Biography

Evren Eryilmaz is an associate professor of Management Information Systems and the Director of the Center for Small Business at the California State University Sacramento. He earned his PhD in Information Systems and Technology from Claremont Graduate University. He enjoys teaching hands on subjects such as Machine Learning, Big Data Technologies for Business, Social Media Analytics, System Analysis, and Capstone courses. His research interests include text analytics, design science research, online entrepreneurial/health communities, and stakeholder management in software development projects. He has published his research in premier journals including the Journal of Management Information Systems, Information & Management, and Journal of the Association for Information Systems. He received the outstanding faculty awards for research and teaching at the California State University Sacramento in 2023 and 2025. Under his leadership, the Center for Small Business received a \$20,000 grant from the Bank of America Foundation in 2024.
