Course technology requirements

Handouts and assignments are distributed only via Canvas. **Students have a responsibility to access course materials and assignments in a timely manner**; the instructor will not be held responsible for any circumstances, technical or personal, that prevent access to course material.

All required technology is available at low or no cost through student support services at Sac State. The CSUS library and Instructional Resource Technology office provide **free laptops** and Microsoft Word for students to use on a short- or long-term [basis](#). Students may use personal computers, but they must meet the following requirements:

- High-speed internet connection.
- Access to Canvas throughout the semester.
- Ability to use Zoom, Microsoft Word, and Adobe software.

Please do NOT use Google Docs OR portable devices as word processors in this course. The history profession uses Microsoft Word for its robust tools, especially footnotes. Google Docs often does not format footnotes correctly, and it is good to practice using the industry standard. **Use a computer and the desktop version of MS Word.** To obtain your free desktop version of MS Word (and Microsoft 365), go to office365.csus.edu and login with your Sac State login and password. Click on "Install and more."

For technical questions about Canvas, please:

- See [Canvas for Students](#) for common Canvas questions and solutions.
- Email the [Academic Technology Center](#) in AIRC 2005.
- Call (916) 278-7337.

The use of artificial intelligence to complete assignments without instructor permission is considered by the university to be academic dishonesty. The goal of education is not to complete assignments but to learn. Learning involves direct engagement with material and practice. Anything that prevents students from engagement and practice (such as plagiarism, buying a paper from someone else, or using AI to write papers) does not contribute to learning but in fact undermines it. Any work determined to be AI generated in this class will therefore be treated as the equivalent of plagiarism according to the policies in this syllabus. However, spelling and grammar checkers that do not write or rewrite papers are allowed.

Crisis Assistance & Resource Education Support (CARES)

If you are experiencing challenges with food, housing, financial or other unique circumstances that are impacting your education, help is just a phone call or email away. The [CARES](#) office provides case management support for any enrolled student.

Disability Access Center (DAC)

Sacramento State is committed to ensuring an accessible learning environment where course or instructional content are usable by all students and faculty. If you believe that you require disability-related academic adjustments for this class, please immediately contact the [Disability Access Center \(DAC\)](#) to discuss eligibility. A current accommodation letter from DAC is required before any modifications, above and beyond what is otherwise available for all other students in this class will be provided.

Part 2: Course objectives

In this course, students will be able to:

- Understand the intellectual evolution of the discipline of history.
- Understand and recognize modern theories shaping historical research and writing.
- Analyze critically and challenge different models of historical understanding, especially historicism, Marxism, historical sociology, structuralism, feminism, and postmodernism.
- Practice written communication, critical thinking, and other skills necessary for professional development in history, teaching, and related occupations.

Part 3: Course assignments

Students will meet the objectives listed above through a combination of the following activities. Details on rubrics, grading criteria, and assignment information are posted on Canvas. All deadlines are Pacific Time.

I. Attendance. Seminar attendance is mandatory. Attendance will be graded using the standard percentage scale, e.g., two missed sessions = 13/15 or 87%, B+.

II. Reading notes. Each week students must submit **one reading notes file** in MS Word format **that contains notes on each individual assigned reading** (e.g., if three readings are assigned, each reading will have a separate section in the one single file). These assignments are expected to be extensive and serious attempts to summarize and interrogate assigned readings with two components:

- 1) a summary/commentary of each individual weekly reading.
- 2) questions about each individual weekly reading for class discussion.

Post this assignment to the indicated Canvas assignment tool before 11:59 p.m. Tuesday before each week's Wednesday class session.

Students are expected to complete reading notes for each week's reading, but only the highest six (6) satisfactory scores will be averaged into the overall participation grade (i.e., the lowest scores above 0 will be dropped). Reading notes can be submitted late with a full grade penalty. **Scores with 0 WILL NOT BE DROPPED at the end of the course, so students should attempt all assignments.**

III. Book reviews. Four (4) professional-quality book reviews of an academic monograph, ideally in the student's areas of historical interest. Monographs for reviews 2-4 must have a methodological or theoretical approach as listed on the syllabus and **must contain a discrete paragraph with a detailed discussion of the strengths and/or weaknesses of that approach.** Review 1 can be on any topic as long as the book is a monograph published by a university press after 2000, while books for reviews 2-4 can be from any topic, publisher, or year as long as they represent the assigned theory (suggestions are provided on Canvas).

Book reviews should be between 750 and 1000 words and **will be submitted as a hard copy brought to class AND uploaded to Canvas in Word format. Post this assignment to the indicated Canvas assignment tool before 11:59 p.m. Tuesday before the peer review day.** The instructor will give a provisional grade if they are turned in on time, and rewrites will be accepted at the end of the term for rescoring without penalty. **Late papers will not receive feedback but can be turned in with a full grade penalty.**

IV. Book review analyses. For each book review analysis, submit a pdf or photographed copy of an academic book review of **a different book on a similar topic** AND a one-paragraph analysis of the strengths and/or weaknesses of the review (not the book). The book reviewed can have any methodology (i.e., it does not have to follow the assigned theory on the syllabus). **Post this assignment to the indicated Canvas assignment tool before class on the peer review day.**

Part 4: Course schedule

Part 5: Grading policy

Graded course activities

The course grade will be based on average grades in each category, not a cumulative point system. **To pass the class, students must demonstrate passing competence (at least 60%) in at least 60% of assignments within categories AND at least 60% of categories. In this class, students who have a failing grade in more than two categories will fail the course.** Students will be expected to follow the writing guide posted on Canvas in categories with formal writing. Missing work will be scored as 0.

Activity categories will be combined using this weighting:

Category	Assignment activity	% of course grade
I	Seminar attendance	10
II	Reading notes (6 satisfactory scores required to pass the category, lowest 4 of 10 not 0 dropped)	10
III	Book reviews	70
IV	Book review analyses	10

Late work

To be fair to students who work hard to make deadlines, late book reviews will receive a full letter grade penalty. **No other assignments will be accepted late.** Late work will normally be graded at the end of the semester, not when submitted, except upon request by the student directly to the instructor.

These late policies will be in force also for foreseeable scheduled power outages, COVID-19 physical distancing regulations, travel, and work schedule changes. Students are expected to be aware of technical and social limits that may impact their area of residence and to plan around them by completing work in advance and notifying the instructor.

Viewing grades in Canvas

This class does not use the Canvas gradebook for calculations. Grades and student progress indicators are calculated in an Excel spreadsheet and uploaded by the instructor. They can be viewed in the Canvas gradebook or Canvas assignments section (**click "View By Type"**). **For information see module 0.** The instructor will update the online grades each time a grading session has been complete (typically 7 days after the completion of an activity but often quicker).

Letter grade assignment

Grades for most work are given as letter grades, calculated and averaged using a 12-point system. Some assignments may be graded on a percentage basis. All are computed and rounded by Canvas or Excel. Missing work will be scored as 0.

Letter grade earned	Points used in calculation	Percentage equivalent	GPA equivalent	Standard
A	12	93-100	4.0	Excellent work
A-	11	90-92	3.7	Nearly excellent work
B+	10	87-89	3.3	Very good work
B	9	83-86	3.0	Good work
B-	8	80-82	2.7	Mostly good work
C+	7	77-79	2.3	Above average work
C	6	73-76	2.0	Average work
C-	5	70-72	1.7	Mostly average work
D+	4	67-69	1.3	Below average work
D	3	63-67	1.0	Poor work
D-	2	60-62	0.7	Very poor work
F	1	Below 60	0.0	Failing work
F	0	0	0.0	Not attempted

Part 6: Course policies

Build rapport

If you find that you have any trouble keeping up with assignments or other aspects of the course, make sure you let your instructor know as early as possible. As you will find, building rapport and effective relationships are key to becoming an effective professional. Make sure that you are proactive in informing your instructor when difficulties arise during the semester so that we can help you find a solution.

Complete assignments

All assignments for this course will be submitted electronically through Canvas. Assignments must be submitted by the given deadline. Late or missing assignments will impact the student's grade.

Understand when you may drop this course

It is the student's responsibility to understand when they need to consider disenrolling from a course. Refer to the Sac State Course Schedule for dates and deadlines for registration. After this period, a serious and compelling reason is required to drop from the course. Serious and compelling reasons include documented and significant change in work hours, leaving student unable to attend class, or documented and severe physical or mental illness or injury to the student or student's family.

Incomplete policy

Under emergency or special circumstances students may petition for an incomplete grade. Incompletes will not be given except for a documented emergency that prevents completion of the final assignments (missing online work is not eligible).

Communication policy

The instructor monitors email daily and will respond when contacted with questions. Normally a response should come immediately, but students should wait at least 24 hours before sending follow-up communications. The instructor will normally give feedback on assignments only through Canvas course rubrics but is happy to provide more personalized feedback by email, Zoom, or in person.

Part 7: Commit to integrity

By taking this class you agree to abide by the guidelines described in this syllabus and on the academic honesty page available on the Canvas site.

Students must respect the intellectual property of others in this class. Make sure to cite sources of other people's ideas; do not pass them off as your own. Copying from other students, assigned course work, or outside web sites without quotation and attribution will be treated as plagiarism and dealt with according to university policy. Students who plagiarize will be warned and receive an F for that assignment. On the second infraction, the student will receive an F for the course.

Turnitin tool

Formal written essays are reviewed using the Canvas Turnitin tool for writing feedback and originality check purposes.

Consistent with Sacramento State's efforts to enhance student learning, foster honesty, and maintain integrity in our academic processes, instructors may use a tool called Turnitin to compare a student's work with multiple sources. The tool compares each student's work with an extensive database of prior publications and

papers, providing links to possible matches and a "similarity score." The tool does not determine whether plagiarism has occurred or not. Instead, the instructor must make a complete assessment and judge the originality of the student's work.

Students should submit essays to Turnitin assignments without identifying information included in the paper (e.g., name or student number), the system will automatically show this info to faculty in your course when viewing the submission, but the information will not be retained by Turnitin.

Sac State's academic honesty policy & procedures

"The principles of truth and honesty are recognized as fundamental to a community of scholars and teachers. California State University, Sacramento expects that both faculty and students will honor these principles, and in so doing, will protect the integrity of academic work and student grades."

Definitions (from the Sacramento State University Library)

At Sac State, "**cheating** is the act of obtaining or attempting to obtain credit for academic work through the use of any dishonest, deceptive, or fraudulent means." For clarity, "**plagiarism is a form of cheating**," defined by the university as "the use of distinctive ideas or works belonging to another person without providing adequate acknowledgement of that person's contribution."

The use of artificial intelligence to complete assignments without instructor permission is considered by the university to be academic dishonesty. Any work determined to be AI generated in this class will be treated as the equivalent of plagiarism according to the policies in this syllabus.
