

ACCESSIBILITY AWARENESS DAY

Accessibility Session

Join us to learn about how to make the most of Apple's accessibility features. Session will focus on increasing digital access and inclusion for the more than 1.3 billion people worldwide who have disabilities.

This session will include learning from specialists how to use and customize the built-in features of iPhone, iPad, and MacOS for yourself or others. Attendees are encouraged to bring their own devices updated to the latest IOS.

We'll explore accessibility features for:

- Vision
- Hearing
- Speech
- Mobility
- Cognitive
