Place of Course in Program

This course will generally be taken by students during their first semester of the graduate program and is considered to be the entry practicum course in language disorders, aural rehabilitation, and auditory processing. The methods course (CSAD 242A) is a co-requisite to this practicum course. Each clinician/graduate student will be assigned one client for whom they are responsible for an approximately 13-14 week clinical semester. While the practicum's focus will be auditory processing disorders, aural rehabilitation, language disorders and speech sound disorders, the focus may be modified to meet client needs.

Grading Policy:

A passing grade for clinic performance is based on the ***Final Clinical Competencies***. You should review competencies BEFORE clinic starts so that you are aware of all items that will become part of your formative and summative assessment for this clinic. The Clinical Competencies will be completed by your clinical instructor at midterm and at final, but it is the **final** Clinical Competency Report on which your clinic grade is based. The Clinical Competencies are separated into four (4) general categories: Writing, Assessment, Treatment, and Professional Behavior. Each general competency area consists of numerous individual line items.

A passing grade for each clinic is a B- or higher. A passing grade is obtained by achieving a rating of 4.0 or better on the average combined score of the 4 general competency categories, provided that the student achieves; (a) an average rating of 4.0 or better for **each** of the 4 general competency categories **and** (b) a minimum score of 3.0 on **all** individual competency line items. **Therefore, any student receiving (a) a rating of 2.99 or less on any one (or more) specific line item or (b) a rating of 3.99 or less for a competency category will not pass the clinic, even if their average combined score of the 4 general competency categories is a B- or higher. In such cases, a grade of C+ will be given for the clinic.**

Letter grades will be based upon the following:

Course Policies/Procedures:

General Course Policies

1. Attendance: Prompt attendance at clinic treatment sessions is required at all times. Any missed assessment or treatment sessions must be made up during the week between the end of clinic and finals week and with the approval of your clinical instructor. A clinical instructor must be supervising your sessions at all times. Failure to attend sessions, even for excused absences, will result in a failure to obtain the necessary clock hours in this clinic. If you miss more than two sessions OR two scheduled meetings with your clinical instructor, you are required to meet with both your clinical instructor and your methods instructor.
2. Paperwork: Submission of the Initial Case Report, revised Initial Case Report, and Final Case Report are required. Failure to submit case reports in a timely fashion will result in failure of the Writing and/or Professional Behavior competencies. In addition, graduate clinicians are expected to submit weekly lesson plans, SOAP notes, and/or reflective journaling as indicated by the Clinic Coordinator and Clinical Instructors.
3. Clinical Instructors: Your clinical instructor and your therapy times have been assigned to you by the scheduling office. No change to your schedule may be made without the approval of the Clinic Coordinator. Your Clinical Instructors are required to meet with you on a weekly basis. Those meetings may be individual or group conferences to discuss clients and assessment/treatment plans. Attendance at these conferences is mandatory. If you have concerns that your clinical development is not being adequately addressed, you should first talk with your Clinical Instructor. If you remain concerned, speak with the Clinic Coordinator.
4. Clinic Handbook: A Clinic Handbook will be provided to you at the start of the semester. The Clinic Handbook is updated every semester. You are responsible for following the policies and procedures described in the Clinic Handbook. You are expected to have read the clinic handbook prior to the first day of clinic. You are responsible for abiding by all policies as described in the **current** Clinic Handbook.

ASHA Code of Ethics Statement

As a future clinician, I expect you to follow the Sacramento State Commitment to Integrity (see Additional Information) as well as the American Speech Language Hearing Association (ASHA) Code of Ethics.

The four Principles of Ethics form the underlying philosophical basis for the Code of Ethics and are reflected in the following areas:

- (I) *responsibility to persons served professionally and to research participants, both human and animal;*
- (II) *responsibility for one's professional competence;*
- (III) *responsibility to the public; and*
- (IV) *responsibility for professional relationships.¹*

¹ <https://www.asha.org/code-of-ethics/>

Written Assignments:

All students are required to complete daily paperwork for each session, lesson plans/SOAP notes in accordance to individual CI due dates, the initial case report, and the final case report. In some circumstances, students will also be expected to prepare additional documents, such as providing session data in tables, or writing referrals to other providers. All written assignments should be your **own work**. You **may not** copy wording directly from previous reports – this is considered plagiarism (see Academic Integrity, below).

In-Session Observation:

All students are supported at a *minimum* of a 1:4 instructor:student ratio. The CI will provide written feedback on every session, which the student is to read and *respond* to. In addition, the CI will provide oral feedback before, during, and/or after sessions. The CI may enter clinical sessions in order to model a technique or to facilitate a discussion.

Midterm and Final Competencies:

Students will be provided with a current grade in the course twice during the semester. Midterm and final competency ratings cover the four areas of clinical practice and are completed in the CALIPSO software. Midterm competencies ratings are used to provide students with feedback using a graded standard. **Your final competencies will be your semester grade**, *not* an average of the two ratings.

Meetings with Clinical Instructors:

Students are expected to attend all meetings with CI, arriving prepared and ready to discuss clients. It is inappropriate for students to be late, unprepared, to have failed to read assigned materials, or to have failed to turn in assigned activities or assignments. It is expected that student meet (individually or in group) for an hour a week outside of their scheduled sessions with their CIs. Students have the right to request individual meetings or additional meetings with their CIs.

Hours Log:

Students are expected to maintain their own log of hours, to be signed by the CI. If you do not believe you are on track to complete the required hours for this clinic, please speak to both your clinical instructor and the clinic director.
