## COMMITTEE MEMBERS

### ABOUT START

ABA's Strategy Team: Achieving Results Together (START) is a subcommittee of ABA's Management Council.

START is comprised of staff representing each of ABA's families and is chaired by the Director of Organizational Development. START members act as the primary communication vehicle for ABA's strategic planning activities, particularly those focused on staff recognition and engagement.

START members also work to identify issues for discussion, propose initiatives, and to facilitate implementation of action plans in partnership with Management Council.

Meetings are generally held on the second Tuesday of each month.
