## **Week of July 4, 2026 NO EVENT**

### **Friday, July 10, 2026 Sacramento Zoo FEE**

<https://www.eventbrite.com/e/1989856979792?aff=oddtcreator>

Time 9:45 am

Registrations begin: June 26

Description: The Sacramento Zoo is home to over 300 native, rare or endangered animals. Their mission is to inspire appreciation, respect and a connection with wildlife and nature through education, recreation and conservation. We'll gather in the Kampala conference room, adjoining the Kampala café, at 10:00 for a talk from senior staff about the challenges and rewards of running a zoo. At 10:30 we'll split into groups of 20 for a docent-led tour where they'll talk about how they maintain the physical and mental health of so many diverse species. Make a day of it!

### **Friday July 17, 2026 Sac State Planetarium (one show per RS member)**

<https://www.eventbrite.com/e/1988216278410?aff=oddtcreator>

Time: 10-11am

Registrations begin: July 3rd

Description: NASA's James Webb Space Telescope (JWST) has now completed its third full year of image releases! In the third year we have been given intricate looks into the hearts of nebulae, galaxies, and even stars in the process of being born. NASA scientists have also worked carefully to map out some JWST images to turn them into 3-D models that we can simulate a flight through. Join us for an updated version of our JWST show, featuring all new material from some of the best images and video released over the course of the third year of data releases. Stare in awe at the beauty and be amazed at the science behind it all as your astrophysicist host explains not only what you are seeing, but why it appears the way it does. It's a big universe out there, come explore it with us!

### **Friday July 17, 2026 Sac State Planetarium (one show per RS member)**

<https://www.eventbrite.com/e/1988216725748?aff=oddtcreator>

Time: 1:30-2:30

Registrations begin: July 3rd

Description: Planet Earth's aurorae are more than just a beautiful sight, they are ongoing proof of Mother Nature's planetary protection system that keeps life on Earth safe from the lethal dangers of outer space. Come enjoy fantastic footage of the

Northern Lights at their most spectacular while also learning about the fascinating science behind the lights and what they mean for us here on Earth.

**Friday July 24, 2026 The Magic of Motown – Music – History – Legacy with Mike Agron**

<https://www.eventbrite.com/e/1988784779813?aff=oddtcreator>

Time: 10-11:30

Registrations begin: Date to allow registrations to begin: July 10th

Description: Join us for a lively, music-filled journey into the formative years (1957–1962) of Motown, where Berry Gordy Jr. turned ambition into a sound that transcended race, culture, and geography—and helped redefine popular music. In this engaging session, we'll explore how that vision took shape, breaking barriers and bringing audiences together through a new and unmistakable sound. We'll hear the hits that built the foundation—from Jackie Wilson and Marv Johnson to Barrett Strong, Smokey Robinson & the Miracles, The Marvelettes, Mary Wells, and The Contours.

**Friday July 31, 2026 Backstage Tour of Harris Center with El Dorado Musical Theatre**
