

Facilities Management – Paint Shop: Available Paints and Painting Process

Process:

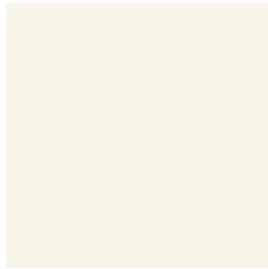

Facilities Management provides repainting on a 10/8 year cycle. Once every 10 years for all classrooms and offices, and once every 8 years in public areas. Public areas include:

- Bathrooms
- Foyers
- Stairwells
- Hallways.

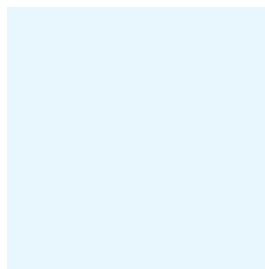

Departments have the option of paying to have a room or area painted off-cycle. For off-cycle painting please submit a work request to Facilities Management for estimation. Once Departments have provided the appropriate approvals and billing information work will be scheduled and performed. Painting estimates will include all labor and materials necessary to repair minor blemishes, preparation of wall surfaces, and application of two coats of finish paint depending on coverage requirements and sheen.

Available Paints:

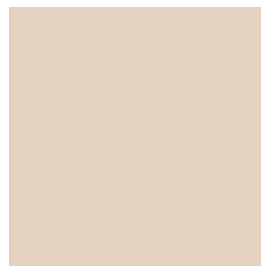

All paint colors shall be selected from the approved campus color palette. The 10 colors consist of white, and the following colors:

Swiss Coffee DEW 341
