STEM-Certified DEGREE

Develop analytical skills for modeling, interpreting, and understanding economic behavior with applications in business, public policy, and data analysis.

- Prepare for careers in private businesses and corporations, federal, state, and local government, non-profits, and academia.
- Obtain advanced training to prepare for a Ph.D. program.

Graduate courses are offered in the early evening to accommodate student work schedules.

ADMISSION

Admission as a classified graduate student in Quantitative Economics requires**:

- A baccalaureate degree
- Minimum 3.0 GPA in the last 60 units attempted
- Minimum 3.0 GPA in undergraduate Economics
- Intermediate Macroeconomic Theory
- Intermediate Microeconomic Theory
- Introductory Econometrics
- A minimum of one semester of Calculus
- Two letters of recommendation
- Minimum score of 550 on the TOEFL if BA earned where English is not the primary language

** Students not meeting the above requirements may be granted conditional admission with permission of the Department Graduate Committee.

CURRICULUM

Requires 5 core courses, 4 electives, and a Master's Thesis, for 30 semester units with a 3.0 minimum GPA.

	Fall Semester	Spring Semester
