

NIH FACILITIES and OTHER RESOURCES

After completing this form, remember to cut the blue instructive text prior to submission

This information is used to assess the capability of the organizational resources available to perform the effort proposed. Identify the facilities to be used (Laboratory, Animal, Computer, Office, Clinical and Other). If appropriate, indicate their **capacities, pertinent capabilities, relative proximity and extent of availability to the project**. *Describe only those resources that are directly applicable to the proposed work*. Provide any information describing the Other Resources available to the project (e.g., machine shop, electronic shop) and the extent to which they would be available to the project.

No special form is required but this section must be completed and attached for submissions to NIH and other PHS agencies unless otherwise noted in an FOA. Describe how the scientific environment in which the research will be done contributes to the probability of success (e.g., institutional support, physical resources, and intellectual rapport). In describing the scientific environment in which the work will be done, discuss ways in which the proposed studies will benefit from unique features of the scientific environment or subject populations or will employ useful collaborative arrangements.

For Early Stage Investigators (ESIs): Describe institutional investment in the success of the investigator. See NIH's [New and Early Stage Investigator Policies](#). Your description may include the following elements:

- resources for classes, travel, or training;
- collegial support, such as career enrichment programs, assistance and guidance in the supervision of trainees involved with the ESI's project, and availability of organized peer groups;
- logistical support, such as administrative management and oversight and best practices training;
- financial support, such as protected time for research with salary support

If there are multiple performance sites, describe the resources available at each site. Describe any special facilities used for working with biohazards or other potentially dangerous substances.

Include square footage, address and other important physical aspects of the following spaces:

LABORATORY:

ANIMAL:

COMPUTER:

OFFICE:

CLINICAL:

OTHER:

EQUIPMENT

List major items of equipment already available for this project and, if appropriate, identify their location and pertinent capabilities.

Note: Unless otherwise instructed in a Funding Opportunity Announcement, the Equipment document should be uploaded to the SF424 application package as a separate attachment, not included with the Facilities and Other Resources document.
