## California Behavioral Risk Factor Surveillance System Data User Agreement California State University, Sacramento Public Health Survey Research Program

It is of utmost importance to protect the identities of California Behavioral Risk Factor Surveillance System (BRFSS) respondents. Every effort has been made to exclude identifying information on individual respondents from the computer files. Certain demographic information—such as sex, race, etc.—has been included for research purposes. All research results must be presented or published in a manner which ensures that no individual can be identified. In addition, there must be no attempt either to identify individuals from any computer file or to link with a computer file containing respondent identifiers.

The undersigned agrees to all of the following regarding use of California Behavioral Risk Factor Surveillance System (BRFSS) data sets:

1. BRFSS data will be used for academic, research, or professional purposes only. BRFSS data will not be used to identify people.
2. If the investigator unexpectedly learns the identity of one or more living individuals, then the research activity is considered to involve human subjects under the HHS regulations and must go through IRB review at the investigator's home institution.
3. BRFSS data is for the exclusive use of the individual requesting the data. The user will not alter, share, release or redistribute original BRFSS data.
4. Original BRFSS data is released "as is." Neither the Public Health Survey Research Program of California State University, Sacramento nor the California Department of Public Health, or any of their respective divisions or subdivisions, make any representations, express or implied, about data completeness or accuracy, or fitness of the data for a particular purpose.
5. User will acknowledge the "California Behavioral Risk Factor Survey Workgroup" in all publications or presentations pursuant to the guidelines set forth in the most current version of the *California Behavioral Risk Factor Survey SAS Documentation and Technical Report* (this document will be included in an email with the dataset requested).
6. User will notify Public Health Survey Research Program of all writings and/or presentations, including but not limited to published articles, accepted abstracts, academic papers, and conference presentations or papers, that include or are based on BRFSS data.

7. User agrees to send via email one (1) reprint of all publications using BRFSS data to the following entity:
