

# All University Expenses (AUEs)

2022-23 Allocation

**AUE Definition:** Budget that is allocated to a division to cover expenditures that are restricted to a specific type of expense and cannot be used for any other purpose. Costs are ongoing in nature and have university wide implications that are beyond the normal scope of operations for any one division, program center, or department. Due to the nature of the expense, the division may have little control over the expenditures (e.g. utility or insurance premium costs). Permanent salaried positions should not be included in this category because these costs are controllable by the division. AUEs are managed by the central Budget Office.
