CAMPUS NOTIFICATIONS:
CONSTRUCTION IN PROCESS

Repair/Replace Natural Gas Isolation Valve: July 19-23

Central Plant will be repairing and replacing an isolation valve on July 19-23 from 6am-5pm. There will be no impact to the campus gas supply. While the lines are being drained, any passers by may notice a slight smell of natural gas. PG&E will have two tanks on campus at the Central Plant to refill the gas lines once they are drained. Additionally, there will be no impact to traffic but PG&E will have equipment in use and vehicles parked on Moraga Way during this time.

Power Outage: July 16-18

Facilities Management will be performing electrical infrastructure maintenance on high-voltage conductors from Friday, July 16 through Sunday, July 18. Please be sure to turn off computers and electric equipment that may be adversely affected by a power interruption prior to this outage. Power outages will occur as follows:

1. PHASE 1: Generator Connection:
   a) Date and Time of Power Outage:
      • 7/16/21 at 5AM to 7:30AM – TOTAL OUTAGE DURATION IS 2.5 HOURS
