

Graduate Research Advisor Search Form – Department of Chemistry

Graduate Student Name: _____

Year and semester entered program: _____

All entering graduate students should have a research advisor selected by the end of their first semester in the program. In order to become aware of the diverse research opportunities offered by various faculty, each student needs to discuss research opportunities with at least 3 chemistry faculty before committing to a research advisor. A student that has worked with a specific CSUS chemistry faculty member as an undergraduate and plans to continue working with that faculty member as a graduate student is not exempted from this process.

Faculty Signatures:

1. _____ Date: _____

2. _____ Date: _____

3. _____ Date: _____

Graduate coordinator or department chair signature:

_____ Date: _____

Once the form is completed, take it to the chemistry office and request that it be placed in your graduate file.
