Statement of research interests

Please complete an essay (500-1000 words) that includes the following:

1. Why you are interested in doing research
2. A description of the research project you will be working on, including a specific list of the goals of the project (as determined by you and your research mentor) including the anticipated number of weeks planned to work over summer.
3. Your career goals and how doing the research will benefit these goals
