

Department of Physics and Astronomy  
SPRING 2022 Colloquium Series

# Research in “The Coolest Place in Sacramento”

**Dr. Michael Ray**

*Department of Physics & Astronomy,  
California State University, Sacramento*

In this short talk I will take you on a tour to show you why it is so cool to work in the Low Temperature Physics Laboratory. I'll briefly talk about some of the research that has been done in the lab, and the equipment that we use to reach temperatures just a degree above absolute zero. I will highlight work that past students have done, as well as possible projects for future students.

**Thursday, Feb. 10, 2022  
4:00 - 5:20PM**

Talk will be **IN PERSON** in MND1015 and not also recorded

*Open & Free to all students, faculty and public*
