Redefine the Possible

2021-2022

University Award for Research, Scholarship, and Creative Activity for Early-Career Faculty.

Dr. Jun Dai

Associate Professor of
Computer Science

College of Engineering and
Computer Science

*Facing the Cyber World: What
Mindset Should We Have?*

Dr. Jun Dai will discuss his understanding of a changing world with more and more things becoming connected via Internet, including how that can positively or negatively impact people's lives, what cybersecurity problems can happen, how they should be addressed, etc. Dr. Dai will introduce his research, scholarship and creative activities as endeavors to tackle these issues and demands.

October 14, 2022 • 11:00am

Riverview Hall, Elderberry/Beetle Room

This event is co-hosted by the Research and Creative Activity Subcommittee and the Offices of Research, Innovation, and Economic Development.
