaigns and Elections.** 3 Units
Term Typically Offered: Fall only – even years
- Exploration of American campaigns and elections. Topics include the electoral process, voting behavior, the role of political parties, the media, interest groups, and candidate and campaign strategies. Focus will be on contemporary/current campaigns and elections.

POLS 159B. American Politics Seminar: Problems in Democratic Institutions. 3 Units

Term Typically Offered: Not offered

Examines the concept of representation and how it functions in the U.S. Congress and in state legislatures. In the first section different meanings of representation are discussed. In the second section interactions between legislators and their constituents are explored. Finally, the tradeoffs to different designs of representative institutions are studied.

POLS 159D. Politics, Immigration, and Citizenship. 3 Units

Prerequisite(s): GOVT 1

Term Typically Offered: Fall, Spring

This course will provide an overview of the political discussions and decisions related to immigration and citizenship in the US. More specifically, this course examines: (1) key political and policy actors in the development of immigrant admissions and immigrant integration policies, (2) the nature and consequences of immigration at the national, state, and local levels, (3) evolving racial and ethnic relations in the US, (4) public opinion and immigration-immigrants participation in American political life, and (5) contemporary issues.

POLS 162. American Film and Culture in the Nuclear Age. 3 Units

Term Typically Offered: Fall only

Explores the impact of the revolutionary change represented by the atomic bomb on forms of cultural response and expression in America. Attempts to analyze the bomb-culture relationship by reviewing important films, television programs, novels, essays, music and poetry that revealed, and helped shape, the hopes and anxieties that have characterized life in the nuclear age.

POLS 163. Introduction to Black Politics in the U.S.. 3 Units

Prerequisite(s): GOVT 1 or GOVT 150

General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D

Term Typically Offered: Fall, Spring, Summer

Examines historically and currently the political life of black people in the U.S. Emphasis on understanding underlying conditions.

POLS 164. History of American Capitalism. 3 Units

Term Typically Offered: Spring only

Traces the development of the relationship between business and government in the U.S., especially in relation to state and federal regulations of those industries. Examines how individual entrepreneurs and regulators have contributed to the development of the modern American political economy.

Cross Listed: HIST 164; only one may be counted for credit.

POLS 165. Politics of the Underrepresented. 3 Units

Prerequisite(s): GOVT 1 or GOVT 150; and GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE), Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring, Summer

Examines the phenomenon of political underrepresentation in the U.S.A. It will identify significant affected groupings, examine the conditions which have resulted in such underrepresentation, evaluate the effects of underrepresentation on the lives of affected groups, and consider relevant political strategies. Emphasis on particular groups may vary with instructor.

POLS 166. Gender and Politics. 3 Units

Term Typically Offered: Spring only

This course examines the influence of socially constructed meanings of femininity and masculinity on the political participation of women, candidate selection, election campaigns, and electoral outcomes in executive and legislative offices in the U.S. and worldwide. Students will develop a rich understanding of the relationship between gender and women's political representation and analyze and discuss institutional, structural, cultural, and historical conditions associated with women's voting behavior, political advancement, leadership styles, and impacts of political representation on women.

Cross Listed: WOMS 166; only one may be counted for credit.

POLS 167. American Political Development. 3 Units

Term Typically Offered: Fall only

Focuses on key transformative sequences in American political history and their consequences. Topics include the nature of American political culture and its role in shaping U.S. political institutions and public policy; the process of government growth or "state building"; the role of political institutions in channeling societal demands and influencing public policy; the nature of American party systems or "regimes" and the electoral "realignments" that link them; and connections between long-term economic and political cycles.

POLS 168. Gay and Lesbian Politics. 3 Units

Prerequisite(s): GOVT 1 or GOVT 150

Term Typically Offered: Spring only

Provides a broad overview of the politics of gay rights in the United States. Particular emphasis is placed on gay rights at the state level (where the vast majority of policy is made) and major legal strategies and court rulings affecting the gay rights movement, since judiciaries have been the main venue for advancing gay rights arguments.

POLS 169A. Science, Technology, and Politics. 3 Units

General Education Area/Graduation Requirement: GE AREA D

Term Typically Offered: Fall only

Social and political dimensions of science and technology. Examines how science and technology both shape politics and are shaped by politics. Considers the role of scientific advisors in government and society; dilemmas of expert authority and bias; relations between experts and non-experts; science and technology in popular culture; science and technology policy; implications of emerging technologies such as genetic engineering and the Internet for civil rights, moral values, and democracy.

- POLS 169D. Latino/a Politics.** **3 Units**
Prerequisite(s): GOVT 1
Term Typically Offered: Fall, Spring
- Systematically and analytically examines the predominant political trends, concepts, and policies presently impacting Latino/a communities. Includes such topics as an examination of Latino/a identity, immigration and citizenship, political organization and participation, and relationships with other minority groups in the United States.
- POLS 170. Public Policy Development.** **3 Units**
Prerequisite(s): GOVT 1 or GOVT 150 and GVAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring
- Examines the policy development process in the U.S. by exploring the ideological predispositions of the American public, the analytical approaches applied to policy development and assessment, and the institutional and political environment in which policy is made. Typically, the understanding derived from this examination is applied to several policy issues of current interest.
- POLS 171. Environmental Politics and Policy.** **3 Units**
Term Typically Offered: Spring only
- Politics of human interaction with land, air and water. Political analysis of agenda setting, policy formation and administration (national, state, and local) of environmental programs. Focus on contemporary issues such as energy alternatives, management of toxics, land development, and pollution control.
 Cross Listed: ENVS 171; only one may be counted for credit.
- POLS 180. California State and Local Government.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D, California State & Local Government
Term Typically Offered: Fall, Spring, Summer
- California state, city and county politics and government. Comparisons with governments in other states. Meets State requirements in California State and Local Governments. Permits students who have fulfilled U.S. Constitution requirement in another state to meet graduation requirements for California State and Local Governments.
- POLS 181. Comparative State Government.** **3 Units**
Prerequisite(s): GOVT 1 or GOVT 150.
Term Typically Offered: Spring only
- Examines the political diversity of the fifty states, with special attention paid to variations in state governing institutions. Topics covered include legislatures, governors, judiciaries, political parties, interest groups, elections, direct democracy, and state budget procedures.
- POLS 182A. Sem Calif Govt+Politics.** **3 Units**
Term Typically Offered: Spring only
- Open to selected students from each of the 20 CSU campuses, the Sacramento Semester program provides students with an opportunity to spend the semester studying and working directly in California State government. Participating students work as interns at the State Capitol for 25 or more hours each week. Interns are placed in legislators' offices, with legislative committees, party caucuses, lobbyists and interest groups, or in various executive, administrative, and judicial agencies. In addition to the internships, students participate in an academic seminar, California Government and Politics. The seminars frequently include as resource persons individuals who work in key policy-making positions in the state government.
- POLS 182B. Sem Calif Govt+Politics.** **3 Units**
Term Typically Offered: Spring only
- Open to selected students from each of the 20 CSU campuses, the Sacramento Semester program provides students with an opportunity to spend the semester studying and working directly in California State government. Participating students work as interns at the State Capitol for 25 or more hours each week. Interns are placed in legislators' offices, with legislative committees, party caucuses, lobbyists and interest groups, or in various executive, administrative, and judicial agencies. In addition to the internships, students participate in an academic seminar, California Government and Politics. The seminars frequently include as resource persons individuals who work in key policy-making positions in the state government.
- POLS 184. Introduction to Urban Politics.** **3 Units**
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Fall only
- Problems of urban areas and proposed solutions; politics and government. May be offered as lecture-discussion class or as a seminar. Field study may be required.
- POLS 195A. Internship.** **1 - 6 Units**
Prerequisite(s): GVAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W. Minimum GPA of 2.5 (both in the major and overall).
Term Typically Offered: Fall, Spring, Summer
- Credit/No Credit
- POLS 195B. Internship Sacramento Semester.** **1 - 6 Units**
Prerequisite(s): Minimum GPA of 2.5 (both in the major and overall).
Term Typically Offered: Spring only
- Credit/No Credit
- POLS 195D. Internship - Washington DC.** **6 Units**
Prerequisite(s): GVAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.
Term Typically Offered: Fall, Spring
- Credit/No Credit
- POLS 198A. Odyssey Peer Advisers.** **1 - 3 Units**
Prerequisite(s): Instructor permission
Term Typically Offered: Fall, Spring
- Provides individualized learning opportunities (1-3 units per semester) for engaging in peer advising along with elective activities such as tutoring, assisting faculty with research, event planning and other activities of a comparable nature. Students should be upper division students or graduate students. The units may not be applied towards unit requirement of the Government major, Government IR and Government/Journalism.
Note: This course may be repeated up to a total of six units.
- Credit/No Credit

POLS 198B. Peer Advising by Odyssey.**1 Unit****Prerequisite(s):** Instructor permission**Term Typically Offered:** Fall, Spring

Provides opportunity for lower division students, students on probation, and newly declared majors to be mentored by more advanced upper division students or graduate students. This peer advising will help students meet academic deadlines, achieve academic success, become engaged in campus activities and integrated into the Government Department. Units may not be applied towards unit requirement of the Government major, Government IR and Government/Journalism

Note: This course may be repeated one time only for unit credit.

Credit/No Credit

POLS 199. Independent Studies.**1 - 3 Units****Prerequisite(s):** GOVT 1 or equivalent, and nine units upper division government courses.**Term Typically Offered:** Fall, Spring

Permits a student to pursue study and research in an area not otherwise available through the regular curriculum. Open only to upper division Government majors with at least a 3.0 GPA in the major.

Credit/No Credit

POLS 200. Method and Scope in Political Science.**3 Units****Prerequisite(s):** STAT 1 or its equivalent.**Term Typically Offered:** Fall, Spring

Introduction to the philosophy of science, and the scope and methods of empirical research in political, social and policy science. In the area of philosophy of science, focuses on the logic of scientific inquiry, theory testing and confirmation and causal explanation. In the area of scope and methods, critically examines the scientific merits of several competing approaches to the study of politics and policy, as well as some of the major methodological controversies and debates in the literature.

POLS 210. Political Theory.**3 Units****Prerequisite(s):** An upper division course in the field and/or instructor permission.**Term Typically Offered:** Fall, Spring

Historical and social roots, democratic or authoritarian ideologies; the conflict of ideologies; philosophic approaches.

Note: May be repeated for credit with permission of Graduate Coordinator.**POLS 213. Special Topics in American Political Thought.****3 Units****Term Typically Offered:** Fall, Spring

A class examining the historical and philosophical discourse in America on central topics of debate, such as the meaning of citizenship, civil society, democracy, federalism, religion, and civil rights open to both advanced undergraduates and graduate students.

Note: Undergraduates are strongly encouraged to have completed GOVT 113 or an equivalent course.**POLS 218. Special Topics in International Political Thought.****3 Units****Term Typically Offered:** Fall, Spring

A class examining the philosophical underpinnings and the theatrical problems of central concepts and problems in international relations, including human rights, intercultural dialogue, problems of just war and international justice through a study of historical and contemporary texts open to both advanced undergraduates and graduate students.

Note: Undergraduates are strongly encouraged to have completed GOVT 118 or an equivalent course.**POLS 219. Specialized Studies in Political Theory.****3 Units****Prerequisite(s):** Instructor permission.**Term Typically Offered:** Fall, Spring

Makes it possible for political theory students to deal with questions which theorists have asked, and to attempt to answer such questions for themselves.

Note: May be repeated for credit with permission of Graduate Coordinator.**POLS 230. Theories of International Relations.****3 Units****Prerequisite(s):** Upper division course in the field and/or instructor permission.**Term Typically Offered:** Fall, Spring

Examination of the theory and practice of international relations including such subfields as international law, international organization, foreign policy and national security policy.

Note: May be repeated for credit with permission of Graduate Coordinator. Cross Listed: IA 210; only one may be counted for credit.**POLS 236. Seminar in International Political Economy.****3 Units****Prerequisite(s):** An upper division course in the field and/or instructor permission.**Term Typically Offered:** Fall, Spring

This seminar is a graduate-level introduction to the theory and substance of international political economy (IPE). It examines the various theoretical approaches to IPE; considers the role of trade, money, and finance in the international political economy; analyzes the pattern and structure of global production, with an emphasis on multinational corporations; surveys international development issues, including Third World economic development strategies, the debt crises, structural adjustment, and economies in transition; and investigates the politics of globalization.

Cross Listed: IA 221; only one may be counted for credit.

POLS 239. Globalization and International Relations.**3 Units****Prerequisite(s):** An upper division course in international relations or instructor permission.**Term Typically Offered:** Fall, Spring

Introduction to the theories and substance of globalization. It examines alternative theories of globalization; considers globalization's political impact on the territorial state, regionalism, the welfare state, the military, immigration, and the environment; investigates the politics of the anti-globalization backlash; and concludes with an assessment of the future political trends of globalization.

Cross Listed: IA 230; only one may be counted for credit.

- POLS 240. Comparative Government and Politics.** 3 Units
Prerequisite(s): Advanced course in the field.
Term Typically Offered: Fall, Spring
- Advanced study of some of the world's governmental and political systems. May focus on single countries, groups of countries or general categories of systems. Considers theoretical concept and methodology.
Note: May be repeated for credit with permission of Graduate Coordinator. Cross Listed: IA 222; only one may be counted for credit.
- POLS 249A. Middle East Politics and the United States.** 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
- Graduate introduction to politics and governments of the Middle East and the impact of the United States foreign policy in the region. Relies on a comparative frame to tease out the causes of intrastate and interstate conflicts in the region, as well as the effects of the American foreign policy on the contemporary political trends in the Middle East, including those relating to the Arab-Israeli conflict, Islamic political resurgence, and terrorism.
- POLS 250. Basic Issues of American Government.** 3 Units
Prerequisite(s): An upper division course in the field and/or instructor permission.
Term Typically Offered: Fall, Spring
- Exploration in-depth of topics such as federalism, executive-legislative relationships, problems of representation, government reorganization, congressional reform, the electoral process.
Note: May be repeated for credit with permission of Graduate Coordinator.
- POLS 270. Political Behavior and Political Processes: California and Beyond.** 3 Units
Term Typically Offered: Fall, Spring
- Course will explore public opinion, voting behavior, representation and political psychology with special focus on California.
Note: Undergraduates may take the course with instructor permission.
- POLS 280. California Politics.** 3 Units
Term Typically Offered: Fall, Spring
- Advanced study of California's state and local governments, with emphasis on political history, political institutions, and the role of direct democracy on the state's government, budget and politics. Demographic and geographic elements will be scrutinized through a political focus. California's policy and political process will also be examined, as well as discussion of various political reforms.
Note: Undergraduates may take the course with instructor permission. Prerequisite
- POLS 281. Comparative State Government.** 3 Units
Term Typically Offered: Fall, Spring
- Examines state political institutions and processes. Special attention will be paid to how the political variation among the states shapes processes and outcomes. Topics covered will include governors, legislatures, interest groups, public opinion, political parties, and elections.
- POLS 284. Urban Politics.** 3 Units
Term Typically Offered: Fall, Spring
- In-depth exploration of the socio-economic problems of urban and metropolitan areas and an evaluation of proposed political and governmental solutions.
Note: May be repeated for credit with permission of Graduate Coordinator. Cross Listed: PPA 284; only one may be counted for credit.
- POLS 293A. Senate Fellows Introductory Seminar.** 3 Units
Term Typically Offered: Fall, Spring
- Critical analysis and examination of the operation of the State Capitol and the larger political environment of political parties, interest groups, and public opinion.
Note: Open only to students admitted to the California Senate Fellows Program.
- POLS 293B. Senate Fellows Policy Seminar.** 3 Units
Term Typically Offered: Fall, Spring
- Seminar will analyze procedural issues and public policy questions within the State Senate, legislature, and contemporary California politics.
Note: Open only to students admitted to the California Senate Fellows Program.
- POLS 294A. Assembly Fellows Introductory Seminar.** 3 Units
Term Typically Offered: Fall, Spring
- Critical examination of state and local governmental institutions and processes. Seminar will impart an advanced understanding of the structures and processes of California's political institutions, government and legislature.
Note: Open only to students admitted to the Jesse M. Unruh Assembly Fellowship Program.
- POLS 294B. Assembly Fellows Policy Seminar.** 3 Units
Term Typically Offered: Fall, Spring
- Seminar focuses on current California policy issues and the lawmaking process.
Note: Open only to students admitted to the Jesse M. Unruh Assembly Fellowship Program.
- POLS 295. Government Internship.** 1 - 6 Units
Term Typically Offered: Fall, Spring
- Supervised work experience in an approved legislative or administrative office at some level of local or state government, or in a politically-related organization that is concerned with government. Supervision is provided by the faculty instructor and responsible officials in the work situation.
Note: Open to all graduate students, subject to instructor permission. No more than 3 units of GOVT 295 may be counted toward the Master's degree.
- Credit/No Credit
- POLS 299. Independent Study.** 1 - 3 Units
Term Typically Offered: Fall, Spring
- For advanced graduate students who have demonstrated their ability to carry on advanced, independent research. Permits a student to pursue study and research in an area not otherwise available through the regular curriculum. Student must be advanced to candidacy.
 Credit/No Credit

POLS 500. Culminating Experience. 3 Units**Prerequisite(s):** Advanced to candidacy.**Term Typically Offered:** Fall, Spring

Should be taken after completion of all other requirements for the degree. Students may choose from the following options, which they must declare when they advance to candidacy: Thesis, Project, or Comprehensive Examination.

Public Policy and Administration (PPA)

PPA 100. Introduction to Public Policy and Administration. 3 Units**Prerequisite(s):** GOVT 1 or GOVT 150 or equivalent.**Term Typically Offered:** Fall, Spring

Explores context and process for policy making by national and California state governments, including ethical dimensions. Applications are developed from students' and instructor's areas of interest including K-12 and higher education, land-use policy, and aging issues such as elder advocacy, Social Security, and Medicaid. Provides background and skills for entry level positions in public or non-profit organizations. Cross Listed: GERO 102; only one may be counted for credit.

PPA 200. Introduction to Public Policy and Administration. 3 Units**Term Typically Offered:** Fall, Spring

Examines public policy and administration by exploring major policy processes, particularly in California state and local government. Topics include the emergence and specification of issues, developing and selecting policy options, implementing and administering policies and evaluating and terminating public policies. The course approach is comprehensive, transdisciplinary and human centered – concerned with the interplay of values in shaping policy outcomes. The intent is to provide conceptual frameworks and operational principles required in identifying and resolving issues emerging in public settings.

Note: Satisfies the Graduate Writing Intensive Requirement (GWI).**PPA 205. Research in Public Policy and Administration. 3 Units****Term Typically Offered:** Fall, Spring

Emphasizes fundamental research and management skills necessary in generating accurate and useful decision-related information for policy makers. Topics include conceptualizing and structuring research questions, collecting valid and relevant data and interpreting and presenting results. The course approach is pragmatic, transdisciplinary, and oriented to producers and users of policy research information. The intent is to enhance research skills in analyzing and resolving policy issues.

PPA 207. Quantitative Methods in Public Policy and Administration. 3 Units**Prerequisite(s):** ECON 1B, PPA 205 or instructor permission.**Term Typically Offered:** Fall, Spring

Study of quantitative methods as applied in public policy analysis. Concentrates on interpreting the results of econometric, statistical, and other public policy studies, and on determining the relevance and applicability of quantitative analysis with the larger scheme of public policy decision making.

PPA 210. Political Environment of Policy Making. 3 Units**Prerequisite(s):** PPA 200 or instructor permission.**Term Typically Offered:** Fall, Spring

Assists students in learning to identify the political factors impinging on the policy process and in learning to cope with them. With special emphasis on the California political environment and issues, employs case studies, structured role-playing, and including politically feasible policy alternatives and advice to hypothetical clients. The goal is to equip students to work effectively as politically aware policy analysts.

PPA 220A. Applied Economic Analysis I. 3 Units**Prerequisite(s):** ECON 1B, or instructor permission.**Term Typically Offered:** Fall, Spring

Presents the basic concepts, tools, and models of microeconomics in the context of public sector choices. The standard market demand and supply model is developed and used to analyze the effect of public policies (particularly those of California state and local governments) on consumers and businesses. The principles of welfare economics are presented and used to evaluate economic performance.

Note: Graduate Writing Intensive Course.**PPA 220B. Applied Economic Analysis II. 3 Units****Prerequisite(s):** PPA 220A.**Term Typically Offered:** Fall, Spring

Continuation of PPA 220A which focuses specifically on the role of government in a market-oriented economy with emphasis on market failures including: public goods, externalities, and monopoly. Corrective taxes and expenditure programs are discussed, and the technique of cost-benefit analysis is developed and applied to various state and local government projects.

PPA 230. Public Budgeting and Finance. 3 Units**Term Typically Offered:** Fall, Spring

Enables students to understand, analyze, and evaluate the governmental budget process including revenue and expenditure patterns. The primary emphasis is on California state and local governments. The federal budget process is discussed primarily to reflect the impact that it has on state and local governments. Features both theoretical and practical approaches to budgets, including alternate budget formats. Various perspectives are utilized to explore the political, economic, and policy concerns inherent in the development and implementation of public sector budgets.

PPA 240A. Public Management and Administration I. 3 Units**Prerequisite(s):** 1) graduate standing and 2) completion of PPA program prerequisites, or instructor permission.**Term Typically Offered:** Fall, Spring

Examines concepts and approaches used in analyzing and understanding complex organizations. Organizational theory, management concepts, and behavioral analysis is employed to understand the dynamics and evolution of public sector organizations. Emphasis is placed on applying classic organizational theory and introductory leadership skills and issues.

- PPA 240B. Public Management and Administration II.** **3 Units**
Prerequisite(s): PPA 240A.
Term Typically Offered: Fall, Spring
- Continuation of PPA 240A. Examines concepts and approaches used in analyzing and understanding complex organizations. Emphasis is placed on ability to intervene and assist public agencies by designing intervention plans, engaging in strategic planning, promoting interdepartmental effectiveness, using advanced leadership issues and techniques, and using advanced organizational development strategies.
- PPA 250. California Land Use Policy.** **3 Units**
Term Typically Offered: Fall, Spring
- Examines public policies that influence land use. Reviews tools of land use planning and development and applies them to issues that dominate California policy choices including urban design, fiscalization of land use, sustained growth, and the challenges of social equity.
- PPA 251. Urban Problems, Economics and Public Policy.** **3 Units**
Prerequisite(s): PPA 220A or ECON 100B.
Corequisite(s): ECON 251; only one of these courses may be counted for credit.
Term Typically Offered: Fall, Spring
- Historical development, economics and possible policy solutions of the most pressing problems facing central cities and urban areas in the U.S. are presented. Problems discussed include poverty, crime, urban abandonment/suburban sprawl, edge cities, deteriorating infrastructures, and fiscal stress.
 Cross Listed: ECON 251; only one may be counted for credit.
- PPA 270. Introduction to Collaborative Policy Making.** **3 Units**
Prerequisite(s): PPA 200 and PPA 210, or approval of instructor.
Term Typically Offered: Fall, Spring
- Examines the theory and practice of collaborative policy-making using case studies of major collaborative processes. Topics include interpretative policy analysis, deliberative democracy theory, public participation, collaborative policy networks, the use of dialogue in public policy, resolution of policy controversies, and consensus building.
- PPA 272. Collaborative Governance Advanced Practice.** **3 Units**
Prerequisite(s): PPA 270 with a grade of B- or better, or instructor permission.
Term Typically Offered: Fall, Spring
- Practice driven, highly participatory course for professionals who require more advanced skills into collaborative methods. Topics include conflict analysis and assessment, analysis of advocacy speech, public participation, working with the media, and interagency networks. Focuses on active learning with practice in a wide variety of collaborative skills.
- PPA 284. Urban Policy.** **3 Units**
Term Typically Offered: Fall, Spring
- Exploration in-depth of the socio-economic problems of urban and metropolitan areas and evaluation of proposed political and governmental solutions.
 Cross Listed: GOVT 284; only one may be counted for credit.
- PPA 291. Court Governance and Operations.** **3 Units**
Term Typically Offered: Fall, Spring
- Studies the state judiciary as both independent and interdependent with the legislative and executive branches of government at both the state and local level. The goal is to develop foundational knowledge of the historical and evolving governing and operational principles of the California court system.
- PPA 292. Court Management.** **3 Units**
Prerequisite(s): PPA 291 or instructor permission.
Term Typically Offered: Fall, Spring
- Provides training in key court administrative areas identified by such organizations as the National Association of Court Management (e.g., case flow management). Drawing from interdisciplinary literature on management theory, court case studies illustrate and provide context.
- PPA 293. Court Leadership.** **3 Units**
Term Typically Offered: Fall, Spring
- Examines leadership in the court environment as distinct from management. Investigates how leadership principles are exercised in pivotal areas of the courts such as: community relations, creativity and innovation, organizational change, workforce development, succession planning, strategic planning and re-engineering.
- PPA 294. Emerging Issues in Judicial Administration.** **3 Units**
Term Typically Offered: Fall, Spring
- Addresses pressing issues in judicial administration (e.g., courts in an electronic world, rising administrative workloads, greater number of self-represented litigants). Specific topics may change from year to year depending on the urgency of topics and nature of policy implications.
- PPA 295. Internship in Public Policy and Administration.** **3 - 6 Units**
Prerequisite(s): PPA 200.
Term Typically Offered: Fall, Spring
- Supervised work experience in a government or related organization.
 Credit/No Credit
- PPA 296E. Intergovernmental Relations.** **3 Units**
Term Typically Offered: Fall, Spring
- A review of the origins of federalism in the U.S. and various theoretical approaches to understanding the relationships between various levels of government, including ways in which the different levels of government relate to one another both vertically and horizontally.
- PPA 297A. Executive Fellows Introductory Seminar.** **3 Units**
Term Typically Offered: Fall, Spring
- Seminar will enhance Executive Fellows' understanding of the state policy making and administrative process, policy implementation, ethical responsibilities of policy and administrative actors.
Note: Open only to students admitted to the Executive Fellowship Program.

PPA 297B. Executive Fellows Policy Seminar. 3 Units
Prerequisite(s): PPA 297A
Term Typically Offered: Fall, Spring

Seminar will extend the examination and analysis of the Executive branch of government to include alternative administrative practices, policy implementation strategies, and related administrative issues.

Note: Open only to students admitted to the Executive Fellowship Program.

PPA 298A. Judicial Administration Fellows Introductory Seminar. 3 Units
Term Typically Offered: Fall, Spring

Critical examination and analysis of the administrative operation of the California judicial system and its structures, policies and practices.

Note: Open only to students admitted to the Judicial Administration Fellows Program.

PPA 298B. Judicial Administration Fellows Policy Seminar. 3 Units
Term Typically Offered: Fall, Spring

Analyzes procedural issues and policy questions within the California judicial system with emphasis on the interdependence of the judicial, legislative and executive branches.

Note: Open only to students admitted to the Judicial Administration Fellows Program.

PPA 299. Special Problems. 1 - 3 Units
Prerequisite(s): Permission of faculty supervisor and the Department Chair.

Term Typically Offered: Fall, Spring

Supervised independent study in public policy and administration.
 Credit/No Credit

PPA 500. Culminating Experience. 3 Units
Prerequisite(s): Advanced to candidacy and permission of the graduate coordinator.

Term Typically Offered: Fall, Spring

Completion of a thesis or project approved for the Master's degree.

Psychology (PSYC)

PSYC 2. Introductory Psychology. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Provides a general overview of theory and research concerning psychological processes at the basic, individual and social levels. Topics will include physiological psychology, comparative psychology, learning, motivation, sensation and perception, developmental psychology, personality, social psychology, maladaptive behavior, individual differences, and selected other topics. Requires three hours of participation as a research subject.

PSYC 4. Navigating Psychology: The Major and Careers. 1 Unit
Prerequisite(s): PSYC 2 and Psychology majors only.
Term Typically Offered: Fall, Spring

Covers requirements for the major and career options in psychology and related fields. Students learn to design plans of study to meet requirements for the major and enhance career objectives. Introduces career options in various areas such as academic psychology, applied behavior analysis, counseling and mental health, education, industrial-organizational psychology and related fields. Class activities clarify students' career goals and develop skills for job seeking and graduate education. Requires participation as a research subject.
 Credit/No Credit

PSYC 8. Methods of Psychology. 3 Units
Corequisite(s): PSYC 2.
Term Typically Offered: Fall, Spring

Introduction to methods of the science of psychology. The topics include psychology as a way of knowing, the role of science in psychology, the nature of psychological research, research ethics, psychological literature and report writing, psychological measurement, and the design and analysis of case studies, survey research, field studies, correlational methods, and experimental methods. Requires three hours of participation as an experimental subject.

PSYC 9. Introductory Statistics for Psychology. 3 Units
Prerequisite(s): PSYC 2, may be taken concurrently.
Term Typically Offered: Fall, Spring

Introduction to descriptive and inferential statistics as tools for evaluating data from Psychological research. Topics include: measures of central tendency, measures of variability, correlation and regression, sampling distributions, hypothesis testing procedures including t-tests and analysis of variance. Application of hand computation will be emphasized to include the interpretation and significance of the statistical findings.

PSYC 100. Cross-Cultural Psychology. 3 Units
Prerequisite(s): PSYC 2, PSYC majors only.
Corequisite(s): PSYC 8.
Term Typically Offered: Fall, Spring

Examination of similarities and differences in human behavior, cognition, and emotion across cultures. Empirical evidence from cross-cultural research in the various areas of psychology, including biological, clinical, cognitive, developmental, social, personality, and industrial/organizational psychology, is evaluated with the purpose of developing a global perspective on the psychological processes underlying human behavior, cognition, and emotion.

PSYC 101. Statistics for Psychology. 3 Units
Prerequisite(s): Passing score on ELM; PSYC 2, PSYC 4, PSYC 8. PSYC majors only. PSYC 4 may be taken concurrently.
Term Typically Offered: Fall, Spring

Introduction to descriptive and inferential statistics as tools for evaluating data from Psychological research. Topics include: measures of central tendency, measures of variability, correlation and regression, sampling distributions, hypothesis testing procedures including t-tests and analysis of variance, and selected other topics. Application of hand computation will be emphasized to include the interpretation and significance of the statistical findings.

PSYC 102. Advanced Methods and Statistics in Psychological Research.**4 Units****Prerequisite(s):** PSYC 121; Psychology majors only.**Term Typically Offered:** Fall, Spring

Plan and conduct projects using experimental, quasi-experimental and correlational methods. Evaluate published research and write proposals with attention to such issues as the reliability and validity of methods, the degree to which statistical assumptions are met, the adequacy of statistical power, and the internal and external validity of the project. Contemporary research design, measurement, and analysis techniques are examined, including the use of statistical software, for varieties of univariate and multivariate research designs. Lecture-discussion three hours; laboratory three hours.

PSYC 103. Perception.**3 Units****Prerequisite(s):** PSYC 2, PSYC or CRJ majors only. PSYC 8 and PSYC 9 are recommended.**Term Typically Offered:** Fall, Spring

Examination of how information about the outside world is sensed and how that information is organized and interpreted to form perceptions. Vision and audition will be primarily examined, along with some coverage of the other senses. Topics may include psychophysical methods, basic physiology and function of sensory systems, perception of color and form, motion, distance, auditory patterns, body and limb position, temperature, pain, perceptual constancies, attention, perceptual learning, adaptation, and perceptual development.

PSYC 104. Learning Theories.**3 Units****Prerequisite(s):** PSYC 2, PSYC 8, PSYC 9, and PSYC majors only or instructor permission.**Term Typically Offered:** Fall, Spring

Examination of classical and contemporary theories of learning, and a sampling of experimental findings which bear directly on the theories. Some attention is given to theory construction in psychology.

PSYC 106. Motivation.**3 Units****Prerequisite(s):** PSYC 2; PSYC majors only or instructor permission.**Term Typically Offered:** Fall, Spring

Study of theories and experimental findings related to basic processes in animal and human motivation.

PSYC 107. Controversial Issues in Psychology.**3 Units****Prerequisite(s):** PSYC 121; Psychology majors only**Term Typically Offered:** Fall, Spring

Consideration of unresolved issues of interest to psychology and the general public, such as the use of animals in research and mind and health. Emphasis is on critical analysis (but not solution) of the issues as they are presented in public discourse. Discussion format, written reports and evaluations.

PSYC 108. Organizational Psychology.**3 Units****Term Typically Offered:** Fall, Spring

This course will provide an overview of the dynamics of human behavior in organizations, using the lens of psychological theory. Students will explore individual-, group-, and systems-level phenomena in organizations, with the overriding goal of understanding how to maximize performance, well-being, and satisfaction at work. Topics may include job attitudes, teams, organizational culture, individual differences, leadership, employee development, organizational change, occupational stress, fairness and diversity, and more.

PSYC 110. Cognitive Psychology.**3 Units****Prerequisite(s):** PSYC 2; PSYC majors only. PSYC 8 and PSYC 9 are recommended.**Term Typically Offered:** Fall, Spring

Examination of the basic concepts of cognitive psychology, including sensory storage, pattern recognition, attention, short-term memory, long-term memory, visual imagery, semantic memory structure, text processing, problem solving and decision-making. The relations among artificial intelligence, mental modeling, and the simulation of cognitive processes will also be explored.

PSYC 111. Foundations of Behavioral Neuroscience.**3 Units****Prerequisite(s):** PSYC 2; PSYC majors and PSYC minors only. PSYC 8 and PSYC 9 are recommended.**Term Typically Offered:** Fall, Spring

Introductory overview of the neurobiology of behavior. Emphasis is on the central and autonomic nervous systems and the endocrine system. Topics include physiological, biological and genetic factors involved in sensation and perception, motivation, learning and memory, emotion, social behavior, and mental disorders.

PSYC 115. Introduction to Neuroscience.**4 Units****Prerequisite(s):** PSYC 2 and PSYC 8; PSYC or BIO majors only. PSYC 9 recommended.**Term Typically Offered:** Spring only

Introduction to the structure and function of the nervous system including neuroanatomy, neurophysiology, and systems neuroscience. Lectures and readings emphasize the empirical questions, techniques and methods used in neuroscience research. Laboratory activities focus on nervous system structure and some of the specialized techniques used within the fields of cellular, systems, and behavioral neuroscience. Lecture-discussion three hours; laboratory three hours. Cross Listed: BIO 115; only one may be counted for credit.

PSYC 116. Animal Behavior.**3 Units****Prerequisite(s):** PSYC 2; PSYC majors only or instructor permission.**Term Typically Offered:** Fall, Spring

Basic principles of animal behavior including the genetic, evolutionary and ecological mechanisms underlying courtship, reproduction, aggression, territoriality, communication and parental behavior; applied aspects of animal behavior; innate or naturally occurring behavior patterns necessary for survival in the natural environment; physiological, social and acquired aspects of animal and, secondarily, human behavior.

PSYC 117. Drugs and Behavior.**3 Units****Prerequisite(s):** PSYC majors only or instructor permission.**Term Typically Offered:** Fall, Spring

Examination of the classification of psychoactive drugs and their mode of action. Covers effects of psychoactive drugs on central nervous system structure and function and on behavior; use, abuse, effects, and dangers of therapeutic and recreational drugs; motivational aspects of drug use, and methods for treating addiction.

PSYC 118. Cognitive Neuroscience.**3 Units****Prerequisite(s):** PSYC 111 or PSYC 115 or PSYC 117 or BIO 132.**Term Typically Offered:** Fall, Spring

Examines how the nervous system accomplishes cognitive functioning. Brain mechanisms of higher functions such as memory, attention, sensorimotor integration, decision making, and language will be covered.

- PSYC 119. Human Factors Psychology.** **3 Units**
Prerequisite(s): PSYC 2
Term Typically Offered: Fall, Spring
- Study of the scientific application of psychology and human performance to the design of products and complex systems. Applications of perception, cognition, and human physical limitations are covered, with an emphasis on understanding how they relate to design. Topics include perception, attention, decision making, memory, action, and how they related to areas such as product design, human-machine interaction, health and medicine, aviation and aerospace, ergonomics of the workplace, and designing for special populations.
- PSYC 120. Psychological Testing.** **3 Units**
Prerequisite(s): PSYC 121; PSYC majors only.
Term Typically Offered: Fall, Spring
- Construction, application, interpretation and evaluation of psychological tests. Tests used to measure general mental ability, specific abilities and aptitudes, personality, interests and attitudes are surveyed.
- PSYC 121. Methods and Statistics in Psychological Research.** **3 Units**
Prerequisite(s): PSYC 4 (may be taken concurrently), PSYC 8, and PSYC 9; PSYC majors only.
Term Typically Offered: Fall, Spring
- Project-based experience of Psychology. Study of scientific processes in research such as literature reviews; developing testable hypotheses; design; IRB review; data collection, analysis, and interpretation; critical analysis of studies; APA paper preparation; and issues in dissemination. Study of some advanced statistical processes such as factorial ANOVAs, planned and post hoc comparisons, and multiple regression. Study of statistical software programs used in the analysis of data.
- PSYC 122. Qualitative Research in Psychology.** **3 Units**
Prerequisite(s): PSYC 121 and PSYC majors only.
Term Typically Offered: Fall, Spring
- Examines the philosophy underpinning the use of qualitative research and the methods and analyses strategies used in qualitative research. Methods may include interviews, focus groups, participant observation, and behavioral observation. Analyses strategies may include grounded theorizing, negative case analyses, developing case studies, and content coding. Issues pertaining to data accuracy and consistency will be examined, and the researcher's role in interpreting results. Students will complete research projects involving the collection and/or analyses of qualitative data.
- PSYC 129. Behavioral Research Methods.** **3 Units**
Prerequisite(s): PSYC 121 and PSYC 171, PSYC majors only or ABA certificate students
Term Typically Offered: Fall, Spring, Summer
- Covers evaluating and thinking critically about behavioral research (i.e., data collection, logic, designs). Topics include: comparing group and single-case designs; observational strategies and measuring inter-observer reliability; displaying and interpreting behavioral data; single-case experimental design including reversal, multiple-baseline, alternating treatments, changing-criterion, and combinatorial designs; research ethics; identifying characteristics of pseudoscience; and disseminating behavioral research. The versatility of single-case designs will be discussed by including a wide range of case examples from multiple disciplines in the social and behavioral sciences and education.
- PSYC 130. Personality Theories.** **3 Units**
Prerequisite(s): PSYC 2.
Term Typically Offered: Fall, Spring
- Detailed examination of classic and contemporary personality theories such as those of Freud, Jung, Adler, Horney, Fromm, Skinner, Dollard and Miller, Rotter, Bandura, Kelly, Rogers, Maslow and May. Theories will be considered with respect to content, conceptual image of the individual, and current status.
- PSYC 134. Psychology of Human Sexuality.** **3 Units**
Prerequisite(s): PSYC 2.
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring
- Covers the inherent biological, as well as the psychological, social and cultural similarities and differences between the sexes. Sexual myths and misconceptions are explored, and the sex roles and patterns of interaction currently practiced in our society are discussed.
- PSYC 135. Psychology of Multicultural Groups.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring
- Examines the role of culture, race, ethnicity, gender, and social class in human development and behavior within diverse cultural groups. Presents sociocultural and ecological perspectives on human development, i.e., that individuals must be understood in the context of his or her culturally patterned social relations, practices, institutions, and ideas. Explores psychological issues that pertain to the major ethnic minority groups in the U.S.
- PSYC 137. Stress Management.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Examination of the causes and manifested effects of various stressors related to acculturation, socio-economic, physical, occupational, and psychological pressures. Techniques for recognizing and coping with stress will be explored. Emphasis is on the development of skills to handle commonly encountered stress-producing situations.
- PSYC 142. Community Psychology.** **3 Units**
Prerequisite(s): PSYC 121 and PSYC majors only.
Term Typically Offered: Fall, Spring
- This course is designed to introduce you to the field of community psychology, which is concerned with the scientific study of social problems through collaborative research. This course will provide you with ecological frameworks that aim to reduce social problems (e.g., poverty, mental illness and others) as well as core values of community well-being, empowerment, and collaboration. You will be exposed to prevention and intervention programs employed to solve social concerns as well as potential implications for practice and policy.

PSYC 143. Practicum in Community Psychology. 3 Units

Prerequisite(s): academic level of senior, Psychology majors only, and instructor permission.

Corequisite(s): PSYC 142

Term Typically Offered: Fall, Spring

Classroom and on-site experience in community psychology. Students will work at a community organization for a minimum of six hours per week with supervision by authorized persons at the organization. Students will also attend weekly class meetings to discuss the application of concepts in community psychology to practicum experience. Topics include: ethics, structure and capacity of community organizations, working with diverse populations, and professional relationships.

PSYC 145. Social Psychology. 3 Units

Prerequisite(s): PSYC 2.

Term Typically Offered: Fall, Spring

Empirical examination of the emotion, behavior, and cognition of individuals in social situations. Topics can include: social psychology methods, social perception, social cognition, attitudes, persuasion, social identity, gender identity, prejudice and discrimination, interpersonal attraction, close relationships, conformity, compliance, obedience to authority, helping behavior, aggression, group processes, and social psychology applications. Multiple perspectives discussed.

PSYC 148. Child Psychology. 3 Units

Prerequisite(s): PSYC 2.

Term Typically Offered: Fall, Spring

Examination of behavioral and physiological development during the prenatal period, and behavioral, cognitive and social development during infancy and childhood. Theories, methods and empirical research will be studied.

PSYC 149. Psychology of Adolescence. 3 Units

Prerequisite(s): PSYC 2.

Term Typically Offered: Fall, Spring

Growth and development during the adolescent period and the interrelationships between adolescents and their culture are studied. Physical, psychological, social and educational problems and their implications are considered.

PSYC 150. Psychological Aspects of Aging. 3 Units

Prerequisite(s): PSYC 2

Term Typically Offered: Fall, Spring

Developmental study of human aging emphasizing psychosocial, psychopathological, biological, intellectual and personality processes from a theoretical and research-oriented perspective. Influences including culture, gender, gender identity, race, ethnicity, sexual orientation, and socio-economic status on aging are examined.

PSYC 151. Psychological Aspects of Death and Dying. 3 Units

General Education Area/Graduation Requirement: Understanding Personal Development (E)

Term Typically Offered: Fall, Spring

Examination of the beliefs, attitudes, and behaviors associated with death and dying. Topics covered include children's and adults' concepts of dying and death; causes and types of death; self-destructive behavior; grief and mourning in the dying person and their survivors; euthanasia and other legal and ethical issues; cross-cultural and historical perspectives.

Cross listed: GERO 124

PSYC 152. Psychological Aspects of Health, Wellness, and Illness. 3 Units

Prerequisite(s): PSYC 2 and PSYC 8.

Term Typically Offered: Fall, Spring

Examines social, psychological, and behavioral factors important for physical health and emotional well-being. Psychological perspectives are applied to such topics as behavioral medicine, health promotion and compromise, the stress-illness relationship, social relations, personality, emotions, chronic illness, death and dying, and health care provider and patient interactions. Explores the development of health problems and the causes of premature death, as well as research on how psychology can help people live longer, healthier lives.

PSYC 153. Political Psychology. 3 Units

Term Typically Offered: Fall, Spring

Examines the ways in which political behavior is shaped by individual beliefs, personalities, cognitive patterns, biases, and other psychological mechanisms. Students will engage with a wide range of research on topics such as cognitive styles, personality, obedience, psychological roots of terrorism, the psychology of ideology, and the role of emotion in politics.

Cross Listed: GOVT 152

PSYC 157. Psychology of Women. 3 Units

Prerequisite(s): PSYC 2 or instructor permission.

Term Typically Offered: Fall, Spring

Contemporary psychological theories and issues related to the psychology of women in America and globally. Psychological theories may include but are not limited to feminism, cognitive-behavioral, self-object relations, humanistic, social learning and existential. Issues may include development, sexuality, mental health, psychotherapy, physical health, education, work, violence against women, gender inequality, multicultural perspectives, aging, parenting, criminal behavior, politics, sexual slavery, reproductive rights, religion, spirituality, and the arts.

Note: A service course for WOMS.

PSYC 160. Homosexuality. 3 Units

Term Typically Offered: Fall, Spring

Exploration of the psychological world of gay men and lesbians. An examination of psychological theories, empirical research, and phenomenological perspectives. Covers psychological functioning, homophobia, disclosure, relationships, parenting, and aging.

- PSYC 165. Evolutionary Psychology. 3 Units**
Prerequisite(s): PSYC 2 and PSYC 8; Psychology majors only
Term Typically Offered: Spring only
- Examination of empirical literature on emotion, behavior, and cognition of individuals from an evolutionary perspective. Topics can include: scientific methods in evolutionary psychology, survival strategies, mating strategies, parenting, kinship, cooperation, altruism, aggression, sexual conflict, and social dominance.
- PSYC 167. Psychology in Personnel Training and Development. 3 Units**
Prerequisite(s): PSYC 2.
Term Typically Offered: Fall, Spring
- Application of psychological principles to problems of personnel training and development; techniques for determining training requirements, motivating trainees, providing feedback on trainee performance, and ensuring positive transfer of training to the job situation; personnel development programs.
- PSYC 168. Abnormal Psychology. 3 Units**
Prerequisite(s): PSYC 2.
Term Typically Offered: Fall, Spring
- Detailed consideration of behavior disorders and maladaptive behavior: theories of causation, descriptions of the disorders, and strategies of various therapies.
- PSYC 169. Industrial Psychology. 3 Units**
Prerequisite(s): PSYC 2, PSYC 8.
Term Typically Offered: Fall, Spring
- Comprehensive overview of various human resources practices and policies, with an emphasis on people's psychological reactions to them. Topics include: recruitment, employee selection, training, employee compensation, legal aspects of employment decisions, and ethics in human resource management.
- PSYC 171. Applied Behavior Analysis. 3 Units**
Prerequisite(s): PSYC 2 and PSYC majors or posted Behavior Analysis Certificate only, or instructor permission.
Term Typically Offered: Fall, Spring, Summer
- Introduction to theory, historical background, and philosophical assumptions relevant to behavior analysis with individuals. Lectures and laboratory activities in basic principles of behavior and methodology.
- PSYC 181. Experimental Analysis of Behavior. 4 Units**
Prerequisite(s): PSYC 9, PSYC 171, and PSYC majors only.
Term Typically Offered: Fall only
- Extensive analysis of single subject experimental research on intermittent reinforcement of behavior, including complex schedules, stimulus control, generalization, and verbal behavior. Lecture-discussion three hours; laboratory three hours; laboratory may include a component of self paced instruction.
- PSYC 183. Teaching of Psychology. 3 Units**
Prerequisite(s): Instructor permission
Term Typically Offered: Fall, Spring
- Study of best practices in the Teaching of Psychology. Selected topics may include, course preparation, skills for fostering student learning, strategies for improving student writing, theories of assessment, using technology in the classroom, sensitivity to diversity, teaching special populations, and the ethical and legal issues faced in the classroom. Students attend scheduled seminars on course topics and course are mentored by a professor in the Department of Psychology (called Faculty Mentor/Sponsor).
 Credit/No Credit
- PSYC 184. Clinical Issues in Applied Behavior Analysis. 4 Units**
Prerequisite(s): PSYC 2 and PSYC 171, and PSYC majors or ABA Certificate students only
Term Typically Offered: Spring only
- Extensive study of applied behavior analytic methods in the assessment, development, and implementation of treatment programs for a variety of clinical issues including pediatric behavior problems, developmental disabilities, hyperactivity, parent-child difficulties, school-related problems, behavioral safety, brain injury, and dementia. Lecture three hours; laboratory three hours.
- PSYC 185. Psychology of Exceptional Children. 3 Units**
Prerequisite(s): PSYC 2.
Term Typically Offered: Fall, Spring
- Examines characteristics, special needs, and problems of children who differ from the group norm because of their level of abilities, physical handicaps, or other deviations.
- PSYC 190. History and Systems of Psychology. 3 Units**
Prerequisite(s): PSYC 9 and PSYC majors only.
Term Typically Offered: Fall, Spring
- Covers the development of the various schools and systems of psychology, and their philosophical roots, interrelationships and differences. Normally taught with a seminar or proseminar format.
- PSYC 191. Undergraduate Practicum in Behavior Analysis. 3 Units**
Prerequisite(s): PSYC 171 or PSYC 181.
Term Typically Offered: Fall, Spring
- Classroom and on-site experience in applied behavior analysis. Students will work at an approved agency for a minimum of 10 hours per week under the supervision of a Board Certified Behavior Analyst. Students will also meet in class to present and review their cases. Emphasis will be placed on treatment integrity and ethics.
Note: Requires permission of instructor. May be repeated for credit.
- PSYC 194. Cooperative Research. 1 - 6 Units**
Prerequisite(s): PSYC 2, PSYC 8, and PSYC 9. PSYC 121 recommended.
Term Typically Offered: Fall, Spring
- Opportunity for dedicated students interested in graduate school or a career involving research to work cooperatively on a psychological research project under faculty supervision.
Note: May be repeated once for up to 6 units of credit.

PSYC 195A. Fieldwork in the Teaching of Psychology. 1 - 6 Units**Term Typically Offered:** Fall, Spring

Supervised experience in various educational and instructionally related tasks, such as leading discussion groups, setting up and presenting demonstrations, constructing and scoring tests, and tutoring, at selected educational institutions in the Sacramento area.

Note: Requires permission of instructor and the Department Chair. May be repeated once for credit.

Credit/No Credit

PSYC 195B. Fieldwork in Child Observation. 3 Units**Prerequisite(s):** PSYC 148 or equivalent.**Term Typically Offered:** Fall, Spring

Supervised observation of preschool children in a formal school setting.

Note: Requires permission of instructor and the Department Chair. May be repeated once for credit.

Credit/No Credit

PSYC 195C. Fieldwork in Industrial and Organizational Psychology. 1 - 6 Units**Term Typically Offered:** Fall, Spring

Supervised work experience at an appropriate level in business and governmental organizations.

Note: Requires permission of instructor and the Department Chair. May be repeated once for credit.

Credit/No Credit

PSYC 195F. Fieldwork in Community Psychology. 1 - 4 Units**Term Typically Offered:** Fall, Spring

Supervised experience in various community and governmental agencies, such as the Suicide Prevention Service, Planned Parenthood, and the California Youth Authority. The experience must be of an applied psychological nature, determined collectively by the agency, the supervising faculty member, and the student.

Note: Requires permission of instructor and the Department Chair. May be repeated once for credit and a third time if another agency is involved.

Credit/No Credit

PSYC 195G. Fieldwork. 1 - 6 Units**Term Typically Offered:** Fall, Spring

Projects in contemporary areas of psychology under the supervision of one or more faculty.

Note: Requires permission of instructor and the Department Chair. May be repeated once for credit.

Credit/No Credit

PSYC 196S. Psychology of Religion. 3 Units**Prerequisite(s):** PSYC 2**Term Typically Offered:** Fall, Spring

Introduction to psychological aspects of religion, including its foundations, measurement, and research methods. Selected topic areas include: religious & spiritual development; religion and spirituality in neuroscience, cognitive psychology, emotion, personality, social psychology, and cross-cultural psychology; religion and spirituality in health, mental health, coping, and psychotherapy.

PSYC 196T. Black Psychology. 3 Units**Prerequisite(s):** PSYC 2**Term Typically Offered:** Fall, Spring

Examines the concepts, issues and theories related to the psychology of the African American experience. Through the exploration of topics related to the African American experience in the United States, including, but not limited to, African philosophy, the US Census, media representations, language, and political enfranchisement, the course utilizes an interdisciplinary approach to interrogate the cultural, historical, political, and social factors influencing Black identity in the US and the creation of Black Psychology.

PSYC 197A. Advanced Research I. 1 - 4 Units**Prerequisite(s):** PSYC 194 and permission of instructor and Department Chair. Graded; 1 - 4 units.**Term Typically Offered:** Fall only

Advanced research opportunity for students who have completed previous research experiences in PSYC 194. Students in the course are expected to develop advanced skills in research methods, data management, data analysis, and the communication of research findings by conducting research on collaborative projects under the guidance of a psychology faculty supervisor.

PSYC 197B. Advanced Research II. 1 - 4 Units**Prerequisite(s):** PSYC 197A and permission of instructor and Department Chair. Graded; 1 - 4 units.**Term Typically Offered:** Fall, Spring

Advanced research opportunity for students who have completed previous research experiences in PSYC 197A. Students in the course are expected to demonstrate competence in advanced research skills in research methods, data management, data analysis, and the communication of research findings by conducting research on collaborative projects under the guidance of a psychology faculty supervisor.

PSYC 198A. Prospects for Success: Peer Mentee. 1 Unit**Term Typically Offered:** Fall, Spring

Provide psychology majors with information and experiences necessary for developing academic goals, skills, and better understanding of the Psychology major. Weekly meetings with peer mentors to discuss topics that include academic planning, website navigation, preparation for meeting with professors, academic skills, student professionalism and resume/CV development.

Note: May be repeated for credit

Credit/No Credit

PSYC 198B. Prospects for Success: Peer Mentor. 2 - 3 Units**Prerequisite(s):** PSYC 4 and permission from instructor**Term Typically Offered:** Fall, Spring

Provide peer mentoring and advising to Psychology majors. Develop peer mentoring knowledge and skills through training and assigned readings. Peer mentors provide psychology majors with information and experiences necessary for developing academic goals, skills, and a better understanding of the Psychology major. Conduct weekly mentee meetings to discuss topics that include academic planning, website navigation, preparations for meetings with professors, academic skills, student professionalism and resume/CV development.

- PSYC 199. Special Problems.** **1 - 6 Units**
Term Typically Offered: Fall, Spring
- Individual projects or directed reading.
Note: Requires permission of instructor and the Department Chair.
- Credit/No Credit
- PSYC 200. Methods in Empirical Psychology.** **3 Units**
Prerequisite(s): PSYC 8, PSYC 101, PSYC 102.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
- Philosophy of science, critical thinking in the design of research studies, and professional issues. Topics include: nature of science; observational, experimental, and case study designs; formulating research questions; measurement strategies; scaling and coding; internal and external validity; naturalism in research; quasi-experiments; archival research; physical traces; data collection; interpreting results; program evaluation; professional writing; and ethics.
- PSYC 202. Survey of Contemporary Statistical Methods in Psychological Research.** **3 Units**
Prerequisite(s): Graduate standing; PSYC 102 or equivalent
Term Typically Offered: Fall, Spring
- Broad coverage of common univariate and multivariate designs and analyses used in contemporary psychological research. Primary focus is on providing the basic tools for carrying out the analyses in statistical software and interpreting the results, as well as understanding results presented in published research reports. Topics include various ANOVA and multiple regression models and applications including related categorical and multivariate alternatives, such as logistic regression analysis, discriminant function analysis, MANOVA, path analysis, factor analysis, canonical correlation analysis.
- PSYC 204. Advanced Topics in Statistical Methods for Psychological Research.** **3 Units**
Prerequisite(s): PSYC 202
Term Typically Offered: Fall, Spring
- Advanced treatment of selected research design and analysis methods of psychological research. Applications of the general and generalized linear models (e.g., multiple regression models, structural equation models, multilevel models, and limited dependent variable models) for a variety of research designs and data structures. Intermediate to advanced training in statistical software and data management. Focus is on understanding foundations and assumptions of the methods, understanding interrelationships between the methods, performing specialized and non-routine analyses when needed, and interpreting results in detail.
- PSYC 205. Measurement Methods for Psychological Research and Practice.** **3 Units**
Prerequisite(s): PSYC 202
Term Typically Offered: Fall, Spring
- Detailed coverage of classical and modern theories and models of psychological measurement, and their applications in research and professional testing settings. Primary focus is on principles of constructing and analyzing measures, including both paper-and-pencil tests/surveys and performance-based tests that require rater judgment in scoring. Measurement models include classical testing theory, generalizability theory, confirmatory factor analysis, Rasch measurement, and item response theory.
- PSYC 206. Tests and Measurement.** **3 Units**
Prerequisite(s): Graduate standing and PSYC 102 or its equivalent.
Term Typically Offered: Fall, Spring
- Examines the administration, interpretation, and application of psychological tests used by behavioral scientists in clinical, educational, organizational, and other settings. Test development, reliability and validity, and legal considerations will be discussed.
- PSYC 209. Seminar in Systems of Psychology.** **3 Units**
Term Typically Offered: Fall, Spring
- Historical review of the systems of thought which led to modern psychology. An examination of current psychological systems and their development. Factors that differentiate psychological systems will be studied.
- PSYC 210. Theories of Personality.** **3 Units**
Prerequisite(s): PSYC 102 or equivalent; PSYC 102 may be taken concurrently.
Term Typically Offered: Fall, Spring
- Study of the role of personality theory in the field of psychology, and an examination of the current theories.
- PSYC 216. Current Literature in Personnel and Organizational Psychology.** **3 Units**
Prerequisite(s): Course work in Personnel and Organizational Psychology; PSYC 102 or its equivalent.
Term Typically Offered: Fall, Spring
- Analyzes selected current articles on theory and research in such journals as the Journal of Applied Psychology, Personnel Psychology, and Organizational Dynamics, with written and oral critiques.
Note: May be repeated twice for credit.
- PSYC 216A. Current Literature and Applications in Industrial-Organizational Psychology.** **3 Units**
Term Typically Offered: Fall only
- Seminar to review current literature in selected organizational psychology topics, and develop proposals for applied research in industrial-organizational psychology. Literature focus will be centered on personal and interpersonal factors influencing the quality of work life and experiences of employees. Application focus will be centered on identifying organizational problems amenable to research, reviewing literature and common practices to identify potential solutions, designing a research methodology to address the problem and evaluate the solution, and writing research proposals including Human Subjects Review.

PSYC 216B. Current Literature and Applications in industrial-Organizational Psychology.**3 Units****Prerequisite(s):** PSYC 216A**Term Typically Offered:** Spring only

Seminar to discuss implementation of applied research proposals from the previous semester and review current literature in performance management and workforce planning systems. Application focus will be centered on understanding organizational contexts and constraints for implementing research, obtaining managerial and participant cooperation, maintaining methodological rigor in the field, systematically and objectively recording data, and preparing data for analysis. Literature focus will be centered on methods for measuring employee performance relative to objectives, understanding performance barriers, and identifying human resource needs.

PSYC 217. Seminar in Social Psychology.**3 Units****Prerequisite(s):** Graduate standing**Term Typically Offered:** Fall, Spring

Review of classic and contemporary theories and research in social psychology. Topics may include group dynamics, social influence, aggression, helping behavior, attitudes, dissonance and self-justification, prejudice, stereotyping, and discrimination; automaticity and social cognition, motivation, and gender. Emphasis upon the application of social psychological theories and research to social problems.

PSYC 240. Seminar in Behavioral Neuroscience.**3 Units****Prerequisite(s):** Graduate standing**Term Typically Offered:** Fall, Spring

Surveys the fundamental principles of Behavioral Neuroscience, the connection between the brain and behavior. Topics may include: neuroanatomy, electrochemical transmission, sites and mechanism of drug action, sensation and perception, motor systems, developmental processes, neuroendocrine systems, learning and memory, attention, emotion, executive function, neurodegenerative disease and the neurobiology of mental illness. Seminal experiments and recent discoveries within the field will be reviewed and discussed with a focus on how these findings impacted and continue to influence past and current theory.

PSYC 241. Seminar in Cognitive Psychology.**3 Units****Prerequisite(s):** Graduate standing**Term Typically Offered:** Fall, Spring

Provides a survey of topics in human information processing. Selected topics may include perception, attention, memory, knowledge, categorization, problem solving, reasoning, decision making, and language comprehension and production. Classical theories and experiments in these areas will be reviewed in addition to applications of this work to practical problems.

PSYC 242. Seminar in Learning and Behavior.**3 Units****Prerequisite(s):** Graduate standing**Term Typically Offered:** Fall, Spring

Surveys the area of Psychology concerned with how people and animals learn and how their behaviors are changed as a result of this learning. Selected topics include: Inmate behaviors, respondent and operant learning, behavioral economics, comparative cognition, theories of imitation, choice and self-control. Classical theories and current experiments in these areas will be reviewed in addition to implications of this work to practical problems.

PSYC 251. Developmental Processes.**3 Units****Prerequisite(s):** PSYC 148 or PSYC 149.**Term Typically Offered:** Fall, Spring

Study of the psychological processes underlying development throughout the life span. Covers such topics as cognitive, language, emotional, and relationship development in terms of the individual. Attention will be given to functioning of the individual within social units such as the family.

PSYC 262. Theoretical Foundations of Organizational Psychology.**3 Units****Prerequisite(s):** PSYC 108 or equivalent.**Term Typically Offered:** Fall, Spring

Major theories that made significant theoretical contributions to organizational psychology are covered, along with areas of significant research which have provided the foundations of modern organizational psychology.

PSYC 267. Training & Employee Development.**3 Units****Term Typically Offered:** Fall only

This course will provide an overview of the application of psychological principles to employee training and development, and an in-depth review of common training and development practices. Additional topics include techniques for determining training requirements, motivating trainees, providing feedback on trainee performance, ensuring positive transfer of training to the job environment, and employee development programs.

PSYC 268. Advanced Psychopathology.**3 Units****Term Typically Offered:** Fall, Spring

Covers an advanced and detailed discussion of the description, etiology, development, dynamics and treatment of individuals with mental disorders. Since the DSM-IV is the major classification system used by mental health professionals, it will also be discussed. This manual describes essential features of a variety of disorders and outlines the basis on which an experienced clinician can differentiate one disorder from another.

Note: May substitute EDC 231.**PSYC 269. Analysis of Work and Employee Selection.****3 Units****Term Typically Offered:** Spring only

Survey of work analysis, with emphasis on designing employee selection systems. Topics to include multiple methods for analysis of different types and aspects of work, and applications of the results such as: Explicating the performance construct for a given job; identifying human attributes required for successful performance; evaluating jobs in terms of compensation; selecting appropriate measurement methods for predictor and criterion constructs; evaluating predictor utility; and the legal environment for employee selection practice.

PSYC 271. Advanced Applied Behavior Analysis.**4 Units****Prerequisite(s):** Graduate status and instructor permission.**Term Typically Offered:** Fall, Spring

Designed both for graduate students who are interested in gaining knowledge about the fundamental principles of behavioral psychology and those who are pursuing certification as a Board Certified Behavior Analyst. Students will not only learn behavioral theory and the means by which behavior is increased, decreased, shaped and maintained, but they will learn to apply behavioral principles to more complex topics such as concept formation and novel behaviors.

PSYC 272. Research Methods in Behavior Analysis. 3 Units**Prerequisite(s):** PSYC 171 or PSYC 181.**Term Typically Offered:** Fall, Spring

Covers methods related to single-case research (i.e., data collection, logic, designs). Course content is based primarily on contemporary books and articles from peer-review journals. Topics include: measurement of behavior, methods of assessing inter-rater agreement; experimental design including, reversal designs, changing-criterion designs, alternating treatment designs, and multiple-baseline designs; and displaying and interpreting behavioral data. Current methodological issues will be discussed.

PSYC 274. Theoretical Foundations of Behavior Analysis. 3 Units**Prerequisite(s):** PSYC171 or PSYC181 or equivalent.**Term Typically Offered:** Fall, Spring

Covers major theories that have made significant contributions to behavior analysis, along with areas of significant research providing the foundations of radical behaviorism and contemporary behavior analysis. Topics include history of behaviorism, selection by consequences as a casual mode, pragmatism, determinism, logical positivism, dualism x monism, verbal behavior and private events.

PSYC 275. Applied Behavior Analysis in the Workplace. 3 Units**Prerequisite(s):** Graduate students only**Term Typically Offered:** Fall only

Overview of contemporary research and practice on the use of applied behavior analysis techniques in the workplace. Students will learn to use several performance assessment and improvement tools based on the operant learning literature, as well as learn strategies for effective supervision, training, and management of staff in human service organizations.

PSYC 281. Advanced Experimental Analysis of Behavior. 4 Units**Prerequisite(s):** PSYC 271.**Term Typically Offered:** Fall, Spring

Advanced consideration of small-N research designs. Analysis of complex contingencies of reinforcement and stimulus control as they apply to such topics as perceiving, thinking, abstractions, and concept formation. In-depth examination of behavior analytic principles in relation to choice behavior and verbal behavior.

PSYC 283. Teaching Of Psychology. 3 Units**Term Typically Offered:** Fall, Spring

Covers the historical background of higher education, the social and administrative structure of colleges and universities, and the selection, preparation and planning of undergraduate psychology courses, particularly introductory courses.

PSYC 284. Assessment and Treatment of Behavior Problems. 4 Units**Prerequisite(s):** Graduate status and instructor permission.**Term Typically Offered:** Fall, Spring

Advanced study and practical experience in application and teaching of behavior analytic methods of assessment, data collection, program construction and evaluation for a variety of behavior problems. Students will become proficient in conducting functional analyses, positive programming, and constructing and implementing behavior intervention programs for behavior excesses (consistent with State of California laws) including, antecedent manipulations, differential reinforcement schedules, functional communication training, and response cost. They will be required to develop didactic skills with respect to these various programs. Lecture three hours; Lab three hours.

PSYC 291. Professional Issues in Behavior Analysis. 3 Units**Prerequisite(s):** PSYC 271.**Term Typically Offered:** Fall, Spring

Classroom and on-site experience in applied behavior analysis. Students will work at an approved agency for a minimum of 10 hours per week under the supervision of a Board Certified Behavior Analyst. Students will also meet in class to present and review their cases. Emphasis will be placed on treatment integrity and ethics.

Note: Requires permission of instructor. May be repeated for credit.**PSYC 294. Cooperative Research. 1 - 6 Units****Term Typically Offered:** Fall, Spring

Students work cooperatively on a psychological research project under faculty supervision.

Note: Requires permission of instructor and the Department Chair. May be repeated once for credit.**PSYC 295A. Fieldwork in the Teaching of Psychology. 1 - 6 Units****Term Typically Offered:** Fall, Spring

Supervised experience in various educational and instructionally related tasks, such as leading discussion groups, setting up and presenting demonstrations, constructing and scoring tests, and tutoring, at selected educational institutions in the Sacramento area.

Note: Requires permission of instructor and the Department Chair. May be repeated once for credit.

Credit/No Credit

PSYC 295C. Fieldwork in Personnel and Organizational Psychology.**1 - 6 Units****Term Typically Offered:** Fall, Spring

Supervised work experience at a professional level in business and governmental organizations.

Note: Requires permission of instructor and the Department Chair. May be repeated once for credit.

Credit/No Credit

PSYC 295G. Fieldwork.**1 - 6 Units****Term Typically Offered:** Fall, Spring

Projects in contemporary areas of psychology under the supervision of one or more faculty.

Note: Requires permission of instructor and the Department Chair. May be repeated once for credit.

Credit/No Credit

PSYC 299. Special Problems. 1 - 6 Units Term Typically Offered: Fall, Spring	PT 280. Graduate PT Seminar II. 1 Unit Term Typically Offered: Fall, Spring
Individual projects or directed reading. Requires approval of instructor and Department Chair. Credit/No Credit	Presented after the final clinical field experience, will review students' experiences in the clinic and promote reflection on the professional practice of physical therapy. Serves as a review of a variety of physical therapy subjects in preparation for the licensure examination. Students will use computer interactive software to assist with preparation for this standardized national test format. Note: Open to Physical Therapy majors only.
PSYC 500A. Culminating Experience. 4 Units Prerequisite(s): Advanced to candidacy and permission of the graduate coordinator. Term Typically Offered: Fall, Spring	PT 295. Physical Therapy Clinical Experience. 1 - 3 Units Term Typically Offered: Fall, Spring
Completion of a thesis or project approved for the Master's degree.	Supervised clinical affiliation equivalent to two full-time weeks up to six full-time weeks in a physical therapy setting under the direct supervision of a licensed Physical Therapist. Note: Placement is arranged through the Program. Permission of Clinical Coordinator required.
PSYC 500B. Culminating Experience. 2 Units Prerequisite(s): PSYC 500A. Term Typically Offered: Fall, Spring	Credit/No Credit
Continuation of work on thesis or project.	PT 299. Special Problems. 1 - 3 Units Term Typically Offered: Fall, Spring
<h2>Physical Therapy (PT)</h2>	
PT 130. Pathophysiology. 2 Units Prerequisite(s): BIO 22 or equivalent, BIO 131 or equivalent. Term Typically Offered: Fall, Spring	Individual projects or directed reading designed for students capable of independent study. Note: Admission requires written approval of instructor and program director.
Designed to promote the understanding and application of fundamental disease processes in clinical settings. General concepts of disease, including etiology, pathogenesis, morphology, and clinical significance are discussed. General pathophysiology concepts include: cell injury, necrosis, inflammation, wound healing, and neoplasia. These concepts are applied in a systems-oriented approach to disease processes affecting musculoskeletal, cardiopulmonary, renal, nervous, gastrointestinal, immune, hematological, and endocrine systems. Lecture two hours.	Credit/No Credit
PT 260A. Graduate PT Seminar IA. 1 Unit Prerequisite(s): PT 200, PT 202, PT 204, PT 206, PT 208, PT 220, PT 222, PT 224, PT 225, PT 226, PT 300 and if taken in the spring: PT 227, PT 240, PT 244, PT 245, PT 246, PT 248. Term Typically Offered: Fall, Spring	PT 400A. Clinical Practicum II. 4 Units Term Typically Offered: Fall, Spring
Advanced study and mentoring in foundational and clinical sciences in physical therapy. Students may be chosen to mentor in select courses identified by faculty to be arranged prior to the first class session. Note: Open to Physical Therapy Majors only.	This component of the PT 400 clinical certificate series totals 8 weeks of progressively responsible full-time clinical education in an inpatient, outpatient, long term care, home health care, or pediatric setting under direct supervision of a licensed PT. Students improve, refine and master evaluation and treatment abilities developed during Physical Therapy master's curriculum. Note: Open to Physical Therapy majors only who have successfully completed two years of the master's curriculum and the Clinical Practicum I experience.
PT 260B. Graduate Pt Seminar IB. 1 Unit Prerequisite(s): PT 200, PT 202, PT 204, PT 206, PT 208, PT 220, PT 222, PT 224, PT 225, PT 226, PT 227, PT 240, PT 244, PT 245, PT 246, PT 248, PT 300. Term Typically Offered: Fall, Spring	Credit/No Credit
Advanced study in foundational and clinical sciences in physical therapy. Students may choose from a selection of current topics to be arranged prior to the first class session. Note: Open to Physical Therapy majors only.	PT 400B. Clinical Practicum III. 4 Units Term Typically Offered: Fall, Spring
	This component of the PT 400 clinical certificate series totals 8 weeks of progressively responsible full-time clinical education in an inpatient, outpatient, long term care, home health care, or pediatric setting under direct supervision of a licensed PT. Students improve, refine and master evaluation and treatment abilities developed during the Physical Therapy master's curriculum. Note: Open to Physical Therapy majors only who have successfully completed two years of the master's curriculum, Clinical Practicum I and II experience.
	Credit/No Credit

<p>PT 400C. Clinical Practicum IV. 4 Units Term Typically Offered: Fall, Spring</p>	<p>PT 608. PT/Patient/Professional Interactions. 2 Units Corequisite(s): BIO 633, PT 600, PT 602, PT 630. Term Typically Offered: Fall, Spring</p>
<p>This third component of the PT 400 clinical certificate series totals 8 weeks of progressively responsible full-time clinical education in an inpatient, outpatient, long term care, home health care, or pediatric setting under direct supervision of a licensed PT. Students improve, refine and master evaluation and treatment abilities developed during the Physical Therapy master's curriculum. Note: Open to Physical Therapy majors only who have successfully completed two years of the master's curriculum and Clinical Practicum I, II, and III.</p>	<p>The course prepares physical therapy students to learn about themselves, others, and the environment in which they will interact with others as professionals. It addresses professionalism, self-awareness, communication, cultural competence, ethics, documentation, and end-of-life care. This course assists students with transitioning into their professional roles. Note: Graduate Writing Intensive (GWI) course; open to Physical Therapy majors only.</p>
<p>Credit/No Credit</p>	<p>PT 614. Neuroscience for Physical Therapy. 3 Units Prerequisite(s): BIO 633, PT 600, PT 602, PT 608, PT 630. Corequisite(s): PT 604, PT 606, PT 618, PT 620, PT 622. Term Typically Offered: Fall, Spring</p>
<p>PT 600. Pathokinesiology. 5 Units Prerequisite(s): Open to Physical Therapy majors only. Corequisite(s): BIO 633, PT 602, PT 608, PT 630. Term Typically Offered: Fall, Spring</p> <p>This course will address functional anatomy, surface anatomy with palpation, arthrology, biomechanics, pathologies related to the musculoskeletal and nervous systems. Both normal motion and pathological motion will be addressed. Students will gain competence in surface anatomy and palpation skills.</p>	<p>This course is designed to prepare clinicians to better understand the neurological control of human behavior. A systems approach is used to examine the major anatomical and physiological principles and mechanisms by which the nervous system controls behavior under normal and pathological conditions. Because the course is being taught to health care professionals, clinical correlates of each system will also be presented. One class session is dedicated to presentation of human gross anatomical specimens.</p>
<p>PT 602. Evidence Informed Practice I. 3 Units Prerequisite(s): Open to Physical Therapy majors only. Corequisite(s): BIO 633, PT 600, PT 608, PT 630. Term Typically Offered: Fall, Spring</p>	<p>PT 618. Foundations for Patient Management. 1 Unit Prerequisite(s): BIO 633, PT 600, PT 602, PT 608, PT 630. Corequisite(s): PT 604, PT 606, PT 614, PT 618, PT 620, PT 622. Term Typically Offered: Fall, Spring</p>
<p>This course is designed to teach students to critically read and interpret the physical therapy scientific literature. Topics will include research design and statistical testing procedures commonly used in physical therapy. Students will review and critique current physical therapy articles utilizing the research designs and statistical testing procedures being studied.</p>	<p>This course introduces the disablement model that forms the conceptual framework for understanding and organizing the practice of physical therapy. The model delineates the possible consequences of disease and injury for the person and society. The course goes on to identify how the model informs the five elements of patient management: Examination, Evaluation, Diagnosis, Prognosis (including Plan of Care), and Intervention. The course will further expand on professionalism introduced in PT 608. Note: Open to Physical Therapy majors only.</p>
<p>PT 604. Principles of Human Movement. 2 Units Prerequisite(s): BIO 633, PT 600, PT 602, PT 608, PT 630. Corequisite(s): PT 606, PT 614, PT 618, PT 620, PT 622. Term Typically Offered: Fall, Spring</p>	<p>PT 620. Physical Therapy Interventions I. 3 Units Prerequisite(s): BIO 633, PT 600, PT 602, PT 608, PT 630. Corequisite(s): PT 604, PT 606, PT 614, PT 618, PT 622. Term Typically Offered: Fall, Spring</p>
<p>This course focuses on developing an understanding of components of human movement under normal and pathological conditions. Content includes the American Physical Therapy Association Model of Practice, models of disablement, contemporary concepts of motor learning and motor control, task analysis, and theories of the recovery of function. The course includes a review of the foundations of neuroanatomy for normal movement. Note: Open to Physical Therapy majors only.</p>	<p>In this course students learn, practice and demonstrate the clinical application of basic exercise regimes for the prevention of limitations, improvement of functional abilities and the treatment of disorders associated with the neuromuscular, skeletal and cardiopulmonary systems. In addition, the application of motor control principles to exercise and aquatic therapy are addressed. Note: Open to Physical Therapy majors only.</p>
<p>PT 606. Therapeutic Measurements and Techniques. 4 Units Prerequisite(s): BIO 633, PT 600, PT 602, PT 608, PT 630. Corequisite(s): PT 604, PT 614, PT 618, PT 620, PT 622. Term Typically Offered: Fall, Spring</p>	<p>In this course students acquire general physical therapy examination, evaluation and patient handling skills. Students will practice and demonstrate techniques under faculty supervision in the following areas: Measurement of vital signs, manual strength testing, testing of joint range of motion and muscle length, patient positioning, transfer techniques, gait training, use of wheelchairs, and use of assistive devices. Note: Open to Physical Therapy majors only.</p>

PT 622. Evidence Informed Practice II.**3 Units****Corequisite(s):** PT 604, PT 606, PT 614, PT 618, PT 620.**Term Typically Offered:** Fall, Spring

Designed to build upon the data analysis and research design topics covered in PT 602. Emphasis will be placed on evidence based methodologies currently used in the physical therapy literature evaluating the effectiveness of interventions, the validity of outcome measures, the validity of diagnostic measures, and the identification of prognostic measures.

Note: Open to Physical Therapy majors only. Prerequisite**PT 624. Adult Neuromuscular Patient Management I.****4 Units****Prerequisite(s):** BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 630, PT 632, PT 634, PT 636, PT 638.**Corequisite(s):** PT 625, PT 626, PT 640, PT 646.**Term Typically Offered:** Fall, Spring

This course is first in a three course sequence focused on acquisition and integration of knowledge and skills needed to manage patients with movement dysfunction caused by neurological damage (Referred to in the Guide as Neuromuscular Practice Patterns). Focus is on development and implementation of plans of care based on sound evaluative, treatment and problem-solving skills.

Note: Open to Physical Therapy majors only.**PT 625. Musculoskeletal Patient Management I.****4 Units****Prerequisite(s):** BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 630, PT 632, PT 634, PT 636, PT 638.**Corequisite(s):** PT 624, PT 626, PT 640, PT 646.**Term Typically Offered:** Fall, Spring

This course, the first of three, focuses on acquisition, integration, knowledge and skills involved in developing and implementing a patient management plan for the patient with musculoskeletal dysfunction based on sound evaluative findings. Lectures address etiology, signs and symptoms, medical, surgical, and physical therapy management of musculoskeletal dysfunction. Labs address skill development for performing evaluation and interventions safely and effectively. The course addresses the management of lower extremity dysfunction.

Note: Open to Physical Therapy majors only.**PT 626. Clinical Agents.****3 Units****Prerequisite(s):** BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 630, PT 632, PT 634, PT 636, PT 638.**Corequisite(s):** PT 624, PT 625, PT 640, PT 646.**Term Typically Offered:** Fall, Spring

This course presents theory, demonstration and laboratory practice in physical therapy modalities and techniques including thermal agents, hydrotherapy, ultrasound (US), ultraviolet, diathermy and massage. Theory, demonstration and practice using electrical modalities are included. Case studies will be utilized for decision making in the proper application of modalities based on current research evidence, knowledge of indications, contradictions and physiologic effects.

Note: Open to Physical Therapy majors only.**PT 627. Physical Therapy Educator.****1 Unit****Prerequisite(s):** BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 646.**Corequisite(s):** PT 644, PT 645, PT 648, PT 662, PT 669.**Term Typically Offered:** Fall, Spring

This course presents the role of the physical therapist as health educator. The course introduces teaching and learning theory, learning domains, the identification of learning styles, and teaching strategies to address different learner needs across the life-span. Students will practice instructional formats and prepare and analyze patient education materials. Students will practice applications of appropriate technology for the design of professional presentations. Self-assessment, reflection and peer-assessment are required course components.

Note: Open to Physical Therapy majors only.**PT 630. Pathophysiology.****3 Units****Prerequisite(s):** Admission to the Doctor of Physical Therapy Program.**Corequisite(s):** BIO 633, PT 600, PT 602, PT 608.**Term Typically Offered:** Fall, Spring

This course is designed to promote the understanding and application of fundamental disease processes in clinical settings. General concepts of disease, including etiology, pathogenesis, morphology, and clinical significance are discussed within the context of cases. General pathophysiology concepts include: cell injury, necrosis, inflammation, wound healing and neoplasia. These concepts are applied in a systems-orientated approach to disease processes affecting musculoskeletal, cardiopulmonary, renal, nervous, gastrointestinal, immune, hematological and endocrine systems.

PT 632. Pharmacology for Physical Therapists.**2 Units****Prerequisite(s):** BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 630.**Corequisite(s):** PT 634, PT 636, PT 638.**Term Typically Offered:** Fall, Spring

This course provides a study of pharmacological agents and their effects on the musculoskeletal, neuromuscular, cardiopulmonary and integumentary systems. Particular emphasis is placed on recognition of adverse reactions and side effects of various drugs as they affect patients receiving physical therapy.

Note: Open to Physical Therapy Majors only.**PT 634. Diagnostic Imaging for Physical Therapy.****2 Units****Prerequisite(s):** BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 630.**Corequisite(s):** PT 632, PT 636, PT 638.**Term Typically Offered:** Fall, Spring

This course provides an overview of imaging techniques commonly used in radiology and their implications to the role of physical therapists in professional practice. The role of imaging techniques in the diagnostic and intervention-planning processes for physical therapists is presented.

Note: Open to Physical Therapy Majors only.

PT 636. Geriatrics/Gerontology for Physical Therapists. 2 Units

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 630.

Corequisite(s): PT 632, PT 634, PT 638.

Term Typically Offered: Fall, Spring

This course explores normal and pathological aging and the implications of both on Physical therapist practice. It will explore the ramifications of aging components of patient management interventions including major practice patterns: musculoskeletal, neuromuscular, cardiopulmonary, and integumentary. It will also explore how aging may impact patient teaching.

Note: Open to Physical Therapy majors only.

PT 638. Health, Wellness and Ergonomics in Physical Therapy. 2 Units

Prerequisite(s): BIO 633, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 630.

Corequisite(s): PT 632, PT 634, PT 636.

Term Typically Offered: Fall, Spring

This course presents basic philosophical, historical, psychological and scientific foundations in wellness; reviews cultural forces/theories that affect individuals and society; applies concepts of healthy lifestyle education to reach an understanding of the importance of wellness and to establish an effective and potentially fulfilling lifestyle. Ergonomic concepts as they apply to patient and self (to maintain and prevent future injuries, especially repetitive) will be covered as one preventative strategy.

Note: Open to Physical Therapy majors only.

PT 640. Physical Therapy Interventions II. 3 Units

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 630, PT 632, PT 634, PT 636 and PT 638.

Corequisite(s): PT 624, PT 625, PT 626, PT 640, PT 646, PT 660A.

Term Typically Offered: Fall, Spring

This course is a continuation of Physical Therapy Interventions I. This course focuses on the presentation of selected topics in acute care and cardiopulmonary Physical Therapy. Students will learn how to perform appropriate and comprehensive examinations, interpret the examination findings as well as design and implement a plan of care based upon the next available evidence.

Note: Open to Physical Therapy majors only.

PT 644. Adult Neuromuscular Patient Management II. 4 Units

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640 and PT 646.

Corequisite(s): PT 627, PT 645, PT 648, PT 662, PT 669.

Term Typically Offered: Fall, Spring

This course is the second in a three course sequence focused on acquisition and integration of knowledge and skills needed to manage patients with movement dysfunctions caused by neurological damage (Referred to in the Guide as Neuromuscular Practice Patterns). Focus is on development and implementation of plans of care based on sound evaluative findings and evidence of efficacy. Case presentation, video demonstrations, and patient contact is used to develop evaluation, treatment and problem solving skills.

Note: Open to Physical Therapy majors only.

PT 645. Musculoskeletal Patient Management II. 4 Units

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640 and PT 646.

Corequisite(s): PT 627, PT 644, PT 645, PT 648, PT 662, PT 669.

Term Typically Offered: Fall, Spring

This course, the second of three, focuses on acquisition and integration of knowledge and skills involved in developing and implementing management plans for patients with musculoskeletal dysfunction from sound evaluative findings. Lectures address etiology, signs and symptoms, medical, surgical, and physical therapy management of musculoskeletal dysfunction. Labs address safe and effective evaluation and interventions, specifically joint mobilizations. Joint mobilizations will cover one technique per joint restriction. This course addresses upper extremity and spine dysfunction.

Note: Open to Physical Therapy majors only.

PT 646. Acute Care and Cardiopulmonary Physical Therapy. 2 Units

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 630, PT 632, PT 634, PT 636 and PT 638.

Corequisite(s): PT 624, PT 625, PT 626, PT 640.

Term Typically Offered: Fall, Spring

This course focuses on the presentation of selected topics in acute care and cardiopulmonary Physical Therapy. The course includes a discussion of common pathologies in the cardiopulmonary system and those associated with an acute care setting, as well as common medical tests, laboratory tests, surgical procedures and pharmacological interventions used with this patient population.

Note: Open to Physical Therapy majors only.

PT 648. Health Care Delivery in Physical Therapy I. 2 Units

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640 and PT 646.

Corequisite(s): PT 627, PT 644, PT 645, PT 662, PT 669.

Term Typically Offered: Fall, Spring

This course provides a historical overview of health care delivery and financing in the U.S., up to and including the current effects on the delivery of physical therapy care. The continuum of care concept, an overview of national economic policy and the mechanisms for financing physical therapy services will be presented. Administrative topics including human resources, financial management, planning, marketing, patient's rights, and medical records management will be covered.

Note: Open to Physical Therapy majors only.

PT 660A. Graduate Physical Therapy Seminar 1A: Research. 1 Unit

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 630, PT 632, PT 634, PT 636 and PT 638

Corequisite(s): PT 624, PT 625, PT 626, PT 640, PT 646

Term Typically Offered: Fall, Spring

This seminar is the first designed for advanced study and mentoring in physical therapy research. Students will be participating in faculty-directed research projects. Students' activities will vary depending on the faculty member and research project being conducted. Students are required to perform at least 50 hours of activities toward the directed research project to receive credit for this course. This course satisfies one of two requirements for selected seminars in the curriculum.

PT 660B. Graduate Physical Therapy Seminar IB: Research. 1 Unit

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640 and PT 646.

Corequisite(s): PT 627, PT 644, PT 645 PT 648, PT 662, PT 669.

Term Typically Offered: Fall, Spring

This seminar is the second designed for advanced study and mentoring in physical therapy research. Students will be participating in faculty-directed research projects. Students' activities will vary depending on the faculty member and research project being conducted. Students are required to perform at least fifty hours of activities toward the directed research project to receive credit for this course. This course satisfies one of two requirements for selected seminars in the DPT curriculum.

Note: Open to Physical Therapy majors only.

PT 660C. Graduate Physical Therapy Seminar IC: Research. 1 Unit

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 627, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 644, PT 645, PT 646, PT 648, PT 662, PT 669.

Corequisite(s): PT 663, PT 664, PT 665, PT 668, PT 680, PT 690.

Term Typically Offered: Fall, Spring

This seminar is the third designed for advanced study and mentoring in physical therapy research. Students will be participating in faculty directed research projects. Students' activities will vary depending on the faculty member and research project being conducted. Students are required to perform at least 50 hours of activities toward the directed research project to receive credit for this course. This course satisfies one of two requirements for selected in the DPT curriculum.

Note: Open to Physical Therapy majors only.

PT 660D. Graduate Physical Therapy Seminar ID: Electrotherapeutics. 2 Units

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 627, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 646.

Corequisite(s): PT 627, PT 644, PT 645, PT 648, PT 662, PT 669.

Term Typically Offered: Fall, Spring

This is a seminar laboratory experience focusing on electrophysiology and electrodiagnostics in physical therapy. The lab will allow students to research and apply evidence-based practice and gain advanced hands-on practice in performing and interpreting the results of electromyographic and nerve conduction velocity testing with clients. This course satisfies one of two requirements for selected seminars in the curriculum.

Note: Open to Physical Therapy majors only.

PT 660E. Graduate Physical Therapy Seminar IE: NeuroPediatric Laboratory. 2 Units

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 627, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 644, PT 645, PT 646, PT 648, PT 662, PT 669.

Corequisite(s): PT 663, PT 664, PT 665, PT 668, PT 680, PT 690.

Term Typically Offered: Fall, Spring

This seminar laboratory experience focuses on pediatric patient management. The lab will allow students to research and apply evidence-based practice and gain advanced hands-on practice in pediatric physical therapy. This course is best suited for students planning a career in pediatric patient management. The course satisfies one of two requirements for selected seminars in the curriculum.

Note: Open to Physical Therapy majors only.

PT 660F. Graduate Physical Therapy Seminar IF: Adult Neuromuscular Laboratory. 2 Units

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 627, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 646, PT 644, PT 645, PT 648, PT 662, PT 669.

Corequisite(s): PT 663, PT 664, PT 665, PT 668, PT 680, PT 690.

Term Typically Offered: Fall, Spring

This seminar laboratory experience focuses on adult neuromuscular patient management. The laboratory will allow students to research and apply evidence-based practice and gain advanced hands-on practice in adult neurorehabilitation. Students will also serve as mentors for the Mock Clinic portion of PT 624. This course satisfies one of two requirements for selected seminars in the curriculum.

Note: Open to Physical Therapy majors only.

PT 660G. Certified Strength and Conditioning Specialist (CSCS). 2 Units

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 644, PT 645, PT 646, PT 648, PT 662, PT 669.

Corequisite(s): PT 663, PT 664, PT 665, PT 668

Term Typically Offered: Fall, Spring

This seminar is designed to prepare students to take the Certified Strength and Conditioning Specialist Examination. The seminar covers the topics of exercise physiology, bioenergetics, nutritional factors in performance, resistance, speed, and agility training, endocrine responses to resistance training, exercise testing, and other training considerations. This course satisfies one of two requirements for selected seminars in the curriculum.

Note: Open to Physical Therapy majors only.

PT 660H. Graduate Physical Therapy Seminar H: Cardiovascular Wellness Clinic Experience. 1 Unit

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 644, PT 645, PT 646, PT 648, PT 662, PT 669.

This elective provides mentored clinical experience for students in the area of cardiovascular well ness. The student will design and implement an evaluation of a volunteer client in a cardiovascular well ness program, develop an individualized plan of care, and monitor the impact of the intervention. A written comprehensive case report will analyze the impact of the interventions on the cardiovascular well ness of the client.

Note: Open to Physical Therapy majors only.

PT 660K. Graduate Physical Therapy Seminar 1K Adv. Biomechanics II. 2 Units

Prerequisite(s): BIO 633, PT 600, PT 602, PT 608, PT 630, PT 604, PT 606, PT 614, PT 618, PT 620, PT 622, PT 632, PT 634, PT 636, PT 638, PT 624, PT 625, PT 626, PT 640, PT 696J

Corequisite(s): PT 627, PT 644, PT 645, PT 648, PT 669, PT 662

This elective is designed to prepare students to run a gait analysis clime in the biomechanics laboratory. The course is one unit of lecture and one unit of lab, and covers the topics of assessment of balance, lower extremity strength assessment, special tests, and running analysis from both the research "gold standard" as well as the clinically feasible perspective with a particular focus on running.

PT 662. Differential Diagnosis in Physical Therapy. 3 Units

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640 and PT 646.

Corequisite(s): PT 627, PT 644, PT 645, PT 648, PT 669.

Term Typically Offered: Fall, Spring

This course focuses on learning and practicing screening techniques for physical therapists to detect medical or other problems for which a referral to a medical doctor or another health care provider is indicated. Students will learn to screen patients for dysfunction in a variety of physiological systems by taking medical history, medication history, performing a risk factor assessment and manual examination, and screening various physiological systems.

Note: Open to Physical Therapy majors only.

PT 663. Integumentary Patient Management. 2 Units

Prerequisite(s): BIO 633, PT 600, 602, 604, 606, 608, 614, 618, 620, 622, 624, 625, 626, 627, 630, 632, 634, 636, 638, 640, 644, 645, 646, 648, 662, 669 and 695A.

Corequisite(s): PT 664, PT 665, PT 668, PT 680, PT 690.

Term Typically Offered: Fall, Spring

This course focuses on the management of patients with integumentary impairments and their related sequelae. Topics include post-surgical management of patients with amputations, prosthetics, and management of the patient with a wound or burn injury. Lecture, case presentation, video demonstrations, and laboratory activities will be used to develop patient management skills.

Note: Open to Physical Therapy majors only.

PT 664. Neuropediatric Patient Management. 2 Units

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 627, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 644, PT 645, PT 646, PT 648, PT 662, PT 669 and PT 695A.

Corequisite(s): PT 663, PT 665, PT 668, PT 680, PT 690.

Term Typically Offered: Fall, Spring

This course is the third part of a three course series focusing on the acquisition and integration of knowledge and skills involved in developing and implementing a treatment plan based on sound evaluative findings for the patient with neurological dysfunction. In this course, the focus is on the pediatric patient with neurological dysfunction. Case presentation, video demonstrations, and actual patient contact will be used to develop evaluation, treatment, and problem-solving skills.

Note: Open to Physical Therapy Majors only.

PT 665. Musculoskeletal Patient Management III. 3 Units

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 627, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 644, PT 645, PT 646, PT 648, PT 662, PT 669, PT 695A. Corequisite: PT 663, PT 664, PT 668, PT 690.

Term Typically Offered: Fall, Spring

This course builds on the foundational intervention techniques established for management of the patient with musculoskeletal dysfunction in PT 625 and PT 645. It will address additional manual therapy skills and students will apply their developing skills under faculty supervision to patients referred from the Student Health Center. Students will be responsible for patient management of a case load including accurate documentation and submission of patient records to the Student Health Center.

Note: Open to Physical Therapy Majors only.

PT 668. Health Care Delivery in Physical Therapy II. 2 Units

Prerequisite(s): BIO 633, PT 600, 602, 604, 606, 608, 614, 618, 620, 622, 624, 625, 626, 627, 630, 632, 634, 636, 638, 640, 644, 645, 646, 648, 662, 669 and 695A.

Corequisite(s): PT 663, PT 664, PT 665, PT 680, PT 690.

Term Typically Offered: Fall, Spring

In this course, students will have professional practice behavior expectations and requirements previously introduced in other courses reinforced through the review of the American Physical Therapy Association documents: the Standard of Practice for Physical Therapy and the Code of Ethics, as well as the State of California's Physical Therapy Practice Act. Additionally, students will hear from other health care professionals on their expectations of the physical therapist's role on a health care team.

Note: Open to Physical Therapy majors only.

PT 669. Psychosocial Issues in Physical Therapy. 1 Unit

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640 and PT 646.

Corequisite(s): PT 627, PT 644, PT 645, PT 648, PT 662.

Term Typically Offered: Fall, Spring

This course examines psychological and social impact of and reactions to illness and physical disability. Explores elements of the psycho-social dynamics related to disability with a focus on adjustments required of the disabled and the provider. The course addresses social, cultural, personal, and familial factors which impact comprehensive rehabilitation in the clinical setting. Attention will be placed on interpersonal relationships between patients, family, health care providers, and society.

Note: Open to Physical Therapy majors only.

PT 680. Graduate Physical Therapy Seminar II. 1 Unit

Prerequisite(s): BIO 633, PT 600, 602, 604, 606, 608, 614, 618, 620, 622, 624, 625, 626, 627, 630, 632, 634, 636, 638, 640, 644, 645, 646, 648, 662 and 669.

Corequisite(s): PT 663, PT 664, PT 665, PT 668, PT 690.

Term Typically Offered: Fall, Spring

This course, presented just prior to the final clinical internships, will review student's experiences in the curriculum and promote reflection on the professional practice of physical therapy. The course will review professional core values and expectations for clinical internships. The course will also review portfolio requirements to determine students' readiness to proceed into final internships. In addition, students will be expected to develop five year personal professional development plans.

Note: Open to Physical Therapy majors only.

PT 689. Doctoral Project Proposal. 1 Unit

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, and PT 646

Corequisite(s): PT 627, PT 644, PT 645, PT 648, PT 662, and PT 669

The Doctoral Project Proposal must demonstrate students' understandings of the application of current evidence-based practice in a multicultural and complex health care environment. The proposal must be of sufficient rigor to ensure students' demonstrations of critical and independent thinking and abilities to interpret the research literature and apply to current physical therapist practice. The proposal includes a written document and oral defense. Open to Physical Therapy Majors only.

Credit/No Credit

PT 690. Doctoral Project/Culminating Experience. 3 Units

Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 627, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 644, PT 645, PT 646, PT 648, PT 662, PT 663, PT 664, PT 665, PT 668, PT 669, PT 680, and PT 695A

Term Typically Offered: Fall, Spring

The Doctoral Project/Culminating Experience may include evidence-based practice projects, clinical research projects, or case reports consistent with the Chancellor's Office Executive Order. Culminating events must demonstrate students' understandings of the application of current evidence-based practice in a multicultural and complex health care environment. They must be of sufficient rigor to ensure students' demonstrations of critical and independent thinking and abilities to interpret the research literature and apply to current physical therapist practice.

PT 695A. Clinical Internship I. 6 Units

Prerequisite(s): BIO 633, PT 600, 602, 604, 606, 608, 614, 618, 620, 622, 624, 625, 626, 627, 630, 632, 634, 636, 638, 640, 644, 645, 646, 648 and PT 669

Term Typically Offered: Fall, Spring

This first component of the clinical certificate series of the Doctor of Physical Therapy (DPT) program curriculum totals 12 weeks of progressively responsible full-time clinical education per student under the direct supervision of a licensed physical therapist. Students improve and refine evaluation and treatment abilities developed during their first two academic years and integrate knowledge and skills in a selected variety of clinic settings.

Note: Open to Physical Therapy majors only who have successfully completed the first two years of the DPT curriculum.

Credit/No Credit

PT 695B. Clinical Internship II. 6 Units

Prerequisite(s): BIO 633, PT 600, 602, 604, 606, 608, 614, 618, 620, 622, 624, 625, 626, 627, 630, 632, 634, 636, 638, 640, 644, 645, 646, 648, 669 and 695A.

Term Typically Offered: Fall, Spring

This second component of the clinical education series of the Doctor of Physical Therapy (DPT) program curriculum totals twelve weeks of progressively responsible full-time clinical education under the direct supervision of a licensed physical therapist. Students improve and refine patient management skills and abilities developed during their first seven semesters and integrate knowledge and skills in a selected clinical setting.

Note: Open to Physical Therapy majors only who have successfully completed the first seven semesters of the DPT curriculum.

Credit/No Credit

PT 695C. Clinical Internship III. 6 Units

Term Typically Offered: Fall, Spring

This third component of the clinical education series of the Doctor of Physical Therapy (DPT) program curriculum totals twelve weeks of progressively responsible full-time clinical education under the direct supervision of a licensed physical therapist. Students improve and refine patient management skills and abilities developed during their first eight semesters and integrate knowledge and skills in a selected clinic setting.

Note: Open to Physical Therapy majors only who have successfully completed two years of the DPT curriculum. Prerequisite

Credit/No Credit

PT 696J. Graduate Physical Therapy Seminar IJ Adv. Biomechanics I. 2 Units

Prerequisite(s): BIO 633, PT 600, PT 602, PT 608, PT 630, PT 604, PT 606, PT 614, PT 618, PT 620, PT 622, PT 632, PT 634, PT 636, PT 638, PT 624, PT 625, PT 626, PT 640, and PT 646

Corequisite(s): PT 627, PT 644, PT 645, PT 648, PT 669, and PT 662

This elective is designed to prepare students to run a gait analysis clinic in the biomechanics laboratory. The course is one unit of lecture and one unit of lab, and covers the topics of assessment of balance, lower extremity strength assessment, special tests, and running analysis from both the research "gold standard" as well as the clinically feasible perspective with a particular focus on running.

Note: Fall semester only

Punjabi (PUNJ)

PUNJ 1A. Elementary Punjabi.

4 Units

Term Typically Offered: Fall only

Introduction to Punjabi as spoken in India and Pakistan. Instruction will be in all four language skills: speaking, reading, listening and writing. In addition to getting a start in modern Punjabi, students will also learn about social aspects of the use of Punjabi.

PUNJ 1B. Elementary Punjabi.

4 Units

Prerequisite(s): PUNJ 1A.

General Education Area/Graduation Requirement: Humanities (Area C2), Foreign Language Graduation Requirement

Term Typically Offered: Spring only

Continuation of PUNJ 1A, with emphasis on reading, writing, listening and speaking. Punjabi culture and its reflection in the language is given continued attention.

Real Estate & Land Use (RELU)

RELU 199. Special Problems in Real Estate and Land Use Affairs.

1 - 3 Units

Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work. Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.

Credit/No Credit

Recreation, Parks, and Tourism Administration (RPTA)

RPTA 1. Orientation to Recreation, Parks and Tourism Administration.

1 Unit

Prerequisite(s): RPTA majors only or instructor permission.

Term Typically Offered: Fall, Spring

Introduction to the RPTA major with an emphasis on degree options, major advising, referrals to GE for general advising, information about the RPTA undergraduate student association, other local, statewide and national professional associations, scholarship opportunities, the 600-hour volunteer/paid placement prior to the internship, an overview of the internship process and a discussion about producing work in core and non-core RPTA courses for the portfolio requirement.

Credit/No Credit

RPTA 21. First Year Seminar: Becoming an Educated Person.

3 Units

General Education Area/Graduation Requirement: Understanding Personal Development (E)

Term Typically Offered: Fall only

Freshman seminar intended to provide students with an introduction to the nature and possible meanings of higher education and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Also provide students with an opportunity to interact with fellow students and the seminar leader and to build a community of academic and personal support.

RPTA 30. Recreation, Parks and Tourism in Contemporary Society.

3 Units

Term Typically Offered: Fall, Spring

Orientation to the nature, scope and significance of the recreation, park and tourism in today's world. Analyzes philosophical and related elements essential to the effective delivery of leisure services, including the role of affective, cognitive and social motivations and outcomes.

RPTA 32. Leadership and Group Development.

3 Units

General Education Area/Graduation Requirement: Understanding Personal Development (E)

Term Typically Offered: Fall, Spring

The purpose of this course is for students to develop an understanding of the theory and practice of leadership in various recreational organizational settings. The course will allow students the opportunity to develop leadership skills through lectures, self-assessments, experiential exercises, class discussions and case studies. Students are exposed to diverse theories and perspectives on leadership and are encouraged to apply critical thinking skills to develop their own working philosophy of the leadership that will serve them in their career contexts.

RPTA 33. Race, Class Gender and Leisure.

3 Units

General Education Area/Graduation Requirement: GE AREA D

Term Typically Offered: Fall, Spring

Examination of the role of leisure in the social construction of markers of identity across gender, race, class, sexuality and disability; and leisure's role in the construction of institutional oppressions such as racism, sexism, homophobia and discrimination based on class and disability.

RPTA 34. The Outdoor Recreation Experience.

3 Units

General Education Area/Graduation Requirement: Understanding Personal Development (E)

Term Typically Offered: Fall, Spring

Encourages the student to identify and demonstrate an understanding of the value, meaning and benefits of outdoor recreation experiences and to explore a variety of outdoor adventure experiences. Outing skills such as trip planning, meal preparation, camp selection and set-up, equipment and clothing, map and compass, hygiene and first aid will be discussed and practiced. Students will also develop an awareness of and appreciation for minimum impact wilderness travel techniques and environmental responsibility and ethics.

RPTA 42. Recreation and Parks: Natural, Cultural, and Heritage Resources.

3 Units

Prerequisite(s): RPTA majors and minors only, or instructor permission.

Term Typically Offered: Fall, Spring

Examines the use of natural, cultural, and heritage resources for recreation, tourism and leisure purposes in a variety of settings and under the auspices of various agencies. Includes study of various protected areas and facilities, including parks, forests, museums, and cultural sites and how they are influenced by social trends, conflicting use demands, agency responsibilities, environmental considerations, and fiscal implications.

RPTA 50. Introduction to Rock Climbing.**1 Unit****Term Typically Offered:** Fall, Spring

Designed to provide students with the basic knowledge, skills, and techniques of modern rock climbing. Students will learn skills pertaining to indoor top-rope and lead climbing, indoor and outdoor bouldering, and outdoor sport climbing. Students will also learn and discuss outdoor ethics and environmental impact in relation to rock climbing.

RPTA 60. Budgeting for Recreation Services.**3 Units****Prerequisite(s):** RPTA major and minors only, or instructor permission.**Term Typically Offered:** Fall only

Introduces students to budget topics in Recreation, Parks, and Tourism, through the use of theoretical readings, case studies, and a series of professional speakers. Students will gain a broad understanding of the planning and implementation of the budget process for a leisure service agency, primarily those that are non-profit or tax-supported.

Note: Only one of RPTA 60 or RPTA 61 may be counted for credit**RPTA 61. Cost Management for Hospitality.****3 Units****Prerequisite(s):** RPTA major and minors only, or instructor permission.**Term Typically Offered:** Spring only

Introduces students to a broad range of topics related to cost management in hospitality, and teaches students to analyze numerical data for decision-making in hospitality operations. Considers systems, techniques, information types, and presentational forms commonly used by hospitality managers. Additional topics include, financial statements and ratio analysis, various pricing methods, types of costs in hospitality and service industries, cost-volume-profit techniques, and the application of standard cost controls used in hospitality.

Note: Only one of RPTA 60 or RPTA 61 may be counted for credit**RPTA 62. Introduction to Recreation Law.****3 Units****Prerequisite(s):** RPTA majors and minors only, or instructor permission.**Term Typically Offered:** Fall, Spring

Introduces students to legal topics and regulations in Recreation, Parks and Tourism industries. Students are given a practical knowledge of the law, operation of the legal system, contracts, and legal applications to agency management, human rights and personnel. Course uses text book readings, case law from actual published decisions in the field of Recreation law, courtroom visitations, and professional speakers.

RPTA 80. Introduction to Hospitality and Tourism.**3 Units****Term Typically Offered:** Fall only

Hospitality and tourism are vitally important to California's image and economy, and these two related industries are among the world's top employment providers. This course provides an introductory overview of the broad hospitality and tourism industries, covering several topics, including growth and development, trends and current concerns, and professional employment sectors.

RPTA 96B. Budgeting for Recreation Services.**3 Units****Prerequisite(s):** RPTA majors or minors only**Term Typically Offered:** Fall, Spring

Introduces students to budget topics in Recreation, Parks, and Tourism, through the use of theoretical readings, case studies, and a series of professional speakers. Students will gain a broad understanding of the planning and implementation of the budget process for a leisure service agency, primarily those that are non-profit or tax-supported.

RPTA 100. Recreation and Leisure Lifestyle Development.**3 Units****General Education Area/Graduation Requirement:** Understanding Personal Development (E)**Term Typically Offered:** Fall, Spring

Broad general overview of the recreation and leisure movement followed by a specific examination of changing leisure lifestyles and their impact on the individual's choice of recreation and leisure patterns. Also examine the impact that the choice of leisure lifestyles has on other aspects of the individual's life as well as the negative effects of restrictive or inadequate leisure involvement.

RPTA 101. Senior Seminar.**1 Unit****Prerequisite(s):** RPTA 1 and senior status**Term Typically Offered:** Fall, Spring

Students will focus on identifying potential internships, refining resumes and writing cover letters for securing internships. Complete their portfolio requirement for graduation and learn about the alumni association for RPTA graduates.

Credit/No Credit

RPTA 102. Recreation Therapy Professional Practice.**1 Unit****Prerequisite(s):** RPTA 1, RPTA 106, RPTA 115, RPTA 116, RPTA 117, RPTA 118 and senior level.**Corequisite(s):** RPTA 115, RPTA 116, and/or RPTA 118 may be taken concurrently.**Term Typically Offered:** Fall, Spring

This senior level course is intended to build upon a student's previous coursework in recreation therapy, and link the theoretical foundation with day-today practical applications. Students will fine-tune skills and interests in recreation therapy, learn methods for effective networking, and develop interviewing techniques in order to identify appropriate internships and employment opportunities.

Credit/No Credit

RPTA 105. Management in Recreation, Parks and Tourism.**3 Units****Prerequisite(s):** RPTA 30 or instructor permission**Term Typically Offered:** Fall, Spring

Analyzes the functions of managers including planning, organizing, staffing, leading and controlling. Also examines basic principles, techniques and tools associated with these functions. Consideration of internal and external environments which influence the managerial process and the manager's role in various areas of enterprise activity.

RPTA 106. Introduction to Inclusive Recreation and Recreation Therapy.**3 Units****Prerequisite(s):** RPTA majors and minors only or instructor permission.**Term Typically Offered:** Fall, Spring

Addresses the etiology and nature of common disabling conditions and examines issues of leisure participation and inclusion for underrepresented populations. Topics include: attitudinal barriers, advocacy, normalization, universal design, activity analysis and modification, and legislation. Emphasis on leadership, supervision and organizational development of inclusive and recreation therapy programs.

RPTA 107. Grant Writing for Leisure Organizations. 3 Units**Prerequisite(s):** Senior status or instructor permission.**Term Typically Offered:** Spring only

A detailed examination of grant writing as a means of augmenting agency revenues for specific recreation projects, programs and research. An in-depth assessment of techniques used to source funding opportunities relevant to recreation and leisure agencies. A review of budget preparation and grant management.

RPTA 109. Computer Applications in Recreation, Parks and Tourism. 2 Units**Term Typically Offered:** Fall, Spring

Introduces the student to the use of micro-computers in recreation, park and leisure services enterprises. Emphasis will be on the application of word processing, data bases, spread sheets and graphics to the work of professionals within the field. Consideration will also be given to telecommunications, interactive video and desktop publishing.

RPTA 110. Research and Evaluation in Recreation, Parks and Tourism. 3 Units**Prerequisite(s):** RPTA 1 and RPTA 30.**Term Typically Offered:** Fall, Spring

Provides students with tools to analyze leisure behavior, interests and the motivational basis of leisure as they apply to the field of recreation and leisure services. Emphasizes applied research techniques including qualitative, descriptive and analytical methods, and program evaluation.

RPTA 115. Recreation Therapy Assessment and Documentation. 3 Units**Prerequisite(s):** CHDV 30, PSYC 168, RPTA 30, RPTA 106 and RPTA 117; or instructor permission.**Term Typically Offered:** Fall, Spring

Assessment procedures and instruments used to assure competence in assessment of client function in leisure. Documentation, assessment, regulations in different settings (i.e., community hospital, and clinical settings), protocols and development of individual treatment plans. Students are exposed to the Recreation Therapy process (APIE) in a variety of clinical and community settings.

RPTA 116. Recreation Therapy Principles and Practices and the Recreation Therapy Process. 3 Units**Prerequisite(s):** CHDV 30, RPTA 30, RPTA 106 and RPTA 117; or instructor permission. RPTA 117 may be taken concurrently.**Term Typically Offered:** Fall, Spring

Philosophy and principles underlying the work performed by the recreation therapist are studied including assessment, individual program planning, interpersonal interaction skills, and working with families.

RPTA 117. Recreation Therapy and Contemporary Aspects of Disability. 3 Units**Prerequisite(s):** RPTA 106; RPTA 106 may be taken concurrently.**Term Typically Offered:** Fall, Spring

In-depth exploration of a variety of disabilities and diseases, including physical disabilities, developmental disabilities, intellectual disabilities, mental health, hearing and vision impairments, and disabilities related to aging. Content will focus on etiology, prognosis, symptomatic conditions, prescription drugs, and recreation therapy interventions. Medical terminology will be covered.

RPTA 118. Recreation Therapy Facilitation Techniques. 3 Units**Prerequisite(s):** CHDV 30, PSYC 168, RPTA 30, RPTA 106 and RPTA 117; or instructor permission.**Term Typically Offered:** Fall, Spring

Covers basic concepts, methods and techniques associated with the practice of recreation therapy. Students will understand and apply the recreation therapy process through intervention and facilitation methods that are critical to helping clients in health and human service settings. The goal is to assist students in developing the ability to use recreation, leisure and play in recreation therapy programs as interventions in the treatment process.

RPTA 119. Recreation Therapy Management and Advancement of the Profession. 3 Units**Prerequisite(s):** BIO 25, CHDV 30, PSYC 168, RPTA105, RPTA 106, RPTA 115, RPTA 116, RPTA 117 and RPTA 118; or instructor permission.**Term Typically Offered:** Fall, Spring

Examination of existing recreation programs in clinical settings (acute care hospitals, rehabilitation centers, state hospitals, skilled nursing facilities, intermediate care facilities, etc.); review of standards and regulations pertaining to recreation programs, development of recreation therapy programs, review of the roles of practitioners in related disciplines. Review of intervention techniques, program organization, management, and advancement of the profession and professional ethics.

RPTA 120. Leisure Education. 3 Units**Prerequisite(s):** RPTA 106.**Term Typically Offered:** Fall, Spring

History, scope and process of leisure education. A survey of guidance theories and procedures, including assessment techniques, program development, implementation and evaluations. The role of leisure education in diverse leisure delivery systems and with diverse populations. Legal, ethical, and professional aspects of leisure education.

RPTA 122. Perspectives On Leisure. ✎ 3 Units**Prerequisite(s):** GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.**General Education Area/Graduation Requirement:** Understanding Personal Development (E), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring, Summer

Basic philosophical, historical, psychological and scientific foundations and developments in leisure and recreation theory; review of the cultural forces, institutions and theories that affect individuals and society.

RPTA 128. Recreation Services for Diverse, Underserved and Underrepresented Populations. 3 Units**Term Typically Offered:** Spring only

Examines how recreation service providers work with diverse segments of the community. Class will examine a variety of populations that have been underserved and that may be at risk. Examines the impact of factors such as racism, sexism, classism, ageism, ableism and heterosexism that affect access to programs and services for diverse populations.

RPTA 129. Youth Development in Recreation, Parks & Tourism. 3 Units
Term Typically Offered: Fall, Spring

This course will focus on examining contemporary issues and trends related to young people and youth development in recreation, parks and tourism. Students will learn about youth development frameworks and how to apply those frameworks to recreation-based settings. Students will learn about the importance of engaging youth in the process of program planning and development.

RPTA 130. Community Sport Programming. 3 Units

This course emphasizes sport as a program component of community-based recreation services in both public and private settings. Students will develop skills related to successful sport program development, implementation and evaluation, through in-class lecture, site visits, and student developed projects. Additional topics will include promotion, funding, staffing, purchasing, and maintenance as related to managing sport programs.

RPTA 131. Morale Welfare and Recreation (MWR): Military Recreation Services. 3 Units

Term Typically Offered: Fall, Spring

Students develop an understanding of the administration and programming of Morale, Welfare and Recreation Services for individuals serving in the military and their families. Recreation facilities and programs for all branches of the military, including the US Army, US Navy, US Marines, US Air Force and US Coast Guard, are covered. The course utilizes lectures, experiential exercises, class discussions and onsite visits to military installations.

RPTA 132. Campus Recreation. 3 Units
Term Typically Offered: Fall, Spring

This course introduces students to campus recreation programs. Students will be introduced to theories of student development in these recreational settings; the organizational context and history of recreational programs within a college setting; and the range of programming, facilities, and managerial duties within campus and base recreation. This will provide a great starting point for students preparing for a profession on campus, institutional and/or military recreation, or students wanting to broaden their knowledge in the overall field.

RPTA 136. Program and Event Planning in Recreation, Parks and Tourism. 3 Units

Prerequisite(s): RPTA 32.

Term Typically Offered: Fall, Spring

The program/event planning process will be described and explained. Relevant principles and methods will be identified. Students will develop a program/event plan for a local organization. Field trips may be required. Field trip(s) may be required.

RPTA 137. Community Organization. 3 Units
Term Typically Offered: Fall, Spring

Study of institutions and leisure service systems within the community, and the dynamics of community organization practices and actions. The role of the recreation and leisure service practitioner in bringing about community changes. Defining and promoting citizen participation through advisory council membership, survey applications, and public hearing attendance.

RPTA 139. Conference and Meeting Planning. 3 Units

Prerequisite(s): Restricted to declared RPTA majors and minors or instructor permission

Term Typically Offered: Fall only

Analyzes this varied, growth industry. Considers the range of conferences and meetings, from small corporate retreats to international conventions. Topics include: the scope of the industry, the role of convention centers, hotel and resort based meeting facilities, organizations that hold meetings and the nature of those meetings, meeting planning and the role of the professional planner and industry related careers. Field trips may be required.

Field trip(s) may be required.

RPTA 148. Experiential Education in Outdoor Recreation Settings. 3 Units

Term Typically Offered: Spring only

Exposes the students to theoretical and philosophical concepts of experiential education and provides a means through which they can put theory into practice in outdoor recreation settings. Using methods such as demonstrations, observation, presentations, and discussions, the course will explore the history and current trends of experience-based learning.

RPTA 149. Developing and Programming Adventure Experiences. 3 Units

Term Typically Offered: Fall only

Provides students with the working knowledge needed to produce enriching and fulfilling adventure leisure experiences. In order to most effectively aid and assist others in the process of maximizing their leisure experiences, the student of leisure must first know how to maximize these experiences for and within themselves. Therefore, students will be participating in leisure adventure experiences so they can be as effective as possible when developing and programming leisure adventure experience opportunities for others.

RPTA 150. Ecology Of Resource Areas. 3 Units
Term Typically Offered: Fall, Spring

Study of the fundamentals of ecology, silvics, soil science and manipulations of an ecosystem with emphasis on the whole biota as it relates to outdoor recreation areas. Designed to provide an understanding of the scientific basis for and the operational rationale of manipulation of natural resources for a variety of recreation uses.

RPTA 151. Visitor Management in Recreation Areas. 3 Units
Term Typically Offered: Fall, Spring

Visitor safety in recreation areas as it relates to the role and functions of management. Emphasis is given to principles and current legislation in hazard reduction, deviant behavior, liability, law enforcement, and other related topics.

RPTA 152. Law Enforcement for Forest and Park Rangers. 3 Units
Term Typically Offered: Spring only

State, county and federal park rangers and wardens differ from other peace officers in that they are trained to protect visitors and cultural and natural resources on our public lands. This course offers a survey of topics related to the Peace Officer level of rangers across America's diverse public land systems, with an emphasis on career opportunities in park, forest, and wildlife management.

- RPTA 153. Environmental Interpretation. 3 Units**
Term Typically Offered: Fall, Spring
- Connecting visitors to natural, cultural, and historic resources is the primary focus of this course. Theories, principles and techniques are covered focusing on interpreting park and protected area values to people during their leisure. Personal and non-personal communication techniques will be practiced. Field sites in and around the Sacramento region will be visited to understand the diverse nature of the practice of interpretation. Designed for ranger naturalists, park interpretive staff, teachers, camp leaders, outdoor educators, and recreation program staff.
- RPTA 154. Management of Recreation Facilities. 3 Units**
Term Typically Offered: Fall only
- An introduction to aspects of recreation facility administration for several facility types, including campus recreation facilities, health clubs, community centers, park facilities and aquatic centers. Course topics include administration techniques related to staffing and outsourcing, the roles of the facility manager, analyzing financing sources, best practices in facility maintenance, and issues related to facility design. The course utilizes class discussions, guest speakers and facility site visitations on and off campus.
- RPTA 164. Leadership and Fundraising for Non-profit Organizations. 3 Units**
Term Typically Offered: Spring only
- Introduces students to principles and concepts of nonprofit leadership. This course will explore and provide an understanding of historical and philosophical foundations of nonprofit organizations; board/committee development and operation; and volunteer management. Students will also learn about fundraising methods and strategies. The course will consist of lecture, readings, discussion, guest speakers, nonprofit agency visitations, active learning exercises, and a community-learning component.
- RPTA 165. Volunteer Management in Recreation, Parks and Tourism. 3 Units**
Term Typically Offered: Fall only
- This course will focus on examining issues and trends related to volunteer management in recreation, parks and tourism-related organizations. Students will begin to understand the role of volunteerism and develop the skills necessary for effective volunteer management through: assessing program needs for volunteers, screening, orientation, training, placement, supervision, motivation, retention and celebration of volunteers.
- RPTA 166. Administration in Recreation, Parks and Tourism. 3 Units**
Prerequisite(s): RPTA 105.
Term Typically Offered: Fall, Spring
- Designed to provide the student with various in-depth perspectives regarding the use of management/administrative process in recreation, parks and tourism.
- RPTA 167. Professional Organization Leadership. 3 Units**
Prerequisite(s): RPTA 30, RPTA 32, and RPTA 105, or instructor permission
Term Typically Offered: Fall, Spring
- This course is designed to introduce students to the historical and philosophical foundations of professionalism, and provide the necessary conceptual and technical competencies to organize and lead a successful professional organization/association. Political, legal and ethical issues will be discussed as well as the functions and roles of professional organizations/associations. The relationship between professionalism and advocacy will be examined.
- RPTA 180. Foundations of Commercial Recreation. 3 Units**
Term Typically Offered: Fall only
- Overview of the historical and philosophical foundations of the commercial recreation field. Identification of providers of commercial recreation goods and services. Analyzes current functions and trends in the operation of commercial leisure enterprises.
- RPTA 182. Travel And Tourism. 3 Units**
Term Typically Offered: Fall only
- Examination of the history, significance and nature of travel and tourism in the world with emphasis on the U.S. Analyzes economic, cultural and social factors underlying development and growth of travel and tourism and a review of related research. Identification and description of travel and tourism service providers including their organization, financing and management practices. Prerequisite: Declared RPTA majors and minors only or instructor permission
- RPTA 183. Marketing Recreation Services. 3 Units**
Prerequisite(s): RPTA 30 or instructor permission
Term Typically Offered: Fall, Spring
- Fields of recreation (including therapeutic, commercial, municipal, etc.), tourism and hospitality, while diverse, all offer products that are primarily intangible. The management and marketing of such service products can differ profoundly from those of goods products (often the focus of traditional business programs). Addresses the nature of the service product and services marketing in the people intensive, experiential world of recreation.
- RPTA 184. Hospitality Administration. 3 Units**
Prerequisite(s): Restricted to declared RPTA major and minors or instructor permission
Term Typically Offered: Spring only
- Introduces students to resorts and hotels and their position within the tourism and hospitality industries. The scope of the hospitality industry and various issues concerning the successful development of a hospitality product will be discussed. Prepares students to engage in an internship or employment in this or a related industry, including restaurants and retail. It also helps these and other students to reinforce concepts and skills learned elsewhere by providing concrete, real-world examples of marketing and management methods.

RPTA 185. Advanced Seminar in Commercial Recreation Administration. 3 Units

Prerequisite(s): RPTA 180, RPTA 105 and RPTA 183; RPTA 183 may be taken concurrently; or instructor permission.

Term Typically Offered: Fall, Spring

In-depth analysis of the management of recreational business on a for-profit basis. Focuses on advanced topics, analytical skills, and problem solving in the management arena.

RPTA 188. Sacramento Region Craft Beer Tourism. 1 Unit

Prerequisite(s): Declared RPTA major or minor, or instructor permission

Term Typically Offered: Fall, Spring

Introduction to visitation and tourism related to California's craft beer industry, specifically in the Sacramento region. This course will provide students with a basic knowledge of craft beer as one of several local products that combine to create a unique agritourism selling proposition for Sacramento. Tourism-related products (beer festivals and contests, beer trails, beer bikes, and beer apps), hospitality (brewery tasting rooms and beer retail), as well as beer laws, and beer pairings will also be discussed.

Note: This course contains required field trips.

Field trip(s) may be required.

RPTA 189. California Wine and Agri-Tourism. 3 Units

Prerequisite(s): Restricted to declared RPTA majors and minors or instructor permission

Term Typically Offered: Spring only

Introduction to the wine tourism and agri-tourism industries, specifically in the region surrounding Sacramento. Emphasis on wine regions, wineries as event stages, wine mythology and wine in popular culture. Additionally, the course will cover the role of agricultural festivals, related agri-tourism products, slow-food, specialty crop tourism, winery and farm retail, culinary destinations, wine list creation, ag natural tourism products and the role of agri-tourism as part of Sacramento's cultural identity.

RPTA 191. Service Learning Option for Recreation, Parks and Tourism Administration Courses. 1 Unit

Term Typically Offered: Fall, Spring

Individual goals, activities, and academic requirements for community service work and the service-learning credit option are outlined in a Service Learning Option/Contract agreed upon and signed by the student, instructor, and agency sponsor. Enrolled students are required to attend mid-semester and final learning assessment workshops and to complete written evaluations. Credit for the course awarded only if contract and course requirements are completed.

Credit/No Credit

RPTA 195B. Partial Internship: Recreation and Park Management. 4 Units

Prerequisite(s): RPTA 1, RPTA 30, RPTA 32, RPTA 42, RPTA 101, RPTA 105, RPTA 106, RPTA 109, RPTA 110, RPTA 136 and approval of academic advisor and internship coordinator.

Term Typically Offered: Fall, Spring

Supervised part-time or short-term internship in a recreation, park or tourism organization or business. Supervision is provided by faculty and also by personnel at the host site.

Note: Refer to the RPTA Internship Manual for procedures and requirements.

RPTA 195C. Partial Internship: Recreation and Park Management. 6 Units

Prerequisite(s): RPTA 1, RPTA 30, RPTA 32, RPTA 42, RPTA 101, RPTA 105, RPTA 106, RPTA 109, RPTA 110, RPTA 136 and approval of academic advisor and internship coordinator.

Term Typically Offered: Fall, Spring

Supervised part-time or short-term internship in a recreation, park or tourism organization or business. Supervision is provided by faculty and also by personnel at the host site.

Note: Refer to the RPTA Internship Manual for procedures and requirements.

RPTA 195D. Recreation Therapy Internship. 10 - 15 Units

Prerequisite(s): BIO 25, CHDV 30, PSYC 168, RPTA 1, RPTA 30, RPTA 102, RPTA 106, RPTA 110, RPTA 115, RPTA 116, RPTA 117, RPTA 118, RPTA 119, and RPTA 136; completion of required administrative paperwork in the semester prior to internship, approval of major advisor.

Term Typically Offered: Fall, Spring

Supervised full-time therapeutic internship in a recreation, park or tourism organization or business. Supervision is provided by faculty and also by certified personnel at the host site. Meets the professional certification requirements at the national or state levels.

Note: Refer to the RPTA Internship Manual for procedures and requirements.

RPTA 195E. Internship: Recreation and Park Management. 10 - 15 Units

Prerequisite(s): RPTA 1, RPTA 30, RPTA 32, RPTA 42, RPTA 101, RPTA 105, RPTA 106, RPTA 109, RPTA 110, RPTA 136 and approval of academic advisor and internship coordinator.

Term Typically Offered: Fall, Spring

Supervised, full-time internship in a recreation, park or tourism organization or business. Supervision is provided by faculty and also by personnel at the host site.

Note: Refer to the RPTA Internship Manual for procedures and requirements.

RPTA 196E. Introduction to Posttraumatic Growth. 3 Units

Term Typically Offered: Fall, Spring

Traumatic life events affect individuals, families and communities. This course is designed to assist professionals working with survivors of traumatic events. Posttraumatic growth (PTG) is a positive focus, viewed from the perspective of the individual, secondary survivor, and the community. Clinical application illuminating a pathway toward PTG is also studied and discussed. The course incorporates current research, films, books, poems, plays, and interviews with survivors, will be used to profile individuals, families, communities, and organizations.

RPTA 196G. Gastronomic Tourism. 3 Units

Term Typically Offered: Spring only

Tourists are increasingly motivated to travel for food and drink. Visiting the location and touring the production facilities is also important. This course provides an overview of the global culinary and gastronomic tourism industry, focusing on the ability of a destination to market itself (both people and place) through food. The various social and cultural contexts in which gastronomic tourism takes place are discussed as well as positive and negative impacts of global and local gastronomic tourism. Field trip(s) may be required.

Field trip(s) may be required.

RPTA 196H. Revenue Management for Hospitality. 3 Units**Prerequisite(s):** RPTA 96C, RPTA majors and minors only

Revenue management is critical to the hospitality industry due to the perishable nature of a service based product. This course introduces students to topics related to revenue management in hospitality and teaches students techniques to manage revenue in a dynamic hospitality environment. Capacity management, demand and revenue forecasting, discounting, overbooking practices, channel management, and pricing execution for the hospitality operations are discussed.

RPTA 196L. Hotel and Lodging Operations. 3 Units**Term Typically Offered:** Spring only

This course is designed to provide a required knowledge of hotel and lodging operations. Students will acquire a solid understanding of how a variety of lodging types, specially hotels, operate by detailed examination of the departments common to most lodging properties, including the front office, sales and marketing, housekeeping, maintenance, and others. Additionally, topics relevant to operations like green initiatives and revenue optimization will be discussed in this course.

RPTA 196M. Human Resources Management in the Hospitality Industry. 3 Units**Term Typically Offered:** Spring only

Comprehensive study of personnel management in today's hospitality profession, familiarizing students with many of the functions related to recruiting, selecting, orienting, training, and retaining outstanding lodging industry staff. Additionally, the course familiarizes students with the effects of rising labor costs, increasing competition for quality staff, changing employees attitudes, evolving guest expectations, and a proliferation of new laws that impact human resources policies and activities.

RPTA 198. Co-Curricular Activities. 1 - 3 Units**Prerequisite(s):** Approval of an instructor and the Department chair.**Term Typically Offered:** Fall, Spring

Co-curricular activities related to the subject matter and professional concerns of Recreation and Leisure Studies. For example, students may earn credit by participating as a tutor or discussion leader for recreation and leisure studies classes or a teacher or leader in programs offered by community organizations.

Note: The course may be repeated three times for a maximum total of 3 units. Students can enroll for a class that counts as 1, 2 or 3 units.

No more than 3 units of RPTA 198 may be used to meet the major requirements.

Credit/No Credit

RPTA 199. Special Problems. 1 - 3 Units**Prerequisite(s):** Approval of an instructor and the Department chair.**Term Typically Offered:** Fall, Spring

Individual projects or directed reading.

Note: Open only to students who appear competent to carry on individual work. Can be repeated six times for a maximum total of 6 units. Students can enroll for a class that counts as 1, 2 or 3 units. No more than 6 units of RPTA 198 and RPTA 199 in combination may be used to meet major requirements.

Credit/No Credit

RPTA 200. Foundations of Leisure Concepts and Application. 3 Units**Term Typically Offered:** Fall, Spring

Provides a comprehensive awareness of the historical, philosophical, psychological, experiential, and behavioral foundations of leisure. Global leisure perspectives examined in relationship to cultural diversity, current trends, future perspective, and economic implications. The art and science of providing fulfilling leisure experiences through private entrepreneurial recreations and public delivery systems explored.

RPTA 200A. Orientation to Graduate Studies in RPTA. 1 Unit**Prerequisite(s):** Restricted to MS in Recreation Administration majors.**Term Typically Offered:** Fall only

Course covers several topics related to the MS degree program in Recreation, Parks & Tourism Administration. Students will understand requirements and expectations of the program, develop a tentative degree plan and timeline, and learn about different options for the Culminating Experience. Course will review several other aspects important to graduate students, including deadlines and paperwork, library and research resources, Office of Graduate Studies resources, scholarships, life-school balance, graduate school terminology, and financial aid and funding resources, etc.

Credit/No Credit

RPTA 201. Advanced Studies in Leisure, Recreation, Parks and Tourism. 3 Units**Prerequisite(s):** RPTA 200**Term Typically Offered:** Fall, Spring

The purpose of this course is to move students beyond conceptual foundations of leisure, recreation, parks and tourism administration to more theoretically advanced aspects of the field. In this course, students will pursue an in-depth exploration of the theories and research related to leisure, recreation, parks and tourism.

RPTA 202. Policies, Issues, and Problems in Recreation, Parks and Tourism. 3 Units**Term Typically Offered:** Fall, Spring

Major environmental and recreational issues and problems affecting the recreation, parks and tourism field are discussed, analyzed, and evaluated. Ramifications involving policy making and planning processes of major federal, state, and local agencies involved with recreation, parks and tourism delivery services are also covered.

RPTA 203. Advanced Administration in Recreation, Parks and Tourism. 3 Units**Term Typically Offered:** Fall, Spring

Examination of contemporary resources, techniques, and tools available to administrators in various types of recreation, parks and tourism delivery systems.

RPTA 204. Advanced Research Methods in Recreation, Parks and Tourism. 3 Units**Prerequisite(s):** RPTA 200, RPTA 202, and graduate advisor approval.**Term Typically Offered:** Fall, Spring

Provides an analysis of major research methods used in recreation, parks and tourism administration. Addresses basic and applied research orientations, research designs, research proposals, data collection tools and methods, data analysis, and reporting of research findings.

RPTA 206. Liability and Risk Management in Recreation, Parks and Tourism. 3 Units**Prerequisite(s):** Graduate status or instructor permission.**Term Typically Offered:** Fall, Spring

In-depth analysis of the principles of legal liability as they pertain to recreation, parks and tourism administration. An examination of the pervasive nature of risk as it pertains to the provision of recreation, parks and tourism programs and opportunities, and the concepts and methods of risk management. Includes field trips, mock trials or other related activities.

Field trip(s) may be required.

RPTA 207. Grant Writing for Recreation, Parks and Tourism Organizations. 3 Units**Prerequisite(s):** Graduate status or instructor permission.**Term Typically Offered:** Fall, Spring

A detailed examination of grant writing as a means of augmenting agency revenues for specific recreation projects, programs and research. An in-depth assessment of techniques used to source funding opportunities relevant to recreation and leisure agencies. A review of budget preparation and grant management.

Note: Students may not take both RPTA 107 and RPTA 207 for credit.**RPTA 209. Seminar in Advanced Leisure Education. 3 Units****Term Typically Offered:** Fall, Spring

Surveys current and historical perspectives of leisure education from a multicultural and life span viewpoint. Current modes of service delivery will be discussed as they relate to leisure theories. Methods of leisure education provision in diverse settings from school-park collaboratives, retirement and rehabilitation centers, to corporate wellness will be investigated. Development, implementation and management of viable leisure education services will be covered as well presentation, training and consultation skills.

RPTA 295. Practicum. 3 - 6 Units**Prerequisite(s):** Approval of major advisor.**Term Typically Offered:** Fall, Spring

Graduate internship experiences in a practical setting.

Note: Open only to graduate students. Can be repeated two times for a maximum total of 6 units. Students can enroll for a class that counts as 3, 4, 5 or 6 units. No more than 6 units of RPTA 295 and RPTA 299 in combination may be used to meet degree requirements.

Credit/No Credit

RPTA 299. Individual Study. 1 - 6 Units**Prerequisite(s):** Approved petition filed in the department office.**Term Typically Offered:** Fall, Spring

Individual project, problem, practical study, survey, and/or directed reading on the graduate level.

Note: Can be repeated six times for a maximum total of 6 units. Students can enroll for a class that counts as 1, 2, 3, 4, 5 or 6 units. No more than six units of RPTA 295 and RPTA 299 in combination may be used to meet major requirements.

Credit/No Credit

RPTA 500A. Culminating Experience: Thesis. 1 - 3 Units**Prerequisite(s):** Advanced to candidacy and permission of graduate coordinator.**Term Typically Offered:** Fall, Spring

Successful completion of a thesis approved for the Master's degree. Student must have approval from first reader.

Credit/No Credit

RPTA 500B. Culminating Experience: Project. 1 - 3 Units**Prerequisite(s):** Advanced to candidacy and permission of graduate coordinator.**Term Typically Offered:** Fall, Spring

Successful completion of a project approved for Master's degree. Student must have approval from the first reader.

Credit/No Credit

RPTA 500C. Culminating Experience: Comprehensive Exam. 1 - 3 Units**Prerequisite(s):** Advanced to candidacy and permission of the graduate coordinator.**Term Typically Offered:** Fall, Spring

Successful completion of a comprehensive examination approved for Master's degree.

Credit/No Credit

ROTC - Aerospace Studies (AERO)

AERO 1A. Heritage and Values of the United States Air Force I. 1 Unit**Term Typically Offered:** Fall, Spring

Orientation to the Air Force and AFROTC. This is a survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, organizations of the Air Force, and benefits of Air Force membership. Students will be required to complete an oral and written project.

AERO 1B. Heritage and Values of the United States Air Force II. 1 Unit**Term Typically Offered:** Fall, Spring

Continuation of AERO 1A: completes students' orientation to the Air Force. Specific topics include evolution of Airpower, Air Force structure, and social media and the Air Force. Students will be required to complete an oral and written project.

AERO 21A. Team Leadership and Fundamentals I. 1 Unit**Term Typically Offered:** Fall, Spring

Focuses on laying the foundation for teams and leadership in the Air Force. Topics include skills that will allow cadets to improve their leadership on a personal level and within a team. Cadets will experience initial field training preparation. Communication skills will be emphasized and include: public speaking, writing, and class participation.

AERO 21B. Team Leadership and Fundamentals II. 1 Unit**Term Typically Offered:** Fall, Spring

Continuation of AERO 21A. The purpose of this course is to instill a leadership mindset and to motivate sophomore students to transition from AFROTC cadets to AFROTC offer candidates. Topics include conflict management, human relations, building teams. Communication skills will be emphasized and include: speaking, writing, and class participation.

AERO 99. Special Problems. 1 - 4 Units
Term Typically Offered: Fall, Spring

Academic study and evaluation in specified topics associated with aerospace development, technology, and doctrine.

Note: Open only to students who appear competent to complete assigned work and who meet prerequisites established by the Department of Aerospace Studies. Approval in writing by the Department Chair required.

Credit/No Credit

AERO 135A. Leading People and Effective Communication I. 3 Units
Term Typically Offered: Fall, Spring

This course teaches cadets advanced skills and knowledge in management and leadership. Also a survey of selected concepts, principles, and theories on decision making, change management, effective supervision and Air Force diversity issues. Students will be given the opportunity to improve speaking and writing skills.

AERO 135B. Leading People and Effective Communication II. 3 Units
Term Typically Offered: Fall, Spring

Continuation of AERO 135A. Survey of selected concepts, principles, and theories on negotiating in teams, bias, creating a vision, public affairs, and professionalism. Students will be given the opportunity to improve speaking and writing skills.

AERO 145A. National Security and Preparation for Active Duty I. 3 Units
Term Typically Offered: Fall, Spring

Provides an overview of the role of the military in our national security policy and processes. It includes an analysis of the roles of the three branches of government as they relate to national security; organization of the Air Force as well as other branches of the military; an overview of military ethics; how the Air Force deploys; and a discussion of global current events which impact our national security. Students are expected to participate in class discussions/complete written/oral presentations.

AERO 145B. National Security and Preparation for Active Duty II. 3 Units
Term Typically Offered: Fall, Spring

Continuation of AERO 145A. Presentation of critical issues facing today's military professionals. A wide variety of topics are discussed including: the military legal system; the laws of armed conflict; security issues; personal finance; professional/unprofessional relationships; information warfare; and issues pertinent to the first assignment after commissioning into the Air Force. Students will be expected to participate in class discussions and complete a written and oral presentation.

AERO 199. Special Problems. 1 - 4 Units
Term Typically Offered: Fall, Spring

Academic study and evaluation in specified topics associated with aerospace development, technology, and doctrine.

Note: Open only to those students who appear competent to complete assigned work and who meet prerequisites established by the Department of Aerospace Studies. Approval in writing by the Department Chair required.

Credit/No Credit

Russian (RUSS)

RUSS 1A. Elementary Russian. 5 Units
Term Typically Offered: Fall only

Russian language beginning course with primary emphasis on the development of communication skills. Russian life and culture are introduced through readings and video/films.

RUSS 1B. Elementary Russian. 5 Units
Prerequisite(s): RUSS 1A or instructor permission.
General Education Area/Graduation Requirement: Humanities (Area C2), Foreign Language Graduation Requirement
Term Typically Offered: Fall, Spring

Continuation of RUSS 1A. Continued emphasis on communication skills and continued integration of cultural-historical components with the language learning experience.

RUSS 2A. Intermediate Russian. 4 Units
Prerequisite(s): RUSS 1B or instructor permission.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Fall, Spring

Continuation of RUSS 1 with further emphasis on the development of communication skills. Meets the Foreign Language Graduation Proficiency Requirement.

RUSS 2B. Intermediate Russian. 4 Units
Prerequisite(s): RUSS 2A or instructor permission.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Fall, Spring

Continuation of RUSS 2A. Meets the Foreign Language Graduation Proficiency Requirement.

RUSS 120. Russian Civilization. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Introduction to the cultural context that has accompanied Russia's political history from the earliest days of the Kievan state to current post-Communist Russia. Through reading Russian poems and short stories, interviewing Russians, and viewing Russian films, the student will begin to view Russia as Russians see it; thus, the overall objective is to introduce students to the richness of Russia's civilization through her people's own words and images.

RUSS 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading.

Note: Open only to students who are competent to carry on independent study. Admission requires the approval of the instructor by whom the work is to be supervised.

Credit/No Credit

Social Sciences (SSCI)

SSCI 193. Integrating History and Social Science. 3 Units

Prerequisite(s): Instructor permission.

Term Typically Offered: Spring only

Capstone seminar that serves as a bridge between academic preparation and entry into a professional teacher credential program. Students will examine social science-history in the State curriculum framework, reflect on subject matter preparation, focus on middle and high school social science teaching and learning, investigate and evaluate resources pertinent to instruction, and explore current issues in education.

SSCI 199. Special Problems. 1 - 3 Units

Prerequisite(s): Approval of instructor or Department chair.

Term Typically Offered: Fall, Spring

Individual projects or directed reading. Requires permission of instructor and department chair.

Credit/No Credit

Social Work (SWRK)

SWRK 95. Introduction to Social Work. 3 Units

Term Typically Offered: Fall, Spring

Provides an overview of the social work profession and of social welfare systems especially in relation to marginalized populations. Also introduces a generalist perspective to social work practice with emphasis on professional development. Students are exposed to the values and ethics of social work, as well as the important ideologies that have shaped social welfare and social work.

Note: Includes a 30 hour volunteer experience to aid in assessing student's appropriateness for the profession. A grade of "C" or better is required before taking SWRK 140A.

SWRK 102. Crosscultural Theory and Practice: Issues of Race, Gender and Class. 3 Units

General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D

Term Typically Offered: Fall, Spring, Summer

Increase student awareness of social, political, economic, and cultural diversity. Addresses patterns and consequences of discrimination and oppression as well as theoretical and practice content and strategies for social change.

SWRK 110. Statistics and Research for Social Workers. 3 Units

Term Typically Offered: Fall, Spring, Summer

Descriptive and inferential statistics, sampling, probability distribution, introduction to research methods, relationship of statistics to research methods; illustrations drawn from the field of human services.

SWRK 111. Research Methods and Program Evaluation. 3 Units

Prerequisite(s): SWRK 110.

Corequisite(s): SWRK 140B or SWRK 140C.

Term Typically Offered: Fall, Spring

User oriented research methods focusing on locating, understanding, and using the professional research literature relevant to the development of skills for the human service practitioner; and methods of evaluating ones own practice and agency programs.

SWRK 118. Chemical Dependency and Social Work Practice. 3 Units

Term Typically Offered: Fall, Spring

Introduction to social work practice with the alcoholic/addicted individual or family. The ecological framework will be utilized for studying alcohol and drug dependence and its prevention/intervention. Emphasis will be placed on addiction as a biopsychosocial problem with a special focus on oppressed and marginalized populations.

SWRK 125A. Human Behavior and the Social Environment: Theory. 3 Units

Prerequisite(s): SWRK Majors only with Junior status; completion of pre-major BIO 1, BIO 10, BIO 20 or ANTH 1; and ECON 1A, ECON 1B or SOC 1; and CRJ 1, GERO 100, SOC 3 or SOC 10.

Term Typically Offered: Fall only

Theory forms the foundation of all social work practice, attempting to explain complicated human behavior in interaction with diverse environments. This course examines core theories of human behavior, families, small groups, organizations, social movements, and human society from a variety of social science disciplines. Each theory will be critically examined in respect to application towards diverse groups and the vulnerable populations that social workers serve.

SWRK 125B. Human Behavior and the Social Environment: The Life Course. 3 Units

Prerequisite(s): SWRK majors only and SWRK 125A

Term Typically Offered: Spring only

This course examines growth and development with special focus on lifespan from birth through old age in the context of family, community, complex organizations, and society. With technological, economic, political and ecological systems rapidly changing, the course will also examine the effects on the interplay between human life and the environment.

SWRK 126. Theories of Criminal Behavior. 3 Units

Prerequisite(s): GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: GE AREA D, Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring, Summer

Analyzes various theories in terms of their logic, historical origins, and policy implications. Focus on developing a critical framework.

SWRK 129. Human Sexuality in Social Work Perspectives. 3 Units

Term Typically Offered: Fall only

Examines psycho-social-cultural influences on sexual identity and sexual behavior; analyzes problems confronting the victims of sex-discrimination and oppression; considers education and treatment programs.

SWRK 132. Social Work and Spirituality. 3 Units

Term Typically Offered: Spring only

This course examines how spirituality serves as a liberating, and at times constricting force in the lives of our clients and communities. Competencies for both assessing and engaging in discussions about our clients' spiritual world as well as self-awareness regarding social work practitioner spiritual orientations are emphasized. Diverse spiritual and religious backgrounds (including those who consider themselves non-spiritual or non-religious) are welcomed and celebrated in the classroom.

<p>SWRK 134. Crimes Without Victims. 3 Units General Education Area/Graduation Requirement: GE AREA D Term Typically Offered: Fall only</p>	<p>SWRK 150. Welfare In America. 3 Units General Education Area/Graduation Requirement: GE AREA D Term Typically Offered: Fall, Spring, Summer</p>
<p>Focuses on the study of particular behavior defined as criminal, including addiction, pornography, homosexuality, prostitution and abortion. The role of morality is examined.</p>	<p>Examines the history, purpose, structure and costs of current American social welfare policy and programs and the role of social work in policy and program development.</p>
<p>SWRK 136. Poverty and Homelessness in America. 3 Units General Education Area/Graduation Requirement: GE AREA D Term Typically Offered: Fall, Spring</p>	<p>SWRK 151. Health Services and Systems. 3 Units General Education Area/Graduation Requirement: GE AREA D Term Typically Offered: Fall, Spring, Summer</p>
<p>Analyzes social theory and its relationship to the generation and retention of institutional poverty. Within this context, public and private welfare programs serving low-income populations will be examined.</p>	<p>Examines the delivery of health and mental health service with a focus on problems experienced by economically disadvantaged and oppressed populations.</p>
<p>SWRK 137. The Child and the Law. 3 Units Term Typically Offered: Spring only</p>	<p>SWRK 153. Child Welfare Services. 3 Units Term Typically Offered: Fall, Spring</p>
<p>Both civil and criminal aspects of the relationship of the applicability and effect of the law on minors, including juvenile court, wardship and dependency, liability for torts, the child and divorce.</p>	<p>Provides basic information on the recognition and treatment of problems of children in the home, school and community, and on the public and private social services and laws which promote and protect the welfare of children.</p>
<p>SWRK 138. Violence In The Family. 3 Units Term Typically Offered: Fall only</p>	<p>SWRK 191. Exploration of Veteran Studies: An Ethnographic Approach. 3 Units</p>
<p>Provides basic information on victims and perpetrators of violence in the family. The focus is on child maltreatment, spouse/partner battering, abuse of the elderly, and the roles and responsibilities of social workers responding to family violence.</p>	<p>Prerequisite(s): GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.</p>
<p>SWRK 140A. Social Work Practice. 3 Units Prerequisite(s): SWRK 95 and SWRK 125A; SWRK majors only; Junior standing and a grade of "C" or better in all previous SWRK courses Corequisite(s): SWRK 125B Term Typically Offered: Fall, Spring</p>	<p>General Education Area/Graduation Requirement: GE AREA D, Writing Intensive Graduation Requirement (WI) Term Typically Offered: Fall, Spring</p>
<p>Provides an introduction to the profession and generalist social work practice with individuals, families, groups, organizations, and communities. Practice skills focus on application of the planned changed process from an empowerment approach.</p>	<p>Through the review of ethnographic works, qualitative research articles and other significant recent literature on veterans' issues, students are introduced to the qualitative research process. Most significantly students simultaneously gain knowledge of the issues and challenges faced by veterans returning from combat as they transition to civilian life as well as the best practices in supporting positive transitions from combat to civilian life. Students will develop analytical thinking skills and writing skills for preparing literature reviews.</p>
<p>SWRK 140B. Social Work Practice. 3 Units Prerequisite(s): SWRK 95, SWRK 102, SWRK 125B, SWRK 140A, SWRK 150; SWRK majors only; senior standing; Minimum grade of "C" in all previously completed SWRK courses; GVAR certification or having met university writing requirements Corequisite(s): SWRK 195A Term Typically Offered: Fall, Spring</p>	<p>SWRK 195A. Field Instruction. 6 Units Prerequisite(s): SWRK 102, SWRK 125A, SWRK 125B, SWRK 140A and SWRK 150 and permission of the Field Director (or designee). Corequisite(s): SWRK 140B. Term Typically Offered: Fall, Spring</p>
<p>Generalist practice through a cross-cultural lens. Focuses on culturally competent relationship building, assessment, and intervention with individuals, organizations and communities.</p>	<p>Two semester sequence of instruction that takes place in a human service organization in the community wherein students demonstrate, under the auspices of a certified field instructor, their ability to apply the knowledge, practical skills, critical thinking/reasoning abilities, and interpersonal communication skills required of undergraduate level social works. Students must provide their own transportation to and from field sites, purchase malpractice insurance through the Division of Social Work.</p>
<p>SWRK 140C. Social Work Practice. 3 Units Prerequisite(s): SWRK 195A and SWRK 140B. Corequisite(s): SWRK 195B Term Typically Offered: Fall, Spring</p>	<p>Credit/No Credit</p>
<p>Focuses on family intervention through an emphasis on strengths-based case management and children and youth issues. Group work processes and intervention examined through experiential and formal learning. Corequisite: SWRK 195B.</p>	

- SWRK 195B. Field Instruction.** **6 Units**
Prerequisite(s): SWRK 102, SWRK 125A, SWRK 125B, SWRK 140A, SWRK 140B, SWRK 195A and SWRK 150; permission of the Field Director required.
Corequisite(s): SWRK 140C.
Term Typically Offered: Fall, Spring
- Two-semester course sequence that takes place in a human service organization. Students demonstrate their ability to apply social work knowledge and practical skills. Students must provide their own transportation and purchase malpractice insurance through the Division of Social Work.
Note: Enrollment is limited to students who have secured an approved Field placement.
- Credit/No Credit
- SWRK 196. Working with LGBTQ Communities.** **3 Units**
Prerequisite(s): admitted to the Bachelor's in Social Work major in good academic standing; or other Bachelor's major with permission and available space.
This elective course is designed to provide students with an intermediate and critical understanding to conduct work with individuals who are LGBTQ, and with their kinship networks and communities. Various perspectives (e.g., historical, political, psychological, critical) are examined throughout the course to assist students in understanding the complexity and dynamics of the person-in-environment. The course builds on BSW content and upper division coursework, integrating that through applied assignments and increasing self-awareness.
- SWRK 198. Co-Curricular Activities.** **1 - 3 Units**
Prerequisite(s): Permission of the Undergraduate Social Work Coordinator.
Term Typically Offered: Fall, Spring
- Co-curricular activities related to the subject matter and intellectual concerns of the Division of Social Work, including service on division policy-making committees and participation in ASI approved organizations.
Credit/No Credit
- SWRK 199. Special Problems.** **1 - 3 Units**
Prerequisite(s): Approval of the faculty sponsor of the project and Division Chair.
Term Typically Offered: Fall, Spring
- Independent research, project or directed reading.
Note: Open to students who are capable of independent work.
- Credit/No Credit
- SWRK 202. Social Work and Diverse Populations.** **3 Units**
Term Typically Offered: Fall, Spring
- Prepares students to understand cultural and social diversity. Addresses theoretical and practice dimensions of social work with diverse and oppressed and vulnerable people for personal and social empowerment in behalf of human dignity and social justice.
- SWRK 204A. Social Work Practice I.** **3 Units**
Corequisite(s): SWRK 295A.
Term Typically Offered: Fall, Spring
- Building on the liberal arts framework and using the ecological model, this course introduces students to generalist social work practice with individuals, families, small groups, organizations, disadvantaged populations, communities, and society.
- SWRK 204B. Social Work Practice II.** **3 Units**
Prerequisite(s): SWRK 204A, SWRK 295A.
Corequisite(s): SWRK 295B.
Term Typically Offered: Fall, Spring
- Broadens the ecological perspective to address economic and political issues, social stratification, and racism as they impact practice with at-risk populations; promoting change at multiple levels of intervention.
- SWRK 206A. Multi-Level Practice for Behavioral Health.** **3 Units**
Prerequisite(s): SWRK 204A, SWRK 204B, SWRK 295A, SWRK 295B, and advancement to candidacy.
Corequisite(s): SWRK 296A
Builds upon content of SWRK 204B and provides advanced knowledge and skills for mental health assessments, diagnosis and treatment and to provide long-term and acute mental health treatment, respond to acute trauma and indigent populations.
Note: Enrollment is limited to students who have secured an approved Field placement.
- SWRK 206B. Multi-Level Practice for Behavioral Health.** **3 Units**
Prerequisite(s): SWRK 204A, SWRK 204B, SWRK 295A, SWRK 295B, SWRK 206A, SWRK 296A, and advancement to candidacy.
Corequisite(s): SWRK 296B
Builds upon content of SWRK 204B and provides advanced knowledge and skills for mental health assessments, diagnosis and treatment and to provide long-term and acute mental health treatment, respond to acute trauma and indigent populations.
Note: Enrollment is limited to students who have secured an approved Field placement.
- SWRK 207A. Multi-Level Practice for Children & Families.** **3 Units**
Prerequisite(s): SWRK 204A, SWRK 204B, SWRK 295A, SWRK 295B, and advancement to candidacy.
Corequisite(s): SWRK 297A
Builds upon content of SWRK 204B and provides advanced knowledge and skills in areas affecting children and families with a specific focus on training students in Child Protective Services, abuse, neglect and human trafficking.
Note: Enrollment is limited to students who have secured an approved Field placement.
- SWRK 207B. Multi-Level Practice for Children & Families.** **3 Units**
Prerequisite(s): SWRK 204A, SWRK 204B, SWRK 295A, SWRK 295B, SWRK 207A, SWRK 297A, and advancement to candidacy.
Corequisite(s): SWRK 297B
Builds upon content of SWRK 204B and provides advanced knowledge and skills in areas affecting children and families with a specific focus on training students in Child Protective Services, abuse, neglect and human trafficking.
Note: Enrollment is limited to students who have secured an approved Field placement.

- SWRK 208A. Multi-Level Practice for Health & Aging. 3 Units**
Prerequisite(s): SWRK 204A, SWRK 204B, SWRK 295A, SWRK 295B and advancement to candidacy.
Corequisite(s): SWRK 298A
 Builds upon content of SWRK 204B and provides advanced knowledge and skills for hospital and hospice care, respond to the needs of Baby Boomers, support diversity in aging choices while assisting clients with management of health care, housing and quality of life optimization.
Note: Enrollment is limited to students who have secured an approved Field placement.
- SWRK 208B. Multi-Level Practice for Health & Aging. 3 Units**
Prerequisite(s): SWRK 204A, SWRK 204B, SWRK 295A, SWRK 295B, SWRK 208A, SWRK 298A, and advancement to candidacy.
Corequisite(s): SWRK 298B
 Builds upon content of SWRK 204B and provides advanced knowledge and skills for hospital and hospice care, respond to the needs of Baby Boomers, support diversity in aging choices while assisting clients with management of health care, housing and quality of life optimization.
Note: Enrollment is limited to students who have secured an approved Field placement
- SWRK 210. Methods of Social Research. 3 Units**
Prerequisite(s): Undergraduate social statistics course.
Term Typically Offered: Fall, Spring
 Examination of quantitative and qualitative methods of social work research. Includes problem formulation, selection of various conceptual frameworks, research designs, sampling, collecting data, experimental design and computer technology.
- SWRK 213. Public Child Welfare Practice. 3 Units**
Prerequisite(s): SWRK 204A, SWRK 204B.
Term Typically Offered: Fall, Spring
 Integrates the concepts and skills learned in Advanced Practice, Advanced Policy, and Research courses of the MSW program and applies to the specific client population of public child welfare agencies. Required for Title IV-E stipend students; open to others on basis of space availability.
- SWRK 215. Mediation & Restorative Justice. 3 Units**
Term Typically Offered: Fall, Spring
 The course examines the principles, policies, goals, and practice of mediation and restorative justice in social work settings including the adult and juvenile criminal justice systems, family court, child welfare, schools, mental health, health, and community dispute resolution centers. Students will learn mediation and restorative justice practice skills to work effectively with individuals as both clients and providers of services, as well as within various institutions, systems, and communities.
- SWRK 218. Chemical Dependence: Strategies and Tactics for Social Work Practice. 3 Units**
Term Typically Offered: Fall, Spring
 Designed to increase the sensitivity of graduate social work students to the major intervening variables contributing to the problem of chemical dependence in contemporary American society.
- SWRK 219. Social Work Practice in Health Care Settings. 3 Units**
Term Typically Offered: Fall, Spring
 Provides intervention strategies useful in health care settings. Individual, family and group practice strategies are presented as well as discharge planning, advocacy, ethnically sensitive issues, and collaboration practice within hospital settings.
- SWRK 221. Community Organizing Practice. 3 Units**
Prerequisite(s): SWRK 204A, SWRK 204B or instructor permission.
Term Typically Offered: Fall, Spring
 Focuses on intervention at the community level with a special emphasis on grass roots organizing and advocacy.
- SWRK 223. DSM New Developments in Psychodiagnosis. 3 Units**
Term Typically Offered: Fall, Spring
 Designed to give practitioners and students hands-on experience in using the DSM IV Manual. Videotapes, case vignettes, and small group discussions used.
- SWRK 224. Advanced Mental Health Practice. 3 Units**
Prerequisite(s): SWRK 204A, SWRK 204B or instructor permission.
Term Typically Offered: Fall, Spring
 Examines a variety of theoretical views on adaptations of childhood and adulthood with accompanying models for assessment and treatment. Explores current views on intra-psychic and interpersonal functioning utilized in mental health settings.
- SWRK 225. Advanced Group Work Methods: Process and Intervention Strategies. 3 Units**
Term Typically Offered: Fall, Spring
 Covers small group theory and process, and group method in a variety of settings, with emphasis on group development.
- SWRK 226. Family Intervention: Contemporary Issues in Social Work Practice. 3 Units**
Term Typically Offered: Fall, Spring
 Critically addresses the origins and contemporary context and models of interventions with families.
- SWRK 228. Clinical Intervention in Sexual Abuse. 3 Units**
Term Typically Offered: Fall, Spring
 Presents an intervention system that can assist professionals to work with sexually abusive families and victims of sexual abuse. Assessment, planning, and treatment are described and methods of intervention demonstrated.
- SWRK 232. Spirituality and Social Work. 3 Units**
Term Typically Offered: Fall, Spring
 Considers the role of spirituality in the socialization process of the professional as well as the client by examination of spirituality, values, ethics, principles, and philosophies as influences on personal and professional interactions.
- SWRK 235A. Theoretical Bases of Social Behavior. 3 Units**
Term Typically Offered: Fall, Spring
 Examines the growth, change and interaction of individuals, families and groups, organizations, and communities with special attention to lifespan development and systems theory.

<p>SWRK 235B. Theoretical Bases of Social Behavior. 3 Units Prerequisite(s): SWRK 235A. Term Typically Offered: Fall, Spring</p> <p>Focuses on major personality theories; principal theories of health, illness and disordered behavior; child and family dynamics; and theories of group and organizational behavior.</p> <p>SWRK 238A. Issues and Practice in Schools. 3 Units Prerequisite(s): Admission to the College of Social Work Program. Corequisite(s): SWRK 204C, SWRK 295C. Term Typically Offered: Fall, Spring</p> <p>Introduces the student to the field of school social work in its dynamic social, educational, legal, political, and human complexity. Examines the challenges of rapid social and demographic change in California as well as the need for restructuring education and innovative responses. Note: Required for Pupil Personnel Services Credential.</p> <p>SWRK 238B. Issues and Practice in Schools. 3 Units Prerequisite(s): SWRK 204C, SWRK 238A, SWRK 295C. Corequisite(s): SWRK 204D, SWRK 295D. Term Typically Offered: Fall, Spring</p> <p>Continuation of SWRK 238A, course examines classroom management, case assessment, alternative education practices, discipline and attendance law, impediments to individual development as well as case studies, interagency collaboration, new community partnerships, and media and high technology uses. Note: Required for Pupil Personnel Services Credential.</p> <p>SWRK 245. Death, Grief And Growth. 3 Units Term Typically Offered: Fall, Spring</p> <p>Death and the process of terminating life seen from the social, cultural, personal and medical perspectives. Comparisons of competing, contradictory or complementary views of death among specific religions, social classes, ethnic groups and superstitions and taboos connected with the dead.</p> <p>SWRK 250. Social Welfare Policy and Services. 3 Units Term Typically Offered: Fall, Spring</p> <p>Analyzes contemporary social welfare policy and the ways in which policy is carried out through a broad spectrum of agencies and services, in a historical and philosophical context relevant to professional social workers. This course meets the foundation competencies of social welfare policies and services within the specific context of thinking, reading and writing in social work policy practice. Note: Graduate Writing Intensive (GWI) course.</p> <p>SWRK 252. Advanced Policy for Behavioral Health. 3 Units Prerequisite(s): SWRK 250 and advancement to candidacy. Builds on the foundation content of SWRK 250 with deeper knowledge of diverse theoretical and practical approaches to policy analysis, development, implementation, and evaluation to empower communities and individuals, to advance and protect human rights, and to optimize social justice. Focuses on Behavioral Health policy and services, involuntary commitment, access to care and patients' rights, financing and organization of Behavioral Health services, legislation and community engagement around Behavioral Health issues.</p>	<p>SWRK 253. Advanced Policy for Children & Families. 3 Units Prerequisite(s): SWRK 250 and advancement to candidacy Builds on the foundation content of SWRK 250 with deeper knowledge of diverse theoretical and practical approaches to policy analysis, development, implementation, and evaluation to empower communities and individuals, to advance and protect human rights, and to optimize social justice. Focuses on sociopolitical issues, laws and court decisions, history and role of government in public child welfare practice, children's and parents' rights, child custody, sexual abuse laws, and emancipation.</p> <p>SWRK 254. Advanced Policy for Health & Aging. 3 Units Builds on the foundation content of SWRK 250 with deeper knowledge of diverse theoretical and practical approaches to policy analysis, development, implementation, and evaluation to empower communities and individuals, to advance and protect human rights, and to optimize social justice. Focuses on the policies and services for meeting the health, economic, psychological, and the social needs of the older adults and those in health care settings.</p> <p>SWRK 258. Advanced Policy - Children and Families. 3 Units Prerequisite(s): SWRK 251. Term Typically Offered: Fall, Spring</p> <p>Building upon SWRK 251, this course examines the history of child and family services, introduces the students to theories and methods of policy analysis, and focuses on analysis of selected federal, state, and local policies specifically relevant to children and families, as well as how social workers influence policy formulation and implementation. Note: Required for title IV-E students.</p> <p>SWRK 259. International Social Work. 3 Units Term Typically Offered: Fall, Spring</p> <p>SWRK 261. Grant Writing and Resource Development. 3 Units Term Typically Offered: Fall, Spring</p> <p>Prepares students for resource and grant proposal development as well as grant project management and evaluation. Students will develop various skills including how to identify and communicate with appropriate funding sources conceptualize, write and submit a grant proposal prepare a grant budget; administer a grant funded program; and evaluate program outcomes, and peer reviews of grant proposals.</p> <p>SWRK 262. Social Work Practice in Rehabilitation. 3 Units Prerequisite(s): Admission to MHSA cohort and instructor permission. Term Typically Offered: Fall, Spring</p> <p>Reflects the current best practices of psychosocial rehabilitation, and pays particular attention to the nuances of those practice expectations within the context of the Mental Health Services Act of 2004. The course requirement for all students who are recipients of the mental health stipend in the Division of Social Work.</p> <p>SWRK 268. Advanced Clinical Social Work with Older Adults. 3 Units The focus of this course is on specialized practice with aging clientele. The curriculum is intended to help students adapt social work theory (person-in-environment), practice principles, standards and values to practice with older adults. This course includes a critical analysis of the theoretical underpinnings of gerontological thought and assists students to view aging through multiple perspectives with an examination of physiological, psychological and sociological phenomenon.</p>

SWRK 295A. Field Instruction. 3 Units

Prerequisite(s): Must be classified graduate Social Work student and approval of the Field Director or designee.

Corequisite(s): SWRK 204A.

Term Typically Offered: Fall, Spring

Field Instruction

Note: Enrollment is limited to students who have secured an approved field placement

Credit/No Credit

SWRK 295B. Field Instruction. 4 Units

Prerequisite(s): SWRK 204A and 295A; Must be classified graduate Social Work student and approval of the Field Director or designee.

Corequisite(s): SWRK 204B.

Term Typically Offered: Fall, Spring

Field Instruction

Note: Enrollment is limited to students who have secured an approved field placement.

Credit/No Credit

SWRK 295E. Post Master's Pupil Personnel Services Fieldwork. 3 Units

Prerequisite(s): Admission to Post Master's PPS program.

Term Typically Offered: Fall, Spring

School based sites for the development of Pupil Personnel Services skills. Two days per week.

Credit/No Credit

SWRK 295F. Post Master's Pupil Personnel Services Fieldwork. 3 Units

Prerequisite(s): Admission to Post Master's PPS program.

Term Typically Offered: Fall, Spring

School based sites for the development of Pupil Personnel Services skills. Two days per week.

Credit/No Credit

SWRK 296. Social Work with LGBTQ Communities. 3 Units

Prerequisite(s): admitted to the Master's in Social Work program in good academic standing; or other Master's program with permission and available space.

This elective course is designed to provide students with an in-depth and critical understanding to conduct social work with individuals who are LGBTQ, and with their kinship networks and communities. Various perspectives (e.g., historical, political, psychological, and critical theory) are examined throughout the course to assist students in understanding the complexity and dynamics of the person-in-environment perspective. The course builds on first year MSW content, integrating that through assignments as well as deepening self-awareness in service of professional development.

SWRK 296A. Field Instruction for Behavioral Health. 5 Units

Prerequisite(s): SWRK 204A, SWRK 204B, SWRK 295A, SWRK 295B, and advancement to candidacy.

Corequisite(s): SWRK 206A

Field Instruction for Behavioral Health

Note: Enrollment is limited to students who have secured an approved field placement.

Credit/No Credit

SWRK 296B. Field Instruction for Behavioral Health. 5 Units

Prerequisite(s): SWRK 204A, SWRK 204B, SWRK 295A, SWRK 295B, SWRK 206A, SWRK 296A, and advancement to candidacy

Corequisite(s): SWRK 206B

Field Instruction for Behavioral Health

Note: Enrollment is limited to students who have secured an approved field placement.

Credit/No Credit

SWRK 296D. Advanced Social Work Practice with Persons with a Developmental Disability. 3 Units

The definition, incidence, etiology, and prevention of developmental disabilities will be presented. This course also examines the life course needs of people with developmental disabilities including the collaboration of families and community, the role of social workers and other health professionals in the California Regional Center System and the Department of Developmental Disabilities, as well as presenting general issues related to service delivery systems, advocacy movements, criminal justice system involvement, mental health, sexuality issues as well as social policy issues.

SWRK 297A. Field Instruction for Children & Families. 5 Units

Prerequisite(s): SWRK 204A, SWRK 204B, SWRK 295A, SWRK 295B, and advancement to candidacy.

Corequisite(s): SWRK 207A

Field Instruction for Children & Families

Note: Enrollment is limited to students who have secured an approved field placement.

Credit/No Credit

SWRK 297B. Field Instruction for Children & Families. 5 Units

Prerequisite(s): SWRK 204A, SWRK 204B, SWRK 295A, SWRK 295B, SWRK 207A, SWRK 297A, and advancement to candidacy.

Corequisite(s): SWRK 207B

Field Instruction for Children & Families

Note: Enrollment is limited to students who have secured an approved field placement.

Credit/No Credit

SWRK 298A. Field Instruction for Health & Aging. 5 Units

Prerequisite(s): SWRK 204A, SWRK 204B, SWRK 295A, SWRK 295B, and advancement to candidacy.

Corequisite(s): SWRK 208A

Field Instruction for Health & Aging

Note: Enrollment is limited to students who have secured an approved field placement.

Credit/No Credit

SWRK 298B. Field Instruction for Health & Aging. 5 Units

Prerequisite(s): SWRK 204A, SWRK 204B, SWRK 295A, SWRK 295B, SWRK 208A, SWRK 298A, and advancement to candidacy

Field Instruction for Health & Aging

Note: Enrollment is limited to students who have secured an approved field placement.

SWRK 299. Special Problems. 1 - 3 Units

Prerequisite(s): Approval by faculty sponsor and division director.

Term Typically Offered: Fall, Spring

Individual research and directed reading. Written report required.

Credit/No Credit

SWRK 500. Culminating Experience.**2 - 4 Units****Prerequisite(s):** Advanced to candidacy. SWRK 210.**Term Typically Offered:** Fall, Spring

Completion of either: A. Thesis (an original contribution to knowledge) OR B. Research Project (addition to technical/professional knowledge or application of knowledge through case study, field study, documentary report, substantial annotated bibliography, or article of publishable quality) OR C. Directed Study and Comprehensive Examination (seminar, portfolio, examination).

SWRK 501. Advanced Research Methods.**2 Units****Prerequisite(s):** SWRK 202, SWRK 204A, SWRK 204B, SWRK 210, SWRK 250 and Advancement to Candidacy**Term Typically Offered:** Fall, Spring

This course offers a classroom structure to project-based research education. Class includes both qualitative and quantitative study design, theory construction, advanced methods of data analysis. This course expands on the knowledge gained from SWRK 210 (Methods of Research). Students will experience a mixture of advanced research content including: quantitative research designs, sampling, data collection and analysis, advanced quantitative research designs, sampling, data collection and analysis.

SWRK 502. Integrative Capstone Project.**2 Units****Prerequisite(s):** SWRK 501**Term Typically Offered:** Fall, Spring

This course is designed to reflect the student's proficiency in the core competencies of the social work profession. The focus of this course is the identification of a social work problem, developing a research design which appropriately addresses the problem, and presentation of the findings. Students demonstrate professional competencies in: ethics, communication, diversity, theory, research, direct and indirect and indirect practice, leadership and organizational processes and evidence of a professional self.

Sociology (SOC)

SOC 1. Principles of Sociology.**3 Units****General Education Area/Graduation Requirement:** GE AREA D**Term Typically Offered:** Fall, Spring

Introduction to the field of sociology; its basic concepts and principles; the analysis and explanation of culture, personality, social institutions, social change, population, social processes and collective behavior.

SOC 3. Social Problems.**3 Units****General Education Area/Graduation Requirement:** GE AREA D**Term Typically Offered:** Fall, Spring

Introduction to major social problems in the U.S., with an emphasis on systemic problems, such as economic, racism and sexism. Problems in major social institutions such as the family, social services, criminal justice and the environment are also addressed.

SOC 5. Exploring Issues Facing Contemporary Families.**3 Units****Term Typically Offered:** Fall, Spring

An exploration of social issues that contemporary families face every day with an integration of the life course perspective and sociopsychological viewpoint. Issues covered may include varying family constellations, mate selection, intimacy, communication, adjustment, cohesion, attachment, aging, foster care and adoption, gender, race/ethnic/cultural influences, social stratification, family/partner violence, health, and social policy.

SOC 8. Sense and Nonsense in Social Issues and Research.**3 Units****General Education Area/Graduation Requirement:** Critical Thinking (A3)**Term Typically Offered:** Fall, Spring

Introduces basic steps in the research process and/or basic steps in critically evaluating discussions on social issues. Students are taught to recognize common errors through the analysis of non-technical applied research and/or through newspapers and sociological articles about social issues and problems. Emphasizes the logical steps involved in thinking critically about social research and/or social problems such as quality of operational definitions, weaknesses in research design, sampling errors, value assumptions, logical consistency between premises and conclusions, and the structure of arguments.

SOC 10. Issues in Crime and Social Control.**3 Units****General Education Area/Graduation Requirement:** GE AREA D**Term Typically Offered:** Fall, Spring

Introduces the concepts utilized by sociologists in the analysis of controversial issues in crime and social control, e.g., norms, roles, subcultures, labeling, social conflict, social stratification, racism, sexism, etc. Particular attention is paid to sources of data and trends over time. Issues covered include, but are not limited to: capital punishment, drugs and drug policy, domestic violence, abortion, driving under the influence, police use of deadly force, private prisons and juvenile justice reform.

SOC 101. Introduction to Statistics for Sociologists.**4 Units****Prerequisite(s):** Sociology majors only**Term Typically Offered:** Fall, Spring, Summer

Provides students with an overall view of the role and techniques of statistics in the presentation and interpretation of social science data. Lectures emphasize descriptive statistics: measures of central tendency and variability, and association and correlation. Introduction is given to statistical inference: sampling distributions, hypothesis-testing, and estimation. Lab sessions provide demonstrations and training in the practical application of concepts and techniques dealt with in lectures. Students learn to use the computer as an aid in data processing and analysis.

SOC 102. Research Methods in Sociology.**4 Units****Prerequisite(s):** SOC 101; Sociology majors only**Term Typically Offered:** Fall, Spring, Summer

Students will be introduced to the basic steps in research; problem definition, research design, sampling, data collection methods, and analysis. Laboratory exercises reinforce methodological processes, including finding and evaluating existing research studies, operationalizing concepts, developing questionnaires, and analyzing primary data. Students will learn how to process and analyze both qualitative and quantitative data, including analytic induction, manipulation of computerized data files, bivariate and multivariate analysis, table construction, and preparation of written research reports. Lab exercises reinforce computer and statistical skills.

- SOC 103. Advanced Sociological Analysis.** 3 Units
Prerequisite(s): SOC 101 and SOC 102
Term Typically Offered: Fall, Spring
- An advanced course in research design and analysis. Introduces students to advanced data analysis techniques and how to use them to investigate social problems and issues. Students will build on the knowledge they have accumulated in previous courses in sociological research methods and theory to design and complete a research project. Specific methodological strategies taught will vary, and could include regression analysis, ethnography, comparative-historical methods, qualitative interviewing, evaluation research and longitudinal survey analysis.
Note: May be repeated for credit
- SOC 106. Births, Deaths and Borders.** 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Studies population including growth and decline, fertility and mortality trends, migration, human ecology, and the interrelationship of population and socioeconomic change.
- SOC 110. Urban Life and Problems.** 3 Units
Term Typically Offered: Fall, Spring
- Takes a political economic approach to urban development, with special emphasis on the roles played by various social groups and institutions. Particular attention is given to the effects of urban growth, oppositional movements to growth and the global developments that affect urban conditions.
- SOC 118. Chicano Community.** 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D
Term Typically Offered: Fall, Spring
- Analyzes the institutions, norms, values, and traditions of the Chicano community. Included is an examination of the Chicano community's progress in mainstream American life with attention to the effect of ethnocentrism, racism and class.
- SOC 120. Ethnic and Race Relations.** 3 Units
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring
- Analyzes relations among various racial, religious, nationality, and gender groups as they interact with racism, ethnocentrism and class in the U.S. and the world.
- SOC 122. Immigration Studies.** 3 Units
Term Typically Offered: Fall, Spring
- Examines the social phenomena of labor migration, immigration, and transnationalism, and places their origins and development in the context of political-economic national inequalities. Advances an understanding of why societies experience migration, immigration, and transnationalism, and evaluates competing and complementary theoretical frameworks explaining these migratory processes, particularly as they relate to the U.S. Special attention will be given to race, gender, and class relations as impacted by labor migration processes.
- SOC 123. Black Studies in Sociology.** 3 Units
Term Typically Offered: Fall, Spring
- Introduces students to the sociological analysis of Black American life in the U.S. – the complex phenomena of Black issues, emerging theories of race, and the cumulative scholarship on black identity, experience, socio-economic status, and social organization.. Focus is on the original contributions of social scientists to Black Studies in Sociology.
- SOC 124. Social Justice in Interdisciplinary Perspective.** 3 Units
Prerequisite(s): Sophomore standing or instructor permission.
Term Typically Offered: Fall, Spring
- Examines the nature and forms of social justice and injustice. Key philosophical and theoretical models and debates over the meaning of social justice, using historical and contemporary examples to highlight important concepts and controversies are addressed. Faculty from different departments within SSIS, and occasionally from other colleges, will address how their discipline understands and analyzes issues of social justice. Students will be encouraged to critically assess the assumptions of various perspectives on social justice, and to address the relationship of academe and social activism in achieving social justice. Cross listed as ANTH 130, ID 124, ENVS 124, ETHN 124 and FACS 124. Only one may be counted for credit.
- SOC 125. Social Inequalities.** 3 Units
Prerequisite(s): SOC 1 or equivalent.
Term Typically Offered: Fall, Spring
- Examination of the ways race, class and gender, as well as the intersection of all three, affect the distribution of valued resources in a society. Other social inequalities such as age, sexual orientation, or nationality, etc. may also be examined. Attention is given to struggles to change or preserve economic and political inequalities.
- SOC 126. Sociology of Gender.** 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Examines how gender designation of "male" and "female" impacts an individual's life; explores the social construction of masculinity and femininity in the family, school, workplace, everyday interactions, and within racialized and colonized societies; studies the consequences of gender difference and inequality that result in violence and abuse, sexual harassment, hate crimes, wage differentials and unequal opportunities.
- SOC 127. Men, Masculinity and Society.** 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring
- Introduces students to the field of men and masculinity. Examines the construction of masculinity in sports, family, work and other social relationships, showing how it affects and is affected by people, institutions and society. Explores the diverse experiences based on race, class, occupation, physical ability and sexuality, and the implications for people from such diverse groups.
- SOC 128. Sociology Of Sexuality.** 3 Units
Prerequisite(s): SOC 1 or instructor permission.
Term Typically Offered: Fall, Spring
- Studies sexuality including historical and cultural differences in sexual attitudes, beliefs and behaviors. Also examines the mutual influence of sexuality and social institutions, such as the family, the economy, politics and religion.

SOC 130. Political Sociology.**3 Units****Prerequisite(s):** SOC 1 or equivalent.**Term Typically Offered:** Fall, Spring

Analyzes political order and change from the viewpoint of cultural values and the institutional structure of societies. Examines group behavior patterns related to ideology, elites, masses, classes, movements, parties, and other power groups. Surveys differing theories and methodologies for the study of political processes across cultures and societies.

SOC 133. Sport in a Global Perspective.**3 Units**

Prerequisite(s): GVAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

Examines sport in a global context, focusing on the dynamic nature of sports in response to changes in society. Addresses the effect sport has on both the society and the individual, from socialization to nationalism. Focuses on both participants (youth, amateurs, professionals) and spectators (parents, fans, etc.) at all levels of involvement, from community to international competition. Highlights cross-cultural differences in the relationships between sport and other social institutions such as government, corporations, and the media.

SOC 134. Sociology of Film.**3 Units****Term Typically Offered:** Fall, Spring

Introduces the "Sociological Imagination" by linking the personal histories found in films to larger social structures. The evolution of important contemporary global and domestic social issues is discussed by analyzing the sociological content of major motion pictures. The socio-historical development of the American film industry is also examined to explore its ideological role in challenging and perpetuating various forms of class, race, and gender discrimination.

SOC 135. Sociology of Popular Culture.**3 Units**

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall, Spring

Analyzes social processes that produce popular culture by contrasting interrelationships between institutional power structures and collective behavior. Examines theories of popular culture, mass movements, and individualism; social change, cultural hegemony, sub-cultures, and organizational studies.

SOC 136. Social Movements.**3 Units**

Prerequisite(s): SOC 1 or instructor permission.

Term Typically Offered: Fall, Spring

Analyzes old and new social movements – pre-political and political, cultural and identity types – class, labor, feminist, ethnic, environmental, left and right. Challenges by movements to institutional order. Surveys differing theories and methodologies for the study of movements and degree of change (reform, revolutionary) across cultures and societies.

SOC 137. Sociology of Science.**3 Units****Term Typically Offered:** Fall, Spring

Examines paradigm changes of science in society and how views of science and technology are socially constructed. Analyzes the representations of scientists, scientific inquiry, and technological innovation. Explores the ways in which science has driven social change, and vice-versa.

SOC 138. Environmental Sociology.**3 Units****Term Typically Offered:** Fall, Spring

Studies human society, the natural environment, and their mutual interactions. Examines environmental sociology at several levels, from the micro level of individual communities to the meso level of government policies to macro theoretical considerations. Analysis of environmental issues in a global context also included.

SOC 139. Animals in Society.**3 Units**

General Education Area/Graduation Requirement: GE AREA D

Term Typically Offered: Fall, Spring

Examines social relationships between humans and animals as pets, companions, workers, entertainers, and food. Analyzes the representations of animals. Studies our relationships with animals both on the level of social groups and as individuals. Applies sociological approaches to the study of human-animal relationships, including the social movements around animal rights.

SOC 140. Sociology of Education.**3 Units**

Prerequisite(s): SOC 1 or equivalent.

Term Typically Offered: Fall, Spring

Examines the organization and functions of educational institutions; the rise of mass education and changes in educational systems to the present; the role of teachers, parents, and schools in education; the impact of gender, race, and class on educational outcomes and processes.

SOC 144. Sociology of Health and Illness.**3 Units**

Prerequisite(s): SOC 1 or instructor permission.

Term Typically Offered: Fall, Spring

Examines the social contexts of health, illness, and medical care. Emphasizes the debates and contrasting perspectives that characterize the sociological study of health and illness. Topics include the social, global, environmental, and occupational factors influencing health and illness; the politics surrounding physical and mental illness; the patient's perspective on illness; ethical issues in medicine as they relate to medical technology; and health care reform. The influence of health status on identity and interaction will also be addressed.

SOC 146. Sociology of Aging.**3 Units****Term Typically Offered:** Fall, Spring

Analyzes the process of aging in the context of social structure and processes. Specifically, it deals with such issues as the age structure of society, social values and norms that define the aged, social stratification and aging, social institutions and the aged, theoretical and methodological issues in social gerontology.

- SOC 150. Social Psychology.** **3 Units**
Term Typically Offered: Fall, Spring
- Examines major principles governing face to face interaction and their application in understanding the student's own experience: creating and preserving meaning, "realities" and selves through dramaturgy, negotiation and power; the relationship between status and intimacy; the impact of status resources (such as race and gender) on the status assignment process; the self concept; the role of emotions in social life.
- SOC 155. Criminology.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Examines social dimensions -- causes and characteristics -- of adult crime and deviant behavior in American society. Makes some international comparisons. Police, courts and prisons are examined. Special attention is given to current issues in crime and deviance.
- SOC 156. Delinquency.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Examines social determinants of juvenile delinquency, including family, urban conditions, social-psychological and sociological factors. Analyzes the juvenile justice system, including law enforcement, the courts and community treatment programs.
- SOC 157. Issues in Courts and Prisons.** **3 Units**
Term Typically Offered: Fall, Spring
- Sociologically analyzes American courts and prisons from prosecutorial intake through sentencing and incarceration. Emphasis is on the role of social factors (in particular race, class and gender) in decision-making practices at each stage of processing. Topics will include, but are not limited to: preventive detention, prosecutorial intake, plea-bargaining, jury selection, pre-sentence investigation reports, sentencing, and legal reconstruction of the American prison in the modern era.
- SOC 158. Sociology of Deviance.** **3 Units**
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring
- Introduces students to the history of attempts to define and explain deviant behavior; explains social conditions and processes associated with careers of deviants; examines relationship of deviance to problems of social control.
- SOC 160. Asian Societies.** **3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
- Cross-cultural study focuses on Japanese and Chinese societies and cultures and their influences on other Asian developments. Emphasizes their distinctive institutions, norms, values, and traditions in relation to contemporary social, economic, and political processes.
- SOC 162. Middle Eastern Societies and Culture.** **3 Units**
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
- Discusses the fundamental aspects of Middle East Societies covering such topics as population, family, women, patterns of living, social stratification, education, economic development, politics and armies in the Middle East.
- SOC 163. Conflict, Oil and Development in the Middle East.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Examines in detail the major sources of conflict in the Middle East with special reference to the Arab-Israeli conflict, the arms buildup in the Arabian-Persian Gulf, energy crisis and the multi-national aspect of Middle East oil. Attempts to discuss the impact of these conflicts on the processes of social and economic development.
- SOC 164. Sociology of Globalization.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- Examines globalization and its effect on local societies, including the impact of globalization on local labor and work practices, the social organization of local firms and business enterprises, local social structures such as gender, class, race/ethnicity, and local social patterns such as consumption and leisure activities.
- SOC 166. The Family.** **3 Units**
Term Typically Offered: Fall, Spring
- Introduces students to the sociology of the family including an examination of the family in various cultures with the emphasis on the American family in all its many forms.
- SOC 168. Self and Society.** **3 Units**
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Understanding Personal Development (E)
Term Typically Offered: Fall, Spring
- Examines the relationship between the individual and society: social interaction, human development, behavior in groups and collectivities, personality and social structure. Theories and empirical studies.
- SOC 169. Changing American Family.** **3 Units**
Term Typically Offered: Spring only
- Analyzes the American family, past, present, and future, focusing on explanation and consequences of changes in child-bearing, courtship, marriage, and the interrelationships between the individual and the family and society. Focuses on connecting course material to real world organizations and programs in the community that are associated with or linked to families. Per week: lecture two hours; fieldwork in the community two to three hours.
- SOC 170. Sociology of Children and Adolescents.** **3 Units**
Term Typically Offered: Fall, Spring
- Introduces students to the sociology of childhood and adolescence, focusing on theoretical foundations, methodological challenges, and empirical examination of youth from preschool through high school. Focuses on peer relations within wider contexts shaped by gender, race, and social class.

SOC 171. Sociology of Religion.**Term Typically Offered:** Fall, Spring

Acquaints students with the sociological foundations of religion in society. Emphasis is on the history, development and overall structure of the institution of religion, its relation to social, ethnic and class-based groups and its effect on society in general, and how its social development in America differs from other cultures.

SOC 175. Work and Occupations.**Term Typically Offered:** Fall, Spring

Examines the social organization of work and economic organization; the rise of industrial society and changes in workplace relations to the present; the role of technology and ideology in the workplace; industrial reforms and alternative forms of economic organization.

SOC 176. Labor and the American Social Structure.

Prerequisite(s): GWAAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: GE AREA D, Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

Introduction to the study of labor in the U.S., including the nature of work, characteristics of the work force, and an overview of contemporary labor and industrial relations systems within the framework of current U.S. economic and political developments.

Cross Listed: LBRS 100; only one may be counted for credit.

SOC 185. Bullying as a Social Experience.**Term Typically Offered:** Fall, Spring

This course educates students on bullying as a social experience, introducing how social forces, environment and context impact the culture of bullying. Students will develop an understanding about how programs and policies impact bullying rates based on social theoretical perspective. Students will gain a better understanding of how research is related to intervention and prevention practices. Then, from a whole school approach, using the resources available to the school, students will implement different components of an anti-bullying program at a school site.

SOC 190. Sociology of Small Groups.**Prerequisite(s):** SOC 1 or equivalent.**Term Typically Offered:** Fall, Spring

Examines social structure and social determinants of behavior in small groups; socialization, social control, social change, leadership, social ranking, social conflict and morale.

SOC 192. Sociological Theory.**Prerequisite(s):** SOC 1.**Term Typically Offered:** Fall, Spring

Surveys the history of sociological theory from Comte to the present.

3 Units**3 Units****3 Units****3 Units****3 Units****3 Units****SOC 193A. Mentoring in Sociology.****Prerequisite(s):** Instructor permission.**Term Typically Offered:** Fall, Spring

Provides opportunity for freshman, sophomores, and juniors majoring in sociology to be mentored for improved student success and retention. Students receive peer mentoring to facilitate closer integration into campus community through participation in events, organizations, and conferences sponsored by the sociology department. Students learn how to build productive relationships with professors and receive timely advising for better retention and success rates. Course does not count toward sociology major but toward degree requirements.

Note: May be repeated twice for credit; Three times with exception as determined by the instructor.

Credit/No Credit

SOC 193B. Peer Mentoring in Sociology.

Prerequisite(s): One year of residency at Sac State; 2.8 GPA required; Open only to Sociology majors.

Term Typically Offered: Fall, Spring

Provides opportunities for junior and senior sociology majors to mentor and gain practical out-of-class experience. Students learn the principles of mentoring and contribute to student retention and success and close the retention gap. Course provides practical orientation and guidance for the best practices in mentoring that contribute to a positive campus culture.

Note: May be repeated twice for credit; Three times with exception to be determined by the instructor.

Credit/No Credit

SOC 194. Special Topics in Sociology.**Prerequisite(s):** SOC 1 or instructor permission.**Term Typically Offered:** Fall, Spring

Examines contemporary issues and social developments within the research specialization of department faculty. Provides a forum to discuss and evaluate controversies and advancements in the discipline of sociology, including theory and methodology.

SOC 195. Internship and Fieldwork.**Prerequisite(s):** Instructor permission.**Term Typically Offered:** Fall, Spring

Supervised internship and fieldwork experience in a variety of settings: (1) public or private agencies in the Sacramento community, and (2) ethnic and/or minority communities. Supervision is provided by authorized persons in the field and collaborative supervision is provided by sociology faculty at Sacramento State. Limitations: sociology majors electing a concentration may count a maximum of 3 units in 195 and/or 199 toward the major. Those taking the general sociology pattern may count up to 6 units of 195 and/or 199 toward the major. Sociology minors may take up to 3 units. (See SOC 199 below.)

Credit/No Credit

1 Unit**2 Units****3 Units****1 - 3 Units**

SOC 198. Linking Statistics Education and Practice. 1 - 2 Units**Prerequisite(s):** SOC 101 and instructor permission**Term Typically Offered:** Fall, Spring

Advanced exploration of the scholarship of learning as applied to sociological methods and/or data analysis. Students will work independently on an applied semester project, but will also attend agreed upon number of computer lab hours each week and engage in course activities with a focus on how to best structure learning opportunities and apply content.

Note: Admission requires approval of professor and Department Chair. No more than 3 units from SOC 195, SOC 198, or SOC 199 combined may be applied to the Sociology upper division major requirement.

SOC 199. Individual Study Projects. 1 - 3 Units**Term Typically Offered:** Fall, Spring

Individual projects or directed reading; open only to students who appear competent to carry on individual work. Admission requires approval of the sponsor of the project and the Department Chair. Limitations: sociology majors electing a concentration may count a maximum of 3 units in 195 and/or 199 toward the major. Those taking the general sociology pattern may count up to 6 units of 195 and/or 199 toward the major. Sociology minors may take up to 3 units. (See SOC 195 above.)

Credit/No Credit

SOC 200A. Orientation to Graduate Studies in Sociology. 1 Unit**Prerequisite(s):** Classified graduate status.**Term Typically Offered:** Fall, Spring

Describes our graduate program, clearly explains our requirements and standards for successful completion of the M.A., shows students how the profession works and how to work in the profession (public submissions, conference presentations, job searches), and explains how to get through the program in a timely manner with a strong thesis. We will discuss Ph.D. programs and the application process, job opportunities and the role of professional sociologists outside academe.

SOC 200B. Thesis Prospectus/Project Preparation Seminar. 2 Units**Prerequisite(s):** Completion of a minimum of 6 hours of graduate study. Completion of (or concurrent enrollment in) SOC 214 is recommended.**Term Typically Offered:** Fall, Spring

Provides students with faculty and peer support for the process of developing a draft of a thesis prospectus or project proposal. This includes the clarification of expectations, familiarization with research resources, and support provided through feedback in a structured environment.

Credit/No Credit

SOC 210. Urban Sociology. 3 Units**Prerequisite(s):** Classified graduate status.**Term Typically Offered:** Fall, Spring

Critically examines major theories, research, and debates in the field of urban sociology, including social ecology, Marxist, subcultural, and postmodernist perspectives. Course materials will be framed within two main themes; the dynamics of cooperation and conflict under urban conditions, and the tension between private interests and public life in urban settings. Methodological emphasis will be on case studies, ethnographic, and social historical analysis.

SOC 214. Research Methods. 3 Units**Term Typically Offered:** Fall, Spring

Deals specifically with such issues as the role of research within the discipline, the ethics of conducting research, the rationale behind field and survey methods, the validity and reliability of data collected through these methods and alternative approaches to data collection.

Note: Open to classified graduate students in sociology, all others by instructor permission only; Graduate Writing Intensive

SOC 215. Data Analysis. 3 Units**Prerequisite(s):** SOC 101 or equivalent, or instructor permission.**Term Typically Offered:** Fall, Spring

Introduces techniques used to analyze sociological data. Emphasis will be placed on the basic concepts of quantitative models used to explore causality, along with an introduction to software to carry out multivariate analysis. Qualitative analytical techniques and software will also be introduced.

SOC 220. Seminar: Social Change. 3 Units**Prerequisite(s):** Classified graduate status in sociology; all others by instructor permission only.**Term Typically Offered:** Fall, Spring

Course deals with main theoretical orientations in sociology representing radical, liberal and conservative viewpoints on social change. Examines the historical context of events that affected Western countries such as the Industrial Revolution, French Revolution, and the emergence of nationalism and human rights. Course approach is theoretical, historical and global.

SOC 225. Social Stratification. 3 Units**Prerequisite(s):** Classified graduate status in sociology; all others by instructor permission only.**Term Typically Offered:** Fall, Spring

Analyzes contemporary issues in stratification literature including class, status, power, sex/gender, identity, ethnicity, mobility, equality/inequality. Discusses differing theories, methodologies, and controversies according to student interests.

SOC 226. Sociology of Gender. 3 Units**Term Typically Offered:** Fall, Spring

Intended to introduce graduate students to diverse theories that explain gender relations in contemporary society. Provides a critical perspective on how we construct men's and women's identities and how the consequences of such a construction affect institutions, culture and society. Broken up in four sections: origins of gender inequality and issues surrounding research, theoretical perspectives, marginalized groups, and gendered issues in society.

SOC 230. Seminar: Social Organization. 3 Units**Prerequisite(s):** Classified graduate status or instructor permission.**Term Typically Offered:** Fall, Spring

Analyzes and critiques institutional structure. Studies shared understanding in groups, corporations, communities, institutions or societies and their hierarchical order.

- SOC 235. Social Psychology.** **3 Units**
Prerequisite(s): Open to classified graduate students in sociology, all others by instructor permission only.
Term Typically Offered: Fall, Spring
- Examines advanced social psychology. Focuses on symbolic interactionism, ethnomethodology and other recent developments in sociological social psychology, phenomenology, humanistic social psychology and critical reflexive sociology.
- SOC 238. Environmental Sociology.** **3 Units**
Term Typically Offered: Fall, Spring
- Examines the complex relationship between human society and its surrounding environment. Theoretical perspectives are complemented by empirical research on environmental issues. Special attention is given to issues relating to the local and regional California environment. Analyzes environmental issues in a global context.
- SOC 240. Seminar: Sociological Theory.** **3 Units**
Prerequisite(s): Classified graduate status in sociology; all others by instructor permission only.
Term Typically Offered: Fall, Spring
- Analyzes and critiques terms and issues in social and sociological theory including levels of social reality and differing perspectives - positivism, idealism, realism, post-modernism, feminism, etc.
- SOC 255. Social Research in Crime and Deviance.** **3 Units**
Term Typically Offered: Fall, Spring
- Comprehensively reviews and evaluates major sociological theories of crime and deviance, methods of studying crime and deviance, current empirical research in crime and deviance, empirical testing of sociological explanations of crime and deviance, and empirical evaluation of crime and deviance control policy.
- SOC 260. Contemporary Issues of the Middle East and North Africa.** **3 Units**
Term Typically Offered: Fall, Spring
- Discusses in-depth several contemporary issues such as the political dimension of Islam, population growth and food security, oil and development, regional conflict, national integration and forces of modernization, etc. The selection of the topics will depend on current events.
- SOC 265. Race and Ethnic Relations.** **3 Units**
Term Typically Offered: Fall, Spring
- Examines the social constructs of race and ethnicity as "central organizing principles" in the making and development of our modern world, particularly in the U.S., and how they have interacted with class and gender to create and maintain cultural and material social inequalities. Evaluates competing and complementary theoretical frameworks explaining how race and ethnicity affect individual and group social-structural location (e.g., class position, educational attainment, and political power).
- SOC 266. Sociology of The Family.** **3 Units**
Prerequisite(s): Classified graduate status or instructor permission.
Term Typically Offered: Fall, Spring
- Sociologically examines the family, with an emphasis on the contemporary American family. The numerous stages and variations of the family life cycle will be considered, with an emphasis on changes and the causes and consequences of the changes.
- SOC 294. Special Topics in Sociology.** **3 Units**
Prerequisite(s): Open to classified graduate students in sociology; all other sociology graduate students by instructor permission
Term Typically Offered: Fall, Spring
- Examines contemporary issues and social developments within the research specialization of department faculty. Provides a forum to discuss and evaluate controversies and advancements in the discipline of sociology including theory and methodologies.
Note: May be repeated twice for credit
- SOC 295. Internship and Fieldwork.** **1 - 3 Units**
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
- Supervised internship and fieldwork experience in a variety of settings: (1) public or private agencies in the Sacramento community, (2) ethnic and/or minority communities, and (3) educational institutions including area community colleges and universities. Supervision is provided by authorized persons in the field and collaborative supervision is provided by sociology faculty at Sacramento State.
 Credit/No Credit
- SOC 299. Special Problems.** **1 - 3 Units**
Term Typically Offered: Fall, Spring
- Individual projects or directed reading.
Note: Open only to students who appear competent to carry on individual work. Admission requires approval of the sponsor of the project and the Department Chair.
 Credit/No Credit
- SOC 500. Culminating Experience.** **3 - 6 Units**
Prerequisite(s): Advancement to candidacy, successful thesis prospectus hearing, and a minimum 3.0 GPA.
Term Typically Offered: Fall, Spring
- Completion of a thesis or a project. Thesis: the 6 unit master's thesis requirement must be completed under the direction of the student's thesis committee. Project: the 6 unit project requirement must be completed under the direction of the student's project committee.
- ## Sp Ed, Rehab, School Psychology & Deaf Studies (EDS)
- EDS 140. Introductory Behavioral Statistics.** **3 Units**
Term Typically Offered: Fall, Spring
- Descriptive and interpretative statistics in education and allied fields. Use of calculators and statistical tables. Lecture three hours.
- EDS 201. Legal Aspects of Special Education.** **3 Units**
Term Typically Offered: Fall, Spring
- Legislative provisions related to implementation of special education programs and procedures will be a primary focus. Additional emphasis will be given to pertinent judicial decisions and to law as it relates to special education in a multicultural context.

EDS 202. Seminar in Neurodevelopmental Disabilities. 3 Units
Term Typically Offered: Fall, Spring

Examines topics and issues in neurodevelopmental disabilities and includes educational, clinical, habilitative, therapeutic, and medical perspectives. Focuses on collaborative, interdisciplinary perspectives on educational and related interventions with students who have neurodevelopmental disabilities.

EDS 203. Seminar for Resource Specialists: Management and Delivery of Services. 3 Units

Prerequisite(s): EDS 201, EDS 101 and Special Education Credential.

Term Typically Offered: Fall, Spring

Review of literature, and simulated experience in the various roles of the resource specialist in special education programs in the schools. Professional problem-solving strategies; standards and procedures; model program organizational alternatives; management approaches of resource specialist program (RSP); major developments and trends at Federal, State and local levels; references to legal provisions, rules and regulations in special education.

Credit/No Credit

EDS 213A. Mathematics Curriculum and Instruction in Inclusive Classrooms. 2 Units

Corequisite(s): EDS 213B.

Term Typically Offered: Fall, Spring

Prepares Mild/Moderate/Severe and multiple subject teacher candidates to teach mathematics content standards for California public schools. Prepares teacher candidates with the knowledge of basic principles and strategies related to mathematics education. Candidates develop, implement, and evaluate math curricula appropriate for those students receiving special education services with mild/moderate/severe disabilities. Expanded treatment of mathematics pedagogy, manipulative, technological supports, accommodations, inclusive instructional techniques, and strategies specially suited in instruction of English language learners and students with disabilities. Prerequisite: Admittance to Mild/Moderate or Moderate/Severe Credential Program or permission of respective special education coordinator.

EDS 213B. Mathematics Curriculum and Instruction in Inclusive Classrooms Lab. 1 Unit

Prerequisite(s): Admittance to Mild/Moderate or Moderate/Severe Credential Program or permission of respective special education coordinator.

Corequisite(s): EDS 213A.

Term Typically Offered: Fall, Spring

Field-base practice lab (30 hours). Lab will be a synthesis and application of course content (EDS 213A) in a setting for students who receive special and/or general education services.

Credit/No Credit

EDS 214A. Social Science Curriculum and Instruction in Inclusive Classrooms. 2 Units

Prerequisite(s): Admittance to Mild/Moderate or Moderate/Severe Credential program or permission of respective special education coordinator.

Corequisite(s): EDS 214B.

Term Typically Offered: Fall, Spring

Prepares mild/moderate/severe and multiple subject teacher candidates to teach history-social science content standards for California public schools to all students, including English Learners and students with disabilities; to use analytical and critical thinking skills in history and social science; and to integrate history-social science topics, themes and concepts with other subject areas. Pedagogical topics include the use of timelines, maps, and artifacts, case studies, simulations, literature, art, multiple perspectives, SDAIE, cooperative projects, and research activities.

EDS 214B. Social Science Curriculum and Instruction in Inclusive Classrooms Lab. 1 Unit

Prerequisite(s): Admittance to Mild/Moderate or Moderate/Severe Credential program or permission of respective special education coordinator.

Corequisite(s): EDS 214A.

Term Typically Offered: Fall, Spring

Field-based practice lab (30 hours). Lab will be a synthesis and application of course content (EDS 214A) in a setting for students who receive special and/or general education services.

Credit/No Credit

EDS 215A. Science Curriculum and Instruction in Inclusive Classrooms. 2 Units

Prerequisite(s): Admittance to Mild/Moderate or Moderate/Severe Credential program or permission of respective special education coordinator

Corequisite(s): EDS 215B

Term Typically Offered: Fall, Spring

Prepares mild/moderate/serve and multiple subject teacher candidates to teach science content standards for California public schools to all students. Give participants the knowledge of basic principles and strategies related to science education appropriate for general education (k-8) teacher candidates. Participants will also develop, implement, and evaluate science curricula appropriate for those students with mild/moderate/severe disabilities. This includes an expanded treatment of science pedagogy, manipulative, technological supports, accommodations, inclusive instructional techniques, and other strategies specially suited to the instruction of English Learners and students with disabilities.

EDS 215B. Science Curriculum and Instruction in Inclusive Classrooms Lab. 1 Unit

Prerequisite(s): Admittance to Mild/Moderate or Moderate/Severe Credential program or permission of respective special education coordinator

Corequisite(s): EDS 215A.

Term Typically Offered: Fall, Spring

Field-based practice lab (30 hours). Lab will be a synthesis and application of course content (EDS 215A) in a setting for students who receive special and general education services.

Credit/No Credit

EDS 217. Positive Behavioral Support: Effective Individual, Class-wide and School-wide Applications (Moderate). 3 Units

Prerequisite(s): EDSP 119, EDSP 205, EDSP 206, EDSP 207, EDSP 208, EDSP 216, EDSP 216B, EDSP 220, EDSP 235, EDS 291A, EDS 291B, EDSP 413 - or equivalents.

Corequisite(s): EDSP 414 or advisor approval.

Term Typically Offered: Fall, Spring

Students will learn to use positive behavioral supports to enhance the quality of life for individuals with serious behavioral challenges. Using the research-based methods and materials from the National Rehabilitation Research and Training Center on Positive Behavioral Support, provides the student with a thorough background in functional assessment and the design of positive behavioral support plans which are in compliance with both state (Hughes Bill) and federal (IDEA) law. After individual assessment and support plans have been covered, moves to class-wide methods of positive behavioral support and school-wide methods. The content is research-based.

EDS 222. Perspectives Workforce Dev. 3 Units

Term Typically Offered: Fall, Spring

Examines the premises of workforce development and advocacy with emphases on adult learning styles and learning communities. Explores the specific needs of the formal and informal vocational, technical and adult learning community in an ever-changing work environment.

EDS 223. Organization Learning Comm. 3 Units

Term Typically Offered: Fall, Spring

EDS 224. WF Assess+Accountability. 3 Units

Term Typically Offered: Fall, Spring

EDS 226. Resource Enhance For WDA. 3 Units

Term Typically Offered: Fall, Spring

EDS 227. Issues Impacting WDA. 3 Units

Term Typically Offered: Fall, Spring

EDS 228. Sem:Future Workforce Dev. 3 Units

Term Typically Offered: Fall, Spring

EDS 231. Group Process in School Psychology. 3 Units

Term Typically Offered: Fall, Spring

Designed to equip students with the group process skills and understanding essential to the practice of school psychology. Focus on both developing counseling groups within the schools and on the understanding of group process necessary to being an effective agent in the school setting. Topics include the logistics of working within a school system, balancing groups, soliciting referrals, sharing information, participating in staff meeting, and facilitating parent teacher and other school level meetings such as Individualized Education Program Planning meetings.

EDS 239. Education Specialist Seminar. 3 Units

Prerequisite(s): Approval as a candidate in the Education Specialist program, completion of courses required for the School Psychology Internship credential, approval of advisor, and department petition.

Term Typically Offered: Fall, Spring

Explores leadership roles of school psychologists.

Credit/No Credit

EDS 240. Functional Assessment of Behavior. 3 Units

Prerequisite(s): Instructor permission.

Term Typically Offered: Fall, Spring

Assessment of behaviors using the techniques of applied behavior analysis. Students will learn how to do functional assessments of behavior. Methods appropriate for assessment of children in the school setting are emphasized.

EDS 241. Counseling and Psychotherapy for School Psychologists. 3 Units

Corequisite(s): EDS 440.

Term Typically Offered: Fall, Spring

Examination of basic theories of counseling and therapy used by school psychologists, with emphasis on children and youths in an educational setting and their families. Refinement of one's own counseling orientation is required.

EDS 242A. Cognitive Assessment. 3 Units

Corequisite(s): EDS 242B.

Term Typically Offered: Fall, Spring

Designed to introduce prospective school psychologists to both theory and practice in the assessment of cognitive abilities. Students will be exposed to various approaches to cognitive assessment including information processing, CBA, dynamic, and psychometric. Students will learn to administer and interpret major standardized cognitive assessment instruments including the WISC-R, WAIS-R, Stanford-Binet FE, K-ABC, and others. Lecture.

EDS 242B. Cognitive Assessment Lab. 4 Units

Corequisite(s): EDS 242A.

Term Typically Offered: Fall, Spring

Clinic based practice lab. Lab will be a synthesis and application of course content in the assessment of cognitive function. Students will be assigned clients for purposes of administering, scoring, evaluating and reporting assessment data.

EDS 243. Assessment Practicum. 3 Units

Term Typically Offered: Fall, Spring

Administration, scoring, and interpretation of tests taught in EDS 242A-B, EDS 244, or EDS 247. Students will be assigned five to seven cases. They will assess the children, meet with the families to gather history, and render interpretation.

Note: Must be taken concurrently with EDS 242A, EDS 242B, EDS 244, and EDS 247. May be taken twice for credit.

EDS 243A. Assessment Practicum A. 3 Units

Term Typically Offered: Fall, Spring

Administration, scoring, and interpretation of tests taught in EDS 242A and B and EDS 244. Students will be assigned five cases. They will assess the children, meet with the families to gather history, and render interpretation.

Note: Taken concurrently with EDS 244, unless granted special permission of faculty.

- EDS 243B. Assessment Practicum.** **3 Units**
Prerequisite(s): EDS 243A
Corequisite(s): EDS 247
Term Typically Offered: Fall, Spring
- Advanced practice in administration, scoring, and interpretation of tests taught in EDS 242A-B, EDS 243A, EDS 244, and EDS 247. Students will be assigned five to seven cases (with some cases in Fieldwork placements). Development of skills in assessment, analysis of data, intervention planning and conveying results orally and in writing.
Note: Taken concurrently with EDS 247, unless granted special permission of faculty.
- EDS 243C. Assessment Practicum.** **3 Units**
Prerequisite(s): EDS 243B
Term Typically Offered: Fall, Spring
- Continued training in development of advanced skills in administration, scoring, and interpretation of tests taught in EDS 242 A-B, EDS 243A, EDS 243B, EDS 244, or EDS 247. Students will be assigned cases by the practicum supervisor as appropriate. Students are expected to successfully engage in all stages of assessment process with clients.
Note: Taken with permission of faculty after completion of EDS 243A and EDS 243B.
- EDS 244. Social, Emotional and Behavioral Assessment.** **3 Units**
Prerequisite(s): EDS 242A and EDS 242B.
Corequisite(s): EDS 243.
Term Typically Offered: Fall, Spring
- Examines social/emotional assessment strategies and instruments appropriate for working with students in schools. Topics include clinical interviewing, social-emotional functioning, conduct disorder, and effective report writing. Students use course information during concurrent enrollment in EDS 243: Assessment Practicum.
Note: Must be admitted to School Psychology Program.
- EDS 245. Psychology In The Schools.** **3 Units**
Prerequisite(s): Must be admitted to School Psychology Program.
Term Typically Offered: Fall, Spring
- Overview of psychology in the schools. Topics include school systems, program development, service delivery models and the role of the school psychologist. Students will engage in systematic school observations.
- EDS 246A. Preventive Academic Interventions.** **3 Units**
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
- Study and application of various primary, secondary, and tertiary academic interventions designed to prevent school failure and/or learning challenges. Examines techniques of identifying pupils who are experiencing academic difficulties that interfere with school functioning, and intervention techniques designed to remediate or ameliorate these problems.
- EDS 246B. Preventive Mental Health Interventions.** **3 Units**
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
- Study and application of various primary, secondary, and tertiary psychological interventions designed to prevent school failure and/or emotional challenges. Examines techniques of identifying pupils who are experiencing mental health difficulties that interfere with school functioning, and intervention techniques designed to address these problems.
- EDS 247. Assessment of Special Needs.** **3 Units**
Term Typically Offered: Fall, Spring
- Assessment of client behavior using formal and non-formal methods based on neuropsychological principles. Students will learn to use interview techniques, standardized cognitive and projective tests, and neuropsychological screening procedures to assess students with special needs. Report writing, parent conferences, and consultation strategies will be stressed.
- EDS 248. Human Development and Learning.** **3 Units**
Term Typically Offered: Fall, Spring
- Cognitive, socio-emotional and personality development through the lifespan (with emphasis on birth through early adulthood) as influences on the learning process. Includes analysis of theories, empirical research and current issues in human development and learning as applied to school learning.
- EDS 249. Special Seminar: School Psychology.** **1 - 3 Units**
Term Typically Offered: Fall, Spring
- Individual projects or directed reading.
Note: Departmental petition required.
- Credit/No Credit
- EDS 252A. Advanced Teacher Induction Seminar.** **2 Units**
Prerequisite(s): Admission to Special Education Level II program.
Corequisite(s): EDS 252B.
Term Typically Offered: Fall, Spring
- Leads to the development of a Professional Level II Education Specialist Credential induction plan for the support and professional development of the teacher credential candidate as required by the California Commission on Teacher Credentialing. The candidate, the university advisor, and the employer's representative work together to plan course work, and provide individual assistance, and professional development opportunities to address individual performance goals. Seminar.
 Credit/No Credit
- EDS 252B. Advanced Teacher Induction Seminar Lab.** **1 Unit**
Prerequisite(s): Admission to Special Education Level II program.
Corequisite(s): EDS 252A
Term Typically Offered: Fall, Spring
- Level II candidate, university advisor/supervisor and employer's representative work collaboratively to develop a professional plan which relates to the CCTC standards and the individual learning needs of the student. The class is designed as a lab to support the acquisition of all proscribed Level II standards and to support the development of the candidate's professional portfolio for assessment of designated competencies.
 Credit/No Credit

EDS 264. Seminar in Counseling: Work Evaluation. 3 Units
Term Typically Offered: Fall, Spring

Study of the work evaluation process and the modalities utilized, with emphasis on the use of work evaluation in the rehabilitation process.

EDS 265. Current Issues in Counseling: Disabled. 1 Unit
Term Typically Offered: Fall, Spring

Examination of myths regarding the disabled client. Course includes an exploration of counseling families with a disabled member, the impact of disability upon sexuality and upon interpersonal relationships. Factual data will be presented. The student's attitude toward the disabled will be examined.

Credit/No Credit

EDS 267A. Advanced Studies in Special Education-Seminar I. 3 Units
Corequisite(s): EDS 267B.
Term Typically Offered: Fall, Spring

For candidates accepted into the Level II Alternative Option Program; skills for inservice training, working with paraprofessionals, coordinating meetings, developing consensus, dealing with conflict and serving as part of collaborative teams; e-mail, use of Listproc and attendance at monthly seminars required; attaining and documenting competencies and developing portfolios related to outcomes of the Level II Mild/Moderate or Moderate/Severe Specialist Credential. Lecture.

EDS 267B. Advanced Studies in Special Education Seminar I Laboratory. 3 Units
Corequisite(s): EDS 267A.
Term Typically Offered: Fall, Spring

Will be a synthesis and application of course content (EDS 267A) in a setting(s) for students who receive special education services. The 3-unit lab section requires approximately 90 hours of related field-based and/or on-the-job activities. E-mail/Internet access required.

Credit/No Credit

EDS 268A. Advanced Studies in Special Education-Seminar II. 3 Units
Corequisite(s): EDS 268B.
Term Typically Offered: Fall, Spring

For candidates accepted into the Level II Alternative Option Program; skills for ongoing individualized assessment and curriculum adaptation to meet needs of diverse populations and advanced skills for behavioral management in inclusive settings; e-mail, use of Listproc and attendance at monthly seminars required; attaining and documenting competencies and developing portfolios related to outcomes of the Level II M/M or M/S Specialist Credentials; individualized planning for candidates who are self-directed and committed to self improvement. Lecture.

EDS 268B. Advanced Studies in Special Education Seminar II Laboratory. 3 Units
Corequisite(s): EDS 268A.
Term Typically Offered: Fall, Spring

Synthesis and application of course content (EDS 268A) in a setting(s) for students who receive special education services. The 3-unit lab section requires approximately 90 hours of related field-based and/or on-the-job activities. E-mail/internet access required.

Credit/No Credit

EDS 269A. Collaborative Strategies for Inclusive Practice. 2 Units
Prerequisite(s): CCTC Preliminary Multiple or Single Subject credential. Sacramento State graduate status or CCE/Open University enrollee.
Corequisite(s): EDS 269B.
Term Typically Offered: Fall, Spring

For candidates seeking to meet Special Education CCTC requirements for Level 2 (Induction) Multiple or Single Subject Teaching Credentials. Candidates must demonstrate skills for ongoing IDEA and State mandates, curriculum adaptation to meet individual needs, and advanced skills for behavioral management in inclusive settings. All activities will be tied to attaining and documenting CCTC Level 2 special education standards through individual portfolios. Assignments will be designed to emphasize an interdisciplinary perspective to collaborative problem solving. E-mail/Internet access required.

EDS 269B. Collaborative Strategies for Inclusive Practice Lab. 1 Unit
Prerequisite(s): CCTC Preliminary Multiple or Single Subject credential. Sacramento State graduate status or CCE/Open University enrollee.
Corequisite(s): EDS 269A.
Term Typically Offered: Fall, Spring

Field-based practice lab (30 hours field). Lab will be synthesis and application of course content in a setting for students who receive special education services. Students will verify experiences across the age-span and in inclusive settings, agencies, and/or other natural environments.

Credit/No Credit

EDS 273A. Instructional Strategies - Mild/Moderate. 2 Units
Prerequisite(s): Admittance into Mild/Moderate Credential or M.A. in Education programs.
Corequisite(s): EDS 273B.
Term Typically Offered: Fall, Spring

Development of knowledge, strategies, and skills in the areas of dyslexia, social skills and transition, and other specific learning challenges for individuals with mild/moderate disabilities.

EDS 273B. Instructional Strategies - Mild/Moderate - Lab. 1 Unit
Prerequisite(s): Admittance into Mild/Moderate Credential or M.A. in Education programs.
Corequisite(s): EDS 273A.
Term Typically Offered: Fall, Spring

Field-based practice lab (30 hours). Lab will be a synthesis and application of course content (EDS 273A) in developing instructional strategies for the Mild/Moderate Credential Program area. Students are required to participate in class visitations, student tutoring, and interviews.

Credit/No Credit

EDS 290. Issues in Early Childhood Education for Children with Disabilities. 3 Units
Term Typically Offered: Fall, Spring

Overview of current theories, research, policies and practices regarding educational services for children, from birth to 8, with disabilities and their families. Topics emphasized include typical/atypical development, interdisciplinary assessment, family involvement, community resources, program planning, mainstreaming, and collaborative case management. Requires observations/field study in settings serving young children with disabilities.

EDS 291A. Technology in Special Education. 2 Units

Prerequisite(s): Admittance to Special Education Program or instructor permission.

Corequisite(s): EDS 291B.

Term Typically Offered: Fall, Spring

Offers an overview of technology usage in special education. Topics covered include: current research; identification of needs of exceptional children that can be met through use of microcomputers; evaluation and prescription of software, hardware and assistive devices; writing computer-assisted instructional programs to meet special needs; time management, and the general implementation of microcomputers into a special education program.

EDS 291B. Technology in Special Education Lab. 1 Unit

Prerequisite(s): Admittance to Special Education Program or instructor permission.

Corequisite(s): EDS 291A.

Term Typically Offered: Fall, Spring

Field-based practice lab (30 hours). Lab will be a synthesis and application of course content (EDS 291A) in technology usage with students who receive special education services.

Credit/No Credit

EDS 299. Special Problems. 1 - 3 Units

Term Typically Offered: Fall, Spring

Individual projects at graduate level especially for students capable of independent study.

Note: Departmental petition required.

Credit/No Credit

EDS 332. Assessment Center Laboratory for Multiple Subject Candidates. 2 Units

Prerequisite(s): Admittance to Mild/Moderate or Moderate/Severe Credential program or permission of respective special education instructor.

Corequisite(s): EDSP 420B or approved equivalent by assigned advisor or department chair.

Term Typically Offered: Fall, Spring

Individual support to guide multiple subject candidates through the process of completing and submitting the culminating PACT Teaching Event and completion of their electronic portfolio. The signature assignments, formative PACT assessments and summative PACT Teaching Event represent a working electronic portfolio embedded throughout the credential program, and the summative component will be polished and formally submitted at the conclusion of the EDS 332.

Credit/No Credit

EDS 412. Student Teaching: Moderate/Severe. 5 - 10 Units

Corequisite(s): EDSP 233. A total of 10 units is required.

Term Typically Offered: Fall, Spring

Students teaching in a cooperating LEA/District providing services for students receiving Moderate/Severe special education program services. Candidates must meet the criteria for student teaching to be accepted to this course.

Note: Approximately 320 hours are required to meet competencies.

Credit/No Credit

EDS 439. Early Fieldwork in School Psychology. 1 - 10 Units

Prerequisite(s): Satisfactory completion of first year coursework.

Term Typically Offered: Fall, Spring

Fieldwork experience is designed to allow students to explore roles in public schools and to gain experience in the organization and operation of schools, classrooms, and special services. The field placement allows students to work with pupils in public school settings that offer individual and group counseling; consultation with teachers, parents, and other school staff, and special accommodations for students with special needs. Students will work under the supervision of a credentialed school psychologist or school counselor at local school sites. A faculty supervisor from the School Psychology Training Program will work closely with students and field supervisor.

Note: May be repeated for credit.

Credit/No Credit

EDS 439A. Early Fieldwork in School Psychology. 1 - 10 Units

Prerequisite(s): Satisfactory completion of first year coursework. Graded:

Credit / No Credit Units: 1.0 - 10.0

Term Typically Offered: Fall, Spring

Fieldwork experience is designed to allow students to explore roles in public schools and to gain experience in the organization and operation of schools, classrooms, and special services. The field placement allows students to work with pupils in public school settings that offer individual and group counseling; consultation with teachers, parents, and other school staff, and special accommodations for students with special needs. Students will work under the supervision of a credentialed school psychologist or school counselor at local school sites. A faculty supervisor from the School Psychology Training Program will work closely with students and field supervisor.

Credit/No Credit

EDS 439B. Early Fieldwork in School Psychology. 1 - 10 Units

Prerequisite(s): Satisfactory completion of first year coursework and EDS 439A Graded: Credit / No Credit Units: 1.0 -10.0

Term Typically Offered: Fall, Spring

Advanced fieldwork experience providing the opportunity for students to engage in the following activities: individual and group counseling; consultation with teachers, parents, and other school staff, and assessment of students. Students will work under the supervision of a credentialed school psychologist. A faculty supervisor from the School Psychology Training Program will work with students and field supervisor.

Credit/No Credit

EDS 439C. Early Fieldwork in School Psychology. 1 - 10 Units

Prerequisite(s): Satisfactory completion of first year coursework and EDS 439B Graded: Credit / No Credit Units: 1.0 -10.0

Term Typically Offered: Fall, Spring

Ongoing fieldwork experience providing the opportunity for students to more fully develop their skills in: individual and group counseling; consultation with teachers, parents, and other school staff, and assessment of students. Students will work under the supervision of a credentialed school psychologist and a faculty supervisor from the School Psychology Training Program.

Credit/No Credit

EDS 440. Practicum in Individual Counseling/School Psychology.**3 Units****Prerequisite(s):** Approval as a candidate in School Psychology program, approval of advisor, and department petition.**Term Typically Offered:** Fall, Spring

Supervised practice in individual counseling.

Credit/No Credit

EDS 441. Internship in School Psychology.**3 - 15 Units****Prerequisite(s):** Approval as a candidate in the School Psychology program, completion of courses required for the School Psychology Internship credential, approval of advisor, and department petition. May be repeated for credit.**Term Typically Offered:** Fall, Spring

Directed field study for school psychologists. Supervised experiences are arranged in school psychology.

Credit/No Credit

EDS 441A. Internship in School Psychology.**3 - 15 Units****Prerequisite(s):** Approval as a candidate in the School Psychology program, completion of courses required for the School Psychology Internship credential, approval of advisor, and department petition.

Graded: Credit / No Credit Units: 3.0 - 15.0

Term Typically Offered: Fall, Spring

Directed field study for school psychologists. Supervised experiences are arranged in school psychology.

Credit/No Credit

EDS 441B. Internship in School Psychology.**3 - 15 Units****Prerequisite(s):** EDS 441A Graded: Credit / No Credit Units: 3.0 - 15.0**Term Typically Offered:** Fall, Spring

Advanced field study for school psychologists interns. Supervised experiences are arranged in school psychology.

Credit/No Credit

EDS 441C. Internship in School Psychology.**3 - 15 Units****Prerequisite(s):** EDS 441B Graded: Credit / No Credit Units: 3.0 - 15.0**Term Typically Offered:** Fall, Spring

Third semester of advanced field study for school psychologist interns.

Supervised experiences are arranged in school psychology.

Credit/No Credit

EDS 441D. Internship in School Psychology.**3 - 15 Units****Prerequisite(s):** EDS 441C Graded: Credit/ No Credit Units: 3.0 - 15.0**Term Typically Offered:** Fall, Spring

Fourth semester of advanced field study for school psychologists interns.

Final semester in which candidates may accrue hours. Supervised experiences are arranged in school psychology.

Credit/No Credit

EDS 460. Practicum in Individual Counseling/VRC.**3 Units****Prerequisite(s):** Approval as a candidate in the Vocational Rehabilitation program; approval of advisor, and department petition.**Term Typically Offered:** Fall, Spring

Supervised practice in individual counseling.

Credit/No Credit

EDS 461. Field Study in Counseling/VRC.**3 - 15 Units****Prerequisite(s):** Approval as a candidate in the Vocational Rehabilitation program, completion of core courses except EDS 560, EDS 561, or Comprehensive Examination (oral or written), approval of advisor, and department petition.**Term Typically Offered:** Fall, Spring

Directed field study for rehabilitation counselors. Supervised experiences are arranged in rehabilitation counseling. Forty hours of experience required for each unit of credit.

Credit/No Credit

EDS 472E. Student Teaching: Serious Emotional Disturbance. 10 Units**Corequisite(s):** EDS 277.**Term Typically Offered:** Fall, Spring

Students will be placed in approved settings which serve students with serious emotional disturbance as a primary disability; be expected to demonstrate skills for instruction across content areas; interact with emotionally disturbed students using a combination of counseling and behavior management strategies; and consult with families, co-workers, mental health representatives and other in a collaborative style.

Credit/No Credit

EDS 530. Project In WDA I.**2 Units****Term Typically Offered:** Fall, Spring**EDS 531. Project In WDA II.****4 Units****Term Typically Offered:** Fall, Spring**EDS 540. Education Specialist Thesis: School Psychology. 4 - 6 Units****Term Typically Offered:** Fall, Spring

Credit given upon successful completion of a thesis approved for the education specialist degree.

Note: Open only to the graduate students who have been advanced to candidacy for the education specialist degree. Number of units of credit is determined by the candidate's education specialist advisory committee.

Credit/No Credit

EDS 541. Master's Project: Education/School Psychology (Plan B).**4 - 6 Units****Prerequisite(s):** Advanced to candidacy.**Term Typically Offered:** Fall, Spring

Credit given upon successful completion of a project approved for the M.A. in Education/School Psychology option.

EDS 542. Education Specialist Project: School Psychology. 4 - 6 Units**Term Typically Offered:** Fall, Spring

Credit given upon successful completion of a project approved for the Education Specialist degree.

Note: Open only to the graduate student who has been advanced to candidacy. Department petition is required. Number of units of credit is determined by the candidate's advisor.

Credit/No Credit

Spanish (SPAN)

SPAN 1A. Elementary Spanish.

4 Units

Term Typically Offered: Fall, Spring

Beginning Spanish language with primary emphasis on the development of audio-lingual skills. Attention will also be given to the interrelatedness of language and civilization and culture. Additional attention will be given to the development of reading and writing. Students will be expected to spend several hours per week in the language laboratory. Not recommended for students with any previous study of Spanish.

SPAN 1B. Elementary Spanish.

4 Units

Prerequisite(s): SPAN 1A, or instructor permission.

General Education Area/Graduation Requirement: Humanities (Area C2), Foreign Language Graduation Requirement

Term Typically Offered: Fall, Spring

Continuation of SPAN 1A with a greater emphasis on the development of speaking, reading, writing, and listening skills. Cultural knowledge continues to be an important component: elements of Hispanic character, customs, and the way in which the Spanish and Latin American peoples view themselves and others in the world is studied.

SPAN 1C. Intensive Elementary Spanish.

6 Units

Prerequisite(s): Two years of high school Spanish or equivalent.

General Education Area/Graduation Requirement: Foreign Language Graduation Requirement

Term Typically Offered: Fall, Spring

This course emphasizes a rapid development of the four language skills—speaking, reading, writing, and listening—covered in the first two semesters of university Spanish. Cultural knowledge is also an important component of this course, and elements of Hispanic character, customs, and the way in which the Spanish and Latin American peoples view themselves and others in the world will be studied. Recommended for students who have had some previous study of Spanish, but need a quick review of the structures covered in the first two years of high school Spanish or the equivalent.

SPAN 2A. Intermediate Spanish.

4 Units

Prerequisite(s): One year of college Spanish, or instructor permission.

General Education Area/Graduation Requirement: Foreign Language Graduation Requirement

Term Typically Offered: Fall, Spring

Oral, auditory, and written practice based on more advanced dialogue material and on short stories, plays, and the like. Attention to the development of reading fluency and to the extension of both active and passive vocabulary. Meets the Foreign Language Graduation Proficiency Requirement.

SPAN 2B. Intermediate Spanish.

4 Units

Prerequisite(s): SPAN 2A, suitable score on placement exam, or instructor permission.

General Education Area/Graduation Requirement: Foreign Language Graduation Requirement

Term Typically Offered: Fall, Spring

Continuation of SPAN 2A. Meets the Foreign Language Graduation Proficiency Requirement.

SPAN 6A. Intermediate Spanish for Professionals I.

4 Units

Prerequisite(s): Three years of High School Spanish or instructor permission.

Term Typically Offered: Fall only

Conversational, reading and written practice based on dialogue material, presentations, and the like at the intermediate level of Spanish. The course includes specialized themes related to the professions, such as healthcare and related fields. Meets the Foreign Language Graduation Proficiency Requirement.

SPAN 6B. Intermediate Spanish for Professionals II.

4 Units

Prerequisite(s): SPAN 6A

Term Typically Offered: Spring only

Continuation of SPAN 6A. Students continue to practice conversational, reading and written practice based on dialogue material, presentations, and the like at the intermediate level of Spanish. The course will include specialized themes related to the professions, such as healthcare or related fields. Meets the Foreign Language Graduation Proficiency Requirement.

Note: Students will need to pay a fee to cover for the cost of the Spanish Proficiency Exam, which will be used for Assessment Purposes.

SPAN 7. Spanish Reading Proficiency.

3 Units

Prerequisite(s): SPAN 1A or two years of high school Spanish.

General Education Area/Graduation Requirement: Foreign Language Graduation Requirement

Term Typically Offered: Fall, Spring

Designed to improve Spanish reading proficiency. Students will acquire the ability to understand various types of materials written in Spanish (e.g. news items, personal correspondence, technical material, short stories); follow essential points and ideas of special interest or knowledge. Students will demonstrate Spanish reading comprehension by their ability to translate and answer content questions in Spanish as well as English.

SPAN 42. Conversation In Spanish.

3 Units

Prerequisite(s): SPAN 2B or equivalent, or instructor permission.

Term Typically Offered: Fall, Spring

Conducted in Spanish, will further develop the audio-lingual skills that the students have acquired in their early Spanish language training. Emphasis will be placed on maintaining ideas and concepts in actual conversation situations, taken from topics of most interest to students.

SPAN 47. Introduction to Composition and Grammar Review.

3 Units

Prerequisite(s): SPAN 2B or equivalent.

Term Typically Offered: Fall, Spring

Develops the necessary skills to write with clarity, precision, and style. It emphasizes the proper use of the accents and the correct use of grammar.

SPAN 100. Introduction to the Study of Hispanic Literature.

3 Units

Prerequisite(s): SPAN 47.

Term Typically Offered: Fall, Spring

Introduction to literary theory and a practical application of the techniques of literary criticism.

- SPAN 102. Spanish Phonetics.** **3 Units**
Prerequisite(s): SPAN 47 or equivalent.
Term Typically Offered: Fall, Spring
- Study of the sound system of Spanish with some attention to comparison with English and the physiology of sounds. Drills to develop good pronunciation.
- SPAN 103. Advanced Spanish Grammar.** **3 Units**
Prerequisite(s): SPAN 2B or equivalent.
Term Typically Offered: Fall, Spring
- Study of the specific components of Spanish grammar with particular emphasis on the Spanish verbal system, the subjunctive, and other problematic aspects of grammar. Will be of particular interest to those planning to teach Spanish as well as to the Spanish-speaking students.
Note: SPAN 47 strongly recommended.
- SPAN 106. Advanced Spanish Composition.** **3 Units**
Prerequisite(s): SPAN 103 and completion of all lower division requirements.
Term Typically Offered: Fall, Spring
- Increased practice in writing with emphasis on sentence and paragraph structure, and compositions to effectively convey meaning and ideas. Attention will be given to narrative, descriptive, expository prose, and dialogue, as well as to letters and other forms of written communication.
- SPAN 110. Survey of Spanish Literature to 1800.** **3 Units**
Prerequisite(s): SPAN 100.
Term Typically Offered: Fall only
- Advanced readings, lectures, and discussions dealing with a panoramic view of Spanish literature from early works through the Golden Age and up to the 1800s.
- SPAN 111. Survey of Spanish Literature from 1800 to the Present.** **3 Units**
Prerequisite(s): SPAN 100.
Term Typically Offered: Spring only
- Continuation of SPAN 110; deals with literature from the Neoclassic period to the contemporary. Readings taken from works and genres of this period.
- SPAN 113. Latin American Literature, Beginnings to Modernism.** **3 Units**
Prerequisite(s): SPAN 100.
Term Typically Offered: Fall only
- Study of the major writers and trends in Latin American literature from beginnings until Modernism.
- SPAN 114. Latin American Literature, Modernism to Present.** **3 Units**
Prerequisite(s): SPAN 100.
Term Typically Offered: Spring only
- Study of the major writers and trends in Latin American literature from Modernism to the present.
- SPAN 115. Magical Realism.** **3 Units**
Prerequisite(s): SPAN 100.
Term Typically Offered: Spring only
- Magic and the wonderful infra-mythical world of major contemporary Latin America writers are explored in this in-depth study of Magical Realism. Short stories and novels are examined as they create a marvelous "other world" or reality. Authors studied include Gortazar, Carpentier, Bombal, Borges, Rulfo, Garcia Marquez, Fuentes, Sainz, Esquivel, and others.
- SPAN 121. Spanish For Professionals.** **3 Units**
Prerequisite(s): SPAN 2A or equivalent.
Term Typically Offered: Fall, Spring
- Designed to teach present and future public servants the necessary vocabulary and structures for effective communication in interviews, visits, etc. Some attention to local dialect differences.
- SPAN 123. Topics in Spanish Literature.** **3 Units**
Prerequisite(s): SPAN 100
Term Typically Offered: Fall only
- Topics in literature from Spain offered as needed. Typical topics are: Spanish novel through the Golden Age; 19th and 20th century Spanish novel; Spanish drama from the Middle Ages to the Golden Age; Spanish Contemporary drama.
Note: May be repeated for credit provided topic is different.
- SPAN 129. Spanish Civil War.** **3 Units**
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
- In-depth examination of the Spanish Civil War (1936-1939) focusing on its social, political, and cultural contexts. The course also examines the war's historical origins, immediate aftermath and implications for understanding modern Spain.
- SPAN 130. Contemporary Mexican Literature.** **3 Units**
Prerequisite(s): SPAN 100.
Term Typically Offered: Spring only
- Inquiry into the significance of the individual in contemporary Mexican culture and his greater relationship to the cosmos as seen through his literature. May be of particular interest to the Mexican American.
- SPAN 134. The Short Story in Latin America.** **3 Units**
Prerequisite(s): SPAN 100.
Term Typically Offered: Spring only
- Development of the short story in Latin America with some introductory study of the North American short story by way of comparison. Selected readings from different countries where the short story has had an important development. Emphasis on the contemporary short story.
- SPAN 142. Advanced Spanish Conversation.** **3 Units**
Prerequisite(s): SPAN 2B or equivalent.
Term Typically Offered: Fall, Spring
- Increases language fluency and acquisition of new vocabulary through intensive conversational practice, based on topics of contemporary interest.

- SPAN 151. Civilization and Culture of Hispanic America. 3 Units**
Prerequisite(s): SPAN 47
Term Typically Offered: Fall, Spring
- Readings, visuals, and discussion of the history, geography, anthropology, sociology, politics, economics, folklore, and artistic expression of the nations of Hispanic America.
- SPAN 152. Civilization and Culture of Spain. 3 Units**
Prerequisite(s): SPAN 47
Term Typically Offered: Fall, Spring
- Reading and discussion of the history, geography, anthropology, sociology, political science, economics, folklore, music, art, and the dance as these areas relate to Modern Spain.
- SPAN 153. Civilization and Culture of Mexico. 3 Units**
Prerequisite(s): SPAN 47
Term Typically Offered: Fall, Spring
- Reading and discussion of the history, geography, anthropology, sociology, political science, economics, folklore, music, art, and the dance of Mexico.
- SPAN 159. Cultures of Latin America for the Professions. 3 Units**
Prerequisite(s): SPAN 6A, 6B, and SPAN 121 or instructor approval.
Term Typically Offered: Spring only
- Readings, visuals, and discussion of Latino/Hispanic culture and cross-cultural practices variation within Latin America as related to healthcare and other professions such as Criminal Justice, Social Work, Sociology, and Psychology.
Note: Students will need to pay a fee to cover for the cost of the Spanish Proficiency Exam, which will be used for Assessment Purposes.
- SPAN 194. Field Experience/Internship. 1 - 3 Units**
Prerequisite(s): Intermediate competency in Spanish and instructor permission.
Term Typically Offered: Fall, Spring
- Directed fieldwork in a project which uses the language skills developed through previous study of Spanish. The projects may include interpreting and translating for public and/or private agencies in Sacramento, teaching or tutoring in the community, or other projects approved by the faculty supervisor. All work will be monitored by Sacramento State faculty. The student must submit written reports to his/her supervisor. Can be taken more than once for credit.
 Credit/No Credit
- SPAN 195. Fieldwork -- Tutoring. 1 - 3 Units**
Prerequisite(s): Advanced students with native or near-native fluency, upper division status ("U" exam), or instructor permission.
Term Typically Offered: Fall, Spring
- Tutoring of lower division Spanish students, under the supervision of an instructor.
 Credit/No Credit
- SPAN 199. Special Problems. 1 - 3 Units**
Prerequisite(s): Permission of instructor supervising work, the advisor, and the Department Chair.
Term Typically Offered: Fall, Spring
- Individual projects or directed reading.
Note: Open only to students who appear competent to carry on individual work, and enrollment will be limited to hardship cases.
 Credit/No Credit
- SPAN 201A. General Spanish Linguistics. 3 Units**
Prerequisite(s): SPAN 102 and SPAN 103; or equivalent.
Term Typically Offered: Fall, Spring
- Depending upon the interest of the group, one topic of Spanish Linguistics will be chosen. The emphasis may be Comparative, Popular Spanish divergencies, or psycho- or socio-linguistics, especially the development of Mexican-American Spanish and the learning problems of bilinguals.
- SPAN 201B. History of the Spanish Language. 3 Units**
Prerequisite(s): SPAN 102 and SPAN 103; or equivalent.
Term Typically Offered: Fall, Spring
- Historical evolution of the Spanish language from Vulgar Latin to the present day with special emphasis on the phonetic and morphological changes involved in this evolution. Some attention will be devoted to Old Spanish readings as well as the differences between Old and Modern Spanish. Knowledge of Latin is helpful, but not required.
- SPAN 201C. Contrastive Grammatical Structures of Spanish and English. 3 Units**
Prerequisite(s): SPAN 102 and SPAN 103; or equivalent.
Term Typically Offered: Fall, Spring
- Analyzes the major differences between the grammatical system of Spanish and English, with particular emphasis on those areas of contrast which are vital to the teacher.
- SPAN 201D. Applied Spanish Linguistics. 3 Units**
Prerequisite(s): SPAN 102 and SPAN 103; or equivalent.
Term Typically Offered: Fall, Spring
- Application of linguistic theory, principally to the areas of language teaching and learning acquisition. Occasionally the application of linguistics to other fields may be examined.
- SPAN 220A. Spanish Literature in the Middle Ages. 3 Units**
Prerequisite(s): SPAN 100 and an upper division course in Peninsular Literature; or equivalent.
Term Typically Offered: Fall, Spring
- Specific topic from this period will be chosen for intensive study as announced.
- SPAN 220B. Spanish Literature in the Golden Age. 3 Units**
Prerequisite(s): SPAN 100 and an upper division course in Peninsular Literature; or equivalent.
Term Typically Offered: Fall, Spring
- Specific topic from this period will be chosen for intensive study as announced.

SPAN 220C. Spanish Literature in the 18th and 19th Centuries. 3 Units**Prerequisite(s):** SPAN 100 and an upper division course in Peninsular Literature; or equivalent.**Term Typically Offered:** Fall, Spring

Specific topic from this period will be chosen for intensive study as announced.

SPAN 220D. Contemporary Spanish Literature. 3 Units**Prerequisite(s):** SPAN 100 and an upper division course in Peninsular Literature; or equivalent.**Term Typically Offered:** Fall, Spring

Specific topic from this period will be chosen for intensive study as announced.

SPAN 224A. Spanish-American Literature to 1825. 3 Units**Prerequisite(s):** SPAN 100 and an upper division course in Latin American Literature; or equivalent.**Term Typically Offered:** Fall, Spring

Beginnings of Spanish American Literature from the period of discovery and conquest through the colonial period until the end of the Wars of Independence in 1825. Covers the Renaissance, Baroque, and Neo-Classical Periods.

SPAN 224B. Spanish-American Literature, 1825 to 1880. 3 Units**Prerequisite(s):** SPAN 100 and an upper division course in Latin American Literature; or equivalent.**Term Typically Offered:** Fall, Spring

Independence (1825) through 1880. Covers the following movements: Romanticism, Realism, and Naturalism and deals with selected authors.

SPAN 224C. Spanish-American Literature, 1880 to 1945. 3 Units**Prerequisite(s):** SPAN 100 and an upper division course in Spanish American Literature; or equivalent.**Term Typically Offered:** Fall, Spring

Specific topic from this period will be chosen for intensive study as announced.

SPAN 224D. Spanish-American Literature, 1945 to Present. 3 Units**Prerequisite(s):** SPAN 100 and an upper division course in Spanish American Literature; or equivalent.**Term Typically Offered:** Fall, Spring

Specific topic from this period will be chosen for intensive study as announced.

SPAN 250A. Civilization and Culture of Spain. 3 Units**Prerequisite(s):** Graduate status with fluency in understanding, speaking, reading, and writing contemporary Spanish.**Term Typically Offered:** Fall, Spring

Seminar examining aspects of the national character and personality of Spain as revealed through Hispanic social and literary studies from prehistory to 1700.

SPAN 250B. Civilization and Culture of Modern Spain. 3 Units**Prerequisite(s):** Graduate status with fluency in understanding, speaking, reading, and writing contemporary Spanish.**Term Typically Offered:** Fall, Spring

Seminar examining aspects of the character and personality of the various political, geographical, and cultural groups of Spain as revealed through the social and literary studies of Spain from 1700 to the present.

SPAN 250C. Civilization and Culture of Hispanic America. 3 Units**Prerequisite(s):** Graduate status with fluency in understanding, speaking, reading, and writing contemporary Spanish.**Term Typically Offered:** Fall, Spring

Seminar examining aspects of the character and personality of the various nations of Hispanic America as revealed through Hispanic-American social and literary studies. Attention will be given to the various ethnic groups found in Hispanic America.

SPAN 250D. Civilization and Culture of Mexico. 3 Units**Prerequisite(s):** Graduate status with fluency in understanding, speaking, reading, and writing contemporary Spanish.**Term Typically Offered:** Fall, Spring

Seminar examining aspects of the national character and personality of Mexico as revealed through Mexican social and literary studies.

SPAN 299. Special Problems. 1 - 3 Units**Prerequisite(s):** Permission of instructor supervising work, the advisor, and the Department chair.**Term Typically Offered:** Fall, Spring

Individual projects or directed reading.

Note: Open only to students who have the required number of units in residence and who appear competent to carry on individual work. Enrollment will be limited to hardship cases. Only 3 units of upper division or 3 units of graduate division credit will be accepted for any one degree in Spanish.

Credit/No Credit

SPAN 500. Culminating Experience. 1 - 4 Units**Prerequisite(s):** Advanced to candidacy and permission of the graduate coordinator.**Term Typically Offered:** Fall, Spring

Completion of a thesis, project or comprehensive examination.

Speech Pathology and Audiology (SPHP)

SPHP 227. Dysphagia and the Medical Setting. 3 Units**Prerequisite(s):** CSAD 218, CSAD 221, instructor permission.**Term Typically Offered:** Fall, Spring

Swallowing problems from infancy through old age; growth patterns and failures in younger populations; feeding and swallowing problems related to normal aging processes and those associated with neurogenic disorders. Assessment and treatment. Includes theoretical and experiential components. Overview of the role of Speech-Language Pathologist in the hospital setting including learning how to read medical charts, basic insurance information, understanding other disciplines and how they affect the job and career of an SLP in the hospital, and medical terms/abbreviations.

SPHP 250. Speech/Language Internships Seminar. 2 Units

Prerequisite(s): CSAD 228A, CSAD 228B, CSAD 228C, CSAD 229A, CSAD 229B, CSAD 229C, CSAD 241S, CSAD 242A, CSAD 242B, CSAD 242C, CSAD 243A, CSAD 243B, CSAD 243C, CSAD 244, CSAD 245.
Corequisite(s): CSAD 295I, or CSAD 295M, or CSAD 295P, or CSAD 295S.
Term Typically Offered: Fall, Spring

Assessment, scheduling and conducting language speech and hearing programs in schools. Related issues including scope of practice, managed care, interagency cooperation and transdisciplinary approaches.

Statistics (STAT)

STAT 1. Introduction to Statistics. 3 Units

Prerequisite(s): MATH 9 or three years of high school mathematics which includes two years of algebra and one year of geometry; completion of ELM requirement and the Intermediate Algebra Diagnostic Test.
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring

Descriptive statistics, basic concepts of probability and sampling with the aim of introducing fundamental notions and techniques of statistical inference.

STAT 10A. Introductory Statistics with Developmental Mathematics. 3 Units

Term Typically Offered: Fall, Spring

Prepares students for STAT 10B that requires background in data analysis process, descriptive statistics and the concept of randomness. Topics include: Summarizing the data distribution graphically and numerically; reasoning about bivariate numerical data; linear correlation and regression; linear, quadratic and exponential functions as a way of modeling a correspondence between two variables; reasoning about bivariate categorical data; basic concepts of probability and the law of large numbers; conditional probability; discrete random variables; binomial distribution; and an introduction to continuous random variables. Lecture three hours.

STAT 10B. Introductory Statistics with Developmental Mathematics. 3 Units

Prerequisite(s): STAT 10A
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Spring only

Continuation of STAT 10A. Stat 10B prepares students for research methods applications/ courses in various disciplines. Topics include: Continuous random variables and normal distribution; sampling distributions and the central limit theorem; confidence intervals and tests of hypotheses for means, proportions, difference in means and difference in proportions; and chi-squared tests for categorical data analysis. Lecture three hours.

STAT 50. Introduction to Probability and Statistics. 4 Units

Prerequisite(s): MATH 26A, MATH 30, or appropriate high school based AP credit.
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring, Summer

Sample spaces, combinatorics, and random variables. Density and distribution functions. Expectation, variance, and covariance. The binomial, uniform, poisson, negative binomial, hypergeometric, exponential, gamma, beta, and normal distributions. Sampling distributions, estimation, and hypothesis tests. Students are given periodic writing assignments which encourage them to think through concepts of the course.

STAT 96. Experimental Offerings in Statistics. 1 - 6 Units

Term Typically Offered: Fall, Spring

When there is a demand from a sufficient number of qualified students, one of the staff will conduct a seminar on some topic in statistics.

STAT 103. Intermediate Statistics. 3 Units

Prerequisite(s): STAT 50 or instructor consent
Term Typically Offered: Spring only – even years

Review of hypothesis testing –one sample. Hypothesis testing –two sample, variance. Regression and correlation. Analysis of variance including two-way. Analysis of categorical data. Non-parametric tests, goodness of fit, and tests for randomness.

STAT 115A. Introduction to Probability Theory. 3 Units

Prerequisite(s): MATH 31 and either STAT 1 or STAT 50
Term Typically Offered: Fall only

Probability axioms, discrete and continuous random variables, functions of random variables, joint densities, expectation, moment generating functions. Chebyshev's inequality, transformations, weak law of large numbers, central limit theorem.

STAT 115B. Introduction to Mathematical Statistics. 3 Units

Prerequisite(s): STAT 115A.
Term Typically Offered: Spring only

Point Estimation, interval estimation, hypothesis testing, the multivariate normal distribution, non-parametric tests.

STAT 128. Statistical Computing. 3 Units

Prerequisite(s): (STAT 1 or STAT 50) and (MATH 26A or MATH 30) or consent of the instructor.

Computer methods for accessing, transforming, summarizing, graphing and making statistical inferences from data; focus is on command-line statistical software, but menu-driven software may be introduced; application of computer methods to solve problems selected from the areas of modeling, simulation, inference and statistical learning.

STAT 155. Introduction to Techniques of Operations Research. 3 Units

Prerequisite(s): MATH 31; STAT 50, STAT 103, or STAT 115A; MATH 31 may be taken concurrently.
Term Typically Offered: Spring only – odd years

Formulation and analysis of mathematical models with emphasis on real systems applications. Introduction to Queueing theory and Markov Processes for application.

STAT 196J. Statistical Computing. 3 Units**Prerequisite(s):** STAT 1 or STAT 50, and MATH 26A or MATH 30**Term Typically Offered:** Fall only

Computer methods for accessing, transforming, summarizing, graphing, and making statistical inferences from data. Both a command-line statistical software package such as R and menu-driven package such as SAS will be used. Students will learn to apply computer methods to solve problems selected from the areas of modeling, simulation, inference and statistical learning. The intent of this course is to provide students with the software skills needed for statistical work in industry or academia.

STAT 199. Special Problems. 1 - 6 Units**Term Typically Offered:** Fall, Spring

Individual projects or directed reading. Open only to students who appear competent to carry on individual work. Admission to this course requires approval of the instructor in addition to the approval of the advisor and the Department Chair.

Credit/No Credit

STAT 215A. Introduction to Mathematical Statistics. 3 Units**Prerequisite(s):** STAT 115A, STAT 115B; MATH 134 is recommended.**Term Typically Offered:** Fall, Spring

Probability measure, conditional probability and independence, random variables, characteristic and moment-generating functions, modes of convergence.

STAT 215B. Topics in Introduction to Mathematical Statistics. 3 Units**Prerequisite(s):** STAT 215A.**Term Typically Offered:** Fall, Spring

Continuation of STAT 215A with topics selected from: Statistical Inference, Estimation Theory, Testing Hypotheses, Linear Models, Nonparametric Methods, Multivariate Analysis, Computer intensive methods in Statistics and Sampling Theory.

Note: May be taken twice with approval of Graduate Coordinator.**STAT 299. Special Problems. 1 - 6 Units****Term Typically Offered:** Fall, Spring

Any properly qualified student who wishes to pursue a problem may do so if the proposed subject is acceptable to the department committee, the supervising instructor and the student's advisor.

Teacher Education (EDTE)

EDTE 200. Practicum in Decoding and Fluency: Assessment and Instruction. 3 Units**Prerequisite(s):** Graduate standing, valid teaching credential and current preservice reading course or equivalent.**Term Typically Offered:** Fall, Spring

Research, practice, and issues related to decoding, spelling, and fluency instruction from preschool through adult with applications to classroom teaching. Includes a practicum for assessing and tutoring students having difficulty in decoding.

EDTE 201. Practicum in Comprehension: Assessment and Instruction. 3 Units**Term Typically Offered:** Fall, Spring

Research, practice and issues related to vocabulary, background knowledge, and comprehension and study strategies from preschool through adult with applications for classroom teaching. Topics include motivation, metacognition, and strategic reading. Analysis of formal and informal assessment measures with a focus on utility, reliability, and validity. In the practicum portion, teachers assess and tutor students with reading difficulties.

EDTE 202. Language and Literacy Development in Multicultural Settings. 3 Units**Term Typically Offered:** Fall, Spring

Research and theory related to the nature of culture, first and second language acquisition, schooling and literacy development. Implications of the research and theory for working with pre-K children through adults in group contexts.

EDTE 203. Teaching and Assessing Writing in the Pre-K through 12 Classroom. 3 Units**Term Typically Offered:** Fall, Spring

Writing assessment and instruction in pre-K through 12 classrooms and other settings is the dominant focus. Topics include research and theoretical models of composition, classroom-based instructional approaches to process writing instruction, writing assessment and writing strategies to improve reading comprehension and writing instruction in a social context.

EDTE 206. Leadership In Literacy. 3 Units**Term Typically Offered:** Fall, Spring

Provides field experiences for applying theoretical understandings about contemporary schooling policies, as well as a venue for expanding the role of leadership in literacy to meet the needs of the broader community. Also provides candidates with opportunities to incorporate understandings about literacy and the content of cultures to field actions related to their personal professional development.

EDTE 207. Advanced Practicum in Reading Difficulties: Assessment and Intervention. 3 Units**Term Typically Offered:** Fall, Spring

Evaluation and use of materials and techniques for assessing and teaching decoding, spelling, and comprehension across ages, languages, developmental levels, and diverse backgrounds. Examination of models of reading disability and of intervention programs for students and adults with varying degrees of disability. Application through assessment, instruction, and compilation of a case study of a student or adult with reading and/or spelling difficulties. Permission of instructor required for those wishing to take the course as an elective.

EDTE 209. Literature for the Diverse Pre- K through 12 Classroom: Issues, Models and Strategies. 3 Units**Term Typically Offered:** Fall, Spring

Analyze state and national issues related to the use of juvenile literature in schools. Evaluate models and strategies for employing quality literature (fiction and non-fiction) effectively in the Pre-K through 12 multicultural classroom. Building upon research and genre overview, each participant will develop instructional materials and strategies such as booklists, storytelling, textsets, read-alouds, and web-based literature activities for students and support materials for parents.

EDTE 214. Classroom Assessment and School Accountability Issues.	3 Units	EDTE 225C. Theoretical Issues in Adult Literacies.	3 Units
Term Typically Offered: Fall, Spring		Term Typically Offered: Fall, Spring	
Focuses on classroom assessment, grounded in sound principles of measurement and evaluation of learning. Assessment is considered in the context of historical, social, political, legal, educational, and ethical trends, and concerns including reviews of socio-cultural diversity and individual differences as they relate to accurate appraisal of what learners know how to do.		Introduces students to current theories surrounding the pedagogies and politics of adult literacies within a wide variety of contexts, including community colleges, prisons, and community projects. Incorporates information on technological literacies, information literacies, cultural literacies, and multiliteracies. In addition, students will be partnered with community literacy experts and required to complete formal observations of adult reading classrooms throughout the semester, fostering collaboration between the local community and the university. Cross-listed: ENGL 225C; only one may be counted for credit.	
EDTE 219A. Intro To Information Services.	3 Units	EDTE 226. Seminar: Strategies for Teachers.	3 Units
Term Typically Offered: Fall, Spring		Term Typically Offered: Fall, Spring	
EDTE 219G. Networks For School Lib Med Ct.	2 Units	EDTE 227. Seminar in Curriculum and Instruction, K-12.	3 Units
Term Typically Offered: Fall, Spring		Term Typically Offered: Fall, Spring	
EDTE 219K. Eval & Sel Learn Res & Info Se.	3 Units	Seminar focuses on analyzing various teaching strategies used in classrooms, K-12. Teaching strategies will be analyzed to identify teacher competencies and learning outcomes. Additional attention will be given to appropriate classroom management strategies.	
Term Typically Offered: Fall, Spring		EDTE 228. Introduction to Ethnomathematics.	3 Units
EDTE 219L. Lit For Children/Lib Media Svc.	3 Units	Term Typically Offered: Fall, Spring	
Term Typically Offered: Fall, Spring		Individual and group study of current programs, issues, trends and research in elementary and secondary instruction and curricular areas.	
EDTE 219M. Mgmt School Library Media Cent.	3 Units	EDTE 220. Seminar in Mathematics Education.	3 Units
Term Typically Offered: Fall, Spring		Term Typically Offered: Fall, Spring	
EDTE 219N. Org Of Info & Learning Resourc.	3 Units	Research of mathematical instruction trends, problems of teaching math and successful mathematics programs.	
Term Typically Offered: Fall, Spring		EDTE 221. Curriculum Development in Mathematics Education.	3 Units
EDTE 219P. Lib Media Ctr+Core Curriculum.	2 Units	Term Typically Offered: Fall, Spring	
Term Typically Offered: Fall, Spring		Examining successful curricular materials and techniques for use with slow, average and rapid learners of mathematics, and programs directed at the non-college-bound population. Creating materials for exceptional as well as for average learners.	
EDTE 219Z. Field Study School Librariansh.	2 - 4 Units	EDTE 222. Teaching Mathematics in the Twenty-First Century.	3 Units
Term Typically Offered: Fall, Spring		Term Typically Offered: Fall, Spring	
Credit/No Credit		Investigation of issues and trends being faced by elementary and secondary teachers in California. An overall goal is to develop a significant body of examples of successful mathematics teaching, designed to be useful with learners from all of California's diverse student population.	
EDTE 220. Seminar in Mathematics Education.	3 Units	EDTE 223. Educational Applications of Computers.	3 Units
Term Typically Offered: Fall, Spring		Prerequisite(s): EDMS 330 or EDS 291A and EDS 291B; or equivalent.	
Research of mathematical instruction trends, problems of teaching math and successful mathematics programs.		Term Typically Offered: Fall, Spring	
EDTE 221. Curriculum Development in Mathematics Education.	3 Units	Examines how application programs such as word processing, database management, spreadsheets and presentation tools can be used as part of the teaching, management and learning processes. Also includes instruction on the setup and management of telecommunications and classroom networks.	
Term Typically Offered: Fall, Spring			
Examining successful curricular materials and techniques for use with slow, average and rapid learners of mathematics, and programs directed at the non-college-bound population. Creating materials for exceptional as well as for average learners.			
EDTE 222. Teaching Mathematics in the Twenty-First Century.	3 Units		
Term Typically Offered: Fall, Spring			
Investigation of issues and trends being faced by elementary and secondary teachers in California. An overall goal is to develop a significant body of examples of successful mathematics teaching, designed to be useful with learners from all of California's diverse student population.			

EDTE 233. Teaching Problem-Solving with Educational Technology.**3 Units****Prerequisite(s):** EDTE 232 or equivalent.**Term Typically Offered:** Fall, Spring

Examines the theoretical presuppositions underlying the use of educational technology to teach problem-solving, conditions under which problem-solving opportunities are likely to arise, computer programming as a problem-solving medium and the potential of software programs designed to teach problem-solving skills. Includes Internet-based problem-solving and principles of distributed learning.

EDTE 234. Curriculum and Staff Development with Educational Technology.**3 Units****Prerequisite(s):** EDTE 232 or equivalent.**Term Typically Offered:** Fall, Spring

Provides the student with an in-depth understanding of the principles and processes of analyzing curriculum for the purpose of integrating educational technology at the classroom, school and district levels. Students will analyze curricula, identify appropriate technology applications, and create plans for establishing, monitoring, and evaluating technology-based programs. Special emphasis will be placed on professional development.

EDTE 235. Enhancing Curriculum with Multimedia and the Web. 3 Units**Prerequisite(s):** EDTE 232 or equivalent.**Term Typically Offered:** Fall, Spring

Provides the student with an in-depth understanding of the principles of multimedia and web-based design. Students will apply these principles to developing curriculum for the technology-infused classroom. Intensive hands-on experience in the development of web and multimedia including video based on principles of human information processing and aesthetics.

EDTE 237. The Professional Lives of Teachers. 4 Units**Prerequisite(s):** EDTE 226 and EDTE 251.**Term Typically Offered:** Fall, Spring

Building upon the historical role of the position in society, the cultural influences that affect public and personal perception of teachers, the theoretical models of teaching, and research on teacher identity, participants will explore the continuum of a teacher's professional life (preservice, induction, professional growth, mentorship), teacher professionalism, and what teachers' professional lives look like in practice. Students will define their career stage and create a vision for the rest of their career in the field.

EDTE 238. Professional Development of Teachers in Democratic Schools. 4 Units**Prerequisite(s):** EDTE 237.**Corequisite(s):** EDTE 239.**Term Typically Offered:** Fall, Spring

Examines contemporary issues in professional development for teachers. Students learn specific foundations and procedures for professional development that have well-documented effects on student achievement, e.g., professional learning communities. Students also analyze and design appropriate strategies for implementing and evaluating professional development for the contexts in which they are teaching as well as for a variety of other settings.

EDTE 239. Schools and Schooling in a World of Policy and Practices. 4 Units**4 Units****Term Typically Offered:** Fall, Spring

Beginning with a historical framework of reform, examines theories and models of school reform in the U.S. and international contexts. Students engage in researching and identifying how political and social forces impact the development of educational policy and reform initiatives. Using the lens of contemporary reform, students analyze recent school reform initiatives as well as the ideas and ideals of professional development within their own educational contexts.

EDTE 242. Key Issues in National Board Certification. 3 Units**3 Units****Prerequisite(s):** Admission to the Master of Arts In Education (Curriculum and Instruction) and the selection to the National Board Cohort.**Term Typically Offered:** Fall, Spring

Through action research, professional reading and guided discussions, students will explore key elements of the National Board Standards including engaging student learning, assessment, decision making in lesson design, and identifying essential "big ideas" in content areas.

EDTE 250. Education Research. 3 Units**3 Units****Prerequisite(s):** EDTE 251 for students in uncohorting Curriculum and Instruction and Behavioral Sciences Gender Equity Studies Masters' Programs.**Term Typically Offered:** Fall, Spring

Studies qualitative and quantitative research methods in the field of education. Includes identification and formulation of research problems, research designs and presentation of reports representative of different research strategies.

EDTE 250I. Educational Research for IMET. 3 Units**3 Units****Prerequisite(s):** Acceptance into Master of Arts (Educational Technology).**Term Typically Offered:** Fall, Spring

Studies qualitative and quantitative research methods in the field of education with special emphasis on educational technology. Includes identification and formulation of research problems, research designs and presentation of reports representative of different research strategies.

EDTE 251. Education for a Democratic, Pluralistic Society. 3 Units**3 Units****Term Typically Offered:** Fall, Spring

Advanced study of social and psychological issues which need to be considered in education relating to the client, the educator, the community and society. Addresses implications of theories of learning, assessment, individual differences, cultural, historical, philosophical, and social/political influences. Includes an overview of research and an introduction to APA formatting. Must be taken first semester in EDTE uncohorting Masters' program.

EDTE 2511. Education in Democratic, Pluralistic Society for Educational Technology. 3 Units

Prerequisite(s): Acceptance into MA in Education (Educational Technology) program.

Term Typically Offered: Fall, Spring

Advanced study of social and psychological issues which need to be considered in education relating to the client, the educator, the community, and society, with a focus on the effects of educational technology advancements and influences. Addresses implications of theories of learning, assessment, individual differences, cultural, historical, philosophical, and social/political influences.

Note: Fee course.

Fee course.

EDTE 262. Experiencing the Arts in Education. 3 Units

Prerequisite(s): Admission into the Masters of Arts in Education (Curriculum and Instruction) or instructor permission.

Term Typically Offered: Fall, Spring

Involves experiencing, appreciating and generating the arts. Develops a creative, collaborative community for learning and teaching through the arts which will be sustained throughout the Master of Arts in Education (Curriculum and Instruction) and beyond.

EDTE 266. Women And Education. 3 Units

Term Typically Offered: Fall, Spring

Examination and analysis of methods, practices and materials prevalent in educational institutions, at all levels and their ultimate effect on the female both as an individual and as a member of society. Students will examine the limiting factors in their own sex-role socialization and the dangers of perpetuating them in their own teaching.

EDTE 267. The Human Brain and Its Function for Effective Teaching and Learning. 3 Units

Prerequisite(s): Graduate status.

Term Typically Offered: Fall, Spring

Brain-based teaching and learning practices are related directly to the functions of the limbic system; the frontal, parietal, temporal and occipital lobes; and the reticular activating system, brainstem and vestibular apparatus. Students will understand why, from a brain perspective, certain learning/teaching practices are successful/unsuccessful.

EDTE 268. Gender Perspectives on Schooling, Past-Present. 3 Units

Term Typically Offered: Fall, Spring

Examines gender dynamics within schools analyzing theories of education in order to understand the role of gender in schools, past and present. Using historical and philosophical lenses, female and male schooling experiences will be examined. The historical experiences of women of color will be of particular interest. We will also explore ideas and pedagogies associated with gay and lesbian theory, masculinity studies, and anti-oppressive education.

EDTE 280A. Fundamentals of Online Pedagogy & Instructional Design. 3 Units

Prerequisite(s): Acceptance into MA in Education (Educational Technology) program.

Term Typically Offered: Fall, Spring

Introduces students to a variety of online instructional strategies, skills, and instructional design and their theories and practices. Will include an introduction to distributed education, including synchronous and asynchronous modes of instruction, and their applications to instruction.

Note: Fee course.

Fee course.

EDTE 280B. Instructional Design. 3 Units

Prerequisite(s): Acceptance into MA in Education (Educational Technology) program.

This course provides students with experiences to develop the knowledge, skills, and dispositions essential in the design of instruction that involves uses of technology for learning. Students will explore and apply instructional design processes and theories for analysis, planning, and evaluation of learning activities. Students will work together to develop learning activities that utilize multimedia technologies. Learning activities that students work to develop may include webinars, parts of a course or workshop, online learning, or others with the instructor's approval.

Note: Fee course.

Fee course.

EDTE 281. Tools and the Curriculum. 3 Units

Prerequisite(s): Acceptance into MA in Education (Educational Technology) program.

Term Typically Offered: Fall, Spring

Seamlessly blends basic technological applications with established areas of the curriculum. Students will , create and use an array of educational technology applications, including multimedia and interactive tools, as integrated facets of well-established teaching and design strategies. Learning and applying strategies to new and unique problem-solving including online learning and instructional situations is expected. In the process, students evaluate and synthesize theories of learning best suited to designing and developing instruction.

Note: Fee course.

Fee course.

EDTE 282. Strategies for Application and Presentation. 3 Units

Prerequisite(s): Acceptance into Master of Arts (Educational Technology).

Term Typically Offered: Fall, Spring

Develops techniques for presenting and teaching thinking skills and problem solving in schools. Students research social and cultural problems as well as local and curricular problems and apply teaching strategies that develop higher-order thinking processes. Inquiry and problem-based strategies are used and integrated with technological applications. Students design web-based units that focus on logic as well as creative thinking that lead toward a solution to curricular or social and cultural problems.

EDTE 283. Staff Development and Presentation Applications. 3 Units

Prerequisite(s): Acceptance into MA in Education (Educational Technology) program.

Term Typically Offered: Fall, Spring

Focuses on the need for staff development and on effective instructional practices. Explores the necessary elements that facilitate integrated technology to staff members. Students practice a variety of delivery methods for staff development that include multimedia, online resources, and hands-on integrated curricular activities that teachers or instructional leaders or designers can use within the organizational culture.

Note: Fee course.

Fee course.

EDTE 284. Problem Solving and Project Development. 3 Units

Prerequisite(s): Acceptance into Master of Arts (Educational Technology).

Term Typically Offered: Fall, Spring

Students will focus on integrating curriculum, equity, and/or staff development strands into an overall educational technology implementation strategy. Complex problem-solving techniques, research, distributed learning, methodology, and evaluation will be emphasized.

EDTE 285. Technology and Modern Practices. 3 Units

Prerequisite(s): Acceptance into Master of Arts (Educational Technology).

Term Typically Offered: Fall, Spring

Students will learn to understand, construct, and manage communications-based technologies in educational settings. Focuses on modern communications technology, terminology, educational practices, and instructional technology strategies. Emphasis will be placed on mentoring, management, and leadership.

EDTE 286. Special Topics in Educational Technology. 3 Units

Prerequisite(s): Acceptance into MA in Education (Educational Technology) program.

Term Typically Offered: Fall, Spring

Development and innovations in modern technology, especially as related to instructional design, teaching and learning. Composition will vary from semester to semester and over time. However, it will consistently utilize cutting-edge technology to support teaching, learning, and instructional design.

Note: Fee course.

Fee course.

EDTE 290. Seminar: Preparation of Master's Thesis/Project. 3 Units

Prerequisite(s): Approval of Master's Thesis Proposal or instructor permission

Term Typically Offered: Fall, Spring

Seminar course will focus on topics/elements/expectations to be included in the culminating experience: abstract writing, development of organizational schemes for the review of literature; format requirements; thesis/project planning; range and breadth of evidence for a comprehensive review; integrating the review with thesis/project; writing style and quality; revisions and critical feedback. Successful completion of the course requires the completion of Chapters 1 and 2 of the thesis/project and the beginning of Chapter 3. Graded: Credit/ No Credit
Credit/No Credit

EDTE 296O. Introduction to Response To Intervention/Instruction (RT12). 2 Units

Prerequisite(s): Must hold a minimum of a Bachelors Degree.

Term Typically Offered: Fall, Spring

This is the first course of three with the purpose of providing participants with an introduction to Response to Intervention/Instruction (RT12). Participants will gain knowledge of the state laws behind RT12, current implementation models, critical components and best practices in implementing a RT12 system. This course will lay a solid foundation of knowledge for the proceeding two courses of the RT12 certificate program.

EDTE 296P. Response To Intervention/Instruction (RT12): Assessment and Intervention. 4 Units

Prerequisite(s): Student must hold a minimum of a Bachelors Degree.

Term Typically Offered: Fall, Spring

Response to Instruction/Intervention (RT12) is a proactive approach to student learning that uses data to determine student need, monitor student progress, and make decisions about instructional changes to maximize student achievement and to address behavioral concerns. This course will examine the various methods of data collection, data analysis and research-based interventions found in an RT12 framework. Participants will be involved in real world Case Studies to apply RT12 practices at individual, school, and district levels.

EDTE 296Q. Response to Intervention: Practical Application. 3 Units

Prerequisite(s): Student must hold a minimum of a Bachelors degree and have completed EDTE 296O and EDTE 296P with a minimum C- grade or better to enroll in this course.

Term Typically Offered: Fall, Spring

This course is the culmination of courses EDTE 296O and EDTE 296P. It is a practicum course that will help students transfer new learning's from the previous two courses into a RTI plan of action for the classroom, site, or district. This course will help students further explore and research systems and practices in place at their site or district to help develop a RTI plan.

EDTE 298. Capstone. 3 Units

Prerequisite(s): Acceptance into MA in Education (Educational Technology) program and Advancement to Candidacy.

In the final course in the Educational Technology Master's program, students review, reflect, and discuss personal and professional evolution of program experiences, and create and present a final showcase. Students will select assignments from their courses to create a media-rich final ePortfolio that will be evaluated by both peers and faculty. Additionally students will discuss and present selected elements, of their Master's project developments with their cohorted peers, and identify methods to apply in disseminating results related to their Culminating Experience.

Note: Fee course.

Fee course.

EDTE 299. Special Problems. 1 - 3 Units

Term Typically Offered: Fall, Spring

Individual projects at graduate level especially for students capable of independent study. Admission by written approval of the instructor with whom the student will be working and the Department Chair.
Credit/No Credit

EDTE 329D. Helping Writing Happen. 1 - 3 Units

Term Typically Offered: Fall, Spring

EDTE 385. Foreign Languages in the Secondary School. 3 Units
Term Typically Offered: Fall, Spring

Problems of teaching foreign language; evaluation of methods in the light of objectives; discussion of techniques and source materials. Should be taken prior to or with student teaching. Discussion, participation in such classroom activities as panel discussions, presentations and demonstrations.

Cross listed: FORL 385

EDTE 503. Culminating Experience: Language and Literacy. 3 Units
Prerequisite(s): EDTE 250; Advanced to candidacy and permission of his/her faculty advisor and the department chair one full semester prior to registration
Term Typically Offered: Fall, Spring

Completion of a thesis or project approved for the Master's degree.

EDTE 505. Culminating Experience: Curriculum and Instruction. 3 Units
Prerequisite(s): Advanced to candidacy and permission of his/her faculty advisor and the department chair one full semester prior to registration. EDTE 250 and EDTE 290.
Term Typically Offered: Fall, Spring

Completion of a thesis or project approved for the Master's degree.

EDTE 506. Culminating Experience: Behavioral Sciences - Women's Studies. 3 Units
Prerequisite(s): Advanced to candidacy and permission of his/her faculty advisor and the department chair one full semester prior to registration. EDTE 250 and EDTE 290.
Term Typically Offered: Fall, Spring

Completion of a thesis or project approved for the Master's degree.

EDTE 507. Culminating Experience: Educational Technology. 3 Units
Prerequisite(s): Advanced to candidacy and permission of the faculty advisor and department chair one full semester prior to registration.
Term Typically Offered: Fall, Spring

Completion of a thesis or project approved for the Master's degree.

Theatre (THEA)

THEA 1. Introduction To Theatre. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Primarily for non-majors interested in acquiring a background of information in theatre. Plays, history, acting theories, technical methods and people in the theatre. Lectures, demonstrations and discussions will characterize the greater portion of the course.

THEA 2. History of the Theatre: Ancient to Renaissance. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall only

Broad survey of the nature and development of theatrical performance from ancient times through the Renaissance which emphasizes the relationship between theatre and the larger philosophical social and political concerns of its time.

THEA 3. Theatre History After 1660. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Spring only

Investigates the relationship between the development of theatre styles, structures and institutions, and philosophical, political, and cultural practices after 1660. Considers plays, production styles, theatre as an institution, and issues of representation of gender, race and class.

THEA 5. Aesthetics of Theatre and Film. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Interpretations of seminal dramatic scripts emphasizing the aesthetics of the theatrical art in relation to the cinematic medium.

THEA 9. Appreciation Of Acting. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Examination of the art of acting, including a review of actors and acting - past and present. Basic exercises in voice and diction, movement, and character will be utilized.

THEA 11. Acting Study I. 3 Units
Prerequisite(s): Theatre and Dance Majors or Minors or instructor permission.
Term Typically Offered: Fall, Spring

An introduction to, and a solid working foundation of, the basic building blocks of the acting craft. Through ensemble building, personal reflection, physical commitment, and vocal awareness exercises, students have the opportunity to improve and grow as an actor in both individual and partnered performance. Key learning goals include the ability to understand, interpret and execute the foundational elements of drama (plot, character, thought, and language).

THEA 14. Stage Makeup and Costume Construction. 3 Units
Term Typically Offered: Fall, Spring

This course provides a comprehensive look at the technical side of stage makeup and stage costumes, with an emphasis on makeup application and costume construction. Students learn use of materials, equipment, theatre terminology, and the practical aspects of costume and stage makeup realization. Students work on costume and makeup projects from start to finish in the makeup lab and costume shop.

Note: MAY NOT be taken concurrently with THEA 16 or THEA 20 without instructor permission.

THEA 16. Stagecraft. 3 Units
Term Typically Offered: Fall, Spring

Principles of scenic and stage prop construction, techniques of mounting and shifting stage scenery, and the study of ground plans and construction drawings for theatrical production. Lecture/lab activity.
Note: May not be taken concurrently with THEA 14 or THEA 20 without instructor permission.

THEA 20. Lighting. 3 Units
Term Typically Offered: Fall, Spring

Principles of stage lighting, fixtures, control and color. Introduction to basic concepts and practices of lighting design. Lecture/lab activity.
Note: May not be taken concurrently with THEA 14 or THEA 16 without instructor permission.

THEA 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Students will have the opportunity to interact with fellow classmates and the seminar leader to build a community of academic support and personal support.

THEA 100. Script Analysis. 3 Units
Prerequisite(s): THEA 2, THEA 3
Corequisite(s): THEA 3
Term Typically Offered: Spring only

Through lecture and discussion, students explore the foundational elements of play scripts. The class investigates the structure of a play as well as its use of character, thought, plot, diction, song, and spectacle to analyze how a play's social and cultural elements inform potential productions.

THEA 102A. Voice and Movement I. 3 Units
Prerequisite(s): THEA 11.
Term Typically Offered: Fall, Spring

Introduction to the basic fundamentals of voice production and movement for the actor. Basic anatomy and physiology, relaxation, alignment, and breath work and its connection to movement. Feldenkrais, the Alexander Technique, and physical strengthening exercises are used in combination with vocal exercises to develop the actor's voice and body. Vocal and physical improvisation are introduced through various voice and movement exercises.

THEA 102B. Voice and Movement II. 3 Units
Prerequisite(s): THEA 11, THEA 102A or instructor permission.
Term Typically Offered: Fall, Spring

Strengthening and enhancing the vocal work developed in Voice and Movement I is continued with an in depth study of the International Phonetic Alphabet and its importance when performing heightened language plays. Solo presentation and a devised final ensemble project round out the course requirements.

THEA 104. Acting Study II. 3 Units
Prerequisite(s): THEA 11, THEA 102A or instructor permission.
Term Typically Offered: Fall, Spring

To further develop the basic concepts of acting through scene work from the American modern repertoire. Particular emphasis is placed on the importance of a play's given circumstances, and the commitment required to make bold, active tactic choices when developing a character. Further investigation of the actor's process in analyzing text and incorporating research through character analysis, as it ties into performance, are explored.

THEA 106. Latin American Film. 3 Units
Term Typically Offered: Fall, Spring

Exploration of the major movements in Latin American cinema beginning with the initial impetus of the Argentine and Mexican film industry of the late 1940's and the relationship of their aesthetic formulas to the cultural and socio/political climate of major Latin American nations.

THEA 107. Directing. 3 Units
Prerequisite(s): THEA 2, THEA 3, THEA 11, THEA 14, THEA 16, THEA 20, THEA 100
Term Typically Offered: Fall only

Practical experience in production procedures, characterization and basic principles of play direction. Analyzes directing techniques. Class typically attends a rehearsal and performance at Capital Stage (professional theatre in Midtown).
Note: Field trip.

Field trip(s) may be required.

THEA 109. Musical Theatre. 3 Units
Prerequisite(s): THEA 11
Term Typically Offered: Spring only

Practical study in singer-actor performance techniques. Major consideration is given to coordination of gesture and/or choreography, dialogue, melody, and lyric.

THEA 110. Acting Study III: Advanced Acting. 3 Units
Prerequisite(s): THEA 11, THEA 102A and/or THEA 102B, THEA 104 or instructor permission.
Term Typically Offered: Fall, Spring

The study of ways to research, rehearse and perform advanced acting styles and techniques with an emphasis on text analysis, given circumstances, subtext, and heightened language.
Note: May be taken twice for credit.

THEA 111. Audition Technique. 3 Units
Prerequisite(s): THEA 11, THEA 102A &/OR THEA 102B, THEA 104;
 Musical Theatre minors must also take THEA 109.
Term Typically Offered: Spring only

An in-depth study of the business of becoming a working professional actor and the techniques needed when auditioning for a professional theatre company. Students prepare an audition repertoire that is appropriate to their age and type; audition for a panel of theatre professionals and receive feedback for both areas of skill and those needing improvement. Resumes, headshots, trade papers, skill sets, and financial budgeting are examples of the areas included within the content of this course. An introduction to television/commercial and musical theatre audition techniques is also incorporated.

THEA 113. Acting Styles: Shakespeare. 3 Units
Prerequisite(s): THEA 11, THEA 102A &/or THEA 102B, THEA 104
Term Typically Offered: Fall, Spring

Designed to familiarize the intermediate acting student with the very specific demands of performing the works of William Shakespeare. Beginning with an in-depth study of the structure and meter of verse poetry, THEA 113 provides the vocal, physical, and analytical tools with which to approach this material in an intelligent and confident manner. Scene and monologue work is detailed and extensive.

THEA 115. Puppetry. 3 Units
Term Typically Offered: Fall, Spring

Play production with puppets. Practical work in constructing and manipulating various kinds of puppets. Simple puppets for use at elementary level; hand puppet production. Lecture/lab activity.

- THEA 115A. Multicultural Puppetry.** 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), Arts (Area C1)
Term Typically Offered: Fall, Spring
- Multicultural puppetry was developed to introduce the student to the techniques and construction of puppetry and its use in a multicultural setting. Puppetry has been found to be an excellent tool for the teaching of multiculturalism to children. Emphasizes the methodology in the development of multicultural/multilingual scripts and their use in the implementation of curriculum. The ability to speak a second language is not a prerequisite.
- THEA 118. Children's Theatre.** 3 Units
Term Typically Offered: Fall, Spring
- Study of special problems and techniques in the production of formal and improvisational drama for children; a consideration of techniques, methods and materials for use in the classroom to support and supplement curricular goals.
- THEA 120A. Practicum in Technical Production.** 1 Unit
Term Typically Offered: Fall, Spring
- Practical experience in handling technical stagecraft problems, stage management, and crew management. Activity and participation in major productions. Four hours per week minimum required in workshop.
Note: THEA 120A requires students to work on one departmental production a semester for a minimum of 4 hours/week; may be repeated for credit.
- THEA 120B. Practicum in Technical Production.** 2 Units
Term Typically Offered: Fall, Spring
- Practical experience in handling technical stagecraft problems, stage management, crew management. Activity and participation in major productions. Eight hours minimum a week required workshop.
Note: THEA 120B requires student to work on two departmental productions a semester for a minimum of 8 hours/week; may be repeated for credit.
- THEA 120C. Practicum in Technical Production.** 3 Units
Term Typically Offered: Fall, Spring
- Practical experience in handling technical stagecraft problems, stage management, and crew management. Activity and participation in major productions. 12 hours minimum a week required work shop.
Note: THEA 120C requires students to work on three departmental productions a semester for 12 hours/week; may be repeated for credit.
- THEA 121. Rehearsal and Performance.** 1 Unit
Term Typically Offered: Fall, Spring
- Participation in the preparation, rehearsal and performance of a departmental production. Approximately 50 hours of participation (including rehearsal and performance time) for one unit of credit. Admission by audition. A total of six undergraduate units may be taken.
- THEA 123. Lighting and Set Design.** 3 Units
Prerequisite(s): THEA 16 and THEA 20 or instructor permission.
Term Typically Offered: Fall, Spring
- Advancement in the methods of developing concepts for and of productions involving analysis of the script, research and spatial awareness in relation to scenic and lighting design.
- THEA 131. Costume Design.** 3 Units
Term Typically Offered: Spring only
- Study of costume history, design elements, play and character analysis, rendering and presentation techniques, and production procedures. Practical experience in the basics of costume construction with a focus on character interpretation and collaboration with other theatre artists.
- THEA 140. Black Drama in the African Diaspora.** 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
- Survey of the contributions of theatre artists in the African Diaspora. The reading list includes dramas from Africa, the Caribbean and United States and focuses on how social, cultural, and political climates influence Black Drama.
- THEA 144. Women and Theatre: Staging Diversity.** 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), Arts (Area C1)
Term Typically Offered: Fall, Spring
- Survey and performance course that focuses on identity theories and the contributions of contemporary female theatre artists. Lecture two hours; lab two hours.
 Cross Listed: WOMS 144; only one may be counted for credit.
- THEA 155. Contemporary World Cinema.** 3 Units
Term Typically Offered: Fall, Spring
- A historical review of the development of major international film styles and themes. Theoretical and critical concepts derived from this study of international film and then used as the basis to analyze contemporary films of South America, Europe, India, East Asia, Africa and the Middle East. Emphasis is on both the development of formal film techniques and a comparison of the unique cultural values that shape the film narrative style.
 Crosslisted: FILM 155
- THEA 170. African American Theatre and Culture.** 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Arts (Area C1), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
- Survey of African American theatre and drama as a reflection of African American history and culture from slavery to today. This is a writing-intensive course.
- THEA 173. Contemporary Chicano/Latino Theatre: Themes and Performance 1965-Present.** 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
- Study of contemporary Chicano/Latino, Chicana/Latina theatre and drama from 1965 to the present, and its approaches toward performance. The course focuses on new trends, influences and new developments in playwrighting, directing, performance styles, and its impact on the movie industry.

THEA 174. Multicultural Perspectives in American Theatre. 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity
 Graduation Requirement (RE), Arts (Area C1)
Term Typically Offered: Fall, Spring

Study of the historical and artistic contributions of Native Americans, Chicano/Latinos, African-Americans and Asian-Americans to American Theatre. Focuses on a range of plays from various ethnic and racial groups, forming a multicultural classroom experience; specifically study groups, from 1965 to the present, and examine the cultural, sociological and political climate in which these plays were created.

THEA 175. Multicultural Perspectives in American Film. 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity
 Graduation Requirement (RE), Arts (Area C1)
Term Typically Offered: Fall, Spring

Study of the historical and artistic contributions of Native American, Chicano/Latino, African-Americans and Asian American to the American cinema. The course will concentrate on a range of films with an emphasis on multicultural theoretical and critical writings and will examine the cultural and socio-political climate in which these films were crafted.

THEA 190. Senior Production. 2 Units
Prerequisite(s): THEA 2, THEA 3, THEA 11, THEA 14, THEA 16, THEA 20, THEA 100, THEA 120A, THEA 104, THEA 107, THEA 120 (3 units), THEA 121 and THEA 123 or THEA 131.
Corequisite(s): THEA 120 (3 units) may be taken concurrently if needed
Term Typically Offered: Spring only

This capstone course provides practical experience in theatrical production by focusing on the foundational elements of play production and the collaborative page-to-page production process.

THEA 194. Theatre-Related Work Experience. 3 - 12 Units
Prerequisite(s): Consent of Department chair.
Term Typically Offered: Fall, Spring

Supervised employment in a company or producing agency working on theatre-related work, arranged through the Theatre and Dance Department and the Cooperative Education Program office. Requires preparation of application packet, completion of a 3-6 month full-time or part-time work assignment, and a written report. No more than 3 units will be counted towards the degree.

Note: Open only to upper division or graduate students with appropriate course preparation.

Credit/No Credit

THEA 195. Fieldwork. 2 - 3 Units
Prerequisite(s): Junior or Senior standing and permission of the instructor of record.
Term Typically Offered: Fall, Spring

Internship with local theatre company or arts organization that provides direct, supervised experience with different aspects of performance and/or theatre management. Requires students to maintain a journal and submit a final paper to faculty internship coordinator. Graded: Credit/ No Credit Units: 2.00 - 3.00
 Credit/No Credit

THEA 199. Special Problems in Theatre. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Individual project or directed reading.
Note: Departmental petition required.

THEA 500. Culminating Experience. 3 Units
Prerequisite(s): Advanced to candidacy and permission of the graduate coordinator.
Term Typically Offered: Fall, Spring

Completion of a thesis, directing project, or playwriting project.

Women's Studies (WOMS)

WOMS 50. Introduction to Gender & Sexuality. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Introduction to basic concepts and issues informing studies in gender, gay, lesbian, bisexual and transsexual/gender (GLBT) identities. Classic and contemporary texts from different cultures will cover biological, historical and social constructions of gender and sexuality. Transformations in family and society, global and intersectional perspectives on GLBT identity, political activism, cultural and social perceptions of gender and sexuality will be discussed.

WOMS 75. Introduction to Disability Studies. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

This course is an introduction to disability studies. An intersectional approach to knowledge construction about disability will be examined. This interdisciplinary study draws on humanities and social sciences, feminism, medical and scientific literature, and popular sources. How gender, race, class, sexuality, ethnicity, and nationality intersect with disability to shape experience will be analyzed. Historical and contemporary social movements and activism by people with disabilities will also be discussed.

WOMS 110. Introduction to the Women's Movement in Contemporary Society. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Examination of women's issues in the current women's movement. Emphasis is on detailed examination of feminist topics important to women today.

WOMS 115. Introduction to Women's Studies. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Introduction to the origins and models of Women's Studies. Explores the significance of a new field of study, and examines the methods of interdisciplinary study. Provides an opportunity to read a number of Women's Studies "classics" and to trace the development of feminist theory.

WOMS 118. Asian American Women. 3 Units**General Education Area/Graduation Requirement:** Humanities (Area C2)**Term Typically Offered:** Fall, Spring

Using an interdisciplinary approach, course offers a broad introduction to broad principle values and traditions shaping Asian American women's lives in the U.S. Examines cultural diversity, gender inequality and conflicts between traditions and social practices through critical analysis of literature, film and cultural theories as expressions of identity. Topics covered include: cultural heritage and philosophies, intergenerational conflict, transnationalism, gender roles and socio-economic practices. Comprehensive understanding principle factors governing Asian American women's lives at the nexus of Asian and American cultures. Cross-listed: ETHN 118.

WOMS 120. Mother Woman Person. 3 Units**General Education Area/Graduation Requirement:** GE AREA D**Term Typically Offered:** Fall only

This course applies principles of feminism to the study of motherhood as social institution and private experience. Students explore family, cultural and social values that influenced their mothers and grandmothers, analyzing the impact of social institutions on their own childhood and adulthood. Students develop awareness of the historic evolution of women's social and private roles and the changing emphasis on woman as mother, wife/sexual companion and wage earning person largely through African American women's social movements.

WOMS 121. Women Of The Middle East. 3 Units**General Education Area/Graduation Requirement:** Humanities (Area C2)**Term Typically Offered:** Fall, Spring

Provides an introduction to historical and contemporary conditions affecting women's lives and contributions to Middle Eastern societies. Readings will be framed with a focus on women within state systems and political life, economic activity, family systems, religious thought and law, health, arts and literature.

WOMS 125. Sex & Gender in South Asia. 3 Units

This course focuses on sex & gender roles in South Asia starting with ancient times to the present. Patriarchal ideals pertaining to social values, traditions and family structures will be examined. Religious, caste and economic class factors contributing to the preservation of gender norms and socially approved sexual behavior, sex roles, stereotypes, and violence against women, transgender youth and sexual minorities will be analyzed. Contemporary social movements and activism by women's groups and LGBTIQ activists will also be discussed.

WOMS 133. Gender & Health. 3 Units**General Education Area/Graduation Requirement:** Upper Division Further Studies in Area B5**Term Typically Offered:** Fall only

This course explores feminist analyses of medicine. An intersectional approach to how medical science constructs knowledge about health will be examined. This interdisciplinary study draws on humanities and social sciences; feminism; medical, scientific, and clinical literature; popular sources; and web discourses. How gender, race, class, sexuality, ethnicity, nationality, and disability intersect and shape behavior and experience will be analyzed. Contemporary social movements and activism by women and LGBTQIA+ people will also be discussed.

WOMS 136. Gender, Race, and Class. 3 Units**Prerequisite(s):** GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.**General Education Area/Graduation Requirement:** GE AREA D, Race & Ethnicity Graduation Requirement (RE), Writing Intensive Graduation Requirement (WI)**Term Typically Offered:** Fall, Spring

Designed to examine the effects of the dynamic interaction of gender, race, and class on women. The social construction of gender, race, and class will also be examined. Other topics to be discussed and researched are the effects of sexism, racism, and classicism on institutions such as academia, business, government, religion, and social movements. Also provides an analysis of effective techniques to end sexism, racism, and classicism.

WOMS 137. Women Of Color. 3 Units**General Education Area/Graduation Requirement:** GE AREA D, Race & Ethnicity Graduation Requirement (RE)**Term Typically Offered:** Fall, Spring

Examines the social, economic, and cultural uniqueness of various ethnic groups in the U.S. Includes discussion of definitions of sexism, racism, economic exploitation, feminism, and the nature and evolution of the women's movement in relation to women of color.

WOMS 138. Women and Work. 3 Units**Prerequisite(s):** GEAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.**General Education Area/Graduation Requirement:** Writing Intensive Graduation Requirement (WI), GE AREA D**Term Typically Offered:** Fall, Spring

Explores topics basic to discussion of women's paid and unpaid work from historical and crosscultural perspectives. Consideration is given to popular conceptions and stereotypes of work and "women's issues" in the industrialized world; the private and public lives of women and men with emphasis on work and social realities; and the maintenance of patriarchy under capitalism, socialism and communism, with some possible feminist "solutions."

WOMS 139. Violence Against Women. 3 Units**General Education Area/Graduation Requirement:** GE AREA D**Term Typically Offered:** Spring only

Consider from an international feminist perspective the forms of violence directed at women. It will also look at contemporary attitudes towards women, children, power, aggression and sexuality. Topics include sexual assault; child abuse; medical violence; psychiatric violence; economic violence; and military violence. Also examines the ways in which women are individually and collectively combating these various forms of violence.

- WOMS 144. Women and Theatre: Staging Diversity.** 3 Units
General Education Area/Graduation Requirement: Arts (Area C1), Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring
- Includes study of recent feminist performance theory and criticism and its application to acting, directing, and writing for the theatre. Students will participate in both lecture/discussion and activities, including the creation of a final performance. Lecture two hours; lab two hours.
 Cross Listed: THEA 144; only one may be counted for credit.
- WOMS 145. Feminism and the Spirit.** 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only
- Provides a critique of traditional patriarchal religions and traces women's participation in the evolution of the human spirit. Consideration is given to the history of Goddess religion and its resurgence in the contemporary world; sexism in institutionalized religions and the current advances women are making in the churches; and dimensions of woman spirit incorporated in today's feminist art and literature.
- WOMS 146. Women In Art.** 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
- Study of the unique and important contributions of women to the visual arts (Renaissance to present) and their personal struggle toward success and recognition. The Women's Art Movement and its impact on education, museums and women's status in the arts are important topics of this class.
- WOMS 147. Women's Global Issues.** 3 Units
Prerequisite(s): Minimum 45 units completed
Term Typically Offered: Fall, Spring
- Provides a historical overview, as well as in-depth studies of the similarities and differences in feminist developments from an international perspective. Examples will be drawn from industrialized democracies, centrally planned socialist states, and third world countries. Pluralistic trends in feminist development within countries will also be examined with a view to understanding the differential impact of gender based discrimination on different categories of women.
- WOMS 150. Introduction to Queer and Trans Studies.** 3 Units
Prerequisite(s): WOMS 50 or instructor permission.
Term Typically Offered: Fall, Spring
- Introduces students to the fields of queer theory and trans theory from a transnational feminist perspective. Includes theoretical approaches to the history of sexuality and the politics of sexual and gender normativity. Places queer and trans studies in conversation with Native studies, disability studies, postcolonial theory, critical race and ethnic studies, and feminist theory.
- WOMS 166. Gender and Politics.** 3 Units
Term Typically Offered: Spring only
- This course examines the influence of socially constructed meanings of femininity and masculinity on the political participation of women, candidate selection, election campaigns, and electoral outcomes in executive and legislative offices in the U.S. and worldwide. Students will develop a rich understanding of the relationship between gender and women's political representation and analyze and discuss institutional, structural, cultural, and historical conditions associated with women's voting behavior, political advancement, leadership styles, and impacts of political representation on women.
 Cross Listed: GOVT 166; only one may be counted for credit.
- WOMS 172. LGBTQ Histories.** 3 Units
Term Typically Offered: Spring only
- This course provides an introduction to the study of lesbian, gay, bisexual, transgender, and queer (LGBTQ) histories. Uses an interdisciplinary and comparative approach to explore the historical emergence and development of LGBTQ identities, communities, and political movements. Includes theoretical analysis of the history of gender and sexuality and the practice of historical analysis.
 Cross Listed: HIST 172; only one may be taken for credit.
- WOMS 180. Seminar in Feminist Theory.** 3 Units
Prerequisite(s): WOMS 110 or instructor permission.
Term Typically Offered: Fall, Spring
- Advanced course providing detailed inquiry into specific feminist theories, including their conceptual framework and development, relationship to other political theories and application to the current practices of feminism.
- WOMS 195A. Fieldwork in Women's Studies.** 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
- Supervised experience in selected women's organizations and projects in the Sacramento area; for example, the Rape Crisis Center, Women Escaping a Violent Environment (WEAVE), Sacramento Women's Center.
 Credit/No Credit
- WOMS 199. Special Problems.** 1 - 3 Units
Prerequisite(s): WOMS 115 and instructor permission.
Term Typically Offered: Fall, Spring
- Supervised individual research projects or directed reading specifically related to Women's Studies topics. Should be taken by students who can work on an individual basis.
 Credit/No Credit
- WOMS 299. Special Research Problems.** 1 - 3 Units
Term Typically Offered: Fall, Spring
- Supervised research projects and directed study specifically related to Women's Studies and taken on an individual basis by Graduate students in the Special Major Graduate Program.
 Credit/No Credit

World Languages & Literatures (WLL)

WLL 15. World Literatures in Film. 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall, Spring

Interpreting cinema as literary text, this course will explore, compare, and contrast diverse cultures through cinema. All films will be viewed in the original language with English subtitles. The focus will be on linguistic, cultural, and regional characteristics, values, and differences. This section will focus on cinematic interpretations of world literatures.

WLL 21. First Year Seminar: Becoming an Educated Person. 3 Units

General Education Area/Graduation Requirement: Understanding Personal Development (E)

Term Typically Offered: Fall, Spring

Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop academic success strategies and to improve learning skills. Students will interact with fellow students to build a community of academic and personal support. Introduces foreign languages as an academic discipline by requiring students to develop the habits of thinking and learning necessary in a complex, multicultural world.

WLL 120A. Language and written culture in Ancient Greece. 3 Units

Term Typically Offered: Fall, Spring

This is the first part of the two-semester hybrid course on Ancient Greek language and written culture. The language component of the course is taught online through interactive language-teaching website, while the weekly meetings are mainly discussions on Ancient Greek texts in translation. The focus in this first part is on basic grammatical rules, the reading and construction of simple sentences, and the study of Greek written culture from its beginnings to the Classical Period.

Note: This course cannot be used to fulfill the undergraduate foreign language graduation requirement. Cross Listed: HIST 101A; only one may be counted for credit.

WLL 120B. Language and written culture in Ancient Greece. 3 Units

Prerequisite(s): WLL 120A

Term Typically Offered: Fall, Spring

This is the second part of a two-semester hybrid course on Ancient Greek language and written culture. The language component of the course is taught online through an interactive language-teaching website, while the weekly meetings are mainly discussions on Ancient Greek texts in translation. The focus in this second part is on advanced grammar, the reading and understanding of long passages, and the study of Greek written culture from the Classical Period to the Roman era.

Note: This course cannot be used to fulfill the undergraduate foreign language graduation requirement. Cross Listed: HIST 101B; only one may be counted for credit.

WLL 199. Special Problems. 1 - 3 Units

Prerequisite(s): Permission of instructor supervising work, the advisor, and the Department Chair.

Individual projects or directed reading. Open only to students who appear competent to carry on independent study.

WLL 385. Foreign Languages in the Secondary School. 3 Units

Prerequisite(s): Instructor permission.

Term Typically Offered: Fall, Spring

Problems of teaching foreign language; evaluation of methods in the light of objectives; discussion of techniques and source materials. Should be taken prior to or with student teaching. Discussion, participation in such classroom activities as panel discussions, presentations and demonstrations.

Cross listed: EDTE 385.

WLL 385A. Methods in World Language Education, A. 1.5 Units

Corequisite(s): EDTE 474A

Term Typically Offered: Fall, Spring

This course is designed for candidates who are preparing to teach world languages in secondary school settings in California public schools. candidates will learn about current theoretical bases for second-language acquisition and how such theories inform classroom practice. Candidates have introductory opportunities to practice principles of learning from which teachers can draw as they make decisions about instruction. Lecture Discussion and simulation. Prerequisite Admission into the Single Subject Teacher Credential Program

Cross Listed: EDTE 385A; only one may be counted for credit.

WLL 385B. Methods in World Languages Education, B. 1.5 Units

Prerequisite(s): WLL 385A or EDTE 385A

Corequisite(s): EDTE 474B

Term Typically Offered: Fall, Spring

This course continues learning initiated in WLL 385A and is designed for candidates preparing to teach world languages in secondary school settings in California public schools. Candidates will learn additional methodologies for planning and delivering instruction in world languages. Candidates will practice instructional strategies and will design lessons. Candidates will implement assessments that capture student learning of key world language outcomes, including oral language and written language development and reading fluency. Strategies for teaching cultural appreciation are also embedded. Lecture, discussion and simulation.

Cross Listed: EDTE 385B; only one may be counted for credit.

FACULTY DIRECTORY

A

ADAMSON, FRANK (2018), Assistant Professor of Education, GPSE, B.A., New York University in Paris; M.A., Ph.D., Stanford University

AGUILAR, KIMBERLY (2018), Assistant Professor of Communication Studies, COMS, B.A., California State University, San Bernardino; M.A., California State University, San Bernardino; Ph.D. The University of Utah

AHMED, ZAFOR (2018), Assistant Professor of Management Information Systems, BUS, B.S., M.S., Brock University, Ph.D. Carleton University, Ottawa, Canada

AINSWORTH, DALE W. (2014), Assistant Professor of Health Science, HLSC, B.A., Mississippi College; M.S., Pepperdine University; Ph.D., Saybrook University

AKUTSU, PHILLIP D. (2008), Professor of Psychology, PSYC, B.S., University of Washington; Ph.D. University of California, Los Angeles

AL-QAZAZ, AYAD SAYID (1969), Professor of Sociology, SOC, B.A., University of Baghdad; M.A., University of California, Berkeley

ALEXANDER, KRISTEN (2002), Professor of Education, Undergraduate Studies in Education, UGSE, B.A., University of California, Riverside; Ph.D., University of California, Davis

ALLENDER, DALE (2014), Assistant Professor of Education, Teaching Credentials, TC, B.A. University of Wisconsin, Milwaukee; M.A., University of Iowa; Ph.D., University of Queensland, Australia

ALTMAN, ROBIN (2016), Assistant Professor of Biological Sciences, BIO, B.S., UC San Diego; Ph.D. UC Davis

ALTMANN, TANYA (2003), Professor of Nursing; Chair, School of Nursing, NURS, B.N., Memorial University; NFLD, Canada; M.S.N., Clarkson College; PhD, Duquesne University - Pennsylvania

AMATA, BENJAMIN T. (1985), Librarian, Reference, SPB, A., California State University, Northridge; M.L.S., University of California, Berkeley

ANDERSEN-RODGERS, DAVID R. (2006), Professor of Political Science, POLS, B.A., Hampshire College, Amherst, Massachusetts; M.A., Ph.D., University of Maryland, College Park

ANDERSON, MIKAEL (2003), Professor of Construction Management; Chair, Department of Construction Management, CM, B.S., M.S., University of California, Davis; Registered Professional Engineer; Licensed General Contractor

ANDERSON, JOSEPH (1998), Professor of Social Work, SWRK, B.S., Shippensburg University, Pennsylvania; M.S.W., West Virginia University; M.ED., Shippensburg University, Pennsylvania; Ph.D., University of Maryland

ANDERSON-POWELL, AMY (1996), Lecturer of English, ENGL, B.A., M.A., California State University, Sacramento

ANKER, ANDREW K. (1996), Professor, Department of Design, Interior Design Program, DOD, B.A., State University of New York at

Binghamton; M.Arch., Harvard Graduate School of Design; M. Env.Des., Yale School of Architecture

ANTONYAPPAN, JUDE (1998), Professor of Social Work, SWRK, P.U.C., Holy Cross College, University of Madurai; B.Sc., St. Mary's College; M.S.W., Stella Maris College, Ph.D., University of California, Berkeley

ARAD, BEHNAM S. (1997), Professor of Computer Science, CSC, B.S., University of Massachusetts, Lowell; M.S., Purdue University, West Lafayette, Indiana; Ph.D., Louisiana State University, Baton Rouge

ARELLANO, ADELE (1998), Professor of Education, Teaching Credentials, TC, B.A., Saint Mary's College of California, Moraga; M.A., California State University, Sacramento; Ph.D., Stanford University

ARGUELLO, TYLER M. (2014), Assistant Professor of Social Work, SWRK, B.A.S.W., B.A., M.S.W., Ph.D., University of Washington, Seattle

ARMSTRONG, RICHARD (2008), Assistant Professor of Civil Engineering, CE, B.S. University of Manitoba, Canada, M.S. Stanford University, Ph.D. University of California, Davis, CA Registered Civil Engineer

ARYANI, CYRUS (1988), Professor of Civil Engineering, CE, B.S., M.S., Ph.D., Utah State University; California Registered Civil Engineer

ASHTARI, SADAF (2017), Assistant Professor of Management Information Systems, BUS, B.A., Qazvin Azad University; M.A., Science and Research Azad University; Ph.D., Eastern Michigan University

ASSADI, POORIA (2017), Assistant Professor of Management, BUS, B.S., Iran University of Science and Technology; M.S., University of British Columbia; (Ph.D., Simon Fraser University - anticipated Summer 2018)

ATAMAZ, SERPIL (2017), Assistant Professor of History, HIST, B.A., Middle East Technical University; M.A., Ph.D. University of Arizona

AUGUST, RACHEL A. (1997), Professor of Psychology, PSYC, B.A., University of Virginia, Charlottesville; M.A., Ph.D., The Claremont Graduate School, Claremont, CA

AULT, STACEY (2018), Assistant Professor of Social Work, SWRK, B.A. Psychology, M.S.W., CSU, Sacramento; Ed.D., University of San Francisco

AUSTIN, PAULA (2015), Assistant Professor of History, HIST, B.A., New School for Social Research; M.A. North Carolina Central University; M.Phil, Ph.D., City University of New York

AYALA-LOPEZ, SARAY (2016), Assistant Professor of Philosophy, PHIL, B.A., University of Murcia, Spain; M.A., Ph.D., Autonomous University of Barcelona, Spain

B

BACH, SEUNG B. (2006), Professor of Strategic Management, BUS, B.S., M.S., Hanyang University; M.B.A., The George Washington University; Ph.D., University of Tennessee

BAGGER, JESSICA (2006), Professor of Human Resources Management, BUS, B.A., B.S.B.A., M.S., Ph.D., University of Arizona

BAHLMAN, JOSEPH (2017), Assistant Professor of Biological Sciences, BIO, B.S., University of California, Davis; Ph.D., Brown University

- BAIOCCHI, ARTURO (2015), Assistant Professor of Social Work, SWRK,B.A., University of California ,Davis, MA University of Chicago, Ph.D, University of Minnesota
- BAKER, SUSAN (2001), Professor of Education, Teaching Credentials, TC,B.A., Kenyon College, Gambier, Ohio; M.A., Ph.D., Stanford University
- BAKER, DIAN (2006), Professor of Nursing, NURS,B.S.N., M.S.N., California State University, Sacramento; M.A., University of California, Davis; PhD, University of Hawaii
- BAKER, BRIAN (2002), Professor of Ethnic Studies, ETHN,B.S., Northland College; M.A., Central Michigan University; M.A., Ph.D., Stanford University
- BALDINI, FRED D. (1988), Professor of Kinesiology; Dean, College of Health and Human Services, KINS,B.A., M.A., California State University, Sacramento; Ph.D., Arizona State University
- BALDUS, BRIAN (2013), Assistant Professor of Marketing, BUS,B.S., Brigham Young University; Ph.D., Michigan State University
- BALTHAZARD, PIERRE (2015), Professor of Management Information Systems, BUS,B.Sc., McGill University; M.S., Ph.D., University of Arizona
- BANKHEAD, TEIAHSHA (2002), Associate Professor of Social Work, SWRK,B.A., Syracuse University; M.S.W., Ph.D., University of California, Berkeley
- BARAJAS, MANUEL (2002), Professor of Sociology, SOC,B.A., University of California, Davis; M.A., Ph.D., University of California, Riverside
- BARANOWSKI, EDWARD (2002), Professor of Spanish, WLL,B.A., University of California, Santa Cruz; M.A., Middlebury College; Ph.D., University of Wisconsin-Madison
- BARATA, DATA (2009), Associate Professor of Anthropology, ANTH,B.A., M.A. Addis Ababa University; Ph.D., University of Bergen, Norway
- BARNIOL DURAN, RODOLFO (2017), Assistant Professor of Physics and Astronomy, PHYS,B.S., Instituto Tecnologico de Monterrey, Mexico; Ph.D., University of Texas at Austin
- BARRANTI, CHRYSTAL C. RAMIREZ (2000), Professor of Social Work, SWRK,B.S., Santa Clara University; M.S., Ph.D. and M.S.W., The University of Georgia
- BASS de MARTINEZ, BERNICE , Professor of Education, Graduate and Professional Studies in Education, GPSE,B.A., University of Northern Colorado; M.A., University of Northern Colorado; Ph.D., University of Florida
- BAUER, JOHANNES (2018), Assistant Professor of Chemistry, CHEM,Diploma (M.S.), Ph.D., Free University, Berlin, Germany
- BAXTER, JAMES W. (2003), Professor of Biological Sciences, BIO,B.A., University of California, Santa Cruz; M.A., San Francisco State University; Ph.D., Rutgers University, New Brunswick
- BAYARD, JEAN-PIERRE (1990), Professor of Electrical and Electronic Engineering, EEE,B.S., M.S.E.C.E., Ph.D., University of Massachusetts, Amherst
- BAYNE, LORELEI (2005), Professor of Theatre and Dance; Chair, Department of Theatre and Dance, THEA,B.A., University of South Florida, Tampa; M.F.A., NYU/Teish School of the Arts, New York City
- BAYNES, ANNA (2017), Assistant Professor of Computer Science, CSC,B.S., University of Washington, Seattle; M.S., Ph.D. University of Michigan, Ann Arbor
- BECKER, ANDREA J. (2017), Assistant Professor of Kinesiology, KINS,B.A., M.A., California State University, Sacramento; Ph.D., University of Tennessee
- BEDDOW, MARGARET (2008), Associate Professor of Education, Teaching Credentials and Undergraduate Studies in Education, TC, UGSE, B.A., M.A., California State University, Sacramento; Ph.D., University of California, Davis
- BEGUE, GWENAELLE (2018), Assistant Professor of Kinesiology, KINS,M.S., Ph.D., Kinesiology School, Montpellier University, France
- BELKHOUCHE, FETHI (2009), Associate Professor of Electrical and Electronic Engineering, EEE,B.S., M.S., Universite de Tlemcen, Algeria; M.S., Ph.D., Tulane University
- BELLON, CHRISTINA M. (2002), Professor of Philosophy; Associate Dean of Budget and Assessment, College of Arts and Letters, PHIL,B.S., University of Toronto; M.A., Dalhousie University; Ph.D., University of Colorado, Boulder
- BERG, ELLEN (2002), Professor of Sociology, SOC,B.A., University of Washington; M.S., Ph.D., Arizona State University
- BERRIGAN, LEE P. (1986), Professor of Psychology, PSYC,A.B., University of California, Riverside; B.S., Providence College; M.B.A., Boston University; Ph.D., Washington University
- BERSOLA-NUGYEN, IRENE (1997), Lecturer of Education, Undergraduate Studies in Education, UGSE,B.A., M.A., California State University, Sacramento; Ph.D., University of California, Davis
- BERTA-AVILA, MARGARITA (2003), Professor of Education, Teaching Credentials, TC,B.A., University of California, Davis; M.A., Claremont Graduate University; Ed.D., University of San Francisco
- BIAGETTI, STEPHANIE (2003), Professor of Education, Teaching Credentials; Chair, Teaching Credentials, TC,B.A., M.Ed., Ph.D., University of California, Los Angeles
- BISHOP, JOYCE (2002), Associate Professor of Anthropology, ANTH,B.A., University of Denver; M.A., Ph.D., University of California, Berkeley
- BLACKBURN, SAMANTHA (2014), Assistant Professor of Nursing, NURS,B.A., Swarthmore College; M.S.N., University of California, San Francisco; Ph.D, University of California, Davis
- BLOCK, MATTHEW (2014), Assistant Professor of Physics and Astronomy, PHYS,B.S., Georgia Institute of Technology; M.A., Ph.D., University of California, Santa Barbara
- BLUMBERG, STEPHEN (2003), Professor of Music, MUSC,B.A., M.A., University of California, San Diego; Ph.D., University of California, Berkeley

- BOGAZIANOS, DIMITRI (2007), Associate Professor of Criminal Justice, CRJ,B.A., Purchase College, SUNY; M.A., University of Hawaii, Manoa; Ph.D., University of California, Irvine
- BOHON, LISA (1990), Professor of Psychology, PSYC,B.A., Loyola Marymount University; M.A., Ph.D., University of California, Riverside
- BONILLA, DIEGO (2001), Professor of Communication Studies, COMS,B.A., Instituto Tecnológico Autónomo de México (ITAM), M.S., Ph.D., Syracuse University
- BOOSALIS, CHRIS (2015), Professor of Education, Graduate and Professional Studies in Education; Program Coordinator, Curriculum & Instruction, GPSE,B.A., Augsburg College; M.A., Ph.D., Arizona State University
- BOTA, MIGUEL (2017), Assistant Professor of Spanish, WLL,Licenciatura, Universitat Autònoma de Barcelona, Spain; M.B.A. Esade Business School, Spain; M.A. Queen's University, Canada; Ph.D. Stanford University
- BOWIE, SYLVESTER (2002), Associate Professor of Social Work, SWRK,B.A., M.S.W., California State University, Sacramento; Ed.D., University of San Francisco
- BRADLEY, ANNE (2003), Librarian, Reference, SPB.B.A., University of North Dakota; M.L.I.S., University of Washington
- BRADY, DEBRA (2003), Professor of Nursing, NURS,B.S.N., M.S.N., California State University, Sacramento; B.A., Fresno Pacific College; DNP, Case Western Reserve University-Ohio
- BRAND, DENYS (2018), Assistant Professor of Psychology, PSYC,B.A., M.S., Ph.D., University of Auckland, New Zealand
- BRAUNSTEIN, NADINE (2017), Assistant Professor of Family and Consumer Sciences; Dietetic Internship Director, FACS,B.S., Drexel University; M.S., MGH Institute of Health Professions; Ph.D., Boston University School of Medicine
- BRAZO, ED (2002), Professor of Theatre and Dance, THEA,B.A., Montclair State College; M.A., Northeast Louisiana University
- BREUNIG, MARY (2019), Assistant Professor of Recreation, Parks and Tourism Administration, RPTA,B.A., University of Wisconsin; M.S., Minnesota State University; Ph.D., Lakehead University
- BROCK, STEPHEN (2001), Professor of Education, Graduate and Professional Studies in Education; Program Coordinator, School Psychology, GPSE,B.S., University of Oregon; M.S., San Jose State University; Ph.D., University of California, Davis
- BRODD, JEFFREY (1999), Professor of Humanities and Religious Studies, HRS,B.A., St. Olaf College; M.A., Ph.D., University of California, Santa Barbara
- BROOKS, JACQUELINE D. (2016), Assistant Professor of Sociology, SOC,B.A., Miami University, Ohio; M.A., The Ohio State University; Ph.D. The Ohio State University
- BROWN, BERNARD (2017), Assistant Professor of Theatre and Dance, THEA,BFA Purchase College, Purchase NY; MFA UCLA, Los Angeles, CA
- BROWN, MATTHEW J. (2017), Assistant Professor of Kinesiology, KINS,B.S., M.S. Wilfred Laurier University; Ph.D., University of Waterloo
- BROWN, LESLEY (2018), Associate Librarian, Head of User Services, SPB.A., Michigan State University; M.S.L.I.S., Florida State University
- BROWN, MARK B. (2003), Professor of Political Science, POLS,B.A., University of California, Santa Cruz; M.A., Ph.D., Rutgers University
- BUCHAN, WENDY (2000), Professor of Family and Consumer Sciences, FACS,B.S., University of California, Davis
- BUCHANAN, BRADLEY W. (2002), Professor of English, ENGL,B.A., McGill University; M.A., University of Toronto; Ph.D., Stanford University
- BUCKMAN, ALYSON R. (2001), Professor of Humanities and Religious Studies; Chair, Department of Humanities and Religious Studies, HRS,B.A., Wheaton College; M.A., Ph.D., Purdue University
- BUERKI, JEROME (2008), Associate Professor of Physics and Astronomy, PHYS,B.S., M.S., Swiss Federal Institute of Technology (EPFL), Lausanne, Switzerland; Ph.D., University of Fribourg, Switzerland
- BUFFARD, NICOLE (2002), Professor of French, WLL,Licence d'Anglais, Université de Caen, France; Certificat de Maîtrise d'Anglais, Université de Caen; Ph.D., University of California, Davis
- BURGHART, DANIEL (2017), Assistant Professor of Economics, ECON,B.S., M.S., Oregon State University; Ph.D., University of Oregon
- BURKE, CHLOE S. (2004), Associate Professor of History, HIST,B.A., University of California, San Diego; M.A., Ph.D., University of Michigan
- BURKE, PAUL (2001), Lecturer in Sociology, SOC,B.A., University of California, San Diego; M.A. University of California, Berkeley
- BURMEISTER, GAIL (2015), Assistant Professor of Nursing, NURS,B.S.C., University of Toronto; B.S.N., McMaster University; M.S.N.H., Clayton College; M.S.N., Regis University; DNP, Brandon University
- BURRIS, JOYCE A. (1989), Professor of Social Work, SWRK,B.S., Kansas State University; M.S.W., M.A., California State University, Sacramento; Ph.D., Arizona State University

C

- CALER, KYLE (2018), Assistant Professor of Social Work, SWRK,B.A., Philosophy, West Virginia Wesleyan College; M.S.W. (Clinical Focus) Temple University; Ph.D. Social Work, Rutgers University
- CALTON, JEFFREY L. (2001), Professor of Psychology, PSYC,B.S., Southwest Missouri State University; M.A., Ph.D., University of Missouri
- CAMARENA, CHRISTIE (2017), Assistant Professor of Nursing, NURS,B.S.N., California State University, Sacramento; M.S.N./I.N.F., University of Phoenix
- CAMERON, REBECCA P. (2001), Professor of Psychology; Chair, Department of Psychology, PSYC,B.A., University of Pennsylvania, Philadelphia; M.A., Ph.D., Kent State University

- GRANDA, JOSE (1983), Professor of Mechanical Engineering, ME,B.S., National Polytechnical School, Ecuador, South America; M.S., University of California, Berkeley; Ph.D., University of California, Davis
- GREEN, ERIN (2019), Assistant Professor of Physical Therapy, PT,B.A., University of California San Diego; M.S., DPT, University of California San Francisco
- GREEN, RICKY (1998), Associate Professor of Ethnic Studies, ETHN,B.A., California State University, Sacramento; M.A., Ph.D., University of California, Santa Barbara
- GREGORY, CANDACE (2003), Professor of History, HIST,B.A., Loyola University, New Orleans; M.A., Ph.D., Yale University
- GRUSHKIN, DONALD (2001), Professor of Education, Undergraduate Studies in Education, UGSE,B.A., M.A., Gallaudet University; Ph.D., University of Arizona
- GRUSHKIN, DONALD (2001), Professor of Education, Undergraduate Studies in Education, UGSE,B.A., Gallaudet College; M.A., Gallaudet University; Ph.D., University of Arizona
- GU, FANG (2002), Librarian, Reference, SPB.A., South East University, China; M.E.D., M.L.I.S., University of Illinois, Urbana-Champaign
- GUADALUPE, KRISHNA L. (1999), Professor of Social Work, SWRK,B.A., Stockton State College; M.S.W., Rutgers University; Ph.D., University of South Carolina
- GUTIERREZ, RICKY (2000), Professor of Criminal Justice, CRJ,B.A., Eastern Washington University; M.A., Washington State University; Ph.D., Washington State University, Pullman

H

- HAGGE, DARLA (2013), Associate Professor of Communication Sciences and Disorders, CSAD,B.A., M.A., California State University, Fullerton; Ph.D., Chapman University
- HAMILTON, TRACY (2002), Professor of Mathematics and Statistics, MATH,B.A., California State University, Sacramento; Ph.D., University of North Carolina, Chapel Hill
- HAMMERSLEY, LISA (2003), Professor of Geology; Associate Dean, College of Natural Sciences and Mathematics, GEOL,B.S., University of Birmingham, England; Ph.D., University of California, Berkeley
- HAN, YONGLIANG "STANLEY" (2001), Associate Professor of Strategic Management, BUS,B.A., Peking University, Beijing; Ph.D., University of Southern California
- HANNA, LYNN (2009), Associate Professor of Family and Consumer Sciences; Chair, Department of Family and Consumer Sciences, FACS,B.S., Ph.D., University of California, Davis

- HANSEN, KAREN L. (2004), Professor of Construction Management and Civil Engineering, CM, CE, B.A., University of California, Berkeley; B.S., University of Washington; M.S., Ph.D., Stanford University
- HARPER, ANNA (2017), Senior Assistant Librarian, Reference, SPB.L.S., Portland State University; M.L.I.S., University of Denver
- HARRISON, LISA A. (2001), Professor of Psychology, PSYC,B.A., University of North Carolina, Charlotte; M.A., Ph.D., University of Nebraska, Lincoln
- HARVEY, IAN (2005), Professor of Art, ART,B.A., Wesleyan University; M.F.A., Columbia University
- HAUSBACK, BRIAN P. (1985), Professor of Geology, GEOL,B.S., University of California, Los Angeles; Ph.D., University of California, Berkeley
- HAYES, HOGAN (2015), Assistant Professor of English; GEAR Coordinator, ENGL,B.A., University of Wisconsin, Madison; M.A., Ph.D., University of California, Davis
- HEATHER, JULIAN (2003), Professor of English; TESOL Coordinator, ENGL,M.A., University of Aberdeen, Scotland; M.A., Washington State University; Ph.D., University of Arizona
- HECKATHORN, AMY C. (1999), Professor of English, ENGL,B.A., St. Mary's University, San Antonio; Ph.D., Texas Christian University
- HECSH, JANET I. (1999), Professor of Education, Undergraduate Studies in Education, UGSE,B.A., University of California, Los Angeles; M.A. University of California, Davis; Ph.D., University of California, Davis
- HEEDLEY, PERRY (2003), Professor of Electrical and Electronic Engineering, EEE,B.S., Georgia Institute of Technology, Atlanta; M.S., Ph.D., Auburn University, Alabama
- HEILIG, JULIAN VASQUEZ (2014), Professor of Education, Educational Leadership; Director, Doctorate in Educational Leadership, GPSE,B.A., M.A., University of Michigan, Ann Arbor; Ph.D., Stanford University
- HEINICKE, MEGAN (2013), Assistant Professor of Psychology, PSYC,B.S., Western Michigan University; M.S., Ph.D., Auburn University
- HEMBREE, SHERI E. (1999), Professor of Education, Undergraduate Studies in Education; Chair, Undergraduate Studies in Education, UGSE,B.A., University of California, Santa Barbara; M.A., San Francisco State University; Ph.D., University of Wisconsin, Madison
- HENS, SAMANTHA (2000), Professor of Anthropology, ANTH,B.A., State University of New York at Buffalo; M.A., Ph.D., University of Tennessee, Knoxville
- HERTZOFF, ANDREW S. (2002), Associate Professor of Political Science, POLS,B.A., St. Johns College; Ph.D., University of Notre Dame
- HEYER, JOHANNA (2019), Lecturer of Environmental Studies, ENVS,B.A., B.S., Ph.D. (Candidate), University of California, Los Angeles
- HIBBARD, EVAN (2017), Assistant Professor of Education, Undergraduate Studies in Education, UGSE,B.S., Rochester Institute of Technology; M.S., University of Rochester; Ph.D., Ryerson University, Toronto Canada
- HIGGINS, ABIGAIL (2018), Assistant Professor of Mathematics and Statistics, MATH,A.A., Columbia Basin College; B.S., Walla Walla University; M.S., Ph.D., Washington State University
- HILLS, III, ERNIE M. (1984), Professor of Music; Director, School of Music, MUSC,B.M., University of Oklahoma; M.M., New England Conservatory, Boston; D.M.A., University of Oklahoma, Norman
- HITCHCOCK, PHILIP S. (1976), Professor of Art; Director, University Library Gallery, ART,B.A., Whitworth College; M.F.A., Institute Allende
- HOBBS, SUE (2017), Assistant Professor of Education, Undergraduate Studies in Education, UGSE,B.A., California State University, East Bay; M.A., University of the Pacific; Ph.D., University of California, Davis
- HOFFMAN, JAMIE (2013), Associate Professor of Recreation, Parks and Tourism Administration, RPTA,B.S., University of Tennessee; M.S., University of Tennessee; Ed.D., California State University, Long Beach
- HOLLAND, MELISSA (2013), Associate Professor of Education, Graduate and Professional Studies in Education; Fieldwork and Internship Coordinator, School Psychology, GPSE,B.A., U.C. Davis; M.S., Ph.D., Utah State University, Logan
- HOLLAND, BRETT T. (2003), Professor of Biological Sciences, BIO,B.S., University of California, Davis; M.S., California State University, Sacramento; Ph.D., University of California, Santa Cruz
- HOMEN, PATRICK (1982), Lecturer of Mechanical Engineering, ME,B.S., University of California, Davis
- HORNER, TIMOTHY (1993), Professor of Geology; Chair, Department of Geology, GEOL,B.S., Bucknell University; M.S., Texas Tech University; Ph.D., The Ohio State University
- HOUSTON, JACQUELINE (2011), Assistant Professor of Chemistry, CHEM,B.S., M.S., California State University, Sacramento; Ph.D., University of California, Davis
- HOWARD, TIMOTHY L. (2006), Professor of Communication Studies, COMS,B.A., M.A., University of the Pacific
- HUANG, HUI-JU (2002), Professor of Education, Teaching Credentials, TC,B.S., National Taiwan Normal University; M.S., University of Iowa; Ph.D., University of Illinois, Urbana-Champaign
- HUANG, SHIHLUNG (2005), Associate Professor of Criminal Justice, CRJ,B.A., National Police University, Taiwan; M.A., Ph.D., Sam Houston State University
- HUR, JUNGYUN "CHRISTINE" (2016), Assistant Professor of Recreation, Parks and Tourism Administration, RPTA,B.A., Sookmyung Women's University, Seoul, Korea; M.S., Griffith University, Australia; M.B.A., Le Cordon Bleu & Sookmyung Women's University, Seoul, Korea; Ph.D., Purdue University
- HURTZ, GREGORY (2002), Professor of Psychology, PSYC,B.A., M.A., California State University, Sacramento; Ph.D., State University of New York, Albany
- HUSSEY, WESLEY A. (2008), Associate Professor of Political Science, POLS,B.A., University of California, Irvine; M.A., Ph.D., University of California, Los Angeles
- HYSON, DIANNE (2002), Professor of Family and Consumer Sciences; Dean, College of Social Sciences and Interdisciplinary Studies, FACS,B.S., Acadia University, Nova Scotia, Canada; M.S., University of Alberta, Canada; Ph.D., University of California, Davis

I

- IDA, AYA KIMURA (2008), Assistant Professor of Sociology, SOC,B.A., Mount Union College; M.A., Ph.D., University of Akron, Ohio
- IKROMOV, NURIDDIN (2008), Associate Professor Real Estate and Land Use Affairs, BUS,B.S., Ph.D., The Pennsylvania State University
- IMAMURA, RODNEY T. (2002), Associate Professor of Kinesiology, KINS,B.A., M.A., California State University, Fresno; Ph.D., Georgia State University
- IRWIN, JACQUELINE "Jaccie" (2006), Professor of Communication Studies, COMS,B.F.A., M.A., Ph.D., University of Kansas
- ISHIKAWA, CATHERINE "CATHY" (2010), Lecturer of Environmental Studies, ENVS,B.A, Depauw University, M.S. UC Davis, Ph.D UC Davis
- IVES, SARAH (2014), Associate Professor of Education, Teaching Credentials, TC,B.A., College of Wooster; M.A., University of North Carolina at Wilmington; Ph.D., North Carolina State University

J

- JAMIESON, KATHERINE M. (2016), Professor of Health Science, KINS,B.S., M.S., California State University, Fullerton; Ph.D., Michigan State University
- JANOS, DAN (2015), Assistant Professor of Communication Studies, COMS,B.F.A., College of Creative Arts; M.F.A., San Francisco Art Institute
- JAUDI, MARIA (1998), Professor of Humanities and Religious Studies, HRS,B.A., Bloomfield College; M.A., Seton Hall University; Ph.D., Fordham University
- JENSEN, MIKKEL (2015), Assistant Professor of Physics and Astronomy, PHYS,B.S., University of Southern Denmark; M.A., Ph.D., Boston University
- JENSEN, DONNA (2014), Assistant Professor of Gerontology, GERO,PhD, Fielding Graduate University; MSW, California State University, Sacramento; MA, Fielding Graduate University; BSW California State University, Chico
- JEZ, SU JIN (2009), Associate Professor of Public Policy and Administration, PPA,B.A., University of California, Berkeley; M.A., Ph.D., Stanford University
- JIN, YING (2004), Professor of Computer Science, CSC,B.E., Tianjin University, Tianjin, China; M.E., Northeastern University, Shenyang, China; Ph.D., Arizona State University, Tempe
- JOHNSTON, JANIS (2014), Assistant Professor of Theatre and Dance, THEA,B.A Humboldt State University, Arcata CA; MFA University of Washington, Seattle, WA
- JOHNSTON, JOHN (1997), Professor of Civil Engineering, CE,B.S., M.S., Stanford University; Ph.D., University of California, Davis; California Registered Civil Engineer
- JONES, MARLYN (2001), Professor of Criminal Justice, CRJ,B.A., M.A., and Ph.D., Simon Fraser University, Burnaby, British Columbia
- JONES, CARA (2017), Assistant Professor of Women's Studies, WOMS,B.S., Rochester Institute of Technology, B.A., Mansfield

University of Pennsylvania, M.A., Louisiana State University, Ph.D., Louisiana State University

- JOO, HyunGyung (2017), Assistant Professor of Education, Graduate and Professional Studies in Education; Program Co-Coordinator, School Counseling, GPSE,B.E., M.Ed., Seoul National University of Education; Ph.D., The Pennsylvania State University
- JORGENSEN-EASTERLA, LISA J. (2007), Professor of Recreation, Parks and Tourism Administration, RPTA,B.S., M.A., California State University, Chico; Ph.D., University of Utah
- JOSEPHSON, TRISTAN (2014), Assistant Professor of Women's Studies, WOMS,B.A. University of Puget Sound; M.A. San Francisco State University; Ph.D. University of California, Davis.

K

- KANG, MINJEONG (2009), Associate Professor of Family and Consumer Sciences, FACS,B.A., Ewha Women's University, Seoul, Korea; M.S., Ph.D., University of Minnesota, St. Paul
- KAPLAN, JONATHAN (2003), Professor of Economics; Graduate Program Coordinator, ECON,B.A., Humboldt State University; M.S., University of Maine; Ph.D., University of California, Davis
- KARAS, STEPHANIE (2017), Assistant Professor of Criminal Justice, CRJ,B.A. California State University, Chico; M.A. Boise State University; ABD (Ph.D. expected 2017) Sam Houston State University
- KASIC, KATHY (2018), Assistant Professor of Communication Studies, COMS,B.S., The University of Texas; M.A., The University of Texas; M.F.A., Montana State University
- KASIMATIS, ELAINE A. (1995), Professor of Mathematics, MATH,B.S., M.A., Ph.D., University of California, Davis
- KAUTZMAN, AMY (2015), Librarian; Dean, University Library, SPB.A., University of Minnesota; M.S.L.S., Simmons College; M.A., Northeastern University
- KAZEMIFAR, FARZAN (2014), Assistant Professor of Mechanical Engineering, ME,B.S., Sharif University of Technology, Tehran, Iran; M.S., Ph.D. University of Illinois at Urbana-Champaign
- KEEGAN, RICHARD (2013), Assistant Professor of Nursing, NURS,B.S.N., University of Portland; M.Ed., National University; M.S.N., California State University, Sacramento; D.N.P., University of San Francisco
- KELLEN-YUEN, CYNTHIA (2001), Professor of Chemistry, CHEM,B.A., Gustavus Adolphus College; Ph.D., Stanford University
- KELLY, KATHERINE (2005), Associate Professor of Nursing, NURS,B.S.N., California State University, Los Angeles; M.S.N., F.N.P., University of Reno and Orvis School of Nursing Graduate School; DNP, University of Colorado
- KENNEDY, ROBIN (1999), Professor of Social Work, SWRK,B.A., Stephen F. Austin State University; M.S., University of North Texas; M.S.S.W., University of Texas-Austin; Ph.D., University of Texas-Austin
- KHAN, GHAZAN (2013), Assistant Professor of Civil Engineering, CE,B.S. N.W.F.P., University of Engineering and Technology Peshawar; M.S., Ph.D., University of Wisconsin, Madison

- KIM, EUISUK (2014), Professor of Spanish, WLL,B.A., Korea University; M.A., Pontificia Universidad Javeriana; Ph.D., University of Minnesota
- KIM-JU, GREGORY (2003), Professor of Psychology, PSYC,B.A., St. John's University; M.A., Ph.D., Boston College
- KIRVAN, CHRISTINE A. (2003), Professor of Biological Sciences, BIO,B.S., California State University, Fresno; M.S., Ph.D., University of California, Davis
- KITKA, CLAUDIA (1974), Professor of Music, MUSC,B.A., Duke University; M.M., Eastman School of Music, University of Rochester, New York
- KIVEL, B. DANA (2003), Professor of Recreation, Parks and Tourism Administration; Director, Community Engagement Center, RPTA,B.A., University of Wisconsin; M.S., San Francisco State University; Ed.D., University of Georgia
- KLUCHIN, REBECCA (2005), Professor of History; Director, Graduate Studies, HIST,B.A., Washington University; M.A., Ph.D., Carnegie Mellon University
- KNEITEL, JAMIE M. (2004), Professor of Biological Sciences, BIO,B.A., University of California, Santa Cruz; M.S., California State University, Northridge; Ph.D., Florida State University
- KNIFSEND, CASEY (2014), Assistant Professor of Psychology, PSYC,B.S., University of California, Davis; M.A., Ph.D., University of California Los Angeles
- KOCH, TODD (2004), Lecturer of Education, Graduate and Professional Studies in Education, GPSE,B.A., M.S., California State University, Sacramento; Ph.D., University of Arizona
- KOCHIS, MARIA (1999), Librarian, Reference, SPB.A., St. Mary's College; M.L.S., University of Pittsburg
- KOMIYAMA, REIKO (2009), Associate Professor of English, ENGL,B.A., Rikkyo (St. Paul's) University, Tokyo, Japan; M.A., Ohio University; Ph.D., Northern Arizona University
- KOSS, CATHERYN (2017), Assistant Professor of Gerontology, GERO,PhD, University of Kansas, Lawrence, KS; JD, Oklahoma City University School of Law, Oklahoma City, OK; MA, University of Central Oklahoma, Edmond, OK; BA Smith College
- KRABACHER, THOMAS S. (1988), Professor of Geography; Chair, Department of Geography, GEOG,B.S., M.A., Michigan State University, East Lansing; Ph.D., University of California, Davis
- KRAUEL, MATTHEW (2016), Assistant Professor of Mathematics and Statistics, MATH,B.S., University of California, Los Angeles; M.A., Ph.D. University of California, Santa Cruz
- KRECKMAN, ANDREW (2018), Assistant Professor of Music, MUSC,BME, University of Delaware; MM Michigan State University; DMA Texas Tech University
- KRISTIE, WILLIAM J. (1982), Librarian, Reference, SPB.A., Knox College, Illinois; M.A., M.L.S., University of Illinois, Urbana
- KROVETZ, TED D. (2002), Professor of Computer Science, CSC,B.S., Stanford University, Palo Alto, California; M.S., Oxford University, Oxford, England; Ph.D., University of California, Davis
- KUBICEK, LAURIE (2002), Professor of Criminal Justice, CRJ,B.A., California State University, Stanislaus; J.D., University of the Pacific McGeorge School of Law
- KUEHL-KITCHEN, JULIE M. (2000), Professor of Kinesiology, KINS,B.A., M.A., California State University, Chico; Ph.D., Florida State University, Tallahassee
- KUMAGAI, AKIHIKO (2000), Professor of Mechanical Engineering; Chair, Department of Mechanical Engineering, ME,B.S., M.S., University of Florida, Gainesville, Ph.D., University of Wisconsin, Milwaukee
- KUMAR, PREETHAM (1999), Professor of Electrical and Electronic Engineering, EEE,B.S., M.S., University of Madras, India; Ph.D., Indian Institute of Technology, Madras, India
- ## L
- LAFLEN, ANGELA (2018), Assistant Professor of English, ENGL,B.A., Northern Kentucky University; M.A., Ph.D., Purdue University
- LAGOS, KATERINA (2003), Professor of History, HIST,B.A., University of Washington; M.A., New York University; D.Phil., St. Antony's College, University of Oxford
- LAMBATING, JULITA G. (1997), Professor of Education, Undergraduate Studies in Education, UGSE,B.S., University of San Carlos; M.A., C.A.S., Cebu Normal University; M.S., Ph.D., State University of New York (now Albany State University)
- LANDERHOLM, THOMAS E. (2002), Professor of Biological Sciences, BIO,B.S., Washington State University, Pullman; B.S., Western Washington University, Bellingham; M.S., University of California, Davis; Ph.D., Baylor College of Medicine, Houston
- LANDERS, STEPHANIE (2018), Assistant Professor of Nursing, NURS,B.S.N., California State University, Sacramento; M.S.N., Benedictine University, IL
- LANG, DAVID (2002), Professor of Economics; Chair, Department of Economics, ECON,B.A., Stanford University; M.A., Ph.D., Washington University
- LAPORTE, CARRIE (2002), Lecturer of English, ENGL,B.A, Cal State Stanislaus; M.A., Brigham Young
- LAPP, NANCY D. (1998), Professor of Political Science, POLS,B.A., California State University, Chico; M.A., Ph.D., University of California, Los Angeles
- LARDY, CORINNE (2017), Assistant Professor of Education, Teaching Credentials, TC,B.A., Columbia University; M.A., San Jose State University; Ph.D., University of California, San Diego
- LARSEN, LESLIE K. (2016), Assistant Professor of Kinesiology, KINS,B.A., B.S., Arkansas State University, Jonesboro; M.S., Georgia Southern University, Statesboro; Ph.D., University of Tennessee, Knoxville
- LASCHER, JR., EDWARD L. (1996), Professor of Public Policy and Administration, PPA,B.A. Occidental College; M.A., Ph. D. University of California, Berkeley
- LAWSON, NICOLE (2016), Librarian; Associate Dean for Academic Services, University Library, SPB.A. University of Delaware; M.L.I.S., Drexel University

- LAZARIDIS, NIKOLAOS (2009), Associate Professor of History, HIST,B.A., American University, Cairo; M.Phil., D.Phil., University of Oxford
- LAZARO, ROLANDO (2017), Associate Professor of Physical Therapy, PT,B.S., University of the Philippines, Manila; M.S., University of the Pacific, Stockton, CA; D.P.T., Creighton University, Omaha, NE; Ph.D., Touro University International, Cypress, CA
- LEE, HELLEN (2006), Professor of English, ENGL,B.A., University of California, Santa Cruz; B.A., University of California, Irvine; M.A., California State University, Dominguez Hills; Ph.D., University of California, San Diego
- LEE, JAI JOON "JAY" (2007), Professor of Strategic Management, BUS,B.S., Purdue University, M.B.A., University of Rochester; Ph.D. University of Pittsburg
- LEE, LYNETTE (1990), Professor of Criminal Justice, CRJ,B.A., M.A., Ph.D., Washington State University
- LEE, SERGE C. (2000), Professor of Social Work, SWRK,B.S., University of Utah, Salt Lake; M.S.W., California State University, Sacramento; Ph.D., University of Washington, Seattle
- LEE, YOUNG-IM (2017), Assistant Professor of Political Science, POLS,B.A., Sogang University, Seoul, Korea; M.A., Ph.D., University of Missouri, St. Louis
- LEITNER, RONA (1991), Lecturer of Education, Graduate and Professional Studies in Education, GPSE,B.S., M.Ed., University of Illinois; Ed.D., University of San Francisco
- LESLIE, ANGELA (2016), Assistant Professor of Education, Undergraduate Studies in Education, UGSE,B.A., M.A., California State University, Sacramento; Ed.D., University of San Francisco
- LEWIS, MIMI (2005), Lecturer of Social Work, SWRK,B.A., University of California, Davis; M.S.W., Arizona State University
- LI, MIN (2002), Associate Professor of Decision Sciences, BUS,B.A., Hanover College; Ph.D., University of Cincinnati
- LI, YANG (2013), Assistant Professor of Operations Management, BUS,B.A., Beijing University of Technology; M.S., The Graduate School of Chinese Academy of Sciences; Ph.D., Duke University
- LI, HERMAN (2017), Assistant Professor of Economics, ECON,B.A., University of Pennsylvania; Ph.D., The Pennsylvania State University
- LILES-LOURICK, ELISABETH (2009), Associate Professor of Education, Graduate and Professional Studies in Education; Chair, Graduate and Professional Studies in Education, GPSE,B.A., M.A., Ph.D., University of Nevada, Reno
- LILLY, FRANK (2003), Professor of Education, Graduate and Professional Studies in Education, GPSE,B.A., M.A., University of Central Oklahoma; Ph.D., McGill University, Montreal
- LIM, BRIAN S. (1998), Professor of Education, Teaching Credentials, TC,B.A., Central Washington University, Ellensburg; M.Ed., Ph.D., University of Washington, Seattle
- LIN, ERIC C. (2007), Professor of Finance, BUS,B.S., Xavier University; M.B.A., Kansas State University; Ph.D., University of North Texas
- LIN, HAO (2006), Professor of Finance, BUS,B.B., Nanyang Technological University; M.S., Ph.D., University of Warwick, UK
- LINDGREN, SUSANNE W. (1997), Professor of Biological Sciences, BIO,B.S., Muhlenberg College, Allentown, PA; Ph.D., Uniformed Services University of the Health Sciences, Bethesda, MD
- LINDSAY, ANNE (2015), Assistant Professor of History; Director, Public History Program, HIST,B.A. Arizona State University; M.A., Ph.D., University of California, Riverside
- LINDSAY, BRENDAN (2013), Assistant Professor of History, HIST,B.A. California State Polytechnic University, Pomona; M.A., Ph.D., University of California, Riverside
- LINVILLE, CYNTHIA (2000), Lecturer of English, ENGL,B.A., M.A., California State University, Sacramento
- LIU, HSIANG "Sean" (2007), Lecturer of English, ENGL,M.A., California State University Sacramento; M.A., Fu-Jen Catholic University
- LIU, CAIXING (2004), Professor of Accountancy, BUS,B.A., M.S., Peking University; Ph.D., University of Hawaii
- LIU, FENG "Oliver" (2010), Associate Professor of Marketing, BUS,B.A., Shandong University (China); M.A., University of Wisconsin-Milwaukee; Ph.D., University of Wisconsin-Milwaukee
- LIU, LAN (2008), Associate Professor of Finance, BUS,B.Bus., Nanyang Technological University, Singapore; M.S., Ph.D., University of Warwick, UK; C.F.A.
- LIU, QIAOMING AMY (1997), Professor of Sociology, SOC,B.A., Zhengzhou University, People's Republic of China; M.S., Portland State University, Oregon; Ph.D., Iowa State University, Ames
- LOEZA, PORFIRIO (2001), Professor of Education, Teaching Credentials, TC,B.A., M.A., Ph.D., University of California, Berkeley
- LOJO, MAUREEN (2000), Professor of Operations Management, BUS,B.A., University of California, Berkeley; M.S., Yale University; Ph.D., M.I.T.
- LOVING, RUSSELL (2006), Assistant Professor of Criminal Justice, CRJ,B.A., California State University, San Jose; J.D., University of California, Davis
- LOZANO, ALBERT S. (2003), Professor of Education, Graduate and Professional Studies in Education; Program Coordinator, Multicultural Education, GPSE,B.A., University of California, Berkeley; M.A., California State University, San Bernardino; Ph.D., Stanford University
- LU, MEILIU (1987), Professor of Computer Science, CSC,B.S., University of Nanjing, China; M.S., Ph.D., University of Illinois, Chicago
- LU, BIN (2003), Professor of Mathematics and Statistics, MATH,B.S., Xi'an University of Technology; M.S., Tennessee Tech University; M.S., Ph.D., Louisiana State University
- LUCERO, CLAUDIA (2008), Associate Professor of Chemistry, CHEM,B.S., University of California, Berkeley; Ph.D., University of California, Irvine
- LUCHANSKY, ANDREW (1999), Professor of Music, MUSC,B.M., New England Conservatory, Boston, Massachusetts; M.M., State University of New York, Stony Brook
- LUDWIG, MARK D. (2002), Professor of Communication Studies, COMS,B.S., University of Illinois at Urbana-Champaign; M.A.,

- California State University, Fullerton, Ph.D. Claremont Graduate University
- LUNA-GORDINIER, ANNE (2015), Assistant Professor of Sociology, SOC,B.A., University of California, Berkeley; J.D./M.A., University of Arizona; Ph.D., Howard University
- LUNDMARK, JENNIFER ANN (1996), Professor of Biological Sciences, BIO,B.S., Ph.D., University of California, Davis
- LUPO, M. SCOTT (2006), Full-time Temporary, HIST,B.A., University of Louisiana, Monroe; M.A., University of Texas, Tyler; M.A., Fuller Theological Seminary; Ph.D., University of Nevada, Reno
- LUVAAS, ERIK (2018), Assistant Professor of Recreation, Parks and Tourism Administration, RPTA,B.S., University of Idaho; M.A., CSU, Chico; Ph.D., University of Idaho
- ## M
- MA, YINFA (2018), Professor of Chemistry; Associate Dean, College of Natural Sciences and Mathematics, CHEM,B.S., Zhengzhou University; Ph.D., Iowa State University
- MACK, JEFF (2005), Lecturer of Chemistry, CHEM,B.S., California Polytechnic State University, San Luis Obispo; Ph.D., University of California, Santa Barbara
- MacLEOD, TORAN (2014), Assistant Professor of Physical Therapy, PT,B.S., California State University, San Jose; M.S., M.P.T., California State University, Sacramento; Ph.D., University of Delaware, Newark
- MAHMOOD, RAMZI J. (2006), Professor of Civil Engineering; Director, Office of Water Programs, CE,B.S., University of Baghdad; M.S. (Environmental Engineering), M.S. (Mathematics), Ph.D., Utah State University; California Registered Civil Engineer; EMP, Stanford University
- MAHR, MICHELE (2017), Assistant Professor of Education, Graduate and Professional Studies in Education; Program Coordinator, Rehabilitation Counseling, GPSE,B.A., Hunter College; M.S. UNC-Chapel Hill; Ph.D. University of Wisconsin, Madison
- MALROUTU, YAMINI LAKSHMI (2001), Professor of Family and Consumer Sciences, FACS,B.Ed., Jadavpur University, Calcutta, India; M.S., Ph.D., Oregon State University
- MALVINI REDDEN, SHAWNA (2016), Assistant Professor of Communication Studies, COMS,B.A., Walla Walla University; M.A. California State University, Sacramento; Ph.D., Arizona State University
- MANSYUR, CAROL L. (2017), Assistant Professor of Health Science, HLSC,B.S., M.A., University of Houston; Ph.D., University of Texas
- MARBACH, TIMOTHY L. (2005), Associate Professor of Mechanical Engineering, ME,B.S., St. Mary's University, San Antonio, Texas; M.S., Ph.D., University of Oklahoma, Norman
- MARGONINER, VERA (2007), Associate Professor of Physics and Astronomy, PHYS,B.S., Universidade de Sao Paulo, Brazil; Ph.D., Observatorio Nacional, Brazil
- MARK, GREGORY (2001), Professor of Ethnic Studies, ETHN,B.A., M.A., D.Crim., University of California, Berkeley
- MARKOVIC, MILICA (2003), Professor of Electrical and Electronic Engineering, EEE,B.S., Belgrade University, Yugoslavia; M.S., Ph.D., University of Colorado, Boulder
- MARSHALL, RACHAEL (2018), Assistant Professor of Education, Graduate and Professional Studies in Education, GPSE,B.A., University of Tennessee, Knoxville; M.S., Lipscomb University; Ph.D., University of Tennessee, Knoxville
- MARTIN, DANIELLE J. (2014), Assistant Professor of Political Science, POLS,B.A., Gonzaga University; M.A., Ph.D., University of California, Davis
- MARTINEZ, ROSA (2016), Assistant Professor of English, ENGL,B.A., M.A., California State University, Chico; Ph.D., University of California, Berkeley
- MARTINEZ, KATHERINE R. (1993), Lecturer of Recreation, Parks and Tourism Administration, RPTA,B.S., University of Maryland, England; M.S., California State University, Sacramento
- MASUYAMA, KAZUE (2003), Professor of Japanese, WLL,B.A., M.A., University of Oregon; Ph.D., State University of New York
- MATSUMOTO, ERIC E. (1994), Professor of Civil Engineering, CE,B.S., M.Eng., Cornell University, Ph.D., University of Texas at Austin
- MATTERN-BAXTER, KATRIN (2012), Associate Professor of Physical Therapy, PT,International Baccalaureate, M^{rike} Gymnasium, G^{ppingen}, Germany; Licensed P.T., Albert-Ludwig University, Freiburg, Germany; D.P.T., A.T. Still University, Arizona
- MATTHEUS, CHARL (2017), Assistant Professor of Health Science, HLSC,B.S., M.B.A., Indiana Wesleyan University; D.B.A., Walden University
- MATTHEWS, THOMAS W. (1999), Professor of Electrical and Electronic Engineering, Chair, Department of Electrical and Electronic Engineering, EEE,B.S., M.S., California State University, Sacramento; Ph.D., University of California, Davis
- MAYBERRY, MARIA (2006), Professor of Spanish, WLL,B.A., Itesm, Mexico; B.A., M.A., Ph.D., University of Texas at Austin
- MAYES, G. RANDOLPH (2001), Professor of Philosophy, PHIL,B.A., University of California at Santa Cruz; Ph.D., University of Texas at Austin
- McCARTHY HINTZ, MARY (1998), Professor of Chemistry, CHEM,B.A., California State University, Fullerton; B.S., M.S., University of West Florida; Ph.D., University of California, Davis
- MCCLELLAN, SAMANTHA (2018), Senior Assistant Librarian, Instruction Coordinator, SPB.A., University of North Carolina, Chapel Hill; M.L.S., Indiana University
- MCCLELLAN, SARA E. (2018), Assistant Professor of Public Policy and Administration, PPA,B.A., California State University, Monterey Bay; M.P.A., University of Southern California; Ph.D., University of Colorado at Boulder
- MCCORMICK, MATTHEW S. (2003), Professor of Philosophy, PHIL,B.A., Missouri Southern State College; M.A., Ph.D., University of Rochester

- MCDONALD, KELLY (2009), Associate Professor of Biological Sciences, BIO,B.S., Ph.D., University of Florida
- McKEOUGH, D. MICHAEL (2006), Professor of Physical Therapy; Chair, Department of Physical Therapy, PT,B.S., M.S., University of New Mexico; B.S., Medical College Georgia; ME.d., Ed.D., Columbia University
- McKINNEY, JOSHUA B. (1999), Professor of English; Creative Writing Coordinator, ENGL,B.A., M.A., Humboldt State University; Ph.D., University of Denver
- McREYNOLDS, KATHERINE (2001), Professor of Chemistry, CHEM,B.S., California Polytechnic State University, San Luis Obispo; M.A., Ph.D., University of Arizona
- McTERNAN, MELISSA (2017), Assistant Professor of Psychology, PSYC,B.S., University of Mary Washington; Ph.D., University of California, Davis
- MEDURI, PRAVEEN (2017), Assistant Professor of Electrical and Electronic Engineering, EEE,B.Tech., Jawaharlal Nehru Technological University; M.S., Southern Illinois University, Carbondale; Ph.D., Old Dominion University, Norfolk
- MERAYYAN, SAAD (2000), Professor of Civil Engineering, CE,B.S.C.E., Jordan University of Science and Technology, Irbid, Jordan; M.S.C.E., University of Missouri-Columbia; Ph.D., Wayne State University, Detroit, Michigan
- MERLINO, SCOTT A. (2001), Lecturer of Philosophy, PHIL,B.A.S., M.A., Ph.D., University of California, Davis
- MERRIAM, GARRET (2017), Assistant Professor of Philosophy, PHIL,B.A., University of California, Davis; M.A., Ph.D., Rice University
- MERRIFIELD, EMILY (2016), Senior Assistant Librarian, Reference, SPB.A., California State University, Long Beach; M.L.I.S., San Jose State University
- MERRILL, MARCY (2002), Professor of Education, Teaching Credentials, TC,B.A., University of Wisconsin, Madison; M.A., Ph.D., University of Virginia, Charlottesville
- METZ, SUSAN (2008), Associate Professor of Music, MUSC,B.M.E., Capital University, Ohio; M.M., University of San Francisco
- METZGER, DEBORAH A. (1988), Librarian, Reference, SPB.S., A.M.L.S., University of Michigan, Ann Arbor
- MEYERS, LAWRENCE S. (1970), Professor of Psychology, PSYC,B.S., Brooklyn College; Ph.D., Adelphi University; N.S.F. Postdoctoral Fellow
- MICHAEL, BONIFACE (2008), Associate Professor of Human Resources Management, BUS,B.A., Delhi University, India; M.B.A., Foundation of Organizational Research and Education, India; Ph.D., Rutgers, The State University of New Jersey
- MICHAELS, ANN (2007), Lecturer of English, ENGL,B.A., M.A., California State University, Sacramento
- MICHALS, ELISA (2002), Professor of Education, Teaching Credentials, TC,B.A., M.Ed., Ph.D., University of British Columbia, Vancouver
- MICKEL, AMY E. (2000), Professor of Human Resources Management, BUS,B.A., University of California, Los Angeles; Ph.D., University of Washington
- MIGLIACCIO, TODD (2002), Professor of Sociology, SOC,B.A., University of California, San Diego; M.A., Ph.D., University of California, Riverside
- MIGUEL, CAIO F. (2006), Professor of Psychology, PSYC,B.A., Pontificia Universidade Catolica de Sao Paulo, SP, Brazil; M.A., Ph.D., Western Michigan University, Kalamazoo
- MIKAL-FLYNN, JOYCE (2005), Professor of Nursing, NURS,B.S.N., University of San Francisco; M.S.N., California State University, Sacramento; Ed.D., St. Mary's College, California
- MIKHAILITCHENKO, ANDREY (2009), Associate Professor of Marketing, BUS,BA, Moscow State University Institute of Afro-Asian Studies; M.B.A, Syracuse University, New York; D.B.A., Cleveland State University
- MILLER, RACHEL (2016), Assistant Professor of Art, ART,B.A., Kenyon College, Gambier, OHM.A., University of Pittsburgh, Pittsburgh, PAPH.D., University of Pittsburgh, Pittsburgh, PA
- MILLER, CHRISTINE (1987), Professor of Communication Studies; Interim Vice Provost (Strategic Services), COMS,B.A., University of Oregon; M.S., Southern Illinois University, Carbondale; Ph.D., Pennsylvania State University
- MILLER-SCHULZE, JUSTIN (2014), Assistant Professor of Chemistry, CHEM,B.S., University of California, San Diego; Ph.D., University of Washington
- MINK, MICHAEL D. (2018), Assistant Professor of Health Science; Chair, Department of Health Science, HLSC,B.A. College of William and Mary; M.P.A. University North Carolina; Ph.D. University of South Carolina
- MIRANDA, JAMES (2006), Professor of Chemistry, CHEM,B.S., California Polytechnic State University, San Luis Obispo; Ph.D., University of California, Santa Barbara
- MITCHELL, REBECCA (1995), Lecturer of English, ENGL,B.A., M.A., California State University, Sacramento
- MIZRAHI, STEPHANIE (2009), Associate Professor of Criminal Justice, CRJ,B.S. University of the Pacific; J.D., McGeorge School of Law; M.A., Washington State University
- MOHAPATRA, PARTHA (2017), Assistant Professor of Accountancy, BUS,B.S., National Institute of Technology; MBA, Xavier University; Ph.D., University of Kentucky
- MONI, SUJATHA (2009), Associate Professor of Women's Studies; Chair, Department of Women's Studies, WOMS,B.A., M.A., M.Phil., University of Madras, Chennai, India; Ph.D. Rutgers University, New Jersey.
- MONICAL, SALLY K. (2007), Lecturer of Kinesiology, KINS,B.S., M.S., California State University, Sacramento
- MONTEITH, TOM (2002), Professor of Art, ART,B.A., University of California, Berkeley; M.A., California State University, Sacramento; M.F.A., University of Illinois, Urbana-Champaign

- MONTGOMERY, CHRISTINE LUPO (2017), Assistant Professor of English, ENGL,B.A., Santa Clara University; Ph.D., UC Santa Cruz
- MOORE, DAVID (2011), Associate Professor of Finance, BUS,B.S., Purdue University; M.B.A., Arizona State University, Ph.D., University of Tennessee
- MOORE, BRIAN (2015), Assistant Professor of Physical Therapy, PT,B.S., Allegheny College, Pennsylvania; D.P.T., Emory University, School of Medicine, Georgia
- MOORE, ANDREA (2015), Assistant Professor of Ethnic Studies, ETHN,B.A., M.A., Ph.D., University of California, Davis
- MORALES, SYLVIA (2006), Lecturer of English, ENGL,B.A., M.A., California State University, Sacramento
- MORENO, JESSICA (2017), Assistant Professor of Education, Graduate and Professional Studies in Education, GPSE,B.A., M.S., California State University, Chico; DMFT, Loma Linda University
- MORRIS, BARBARA (2003), Lecturer of Mathematics and Statistics, MATH,B.A., M.A., California State University, Sacramento
- MORRIS, ELIZA (2018), Assistant Professor of Physics and Astronomy, PHYS,B.S., California State University, Sacramento; Ph.D. Harvard University
- MORRIS, PATRICIA (2015), Assistant Professor of Sociology, SOC,B.A., Rhodes College; M.A., Ph.D., Northeastern University, Boston
- MORRISON, ALEXANDRA (2017), Assistant Professor of Psychology, PSYC,B.A., Colby College; M.A., Ph.D., Temple University, Philadelphia
- MORSE, MATTHEW (2017), Assistant Professor of Music, MUSC,B.A. Thomas Edison State University, New Jersey; M.A. Indiana University of Pennsylvania; D.M.A. University of North Texas
- MOSS, JOSHUA (2014), Assistant Professor of Physics and Astronomy, PHYS,B.S., Hiram College; M.S., Ph.D., College of William and Mary
- MOSUPYOE, BOATAMO (2003), Professor of Ethnic Studies; Director, Cooper-Woodson College Enhancement Program; Chair, Department of Ethnic Studies, ETHN,B.A., University of the North, South Africa; M.A., Ph.D., University of California, Berkeley
- MOTLAGH, AMIR (2017), Assistant Professor of Civil Engineering, CE,B.S. Shiraz University, M.S. University of Toledo, Ph.D. University of Utah
- MOTT, JOANNA (2017), Professor of Biological Sciences; Dean, College of Natural Sciences and Mathematics, BIO,B.Sc. University of Aston; M.Sc. University of Waterloo; Ph.D. Texas A&M University
- MOYLAN, J. ANN (1987), Professor of Family and Consumer Sciences, FACS,B.A., Wake Forest University, Winston-Salem, North Carolina; M.S., Purdue University; Ph.D., The University of Georgia
- MUBAKO, GRACE (2018), Assistant Professor of Accountancy, BUS,B.A., ACCA (Glasgow), M.S., Ph.D. Southern Illinois University, Carbondale
- MULASI, URVASHI (2016), Assistant Professor of Family and Consumer Sciences; Director, Didactic Program in Dietetics, FACS,B.A., M.S., Ph.D., University of Minnesota
- MULLIGAN, KIMBERLY (2015), Assistant Professor of Biological Sciences, BIO,B.S., UC San Diego; Ph.D. Stanford University
- MURPHY, LIAM (2002), Professor of Anthropology, ANTH,B.A., Saint Mary's University; M.A., The University of Calgary; Ph.D., Yale University
- MUYAN-OZCELIK, PINAR (2014), Assistant Professor of Computer Science, CSC,B.S., Ege University, Izmir, Turkey; M.S., University of British Columbia, British Columbia; Ph.D., University of California, Davis
- ## N
- NAKAOKA, SUSAN (2018), Assistant Professor of Social Work, SWRK,B.A., Sociology & History, M.S.W., & Ph.D. Urban Planning, University of California, Los Angeles

- WRIGHT, T. MICHAEL (2016), Assistant Professor of Biological Sciences, BIO,B.S., M.S., CSU San Marcos; Ph.D. Emory University
- WU, BOHSIU (1998), Professor of Sociology; Chair, Department of Sociology, SOC,B.A., Fu-Jen Catholic University; M.A., Ph.D., Bowling Green State University
- WYCOFF, SUSAN E. (1997), Professor of Education, Graduate and Professional Studies in Education, GPSE,B.A., M.S., California State University, Sacramento; Ph.D., University of New Mexico, Albuquerque
- ## X
- XIONG, YAN (2002), Professor of Accountancy, BUS,B.S., Hunan Institute Finance and Economics; M.S., Xiamen University; M.S., Ph.D., Washington State University
- ## Y
- YANG, JINGWEI (2018), Assistant Professor of Computer Science, CSC,B.S., Zhejiang University, China; M.E. Tsinghua University, China; Ph.D. Iowa State University, Iowa
- YAZDANI, ATOUSA (2015), Assistant Professor of Electrical and Electronic Engineering, EEE,B.Sc. Tehran University; M.Sc., Tehran Polytechnics University; Ph.D., Missouri University of Science and Technology, Rolla
- YE, YUAN (2018), Assistant Professor of Operations Management, BUS,B.S., M.S., Central China Normal University, M.S. Georgia Southern University, Ph.D. University of Houston
- YEN, JULIE W. (1991), Professor of English, ENGL,B.A., National Taiwan University; M.A., Ph.D., Brown University, Rhode Island

YOUNG, BRITTANY (2019), Assistant Professor of Psychology, PSYC,B.S., California State University, San Marcos; M.S., Ph.D., University of California Santa Cruz

YUEN, FRANCIS K.O. (1999), Professor of Social Work, SWRK,M.S.W., The University of Alabama, Tuscaloosa; D.S.W., The University of Alabama, Tuscaloosa

Z

ZABIHIAN, FARSHID (2011), Assistant Professor of Mechanical Engineering, ME,B.S., Amirkabir University of Technology, Tehran, Iran; M.S., Iran University of Science and Technology, Tehran, Iran; Ph.D., Ryerson University, Toronto, Ontario, Canada

ZARCHY, LEAH (2016), Assistant Professor of Education, Undergraduate Studies in Education, UGSE,B.S., New Mexico University; M.A., Gallaudet University; Ph.D., The University of Texas at Austin

ZARGHAMI, MAHYAR (2011), Associate Professor of Electrical and Electronic Engineering, EEE,B.S., K.N. Toosi University of Technology, Tehran, Iran; M.S., Sharif University of Technology, Tehran, Iran; Ph.D., Missouri University of Science and Technology, Rolla

ZARINS, KIM (2009), Associate Professor of English, ENGL,B.A., University of California Los Angeles; M.A., Ph.D., Cornell University;

ZEANAH, DAVID W. (1999), Professor of Anthropology, ANTH,B.A., University of Alabama, Tuscaloosa; Ph.D., University of Utah, Salt Lake City

ZEIGLER, DAVID (2003), Professor of Mathematics and Statistics; Chair, Department of Mathematics and Statistics, MATH,B.A., University of California, Berkeley; M.S., Ph.D., Texas A&M University

ZHANG, JIN (2008), Associate Professor of Accountancy, BUS,M.S., Ph.D., University of Texas, Dallas

ZHANG, CUI (1996), Professor of Computer Science; Chair, Department of Computer Science, CSC,B.S., M.S., Ph.D., Nanjing University, China

ZHANG, BIN (2003), Librarian, Digital Information Services Librarian, SPB.S., Xinjiang Agricultural University; M.L.I.S., University of Hawaii at Manoa

ZHONG, JIANYUAN KATHY (2003), Professor of Mathematics and Statistics, MATH,B.S., Beijing University; M.S., Ph.D., Louisiana State University

ZHOU, DONGMEI (2005), Professor of Mechanical Engineering, ME,B.S., M.S., University of Shanghai for Science & Technology; Ph.D., University of Texas at Austin

ZHOU, JIAN-ZHONG (JOE) (2000), Librarian, Head of Reference, SPB.S., Physics, Beijing Normal University, China; M.L.I.S., Dominican University, River Forest, IL.; M.B.A., University of Delaware, Newark

ZHOU, YAN (2006), Professor of Economics, ECON,B.A., M.A., Renmin University of China; M.A., Ph.D., University of California, Santa Cruz

ZUCKER, LAUREL L. (1988), Professor of Music, MUSC,B.M., Juilliard School, New York; M.A., New York University

ZUCKERMAN, S. DAVID (2003), Professor of Communication Studies, COMS,B.A., California Polytechnic State University, Pomona; M.A., California State University, Los Angeles; Ph.D., University of Oklahoma

FACULTY EMERITI

A

ADAMS, RICHARD M. (1986), Professor of English Emeritus (2006)

ADAMS, LORNA (1967), Professor of Music Emeritus (1992)

ADDICOTT, JOHN P. (1974), Professor of Speech Pathology and Audiology Emeritus (2004)

AGOSTA, LUCIEN L. (1987), Professor of English Emeritus (2005)

AICHELE, ROBERT E. (1969), Professor of Music Emeritus (1983)

AL-KAZILY, JOAN (1984), Professor of Civil Engineering Emeritus (2002)

ALEXANDER, ELAINE E. (1974), Professor of Mathematics and Statistics Emeritus (2009)

ALLEN, ADINA (1967), Professor of Social Work Emeritus (1986)

ALLEN, KATE M. (1989), Associate Professor of Social Work Emeritus (1999)

ALVAYAY, JAIME R. (1991), Professor of Real Estate and Land Use Affairs Emeritus (2016)

AMOS-WAGNER, GWEN (1987), Professor, Department of Design, Graphic Design Program Emeritus (2014)

AMUNDSEN, KIRSTEN (1969), Professor of Political Science Emeritus (1992)

ANDERSON, LEE (1970), Professor of Design Emeritus (2000)

ANDERSON, CLIFFORD E. (1969), Professor of Philosophy Emeritus

ANDREWS, E. EARL (1956), Professor of Home Economics Emeritus (1979)

ANTALOCY, STEPHANIE (1972), Professor of English Emeritus (2005)

ARELLANES, ROBERT V. (1970), Professor of Economics and Ethnic Studies Emeritus and Dean of Regional and Continuing Education Emeritus (1997)

ARMSTRONG, TROY L. (1987), Professor of Anthropology Emeritus (2005)

ARNOLD, BRIGHAM A. (1954), Professor of Geography Emeritus (1987)

ASTON, DUANE RALPH (1968), Professor of Physics and Astronomy Emeritus (1997)

AVENDANO, FAUSTO (1973), Professor of Spanish and Portuguese Emeritus (2005)

AVERY, WILLIAM E. (1998), Professor of Biological Sciences Emeritus (2018)

B

BAAD, MICHAEL F. (1969), Professor of Biological Sciences Emeritus (2003)

BALACHANDRA, JOHN C. (1984), Professor of Electrical and Electronic Engineering Emeritus (2010)

BALANTAC, DEANNA D. (1974), Professor of Nursing Emeritus (2000)

BALL, JOYCE (1980), Dean and University Librarian Emeritus (1987)

BALLARD, RUTH E. (1998), Professor of Biological Sciences Emeritus (2016)

BALLARD-ROSA, MAURINE (1988), Professor of Education Emeritus

BANDY, RABINDRANATH (1985), Professor of Mechanical Engineering Emeritus (2012)

BANKOWSKY, RICHARD J. (1959), Professor of English Emeritus (1997)

BARAKATT, EDWARD T. (1997), Professor of Physical Therapy Emeritus

BARNES, GENE A. (1967), Professor of Physics and Astronomy Emeritus (1992)

BARNES, CAROLE W. (1964), Professor of Sociology; Director, Institute for Social Research Emeritus (2000)

BARRENA, JUANITA (1975), Professor of Biological Sciences Emeritus(2011)

BARTEE, BARBARA (1956), Professor of Physical Education Emeritus (1992)

BASGALL, MARK E. (1995), Professor of Anthropology Emeritus (2014)

BATT, FRED (1988), Librarian, Reference Emeritus (2011)

BAUERLY, JOAN L. (1974), Professor of English Emeritus (2001)

BAY, RICHARD J. (1982), Professor of Theatre and Dance Emeritus (2006)

BEARD, DORIS M. (1961), Professor of Family and Consumer Sciences Emeritus (1999)

BECKER, RONALD W. (1971), Professor of Electrical and Electronic Engineering Emeritus (2004)

BEELICK, SUSAN A. (1988), Humanities Reference Librarian Emeritus (2000)

BELL, DAVID HARTMAN (1973), Professor of English Emeritus (2005)

BENES, ELINOR S. (1969), Professor of Biological Sciences Emeritus (1988)

BERGQUAM, JAMES BRYAN (1968), Professor of Mechanical Engineering Emeritus (2005)

BERTONASCO, MARC F. (1964), Professor of English Emeritus (1998)

BEST, THOMAS D. (1980), Professor of Operations Management Emeritus (2000)

BIAGI, SHIRLEY A. (1975), Professor of Communication Studies Emeritus (2005)

BIKLE, BRUCE (2001), Associate Professor of Criminal Justice Emeritus (2011)

BISHARAT, KEITH (1992), Professor of Construction Management Emeritus (2018)

BLACKWELL, FREDERICK W. (1978), Professor of Computer Science Emeritus (1997)

BLANC, MARIO (1990), Professor of Spanish Emeritus (2018)

BLANTON, ANN (2008), Assistant Professor of Communication Sciences and Disorders Emeritus

BOLAR, SALLY (1977), Professor of Recreation and Leisure Studies Emeritus (1991)

BOLAR, MARLIN L. (1962), Professor of Biological Sciences Emeritus (1987)

BOLES, LARRY A. (1999), Professor of Speech Pathology and Audiology Emeritus

BOLTZ, RONALD P. (1972), Professor of Social Work Emeritus (2005)

BORER-SKOV, LONDA L. (1973), Professor of Chemistry Emeritus (2003)

BORUNDA, ROSE (2002), Professor of Education Emeritus

BOSSERT, JOHN M. (1969), Professor of Mathematics and Statistics Emeritus (2000)

BOULGARIDES, LOIS (2012), Lecturer of Physical Therapy Emeritus

BOWLES-OSBORN, KATHLEEN (1991), Professor of Nursing Emeritus (2003)

BOYES, CALVIN R. (1956), Professor of Physical Education Emeritus (1991)

BRADLEY, EDWARD (1983), Professor of Mathematics and Statistics Emeritus (2015)

BRAHAM, MARY L. (1986), Professor of Nursing Emeritus (2005)

BRECHT, H. DAVID (1979), Professor of Accounting Emeritus (2005)

BRIDGES, CLAUDIA (2002), Associate Professor of Marketing Emeritus (2012)

BROCK, RICHARD K. (1977), Professor of Marketing Emeritus (1997)

BROWN, MARGARET CAROL (1973), Professor of Spanish Emeritus (2003)

BROWN, ORIE A. (1973), Professor of Criminal Justice Emeritus (2001)

BUDGE, WILLIAM (1991), Business Reference Librarian Emeritus (2002)

BURGESS, HELENE (1973), Professor of Psychology Emeritus (2006)

BURNETT, NICHOLAS F. (1987), Professor of Communication Studies

BURTON, DUDLEY J. (2002), Professor of Environmental Studies Emeritus (2017)

BUSICK, DEAN (1970), Professor of Theatre and Dance Emeritus (2007)

BUSS, STEVEN E. (1985), Professor of Communication Studies Emeritus (FERP)

BYNUM, JR., WILLIAM A. (1969), Professor of Physical Education Emeritus (1991)

C

CAHILL, PAUL (1990), Professor of Communication Studies Emeritus (2006)

CAJUCOM, EDILBERTO Z. (1973), Professor of Recreation and Leisure Studies Emeritus (2001)

CAKOUROS, ANDONIA (1977), Professor of Theatre and Dance Emeritus (2010)

CALANDRI, KEVIN (1979), Professor of Economics Emeritus (2003),

CALDERONE, JULIUS (1965), Professor of Biological Sciences Emeritus (1988)

CARLSON, DIANE H. (1984), Professor of Geology Emeritus (2011)

CARLTON, NANCY (2001), Assistant Professor of Education Emeritus

CARR, GERALD F. (1989), Professor of German Emeritus (2000)

CARUSO, ANTHONY (1977), Professor of Civil Engineering Emeritus (2000)

CASHMAN, PAUL (1975), Professor of Criminal Justice Emeritus (1994)

CASTELLANO, OLIVIA (1972), Professor of Ethnic Studies and English Emeritus (2004)

CAVAGHAN, PEGGY J. (1971), Professor of Home Economics Emeritus (1991)

CECIL, NANCY L. (1987), Professor of Education Emeritus

CERVANTES, CHRISTI (2004), Assistant Professor of Child Development Emeritus

CHAMBERS, HENRY E. (1967), Professor of History Emeritus (2003)

CHARLTON, BARBARA (1961), Science and Technology Reference Librarian Emeritus (1990)

CHASE, LAWRENCE J. (1976), Professor of Communication Studies Emeritus (2017)

CHEONG-SIAT-MOY, FRANCOIS (1980), Professor of Civil Engineering Emeritus (2009)

CHESHER, PATRICIA A. (1984), Professor of Finance and Insurance Emeritus (2015)

CHING, ROBERTA J. (1985), Professor of English Emeritus (2011)

CHIU, PING (1970), Professor of History and Ethnic Studies Emeritus (1980)

CHRISTIAN, JR., ELIJAH (1965), Professor of Biological Sciences Emeritus (1997)

CHRISTO, CATHY (1992), Professor of Education Emeritus

CHRISTOPHER, JOHN (1963), Professor of Mathematics Emeritus (1987)

CHRUDEN, HERBERT J. (1952), Professor of Business Administration Emeritus (1981)

CLARK, JOHN B. (1980), Professor of Marketing Emeritus (2003)

- CLAYSON, LOUIS O. (1959), Professor of Music Emeritus (1991)
- CLEEK, MARGARET A. (1990), Professor of Organizational Behavior Emeritus (2016)
- CLEVENGER, JOHN (1978), Professor of Computer Science Emeritus (2011)
- COHAN, PHYLLIS LOUELLYN (1968), Professor of Political Science Emeritus (1999)
- COLEMAN, COLETTE L. (1972), Professor of Speech Pathology and Audiology Emeritus (1999)
- COLINGE, CYNTHIA (1992), Professor of Electrical and Electronic Engineering Emeritus (2010)
- COMERCHERO, VICTOR (1963), Professor of English Emeritus (1997)
- CONNOR, JOHN W. (1967), Professor of Anthropology Emeritus (1994)
- COOK, ALBERT M. (1970), Professor of Electrical and Electronic Engineering Emeritus (1994)
- COOPER, LYNN (1976), Professor of Social Work Emeritus (FERP)

GOLUB, ARNOLD M. (1976), Professor of Psychology Emeritus (2005)

GOODART, MARGARET M. (1971), Professor of History Emeritus (2000)

GOODRICH, LINDA (1990), Professor of Theatre and Dance Emeritus

GORDON, ALLAN M. (1969), Professor of Art Emeritus (1991)

GOSSETT, CHARLES W. (2009), Professor of Government & Public Policy and Administration Emeritus (2019)

GOTTA, JERRY M. (1969), Professor of Health and Safety Services Emeritus (1990)

GOULARD, CARY J. (1975), Professor of Recreation and Leisure Studies Emeritus (2002)

GRAY, STEVEN (1987), Professor of Recreation, Parks and Tourism Administration Emeritus

GRAY, CECILIA DOLORES (1968), Professor of Family and Consumer Sciences Emeritus (2002)

GREGG, MIGNON S. (1971), Professor of Political Science Emeritus (2005)

GRUNDY, SUSAN E. (1982), Professor of Nursing Emeritus (2005)

GUARINO, RICHARD (1980), Professor of Management Emeritus (2011)

GUINTHER, PAULINE (1970), Professor of Physical Education Emeritus (1992)

GUNSTON-PARKS, CYNTHIA A. (1985), Professor of Education Emeritus

GUNTER, ANNIK L. (1970), Professor of French Emeritus (2001)

GUSTAFSON, HARRY (1969), Professor of Criminal Justice Emeritus (1996)

GUTOWSKY, ALBERT R. (1967), Professor of Economics Emeritus (2000)

H

HAFFER, ANN G. (1986), Professor of Nursing Emeritus (2002)

HAGOPIAN, CHARLES L. (1969), Professor of Mathematics and Statistics Emeritus (2004)

HALL, DONALD E. (1974), Professor of Physics Emeritus (2003)

HALL, LEILANI A. (2002), Librarian, Reference Emeritus (2015)

HALLINAN, TIM S. (1969), Professor of Geography Emeritus (2001)

HALSETH, ROBERT (1993), Professor of Music Emeritus (2011)

HAMILTON, HOWARD B. (1974), Professor of Mathematics and Statistics Emeritus (2006)

HAMMER, J. GORDON (1977), Associate Professor of Civil Engineering Emeritus (1984)

HANSON-SMITH, ELIZABETH (1971), Professor of English Emeritus (1995)

HANSON-SMITH, BRENDA (1990), Professor of Nursing-FERP (2011)

HAQ, TALIB UL (1974), Professor of Criminal Justice Emeritus (1992)

HARRALSON, JOSEPH (1980), Professor of Mechanical Engineering (2003)

HARRIS, STEPHEN L. (1965), Professor of Humanities and Religious Studies Emeritus (2000)

HARRISON, MERNOY E. (1981), Professor of Management and Vice President for Administration Emeritus (1997)

HATTON, GAYLEN A. (1964), Professor of Music Emeritus (1979)

HATTON, LINDLE G. (1990), Professor of Strategic Management Emeritus (2017)

HAUPERT, THEODORE J. (1969), Professor of Chemistry Emeritus (1994)

HAYASHI, SHUKI (1964), Professor of Physics Emeritus (1983)

HAYASHIGATANI, SHOTARO F. (1971), Professor of Ethnic Studies and Japanese Emeritus (2001)

HEASER, EILEEN M. (1972), Librarian, Reference Emeritus (2015)

HEFLIN, THOMAS L. (1984), Professor of Finance; Director, Insurance Education and Research Program Emeritus (2001)

HEILMAN, ROBERT JAMES (1968), Professor of Social Work Emeritus (1992)

HELLER, MAHLON D. (1985), Professor of Electrical and Electronic Engineering Emeritus (2003)

HELLER, JOSEPH R. (1966), Professor of Psychology Emeritus (1996)

HELT, MARIE E. (1998), Professor of English Emeritus

HENNELLY, JR., MARK M. (1970), Professor of English Emeritus (2003)

HENRY, JOHN F. (1970), Professor of Economics Emeritus (2003)

HEREDIA, SUSAN (1995), Professor of Education Emeritus

HERNANDEZ, JAMES (1974), Professor of Criminal Justice Emeritus (2012)

HERNANDEZ, JUAN D. (1972), Professor of Social Work Emeritus (1998)

HERON, JACK E. (1964), Professor of Physical Education Emeritus (1989)

HESTER, JOHN N. (1969), Professor of Mechanical Engineering and Associate Dean Emeritus, College of Engineering and Computer Science (1995)

HILL, SAM (1968), Professor of Spanish and Portuguese Emeritus (2000)

HILL, JAMES CLIFTON (1968), Professor of Chemistry; Chair, Department of Chemistry Emeritus (2005)

HOHLWEIN, KATHRYN (1969), Professor of English Emeritus (1994)

HOLL, SUSAN L. (1980), Professor of Mechanical Engineering Emeritus (2017)

HOLLAND, MEL E. (1981), Professor of Civil Engineering Emeritus (1997)

HOLLOWAY, RONALD A. (1966), Professor of Music Emeritus (1992)

HOM, LEONARD W. (1963), Professor of Civil Engineering Emeritus (1997)

HOROBIN, KAREN D. (1994), Professor of Education Emeritus

HORTON, EDWARD J. (1968), Professor of Public Administration Emeritus (1978)

HRELJAC, ALAN (1999), Associate Professor of Kinesiology Emeritus (2007)

HUBBARD, JEFFREY C. (1970), Professor of Sociology Emeritus (1997)

HUBBELL, ROBERT (1976), Professor of Speech Pathology and Audiology Emeritus (1997)

HUFF, DENNIS K. (1973), Professor of Biological Sciences Emeritus (2001)

HUGHES, LINDA K. (1967), Associate Professor of Physical Education Emeritus (1991)

HUGHES, RICHARD D. (1964), Professor of Political Science Emeritus (2000)

HUMPHREY, ROBERT E. (1985), Professor of Communication Studies Emeritus (FERP)

HURLEY, ROBERT M. (1976), Professor of Criminal Justice Emeritus (2003)

HWANG, JOHN C. (1972), Professor of Communication Studies; Director of Asian-American Studies Emeritus (2001)

HWANG, RALPH B. (1979), Professor of Civil Engineering Emeritus (2005)

HWANG, YUH LIN (1966), Professor of Biological Sciences Emeritus (1998)

HYDE, MARY LOU (1968), Professor of Social Work Emeritus (1988)

VALADEZ, SENON M. (1969), Professor of Anthropology Emeritus (2003)

VAN AUKER, ROSALIND (1980), Librarian, Reference Emeritus

VAN DE LINDT, WILLIAM (1982), Professor of Electrical and Electronic Engineering Emeritus (1990)

VAN VELKINBURG, WILLIAM G. (1970), Professor of Health and Safety Studies Emeritus (1992)

VANCOUWENBERGHE, CAROLYN (1983), Professor of Nursing FERP (2011)

VANDENBERGE, PETER (1973), Professor of Art Emeritus (1998)

VANICEK, C. DAVID (1967), Professor of Biological Sciences Emeritus (2000)

VENEZIA, PETER S. (1975), Professor of Criminal Justice Emeritus (1996)

VILLA, ESTEBAN (1969), Professor of Art Emeritus (1994)

VINES, ROSE LEIGH (1979), Professor of Biological Sciences Emeritus (2011)

VIZZARD, WILLIAM J. (1996), Professor of Criminal Justice Emeritus (2011)

VOHRYZEK-BOLDEN, MIKI (1989), Professor of Criminal Justice Emeritus (2006)

VON DEN STEINEN, KARL (1968), Professor of History Emeritus (2002)

VON FRIEDERICHS-FITZWATER, MARLENE M. (1985), Professor of Communication Studies Emeritus (2000)

W

WADE, ALAN D. (1967), Professor of Social Work Emeritus (1992)

WAGNER, DAVID L. (1975), Professor of Communication Studies; Vice President for Human Resources Emeritus

WALBURG, GERALD S. (1968), Professor of Art Emeritus (2000)

WALKER, STEPHEN A. (1969), Professor of Recreation and Leisure Studies Emeritus (1996)

WALTHER, CARL H. (1984), Professor of Finance (2004)

WANG, CHIANG (1984), Professor of Decision Sciences Emeritus (2007)

WANG, RUTH (1984), Professor of Decision Sciences Emeritus (2009)

WANLASS, SUSAN (1985), Professor of English Emeritus (2015)

WARE, JENNIFER D. (1985), Librarian, Collections Emeritus (2018)

WARE, JELINE H. (1977), Professor of Family and Consumer Sciences Emeritus (1998)

WARNER, DON (1978), Professor of Computer Science Emeritus (2004)

WASHBURN, CHARLES A. (1967), Professor of Mechanical Engineering Emeritus (1998)

WASTE, ROBERT (1997), Professor of Public Policy and Administration Emeritus (2006)

WATSON, ANNITA B. (1970), Professor of Nursing Emeritus (2002)

WEBB, DONALD P. (1975), Professor of French Emeritus (1995)

WEISS, MELFORD S. (1967), Professor of Anthropology Emeritus (2001)

WELDY, ANN T. (1974), Professor of English and Associate Dean Emeritus, College of Arts and Letters (1997)

WESPIESER, HOWARD F. (1965), Professor of Social Work Emeritus (1980)

WHEELER, GREGORY (1978), Professor of Geology Emeritus (2010)

WHITE, MALCOLM A. (1969), Professor of Marketing Emeritus (1992)

WHITESEL, LITA S. (1974), Professor of Art Emeritus (2002)

WILLIAMS, JOHN L. (1986), Professor of Communication Studies Emeritus (FERP)

WILLIAMSON, ARTHUR H. (1988), Professor of History Emeritus (2008)

WILSON, JERRY L. (1969), Professor of Chemistry Emeritus (2000)

WINDESHAUSEN, N. NICHOLAS (1962), Professor of Management Emeritus (1986)

WINKLER, MARIA (1977), Professor of Art Emeritus (2005)

WOOD, JR., CLIFFORD P. (1968), Librarian, Humanities Reference Emeritus (2001)

WUNDER, HAROLDENE (1993), Professor of Accountancy Emeritus (2015)

X

XANDERS, CHARLOTTE C. (1996), Librarian, Head of Technical Services Emeritus (2018)

Y

YAMANAKA, TOHRU (1964), Professor of Economics and Ethnic Studies Emeritus; Associate Dean of Arts & Letters Emeritus (1989)

YANG, YUNG Y. (1974), Professor of Economics Emeritus (2003)

YOUSIF, SALAH M. (1969), Professor of Electrical and Electronic Engineering Emeritus (2003)

Z

ZHOU, TONG (1988), Professor of Mechanical Engineering Emeritus (2005)

ZHOU, KECHENG (1990), Professor of Mathematics and Statistics Emeritus (2012)

Program Name	Department/ Academic Unit	College	Academic Level	Degree Type
Accountancy (p. 387)	College of Business Administration	College of Business Administration	Graduate	MS
Adapted Physical Education Specialist (p. 657)	Kinesiology and Health Science	College of Health and Human Services	Undergraduate	Credential
Advanced Business Studies (p. 369)	College of Business Administration	College of Business Administration	Graduate	Certificate
Advanced Programs (p. 554)	Computer Science	College of Engineering and Computer Science	Graduate	Certificate
Advanced Study in Teaching English to Speakers of Other Languages (TESOL) (p. 191)	English	College of Arts and Letters	Undergraduate	Certificate
African Studies (p. 841)	Ethnic Studies	College of Social Sciences and Interdisciplinary Studies	Undergraduate	Minor
African Studies (p. 841)	Ethnic Studies	College of Social Sciences and Interdisciplinary Studies	Undergraduate	Certificate
American Sign Language and Deaf Studies (p. 514)	Undergraduate Studies in Education	College of Education	Undergraduate	Minor
Anthropology (p. 860)	Anthropology	College of Social Sciences and Interdisciplinary Studies	Undergraduate	Minor

Anthropology (p. 859)	Anthropology	College of Social Sciences and Interdisciplinary Studies	Graduate	MA
Anthropology with a Concentration in Archaeology and Biological Anthropology (p. 854)	Anthropology	College of Social Sciences and Interdisciplinary Studies	Undergraduate	BA
Anthropology with a Concentration in Culture, Language and Society (p. 855)	Anthropology	College of Social Sciences and Interdisciplinary Studies	Undergraduate	BA
Anthropology with a Concentration in General Anthropology (p. 857)	Anthropology	College of Social Sciences and Interdisciplinary Studies	Undergraduate	BA
Art (p. 129)	Art	College of Arts and Letters	Graduate	MA
Art Education (p. 130)	Art	College of Arts and Letters	Undergraduate	Minor
Art History (p. 130)	Art	College of Arts and Letters	Undergraduate	Minor
Art Studio	Art	College of Arts and Letters	Undergraduate	Minor
Art Subject Matter Program: Pre-Credential Preparation (Art Education) (p. 121)	Art	College of Arts and Letters	Undergraduate	BA
Art with a Concentration in Art History (p. 122)	Art	College of Arts and Letters	Undergraduate	BA
Art with a Concentration in Art Studio (p. 124)	Art	College of Arts and Letters	Undergraduate	BA
Art with a Concentration in Studio Arts Methods (p. 124)	Art	College of Arts and Letters	Undergraduate	BA

Asian American Studies (p. 897)	Ethnic Studies	College of Social Sciences and Interdisciplinary Studies	UndergraduateMinor			Biological Sciences (p. 750)	Biological Sciences	College of Natural Sciences and Mathematics	Graduate	MA
Asian Studies (p.)	College of Social Sciences and Interdisciplinary Studies	College of Social Sciences and Interdisciplinary Studies	UndergraduateMinor			Biological Sciences (p. 755)	Biological Sciences	College of Natural Sciences and Mathematics	Graduate	MS
Asian Studies with a Concentration in Chinese Studies (p. 862)	College of Social Sciences and Interdisciplinary Studies	College of Social Sciences and Interdisciplinary Studies	UndergraduateBA			Biological Sciences Honors Program (p. 734)	Biological Sciences	College of Natural Sciences and Mathematics		UndergraduateBS
Asian Studies with a Concentration in Japanese Studies (p. 864)	College of Social Sciences and Interdisciplinary Studies	College of Social Sciences and Interdisciplinary Studies	UndergraduateBA			Biological Sciences Subject Matter Program (Pre-Credential Preparation) (p. 760)	Biological Sciences	College of Natural Sciences and Mathematics		UndergraduateBA
Asian Studies with a Concentration in Korean Studies (p. 866)	College of Social Sciences and Interdisciplinary Studies	College of Social Sciences and Interdisciplinary Studies	UndergraduateBA			Biological Sciences with a Concentration in Biomedical Sciences (p. 735)	Biological Sciences	College of Natural Sciences and Mathematics		UndergraduateBS
Asian Studies with a Concentration in South and Southeast Asian (p. 868)	College of Social Sciences and Interdisciplinary Studies	College of Social Sciences and Interdisciplinary Studies	UndergraduateBA			Biological Sciences with a Concentration in Cell and Molecular Biology (p. 737)	Biological Sciences	College of Natural Sciences and Mathematics		UndergraduateBS
Astronomy (p. 822)	Physics and Astronomy	College of Natural Sciences and Mathematics	UndergraduateMinor			Biological Sciences with a Concentration in Clinical Laboratory Sciences (p. 739)	Biological Sciences	College of Natural Sciences and Mathematics		UndergraduateBS
Behavior Analysis (p. 997)	Psychology	College of Social Sciences and Interdisciplinary Studies	UndergraduateCertificate			Biological Sciences with a Concentration in Ecology, Evolution and Conservation (p. 753)	Biological Sciences	College of Natural Sciences and Mathematics		UndergraduateBS
Behavioral Sciences Gender Equality Studies (p. 420)	Branch of Teaching Credentials	College of Education	Graduate	MA		Biological Sciences with a Concentration in Ecology, Evolution, and Conservation (p. 741)	Biological Sciences	College of Natural Sciences and Mathematics	Graduate	MS
Biological Sciences (p. 733)	Biological Sciences	College of Natural Sciences and Mathematics	UndergraduateBA							
Biological Sciences (p. 753)	Biological Sciences	College of Natural Sciences and Mathematics	UndergraduateMinor							

Biological Sciences with a Concentration in Forensic Biology (p. 743)	Biological Sciences	College of Natural Sciences and Mathematics	Undergraduate	BS	Business Administration with a Concentration in Business Analytics in Healthcare (p. 370)	College of Business Administration	College of Business Administration	Graduate	MBA
Biological Sciences with a Concentration in General Biology (p. 745)	Biological Sciences	College of Natural Sciences and Mathematics	Undergraduate	BS	Business Administration with a Concentration in Entrepreneurship (p. 354)	College of Business Administration	College of Business Administration	Undergraduate	BS
Biological Sciences with a Concentration in Microbiology (p. 747)	Biological Sciences	College of Natural Sciences and Mathematics	Undergraduate	BS	Business Administration with a Concentration in Entrepreneurship and Global Business (p. 372)	College of Business Administration	College of Business Administration	Graduate	MBA
Biological Sciences with a Concentration in Molecular and Cellular Biology (p. 757)	Biological Sciences	College of Natural Sciences and Mathematics	Graduate	MS	Business Administration with a Concentration in Finance (p. 375)	College of Business Administration	College of Business Administration	Graduate	MBA
Biological Sciences with a Concentration in Stem Cell (p. 751)	Biological Sciences	College of Natural Sciences and Mathematics	Graduate	MA	Business Administration with a Concentration in Finance (p. 357)	College of Business Administration	College of Business Administration	Undergraduate	BS
Business Administration (p. 385)	College of Business Administration	College of Business Administration	Undergraduate	Minor	Business Administration with a Concentration in General Management (p. 359)	College of Business Administration	College of Business Administration	Undergraduate	BS
Business Administration Executives Degree (EMBA) (p. 380)	College of Business Administration	College of Business Administration	Graduate	MBA	Business Administration with a Concentration in International Business (p. 361)	College of Business Administration	College of Business Administration	Undergraduate	BS
Business Administration General (p. 378)	College of Business Administration	College of Business Administration	Graduate	MBA	Business Administration with a Concentration in Management Information Systems (p. 363)	College of Business Administration	College of Business Administration	Undergraduate	BS
Business Administration International (p. 382)	College of Business Administration	College of Business Administration	Graduate	MBA					
Business Administration with a Concentration in Accountancy (p. 353)	College of Business Administration	College of Business Administration	Undergraduate	BS					

Business Administration with a Concentration in Management of Human Resources and Organizational Behavior (p. 365)	College of Business Administration	College of Business Administration	Undergraduate	BS	Chemistry (p. 779)	Chemistry	College of Natural Sciences and Mathematics	Graduate	MS
Business Administration with a Concentration in Marketing (p. 367)	College of Business Administration	College of Business Administration	Undergraduate	BS	Chemistry Subject Matter Program (Pre-Credential Preparation) (p. 780)	Chemistry	College of Natural Sciences and Mathematics	Undergraduate	
Business Administration with Business Administration Honors (p. 369)	College of Business Administration	College of Business Administration	Undergraduate	BS	Chemistry with a Concentration in Biochemistry (p. 768)	Chemistry	College of Natural Sciences and Mathematics	Undergraduate	BA
California Studies (p.)	College of Social and Interdisciplinary Studies	College of Social and Interdisciplinary Studies	Undergraduate	Minor	Chemistry with a Concentration in Biochemistry (p. 779)	Chemistry	College of Natural Sciences and Mathematics	Graduate	MS
Capital Fellows Certificate in Applied Policy and Government (p. 980)	Political Science	College of Social Sciences and Interdisciplinary Studies	Graduate	Certificate	Chemistry with a Concentration in Forensics Chemistry (p. 770)	Chemistry	College of Natural Sciences and Mathematics	Undergraduate	BA
Capital Fellows Certificate in Applied Policy and Government (p. 1005)	Public Policy and Administration	College of Social Sciences and Interdisciplinary Studies	Graduate	Certificate	Chicanx and Latinx Studies (p. 897)	Ethnic Studies	College of Social Sciences and Interdisciplinary Studies	Undergraduate	Minor
Career and Technical Studies (p. 513)	Branch of Undergraduate Studies in Education	College of Education	Undergraduate	BS	Child Development (p. 514)	Child Development	College of Education	Undergraduate	Minor
Chemistry (p. 771)	Chemistry	College of Natural Sciences and Mathematics	Undergraduate	BA	Child Development (p. 419)	Child Development	College of Education	Graduate	MA
Chemistry (p. 777)	Chemistry	College of Natural Sciences and Mathematics	Undergraduate	Minor	Child Development with a Concentration in Early Development, Care and Education (p. 504)	Child Development	College of Education	Undergraduate	BA
Chemistry (p. 775)	Chemistry	College of Natural Sciences and Mathematics	Undergraduate	BS	Child Development with a Concentration in Elementary Pre-Credential (p. 506)	Child Development	College of Education	Undergraduate	BA

Child Development with a Concentration in Individualized (p. 507)	Child Development	College of Education	Undergraduate	BA	Civil Engineering with a Concentration in Transportation Engineering (p. 531)	Civil Engineering	College of Engineering and Computer Science	Graduate	MS
Child Development with a Concentration in Integrated Pre-Credential Subject Matter (p. 509)	Child Development	College of Education	Undergraduate	BA	Civil Engineering with a Concentration in Water Resources Engineering (p. 531)	Civil Engineering	College of Engineering and Computer Science	Graduate	MS
Child Development with a Concentration in Social and Community Settings (p. 510)	Child Development	College of Education	Undergraduate	BA	Civil Engineering with a Emphasis in Engineering Management (p. 531)	Civil Engineering	College of Engineering and Computer Science	Graduate	MS
Chinese (p. 303)	World Languages and Literatures	College of Arts and Letters	Undergraduate	Minor	Coaching (p. 657)	Kinesiology and Health Science	College of Health and Human Services	Undergraduate	Minor
Civil Engineering (p. 527)	Civil Engineering	College of Engineering and Computer Science	Undergraduate	BS	Collaborative Governance (p. 1005)	Public Policy and Administration	College of Social Sciences and Interdisciplinary Studies	Graduate	Certificate
Civil Engineering with a Concentration in Environmental/Water Quality Engineering (p. 531)	Civil Engineering	College of Engineering and Computer Science	Graduate	MS	Communication Sciences and Disorders (p. 605)	Communication Sciences and Disorders	College of Health and Human Services	Undergraduate	BS
Civil Engineering with a Concentration in Geotechnical Engineering (p. 531)	Civil Engineering	College of Engineering and Computer Science	Graduate	MS	Communication Sciences and Disorders (p. 610)	Communication Sciences and Disorders	College of Health and Human Services	Graduate	MS
Civil Engineering with a Concentration in Structural Engineering (p. 531)	Civil Engineering	College of Engineering and Computer Science	Graduate	MS	Communication Studies (p. 148)	Communication Studies	College of Arts and Letters	Undergraduate	Minor
					Communication Studies (p. 146)	Communication Studies	College of Arts and Letters	Graduate	MA
					Communication Studies with a Concentration in General Communication (p. 144)	Communication Studies	College of Arts and Letters	Undergraduate	BA
					Communication Studies with a Concentration in Public Relations (p. 145)	Communication Studies	College of Arts and Letters	Undergraduate	BA

Computer Architecture (p. 554)	Computer Science	College of Engineering and Computer Science	Graduate	Certificate	Counseling Specialization in Marriage, Family, and Child Counseling (p. 436)	Branch of Graduate and Professional Studies in Education	College of Education	Graduate	MS
Computer Engineering (p. 554)	Computer Science	College of Engineering and Computer Science	Graduate	Certificate	Counseling Specialization in School Counseling (p. 436)	Branch of Graduate and Professional Studies in Education	College of Education	Graduate	MS
Computer Engineering (p. 537)	Computer Science and Electrical and Electronic Engineering	College of Engineering and Computer Science	Undergraduate	BS	Creative Writing (p. 197)	English	College of Arts and Letters	Undergraduate	Minor
Computer Engineering (p. 538)	Computer Science and Electrical and Electronic Engineering	College of Engineering and Computer Science	Graduate	MS	Criminal Justice (p. 625)	Division of Criminal Justice	College of Health and Human Services	Undergraduate	BS
Computer Networks and Communications (p. 555)	Computer Science	College of Engineering and Computer Science	Graduate	Certificate	Criminal Justice (p. 628)	Division of Criminal Justice	College of Health and Human Services	Undergraduate	Minor
Computer Science (p. 552)	Computer Science	College of Engineering and Computer Science	Undergraduate	BS	Criminal Justice (p. 629)	Division of Criminal Justice	College of Health and Human Services	Graduate	MS
Computer Science (p. 558)	Computer Science	College of Engineering and Computer Science	Undergraduate	Minor	Curriculum and Instruction (p. 422)	Branch of Teaching Credentials	College of Education	Graduate	MA
Computer Science (p. 559)	Computer Science	College of Engineering and Computer Science	Graduate	MS	Cyber Defense and Operations (p. 555)	Computer Science	College of Engineering and Computer Science	Undergraduate	Certificate
Construction Management, Business Administration (p. 565)	Construction Management	College of Engineering and Computer Science	Undergraduate	BS with Minor	Cyber Information Assurance and Security (p. 555)	Computer Science	College of Engineering and Computer Science	Undergraduate	Certificate
Counseling (p. 515)	Child Development	College of Education	Undergraduate	Minor	Dance (p. 297)	Theatre and Dance	College of Arts and Letters	Undergraduate	BA
Counseling - Vocational Rehabilitation (p. 436)	Branch of Graduate and Professional Studies in Education	College of Education	Graduate	MS	Dance (p. 300)	Theatre and Dance	College of Arts and Letters	Undergraduate	Minor
Counseling Specialization in Career Counseling (p. 436)	Branch of Graduate and Professional Studies in Education	College of Education	Graduate	MS	Data Management Systems (p. 555)	Computer Science	College of Engineering and Computer Science	Graduate	Certificate
Counseling Specialization in Community Counseling (p. 436)	Branch of Graduate and Professional Studies in Education	College of Education	Graduate	MS	Data Mining (p. 555)	Computer Science	College of Engineering and Computer Science	Graduate	Certificate
					Deaf Studies (p. 512)	Undergraduate Studies in Education	College of Education	Undergraduate	BA

Digital Communication and Information (p. 148)	Communications Studies	College of Arts and Letters	Undergraduate	Minor	Education Technology (https://nextcatalog.csus.edu/colleges/education/graduate-professional-studies-education/certificate-of-competency-in-educational-technology)	Branch of Teaching Credentials	College of Education	Undergraduate	Certificate
Early Childhood Special Education (p. 480)	Branch of Graduate and Professional Studies in Education	College of Education	Graduate	Credential	Educational Leadership (p. 415)	Branch of Graduate and Professional Studies in Education	College of Education	Graduate	EdD
Earth Science (p. 801)	Geology	College of Natural Sciences and Mathematics	Undergraduate	BA	Educational Technology (p. 425)	Branch of Teaching Credentials	College of Education	Graduate	MA
Economics (p. 877)	Economics	College of Social Sciences and Interdisciplinary Studies	Undergraduate	BA	Electrical and Electronic Engineering (p. 577)	Electrical and Electronic Engineering	College of Engineering and Computer Science	Undergraduate	BS
Economics (p. 880)	Economics	College of Social Sciences and Interdisciplinary Studies	Undergraduate	Minor	Electrical and Electronic Engineering (p. 579)	Electrical and Electronic Engineering	College of Engineering and Computer Science	Graduate	MS
Economics (p. 879)	Economics	College of Social Sciences and Interdisciplinary Studies	Graduate	MA	Engineering (p. 585)	College of Engineering and Computer Science	College of Engineering and Computer Science	Undergraduate	Minor
Economics Education (p. 879)	Economics	College of Social Sciences and Interdisciplinary Studies	Undergraduate	Certificate	Engineering Hydraulics (p. 529)	Civil Engineering	College of Engineering and Computer Science	Graduate	Certificate
Education (p. 515)	Branch of Graduate and Professional Studies in Education	College of Education	Undergraduate	Minor	English (p. 188)	English	College of Arts and Letters	Undergraduate	BA
Education (p. 515)	Branch of Graduate and Professional Studies in Education	College of Education	Undergraduate	Minor	English (p. 198)	English	College of Arts and Letters	Undergraduate	Minor
Education Leadership (p. 423)	Branch of Graduate and Professional Studies in Education	College of Education	Graduate	MA	English with a Concentration in Composition (p. 191)	English	College of Arts and Letters	Graduate	MA
					English with a Concentration in Creative Writing (p. 193)	English	College of Arts and Letters	Graduate	MA
					English with a Concentration in Literature (p. 194)	English	College of Arts and Letters	Graduate	MA

Environmental Studies (p. 885)	Environmental Studies	College of Social Sciences and Interdisciplinary Studies	Undergraduate	BA	Ethnic Studies with a Concentration in Native American Studies (p. 895)	Ethnic Studies	College of Social Sciences and Interdisciplinary Studies	Undergraduate	BA
Environmental Studies (p. 887)	Environmental Studies	College of Social Sciences and Interdisciplinary Studies	Undergraduate	BS	Ethnic Studies with a Concentration in Pan African Studies (p. 895)	Ethnic Studies	College of Social Sciences and Interdisciplinary Studies	Undergraduate	BA
Environmental Studies (p. 888)	Environmental Studies	College of Social Sciences and Interdisciplinary Studies	Undergraduate	Minor	Event Planning (p. 698)	Recreation, Parks, and Tourism Administration	College of Health and Human Services	Undergraduate	Certificate
Ethnic Studies (p. 898)	Ethnic Studies	College of Social Sciences and Interdisciplinary Studies	Undergraduate	Minor	Family and Consumer Sciences (p. 907)	Family and Consumer Sciences	College of Social Sciences and Interdisciplinary Studies	Undergraduate	Minor
Ethnic Studies with a Concentration in Asian American Studies (p. 895)	Ethnic Studies	College of Social Sciences and Interdisciplinary Studies	Undergraduate	BA	Family and Consumer Sciences with a Concentration in Family Studies (p. 902)	Family and Consumer Sciences	College of Social Sciences and Interdisciplinary Studies	Undergraduate	BS
Ethnic Studies with a Concentration in Chicana/o Studies (p. 895)	Ethnic Studies	College of Social Sciences and Interdisciplinary Studies	Undergraduate	BA	Fashion Merchandising and Management (p. 905)	Family and Consumer Sciences	College of Social Sciences and Interdisciplinary Studies	Undergraduate	BS
Ethnic Studies with a Concentration in Education (Teachers in Urban Settings or Teachers in Bilingual Education) (p. 895)	Ethnic Studies	College of Social Sciences and Interdisciplinary Studies	Undergraduate	BA	Family and Consumer Sciences with a Concentration in Nutrition and Food (Dietetics Emphasis) (p. 903)	Family and Consumer Sciences	College of Social Sciences and Interdisciplinary Studies	Undergraduate	BS
Ethnic Studies with a Concentration in General Ethnic Studies (p. 895)	Ethnic Studies	College of Social Sciences and Interdisciplinary Studies	Undergraduate	BA	Family Life Education (p. 909)	Family and Consumer Sciences	College of Social Sciences and Interdisciplinary Studies	Undergraduate	Certificate
					Film (p. 151)	Communication Studies	College of Arts and Letters	Undergraduate	Minor

Film with a Concentration in Digital Video/Video Production (p. 150)	Communication Studies	College of Arts and Letters	Undergraduate	BA	Geography with a Concentration in Metropolitan Area Planning (https://nextcatalog.csus.edu/colleges/natural-sciences-mathematics/geography/ba-in-geography-metropolitan-area-planning)	Geography	College of Natural Sciences and Mathematics	Undergraduate	BA
Film with a Concentration in Film Studies (p. 151)	Communication Studies	College of Arts and Letters	Undergraduate	BA	Geography with a Concentration in Physical Geography (p. 792)	Geography	College of Natural Sciences and Mathematics	Undergraduate	BA
Forensics Investigations (p. 628)	Division of Criminal Justice	College of Health and Human Services	Undergraduate	Minor	Geology (p. 803)	Geology	College of Natural Sciences and Mathematics	Undergraduate	BA
French (p. 307)	World Languages and Literatures	College of Arts and Letters	Undergraduate	BA	Geology (p. 804)	Geology	College of Natural Sciences and Mathematics	Undergraduate	BS
French (p. 308)	World Languages and Literatures	College of Arts and Letters	Undergraduate	Minor	Geology (p. 805)	Geology	College of Natural Sciences and Mathematics	Undergraduate	Minor
Game Engineering (p. 556)	Computer Science	College of Engineering and Computer Science	Undergraduate	Certificate	Geology (p. 805)	Geology	College of Natural Sciences and Mathematics	Graduate	MS
General Teaching Multiple and Single Preliminary (p. 475)	Branch of Graduate and Professional Studies in Education	College of Education	Undergraduate	Credential	German (p. 311)	World Languages and Literatures	College of Arts and Letters	Undergraduate	Minor
Geo-Environmental Engineering (p. 529)	Civil Engineering	College of Engineering and Computer Science	Graduate	Certificate	Gerontology (p. 912)	College of Social Sciences and Interdisciplinary Studies	College of Social Sciences and Interdisciplinary Studies	Undergraduate	BS
Geographic Information Systems (p. 794)	Geography	College of Natural Sciences and Mathematics	Undergraduate	Minor	Gerontology (p. 914)	College of Social Sciences and Interdisciplinary Studies	College of Social Sciences and Interdisciplinary Studies	Undergraduate	Minor
Geography (p. 795)	Geography	College of Natural Sciences and Mathematics	Undergraduate	Minor	Gerontology (p. 914)	College of Social Sciences and Interdisciplinary Studies	College of Social Sciences and Interdisciplinary Studies	Graduate	Certificate
Geography with a Concentration in Geographic Information Systems and Analysis (p. 787)	Geography	College of Natural Sciences and Mathematics	Undergraduate	BA	Gerontology (p. 914)	College of Social Sciences and Interdisciplinary Studies	College of Social Sciences and Interdisciplinary Studies	Graduate	Certificate
Geography with a Concentration in Human Geography (p. 789)	Geography	College of Natural Sciences and Mathematics	Undergraduate	BA					

Global and Multicultural Perspectives (p. 1041)	Special Programs	Office of Academic Affairs	UndergraduateCertificate	History Standard Program - Comprehensive Option (p. 216)	History	College of Arts and Letters	Graduate	MA
Graphic Design (p. 160)	Design	College of Arts and Letters	UndergraduateBFA	History Standard Programs - Specialized Option (p. 217)	History	College of Arts and Letters	Graduate	MA
Ground Modification (p. 529)	Civil Engineering	College of Engineering and Computer Science	Graduate Certificate	Honors (p. 1060)	Special Programs	Office of Academic Affairs	UndergraduateGE	
Health Science (p. 639)	Kinesiology and Health Science	College of Health and Human Services	UndergraduateMinor	Hospitality and Tourism Administration (p. 698)	Recreation, Parks, and Administration	College of Health and Human Services	UndergraduateCertificate	
Health Science with a Concentration in Community Health Education (p. 634)	Kinesiology and Health Science	College of Health and Human Services	UndergraduateBS	Humanities (p. 236)	Humanities and Religious Studies	College of Arts and Letters	UndergraduateMinor	
Health Science with a Concentration in Health Care Administration (p. 636)	Kinesiology and Health Science	College of Health and Human Services	UndergraduateBS	Humanities (p. 235)	Humanities and Religious Studies	College of Arts and Letters	Graduate	MA
Health Science with a Concentration in Occupational Health and Safety (p. 638)	Kinesiology and Health Science	College of Health and Human Services	UndergraduateBS	Humanities and Religious Studies (p. 232)	Humanities and Religious Studies	College of Arts and Letters	UndergraduateBA	
Healthcare Spanish (p. 321)	World Languages and Literatures	College of Arts and Letters	UndergraduateCertificate	Humanities and Religious Studies with a Concentration in Religious Studies (p. 233)	Humanities and Religious Studies	College of Arts and Letters	UndergraduateBA	
Hellenic Studies (p. 200)	History	College of Arts and Letters	UndergraduateMinor	Information Assurance and Security (p. 557)	Computer Science	College of Engineering and Computer Science	Graduate	Certificate
Higher Education Leadership (p. 426)	Branch of Graduate and Professional Studies in Education	College of Education	Graduate MA	Information Security and Computer Forensics (p. 558)	Computer Science	College of Engineering and Computer Science	UndergraduateMinor	
History (p. 215)	History	College of Arts and Letters	UndergraduateBA	Integrated Mathematics Major/Single Subject Credential (p. 816)	Mathematics and Statistics	College of Natural Sciences and Mathematics	UndergraduateBA	
History (p. 220)	History	College of Arts and Letters	UndergraduateMinor	Intelligent Systems (p. 557)	Computer Science	College of Engineering and Computer Science	Graduate	Certificate

BA in Physics (Teacher Preparation)	829	BS in Civil Engineering	527
BA in Political Science	976	BS in Communication Sciences and Disorders	605
BA in Political Science and Journalism	154	BS in Computer Engineering	537
BA in Political Science and Journalism	979	BS in Computer Science	552
BA in Political Science (International Relations)	977	BS in Construction Management	565
BA in Psychology	995	BS in Criminal Justice	625
BA in Social Science	1007	BS in Electrical and Electronic Engineering	577
BA in Social Work	710	BS in Environmental Studies	887
BA in Sociology	1017	BS in Family and Consumer Sciences (Family Studies)	902
BA in Spanish	319	BS in Family and Consumer Sciences (Fashion Merchandising and Design)	903
BA in Theatre	299	BS in Family and Consumer Sciences (Nutrition and Food)	903
Baccalaureate Degree Requirements	72	BS in Family and Consumer Sciences (Nutrition and Food-Dietetics) ...	903
Bachelor of Music (Instrumental)	261	BS in Fashion Merchandising and Management	905
Bachelor of Music (Jazz Studies)	263	BS in Geology	804
Bachelor of Music (Keyboard)	265	BS in Gerontology	912
Bachelor of Music (Music Education)	267	BS in Graphic Design	162
Bachelor of Music (Theory/Composition)	269	BS in Health Science (Community Health Education)	634
Bachelor of Music (Voice)	271	BS in Health Science (Health Care Administration)	636
BFA in Graphic Design	160	BS in Health Science (Occupational Health and Safety)	638
BFA in Studio Art	126	BS in Kinesiology (Athletic Training)	653
Biological Sciences	717	BS in Kinesiology (Exercise Science)	653
Biological Sciences (BIO)	1117	BS in Kinesiology (Physical Education)	655
Biological Sciences Honors Program	734	BS in Mechanical Engineering	595
Blended BS/MS in Mechanical Engineering Program	594	BS in Nursing (Pre-Licensure)	668
BS in Biochemistry	773	BS in Nutrition and Food	906
BS in Biological Science (Biomedical Sciences)	735	BS in Physics	831
BS in Biological Science (Cell and Molecular Biology)	737	BS in Physics (Applied Physics)	832
BS in Biological Science (Clinical Laboratory Sciences)	739	BS in Recreation Administration (Recreation and Park Management) ...	694
BS in Biological Science (Ecology, Evolution, and Conservation)	741	BS in Recreation Administration (Recreation Therapy)	696
BS in Biological Science (Forensic Biology)	743	BS in Women's Studies	1024
BS in Biological Science (General Biology)	745		

Business Administration	325	Certificate in Non-Profit Administration	699
Business Administration (BUS)	1128	Certificate in Outdoor Adventure Administration	700
Business Honors (BHON)	1128	Certificate in Pan African Studies	897
Business Honors Program	369	Certificate in Personal Trainer Strength and Conditioning	656
C		Certificate in Pre-Planning	794
California Promise	11	Certificate in Scientific Computing and Simulation	834
California Studies	871	Certificate in Scientific Instrument Development	834
Campus Life	98	Certificate in Software Engineering	557
Campuses of the California State University	13	Certificate in Software Engineering - Graduate	557
Capital Fellows Certificate in Applied Policy and Government	980	Certificate in Structural Engineering - Graduate	530
Certificate in Advanced Business Studies (CABS)	369	Certificate in Systems Software	558
Certificate in Advanced Programs - Graduate	554	Certificate in Systems Software - Graduate	558
Certificate in African Studies	841	Certificate in Teaching Composition	190
Certificate in Applied Policy and Government	1005	Certificate in TESOL	191
Certificate in Behavior Analysis	997	Certificate in Transportation Planning - Graduate	530
Certificate in Collaborative Governance	1005	Certificate in Transportation/Traffic Engineering - Graduate	530
Certificate in Computer Architecture - Graduate	554	Certificate in Treatment Systems - Graduate	530
Certificate in Computer Engineering - Graduate	554	Certificate in Wastewater Treatment	530
Certificate in Computer Networks and Communications - Graduate	555	Certificate in Water Quality - Graduate	531
Certificate in Cyber Defense and Operations	555	Certificate of Competency in Educational Technology	414
Certificate in Data Management Systems - Graduate	555	Certificate of Competency in Mathematics Education	414
Certificate in Data Mining - Graduate	555	Certificate of Competency in Reading	414
Certificate in Economics Education	879	Certificate of Competency in Teaching Reading to Adults	415
Certificate in Engineering Hydraulics - Graduate	529	Certificate Program in Healthcare Spanish	321
Certificate in Event Planning	698	Chemistry	762
Certificate in Family Life Education	909	Chemistry (CHEM)	1130
Certificate in Foundation Engineering - Graduate	529	Chemistry Honors Program	776
Certificate in Game Engineering	556	Child Development (CHDV)	1135
