EAST BAY

Dear Robert:

FRESNO

FULLERTON

The Division of Academic and Student Affairs has reviewed the proposal to implement a Doctor of Audiology degree program at California State University, Sacramento. This program appears on the campus Academic Plan as approved by the California State University Board of Trustees; and you have provided information indicating that faculty, physical facilities and library holdings sufficient to establish and maintain this program currently exist or are expected to become available.

HUMBOLDT

LONG BEACH

LOS ANGELES

Upon the recommendation of my staff, I am pleased to grant approval for California State University, Sacramento to offer the state-support Doctor of Audiology degree program, effective fall 2020, conditional on the existence of adequate resources. If the program is not implemented by 2025, the campus is required to submit to the Chancellor's Office an updated program proposal for review. In accordance with CSU Board of Trustees policy, performance review of this degree program should be scheduled to occur within five years of program implementation. The program has been assigned the CSU degree-program code 12202, and the CIP code is 51.0202. The campus is responsible for adding this degree program and any concentrations to the CSU Degrees Database. A change in support mode or location would require Chancellor's Office review and approval.
