Catalogue Course Description:

**CSAD 500T. Culminating Experience: Thesis. 2 Units**

**Prerequisite(s):** Advanced to Candidacy. Graded: Credit/No Credit.

**Term Typically Offered:** Fall, Spring

Independent research study, conducted under the supervision of faculty members. Thesis must involve a research question or hypothesis, review of pertinent literature, collection and analysis of data. It is the student's responsibility to locate and recruit subjects, to collect data, and to write the thesis. Students must follow all department and university thesis guidelines.

Place of Course in Program

This course is the culminating experience for students in their last two semesters of the graduate program in speech-language pathology. The student will complete research under the supervision of a faculty thesis advisor. Thesis units will be taken by students once they have advanced to candidacy as part of the Communication Sciences and Disorders Master's degree.

Sacramento State Graduate Learning Goals (GLG)

Course Learning Outcomes:
Upon completion of this course, students will demonstrate competency in the following areas for research:

1. Evaluation, as applicable
2. Intervention, as applicable
3. Writing
4. Interaction and Personal Qualities (Professional Behavior)

Upon completion of this course, the student will be able to:

1. Develop a question of inquiry commensurate with the graduate level of training
2. Conduct a search of the literature using relevant keywords and search terminology
3. Review research articles appropriate for the study background and purpose
4. Establish a rationale for the proposed investigation
5. Present the results of the literature search in written and oral modalities
6. Contribute to and/or design a methodology to address the area of inquiry under the guidance of faculty mentor
7. Implement appropriate data collection procedures for the designed study
8. Present study information via written and oral modalities that includes the following components: study background/purpose, methods, results and discussion

The above learning outcomes will be assessed through meetings with the faculty advisor and completion of a final thesis project.

Textbooks and Materials:
There are no textbooks assigned for this course. Students are encouraged to seek out resources for the thesis project in consultation with their faculty mentor.

Online Resources:
1. Students are encouraged to check their CSUS email daily.

Prerequisites:
Prior to enrolling in CSAD 500T, the following conditions must be met:
1. The student must have been advanced to candidacy.
2. The first and second readers judge that the first two chapters of the thesis (literature review and methodology) are sufficiently well-developed.
3. Her/his proposal has been approved by the Culminating Experience Committee no later than the 11th week of the second clinical semester. The proposal must include the first two chapters specified above.
4. Institutional Review Board Approval has been obtained. It is possible for this process to take a full academic year.
5. Written approval of the first reader has been accepted by the Department Chair.

Course Requirements/Components:
A thesis is an independent research project, conducted by the student under the supervision of members of the faculty. A thesis must involve a research question or hypothesis, review of pertinent literature, and the collection and analysis of data. It is the student's responsibility to locate and recruit participants and to collect the data, as well as to write the thesis. Projects that include the generation of original data are preferred; however, superior proposals based on file data or other secondary data sources will be considered.
The student is responsible for the following:

1. Preparing for and participation in meetings, as scheduled
2. Completing study objectives, data collection, analysis and presentation of the results
3. Completing a written thesis project as agreed-upon by the student and faculty advisor

Readings/Requirements:

Journal articles, textbooks/chapters and/or other online resources will be acquired by the student on an individual basis. Evidence based sources of information from peer reviewed journals will be employed. Additional readings will be provided by the faculty advisor to support the student’s growth and development as a researcher in the field.

Course Policies and Assignments:

Due Dates for All Assignments
Due dates will be established by the student and faculty mentor following discussion. A fall start plan of study is located at the end of this syllabus.

Policy for Completing CSAD 500T Coursework
A student enrolls in two units of CSAD 500T each semester s/he works on the thesis, up to a total of four units. If the thesis is not completed within two semesters, the student may enroll in continuous enrollment (CSAD 599) if not otherwise actively enrolled for two additional semesters. Students are allowed a maximum of three semesters past the semester of first registering in 500T to complete their thesis for a maximum of four semesters total. Students who do not finish the thesis within the first semester of enrolling in 500T will receive a grade of “Report in Progress” (RP). If a student does not complete the thesis within the four total semesters, s/he will receive a No Credit (NC) grade for the original units and must enroll in 500C for the culminating experience.

Thesis Handbook
A handbook is available for students that describes the policies and procedures of completing a thesis. The student is responsible for adhering to the policies and procedures of the handbook and achieving the milestones delineated therein.

Plan of Study
Under the mentorship of the faculty advisor, the student will create a Plan of Study. The Plan of Study is a document used to assist the graduate student in achieving expected thesis milestones. Failing to adhere to the deadlines established in the Plan of Study will delay the timeline to graduation.

Grading Policy:

The student’s final grade will be computed based upon completion of the thesis requirements, with a grade of “credit” or “no credit” assigned.

Additional Information

Commitment to Integrity:

As a student in this course (and at this university) you are expected to maintain high degrees of professionalism, commitment to active learning and participation in this class and also integrity in your behavior in and out of the classroom.
Sac State’s Academic Honesty Policy & Procedures:

“The principles of truth and honesty are recognized as fundamental to a community of scholars and teachers. California State University, Sacramento expects that both faculty and students will honor these principles, and in so doing, will protect the integrity of academic work and student grades.” Read more about Sac State’s Academic Honesty Policy & Procedures at the following website: http://www.csus.edu/umanual/student/stu-0100.htm

Definitions: At Sac State, “cheating is the act of obtaining or attempting to obtain credit for academic work through the use of any dishonest, deceptive, or fraudulent means.” Plagiarism is a form of cheating. At Sac State, “plagiarism is the use of distinctive ideas or works belonging to another person without providing adequate acknowledgement of that person’s contribution.” Source: Sacramento State University Library Note: Any form of academic dishonesty, including cheating and plagiarism, shall be reported to the Office of Student Conduct, Division of Student Affairs.

Understand When You May Drop This Course:

It is the student’s responsibility to understand when he/she need to consider disenrolling from a course. Prefer to the Sac State Course Schedule for dates and deadlines for registration. After this period, a serious and compelling reason is required to drop from the course. Serious and compelling reasons include: (a) documented and significant change in work hours, leaving student unable to attend class, or (b) documented and severe physical/mental illness/injury to the student or student’s family. Under emergency/special circumstances, students may petition for an incomplete grade. An incomplete will only be assigned if there is a compelling extenuating circumstance. All incomplete course assignments must be completed by the department’s policy.

Equal Access:

California State University-Sacramento, Department of Communication Sciences and Disorders, seeks to provide equal access to its programs, services, and activities for people with disabilities. If you have a documented disability and verification from the Office of Services to Students with Disabilities (SSWD), and wish to discuss academic accommodations, please contact your instructor as soon as possible. It is the student’s responsibility to provide documentation of disability to SSWD and meet with a SSWD counselor to request special accommodation before classes start. Sacramento State Services to Students with Disabilities (SSWD) offers a wide range of support services and accommodations for students in order to ensure students with disabilities have equal access and opportunity to pursue their educational goals. Working collaboratively with students, faculty, staff and administrators, SSWD provides consultation and serves as the information resource on disability related issues to the campus community. SSWD is located in Lassen Hall 1008 and can be contacted by phone at (916) 278-6955 (Voice) or (916) 278-7239 (TDD only) or via email at sswd@csus.edu.

Basic Needs Support

If you are experiencing challenges in the area of food and/or stable housing, help is just a click, email or phone call away! Sacramento State offers basic needs support for students who are experiencing challenges in these areas. Please visit our Basic Needs website to learn more about your options and resources available. https://www.csus.edu/basicneeds/

Knowledge And Skills Acquisition (KASA) For Certification in Speech-Language Pathology

CSAD 500T Culminating Experience: Thesis

Standard IV-C: Speech, Language, Hearing, Communication, and Swallowing Disorders and Differences

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: phonology, articulation disorders (including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.)
• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: fluency disorders (including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.)
• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: voice and resonance disorders (including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.)
• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: receptive and expressive language disorders (phonology, morphology, syntax, semantics, pragmatics, prelinguistic communication, and paralinguistic communication) in speaking, listening, reading, writing, and manual modalities (including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.)
• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: hearing disorders (including the impact on speech and language including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.)
• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: swallowing disorders (oral, pharyngeal, esophageal, and related functions, including oral function for feeding; orofacial myofunction,) including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.
• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: cognitive aspects of communication (e.g., attention, memory, sequencing, problem solving, and executive functioning), including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.
• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: social aspects of communication (e.g., behavioral and social skills affecting communication), including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.
• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: communication modalities, including the etiologies, characteristics, and anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.

Standard IV-D: Prevention, Assessment, and Intervention

• The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of prevention, assessment, and intervention regarding articulation.
• The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of prevention, assessment, and intervention regarding fluency.
• The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of prevention, assessment, and intervention regarding voice and resonance.
• The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of prevention, assessment, and intervention regarding receptive and expressive language (phonology, morphology, syntax, semantics, pragmatics, prelinguistic communication, and paralinguistic communication) in speaking, listening, reading, writing, and manual modalities.
• The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of prevention, screening, and intervention regarding hearing, including the impact on speech and language.

• The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of prevention, assessment, and intervention regarding swallowing (oral, pharyngeal, esophageal, and related functions, including oral function for feeding; orofacial myofunction).

• The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of prevention, assessment, and intervention regarding cognitive aspects of communication (e.g., attention, memory, sequencing, problem solving, and executive functioning).

• The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of prevention, assessment, and intervention regarding social aspects of communication (e.g., behavioral and social skills affecting communication).

• The student will demonstrate the ability to analyze, synthesize, and evaluate knowledge re: the principles and methods of assessment and intervention regarding communication modalities.

Standard IV-E, IV-G, IV-H: Contemporary Professional Issues

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: standards of ethical conduct.

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: contemporary professional issues and advocacy.

Standard IV-F: Research

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: processes used in research and integration of research principles into evidence-based clinical practice.

Standard V-A: Oral and Written Communication

• The student will demonstrate skill in oral and written or other forms of communication sufficient for entry into professional practice.

Standard IV-B: Basic Human Communication Processes

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: biological bases of human communication.

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: neurological bases of human communication.

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: acoustic bases of human communication.

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: psychological bases of human communication.

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: developmental/lifespan bases of human communication.

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: linguistic bases of human communication.

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: cultural bases of human communication differences.

Standard IV-B: Swallowing Processes

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: biological bases of human communication.

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: neurological bases of human communication.

• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: psychological bases of human communication.
• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: developmental/lifespan bases of human communication.
• The student will demonstrate the ability to analyze, synthesize and evaluate knowledge re: cultural bases of human communication differences.

Semester 1: Fall Semester

- Review the required process for completing a thesis by reading through this document
- Decide on whether or not you wish to pursue a thesis
- Decide on a topic area (e.g., speech sound disorders, fluency disorders, etc.)
- Meet with potential thesis advisors (who have or may have an interest in your chosen topic area) to mentor you through the project
- Decide on a topic and read the literature
- Confirm a primary thesis advisor/mentor (first reader)
- Attend OGS workshop for thesis students

REQUIRED BENCHMARKS:
1. First reader to approve topic
2. First reader to commit to supervision by the end of the semester

Semester 2: Spring Semester

- Identify and confirm a second reader
- Develop a research question and a method of investigation; obtain confirmation from primary thesis advisor
- Draft an introduction and methods section of your proposal
- Finalize draft of the proposal by the 7th week of the semester
- Submit a draft of the proposal to first and second readers by the 9th week of the semester

REQUIRED BENCHMARKS:
1. Obtain approval from first and second readers on proposal by the 11th week of the semester
2. Submit the IRB application by week 12

Semester 3: Fall Semester

- Register for 500 T
- Collect data
- Analyze data
- Write results and discussion sections of final document

REQUIRED BENCHMARKS:
1. Draft of thesis submitted to first reader by end of the semester

Semester 4: Spring Semester

- Register for 500 T
- Analyze data
- Write results and discussion sections of final document

REQUIRED BENCHMARKS:
1. Submit final version of thesis by the 10th week of the semester to primary and second readers
2. Make appointment to meet with OGS to sign final documents by the 12th week of the semester
