

California State University, Sacramento

Department of Communication Sciences and Disorders

GRADUATE SYLLABUS & COURSE OUTLINE

Semester/Year: Spring 2026	Course: CSAD 229C Practice: Speech Disorders III	Section: ALL Sections
Meeting Days: Monday/Wednesday	Meeting Times: Clinic MW afternoon	Location: In person, clinic
Instructor: Joanna Bodas Katie Wilson Karen Griner Gabriel Plaza-Garcia Joseph Arata	Emails: Please see your Clinical Instructor for best Email contact	Phone: See your clinical instructor for contacts
Office Location: varied	Office Hours/Appointments: By appointment with clinical instructors and Dr. D'Angelo	

Catalogue Course Description:

CSAD 229C. Practice: Speech Disorders III.

2 Units

Prerequisite(s): Instructor permission

Corequisite(s): [CSAD 228C](#)

Term Typically Offered: Fall, Spring

Supervised clinical practice emphasizing children and adults whose speech is disrupted secondary to developmental disorders and syndromes, degenerative disorders or complex problems.

Place of Course in Program

This supervised clinical practicum course is placed in the curriculum at the graduate level while they graduate student is completing related coursework (228C Speech III Methods) concurrently with this practicum in multiple speech and language disorders and augmentative communication.

Sacramento State Graduate Learning Goals (GLG)	Addressed by this course (Y/N)
Disciplinary knowledge: <i>Master, integrate, and apply disciplinary knowledge and skills to current, practical, and important contexts and situations.</i>	Y
Communication: <i>Communicate key knowledge with clarity and purpose both within the discipline and in broader contexts.</i>	Y
Critical thinking/analysis: <i>Demonstrate the ability to be creative, analytical, and critical thinkers.</i>	Y
Information literacy: <i>Demonstrate the ability to obtain, assess, and analyze information from a myriad of sources.</i>	Y
Professionalism: <i>Demonstrate an understanding of professional integrity.</i>	Y
Intercultural/Global Perspectives: <i>Demonstrate relevant knowledge and application of intercultural and/or global perspectives.</i>	Y

CSAD 229C Practice: Speech Disorders III.

Expected Learning Outcomes (ELO) 1

Upon completion of this course, students will demonstrate clinical competency in evaluation when working with clients exhibiting complex and multiple speech and language disorders.

Expected Learning Outcomes (ELO)2

Upon completion of this course, students will demonstrate clinical competency in intervention when working with clients exhibiting complex and multiple speech and language disorders.

Expected Learning Outcomes (ELO) 3

Upon completion of this course, students will demonstrate clinical competency in writing when working with clients exhibiting complex and multiple speech and language disorders.

Expected Learning Outcomes (ELO) 3

Upon completion of this course, students will demonstrate clinical competency in interaction and personal qualities (professional behavior) when working with clients exhibiting complex and multiple speech and language disorders.

CSUS CSAD MS Program Learning Outcomes

The course must provide Competency Enriched Activities (e.g., content and opportunities) for students to learn so that each student can **demonstrate professional attributes and abilities**. To that end, identifying and articulating the ASHA Professional Competencies and Foundational Knowledge, and/or clinical skills that you acquire in this course and during your time at Sac State are critical to becoming career ready and your success both as a student and post-graduation. In this syllabus, assignments, readings, in-class activities, and exams are all opportunities where you can enhance and gain the professional and foundational competencies and skills that employers are seeking and the field requires. This will occur throughout this course including class conversations and will contribute to your ability to identify and articulate these competencies and skills when applying for leadership roles, internships, employment, doctoral programs, fellowships, and more. Note: Failure to meet professional competencies may result in an Academic Performance Improvement Plan (A-PIP) or Clinical Performance Improvement Plan (C-PIP.)

CSUS CSAD MS Program Learning Outcomes		
Competency Area:	Examples of Skills to be Demonstrated:	Competency Enriched Activity (CEA)
Accountability:		
•Adhere to the professional codes of ethics, the speech-language pathology scope of practice documents, professional fiduciary responsibility for each client/patient/student served, and federal state, and institutional regulations and policies related to the profession of speech-language	<ul style="list-style-type: none">• Comply with all HIPAA and FERPA requirements.• Comply with all of ASHA's code of ethics.	<u>This Course:</u> <ul style="list-style-type: none">• Plan, Assessment, Interview Summary• Clinical Service and Rounds• Report <u>The Program:</u>

pathology and its services, including compliance with confidentiality issues related to the Health Insurance Portability and Accountability Act (HIPAA) and the Family Educational Rights and Privacy Act (FERPA).		<ul style="list-style-type: none"> • Clinic Orientation • Internship Orientation • Professional Development Series • Interprofessional Education (IPE) Learning Experiences • All CSU Compliance Trainings, completed by the end of the first week of the semester
• Differentiate service delivery models based on practice sites (e.g., hospital, school, private practice).	<ul style="list-style-type: none"> • Demonstrate understanding of SLP service differences between employment settings. • Demonstrate understanding of differences between levels of care in medical SLP services. 	<p><u>This Course:</u></p> <ul style="list-style-type: none"> • Clinical practice • Clinical Rounds <p><u>The Program:</u></p> <ul style="list-style-type: none"> • Clinic Orientation • Internship Orientation • Professional Development Series • Interprofessional Education (IPE) Learning Experiences
• Demonstrate an understanding of the effects of their actions and make appropriate changes as needed.	<ul style="list-style-type: none"> • Demonstrate awareness, understanding, and ability to perform professional problem solving, communication repair, and resolution including on-time behaviors for clinic, notes, assignments, meetings, orientations, misunderstandings, etc. 	<p><u>This Course:</u></p> <ul style="list-style-type: none"> • Clinical Service • Clinical Rounds <p><u>The Program:</u></p> <ul style="list-style-type: none"> • Clinic Orientation • Internship Orientation • Professional Development Series • Interprofessional Education (IPE) Learning Experiences

Mastery of each student-learning outcome listed below is indicated by a grade of B or better on each component of the corresponding measures listed in the table. Students are required to track their progress towards meeting each learning outcome and must make an appointment with the instructor for any grade equal to or less than a B. The instructor will suggest strategies to help you establish competence and knowledge in these areas.

Students should track their progress towards meeting each learning outcome by listing their grades on the table below over the course of the semester.

Textbooks and Materials:

No textbook

Canvas: This course is embedded into a Web Course format. You **must** have an active CSUS email and use CSUS's Canvas platform to access handouts, course assignments, class discussions and class email.

Course Requirements/Components: The student clinician will be responsible for:

Clinic Sessions Attendance
 Clinic Meetings with Instructor
 Chart Review, Assessment Plan, and Interview Questions
 Reports
 Data Collection
 Client Summaries

Online Resources:

CANVAS, Microsoft Teams

Grading Policy:

CSUS Grading Policy

The CSUS Grading Policy (Policy# 11476953) can be found at:

<https://sacramentostate.policystat.com/policy/11476953/latest>

A passing grade for clinic performance is based on the Final Clinical Competency Form. You should review this form BEFORE clinic starts so that you are aware of all items that will become part of your formative and summative assessment for this clinic. The Clinical Competency form will be completed by your clinical instructor at midterm and at final, but it is the **final** Clinical Competency Report on which your clinic grade is based. The Clinical Competency Form is separated into four (4) general competency categories: Writing, Assessment, Treatment, and Professional Behavior. Each general competency area consists of numerous individual line items.

A passing grade for each clinic is a B- or higher. A passing grade is obtained by achieving a rating of 4.0 or better on the average combined score of the 4 general competency categories, provided that the student achieves; (a) an average rating of 4.0 or better for **each** of the 4 general competency categories **and** (b) a minimum score of 3.0 on **all** individual competency line items. **Therefore, any student receiving (a) a rating of 2.99 or less on any one (or more) specific line item or (b) a rating of 3.99 or less for a competency category *will not pass the clinic, even if their average combined score of the 4 general competency categories is a B- or higher. In such cases, a grade of C+ will be given for the clinic.***

Letter grades will be based upon the following:

SCORE	GRADE	DESCRIPTION
4.65 - 5.00	A	<u>Exceeds Performance Expectations</u> (Minimum assistance required) <ul style="list-style-type: none">Clinical skill/behavior well-developed, consistently demonstrated, and effectively implementedDemonstrates creative problem solvingClinical Instructor consults and provides guidance on ideas initiated by student
4.50 - 4.64	A-	
4.35 - 4.49	B+	<u>Meets Performance Expectations</u> (Minimum to moderate assistance required) <ul style="list-style-type: none">Clinical skill/behavior is developed/implemented most of the time, but needs continued refinement or consistencyStudent can problem solve and self-evaluate adequately in-sessionClinical Instructor acts as a collaborator to plan and suggest possible alternatives
4.15 - 4.34	B	
4.00 - 4.14	B-	
3.85 - 3.99	C+	<u>Needs Improvement in Performance</u> (Moderate assistance required) <ul style="list-style-type: none">Inconsistently demonstrates clinical skill/behaviorStudent's efforts to modify performance result in varying degrees of successModerate and ongoing direction and/or support from Clinical Instructor required to perform effectively
3.65 - 3.84	C	
3.50 - 3.64	C-	
3.35 - 3.49	D+	<u>Needs Significant Improvement in Performance</u> (Maximum assistance required)

		<ul style="list-style-type: none"> Clinical skill/behavior is beginning to emerge, but is inconsistent or inadequate Student is aware of need to modify behavior, but is unsure of how to do so Maximum amount of direction and support from clinical Supervisor required to perform effectively.
3.15 – 3.34	D	
3.00 – 3.14	D-	
1.00 – 2.99	F	Unacceptable Performance (Maximum assistance is not effective) <ul style="list-style-type: none"> Clinical skill/behavior is not evident most of the time Student is unaware of need to modify behavior and requires ongoing direct instruction from Clinical Instructor to do so Specific direction from Clinical Instructor does not alter unsatisfactory performance

Course Policies/Procedures:

Course Policies

Attendance: Attendance to treatment and meetings is required. Missed treatment sessions will be made up the week after clinic and before finals and requires the approval of your clinical instructor. Should you be unable to attend or tardy for a treatment session or meeting, alert your clinical instructor and follow clinic and tele-practice procedures. Attendance is mandatory at each clinical assignment for which Student Clinicians are scheduled. If for any reason you cannot attend a session(s) due to illness, emergency, or other extenuating circumstance, please adhere to the procedures outlined in the Clinic Handbook.

Clinical Instructors: Therapy times have been assigned by the scheduling office. Schedule changes must be approved by the Clinic Coordinator. Meetings with your clinical instructor will be either individual or group meetings. Should a concern arise regarding clinical issues, please communicate with the clinical instructor first and then the clinic coordinator if concerns persist.

Assignments: Assignments are due to the CI, on or before the date given by the CI. Late, missing, or incomplete assignments will affect the midterm and final competency scores. In the case of medical emergencies or illness, the student must submit written documentation.

TENTATIVE Course Schedule/Outline:

TENTATIVE CLINIC SCHEDULE AND EXPECTATIONS (VERIFY SPECIFIC DATES WITH YOUR CLINICAL INSTRUCTOR) <i>For additional information, please see the</i> (a) Student Clinic Handbook or the (b) Student Clinic Handbook, Clinical Instructor edition)		
Date	Expectations	
Week	Student Will:	Clinical Instructor Will:
1	Submit client summary to clinical instructor, if required.	review
2	Interview questions due to supervisors, if required. Clinic begins. Complete clinic required forms and conduct interviews.	review

3	Complete clinic required forms and conduct interviews. Conduct evaluations/assessment. Therapy.	
4	Conduct evaluations/assessment. Therapy.	
5	Therapy.	
6	Submit first draft of Initial Case Reports (ICR). This draft is graded.	Review and grade and meet for midterm
7	Continue therapy.	
8	Continue therapy.	
9	Continue therapy.	
10	Continue therapy.	
11	Continue therapy.	
12	Continue therapy.	
13	Submit Final Care Reports (FCR) by date CI gives	Review and grade
14	Make FCR corrections and resubmit to your clinical instructor. FCR is due to your CI by due date. Conduct final conference with client/caregiver. Final reports are given to clients/caregiver.	Review, grade
15	Dead Week. Make up clinic hours if needed. Meet with CI for final competency evaluation.	Meet for final competency evaluation
16	Finals Week.	

Additional Information

Hornet Honor Code

<https://www.csus.edu/student-affairs/internal/documents/hornet-honor-code.pdf>

As proud members and representatives of the Sacramento State Hornet community, we commit ourselves to actively promoting honesty, integrity, respect, and care for every person, ensuring a welcoming campus environment, and striving to help every member of our Hornet family feel a strong sense of belonging.

As Hornets, we will:

- Promote an inclusive campus and community
- Listen and respect each other's thoughts, interests, and views Value diversity and learn from one another
- Engage daily with mutual trust, care, and integrity
- Support a culture of honor and adhere to campus policies for honesty, ethics, and conduct
- Be proud to be Sac State Hornets.

Commitment to Integrity: As a student in this course (and at this university) you are expected to maintain high degrees of professionalism, commitment to active learning and participation in this class and also integrity in your behavior in and out of the classroom.

Sac State's Academic Honesty Policy & Procedures: "The principles of truth and honesty are recognized as fundamental to a community of scholars and teachers. California State University, Sacramento expects that both faculty and students will honor these principles, and in so doing, will protect the integrity of academic work and student grades." Read more about Sac State's Academic Honesty Policy & Procedures at the following website: <http://www.csus.edu/um anual/student/stu-0100.htm>

Definitions: At Sac State, "cheating is the act of obtaining or attempting to obtain credit for academic work through the use of any dishonest, deceptive, or fraudulent means." **Plagiarism** is a form of cheating. At Sac State, "plagiarism is the use of distinctive ideas or works belonging to another person without providing adequate acknowledgement of that person's contribution." Source: Sacramento State University Library Note: Any form of academic dishonesty, including cheating and plagiarism, may be reported to the office of student affairs.

Use of Artificial Intelligence in CSAD Classes

Generative artificial intelligence tools—software that creates new text, images, computer code, audio, video, and other content—have become widely available. Well-known examples include ChatGPT for text and DALL•E for images. This policy governs all such tools, including those released during our semester together. There are certain assignments where you may use generative AI tools on assignments in this course. The instructor will specify when AI is permitted on assignments. This will be included in the assignment instructions and/or rubric. If you do use generative AI tools on specified assignments in this course, you must properly document and credit the tools themselves; this requires a citation. Additionally, with the citation, please include a brief description of how you used the tool. If you choose to use generative AI tools, please remember that they are typically trained on limited datasets that may be out of date. Additionally, generative AI datasets are trained on pre-existing material, including copyrighted material; therefore, relying on a generative AI tool may result in plagiarism or copyright violations. Finally, keep in mind that the goal of generative AI tools is to produce content that seems to have been produced by a human, not to produce accurate or reliable content; therefore, relying on a generative AI tool may result in your submission of inaccurate content. It is your responsibility—not the tool's—to assure the quality, integrity, and accuracy of work you submit in this course. If you use generative AI tools to complete assignments in this course, in ways that have not been explicitly authorized, the CSUS Academic Integrity Policy will be followed. Possible sanctions for Academic Honesty violations include failing the assignment, failing the course, dismissal from the program and/or suspension or expulsion from CSUS. Please be wary of unintentional plagiarism or fabrication of data and act with academic integrity. As of June 2023, APA style recommends citing the AI tool as the author, with in-text citations and references adapted from the reference template for software in Section 10.10 of the Publication Manual (American Psychological Association, 2020, Chapter 10).

Example: OpenAI. (2023). ChatGPT (Mar 14 version) [Large language model].

<https://chat.openai.com/chat>

- Parenthetical citation: (OpenAI, 2023)
- Narrative citation: OpenAI (2023)

Non-registered Persons in CSAD Classes

The Department of Communication Sciences and Disorders and its faculty are supportive of student parents and families.

There are times when students may request that individuals who are not enrolled be permitted to attend Communication Sciences and Disorders (CSAD) classes. At this time, for the safety of our students and the confidentiality of students enrolled in the class (per FERPA guidelines), adults (individuals above the age of 17) are not permitted to attend CSAD classes.

In some situations that are due to unforeseen circumstances, students may request that minors (individuals aged 17 or below) be permitted to attend classes. At this time, students must request from their course instructor, in advance, if they can bring a minor individual to the class. It is up to the discretion of the individual instructor on whether or not they will permit a minor individual to attend the class. Faculty are not required to provide a reason to the student regarding why a minor may not attend. However, reasons may include client confidentiality, safety, risk, liability, or the nature of the class content.

Equal Access:

California State University-Sacramento, Department of Communication Sciences and Disorders, seeks to provide equal access to its programs, services, and activities for people with disabilities. If you have a documented disability and verification from the Disability Access Center (DAC), and wish to discuss academic accommodations, please contact your instructor as soon as possible. It is the student's responsibility to provide documentation of disability to DAC and meet with a DAC counselor to request special accommodation before classes start. Sacramento State Disability Access Center offers a wide range of support services and accommodations for students in order to ensure students with disabilities have equal access and opportunity to pursue their educational goals. Working collaboratively with students, faculty, staff and administrators, DAC provides consultation and serves as the information resource on disability related issues to the campus community. DAC is located in Lassen Hall 1008 and can be contacted by phone at (916) 278-6955(Voice) or (916) 278-7239 (TDD only) or via email at dac@csus.edu

Inclusivity: Students in this class are encouraged to speak up and participate through in-person, online, or discussion posts. Each of us must show respect for each other because our class represents a diversity of beliefs, backgrounds, and experiences. I believe that this is what will enrich all of our experiences together. I recognize that our individual differences can deepen our understanding of one another and the world around us, rather than divide us. In this class, people of all ethnicities, genders and gender identities, religions, ages, sexual orientations, disabilities, socioeconomic backgrounds, regions, and nationalities are strongly encouraged to share their rich array of perspectives and experiences. If you feel your differences may in some way isolate you from our classroom community or if you have a specific need, please contact me early in the semester so that we can work together to help you become an active and engaged member of our class and community.

Accessibility/Equity: The goal for all of our students is for access to all information and remove as many barriers as possible to learning. If you feel that you have difficulty accessing the information for WHATEVER reason, please talk to me. We have ways of lending technology (through IRT), helping with disabilities/learning differences and gaining accommodations (DAC), and emergency needs for housing, food, etc.. If it doesn't fall into those categories, please talk to me anyways: we can figure it out.

Basic Needs Support: If you are experiencing challenges with food, housing, financial, or other unique circumstances that are impacting your education, help is just a phone call or email away! The CARES office provides case management support for any enrolled student. Email the CARES office at cares@csus.edu to speak with a case manager about the resources available to you. Check out the [CARES web page](#)

Student Health and Counseling Services

Your physical and mental health are important to your success as a college student. Student Health and Counseling Services (SHCS) in The WELL offers medical, counseling, and wellness services to help you get and stay healthy during your time at Sac State. SHCS offers: Primary Care medical services, including sexual and reproductive healthcare, transgender care, and immunizations; urgent care for acute illness, injuries, and urgent counseling needs; pharmacy for prescriptions and over-the-counter products; mental health counseling, including individual sessions, group counseling, support groups, mindfulness training, and peer counseling; athletic training for sports injury rehabilitation; wellness services, including nutrition counseling, peer led health education and wellness workshops, and free safer sex supplies; violence and sexual assault support services. Most services are covered by the Health Services fee and available at no additional cost.

Title IX

Students and faculty each have responsibility for maintaining a safe and respectful space to express their reasoned opinions. Professional courtesy and consideration for our classroom community are especially important with respect to topics dealing with differences in race, color, gender and gender identity/expression, sexual orientation, national origin, religion, disability, and age.

While making personal connections with the topics studied in any course can be a meaningful and important endeavor, please be aware of the following policy regarding confidentiality and disclosures of incidents of sexual misconduct/sexual violence. As your instructor, one of my responsibilities is to help maintain a safe learning environment on our campus. In the event that you choose to write, speak or otherwise disclose information about having experienced sexual misconduct/sexual violence, including rape, sexual assault, sexual battery, dating violence, domestic violence, or stalking and specify that this violence occurred while you or the perpetrator were a Sac State student, federal and state laws require that I, in my capacity as a “responsible employee,” must notify Sac State’s Title IX Coordinator. The Title IX Coordinator will contact you to inform you of your rights and options and connect you with support resources, including possibilities for holding accountable the person who harmed you. Please be advised that you will not be forced to share information and your level of involvement will be your choice.

Sac State's Title IX Coordinator: Skip Bishop Director of Equal Opportunity Del Norte Hall 2005
william.bishop@csus.edu 916-278-5770

If you do not want the Title IX Coordinator notified, instead of disclosing the experience to me, you can speak confidentially by contacting the following confidential resources:

* Campus Confidential Advocate – Laura Swartzen Email: weave@csus.edu

or phone Number: 916-278-5850 (during business hours) WEAVE 24/7 Hotline: 916-920-2952

Knowledge and Skills Acquisition (KASA) For Certification in Speech-Language Pathology

CSAD 229C Clinic Complex Communication Disorders

ASHA Knowledge and Skills Acquisition (KASA) tracking for courses and clinics in the MS program can be found online in the student's CALIPSO account.

This course has been designed to be in direct support of the following American Speech-Language Hearing Association (ASHA) Knowledge and Skills Acquisition for certification in Speech-Language Pathology:

3.1.1B Professional Practice Competencies

The program must provide content and opportunities for students to learn so that each student can demonstrate the following attributes and abilities and demonstrate those attributes and abilities in the manners identified.

Accountability

- Adhere to the professional codes of ethics, the speech-language pathology scope of practice documents, professional fiduciary responsibility for each client/patient/student served, and federal state, and institutional regulations and policies related to the profession of speech-language pathology and its services, including compliance with confidentiality issues related to the Health Insurance Portability and Accountability Act (HIPAA) and the Family Educational Rights and Privacy Act (FERPA).
- Differentiate service delivery models based on practice sties (e.g., hospital, school, private practice).
- Demonstrate an understanding of the effects of their actions and make appropriate changes as needed.
- Explain the health care and education landscapes and how to facilitate access to services in both sectors.

Effective Communication Skills

- Demonstrate the ability to communicate in a responsive and responsible manner with clients/patients/students, communities, and interprofessional team colleagues and other professionals.

Evidence-Based Practice

- Access and critically evaluate information sources, apply information to appropriate populations, and integrate evidence in provision of speech-language pathology services.

Professional Duty

- Demonstrate knowledge of one's own role and those of other professions to appropriately assess and address the needs of the individuals and populations served.
- Demonstrate knowledge of the roles and importance of interdisciplinary/ interprofessional assessment and intervention and be able to interact and coordinate care effectively with other disciplines and community resources.
- Demonstrate knowledge of the roles and importance of individual and collective (e.g., local, national organizations) advocacy for clients/patients/students' right to care.
- Demonstrate knowledge of the role of clinical teaching and clinical modeling as well as supervision of students and other support personnel.

3.1.2B Foundations of Speech-Language Pathology Practice

The program must include content and opportunities to learn so that each student can demonstrate knowledge of the foundations of Speech-language pathology. The program must include content and opportunities to learn so that each student can demonstrate knowledge of the discipline of human communication sciences and disorders;

- basic human swallowing processes, including the appropriate biological, neurological, acoustic, psychological, developmental, and linguistic and cultural bases;
- ability to integrate information pertaining to normal and abnormal human development across the life span;
- nature of communication and swallowing processes
- swallowing (oral, pharyngeal, esophageal, and related functions, including oral function for feeding; orofacial myology);

Knowledge of the above elements includes each of the following:

- etiology of the disorders or differences,
- characteristics of the disorders or differences,
- underlying anatomical and physiological characteristics of the disorders or differences,
- acoustic characteristics of the disorders or differences (where applicable),
- psychological characteristics associated with the disorders or differences,
- developmental nature of the disorders or differences,
- linguistic characteristics of the disorders or differences (where applicable),
- cultural characteristics of the disorders or differences.

3.1.3B Identification and Prevention of Speech, Language, and Swallowing Disorders and Differences+C8

The program must include content and opportunities to learn so that each student can demonstrate knowledge of

- principles and methods of identification of swallowing disorders and differences
- principles and methods of prevention of swallowing disorders.

3.1.4B Evaluation of Swallowing Disorders and Differences

The program must include content and opportunities to learn so that each student can demonstrate knowledge and skills in assessment across the lifespan for disorders and differences associated with

- swallowing (oral, pharyngeal, esophageal, and related functions, including oral function for feeding; orofacial myology)

3.1.5B Intervention to Minimize the Effects of Changes in the Speech, and Language Mechanisms

The program must include content and opportunities to learn so that each student can demonstrate knowledge and skills in

- intervention for communication and swallowing differences with individuals across the lifespan to minimize the effect of those disorders and differences on the ability to participate as fully as possible in the environment.
- intervention for disorders and differences of
 - o articulation;
 - o fluency;
 - o voice and resonance, including respiration and phonation;

- o receptive and expressive language (phonology, morphology, syntax, semantics, pragmatics, prelinguistic communication, and paralinguistic communication) in speaking, listening, reading, writing, and manual modalities;
- o hearing, including the impact on speech and language;
- o swallowing (oral, pharyngeal, esophageal, and related functions, including oral function for feeding; orofacial myology);
- o cognitive aspects of communication (e.g., attention, memory, sequencing, problem solving, executive functioning);
- o social aspects of communication (e.g., behavioral and social skills affecting communication);
- o augmentative and alternative communication needs.

3.1.6B General Knowledge and Skills Applicable to Professional Practice

The program must include content and opportunities to learn so that each student acquires knowledge and skills in working with individuals with communication and swallowing disorders across the lifespan and by demonstration of

- ethical conduct;
- integration and application of knowledge of the interdependence of speech, language, and hearing;
- engagement in contemporary professional issues and advocacy;
- engagement in self-assessment over the duration of the program to improve effectiveness in the delivery of clinical services;
- clinical education and supervision;
- clinical counseling skills appropriate to the individual, family members, caregivers, and others involved in care;
- professionalism and professional behavior that is reflective of cultural and linguistic differences;
- interaction skills and interpersonal qualities, including counseling and collaboration;
- ability to work effectively as a member of an interprofessional team.

3.2B An effective speech-language pathology program is characterized by planning and organization, is reviewed systematically and on a regular basis, and is consistent with current knowledge and practice guidelines of the profession.

The program must demonstrate that the

- o curriculum is planned and based on current standards of speechlanguage pathology practice;
- o curriculum is based on current literature and other current documents related to professional practice and education in speech-language pathology;
- o curriculum is delivered using sound pedagogical methods;
- o curriculum is reviewed systematically and on a regular basis;
- o review of the curriculum is conducted by comparing existing plans with current standards of speech-language pathology practice, current literature, and other documents related to professional practice and education in speech-language pathology.

3.3B An effective speech-language pathology program is planned and delivered in an organized, sequential, and integrated manner to allow each student to meet the program's established learning goals and objectives and develop into a competent speech-language pathologist.

The program must demonstrate how the courses and clinical experiences are organized and sequenced and allow for integration across all elements of the program.

3.4B An effective speech-language pathology program is organized and delivered in such a manner that diversity, equity, and inclusion are reflected in the program and throughout academic and clinical education. The program must provide evidence that diversity, equity, and inclusion are incorporated throughout the academic and clinical program, in theory and practice.

- The program must provide evidence that students are given opportunities to identify and acknowledge approaches to addressing culture and language that include cultural humility, cultural responsiveness, and cultural competence in service delivery.
- The program must provide evidence that students are given opportunities to identify and acknowledge the impact of both implicit and explicit bias on clinical service delivery and actively explore individual biases and how they relate to clinical services.
- The program must provide evidence that students are given opportunities to identify and acknowledge:
 - o The impact of how their own set of cultural and linguistic variables affects patients/clients/students care.
 - o The impact of cultural and linguistic variables of the individual served may have on delivery of effective care.
 - o The interaction of cultural and linguistic variables between the caregivers and the individual served.
 - o The social determinants of health and environmental factors for individuals served.
 - o The impact of multiple languages and ability to explore approaches to addressing bilingual/ multilingual individuals requiring services.
- The program must provide evidence that students are given opportunities to recognize that cultural and linguistic diversity exists among various groups and foster the acquisition and use of all languages (verbal and nonverbal), in accordance with individual priorities and needs.

3.5B An effective speech-language pathology program is organized so that the scientific and research foundations of the profession are evident. • The program must demonstrate the procedures used to verify that students obtain knowledge in

- o the basic sciences and statistics;
- o basic science skills (e.g., scientific methods, critical thinking);
- o the basics of communication sciences (e.g., acoustics, linguistics, and neurological processes of speech, language, and hearing).
- The program must demonstrate how the curriculum provides opportunities for students to
 - o understand and apply the scientific bases of the profession,
 - o understand and apply research methodology,
 - o become knowledgeable consumers of research literature,
 - o become knowledgeable about the fundamentals of evidence-based practice, o apply the scientific bases and research principles to clinical populations.

- The program must include research and scholarship participation opportunities that are consistent with the mission and goals of the program

Graduate Learning Outcome.

3.6B

The clinical education component of an effective entry-level speech-language pathology program is planned for each student so that there is access to a base of individuals who may be served that is sufficient to achieve the program's stated mission and goals and includes a variety of clinical settings, populations, and age groups. The comprehensive clinical experiences must include direct contact with individuals seeking service, consultation, recordkeeping, and administrative duties relevant to professional service delivery in speech-language pathology

The program must demonstrate that it has mechanisms to develop comprehensive plans of clinical educational experiences so that each student has an opportunity to o experience the breadth and depth of clinical practice, o obtain experiences with diverse populations, o obtain a variety of clinical experiences in different work settings, o obtain experiences with appropriate equipment and resources, o learn from experienced speech-language pathologists who will serve as effective clinical educators.

3.7B

An effective speech-language pathology program ensures that clinical education is provided in a manner that supports student development so that each student is prepared to enter professional practice. The type and structure of the clinical education is commensurate with the development of knowledge and skills of each student.

The program must demonstrate that the procedures used in clinical education ensure that student development is supported and that each student acquires the independence needed to enter professional practice. • The program must demonstrate that the clinical education component of the program is structured to be consistent with the knowledge and skills levels of each student.

3.8B

Clinical education is provided in a manner that ensures that the welfare of each person served by a student and clinical educator team is protected and in accordance with recognized standards of ethical practice and relevant federal and state regulations.

• The program must demonstrate that the supervision provided to each student is adjusted to ensure that the specific needs are met for each individual who is receiving services. • The program must demonstrate that the procedures used in clinical education ensure that the welfare of each person being served by the student and clinical educator team is protected. • The program must demonstrate that the services provided by the student and clinical educator team are in accordance with recognized standards of ethical practice and relevant federal and state regulations. • The program must demonstrate that it provides the opportunity for students to understand and practice the principles of universal precautions to prevent the spread of infectious and contagious diseases.

3.9B

Clinical education obtained in external placements is governed by agreements between the program and the external facility and is monitored by program faculty.

The program must have evidence of valid agreements (written or electronic) with all active external facilities in which students are placed for clinical practicum experiences. August 2017, rev. January 2023 Standards for Accreditation Page 24 of 41 • The program must have written policies regarding the role of students in the selection of externship sites and the placement of students in the sites. • The program must have written policies that describe the processes used by the program to select and place students in external facilities. • The program must have written policies and procedures that describe the processes used to determine whether a clinical site has the

appropriate clinical population and personnel to provide an appropriate clinical education experience for each student. • The program must have processes to ensure that the clinical education in external facilities is monitored by the program to verify that educational objectives are met.

3.10B

An effective entry-level speech-language pathology program ensures that its students know the expectations regarding their exercise of the highest level of academic and clinical integrity during all aspects of their education.

The program must have written policies and procedures that describe program expectations of student behavior with regard to academic and clinical conduct. • The program must have policies and procedures that describe the processes used to address violations of academic and clinical conduct, including, but not limited to, plagiarism, dishonesty, and all aspects of cheating, and violations of ethical practice.

CAA Program Standards

Program Standard Standard Language Requirement for Review

1 Program Design and Curriculum The program curriculum is grounded in theoretical and empirically supported practices for Speech-Language Pathology that address cultural and linguistic diversity, neurodiversity, and inclusion for the care and education of all students. Key curriculum elements include typical and atypical child growth and development from ages birth - 22; understanding learning trajectories of young children to young adults; designing and implementing linguistically, culturally, and neurodiverse affirming assessment and intervention services; implementing instructional strategies to develop early literacy skills; understanding and analyzing student achievement outcomes to improve learning; and understanding the range of factors affecting student learning including social determinants of health.

2 Foundations of Speech-Language Pathology Practice The program ensures that SLP candidates have received training and/or exposure in a wide variety of specialized academic instructional settings, including but not limited to: the home, virtual education settings, classrooms and programs for students ages 3-22, and public/nonpublic school programs. The program allows candidates to experience service delivery options within one or more of these settings that may include consultation, collaboration, professional development, telepractice, individual, small-group, whole-group, pull-out, and push-in services. The program prepares candidates in case management practices and strategies for students with disabilities and for those referred for special education services. This includes eligibility requirements, and an understanding of federal and state laws related to Speech-Language Pathology services for all students. The program provides candidates with training and opportunities for collaborating effectively with families to support their student's development and learning.

3 Clinical Practice The program ensures that each candidate completes a supervised clinical practicum in the California public school setting. During this time, candidates (1) acquire a minimum of 100 hours in direct services, (2) participate in speech and language evaluation and intervention, (3) EPC 4C-4 February 2025 write, present, and implement IEPs/IFSPs, (4) assist classroom teachers in providing modifications and accommodations of curriculum for students, and (5) monitor student progress. The program ensures that candidates acquire communication assessment and intervention experiences within the population of all students ranging in age from birth - 22.

4 Preparing Candidates to Master the Speech-Language Performance Expectations The program's organized coursework and clinical practice provide multiple opportunities for candidates to learn and apply each SLPE. As candidates progress through the curriculum, faculty and other qualified supervisors assess candidates' performance in relation to the SLPEs and provide timely performance feedback regarding candidates' progress toward mastering the SLPEs.

California Commission on Teaching Credentialing - Common Standards

Program Standard 1: Program Design and Curriculum The program curriculum is grounded in theoretical and empirically supported practices for Speech-Language Pathology that address cultural and linguistic diversity, neurodiversity, and inclusion for the care and education of all students. Key curriculum elements include typical and atypical child growth and development from ages birth - 22; understanding learning trajectories of young children to young adults; designing and implementing linguistically, culturally, and neurodiverse affirming assessment and intervention services; implementing instructional strategies to develop early literacy skills; understanding and analyzing student achievement outcomes to improve learning; and understanding the range of factors affecting student learning including social determinants of health.

Program Standard 2: Foundations of Speech-Language Pathology Practice The program ensures that SLP candidates have received training and/or exposure in a wide variety of specialized academic instructional settings, including but not limited to: the home, virtual education settings, classrooms and programs for students ages 3-22, and public/nonpublic school programs. The program allows candidates to experience service delivery options within one or more of these settings that may include consultation, collaboration, professional development, telepractice, individual, small-group, whole-group, pull-out, and push-in services. The program prepares candidates in case management practices and strategies for students with disabilities and for those referred for special education services. This includes eligibility requirements, and an understanding of federal and state laws related to Speech-Language Pathology services for all students. The program provides candidates with training and opportunities for collaborating effectively with families to support their student's development and learning.

Program Standard 3: Clinical Practice The program ensures that each candidate completes a supervised clinical practicum in the California public school setting. During this time, candidates (1) acquire a minimum of 100 hours in direct services, (2) participate in speech and language evaluation and intervention, (3) write, present, and implement IEPs/IFSPs, (4) assist classroom teachers in providing modifications and accommodations of curriculum for students, and (5) monitor student progress. The program ensures that candidates acquire communication assessment and intervention experiences within the population of all students ranging in age from birth - 22.

Program Standard 4: Preparing Candidates to Master the Speech-Language Performance Expectations The program's organized coursework and clinical practice provide multiple opportunities for candidates to learn and apply each SLPE. As candidates progress through the curriculum, faculty and other qualified supervisors assess candidates' performance in relation to the SLPEs and provide timely performance feedback regarding candidates' progress toward mastering the SLPEs.

Speech-Language Pathology Services Credential candidates will:

1. Demonstrate knowledge of developmental and behavioral milestones for California students from ages birth - 22 required to access the core curriculum.
2. Collect relevant information regarding individuals' past and present status and family and health history.
3. Use knowledge of communication disabilities to determine the potential educational impact.
4. Appropriately select, administer, interpret, and document the results of least-biased assessment measures¹ for all students.

5. Appropriately select, implement, and document intervention services for all students.
6. Demonstrate knowledge of the principles and processes of assessment, selection, and treatment for augmentative and alternative communication (AAC).
7. Demonstrate written communication skills needed to document performance and progress of students.
8. 9. Engage in interprofessional practice with teachers and other relevant personnel. Demonstrate relevant methods of consultation and collaboration with teachers, families, and additional members of the educational team to support students' learning across education contexts.
