

University Sustainability Steering Committee

The Committee assesses current sustainability practices for incorporation of best technology; recommends new methods/techniques for incorporating sustainability into operational activities and facilities design; partners with the community we serve; and identifies and tracks critical performance indicators to keep sustainability practices and strategies on course.

Faculty Representatives

- Matthew Krauel, Mathematics and Statistics (NSM) – Term: Fall 2023 – Spring 2025
- Michael Mink, Public Health (HHS) – Term: Fall 2023 – Spring 2025
