

## Charles T Sanders, AuD

My name is Charley Sanders and I am a part-time faculty member in the Communication Sciences and Disorders Department. I have been teaching undergraduate courses here at CSUS since 2006. I am an alumnus of Sacramento State, where I received my Bachelor's and Master's Degrees. When I first graduated it was not possible to get a doctoral degree in Audiology at a CSU. So, I ventured outside and received my Doctor of Audiology degree in Pennsylvania. Now I am so excited to start teaching in the Doctor of Audiology program at CSUS. The Fall of 2020 we will be welcoming our first new cohort and I am so proud to have been asked to participate. My Teaching Philosophy I believe that an instructor is morally obligated to enter the session with only the highest of expectations for every student. Thus, the instructor maximizes the positive benefits that naturally come along with any self-fulfilling prophecy. With dedication, perseverance, and hard work, the students will rise to the occasion. I am always open to discussion and difference of opinion. I want to challenge you and I want you to challenge me. I aim to bring an open mind, a positive attitude, and high expectations to the session each day. I believe that I owe it to my students, as well as the community, to bring consistency, diligence, and warmth to my job in the hope that I can ultimately inspire and encourage such traits in the students as well. I want to help build the next great generation of Doctors of Audiology.
