

Department of Public Health

BS IN HEALTH SERVICES ADMINISTRATION

Why Health Services Administration?

We train future healthcare leaders to make health system work *well*. The BS in Health Services Administration (HSA) program combines hands-on learning and dedicated faculty support to help students grow professionally while developing the global perspective necessary for success in today's healthcare environment.

Why Sacramento State?

We prepare students to make meaningful contributions in regional health systems, public health networks, and health services through university and community-based programs that blend the physical, mental, emotional, and social dimensions of learning.

Gain essential skills to thrive in diverse healthcare settings. Our alumni are sought after in the job market, working in leading organizations such as Kaiser Permanente, Sutter Health, and UC Davis Health, as well as clinics, health departments, and public health agencies across the state.

You'll be guided by faculty who are committed to your success. HSA faculty mentor students, helping you navigate your academic journey, explore career options, and prepare for graduate programs, ensuring you feel supported every step of the way.

FUTURE JOB OPPORTUNITIES

Job opportunities over the next 10 years are expected to grow ***much faster than most other fields.***

23%

Job growth over the next 10 years

Health services administrators earn wages that exceed the average for other managerial roles and for all occupations.
