CSAD 126

Speech Sound Development and Disorders in Children: Aspects of Articulation and Phonology

Instructor: Celeste Roseberry-McKibbin, Ph.D., C.C.C.-SLP Spring, 2021 Office: *email* is celeste@csus.edu 3 units Website: <u>www.hhs.csus.edu/homepages/SPA/Roseberry</u> Tuesday-Thursday 7:30-8:45

TEXTBOOKS

Bernthal, J.E., Bankson, N.W., 7 Flipsen, P. (2017). *Articulation and phonological disorders: Speech sound disorders in children* (8th ed.). Pearson Education. Required.

Book of case studies. Required. Available at the bookstore.

PowerPoint outlines are posted on my website:

www.hhs.csus.edu/homepages/SPA/Roseberry

Prerequisite(s): CSAD 110, CHDV 30, PSYC 2, STAT 1, and DEAF 51.

Study of typical articulation and phonological development in children. Discussion of etiologies and specific characteristics of speech sound disorders. Introductory description of foundational specific assessment and treatment principles. Analyzes case studies.

Equal Access:

California State University-Sacramento, Department of Communication Sciences and Disorders, seeks to provide equal access to its programs, services, and activities for people with disabilities. If you have a documented disability and verification from the Office of Services to Students with Disabilities (SSWD), and wish to discuss academic accommodations, please contact your instructor as soon as possible. It is the student's responsibility to provide documentation of disability to SSWD and meet with a SSWD counselor to request special accommodation before classes start. Sacramento State Services to Students with Disabilities (SSWD) offers a wide range of support services and accommodations for students in order to ensure students with disabilities have equal access and opportunity to pursue their educational goals. Working collaboratively with students, faculty, staff and administrators, SSWD provides consultation and serves as the information resource on disability related issues to the campus community. SSWD is located in Lassen Hall 1008 and can be contacted by phone at (916) 278-6955 (Voice) or (916) 278-7239 (TDD only) or via email at sswd@csus.edu.

1. List and describe the structural (anatomical--physiological) mechanisms of speech production.

2. Demonstrate knowledge of basic definitions of articulation and phonology and be able to explain the clinical distinction between *articulation* and *phonology*.

3. Demonstrate knowledge of typical speech sound development in children, including being able to list major milestones from birth through age 8.

4. Explain models of speech sound development and disorders in children.

5. Identify the phenomenology and etiology of speech sound development and disorders in children.

6. Explain the concept of speech sound *differences* vs. *disorders* in children and adults who speak English as a second language.

7. Discuss principles for effective, nonbiased assessment and treatment of multicultural children with speech sound disorders.

8. Explain variables (e.g., language, sensory) related to speech development and performance.

9. List and describe assessment procedures for children with speech sound disorders and demonstrate ability to interpret and apply this information to specific cases discussed in class.

11. List and describe intervention principles and currently-used clinical techniques for use with children with speech sound disorders.

12. Identify basic treatment principles and procedures for adults and children with organic and neurogenic disorders such as dysarthria and childhood apraxia of speech.

13. Describe methods and materials for integrating intervention for speech sound disorders into the Common Core State Standards for school-aged children.

14. Expand on information presented in lectures through class discussion and interaction, analyzing the information and making critical evaluations of it from research and clinical perspectives.

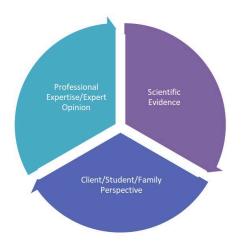

15. Understand and apply research to specific case studies of children with speech sound disorders as presented in class.

16. Promote the student's knowledge of evidence-based practice through analysis of relevant current research.

17. Incorporate principles of cultural competence as a foundation for all assessment and treatment procedures.

18. Discuss the importance of integrity, effective communication skills, and accountability when working with clients and their families.

19. Highlight procedures for engaging in collaborative practice with other professionals in order to provide the most comprehensive services for clients.

COURSE OUTLINE

1/26/21 COURSE INTRODUCTION

1/28/21 FOUNDATIONS OF SPEECH SOUND DEVELOPMENT AND DISORDERS

Fundamentals of articulatory phonetics—consonants and vowels Suprasegmental aspects of speech

Chapter 2

2/2/21 FOUNDATIONS OF SPEECH SOUND DEVELOPMENT AND DISORDERS (continued)

Phonetics and speech sound disorders Phoneme classification Dynamics of speech production

Chapter 2

2/4/21 TYPICAL DEVELOPMENT: INFANCY THROUGH EARLY SCHOOL YEARS

Infant milestones; development of meaningful speech Stages of infant speech development

Chapter 3

2/9/21 TYPICAL DEVELOPMENT: INFANCY THROUGH EARLY SCHOOL YEARS (continued)

Factors influencing typical speech sound acquisition

Chapter 3

2/11/21	4 TYPICAL DEVELOPMENT: INFANCY THROUGH EARLY SCHOOL YEARS (continued)
	Chapter 3
	Development of the sound system Speech intelligibility
2/16/21	TYPICAL DEVELOPMENT: INFANCY THROUGH EARLY SCHOOL YEARS (continued)
	Development and use of phonological patterns
	Chapter 3
2/18/21	Test One
2/23/21	VARIABLES ASSOCIATED WITH SPEECH SOUND DEVELOPMENT AND PERFORMANCE
	Anatomical, neurological, and physiological factors Language skills, individual characteristics Environmental factors
	Chapter 4
2/25/21	VARIABLES ASSOCIATED WITH SPEECH SOUND DEVELOPMENT AND PERFORMANCE
	Chapter 4
3/2/21	VARIABLES ASSOCIATED WITH SPEECH SOUND DEVELOPMENT AND PERFORMANCE
	Chapter 4
3/4/21	CULTURE AND COMMUNICATION: BIDIALECTICAL AND BILINGUAL CONSIDERATIONS
	African American English Spanish-Influenced English Asian and Pacific Islander languages
	Chapter 11
3/9/21	CULTURE AND COMMUNICATION: BIDIALECTICAL AND BILINGUAL CONSIDERATIONS (continued)
	Practical considerations for assessment and intervention
	Chapter 11

3/11/21	No class; Dr. Roseberry attending CSHA all day
3/16/21	TEST 2
3/18/21	ASSESSMENT OF SPEECH SOUND DISORDERS
	General principles of assessment; assessment objectives Conducting a speech screening Gathering a case history
	Chapter 6
Have a wonderful S	pring break! 🐵
3/30/21	ASSESSMENT OF SPEECH SOUND DISORDERS
	Administering standardized tests Collecting connected speech samples Conducting stimulability testing Performing contextual and speech discrimination testing
	Chapter 6
4/1/21	ASSESSMENT CONTINUED
	Analyzing and interpreting assessment information Making a diagnosis and prognosis
	Chapter 7
4/6/21	ASSESSMENT OF CHILDREN WITH ORGANICALLY-BASED SPEECH SOUND DISORDERS
	Assessment of children with dysarthria and childhood apraxia of speech Assessment of children with cleft palate
4/8/21	Test 3
4/13/21	BASIC PRINCIPLES AND PROCEDURES IN THE TREATMENT OF SPEECH SOUND DISORDERS
	Selecting target behaviors and establishing baselines Developing measurable objectives Planning and developing a treatment program
4/15/21	MOTOR-BASED APPROACHES TO INTERVENTION
	Traditional approach to therapy—Van Riper Successive approximation/shaping Context utilization

5

Chapter 9

4/20/21 MOTOR-BASED APPROACHES TO INTERVENTION

Traditional approach to therapy—Van Riper Successive approximation/shaping Context utilization Core vocabulary approach

Chapter 9

4/22/21 TREATMENT OF CHILDREN WITH CHILDHOOD APRAXIA OF SPEECH

Dynamic temporal and tactile cuing Rapid syllable transition treatment Prompts for restructuring oral muscular phonetic targets (PROMPT)

Chapter 9

4/27/21 LINGUISTICALLY-BASED APPROACHES TO INTERVENTION

Minimal and maximal contrast approaches Hodson's cycles approach Metaphon approach, naturalistic, and whole language approaches

Chapter 10

4/29/21 LINGUISTICALLY-BASED APPROACHES TO INTERVENTION

Minimal and maximal contrast approaches Hodson's cycles approach Metaphon approach, naturalistic, and whole language approaches

Chapter 10

5/4/21 SPECIFIC TREATMENT TECHNIQUES—INDIVIDUAL PHONEMES

5/4/21	Assignment due-	-upload into	Canvas by	y 5:00 PM
--------	-----------------	--------------	-----------	-----------

5/6/21 SPECIFIC TREATMENT TECHNIQUES—INDIVIDUAL PHONEMES

5/11/21 TEST 4

5/13/21 Wrap up, discussion of what is on the final

COURSE REQUIREMENTS

Participation. Although attendance and participation are not formally graded, I will informally note them. I will take role randomly on days as I choose. I anticipate that you will do all assigned readings. All readings should be completed **before class** on the day they are to be discussed. Please remember that lectures will be much easier to follow if you have read the day's assignment BEFORE you come to class. I suggest that you do the following:

- 1. Before class, read the reading(s) and highlight important information.
- 2. Attend class, hear the lecture.
- 3. After class, re-read the reading(s).

**I recommend that you review the day's lecture notes LATER THAT SAME DAY. This aids retention. Be sure to study all along! Research with adult learners indicates that in order to truly master information, you have to hear it at least four times and practice it six-eight times. Thus, you are encouraged to review and study course material frequently. **We forget 95% of what we hear within 72 hours.

4. <u>4 Examinations</u>. 100 POINTS EACH

Five examinations will be given. You are required to take at least 4 of them. <u>NO MAKE-UP</u> <u>EXAMINATIONS ARE EVER GIVEN UNLESS THERE IS A DOCUMENTED MEDICAL</u> <u>EMERGENCY AND YOU HAVE WRITTEN PROOF</u>. If you are allowed a make-up, the make-up can only be done during the week **before** dead week. (Dead week is the week before finals.) You are responsible for contacting the professor for this makeup. No makeups are given during dead week for any reason, including medical.

If you are unable to take a test during the posted time frame on Canvas, then you are required to take the one offered during finals week. There will be a 72-hour time frame for each exam, and you will have 90 minutes. Exams will be true-false and multiple choice.

You are welcome to choose not to take any one of the exams offered during the semester; however, if you miss a second exam, that score will be recorded as a "zero" and averaged in with your other test scores counting towards your final grade. If you choose to take all 5 exams, your lowest score will be thrown out and your 4 highest scores averaged together.

Examinations are based on lectures, readings, and case studies. Lectures will cover some of the book information plus additional information not covered in the text. Thus, class attendance is encouraged. Examinations will include 50 true-false and multiple choice questions worth 2 points each. Each exam is worth 100 points, and will be administered via Canvas. A minimum of 30 points on the exam will cover material in the readings not directly referred to in the lecture. Thus, doing the readings is critical to good test performance.

I will follow university policy regarding cheating and regarding the administration of a grade of "Incomplete." Students are allowed to drop the course only for serious and compelling reasons. It is critical to avoid plagiarism. At CSUS, plagiarism is defined as "the use of distinctive ideas or works belonging to another person without providing adequate acknowledgement of that person's contribution." Incorporation of another's work into one's own work requires adequate identification and acknowledgement.

5. Assignment (50 points)

I will post the assignment on Canvas and email it to you as well. The assignment consists of creating therapy plans for two children who have speech sound disorders. Each client is worth 25 points. I'll have a sample of what I expect. Please use correct style: complete sentences, correct punctuation, and correct spelling and grammar are necessary. One point will be taken off for each style error. The assignment is due at the latest by 5:00 PM on 5/4/21. If it is late, I will take off -5 points per each day that it is late. Thank you for being prompt! I expect that this assignment will be approximately 1.5 pages long single-spaced typed. If you'd like to turn it in early, I'd love that!

LETTERS OF RECOMMENDATION

Please see my website for specifics about this—click on the Courses link, and follow this to Letters of Recommendation. I require a minimum of **4 weeks' (28 days)** notice, and all documents and forms must be turned in at least 4 weeks (28 days) in advance. I do not accept or fill out any requests or forms (hard copies *or electronic*) AFTER **November 10** in the fall and **April 10** in the spring. If an electronic link arrives after November 10 in the fall, for example, it will not be filled out until February of the new year.

EMAIL

I answer emails Monday through Friday during the school year between the hours of 6:00 A.M.-6:00 P.M. Thus, for 60 hours a week, I answer email and will do my best to reply within 1-2 days. I do not answer emails on weekends or during vacations. Any emails which come to me during vacations will be answered during the first week of the next semester.

GRADING CRITERIA

I will calculate your grade objectively. I will take your total number of points out of 450.

94.5-100	A	73.5-76.499	С
89.5-94.499	A-	69.5-73.499	C-
86.5-89.499	B+	66.5-69.499	D+
83.5-86.499	В	63.5-66.499	D
79.5-83.499	B-	59.5-63.499	D-
76.5-79.499	C+	Below 59.5	F

🛄 Study Tips 🎤

- 1. Review each day's lecture notes later that same day to aid retention.
- 2. Study with other people.
- 3. Recite and write. Repeat material out loud. Write it out in **longhand**. Writing out material by hand really helps solidify information in your memory.
- 4. Study a little every day rather than having 1-2 cram sessions. It is better to study 10-30 minutes a day than in two 5-6 hour sessions.
- 5. Remember, every course unit = 3 hours of studying outside of class a week. So, for a 3-unit class, you'd study/do homework 9 hours a week.
- 6. Write your own test questions in the instructor's format.
- 7. DO THE READINGS **<u>BEFORE</u>** CLASS.
- 8. Make flashcards for key terms. Carry these flashcards everywhere you go and review them whenever you have a minute. Put the term/definition on one side and the exact definition from the book on the other side.

CSAD 126: Speech Sound Development and Disorders in Children: Aspects of Articulation and Phonology

This course has been designed to be in direct support of the following American Speech-Language Hearing Association (ASHA) Knowledge and Skills Acquisition for certification in Speech-Language Pathology:

Standard IV-C: Speech, Language, Hearing, Communication, and Swallowing Disorders and Differences

- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: phonology, articulation disorders (including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.)
- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: receptive and expressive language disorders (phonology, morphology, syntax, semantics, pragmatics, prelinguistic communication, and paralinguistic communication) in speaking, listening, reading, writing, and manual modalities (including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.)

Standard IV-D: Prevention, Assessment, and Intervention

- The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of prevention, assessment, and intervention regarding articulation.
- The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of prevention, assessment, and intervention regarding receptive and expressive language (phonology, morphology, syntax, semantics, pragmatics, prelinguistic communication, and paralinguistic communication) in speaking, listening, reading, writing, and manual modalities.

Standard IV-B: Basic Human Communication Processes

- The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: linguistic bases of human communication.
- •

Learning Outcomes Competencies:

- Mastery of each student learning outcome listed below is indicated by a grade of C or better on each component of the corresponding measures listed in the table. Students are required to track their progress towards meeting each learning outcome and must make an appointment with the instructor for any grade equal to or less than a C. The instructor will suggest strategies to help you establish competence and knowledge in these areas.
- Students should track their progress towards meeting each learning outcome by listing their grades on the table below over the course of the semester.

Course Learning Outcome Components Indicating Competence Grades Received

		10	0
• 6-	-8	Examination 2	
• 9.	-13	Examinations 3 and 4, Assignment	
• 14	4-16	Assignment	
• 11	7-20	Examinations 1-4
