

Student Housing Advisory Committee

The Committee develops a comprehensive student housing proposal and process for each student housing project, including reports and materials, which will facilitate the movement of projects through the campus and Chancellor's Office approval process. The Committee, in collaboration with stakeholders, will serve as the core committee on all projects that require approval by the CSU Housing Proposal Review Committee and the Chancellor's Office. The committee is dormant when there are no new campus housing projects.

Faculty Representative

- Corey Shanbrom, Mathematics and Statistics (NSM) – Term: Fall 2023 – Spring 2024
