

Department of Physics and Astronomy
SPRING 2023 Colloquium Series

“Brownian Motion, or: One CSUS Physics Major's Path (so far)”

Dr. Sasha Asghari

Sac State Physics Alumna, Class of 2012

CSUS Physics opens up a world of opportunities. In this talk, I'll discuss my path to and from CSUS Physics, including a PhD in Nuclear Engineering, then a career in industry. I will also discuss some practical tips, including preparing for the Physics GRE and grad school. By relating some of my own personal experiences, I aim to show that a degree in physics and a fulfilling career is possible for everyone!
