Please answer the following questions.

1. What are your professional goals?

2. Why do you want to work in a psychological research lab?

3. Please tell me a little about your experience/classes in research methods and statistics.

4. Describe your experiences using MS Word, Excel, and SPSS.

6. How many hours per week are you willing to dedicate to working on psychological research (1 - 9 hours)?

7. Is there anything else you want me to know about you?

If you are willing, I would appreciate an unofficial copy of your transcript.
