March 17,

Dear Prospective Physics or Physical Science Major:

Congratulations on having been admitted to Sacramento State for Fall 2011! You have chosen Physics or Physical Science as your major, and some of you have already indicated your intention to join us in the Fall. We certainly would like to welcome you all to our friendly and vibrant department.

Our objective is to provide you with as much information as you need to make an informed decision about your choice of school. To that end, we are planning an open house on Saturday, April 16 so you and your parents can join us for a half-day visit and meet our professors, students, and staff, and see our laboratories and facilities up close, hear a bit about what we have to offer, and have your questions answered. The invitation and detailed itinerary will be mailed to you within the next few weeks.

Meanwhile, we invite you to check out our web site which is a rich source of information about our department. While there, be sure to look under Future Students for further information and Programs for the details of our degree programs. You can also view the schedule of our colloquia to see if you (or your parents) would like to attend one of the presentations on the Spring roster, or the Alumni page to learn about career paths that are possible with a physics degree.

Please don’t hesitate to contact our office, physics@csus.edu, or one of us named below.

William DeGraffenreid
Society of Physics Students Advisor
degraff@csus.edu

Hossein Partovi
Department Chair
