National Institutes of Health
Deadline: Feb 05, 2020
Supports research investigating the epidemiology of alcohol use, alcohol-related harms, and alcohol use disorders and the prevention of underage drinking, alcohol-related harms, and alcohol use disorders. Research findings on the rates, developmental patterns, and risk and protective factors of alcohol use and alcohol-related problems will provide a scientific basis for the development of more effective prevention strategies. Annual deadlines: 2/5, 6/5, 10/5 through 5/8/20. Optional companion funding is available.

Research on Autism Spectrum Disorders (R01)
National Institutes of Health
Deadline: Feb 05, 2020
Supports research designed to study the etiology, epidemiology, diagnosis, treatment and optimal means of service delivery in relation to autism spectrum disorders (ASD). Basic research into the pathophysiology of ASD, including research on brain mechanisms and genetics, is of special interest. Program intended to support research goals of the Strategic Plan
for ASD Research. Annual deadlines: 2/5, 6/5, 10/5 through 1/8/21. Optional companion funding is available.

**Research to Understand and Inform Interventions that Promote the Research Careers of Individuals in the Biomedical Sciences (R01 - Clinical Trial Not Allowed)**
National Institutes of Health
Deadline: Feb 05, 2020
Supports research geared towards test training, mentoring, and networking interventions intended to enhance research-oriented individuals' interest, motivation, persistence and preparedness for careers in the biomedical research workforce. LOIs are due 30 days prior to the application due date. Annual deadlines: 2/5, 6/5 and 10/5 through 1/8/22.

**AHRQ Small Research Grant Program (R03)**
Agency for Healthcare Research and Quality
Deadline: Feb 16, 2020
Supports ongoing small research projects. The R03 grant mechanism covers an array of health services research projects including pilot and feasibility studies; secondary analysis of existing data; small, self-contained research projects; development of research methodology; and development of new research technology. Annual deadlines: 2/16, 6/16, and 10/16 through 1/8/22.

**NIH Small Research Grant Program (Parent R03)**
National Institutes of Health
Deadline: Feb 16, 2020
Supports discrete, well-defined projects that realistically can be completed in two years and require limited levels of funding. Examples of project themes include pilot and feasibility studies; secondary analysis of existing data; self-contained research projects; development of research methodology; and development of new research technology, etc. Direct costs cap at $100,000 over a two-year period, with no more than $50,000 in direct costs allowed in a single year. Annual deadlines: 2/16, 6/16, and 10/16 through 1/8/22.

**Typical and Atypical Patterns of Language & Literacy in Dual Language Learners (R21-Clinical Trial Optional)**
National Institutes of Health
Deadline: Feb 16, 2020
Supports investigator-initiated applications that will inform our understanding of the typical and atypical patterns of language and literacy development of dual language learners (DLLs) in the United States. Applicants are encouraged to take advantage of advances in the language sciences and related fields to identify and clarify specific cognitive, linguistic, neurobiological, and sociocultural factors associated with normal and impaired language and literacy acquisition in young DLL populations. Annual deadlines: 2/16, 6/16, 10/16 through 12/17/20.
Natural Science and Mathematics

Science to Achieve Results (STAR) Research Grants
U.S. Environmental Protection Agency
Details: https://www.epa.gov/researchgrants
Deadline: Dec 10, 2019
Supports research grants in numerous environmental science and engineering disciplines through a competitive solicitation process. Current solicitation: Approaches to Reduce Nutrient Loadings of Harmful Algal Blooms Management (12/10/19).

Environmental Education Local Grants Programs
U.S. Environmental Protection Agency
Details: https://www.epa.gov/education/environmentaleducation-ee-grant-solicitation-notice
Deadline: Jan 06, 2020
Supports projects that conduct locally-focused environmental education projects that design, demonstrate, and/or disseminate environmental education practices that promote environmental awareness and stewardship and help provide people with the skills to take responsible actions to protect the environment. Approximately 30 awards, three to four from each of the ten EPA regional offices, are available to support projects lasting up to two years. Cost sharing is required. Exactly 25 percent of the total award amount must go to sub grantees.

Developmental Sciences
National Science Foundation
Details: http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=8671
Deadline: Jan 15, 2020
Supports basic research that increases our understanding of cognitive, linguistic, social, cultural, and biological processes related to human development across the lifespan. Research supported by this program will add to our knowledge of the underlying developmental processes that support social, cognitive, and behavioral functioning, thereby illuminating ways for individuals to live productive lives as members of society. Currently accepting individual investigator and workshop/small conference proposals. Annual deadlines: target dates are 1/15 and 7/15.

Sociology
National Science Foundation

Deadline: Jan 21, 2020
Supports basic research in areas related to human evolution and contemporary human biological variation. Supported research areas include human genetic variation, human adaptation, human osteology and bone biology, human and nonhuman primate paleontology, functional anatomy, and primate socioecology. Annual deadlines: January 20 (January 21 in 2020) and July 20. Program also supports doctoral dissertation research improvement grants. Annual deadlines: January 20 (January 21 in 2020) and July 20.

**Economics**
National Science Foundation
Deadline: Jan 21, 2020 (target date)
Supports research designed to improve understanding of the processes and institutions of the U.S. economy and of the world system of which it is a part. Supports research in almost every area of economics, including econometrics, economic history, environmental economics, finance, industrial organization, international economics, labor economics, macroeconomics, mathematical economics, and public finance. Annual deadlines: target dates are 1/18 (1/21 in 2020) and 8/18.

**Joint Genome Institute**
U.S. Department of Energy
Details: [https://jgi.doe.gov/user-programs/program-info/howto-propose-a-csp-project/](https://jgi.doe.gov/user-programs/program-info/howto-propose-a-csp-project/)
Deadline: Jan 31, 2020
Supports basic, multidisciplinary research towards understanding plants, microbes, and microbial communities relevant to DOE missions in bioenergy, carbon management, and the environment. FOAs include Community Science Program (CSP) Annual Call (4/11/19); Joint Genome Institute/Environmental Molecular Science Library Collaborative Science Initiative (3/20/19); CSP New Investigator Call (9/4/19) Synthetic Biology (TBD); and CSP Functional Genomics (01/31/20). Deadlines for CSP Annual Call and JGI-EMSL refer to required LOIs.

**Louis Stokes Alliances for Minority Participation (LSAMP)**
National Science Foundation
Details: [http://tinyurl.com/44resev](http://tinyurl.com/44resev)
Deadline: Jan 31, 2020
Supports the graduation of well-prepared, highly-qualified students from underrepresented groups who pursue graduate studies or careers in STEM. Funding mechanisms include: Bridge to the Doctorate (first Friday in November); STEM Pathways and Research Alliances (TBD); New and Renewal LSAMP Pre-Alliance Planning (third Friday in November); Bridge to the Baccalaureate (third Friday in November); STEM Pathways Implementation-Only Projects (third Friday in November); and Louis Stokes Regional Centers of Excellence in Broadening Participation (last Friday in January). Limited submission: one proposal per institution, alliance, PI, or Co-PI. Annual deadlines: varies by mechanism.

**AALAS Grants for Laboratory Science**
American Association for Laboratory Animal Science Foundation
Details: [https://www.aalas.org/glas#.VF0-kMkjTl8](https://www.aalas.org/glas#.VF0-kMkjTl8)
Deadline: Feb 01, 2020
Supports competitive short-term research grants (up to $50,000 over one year) in the laboratory animal science field. Examples of research interest are environmental conditions; housing and enrichment; pain and distress; health and welfare; euthanasia; and, advancements in animal care and use. PIs must hold AALAS membership and are strongly encouraged to include collaboration in their proposals. AALAS membership is not required for collaborators. An updated application form and submission guidelines will be posted on December 1. Annual deadline: 2/1.

**Travel Grants and Mentoring Travel Grants**

Details: [https://awmmath.org/awards/awm-grants/travel-grants/](https://awmmath.org/awards/awm-grants/travel-grants/)
Deadline: Feb 01, 2020
Supports travel grants for women mathematics researchers and educators. The goal of this FOA is to enable women to attend conferences in fields supported by the NSF's Mathematical Sciences Division. Up to $2,300 is available for domestic travel and $3,500 for foreign travel. Mathematics mentoring travel grants (annual deadline: 2/1) provide up to seven awards of up to $5,000 each to help junior women researchers develop long-term working relationships with senior mathematicians. Other awards may be offered. Annual deadlines: 2/1, 5/1, 10/1.

**Cognitive Neuroscience (CogNeuro)**
National Science Foundation
Deadline: Feb 11, 2020
Supports highly innovative, interdisciplinary projects aimed at advancing rigorous understanding of how the human brain supports thought, perception, affect, action, social processes, and other
aspects of cognition and behavior, including how such processes develop and change in the brain and through evolutionary time. Emphasis is on integration of cognitive sciences, basic sciences, and engineering for insights into healthy functions of brain, cognition, and behavior. Annual deadlines: 2/11 and 8/13.

Sustainable Agriculture Research and Education Program (SARE)
U.S. Department of Agriculture
Details: http://www.sare.org/
Deadline: Feb 2020
Supports research and education projects exploring: farm renewable energy; pest and weed management; nutrient management; agroforestry; marketing; sustainable communities; systems research; etc. Grants fund projects that usually involve scientists, producers and others in an interdisciplinary approach. Calls for Proposals include Graduate Student Grants; Professional Development; Research & Education; and Educators. Deadlines vary by program and often by region.
Engineering, Technology, and Computer Science

Mechanics of Materials and Structures (MOMS)
National Science Foundation
Details: http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=13355
Deadline: Jan 2020
Supports fundamental research in mechanics as related to the behavior of deformable solid materials and respective structures under internal and external actions. Areas of emphasis include advances in theory, experimental and computational methods in mechanics, and the use of contemporary mechanics methods to address modern challenges in materials and structures. Proposals that explore and build upon advanced computing techniques and tools to enable major advances in mechanics are particularly welcome. Annual deadlines: proposals accepted at any time.

Partnerships for Innovation
National Science Foundation
Details: http://tinyurl.com/q8x4tju
Deadline: Jan 08, 2020
Offers researchers from all disciplines of science and engineering funded by NSF the opportunity to perform translational research and technology development, catalyze partnerships and accelerate the transition of discoveries from the laboratory to the marketplace for societal benefit. Funds support two project tracks: The Technology Translation track offers an NSF-funded researcher the opportunity to advance his or her prior NSF-funded research results towards developing technological innovations with promising commercial potential and societal impact; and The Research Partnerships (PFI-RP) track provides an opportunity to support technology development activities through a multi-organization collaboration. Limited submission: An organization may not submit more than one new or resubmitted PFI-RP proposal. Annual deadline: second Wednesday in January and July.

Campus Cyberinfrastructure (CC*)
National Science Foundation
Details: http://tinyurl.com/887qeml
Deadline: Jan 21, 2020
Supports coordinated campus-level networking improvements, innovation, integration, and engineering for science applications and distributed research projects. Funds support learning and workforce development in cyberinfrastructure. Science-driven requirements are the primary motivation for any proposed activity. Award types include: Data Driven Networking Infrastructure for the Campus and Researcher; Regional Connectivity for Small Institutions of Higher Education; Network Integration and Applied Innovation; Campus Computing and the Computing Continuum and Cyber Team-Research and Education CI-based Regional Facilitation.

Enabling Discovery through GEnomic Tools (EDGE)
National Science Foundation
Details: https://www.nsf.gov/funding/pgmsumm.jsp?pimsid=505480
Deadline: Feb 11, 2020
Supports the development of tools, approaches and infrastructure necessary for direct tests of cause and effect hypotheses between gene function and phenotypes in diverse plants, animals, microbes, viruses and fungi for which these methods are presently unavailable. Annual deadline: second Tuesday in February.
Human Networks and Data Science - Infrastructure (HNDS-I)
National Science Foundation
Deadline: Feb 24, 2020
Supports efforts to develop user-friendly large-scale next-generation data resources and relevant analytic techniques to advance fundamental research in social, behavioral and economic (SBE) sciences. Projects should construct such databases and/or relevant analytic techniques and produce a finished product that will enable new types of data-intensive research. Projects should have significant impacts, either across multiple fields or within broad disciplinary areas, by enabling new types of data intensive research in the SBE sciences.

PFE: Research Initiation in Engineering Formation
National Science Foundation
Details: [http://tinyurl.com/hdgsq7g](http://tinyurl.com/hdgsq7g)
Deadline: Feb 27, 2020
Support research in the Professional Formation of Engineers (PFE), and efforts to increase the community of researchers conducting PFE research. Focus areas include the formal and informal education and value systems by which people become engineers, and the ethical responsibility of practicing engineers to sustain and grow the profession. PIs are expected to have little or no experience conducting social science research. PFE: RIEF is not intended for established researchers in engineering education or other social science fields to initiate new projects. Annual deadline: last Thursday in February.
