We are geared toward photographers who are interested in creating better photos through exploring the various modes and settings of their cameras to achieve that end. This semester we will explore techniques such as photographing still life, how to tell a story, and taking better travel photos among others. We will hold the seminar using Zoom this semester. Field trips and other photo opportunities will provide potential possibilities to practice what is learned in class. With safety being our highest priority, we will practice social distancing and other safety measures according to our Renaissance Society guidelines and Sacramento Health Dept. Covid 19 restrictions.
