

INSTITUTE OF HAZARDOUS MATERIALS MANAGEMENT

Student Associate Safety and Health Manager

STUDENT ASHM™

Eligibility Requirements

www.ihmm.org/student-ashm

What is a Student Associate Safety and Health Manager?

There are over 1.5 million people who graduate with a Bachelor's degree each year. While undeniably valuable, how do you clearly distinguish yourself from everyone else in a highly competitive job market? Therein lies the value of obtaining a professional certification.

IHMM's **Student Associate Safety and Health Manager (ST/ASHM™)** is for undergraduate or graduate students enrolled in a program with a concentration on safety, workplace safety, or management that may lead to a professional position post graduation in which the fully accredited CSHM is in demand. A ST/ASHM may also be a member of the workforce but returning to school to expand their knowledge and capabilities in these important areas.

Get a head start on your career! Match with mentors to guide you before entering the workforce. Discover internships and demonstrate your commitment to career advancement and personal achievement in service to EHS/workplace safety.

ELIGIBILITY REQUIREMENTS

Option 1: Enrollment in an IHMM-approved undergraduate or graduate school with a minimum of 30 credit hours of associated undergraduate school courses.

Option 2: Enrollment in an IHMM-approved undergraduate or graduate school with a minimum of 1,500 hours of associated work experience.
