

Spring 2026 Registration Information

Instruction begins on Monday, January 26, 2026

Read Carefully

For Spring 2026 registration instructions, follow the information below. See specific registration requirements under your appropriate program listed.

Important Details

- Registration appointments are assigned by class level priority two weeks prior to the first day of registration. You can log into [MySacState](#) to look up your registration appointment. Registration information:
 - Continuing Students registration will most likely begin November 20th
- Post-Bachelors (graduate-level) credential students will be allowed to enroll up to 28 units.
- If you experience registration errors and are unable to enroll in a course(s) please contact the Teaching Credentials staff (contact info listed below). *It is important that all HOLDS are cleared so that staff can add you without delays.*
- Remember to check your emails daily over the break for important announcements from the Teaching Credentials department AND to visit the [Current Student](#) on the Teaching Credentials website for the most up-to-date information.
- **For candidates going into their final semester who have not met Subject Matter Competency:** You may NOT continue to your final student teaching placement without submitting verification of passing scores to meet subject matter competency. As a result, you may have a HOLD on your account which will prevent you from registering for classes. Please notify the department (coe-cred@csus.edu) immediately to discuss alternative options.

The credential courses are NOT published in the Schedule of Classes in MySacState. You will NOT be able to search for the credential courses; you MUST follow the links below to obtain specific registration information.

Multiple Subject Schedule of Classes
