

ITEP: Accelerated Liberal Studies and Teaching Credentials Pathway

Do you: Have a passion for Science, Technology, Engineering and Mathematics (STEM)?
Want to open children's hearts and minds to the wonders of learning?
Care about making a difference in your community?

You could be a great teacher!

Earn a B.A. and 2 teaching credentials in just 4.5 years

The Integrated Teacher Education Pathway (ITEP) leads to a Bachelor of Arts in Liberal Studies, a Multiple Subject (Elementary) Credential, and an Introductory Science Subject Matter Authorization or General Science (grades 7-9) teaching credential.

There is a dire shortage of teachers in California, especially those prepared to teach high quality science to diverse learners. Effective teachers change lives and improve communities!

What will you get from ITEP?

- Experience the rewards and demands of being a teacher from your freshman year
- Develop a professional network for mentoring, ideas and opportunities
- Be well-positioned for a teaching position – starting salary in the Sacramento region is \$45,000+ per year with full benefits and pension
- Save time and money with the accelerated pathway
