

Joining a Zoom Meeting for Android

First Step (one time only):

Download the App from the Google Play Store. Search for “ZOOM Cloud Meetings”

Join a Meeting from an email

Most of the time, tapping on the **Join Zoom Meeting** link in an email invitation or text message invite, will connect you to your meeting. The link is convenient because both the meeting ID and encrypted password are in it. The Meeting ID is at least 10 digits. Some meetings will require you to enter a password for added security.
