# What if my Report Filters are Missing?

Here is an example screen showing FDW with all the report filters missing:

Note that the Report Filters section is completely blank.

This issue is infrequent, and has been reported to the FDW team at the Chancellor's Office. As a workaround we suggest using a different browser.

1. Sign Out
2. Close your browser
3. Open a different browser (Chrome, Firefox, etc.)
    This problem has only been reported from users running Internet Explorer. So try a browser that is not Internet Explorer.
4. Sign In
5. Try your report again.
