

## Sac State Planetarium Field Trips – Arriving by Bus

Classes arriving by bus are strongly encouraged to utilize the North Entrance to campus (aka the J Street Entrance). Make a left at the dead end stop sign to stay on State University Drive, and then proceed through one light and one stop sign. Just after the second stop sign, pull off to the right (in front of the new Tschannen Science Complex) to unload. You can enter through the double doors into the first-floor lobby of the Science Complex. Look for the thirty-foot-tall Foucault Pendulum which swings just outside the entrance to the planetarium. No check-in is required, your field trip host will meet you outside the planetarium five to fifteen minutes before your scheduled field trip start time.

Your bus driver can proceed to Lot 10 at the south end of campus to wait for you, and then return to the same spot for pickup when your time in the planetarium is over. If your bus waits on campus, it will need to secure a virtual parking permit (two hour permits are available for \$4).
