

Joining a Zoom Meeting for iPhone

First Step (one time only):

Download the App from the Apple Store. Search for “ZOOM Cloud Meetings”

Join a Meeting from an email

Most of the time, tapping on the **Join Zoom Meeting** link in an email invitation or text message invite, will connect you to your meeting. The link is convenient because both the meeting ID and encrypted password are in it. The Meeting ID is at least 10 digits. Some meetings will require you to enter a password for added security.

Audio	 Unmute	 Mute	<p>If you see a red line through the microphone, that means no one can hear you talking; tap Unmute and now everyone can hear you. Tap Mute again and you will not be heard.</p>
Video	 Start Video	 Stop Video	<p>If you see the red line through the camera, no one in the meeting can see you, instead they just see your name. Tap Start Video and now everyone in the meeting can see you. However, sometimes you may want to Stop Video if something is going on behind you, or you're having a bad hair day.</p>
View			<p>By default, you are in Speaker view when you first join a meeting. Swipe left to switch to Gallery view. In Gallery view, the maximum number of people you can see at one time is 4.</p>
